PORTSMOUTH

Trust and Guarantee Company!

Depositors Secured by a Special Deposit Fund of

$100,000 as GUARANTY

"Against all Possible Loss of Every Kind and Nature."

The Company continues to receive sums on deposit as a "SAVINGS BANK," allowing interest therefor. The plan of this institution cannot be better exemplified than by the following extract from a communication from a prominent Bank Examiner:

"I am satisfied that yours is the only true principle upon which a "Savings Bank" ought to be established and which affords *perfect security to every depositor.*"

The Board of Direction is composed of the following gentlemen, viz:

EZRA H. WINCHESTER, President.
JEREMIAH F. HALL, Vice President.

DIRECTORS.

FRANK JONES, EZRA H. WINCHESTER,
CHARLES MAIN, JEREMIAH F. HALL,
DANIEL MARCY, WILLIAM H. HACKETT,
JOHN SISE, THOMAS H. ODION,
EDWIN A. PETERSON,

GEORGE L. TREADWELL, Treasurer.

January 16, 1877.

Daily Chronicle.

—Five sons and seven daughters of the late Mr. and Mrs. Jonathan Parker, of Nantucket, are now living, whose ages are respectively 78, 76, 73, 70, 68, 65, 63, 59, 57, 55, 53, 51. These twelve constitute all the children of the family, except one who died in infancy. The father was, at the time of his death, 88, and the mother died at the age of 77.

—At a banquet recently given to the tenantry of the Williamston estate, in Wales, by its owner, Sir Owen Scourfield, one of the speakers mentioned something interesting to Americans in connection with the estate. "Some hundred years ago," he said, "a man named Adams, residing at Penbaek, near Llanboidy, one of the farms of the Williamston estate, emigrated to America, and a descendant of his became second President of the United States."

—A Rhode Island man recently told his son to cut a hole in the barn so that the cat could go in and out, the barn being infested with mice. The boy did so, locating it just where the barn door, when open, would cover the hole. "How in thunder is the cat to get into the barn when the hole is covered," asked the provoked father. "Why, through the door of course," replied the son. The parent suddenly remembered that he wanted something from the house, and went in after it.

Centaur Liniments.

One thing is now thoroughly established. Never since mankind suffered and human agencies alleviated pain has there been any thing which went so far as a pain annihilator and curative agent as the Centaur Liniments. These Liniments have within the past year cured more cases of Rheumatism, Neuralgia, Stiff Joints, Caked Breasts, Swellings, Poisonous Bites, Burns, Lame Animals, etc., etc., than all other remedies combined. As the name of Centaur implies half horse and half man, the Centaur Liniments are for man and beast. But not the same Liniment. The White Liniment is for man and the Yellow for horses and animals. Herein this Liniment differs from all other remedies, although some of the ingredients are alike in each. They contain the well-known Witch Hazel, Arnica, Carbolic, Rock Oil, Mentha and other powerful ingredients.

Wm. H. Hickcox, Rector of St. John's E. Church, Wakefield, Clay Co., Kansas, writes: "Many years I have been suffering from a Weak Back, caused from a sprain more than 40 years ago. I have not found any thing to relieve me until I commenced the use of Centaur Liniment. I feel it my Christian duty to inform you that by its wonderful effects I am entirely relieved of pain. January 23d, 1876."

Messrs. J. McClure & Co., Druggists, Cincinnati, Ohio, say:

"Transsiers pronounce the Yellow Centaur Liniment superior to any thing they have ever used. We well several dozen bottles per month, and the sale is steadily increasing."

These are only samples of thousands upon thousands of similar testimonials reaching us every month. All the Extracts, Embrocations, Salves and Liniments in existence are not doing one-tenth the good which is done by these admirable Centaur Liniments. For Frost-bites, Stings, Cuts, Itch, Salt Rheum, etc., there is nothing like the Centaur Liniment. White Wrapper, For Sprains, Bruises, Weak Sweeney, Wind-Galls, Poll-evil, Scratches, etc., on horses, the Yellow Centaur Liniment is equally as good. They are certain in their effects; they are pleasant to use, they are handy and they are cheap. No family should be without Centaur Liniments. They are worth one hundred times their cost.

J. B. ROSE & CO., 45 DEY ST., NEW YORK.

Castoria.

Mothers may have rest and their babies may have health, if they will use **Dr. Pitcher's Castoria** for Wind Colic, Worms, Feverishness, Sour Mouth, Croup, or Stomach Complaints. It is entirely a vegetable preparation, and contains neither mineral, morphine, nor alcohol. It is as pleasant to take as honey, neither gears nor gripes, and is superior to any remedy in existence.

Dr. E. Dimech, of Dupont, Ohio, says:

"I am using CASTORIA in my practice with the most signal benefits and happy results, and find it a perfect substitute for Castor Oil."

This is what every one says. Many nurses in New York use the CASTORIA. It is prepared by Messrs. J. B. ROSE & CO., successors to Samuel Pitcher, M. D. (nov1

The Centaur Liniments have created a revolution in remedies for Rheumatism, Brains, Swellings, Pains, Burns, Scalds, Stings, etc. The White Liniment is for the human family, and the Yellow Liniment is for horses. They are certain, handy and cheap.

Castoria is certain to operate. It does not nauseate or gripe like Castor Oil, but is pleasant to take, digests the food, regulates the bowels, cures wind colic, expels worms, and causes natural sleep. It is equally adapted to adults and infants. It contains neither Mineral, Morphine nor Alcohol. Children teething may have health, and mothers find rest, if they use Castoria. (nov1

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few competitors, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as Ayer's Cherry Pectoral. It has been known to the public about forty years, by a long continued series of marvellous cures, that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most efficacious cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

HATHAWAY SHIRTS.

A FEW MORE OF THOSE

CELEBRATED HATHAWAY SHIRTS,

Cut Low in the Neck, at

William P. Walker's,

19 No. 3 Market Square.

This Cut illustrates the Manner of Using

DR. PIERCE'S

Fountain Nasal Injector,

OR

DOUCHE.

This instrument is especially designed for the perfect application of

DR. SAGE'S CATARRH REMEDY.

It is the only form of instrument yet invented with which the fluid medicine can be carried high up and *perfectly applied* to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which sores and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. The want of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the ordinary methods. This obstacle in the way of effecting cures is entirely overcome by the invention of the Douche. Its use is pleasant and so simple that a child can understand it. **Full and explicit directions** accompany each instrument. When used with this instrument, Dr. Sage's Catarrh Remedy cures recent attacks of **"Cold in the Head"** by a few applications.

CATARRH

SYMPTOMS—Frequent headache, discharge falling into throat, sometimes profuse, watery, thick mucus, purulent, offensive, etc. In others, a dryness, dry, watery, weak, or inflamed eyes, dropping up of obstructions, of bones, passages, nostrils, throat, deafness, hawking and coughing to clear throat, uncertain, scales from nasal bones, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of appetite, indigestion, enlarged tonsils, tickling cough, etc. Only a few of these symptoms are likely to be present in any case at one time.

Dr. Sage's Catarrh Remedy, when used with **Dr. Pierce's Nasal Douche**, and accompanied with the constitutional treatment which is recommended in the pamphlet that wraps each bottle of the Remedy, is a perfect specific for this loathsome disease. It is mild and pleasant to use, contains no strong or caustic drugs or poisons. The Catarrh Remedy is sold at 50 cents, Douche at 50 cents, **by all Druggists.**

R. V. PIERCE, M. D., Prop'r,

BUFFALO, N. Y.

DR. QUAIN'S

MAGIC

CONDITION PILLS!

The Wonderful Remedy for Liver Complaint, Biliousness Dyspepsia, Constipation, Neuralgia, Rheumatism, Headache, Kidney Complaints, Nervousness, Scrofula, Piles, and all diseases arising from a bad state of the Blood!

So medicine ever offered to the public has given such universal satisfaction as Dr. Quain's Magic Condition Pills. Their praises are on every tongue where their merits are known. They strike at once at the seat of disease and show their healing power almost immediately. Thousands of voluntary testimonials of their merits have been received by the agent, from those who have been cured by them, of which the following are samples:

Dyspepsia Four Years, Constipation and Inflammation of the Bowels Three Years, Confined to my Room Two Years, Pain so I Could Not Sleep Without Morphine. One Package of Dr. Quain's Condition Pills Made Me Eat Well, Sleep Well and Free from Pain, after being given up by Physicians.

WEST LEBANON, ME., Feb. 22, 1

MR. THOMAS W. LANE:—I have been sick for 2½ years with Dyspepsia, and for the past three years Constipation and Inflammation of the Bowels, have suffered all the pain I could endure and live, have been confined to my room for two years, and could not sleep nights without the use of morphine. I have been given up by physicians as past cure. I have taken one package of DR. QUAIN'S CONDITION PILLS, and they have done me more good than all the doctors I have had. I sleep well, I eat well and have no pain. They are all they are recommended to be. Please send me three packages, as two of my neighbors wish to try them. I enclose $1.50.

Your truly, JOHN W. LORD.

Another Letter from Maj. John W. Lord, one month later: Wonderful Cures by Dr. Quain's Pills Effected on Him in Thirteen Days. First time Free from Pain for Three Years.

WEST LEBANON, ME., March 22, 1875.

MR. THOMAS W. LANE:—I commenced taking DR. QUAIN'S CONDITION PILLS the February 8th, and they wrote you February 22d of their wonderful effect. I have continued to improve ever since. My appetite is good, and I sleep as well as I ever did in my life. I am free from pain for the first time in three years. When I was taken sick four years ago, I weighed one hundred and eighty-six pounds; I now weigh one hundred and thirty; but as I am gaining in strength, I have faith I shall regain my flesh this summer, by the use of the Pills. I shall continue taking them for some time to come.

Yours truly, JOHN W. LORD.

Dr. Quain's Pills the Remedy for Soldiers' Aches and Pains.

WEST LEBANON, ME., June 1, 1875.

MR. THOMAS W. LANE—*Dear Sir:*—I am now able to walk out every day, and am gaining in strength very fast, all of which is due to you as agent for the best Pills in the world. I have taken no other medicine, and my improvement has been steady since first taking DR. QUAIN'S CONDITION PILLS. They have done everything for me, and I will say to you, advertise this direct to the soldiers, for they will certainly cure them of aches and pains caused from exposure and hardship on the field. Please send me by return mail another package.

JOHN W. LORD.

Rheumatism for Twenty Years Cured by One Package of Dr. Quain's Condition Pills—"The Best Medicine in the World."

EAST ANDOVER, N. H., Dec. 16, 1875.

MR. LANE—*Dear Sir:*—As I know the value of DR. QUAIN'S CONDITION PILLS and the good they have done me, it is a pleasure in giving them praise; so I send you another testimonial. My father has been troubled with Rheumatism for twenty years or more, and has tried everything that could be thought of, but to no good. At times it would be so bad that he could not lift his head from a pillow or do any work at all, especially in cold weather. A short time ago I advised him to get some of these Pills. He believed nothing in them, but I gave him the last package I had of you, as I did not need them, and he has not been an hour from the Rheumatic Complaint for years. No Rheumatism, no pain. What has led him? It was DR. QUAIN'S CONDITION PILLS, the best medicine in the world. There is nothing like them. *I know it*, for I have tried them; and they are all, yes, more than they are recommended to be. Give them a fair trial and you will say so. I write this because I know the goodness of them and wish others to know the same. Some may think I am telling a big story. I am. But remember I am not giving them half the praise they ought to have.

Yours with respect, ED. F. FEVARE

Wonderful Effect of Four Doses of Dr. Quain's Condition Pills upon Neuralgia of Twelve Years' Duration—Testimony of Rev. J. S. Patton.

DAINGERFIELD, MORRIS CO., TEXAS, Nov. 15, '75.

MR. THOMAS W. LANE—*Dear Sir:*—I have been afflicted for near twelve years with Neuralgia in the face and head. I tried I do not know how many physicians, and could only get partly relieved. I also tried many patent medicines with the same result. I have been confined to my room most all the time for eight or ten winters, and have been traveling and visiting medical springs, and I still suffered most intensely. The physicians pronounced my case the worst and most stubborn that they had had anything to do with. One told me I could never get well; they all advised me to go South and spend the winter, and as the only chance they could see for me, and I was trying to get ready to go to Florida, when through the kindness of Rev. H. M. Mathis, my attention was called to the advertisement of Dr. Quain's Magic Condition Pills. I immediately sent to you for a package. I have taken four doses and I am almost free from pain. The impression here seems to be that if your pills will cure me, they will cure anybody. I have five applications to send for the pills. Enclosed please find three dollars; send five packages to one and one to Mrs. Laura Sherrell, Sulpsur Springs, Hopkins county, Texas.

Yours truly, J. S. PATTON

Liver Complaint, Nervousness, Dropsy and Headache.

LACONIA, N. H., Jan. 29, 1875.

THOS. W. LANE—*Sir:*—I have been troubled with Bad Blood, Liver Complaint, Nervousness, Dropsy and Headache. I have taken one package of DR. QUAIN'S CONDITION PILLS. They have done me more good than all the medicine I ever took; I have taken considerable medicine within the last five years. For the nervous I think there is nothing so good as those pills. I can recommend them to all who are similarly afflicted, they have done me so much good. I think they will recommend themselves wherever they go. I shall recommend those Pills to all who need them. Please send me two packages more, one for myself and one for a lady friend of mine. Many thanks to the inventor, agent and advertiser of those Pills.

MRS. P. L. ELLIOTT.

DR. QUAIN'S MAGIC CONDITION PILLS are put up only by the AMERICAN MEDICINE CO., Manchester, N. H., THOMAS W. LANE, Agent.

For Sale in Portsmouth at the

N. E. P. Union store, Market St

JOHN H. SLATER,

AGENT.

PULMOCINE.

BUCHMAN'S PULMOCINE CORDIAL

is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best *Pulmonary Curative* as could prescribe, after dozen years spent in experimenting with it before it was satisfied that the Materia Medica could add nothing in its favor.

Is the ultima thule of Medical Discovery.

Among its many ingredients are *Wild Cherry Bark, Spoil Root, Liquorice Root, Blood root, &c.* It is a Blood Purifier, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alternative. It is a necessary family medicine. It is a Tonic and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the lungs, irritating climate of New England

PULMOCINE CORDIAL

Is a speedy and reliable Preventive and Remedy. Every Family should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred *Throat Diseases* at all times prevalent, it is the ounce of *Prevention*. Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate each. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this *Family Medicine* prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and notknowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all this afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and patient's danger is past.

For Coughs,

Croup,

Diphtheria,

Asthma, etc.,

USE

Buchman's Pulmocine Cordial.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, also lately pure and unadulterated.

Secures Patents in the United States; also in Great Britain, France and other foreign countries. I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents., BOSTON, October 19, 1870.

R. H. EDDY, Esq.—Dear Sir: You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you.

Yours truly, GEORGE DRAPER.

BOSTON, January 1, 1877. 3tawtian178

AMERICAN & FOREIGN PATENTS!

[ESTABLISHED 1865.]

GILMORE & CO., Successors to CHIPMAN HOPMER & CO., Solicitors. Patents procured in all countries. NO FEES IN ADVANCE. No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a rehearing. Special attention given to Interference Cases before the Patent Office. Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. SEND STAMP TO GILMORE & CO. FOR PAMPHLET OF SIXTY PAGES.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,897,500 acres of Bounty Land Warrants outstanding. These were issued under acts of Congress of 1850 and prior dates. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

OFFICERS, SOLDIERS and SAILORS of the late war or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All OFFICERS, SOLDIERS and SAILORS wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & CO.

Cases prosecuted by GILMORE & CO. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & CO. is thus secured. We desire to win success by deserving it. ADDRESS

GILMORE & CO.,

PORTSMOUTH.

CITY HEALTH REGULATIONS.

THE BOARD OF HEALTH OF THE CITY OF PORTSMOUTH call the attention of the public to the following sections of Chapter 10, of the Revised Ordinances, and invite all interested in the preservation of health in our city to aid them in the execution of their duty:

SEC. 5. All waste water of houses, yards, cellars, sinks, pumps, etc., shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

SEE. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners and occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

SEC. 6. No vendor of meat at the stalls shall be permitted to leave any stale meat, heads, feet or offal of any kind about their stalls or stores over night, or suffer them to be thrown into any street, lane or alley of the city. Nor shall any sellers of fish be permitted to throw any offal of fish into any street, lane or alley of the city, or upon any wharf, but shall either bury them or throw them into the river beyond low water mark.

SEC. 7. If any dead animal or decaying vegetable substance, or any other nuisance, shall be found in any part of the city, the owners or occupiers of the premises where such nuisance shall be found, shall cause the same to be removed within twenty four hours after notified so to do by one or more of the health officers.

SEC. 12. When any householder shall know that any person within his family is taken sick of the small pox, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Health Officers.

SEC. 13. When any physician shall know that any person whom he is called to visit is infected with the small pox, or any other disease dangerous to the public health, such physician shall immediately give notice thereof to the Health Officers.

SEC. 14. If any such householder or physician shall refuse or neglect to give the notice required in the preceding sections, he shall for each refusal or neglect, forfeit the sum of twenty dollars, to be recovered by either of the Health Officers in the name of the city.

SEC. 16. The Health Officers may give written notice to the owner or occupier of any building, vessel or enclosure, to remove or destroy any nuisance or other thing deemed by them on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said Health Officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, vessel or enclosure, and cause said nuisance or other thing aforesaid to be removed or destroyed.

SEC. 21. No person shall erect, keep or continue, or permit to be erected, kept or continued, upon any land occupied by him, any pen for the keeping of swine, or privy, over either of the mill ponds in this city, or so placed that offensive substances therefrom shall be discharged or drained into either of the ponds or into any creek, or cove, or drain leading thereto. And no person shall construct, keep or continue any drain leading from any pen for the keeping of any swine, slaughter-house, privy vault, or other unwholesome or offensive place, into either of said ponds, or to any flat or marsh adjoining the same. And no person shall throw or suffer to be thrown from his land into either of said ponds, or upon any of said flats or marshes, any dead, decaying, unwholesome or offensive animal or vegetable substances.

AYER'S SARSAPARILLA,

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake with the Iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and vexatious. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors which should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

Fine Tobacco Free!

TRY IT!

If any person who appreciates a really fine grade of TOBACCO, for Smoking or Chewing, will send us their address by Postal Card, we will send in return (*free of expense*) a sample of the very *best Tobacco* in the market, manufactured by the

MERCHANTS' TOBACCO CO.,

416 30 Broad Street, Boston, Mass.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color.

It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

Portsmouth Chronicle.

Amateur Opera.

A correspondent of the Hartford *Times* gives the following account of the first appearance in opera, before a chess club of which he was a member, of the now famous tenor Foley:

Even while pursuing his course under Dr. Barnett, Mr. Foley marked out his career as an opera singer, and studied to perfect himself in the different parts. He admired "Norma" exceedingly and proposed to get up a scene from it for the enjoyment of the chess club. He drilled the chorus, learned his own part, and as it was whispered something unusual was coming off on a certain evening, the back parlor was crowded, and so great was the impatience that I am afraid chess was sadly neglected the first part of the evening. I don't believe Mr. Foley has had to work as hard since to make an opera pass off well, for, beside his own part, he drilled the chorus, performing wonders with the awkward squad, giving a hint when the Greek fire was to be lighted, and directing the actors when he was off the stage. The first part went off very well, but the gem of the evening was coming, in a solo by Mr. Foley as high priest, with a wreath of real oak leaves on his head, and a young member of the chess club, who couldn't sing, but sighed to appear in opera, was to throw the blue fire on the stage at a certain moment. The lights were put down to make the scene more effective. Mr. Foley sang on, and as time passed and no blue light, the flash of his eyes might have set the powder on fire. The young man held the tin plate and poured on the powder, but it would not catch.

Mr. Foley began to look dangerous. All at once the fire flashed up, the smoke rose to the ceiling, and the sulphurous smell was awful. The audience arose in great consternation, the young man jumped out from behind the scenes, dancing around with the hot plate in his hands, and finally rushed to the window and threw it out. Mr. Foley's solo was stopped, the audience laughed and turned on the gas; the poor fellow who managed the Greek fire looked like a singed cat. There was a great call for Mr. Foley, but he had disappeared in the darkness. Afterwards he was found in the back kitchen moaning:

"I'm ruined entirely! The High Priest in 'Norma' has made a fool of himself!"

Since he has been abroad he wrote to a friend in Hartford that he had recently sang in London in the opera "Norma," before Queen Victoria, with a real gold crown on his head, but in the midst of his solo he happened to think of his first performance of the part before the Hartford Chess Club, and how R—— came dancing out balancing the hot plate on his fingers, and had hard work not to laugh outright.

—The girl with the seal-skin sack looks complacently upon the approach of winter, while the maiden without one of these garments is engaged in circulating the report that they are to be extremely unfashionable this year.

—"Grace Greenwood" is out with a spicy card, denying the published statement that she had sought for and obtained a divorce from her husband, L. K. Lippincott. "It is not true," she says; "It never has been true; it never will be true"—and she wishes the newspapers would let her alone.

—They have enterprising thieves out in Pittsburg. A man in that city is now under arrest, charged with stealing a stone-crusher, and it is alleged against him that he deliberately hitched his six-horse team to the huge apparatus, which weighs nearly eight tons, and drove off with it.

Daily Chronicle.

FRIDAY, SEPTEMBER 28, 1877.

Big Fire in Hrovidence, R. I.

At eight o'clock Thursday evening the following despatch was received in this city over the Atlantic & Pacific Telegraph wires: The Providence Post-office and surrounding buildings are in flames; the fire broke out in the Post-office about 6:45, and at this hour is spreading rapidly. All wires of the two telegraph companies are severed between Providence and New York.

The New York Republican Convention.

The Republican State Convention of New York met at Rochester on Wednesday. The Convention was called to order by Hon. A. B. Cornell, Chairman of the State Committee and Surveyor of the Port of New York. Hon. T. C. Platt, Congressman from the 28th District, was chosen temporary chairman, and made a strong speech against the southern policy of the administration, and the civil service order to office holders. The committee on permanent organization reported in favor of Roscoe Conkling for permanent chairman, but he declined in favor of Mr. Platt, who was chosen by a vote of 311 to 110. The platform adopted reaffirms the validity of President Hayes' title, and demands resumption of specie payments, opposes further land grants or other government aid to corporations, demands universal education through common schools and denounces aid to sectarian institutions, and lays out a new plan for reforming the civil service, but neither endorses nor denounces the "southern policy." Mr. Geo. W. Curtis spoke earnestly in favor of the adoption of a plank cordially endorsing the President; Lyman Tremain followed him in opposition, and the Convention adjourned till evening without acting on the question. In the evening Mr. Curtis' plank was rejected by a decisive vote, after ringing speeches from Lyman Tremaine and Mr. Conkling. The Convention then adjourned to Thursday forenoon. On Thursday the following nominations were made, after which the Convention adjourned: John C. Churchill for Secretary of State; Francis Sylvester for Comptroller; Wm. L. Bostwick for Treasurer; Granville Tremaine for Attorney General, and Howard Soule for State Engineer.

Washington Correspondence.

WASHINGTON, D. C., Sept. 24th.

It cannot be winked out of sight that there are gross abuses in the administration of some, at least, of the various bureaus of the executive departments, that call loudly for reform; and probably not one among them has fallen under a heavier weight of suspicion than the Pension Office. Months ago Mr. Schurz' attention was called to the matter, according to the uncontradicted statements of the local press. Specific charges were filed against ex-Commissioner Baker, and the present head of that Bureau was alleged to be fully cognizant of the bribe-taking of his predecessor, and to have connived with subordinates to cover it up. It was charged that secret service agents who were fully posted as to the facts and had been engaged in prosecuting some of the guilty parties, had been unceremoniously kicked out of office, or dismissed on frivolous charges, trumped up, it was intimated, for the occasion, and their places filled with more discreet and pliant underlings with eyes single to the interests of their superior, who holds, to a great extent, the issues of their official life and death in his hands. It will be remembered that Kane gave what purported to be true copies of vouchers on file in the Department, showing how one Lanston, who was appointed chief of the secret service division under present Commissioner Bentley, had spent the public monies on pleasure excursions over the country with his family, professedly hunting up fraudulent claimants. It was also shown how, while thus spending money specially appropriated for a particular purpose, he was drawing in addition to a stated salary, a *per diem* and mileage. No valid denial has ever been made; and if any action has been taken looking to the correction of this profligate waste of funds, it is not known to the public. The alleged ring favorites still occupy their sinecure places. Altogether the showing is a very bad one.

Nor has the public forgotten charges equally as explicit and as openly made, against several members of the secret service division of Mr. Sherman's Department, and which, so far as investigated with reference to the Norfolk Custom House, appeared only too well founded. It is not known that any of the gentlemen inculpated in these charges have been invited to satisfactorily explain, failing which to place themselves in the most comfortable position for the work of the guillotine. Certainly Messrs. Ayer, Chamberlain and Tingle would appear sadly in need of vindication, or the attention of the axeman.

There has been a hiatus of two hours between the present writing and the above, to allow your correspondent opportunity to attend the Patent Office fire. In the excitement our usually efficient fire department was severely censured for mismanagement; and they certainly did appear a long time getting to work; but after a subsidence of the excitement we shall be better prepared to render a just verdict. A thousand and one causes are assigned by excited men and hysterical women. It appeared to break out near the southwest corner of the building and rapidly burned its way around to the north-east corner, being confined, apparently, to the attic and floor immediately below, the two lower floors and basement remaining unscathed seemingly. At this writing several Baltimore engines are on the ground, and the fire is under control. More accurate information as to the real extent of the fire and amount of damage, will be given in my next. KNOX.

New Cattle Disease.

The Portland *Argus* says the much dreaded cattle bug, which has created much terror at the West, has appeared in Cape Elizabeth, Me. On Monday, Sept. 24th, a veterinary surgeon was called to look at the cattle of a Mr. Crowley, which appeared to be possessed of some strange malady. Examination showed that several of the cattle were almost completely covered with "cattle bugs," over a pint of which the doctor scraped off from the backs and sides of three cows. Those bugs are of a greenish color, with any quantity of legs with which they cling so close to the unhappy animal that in order to remove them it is at times necessary to take a small piece of hide too. They eat into the animal's flesh and by this means the meat becomes infected, so that in the West cases of severe illness have resulted from eating beef made from an ox on which these bugs had thrived.

News and Notes.

The base ball championship is decided, and Boston wins the pennant. On Thursday the Bostons beat the Hartfords, 14 to 1.

Prang's chromo establishment at Boston Highlands was badly damaged by fire on Thursday; loss $100,000.

General Pearson, of the Pennsylvania militia, has been arrested at Pittsburg for murder in ordering the troops to fire during the riots.

At Hyde Park, Mass., Sept. 25th, several persons were victimized by four men who passed a number of counterfeit $5 bills on the Tamaqua (Penn.) National Bank. Many of these bogus bills have recently been put in circulation, and no clue could be got to the "shovers of the queer." On the 26th Edward Burke and Michael Cunningham were arrested in Boston, recognized as two of the Hyde Park swindlers, and eighteen of the bogus $5 bills found in their possession.

Rufus Hatch, the once noted broker and Wall street speculator, failed for only $2,500! It looks as though the money market must be awful tight when a man of Mr. Hatch's undoubted capacity for "daring" financiering could not raise that paltry sum. He was at one time managing director of the Pacific Mail Steamship Co., and up to the great crash of 1873 was one of the leaders on Wall street.

The loss by the mysterious robbery of the Cambridgeport bank is much greater than was at first reported. The amount stolen is now set at $81,000.

George Monroe, a negro tramp, on Monday went to the house of a farmer named Mersey, in Otis, Mass., and finding Mrs. Mersey alone outraged her. He was arrested, and confesses his guilt.

The schooner Ocean Wave, of New Orleans, with coal, for Galveston, foundered off Galveston, Sept. 16th, and all on board, Capt. McIntyre and seven men, were lost.

John H. Davis, the keeper who furnished the weapon with which his associate keeper was killed by convicts in the Wethersfield, Conn., State Prison, has been arrested and committed to await examination.

James Hampsey, a young man residing in Malden, Mass., fell from the cars on the Saugus Branch of the Eastern Railroad, on the evening of Sept. 25th, and was fatally injured by being run over.

Mary E. Welch, aged twelve, a feeble-minded daughter of a widow, was run over and killed at Valley Falls, R. I., Wednesday evening while walking on the track. When the whistle sounded she dropped on her knees in the attitude of prayer, and so remained until struck, and it is thought probabl that she may have intended suicide.

The schooner Sarah S. Tyler, at Providence, Sept. 25th, from New York, picked up, off Hart Island, a naked boy, about seventeen years old, who was clinging to a plank. His stories were contradictory, and he was thought to be a fugitive from a New York city institution. He was placed in charge of the Providence police.

Sloop yacht Ada M. Grant sailed from Philadelphia Sept. 3d for Suffolk, Va., having on board Capt. Robinson Grant, his son, and two men. Since that time, nothing has been heard of the vessel, and it is feared she is lost, with all on board. Capt. Grant is an old shipmaster, and formerly belonged to Winterport, Me.

Ex-Controller Connolly wishes to come home. He has not been happy in foreign lands; he cannot adapt himself to foreign customs; he proposes to come back if the city will take $1,000,000 and say no more about it. Upon the whole, it is about what we might have expected. Mr. Sweeny has made everything pleasant. Mr. Tweed has not got quite permanently out of jail yet, but he seems to be working out by degrees, and when he emerges periodically to entertain the public with his personal reminiscences he is greeted with cordial and appreciative laughter. Mr. Woodward is rolling in wealth and impudence. Almost everybody except poor Connolly has been provided for. We do not wonder that the ex-Controller feels lonely and abused.—*N. Y. Tribune.*

Gov. Blue Jeans Williams missed a train at an Indiana town lately, and was obliged to seek lodging at the hotel. The clerk, not knowing him, assigned him to a room of limited dimensions in the fourth story, reserving a handsome room down stairs for an expected commercial traveller. The youth presently discovered his mistake, and the patient Governor of the State was escorted, with frantic apologies, to the more comfortable apartment.

Rear Admiral Reynolds, recently in command of the Asiatic Station, has submitted to the Secretary of the Navy the report of Lieut. Commander Barker, of the United States steamer Alert, sent in May last to search for seventeen white persons reported shipwrecked and living on an island in the vicinity of Dampier Straits. After a cruise of some months the Alert arrived at Hong Kong, and the Commander reports that after a careful search and mature deliberation, his own opinion, and that of every officer on board, was that within the last eight months there had been no shipwrecked or lost white persons on any of the islands referred to.

Business Notes.

The Savannah (Ga.) *News* learns from the jobbers that the condition of interior merchants is better this year than for many years past. They have more ready money, and are thus enabled to buy to better advantage than formerly. Some have discounted their own accounts rather than pay the slight increase charged between cash and time bills.

The Charleston (S. C.) *Courier* reports: "There is a steadily improving tone in business affairs in this section, and the jobbing trade of the city has presented quite active features during the week. The interior demand for dry goods and general merchandize has been better than for several years previously."

The Wilson Manufacturing Company, at New London, Conn., are running every day on full time, for the first time in two years, and have orders enough to keep them busy most of the winter. The Brown Cotton Gin Company's pay roll is seven times larger than last year at this time, and they have promise of a large fall business; and other manufactories at New London, Fall River and in other places in Connecticut, are also rejoicing in the possession of increased orders.

The West Brookfield, Mass., boot shops are driven with orders, and have not been so busy for a long time; they ship about 750 cases a week. Other boot and shoe manufacturing towns also make cheering reports.

Some branches of the woolen manufacturing business are reported very dull, but industrial pursuits generally seem to be most certainly improving in condition, and the crop reports from the West and South abate nothing of their encouraging character.

New Hampshire Items.

Miss Sarah Hayes of Durham, while on her way home from Dover on Thursday, was stopped by a tramp who presented a pistol at her and robbed her of her pocket book.

The Cocheco Manufacturing Company during the past year have manufactured and sold from the Printery at Dover, thirty-seven million yards of printed cloth, which is an excess over any previous year. The net profits have been fifteen per cent. on all the capital invested, ten per cent. of which has been a dividend to the stockholders and the other five per cent. has been carried to the surplus fund of the Company. These figures show most successful management for so dull a business year as the one just past has been.

Charles F. Chapman of the Junior class at Dartmouth broke his leg Wednesday at West Lebanon, on his way to his home at Woodstock, Vt.

Wednesday morning Detective Wood arrested J. V. Drew on the fair grounds in Plymouth for the larceny of a horse and carriage from Amesbury, valued at $250.

Seventeen boys under fifteen years of age were up before the Dover Police Court within two days last week.

The members of steam fire engine companies Nos. 1 and 2 of Nashua, have won $525 in prizes during the past three years. This money was all won in Massachusetts.

Fred. Fields, of Barton, Vt., died in the lock-up at Littleton on Tuesday night, while intoxicated.

John H. Rand, a painter, fell from a staging in Manchester on Wednesday, and was fatally injured.

Joseph Parks of Pittsfield met with a very serious and painful accident on Monday afternoon, Sept. 24th. He was going to the village, and as he was going down hill the breeching of his harness broke and his horse commenced to run furiously, and in turning a corner the wagon was overturned and he thrown out in such a manner that he struck on one foot, turning the ankle over and breaking it all to pieces, and driving the bone of his leg out through his foot. His leg was amputated.

Fred. L. Allen, a young graduate of Andover, son of Dr. J. S. Allen of White River Junction, was ordained Wednesday as pastor of the First Congregational Church of Walpole. Professor Parker of Hanover delivered the sermon.

John Sullivan, of Nashua, who lost his arm in a shoe factory in that city recently, died on Wednesday.

Political.

Vice President William A. Wheeler does not seem to sympathize very extensively with the Administration. A prominent republican Ex-Congressman from one of the New York districts lately visited him to request him to urge the appointment of a *protege* to a position under government. The Vice President listened to his friend considerately, and then replied: "Mr. C., there is no one on earth I would ask a favor for sooner than for you; but, my dear sir, I would not ask even the appointment of a *messenger* at the hands of this Administration."

The democratic *Union and Advertiser*, of Rochester, N. Y., talks thus of the democratic State officials: "John Bigelow, elected to the office of Secretary of State, at a salary of $5,000 a year, abandons his post, neglects his duties, leaves the country, and spends months on a tour of pleasure in Europe. Is this reform in the Civil Service? Deputies and clerks in the office that John Bigelow has thus abandoned are spending their time, for which they are paid from the Public Treasury, in either travelling through the State or writing letters to secure the packing of conventions to send delegates to the Democratic State Convention in favor of the renomination of their absent chief for the office he fails to fill. Is this reform?"

Milking by Machinery.

Hand labor is gradually being superceded by machinery in nearly every branch of industry. It is curious to mark the unlikely uses to which machinery may be applied. An ingenious inventor has recently patented a device in the shape of a cow-milking machine, which, it is said, will do all that can be done by hand, faster and easier, and will be of special service where cows have sore teats or are hard milkers. The apparatus consists essentially of a glass globe, large enough to hold an average yield of milk, which is connected by means of a flexible tube with an air pipe. Rising from the top of the globe are small pipes with metal tips. The mode of operation consists in suspending the globe underneath the animal to be milked, and inserting the tips of the small pipes into the teats. A partial vacuum is then effected inside the globe by means of the air pump, and the milk thus drawn forth. The advantages claimed by the invention are that it prevents any loss of milk through spilling, renders milk or straining pails unnecessary, and prevents entrance of dirt. Finally, it can be easily manipulated by anybody.

Tortoises as Weather Indicators.

If there be any truth in a paper read by a French savant at a recent meeting of the Academy of Sciences in Paris, every well regulated household should have one or more tortoises about the premises. According to M. Bouchard, tortoises take extraordinary precautions against cold weather. Their instinct tells them in the milder seasons when the thermometer is to fall to the freezing point, and toward the end of the autumn warns them also of the approach of winter. In both cases they take precaution to screen themselves from cold, and by carefully observing them, M. Bouchard has for years been enabled to regulate his hot house. At the end of autumn, when the winter threatens to be severe, tortoises creep deep into the earth, so as to completely conceal themselves from view. If the winter promises to be mild, they scarcely go down an inch or two, just enough to protect the opening of their shells. Last January, which was so mild, they even went about. Last month, the thermometer standing at fifty degrees Fahrenheit, our author saw his tortoises creep into the ground, and that very night the glass fell to 28 deg. Fahrenheit. On the 1st inst., the mercury being at 110 deg. Fahrenheit in the sun, one of the tortoises hid itself; on the following morning there was hoar frost.

A Little Mistaken.

There was a funny incident in connection with the burning of the Boston & Albany shops at Springfield, Mass. When the steam-pipe blew off, causing a general stampede from the vicinity of the burning blacksmith shop, a young man who believed that the boiler was going to burst, suddenly recollected that two or three sisters were standing at the gate of his house near by, exposed to the danger. Running up to them, he screamed out, "Run into the house as quick as you can." They obeyed except one, who seemed disposed to be refractory. So he seized her in his arms and carried her, struggling, kicking and biting, into the dwelling, seating her in a chair with energy enough to make her teeth rattle. Then he stepped back a little, to give her a lecture on the danger of loafing around a fire where a steam boiler was doing its best to blow up, and discovered to his horror that the lady was not his sister at all, but a perfect stranger. The tableau which followed the discovery was ludicrous enough, and the young man apologized as well as he knew how.

—A boarding-house mistress, like the rest of us, has her weak and strong points—the weak point being her coffee and her strong point the butter.—*Phila. Bulletin.*

THE TEMPLARS' VISIT.

At a quarter past five o'clock, Thursday afternoon, De Witt Clinton Commandry, Eminet Commander Washington Freeman, with the Portsmouth Cornet Band, marched to the depot to receive Olivet Commandry of Lynn, Eminent Commander John Shaw 2d, Capt. Gen. E. Alfred Ingalls, Generalissimo Nathan B. Fletcher. The visitors arrived at 5:38, forty-six in number and accompanied by the Lynn Brass Band of twenty-five pieces, H. Allen leader; Grand Recorder A. F. Chapman, Grand Lecturer C. M. Avery, and Grand Standard Bearer W. D. Pool, of the Grand Commandry of Massachusetts and Rhode Island, being with the visiting Commandry as guests. They were received with the customary military salute, after which they took up the line of march under escort of De Witt Clinton Commandry for the Rockingham House, the headquarters of Olivet Commandry during their stay. The visitors executed some very handsome military maneuvres on the route, their formation of and marching in a cross and by fours being perfect.

At 8:30 o'clock a delegation of De Witt Clinton Commandry escorted the visitors to Congress Hall, where they were introduced by Sir Knight Albert R. Hatch, Past Commander of De Witt Clinton Commandry, and welcomed by Eminent Commander W. Freeman in a short address, which was responded to by Eminent Commander Shaw of Olivet Commandry. Dancing was then indulged in until a moderately late hour, refreshments being served in the banquet hall.

This morning the visitors will appear in undress uniform, and proceed to steamer Major for an excursion down the harbor, and a visit to the navy yard on the invitation of Commodore Guest, Commandant of the yard. In the afternoon there will be a parade of both Commandries through some of the principal streets, after which the Olivet Commandry will take the cars for home.

[Communicated.]

GRANITE STATES vs. OUR BOYS.

Mr. Editor: In reporting the recent game of base ball betweeen the above-named clubs you gave the honor to the Newmarket club, which (and I think I speak the opinions of the crowd present—umpire, Our Boys and all) was incorrect. The umpire was not only wrong in declaring Coubig out, but made a greater mistake in not counting the runs of Walden and Rowe. No rule in base ball requires a player to touch a base but once. By counting these two runs the Portsmouth club won by a score of 15 to 14, and a man on second base with two men out. The following from the New York *Clipper*, acknowledged authority, settles this question beyond a doubt, if there ever was any:

STATEMENT.—Two men were out—Rowe was on third base and Walden on second; Coubig struck a liner to right field, on which Rowe and Walden both came home, and the runs were scored. Coubig overran first base, stopped, saw he could make second and did so. The ball was fielded in, Coubig was touched on second base, and judgment called for.

QUESTIONS.—1. Was Coubig out for not retouching first base?

2. Did the runs count, even if he was out?

ANSWERS.—Coubig was not out because of his not returning to touch first base, as it was optional with him to return or not. If he failed to return, he only forfeited the right of exemption from being put out after over-running.

2. Had he been put out at second in any way except being forced out by the striker, the runs would have counted.

By giving the above a space in your columns you will oblige

ONE WHO WAS THERE.

PORTSMOUTH AND VICINITY.

In our mention of the lecture in the Methodist church by Rev. Dr. McCarty of New Orleans, in Thursday's CHRONICLE, we inadvertently stated it was to be given on the evening of that day. This was an error; the lecture is to be given this (Friday) evening; it will be both interesting and instructive, and admission is free.

Ship Granite State has been chartered in Boston to load for Rio Janeiro with ice and apples.

We clip the following from the *Weekly*: "The Great Falls *Journal* says there is nothing bad about those editors on the Portsmouth CHRONICLE.' We are very glad to hear it, for of such is the kingdom of heaven." The editor of the Great Falls *Journal* is one of the youngest editors in the State, but he is a gentleman of wondrous good judgment.

The White Mountain excursion train over the Eastern Railroad, Thursday, left the depot in this city with ten well filled passenger cars, and two more were taken on at Kittery.

Agreably to a vote passed by the Board of Mayor and Aldermen, Sept. 6th, to devise some method by which the sanitary condition of the North and South ponds may be improved, the committee then appointed, consisting of Aldermen Hadley, Sides and Perkins, have secured the services of Mr. L. F. Rice, of Boston, civil engineer, to determin the best and most economical method by which it can be done; and he has made an examination of the ponds preparatory to completing his plans.

The coroner's jury in the case of John Faulkner rendered a verdict on Thursday, to the effect that he died from suffocation while drunk.

Mr. Oscar J. Pfeiffer of this city, who recently graduated from Dartmouth with honors, has been appointed principal of the high school at Lancaster, in which duty he is now engaged. The school is large and Mr. Pfeiffer has two or three assistants.

The races between Rufus Hatch's splendid schooner yacht Restless and Gen. Butler's famous schooner America, from the Shoals arou nd Boon Island and return, which took place two years ago, the stakes being $1000 a side, will be remembered, as they attracted much attention at the time. The cost of running such a yacht as the Restless would probably reach $2000 a month; her then owner, Rufus Hatch, has just suspended payments owing to his inability to raise $2500!

The Boston *Post* says; "A man named Elliott, from Portsmouth, attempted suicide near the passenger station at Laconia, Wednesday evening, by cutting his throat with a razor. The wound is not dangerous." There are a number of Elliotts in this city, but which—if any—of them was so foolish as to cut his throat we have not learned.

The *Times* says: "Among those present at the Supreme Council of Sovereign Grand Inspectors General of the thirty-third degree—the highest degree in the order of Free Masons—which held its sessions in Boston last week, was John Christie of this city, the only Mason enjoying this elevation in New Hampshire." This latter statement is incorrect; there are several other Masons in the State who have taken thedegree, and one other in this city.

After the U. S. S. Ticonderoga was in the dry dock at the navy yard, and all was ready to haul her out on the ways, it was decided that the masonary at the edge of the dock basin was not in a condition to safely bear the immense weight that would come upon it, and the ship was allowed to remain in the dock to await the securing of the stonework. This was completed on Wednesday, and on Thursday the ship was hauled out upon the land to be repaired.

Col. S. H. Dumas, whose experience as a landord is known to all travellers, has assumed the management of Gorham Hall, once known as the Swampscot House, at Exeter. Here Col. Dumas will entertain the young gentlemen who visit Exeter for educational purposes, and "has room for the care and comfort of persons visiting Exeter for business purposes or on pleasure." The well known host at the Boat's Head is busily engaged upon many improvements at Gorham Hall, and the visitors at the county seat as well as the Faculty of the Academy, may congratulate themselves that Dumas has concluded to take charge of this hotel, which doubtless will be kept in the style for which the Colonel has long been celebrated.

Time-Proof Teeth.

The teeth may be rendered time-proof by brushing them daily with Sozodont. No tartar can encrust them, no canker affect the enamel, no species of decay infest the dental bone, if this pure and delicious dentrifrice is faithfully used to the exclusion of every other preparation.

Mutilated furniture is made perfect with Spalding's Glue.

The chances are against your getting a prize of $100,000 or $50,000 or $25,000 in the next drawing of the Louisiana State Lottery Company, but some one will, and there is a strong *possibility* that you may win. The best way to test the question satisfactorily is to write to M. A. Dauphin, P. O. Box 692, New Orleans, La., for tickets or information. The management of the Company is attested by the leading bankers and business men of New Orleans to be of a high-toned, responsible character.

Hall's Vegetable Sicilian Hair Renewer has for many years occupied an honorable place in the toilet of American women, and has also attained popularity in foreign countries. This is because it does PERFORM what it promises. Its warmest friends are those who have used it longest, and these who sound its praise the loudest are those who from actual experience and personal trial have demonstrated that by its use gray hair is restored to its natural color and dry, harsh, and wiry hair is made soft and lustrous, a thing of beauty, and a matter of joy and pride to the wearer.—*Sub-Soiler and Democrat, Corinth, Miss.*

DANIEL MARCY, WILLIAM H. HACKETT,
JOHN SISE, THOMAS H. ODION,
EDWIN A. PETERSON.

GEORGE L. TREADWELL, Treasurer.

January 16, 1877.

Daily Chronicle.

—A man recently wrote to the officials of the Boston, Concord & Montreal railroad "for a chance to run on the road." He was told he could "run on the road" as much as he liked if he would only keep out of the way of the trains.

—There is an aggravating story told to the effect that the Duke of Richmond and Gordon had occasion not long ago to write to an American woman about some paintings she wished to dispose of, and that the American, in reply, addressed a letter to "Messrs. Richmond & Gordon," beginning "Gentlemen."

—A tramp applied to a lady in Des Moines for some thing to eat, and to the inquiry why he didn't go to work, said there was not any chance to work at his trade now. The lady asked what his trade was. "Shovelling snow," was the confident answer. He got his dinner.

—A Boston lady, who had recently arrived in this city, told a young man who works in the mines that she could indulge in the ecstasy of osculation with an adult male of [the *genus homo* with feelings of gratification analogical to quaffing the nectar the gods; and after he had consulted the authorities, he was mad at himself because he had not kissed her.—*Austin Reveille.*

Centaur Liniments.

One thing is now thoroughly established. Never since man suffered and human agencies alleviated pain has there been say thing which went so far as a pain annihilator and curative agent as the Centaur Liniments. These Liniments have within the past year cured more cases of Rheumatism, Neuralgia, Stiff-joints, Caked Breasts, Swellings, Poisonous Bites, Burns, Lame Animals, etc., etc., than all other remedies combined. As the name of Centaur implies half horse and half man, the Centaur Liniments are for man and beast. But not the same Liniment. The White Liniment is for man and the Yellow for horses and animals. Herein this Liniment differs from all other remedies, although some of the ingredients are alike in each. They contain the well-known Witch Hazel, Arnica, Carbolic, Rock Oil, Mentha and other powerful ingredients.

"Wm. H. Hitchcock, Rector of St. John's Ex. Church, Wakefield, Clay Co., Kansas, writes: "Many years I have been suffering from a Weak Back, caused from a sprain more than 40 years ago. I have not found any thing to relieve me until I commenced the use of Centaur Liniment. I feel it my Christian duty to inform you that by the wonderful effects I am entirely relieved of pain. January 22d, 1876."

Messrs. J. McClure & Co., Druggists, Cincinnati, Ohio, say:

"Teamsters pronounce the Yellow Centaur Liniment superior to any thing they have ever used. We sell several dozen bottles per month, and the sale is readily increasing."

These are only samples of thousands upon thousands of similar testimonials reaching us every month. All the Extracts, Embrocations, Salves and Liniments in existence are not doing one-tenth the good which is done by these admirable Centaur Liniments. For Frost-bites, Stings, Cuts, Itch, Salt Rheum, etc., there is nothing like the Centaur Liniment, White Wrapper. For Spavin, Ring-bone, Sweeney, Wind-Galls, Pollevil, Scratches, etc., on horses, the Yellow Centaur Liniment is equally as good. They are certain in their effects; they are pleasant to use, they are handy and they are cheap. No family should be without Centaur Liniments. They are worth one hundred times their cost.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Castoria.

Mothers may have rest and their babies may have health, if they will use **Dr. Pitcher's Castoria** for Wind Colic, Worms, Feverishness, Sour Mouth, Croup, or Stomach Complaints. It is entirely a vegetable preparation, and contains neither mineral, morphine, nor alcohol. It is as pleasant to take as honey, neither gags nor gripes, and is superior to any remedy in existence.

Dr. E. Dimech, of Dupont, Ohio, says:

"I am using CASTORIA in my practice with the most signal benefits and happy results, and find it a perfect substitute for Castor Oil."

This is what every one says. Many nurses in New York use the CASTORIA. It is prepared by Messrs. J. B. ROSE & CO., successors to Samuel Pitcher, M. D. mov1

The Centaur Liniments have created a revolution in remedies for Rheumatism, Bruises, Swellings, Pains, Burns, Scalds, Stings, &c. The White Liniment is for the human family, and the Yellow Liniment is for horses. They are certain, handy and cheap.

Castoria is certain to operate. It does not nauseate or gripe like Castor Oil, but is pleasant to take, digests the food, regulates the bowels, cures wind colic, expels worms, and causes natural sleep. It is equally adapted to adults and infants. It contains neither Mineral, Morphine nor Alcohol. Children teething may have health, and mothers find rest, if they use Castoria. mov1

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as Ayer's Cherry Pectoral. It has been known to the public about forty years, by a long continued series of marvellous cures, that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of Coughs, Colds, Consumption, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

DOCTOR PIERCE'S ALTERATIVE Golden Medical Discovery

CURES DISEASES OF THE

THROAT, LUNGS, LIVER & BLOOD.

In the wonderful medicine to which the afflicted are above invited for relief, the discoverer believes he has combined in harmony more of Nature's sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple,** or **Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.

If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite and tongue coated, you are suffering from **Torpid Liver,** or **"Biliousness."** In many cases of **"Liver Complaint"** only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.

SOLD BY DRUGGISTS AT $1 PER BOTTLE.

Prepared by **R. V. PIERCE, M. D.,** Sole Proprietor, at the WORLD'S DISPENSARY, Buffalo, N. Y.

DR. QUAIN'S

MAGIC

CONDITION PILLS!

The Wonderful Remedy for Liver Complaint, Biliousness Dyspepsia, Constipation, Neuralgia, Rheumatism, Headache, Kidney Complaint, Nervousness, Scrofula, Piles, and all diseases arising from a bad state of the Blood!

Is the ultima thule of Medical Discovery.

No medicine ever offered to the public has given such universal satisfaction as Dr. Quain's Magic Condition Pills. Their praises are on every tongue where their merits are known. They strike at once at the seat of disease and show their healing power almost immediately. Thousands of voluntary testimonials of their merits have been received by the agent, from those who have been cured by them, of which the following are samples:

Dyspepsia Four Years, Constipation and Inflammation of the Bowels Three Years, Confined to my Room Two Years, Pain so I Could Not Sleep Without Morphine. One Package of Dr. Quain's Condition Pills Made Me Eat Well, Sleep Well and free from Pain, after being given up by Physicians.

WEST LEBANON, ME., Feb. 22, 1

MR. THOMAS W. LANE:—I have been sick for 2 years with Dyspepsia, and for the past three years Constipation and Inflammation of the Bowels. have suffered all the pain I could endure and live. have been confined to my room for two years, and could not sleep nights without the use of morphine. I have been given up by physicians as past cure. I have taken one package of DR. QUAIN'S CONDITION PILLS, and they have done me more good than all the doctors I have had. I sleep well, I eat well and have no pain. They are all they are recommended to be. Please send me three packages, as two of my neighbors wish to try them. I enclose $1.50.

Your truly, JOHN W. LORD.

Another Letter from May. John W. Lord, one month later Wonderful Cures by Dr. Quain's Pills Effected on Him in Thirteen Days. First time Free from Pain for Three Years.

WEST LEBANON, ME., March 22, 1875

MR. THOMAS W. LANE:—I commenced taking DR. QUAIN'S CONDITION PILLS February 8th, and wrote you February 22d of their wonderful effect. I have continued to improve ever since. My appetite is good, and I sleep as well as I ever did in my life. I am free from pain for the first time in three years. When I was taken sick four years ago, I weighed one hundred and eighty-six pounds; I now weigh one hundred and thirty, but, as I am gaining in strength, I have no doubt I shall regain my flesh this summer, by the use of the Pills. I shal continue taking them for some time to come.

Yours truly, JOHN W. LORD.

Dr. Quain's Pills the Remedy for Soldiers' Aches and Pains.

WEST LEBANON, ME., June 1, 1875.

MR. THOMAS W. LANE—*Dear Sir:*—I am now able to walk out every day, and am gaining in strength very fast, all of which is due to you as great for the best Pills in the world. I have taken no other medicine, and my improvement has been steady since first taking DR. QUAIN'S CONDITION PILLS. They have done everything for me, and I will say to you, advertise them direct to the soldiers, for they will certainly cure them of aches and pains caused from exposure and hardship on the field. Please send me by return mail another package.

JOHN W. LORD.

Rheumatism for Twenty Years Cured by One Package of Dr. Quain's Condition Pills—"The Best Medicine in the World."

EAST ANDOVER, N. H., Dec. 10, 1875.

MR. LANE—*Dear Sir:*—As I know the value of DR. QUAIN'S CONDITION PILLS and the good they have done me, I take pleasure in giving them praise; so I send you another testimonial. My father has been troubled with Rheumatism for twenty years or more, and has tried everything that could be thought of, but to no good. At times it would be so bad that he could not lift his hand to his head or do any work at all, especially in cold weather. A short time ago I advised him to get some of these Pills. He believed nothing in them, but I gave him the last package I had of you, as I did not need them, and he has not been as free from the Rheumatic Complaint for years. No Rheumatism, no pain. What helped him? It was DR. QUAIN'S CONDITION PILLS, the best medicine in the world. There is nothing like them. *I know it, for I have tried them* and they are all, yes, more than they are recommended to be. Give them a fair trial and you will say so. I write this because I know the goodness of them and wish others to know the same. Some may think I am telling a big story I am. But remember I am not giving them half the praise they ought to have.

Yours with respect, ED. F. PEVARE

Wonderful Effect of Four Doses of Dr. Quain's Condition Pills upon Neuralgia of Twelve Years' Duration—Testimony of Rev. J. S. Patton.

DAINGERFIELD, MORRIS CO., TEXAS, Nov. 15, '75.

MR. THOMAS W. LANE—*Dear Sir:*—I have been afflicted for near twelve years with Neuralgia in the face and head. I tried I do not know how many physicians, and could only get partial relief. I also tried many patent medicines with the same result. I had at last resigned to my room, and the time for eight or ten winters, and have been traveling and visiting medical springs, and I still suffered most intensely. The physicians pronounced my case the worst and most stubborn that they had had anything to do with. One told me I could never get well; they all advised me to go South for the rest of the winter, and thought that was the only chance for me, and I was very greatly urged by one to go to Pilot Point, when through the kindness of Rev. H. M. Mathis, my attention was called to the advertisement of Dr. Quain's Magic Condition Pills. I immediately sent to you for a package. I have taken four doses and I am almost free from pain. The impression here seems to be that if your pills will cure me, they will cure anybody. I have five applications to send for the pills. Enclosed please find three dollars; send five packages to me and one to Mrs. Laura Sherrel, Sulphur Springs, Hopkins county, Texas.

Yours truly, J. S. PATTON

Liver Complaint, Nervousness, Dropsy and Headache.

LACONIA, N. H., Jan. 29, 1875.

THOS. W. LANE—*Sir:*—I have been troubled with Bad Blood, Liver Complaint, Nervousness, Dropsy and Headache. I have taken one package of DR. QUAIN'S CONDITION PILLS. They have done me more good than all the medicine I ever took; I have taken considerable medicine within the last five years. For the nerves I think there is nothing so good as those pills. I can recommend them to all who are similarly afflicted, they have done me so much good. I think they will recommend themselves wherever they go. I shall recommend those Pills to all who need them. Please send me two packages more, one for myself and one for a lady friend of mine. Many thanks to the inventor, agent and advertiser of those Pills.

MRS. P. L. ELLIOTT.

DR. QUAIN'S MAGIC CONDITION PILLS are put up only by the AMERICAN MEDICINE CO.* Manchester, N. H., THOMAS W. LANE, Agent.

JOHN H. SLATER, AGENT.

PULMOCINE.

BUCHMAN'S PULMOCINE CORDIAL

is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best *Pulmonary Curative* so could prescribe, after dose was satisfied that the Materia Medica could add nothing in its favor.

Among its many ingredients are *Wild Cherry Bark, Squill Root, Liquorice Root, Blood root, &c.* It is a Blood Purifier, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the luxurious climate of New England

PULMOCINE CORDIAL

Is a speedy and reliable Preventive and Remedy. Every Family should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred *Throat Diseases* at all times prevalent, it is the ounce of *Prevention.* Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate each. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this *Family Medicine* prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all thus afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and patient's danger is past.

For Coughs,

Croup,

Diphtheria,

Asthma, etc.,

USE

Buchman's Pulmocine Cordail.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, absolutely pure and unadulterated.

CITY HEALTH REGULATIONS.

THE BOARD OF HEALTH OF THE CITY OF PORTSMOUTH call the attention of the public to the following sections of Chapter 16, of the Revised Ordinances, and invite all interested in the preservation of health in our city to aid them in the execution of their duty:

SEC. 3. All waste water of houses, yards, cellars, sinks, pumps, etc., shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

SEC. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners and occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

SEC. 6. No vender of meat at the stalls shall be permitted to leave any stale meat, heads, feet or offal of any kind about their stalls to remain over night, or suffer them to be thrown into any street, lane or alley of the city. Nor shall any sellers of fish be permitted to throw any offal of fish into any street, lane or alley of the city, or upon any wharf, but shall either bury them or throw them into the river beyond low water mark.

SEC. 7. If any dead animal or decaying vegetable substance or any other nuisance, shall be found in any part of the city, the owners or occupiers of the premises where such nuisance shall be found, shall cause the same to be removed within twenty four hours after being notified so to do by one or more of the health officers.

SEC. 12. When any householder shall know that any person within his family is taken sick of the small pox, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Health Officers.

SEC. 13. When any physician shall know that any person whom he is called to visit is infected with the small pox, or any other disease dangerous to the public health, such physician shall immediately give notice thereof to the Health Officers.

SEC. 14. If any such householder or physician shall refuse or neglect to give the notice required in the preceding sections, he shall for each refusal or neglect, forfeit the sum of twenty dollars, to be recovered by either of the Health Officers in the name of the city.

SEC. 16. The Health Officers may give written notice to the owner or occupier of any building, vessel or enclosure, to remove or destroy any nuisance or other thing deemed by them on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said Health Officers may, by direction, of the mayor and accompanied by the city marshal, forcibly enter such building, vessel or enclosure, and cause said nuisance or other thing aforesaid to be removed or destroyed.

SEC. 21. No person shall erect, keep or continue, or permit to be erected or kept or continued, upon any land occupied by him, any pen for the keeping of swine, or privy, over either of the mill ponds in this city, or so placed that offensive matter therefrom shall be discharged or drained into either of said ponds or into any creek, or cove, or drain leading thereto. And no person shall construct, keep or continue any drain leading from any pen for the keeping of any swine, slaughter-house, privy vault, or other unwholesome or offensive place, into either of said ponds, or to any flat or marsh adjoining the same. And no person shall throw or suffer to be thrown from his land into either of said ponds, or upon any of said flats or marshes, any dead, decaying, unwholesome or offensive animal or vegetable substances.

AYER'S SARSAPARILLA,

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, stillingia, and Mandrake with the iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Erosive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Exhaustion and General Debility.* With their departure health returns.

Fine Tobacco Free!

TRY IT!

If any person who appreciates a really fine grade of TOBACCO, for Smoking or Chewing, will send us their address by Postal Card, we will send in return (*free of expense*) a sample of the *very best Tobacco* in the market, manufactured by

MERCHANTS' TOBACCO CO.,

416 30 Broad Street, Boston, Mass.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color.

It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

Getting a Drink.

Last winter, when the mind of the average statesman was absorbed in the all-engrossing topic incident to the Presidential count, President of the Senate Ferry issued an order to the restaurateur to abstain from the sale of all intoxicating drinks. Within twenty minutes after the ukase had been promulgated, Senator Clayton of Arkansas appeared and gave one of those knowing winks to the young man behind the marble counter. The wink failing to be interpreted, as the Senator thought, he threw up his finger (all drinkers know how it is done,) but even this, accompanied with the wink, duplicated and triplicated, failed to penetrate the seeming stolidity of the attendant. Finally, Clayton, out of patience, said:

"Here, give me some whisky."

"Sorry, sorry, very sorry," replied the attendant, "but Vice President Ferry has just issued an order that no liq—"

"D—n Vice President Ferry. Gimme a drink, quick."

"But you will protect me, if discovered?"

"Certainly I will. Gimme some whisky."

The tea cup was served, the Senator quaffed from it, smacked his lips and passed up stairs to legislate. Presently Senator Jones, of Florida, appeared.

"Ah," said he, with a good deal of dignity, "you may give me one of those things in a cup. You know what I mean, Mr. Love."

"Excuse me, Senator, but Vice President Ferry has warned me, upon pain of dismissal, not to sell any liquor to——"

"I don't care, Mr. Love, what Vice President Ferry wants; I want a cup of comfort."

Jones assured him that, of course, certainly, ahem! Why, to be sure, he would protect Mr. Love if trouble came. The next customer on hand was Senator Simon Cameron of Pennsylvania. Without making any roundabout attempts to indicate his wants by facial or finger gymnastics, he called out: "Fetch me some brandy."

"But, my dear Senator," said Love, "Vice President Ferry——"

The Senator, excited—"Oh, d—n Vice President Ferry. Bring me some brandy, and I don't want any tea-cup business about it. You may bring me the jug."

Love saw that Simon meant business, and without exacting any promise of protection the Pennsylvania Senator got the jug, and as he sought from it such exhilaration as it gave, he no doubt muttered to himself his favorite expression, "This is a h—— of a time."—*Washington Star.*

A Musical Prodigy.

There is a most remarkable musical genius in Staunton, in the person of little Virgie Hoge, a daughter of Mr. Charles E. Hoge, a child not yet eight years of age. Besides being a performer of merit, she has extraordinary talent as a composer, and is never happier than when engaged in that work. She will come into a room, without any preparation, and, going to the piano, will play beautiful airs of her own composition. Some of the airs have been caught and written by older persons who hear her, and are excellent compositions. Her remarkable gift has attracted the attention and excited the wonder of all the connoisseurs in music in the city.—*Staunton, Va., Indicator.*

—A girl who never had a "feller" got up quite a sensation one evening by burning a cigar in her room over the gas jet before a gossip whom she invited to call came to see her. Of course, reasoning from cigar smoke, there was a man in the case, and the gossip made all she could out of it to the great amusement of the girl who had no "feller."—*Boston Transcript.*

SATURDAY, SEPTEMBER 29, 1877.

Angamar Motor Company.

This company was organized in New York September 25, Colonel E. H. Angamar, President; Ex-Senator A. H. Cragin, Vice President; Hon. H. S. Vanderbilt, Secretary and Treasurer. The first motor, intended for the Pennsylvania Avenue Railway at Washington City, has been built at the Baldwin Works, in this city, and will make trial trips on the Reading Railroad in presence of Philadelphia, New York and Washington parties this week.—*Phil. Telegraph, Sept. 27.*

The Angamar Motor was invented by Col. Eugene H. Angamar, a distinguished citizen of Louisiana. The best steam motor for horse car tracks heretofore in use was one operated and built by the Baldwin Locomotive Works of Philadelphia. On a horse car line of fifty cars the Baldwin Motor makes a saving of $62,500 per annum, forty cars propelled by motors taking the place of fifty drawn by horses. Col. Angamar claims that by the use of his motor a saving of five dollars per car can be easily made. On the score of economy alone, this affords a vast saving in the way of running expenses over the system of using horses. The Angamar Motor is non-explosive, needs no engineer, and gives forth no offensive smell of gas from coal or scorching wood. It is destined to make a great revolution in the management of street railroads and tramways in all the large cities of America and Europe.

Washington Correspondence.

WASHINGTON, D. C., Sept. 26th.

To achieve an intelligent understanding of the extent of the Patent Office disaster, and enable one to approximate the direct losses involved, it should be remembered that the entire attic, which was covered in by a roof composed of white pine timber and boards, overlaid by a light copper sheathing, was filled with the records of the Department in manuscript and print, drawings and old rejected models, the most of them wood and as dry as tinder. It was separated from the third story by a wooden floor. The third story was divided into four halls, extending the whole length of the respective north, south, east and west fronts, communicating with each other by wide arches, and each filled with thousands of models in glass cases. The floor of these halls was fire-proof, and the fire, consequently, was confined to the upper story and attic, extending from the southwest to the northeast corner, burning everything that could ignite throughout this distance, just one-half the entire circuit of the building. It has been ascertained that fully a half-hour was lost by employes in attempting to extinguish the fire before the alarm was struck for help. Four engines arrived at about the same time, and before the alarm had ceased sounding. The hook and ladder company had damaged their apparatus at the fire of Saturday night, and the repairs were not completed; hence an old wagon with hooks and ladders that had been discarded as unserviceable, was the only one that could be brought into service. The authorities and firemen of Alexandria and Baltimore promptly responded to the call for aid. To the presence of the firemen from abroad and the fortunate lack of wind, we are probably indebted for exemption from a conflagration that might have carried our losses away up into the millions. The Baltimore companies arrived just in time to cope with the fire at Gheen & Osborne's stables, which without their aid, would inevitably have swept a larger area. So general was the alarm that merchants squares away removed portions of their stock, much of it into the street, whence, in the confusion, thieves transferred some of it to "fences" about town. What was said in a recent letter relative to the Government's parsimonious policy as regards provision for an efficient fire department for the protection of its millions of dollars' worth of property in this District, and its failure to provide a fire-proof receptacle for the Government archives, appears more than justified by the facts elicited by careful inquiry; and public condemnation cannot well be too strong or emphatically enforced otherwise. Chief Engineer Cronin believes the fire to have been burning hours before it was discovered, and that it was the work of an incendiary; and the belief is general that the fire at the stable was purposely set. The loss is variously estimated from $1,000,000 to $1,500,000, the latter figures being probably not too high. Proposals for a temporary roof have been already called for, and Congress will be urged to make an immediate appropriation for rebuilding. About 60,000 models were destroyed, but the most of them can be duplicated if thought necessary. Buildings will be at once rented to temporarily accommodate the clerical force burned out. The pressure for work is almost overwhelming, and those out of work elsewhere could not do a more absurd thing than to rush here.

The Presidential party arrived here last evening from their swing around the southern half of the circle. The monotonous character of the speeches made *en route* satiated public appetite some time ago; and there is a general feeling of relief that the infliction by the daily press will, for a time at least, cease.

Among the Indian delegation just arrived are Spotted Tail and son, Swift Bear, Red Bear, Young-man-afraid-of-his-Horses, Red Cloud and He-Dog, — names that have grown familiar to the reading public by reason of their connection with the various Indian outbreaks in the West since the war. They are here, it is said, at the request of General Crook, relative to the proposed removal to the Missouri River. They are accompanied by Lieut. Clark, the agent at the Red Cloud Reservation, and four interpreters. "A big talk," several of them probably, will soon be held now that the President has returned, and for the same reason we looking to see a stir among the political dry bones; the culmination of many astounding schemes is evidently at hand, the nuptial couch of the lion and the lamb having been prepared, and the highway cast up whereon they are to journey together in loving accord to the day of the millenial dawn. KNOX.

News and Notes.

The city of Providence had a disastrous fire Thursday night, though the Post-office was not destroyed as was at first reported. That building, a substantial structure of stone and iron, withstood the flames and enabled the firemen to get the conflagration under control. French roofs on high buildings with narrow streets between them did the mischief; some of the stores burned were seven stories high. Engines were sent from Cranston and Pawtucket, the latter going four miles and getting at work in twenty minutes after receiving the alarm. Engines were also taken to the Providence depot in Boston, to be sent down, but were not needed. One fireman was fatally injured by falling from a building, and an unknown man was buried under a falling wall. The militia were ordered out to protect property, but were dismissed before morning, the police arrangements being excellent. The loss is set at over a half million.

The air of perfection, cleanliness and home-like comfort which is so apparent at the American House, Boston, is one of the characteristic features of that well regulated establishment. To those disposed to economise, this popular Hotel offers an opportunity seldom found at so thoroughly a first-class house, having reduced its rates to $3.00 and $3.50 per day.

A terrific cyclone was reported off Cape Hatteras on Friday, travelling northward.

John Perry, of Hydeville, Vt., set fire to his house on Wednesday night, and was seen to jump from a window and run away after the building was on fire. He was found dead next morning some rods away, with a bullet hole in his heart. He had quarrelled with his wife, and threatened to burn the house and kill himself. The house was not insured.

Edwin J. Buddington, who shot William Thompson dead at Groton Centre, Conn., Sept. 10th, while he was in company with Buddington's wife, pleads guilty at New London to manslaughter, in order, it is said by counsel, to prevent his wife's further humiliation by testifying to her shame in court, and for the sake of his children. Buddington is broken down and friendless.

The base ball game between the Bostons and Hartfords, Thursday, was won by the former by a score of 13 to 2. On the same day—Louisvilles 9, Chicagoes 8; Manchesters 9, Rhode Islands 1.

The Barnstable (Mass.) Savings Bank has been "run" to suspension; the deposits amount to about $1,200,000, and the assets are expected to cover all liabilities.

Assistant Secretary McCormick has concluded to remain in the Treasury Department through the extra session of Congress, but will retire before the regular session begins.

Commodore James Madison Frailey, United States navy, died in Philadelphia Wednesday evening, aged sixty-nine years.

A freight train was thrown from the track in Kentucky, Thursday, by the blowing up of the engine; four men were killed and seven badly wounded, including every man on the train. A number of very valuable race horses were killed.

Dr. W. S. Howe of Pittsfield, Me., has been tried by the Maine Medical Society, on complaint of three neighboring physicians, for advocating and using homœopathic remedies. The doctor asserts that he will give to patients whatever medicine he thinks best fitted for them, be it allopathic, homœopathic or eclectic, for the science of medicine is not so far advanced that a physician can afford to stick to one school. And the Society votes that there is no reason for expelling the doctor.

Utah has been doing a big business in "straw" divorces during the past year, 300 having been granted to non-residents. Those divorces are not recognized as legal in any of the States.

W. A. Bancroft, captain of the Harvard University boat crew, is out in a letter to the press announcing himself as the author of the famous "Reporters and loafers not wanted here" notice, and defending his action. Capt. Bancroft is an ass.

The Philadelphia *Press* calls a poor girl who stole a dress a "thief" in big letters, but they are not so big as those it used in speaking of John S. Morton's "mistake." The reason that Morton's crime was only a "mistake" was that he stole a million dollars.

A petition which has already been signed by more than nine hundred New York bank presidents, merchants, manufacturers and business men generally, and which urges the Senate to confirm the course of the House of Representatives, in repealing the bankrupt law, is now in circulation in that city. The petition itself is a remarkable document, containing, as it does, the autograph signatures of many of the most eminent men of the mercantile community of New York. The reasons assigned for the proposed repeal are that the law affords opportunity for fraud, and that it is differently interpreted in different places.

Chronicle Correspondence.

SEABROOK, Sept. 27th.

This town is to be congratulated on the opening of a new business enterprise; the new firm of Staples & Adams, shoe manufacturers, have begun work in earnest, and the people of Seabrook are encouraged that two such earnest workers should be in their midst. The manufactory is situated on the road leading to South Seabrook from Walton road, and nearly opposite the Boyd school house. The building is two storied. The lower story is used for office, sample room, storage of leather and packing; in the second story are two of Goodyear's boot and shoe machines for sewing turned work, with accompanying machines for channelling, fitting, etc.; with these fire hundred pairs of shoes can be made and finished in a day. Since opening, business has increased to such extent that an addition of thirty feet to the building will be immediately begun. The senior member of the firm, Mr. Samuel E. Staples, was brought up a shoemaker, and has been engaged in manufacturing for himself for more than twenty years. He is from New York city, and transfers his business to this locality in order to secure to his customers the advantages of cheap rent and cheap labor. The junior member of the firm, Mr. Edwin A. Adams, is also a New Yorker, and is well known in Lynn, Haverhill, Newburyport and this vicinity, as a very smart workman, with remarkable mechanical tact and fine business qualities. Mr. Adams, like his partner, was born at the shoemaker's bench, and well knows the ins and outs of a shoe. For five years he was general agent of Goodyear's boot and shoe turned sewing machine; travelling in sixteen of the States, and the Provinces, introducing the machine and teaching the operators, thereby gaining an insight into different ways of manufacturing. For the last year he has been engaged in superintending the manufacturing of turned work at the factory at Seabrook, for N. D. Dodge of Newburyport. The cutter and draughtsman is Mr. George Penniman, of Paxton, Mass.,—recently from Newburyport. On being asked how long he had been in the shoe business, Mr. Penniman answered, "I am forty years old: when I was thirteen years old I was a journeyman on the bench." Your correspondent was shown a hundred different styles of shoes, from the finest to the cheapest in work, embracing many styles of wedding slippers, men's and women's shoes and slippers, and children's shoes down to the tiniest ones for infants. There are three other factories in Seabrook, but this is the only one where the shoe is fitted and made in the same building.

Washington Eaton's new grocery store on the corner of Walton road, near by, is finished and will soon be opened.

A temperance crusade meeting, will be held next Sunday at four o'clock P. M., in front of Abbott A. Locke's store, just west of Seabrook depot. Workers are expected from the Newburyport reform clubs. There has been quite a crusade already on Walton road, and as a result the temperance element has been greatly stimulated, and they now propose to complain of the "grocery" of John Locke as a nuisance. Several slaves of cider appetite have signed the pledge, and are trying to induce others to join them.

Ground will be broken this week on the lot back of the church, for the parsonage. The 2d Cong. Church of Biddeford, Me., of which Rev. Mr. Rand was once a member, want to know "how much will be needed for shingles?" A member of the church has given a cord and hatchet. A Newburyport lady gives a cask of nails. Volunteers will do much of the work, and it is expected a part of the building will be ready for occupancy before cold weather.

Robert Morrill, of Salisbury Plain, has bought the old schoolhouse, and will set it on land near by and fit it up as a grocery store. ENO.

The Eastern War.

General Kotzebue, Governor of Poland, is to take supreme command of the Russian armies on the Danube. A despatch from Bucharest says Mehemet Ali is retreating on his former positions on Kara Lom, fearing that the concentration of the Russian troops and the approaching bad weather would cut off his supplies. A despatch from Shumla says the cannonade fight at the Shipka Pass still continues. There is no confirmation of the battle before Plevna, reported by the Turks Sept. 25th as a Russian defeat. A Russian official despatch announces the arrival of 10,000 Turkish reinforcements at Plevna.

New Hampshire Items.

Two dwellings, owned by Hiram Hodgdon and Abel Mitchell, were burned at Ashland Thursday afternoon. A lady tenant of one of them narrowly escaped by leaping from a second story window. Mitchell had $1200 insurance.

A deed was received for record at the Registry in this County last week which was dated Aug. 24, 1822, and conveyed lot of land etc., on "the south side of Mud lane so called." Several deeds executed about the same date came in from Rye last week, one of them executed in March, 1820. In the former instance, the owner and his children had occupied the premises for over fifty-five years without taking the trouble to have the deed recorded, and which probably only found its way to the registry by reason of a sale of the property.—*Journal.*

The Models Burned.

The following list of the classes of models destroyed in the Patent Office fire of Sept. 24th, 1877, is furnished us by Gilmore, Smith & Co., Patent Solicitors, 629 F street, Washington, D. C. Any particular information desired may be obtained by addressing that firm.

Aeration, bridges, brushes, brooms, butchery, bottling, baths, bee hives, bolts, brakes, carpentry, carriages, closets, castings, doors, dairy, engineering, excavations, fences, files, glass, gins, garden, grinding, hoistsig, hydraulics, hardware, harrows, harvesters (cutter-bars saved), journals and bearings, lime and cement, masonry, mechanical power, metallurgy, metal working (seven classes), mills, nuts, nails, needles, orchard, paving, presses, pumps, pneumatics, polishing, plows, planters, (very few saved,) roofing, railways (four classes), rivets, stone, saws, seeders (a few saved), sheet metal, stabling, threshing, tobacco, tubing, wagons, wire, water wheels, wire working, wood working. Total number of models destroyed (about) 60,000.

Political.

Sam Cary claims that the workingmen-greenback ticket will poll 40,000 votes in Ohio.

Only two men on the Ohio Republican Legislative ticket are in favor of Stanley Matthews for Senator.

—A California paper has a long article on a "Fossil Scorpion," and an esteemed contemporary remarks that "it is this ridiculous self-esteem that is the curse of local newspaper publishers."

Time-Proof Teeth.

The teeth may be rendered time-proof by brushing them daily with Sozodont. No tartar can encrust them, no canker affect the enamel, no species of decay infest the dental tissue, if this pure and delicious dentrifrice is faithfully used to the exclusion of every other preparation.

Mutilated furniture is made perfect with Spalding's Glue.

The chances are against your getting a prize of $100,000 or $50,000 or $25,000 in the next drawing of the Louisiana State Lottery Company, but some one will, and there is a strong *possibility* that you may win. The best way to test the question satisfactorily is to write to M. A. Dauphin, P. O. Box 692, New Orleans, La., for tickets or information. The management of the Company is attested by the leading bankers and business men of New Orleans to be of a high-toned, responsible character.

Hall's Vegetable Sicilian Hair Renewer has for many years occupied an honorable place in the toilet of American women, and has also attained popularity in foreign countries. This is because it does PERFORM what it promises. Its warmest friends are those who have used it longest, and these who sound its praise the loudest are those who from actual experience and personal trial have demonstrated that by its use gray hair is restored to its natural color and dry, harsh, and wiry hair is made soft and lustrous, a thing of beauty, and a matter of joy and pride to the wearer.—*Sub-Sollar and Democrat, Corinth, Miss.*

E. G PIERCE, JR., P. M.

THE TEMPLARS' VISIT.

On Friday morning the Templars paraded in undress uniform, marching with the Lynn band to the steamboat wharf, where they embarked on steamer Major, Sir Knight William Robinson commanding, for the Shoals. They had a splendid run out, the sea being very smooth and the temperature just right for comfort. Arrived at Star Island the party landed and had a ramble over the rocks, the band giving them a liberal allowance of music, including a beautifully played dirge at the old cemetery where Mr. Beebe's children lie. Returning, the Major touched at the navy yard, the Sir Knights calling upon and saluting Commodore Guest, and being afterward shown the points of interest about the yard by Constructor Wilson and other of the naval officers. Ship Granite State, Sir Knight William Ross commander, was gaily decked with flags in honor of the occasion, and the Commandries called on their brother Templar and spent a short time in inspecting his magnificent ship. Returning to this city the Lynn Templars were escorted to the Rockingham House, where they dined, the officers of De Witt Clinton Commandry being their guests. At three o'clock the Portsmouth Commandry, with the Cornet Band, proceeded to the Rockingham, and escorted Olivet Commandry on a march about town and to the depot, where the visitors took the 5:55 train for home, having apparently enjoyed every hour of their visit.

The Lynn Brass Band, brought on by Olivet Commandry, is a superior one, and was "right on the play" while here, and especially on the trip to the Shoals and while ashore on Star Island.

The Portsmouth Cornet Band, too, made music they need not be ashamed of; a new quickstep, played by them on Friday, being especially worthy of commendation.

ACCIDENT.

Shortly after one o'clock, Friday afternoon, Lewis Calkins, son of Charles H. Calkins of Exeter, a slater employed on the new opera house, while engaged in hoisting slate stepped backward upon a pile of slate he had landed on the stage, slipped, and fell backward off the stage, striking the gutter of the Kearsarge House and falling thence to the ground, a distance of over thirty feet. His left arm and left leg were broken, and he was otherwise injured, it being feared his hip is broken. It is a marvel he was not killed outright. This is the first accident worthy of mention that has occurred in connection with the building of the new play-house.

SUNDAY SERVICES.

At St. Mary's (Catholic) church, Children's Mass at 8:30, Solemn Mass at 10:30 A. M.; Sunday School at two o'clock, Vesper Service at three o'clock, P. M.

At St. John's (Episcopal) church, services at 10:30 A. M. and 7:30 P. M. every Sunday,—except the first Sunday in each month, when the Children's Choral Service and public catechising, commencing at four o'clock, is substituted for the usual one at 7:30; seats free at this service.

At the Methodist church, preaching at 10:15 A. M. and 2:45 P. M., by the pastor, Rev. J. Noyes.

At the Court street (Christian) church, preaching at 10:30 A. M.; Sabbath school at 2:45 P. M.; Prayer meeting in the evening at half-past seven o'clock.

At the Unitarian church, preaching by the pastor, Rev. James DeNormandie, at 10:30 A. M. Vesper service at 7:30.

At the Congregational church, services at 10:30 A. M. and 3 P. M.; prayer meeting at 7:30 P. M. Preaching to-morrow by Rev. Mr. Hubbell, the pastor. Subject in the afternoon, "Future Punishment."

At the Middle street (Baptist) church, services at 10:30 A. M., 7:30, P M. Preaching to-morrow by Rev. Dr. Alden. Subject of evening lecture, "The Divinity of Christ."

At the Universalist church, preaching at 10:15 A. M., by Rev. H. W. Hand, of Dover.

Gospel temperance meeting at Bow Mission in the afternoon. The time will be given especially to reformed men. Subject of service, "Then and Now." Short speeches, and live singing from a new temperance circular. Laboring men especially invited. Seats free.

There will be a meeting of the Reform Club at Mechanics' Hall in the evening at 7:30 o'clock. Ex-President John S. Treat will address the club.

Rev. James DeNormandie will preach at the Congregational church in Eliot on Sunday afternoon at two o'clock.

THE VERDICT.

The following is the official verdict rendered by the coroner's jury in the case of John Faulkner:

State of New Hampshire, Rockingham, ss.

An inquisition taken at Portsmouth, in said county, the ninth day of September, in the year 1877, (and at adjourned meetings) before Samuel C. Whittier, one of the coroners of said county, upon the view of the body of John Faulkner, there lying dead, by the oaths of John W. Parsons, a justice of the peace for said county, and of Harry G. Tanton and Edwin A. Tilton, all reputable persons, who, being sworn, and charged to enquire for the State, when, how, and by what means the said John Faulker came to his death, upon their oath do say that the said John Faulkner came to his death, on the night of the eighth of September, in his sleeping apartment, by accidental suffocation while in a state of intoxication.

So the jurors aforesaid upon their oaths aforesaid, do say that the said John Faulkner, in manor aforesaid, came to his death by misfortune.

In witness whereof the said jurors have hereunto set their hands the twenty-seventh day of September, 1877.

JOHN W. PARSONS,
HARRY G. TANTON, } Jurors.
EDWIN A. TILTON,

In witness of all above written the said coroner hath hereto set his hand and seal, the same day and year.

(Seal.) SAMUEL C. WHITTIER, M. D., Coroner.

NAVY YARD ITEMS.

The repairs on the steamer Emerald are nearly completed, and she will resume her trips next week.

A rare sight at the yard is seen now—two merchant ships. The Granite State leaves (probably in tow of a steamer) on Tuesday next. Her skysail and royal yards have been sent down, and she is ready for departure, only awaiting her berth in Boston. Capt. Ross takes a part of his family with him, in the ship, proceeding from Boston to Rio Janeiro, thence to Callao. The Paul Jones lies beneath the sheers. Schooner E. M. Smith is alongside, with the rigging for this new vessel.

The Ticonderoga has been taken from the dry dock and hauled on the railway. This was a night job, being completed at five o'clock on Friday morning.

The anchor hoy is being used alongside the brig Clara J. Adams, in the effort to get her off the beacon ledge.

SEND HIM UP.

For some time past complaints have been frequent at the police station regarding the conduct of a young man (whose name is well known to the police, though we refrain from giving it on account of his father, who is an honest, industrious and respected citizen,) on the streets, in insulting ladies by addressing them in the most disgustingly obscene language. The police have been blamed for not putting a stop to his vile conduct, but they are not at fault in the matter, for they have had him locked up more than once; yet the aggrieved parties, though assured that the police magistrate would take their evidence in private, from motives of delicacy have all refused to appear against the culprit, so all the police could do was to let him loose,—to repeat his infamous conduct the first time he meets a woman alone on the street at night, with no officer near by to arrest him and no citizen at hand to knock him over, for he is "cute" enough to time his insulting proposals and language so as to secure his own immunity from punishment unless the insulted ladies appear against him, which they have all so far refused to do, as before stated. This is wrong; the reluctance of a virtuous woman to appear in such a case and repeat the vile language addressed to her is but natural, but she should reflect that by yielding to the dictates of womanly modesty she exposes other women to the same and possibly far worse outrages than she has suffered, from the same offender, who should be safely locked up, and gains courage to persevere in his vile course so long as he is not punished. The police are ready and anxious to do their part toward abating this nuisance, and we hope the next time the fellow insults a woman it will be one of those—and there are not a few such in this city—who believe that even a woman has duties to perform with regard to society which should not be evaded even though womanly delicacy may earnestly prompt to such evasion. This woman-insulter is a scamp, but the women he has insulted are not blameless.

THE WRECKED BRIG.

Reports in the Boston papers, that the brig Clara J. Adams, ashore on beacon ledge, is so badly damaged that she will be condemned and sold, are without foundation. Boston divers are now patching her, after which a steam pump will be brought into use and the water pumped out, and the vessel will go on the marine railway for repairs.—*Times.*

The brig has already been once condemned and sold, Mr. H. P. Dewey of Portland being the purchaser; after she is taken off the ledge she will be sold again, as the marine railway here has not capacity for taking her out of water for repairs.

PORTSMOUTH AND VICINITY.

Ship Kate Prince, built at Noble's Island in 1856, has been sold in New York,—probably to go under the German flag. No stronger ship was ever built on the Piscataqua.

The *Journal*, referring to the fact that a lime barrel of the size and construction of those used in Maine is not a legal barrel in Massachusetts, and cannot pass inspection in Boston, which operates unfavorably on the lime trade of Maine, notifies "parties from Massachusetts in want of lime for consumption" that they "can be supplied in the Portsmouth market at less prices than at any place in Massachusetts."

Mr. William Keefe is building a tenement house, on his lot on Linden Street.

The Granite State base ball club of this city have received a challenge from the Blue Star club of Rochester to play on Wednesday, Oct. 3d, at the Town Fair in Rochester, which they will probably accept.

The following is a list of the schooners forming Valentine Doane, Jr's, fishing fleet, with the tonnage of each vessel in round numbers: Henry M. Clark, 173 tons; Daniel Marcy, 115 tons; Mayor Jones, 102 tons; Governor Goodwin, 96 tons; Anna M. Nash, 80 tons; W. H. Y. Hackett, 74 tons; Velocipede 67 tons; Charlie, 62 tons; Light of Home, 56 tons; Clyde, 28 tons.

One of the proverbs in "Poor Richard's Almanac" was, "A penny saved is twopence earned." If this is true—and it is no doubt as true now as it was when Ben Franklin wrote it—anybody can make good wages by purchasing dry goods at L. Blumauer's great sale, at No. 21 Market street.

Mr. Amos Pearson, the experienced and successful teacher of music, receives pupils in Mercantile and Grange Hall, from nine to twelve o'clock daily. Twenty-three years' residence, and an unprecedented list of accomplished pupils, are sufficient testimonials to his ability.—*Weekly.*

One of the tax collectors of Kittery, Me., has collected $3000 worth of taxes and failed to make any returns thereof. The town has brought suit against his bondsmen for the amount. The case will be tried at the January term of court at Alfred. So the papers say.

Trust and Guarantee Company!

Depositors Secured by a Special Deposit Fund of

$100,000 as GUARANTY

"Against all Possible Loss of Every Kind and Nature."

The Company continues to receive sums on deposit as a "SAVINGS BANK," allowing interest therefor. The plan of this institution cannot be better exemplified than by the following extract from a communication from a prominent Bank Examiner:

"I am satisfied that yours is the only true principle upon which a "Savings Bank" ought to be established and which affords *perfect security to every depositor.*"

The Board of Direction is composed of the following gentlemen, viz:

EZRA H. WINCHESTER, President.
JEREMIAH F. HALL, Vice President.

DIRECTORS.

FRANK JONES, CHARLES MAIN, DANIEL MARCY, JOHN SISE, EZRA H. WINCHESTER, JEREMIAH F. HALL, WILLIAM H. HACKETT, THOMAS H. ODIN, EDWIN A. PETERSON.

GEORGE L. TREADWELL, Treasurer.

January 16, 1877.

Daily Chronicle.

Revaccination.

The vexed question as to how often vaccination is needful is again discussed by the London *Lancet*, the best English medical authority, which distinctly depreciates the frequent repetition of vaccination as being useless and tending to unsettle the minds of people in regard to its preservative power. It states that vaccination, once sufficiently performed, need never be repeated. The nurses and other servants in the London small pox hospital, when they enter the service, are invariably submitted to vaccination, which in their case is generally revaccination, and is never afterward repeated; and so perfect is the protection that, though the nurses live in the closest and most constant attendance on small pox patients, and though also the other servants are in various ways exposed to special chances of infection, the resident surgeon of the hospital, during his forty-one years of office there, has never known small pox to affect any of these nurses or servants.

—There can be but one objection to the proposition to abolish horses' blinders, which is that the noble beast, if relieved of his hoodwink, would be enabled to see the miserable specimen of the human animal that frequently holds the reins, and at once lose all self-respect.

Centaur Liniments.

One thing is now thoroughly established. Never since man suffered and human agencies alleviated pain has there been any thing which went so far as a pain annihilator and curative agent as the Centaur Liniments. These Liniments have within the past year cured more cases of Rheumatism, Neuralgia, Stiff-joints, Caked Breasts, Swellings, Poisonous Bites, Burns, Lame Animals, etc., etc., than all other remedies combined. As the name of Centaur implies half horse and half man, the Centaur Liniments are for man and beast. But not the same Liniment. The White Liniment is for man and the Yellow for horses and animals. Herein this Liniment differs from all other remedies, although some of the ingredients are alike in each. They contain the well-known Witch Hazel, Arnica, Carbolic, Rock Oil, Mentha and other powerful ingredients.

Wm. H. Hickcox, Rector of St. John's E. Church, Wakefield, Clay Co., Kansas, writes: "Many years I have been suffering from a Weak Back, caused from a sprain more than 40 years ago. I have not found any thing to relieve me until I commenced the use of Centaur Liniment. I feel it my Christian duty to inform you that by its wonderful effects I am entirely relieved of pain. January 22d, 1876."

Messrs. J. McClure & Co., Druggists, Cincinnati, Ohio, say:

"Teamsters pronounce the Yellow Centaur Liniment superior to any thing they have ever used. We sell several dozen bottles per month, and the sale is steadily increasing."

These are only samples of thousands upon thousands of similar testimonials reaching us every month. All the Extracts, Embrocations, Salves and Ointments in existence are not doing one-tenth the good which is done by these admirable Centaur Liniments. For Frost-bites, Stings, Cuts, Itch, Salt Rheum, etc., there is nothing like the Centaur Liniment, White Wrapper. For Spavin, Ring-bone, Sweeney, Wind-Galls, Poll-evil, Scratches, etc., on horses, the Yellow Centaur Liniment is equally as good. They are certain in their effects; they are pleasant to use, they are handy and they are cheap. No family should be without Centaur Liniments. They are worth one hundred times their cost.

J. B. ROSE & CO., 45 DEY ST., NEW YORK.

Castoria.

Mothers may have rest and their babies may have health, if they will use **Dr. Pitcher's Castoria** for Wind Colic, Worms, Feverishness, Sour Mouth, Croup, or Stomach Complaints. It is entirely a vegetable preparation, and contains neither mineral, morphine, nor alcohol. It is as pleasant to take as honey, neither gags nor gripes, and is superior to any remedy in existence.

Dr. E. Dimoch, of Dupont, Ohio, says:

"I am using CASTORIA in my practice with the most signal benefits and happy results, and find it a perfect substitute for Castor Oil."

This is what every one says. Many nurses in New York use the CASTORIA. It is prepared by Messrs. J. B. ROSE & CO., successors to Samuel Pitcher, M. D. tnov1

The Centaur Liniments have created a revolution in remedies for Rheumatism, Pains, Swellings, Pains, Burns, Scalds, Stings, etc. The White Liniment is for the human family, and the Yellow Liniment is for horses. They are certain, handy and cheap.

Castoria is certain to operate. It does not nauseate or gripe like Castor Oil, but is pleasant to take, digests the food, regulates the bowels, cures wind colic, expels worms, and causes natural sleep. It is equally adapted to adults and infants. It contains neither Mineral, Morphine nor Alcohol. Children teething may have health, and mothers find rest, if they use Castoria. tnov1

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as

Ayer's Cherry Pectoral.

It has been known to the public about forty years, by a long continued series of marvelous cures that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

HATHAWAY SHIRTS.

A FEW MORE OF THOSE

CELEBRATED HATHAWAY SHIRTS,

Cut Low in the Neck, at

William P. Walker's,

134 No. 3 Market Square.

This Cut illustrates the Manner of Using

DR. PIERCE'S

Fountain Nasal Injector,

OR

DOUCHE.

This instrument is especially designed for the perfect application of

DR. SAGE'S CATARRH REMEDY.

It is the only form of instrument yet invented with which fluid medicine can be carried *high up* and *perfectly applied* to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which acres and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. The want of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the ordinary methods. This obstacle in the way of effecting cures is entirely overcome by the invention of the Douche. Its use is pleasant and so simple that a child can understand it. **Full and explicit directions** accompany each instrument. When used with this instrument, Dr. Sage's Catarrh Remedy cures recent attacks of Catarrh in "**Cold in the Head**" by a few applications.

CATARRH

SYMPTOMS—Frequent headache, discharge falling into throat, sometimes profuse, watery, thick mucus, purulent, offensive, etc. In others, a stringent, dry, watery, weak, or inflamed eye, stopping up, or obstruction, of nasal passages, ringing in ears, deafness, hawking and coughing to clear throat, ulcerations, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of appetite, indigestion, enlarged tonsils, tickling cough, etc. Only a few of these symptoms are likely to be present in any case.

Dr. Sage's Catarrh Remedy, when used with **Dr. Pierce's Nasal Douche**, and accompanied with the constitutional treatment which is recommended in the pamphlet that wraps each bottle of the Remedy, is a perfect specific for this loathsome disease. It is mild and pleasant to use, containing no strong or caustic drugs or poisons. One Catarrh Remedy is sold at 50 cents, Douche at 60 cents, **by all Druggists.**

R. V. PIERCE, M. D., Prop'r,

BUFFALO, N. Y.

DR. QUAIN'S

MAGIC

CONDITION PILLS!

The Wonderful Remedy for Liver Complaint, Biliousness Dyspepsia, Constipation, Neuralgia, Rheumatism, Headache, Kidney Complaint, Nervousness, Scrofula, Piles, and all diseases arising from a bad state of the Blood!

No medicine ever offered to the public has given such universal satisfaction as Dr. Quain's Magic Condition Pills. Their praises are on every tongue where their merits are known. They strike at once at the seat of disease and show their healing power almost immediately. Thousands of voluntary testimonials of their merits have been received by the agent, from those who have been cured by them, of which the following are samples:

Dyspepsia Four Years, Constipation and Inflammation of the Bowels Three Years, Confined to my Room Two Years, Pain so I Could Not Sleep Without Morphine. One Package of Dr. Quain's Conditior Pills Made Me Eat Well, Sleep Well and Free from Pain, after being given up by Physicians.

WEST LEBANON, ME., Feb. 22, 1

MR. THOMAS W. LANE:—I have been sick for 3 years with Dyspepsia, and for the past three years Constipation and Inflammation of the Bowels, have suffered all the pain I could endure and live, have been confined to my room for two years, and could not sleep nights without the use of morphine. I have been given up by physicians as past cure. I have taken one package of DR. QUAIN'S CONDITION PILLS, and they have done me more good than all the doctors I have had. I sleep well, I eat well and have no pain. They are all they are recommended to be. Please send me three packages, as two of my neighbors wish to try them. I enclose $1.50.

Your truly, JOHN W. LORD.

Another Letter from May. John W. Lord, one month later Wonderful Cures by Dr. Quain's Pills Effected on Him in Thirteen Days. First time Free from Pain for Three Years.

WEST LEBANON, ME., March 22, 1875.

MR. THOMAS W. LANE:—I commenced taking DR. QUAIN'S CONDITION PILLS February 9th, and wrote you February 22d of their wonderful effect. I have continued to improve ever since. My appetite is good, and I sleep as well as I ever did in my life. I am free from pain for the first time in three years. When I was under your care two years ago, I weighed one hundred and eighty-six pounds; I now weigh one hundred and thirty, but, as I am gaining in strength, I have faith I shall regain my flesh this summer, by the use of the Pills. I shal continue taking them for some time to come.

Yours truly, JOHN W. LORD.

Dr. Quain's Pills the Remedy for Soldiers' Aches and Pains.

WEST LEBANON, ME., June 1, 1875.

MR. THOMAS W. LANE—*Dear Sir:*—I am now able to walk out every day, and am gaining in strength very fast, all of which is due to you as agent for the best Pills in the world. I have taken no other medicine, and my improvement has been steady since first taking DR. QUAIN'S CONDITION PILLS. They have done everything for me, and I will say to you, advertise them direct to the soldiers, for they will certainly cure them of aches and pains caused from exposure and hardship on the field. Please send me by return mail another package.

JOHN W. LORD.

Rheumatism for Twenty Years Cured by One Package of Dr. Quain's Condition Pills—"The Best Medicine in the World."

EAST ANDOVER, N. H., Dec. 10, 1875.

MR. LANE—*Dear Sir:*—As I know the value of DR. QUAIN'S CONDITION PILLS and the good they have done me, I take pleasure in giving them praise; so I send you another testimonial. My father has been troubled with Rheumatism for twenty years or more, and has tried everything that could be heard of, but to no good. At times it would be so bad that he could not lift his hand to his head or do any work at all, especially in cold weather. A short time ago I advised him to get some of these Pills. He believed nothing in them, but I gave him the last package I had of you, as I did not need them, and he has not been a free from the Rheumatic Complaint for years. No Rheumatism, no pain. What he had him? It was DR. QUAIN'S CONDITION PILLS, the best medicine in the world. There is nothing like them. I *know it*, for I have tried them, and they are all, yes, more than they are recommended to be. Give them a fair trial and you will say so. I write this because I know the goodness of them and wish others to know the same. Some may think I am telling a big story. I am. But remember I am not giving them half the praise they ought to have.

Yours with respect, EDW. PEVARE

Wonderful Effect of Four Doses of Dr. Quain's Condition Pills upon Neuralgia of Twelve Years' Duration—Testimony of Rev. J. S. Patton.

DAINGERFIELD, MORRIS CO., TEXAS, Nov. 15, '75.

MR. THOMAS W. LANE—*Dear Sir:*—I have been afflicted for near twelve years with Neuralgia in the face and head. I tried *I do* not know how many physicians, and could only get partly relieved. I also tried many patent medicines with the same result. I have been confined to my room most all the time for eight or ten winters, and have been travelling and visiting medical springs, and still suffered most intensely. The physicians pronounced my case the worst and most stubborn that they had had anything to do with. One told me I could never get well; they all advised me to go South and spend the winter, and thought that was the only chance for me, and I was trying to get ready to go to Florida, when through the kindness of Rev. H. M. Mathis, my attention was called to the advertisement of Dr. Quain's Magic Condition Pills. I immediately sent to you for a package. I have taken four doses and I am almost free from pain. The impression here seems to be that if your pills will cure me, they will cure anybody. I have five applications to send for the pills. Enclosed please find three dollars; send five packages to me and one to Mrs. Laura Sherrel, Sulphur Springs, Hopkins county, TEXAS.

Yours truly, J. S. PATTON

Liver Complaint, Nervousness, Dropsy and Headache.

LAGONIA, N. H., Jan. 29, 1875.

THOS. W. LANE—*Sir:*—I have been troubled with Bad Blood, Liver Complaint, Nervousness, Dropsy and Headache. I have taken one package of DR. QUAIN'S CONDITION PILLS. They have done me more good than all the medicine I ever took; I have taken considerable medicine within the last five years. For the nerves I think there is nothing so good as those pills. I can recommend them to all who are similarly afflicted, they have done me so much good. I think they will recommend themselves wherever they go. I shall recommend those Pills to all who need them. Please send me two packages more, one for myself and one for a lady friend of mine. Many thanks to the inventor, agent and advertiser of those Pills.

MRS. P. L. ELLIOTT.

DR. QUAIN'S MAGIC CONDITION PILLS are put up only by the AMERICAN MEDICINE CO., Manchester, N. H., THOMAS W. LANE, Agent.

PULMOCINE.

BUCHMAN'S PULMOCINE CORDIAL

is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best *Pulmonary Curative* no could prescribe, after dozen years spent in experimenting with it before e was satisfied that the Materia Medica could add nothing in its favor.

Among its many ingredients are *Wild Cherry Bark, Squill Root, Liquorice Root, Blood root, &c.* It is a Blood Purifier, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the luxurious trying climate of New England

PULMOCINE CORDIAL

Is a speedy and reliable Preventive and Remedy. Every Family should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred *Throat Diseases* at all times prevalent, it is the ounce of *Prevention.* Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate each. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this *Family Medicine* prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all this afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and patient's danger is past.

For Coughs,

Croup,

Diphtheria,

Asthma, etc.,

USE

Buchman's Pulmocine Cordial.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, absolutely pure and unadulterated.

R. H. EDDY,

No. 70 STATE ST., OPPOSITE KILBY, BOSTON,

Secures Patents in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

R. H. EDDY, Esq.—Dear Sir: You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to happy you.

Yours truly, GEORGE DRAPER.

BOSTON, January 1, 1877. 3tawtian1'78

AMERICAN & FOREIGN PATENTS!

[ESTABLISHED 1865.]

GILMORE & CO., Successors to CHIPMAN HOMER & CO., Solicitors. Patents procured in all countries. NO FEES IN ADVANCE. No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a rehearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation. Special attention given to Inventions or Patents. SEND STAMP TO GILMORE & CO. FOR PAMPHLET OF SIXTY PAGES.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,397,500 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

OFFICERS, SOLDIERS and SAILORS of the late war or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All OFFICERS, SOLDIERS and SAILORS wounded, ruptured or injured in the late war, however slightly can obtain a pension by addressing GILMORE & CO

Cases prosecuted by GILMORE & CO. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the some experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & CO. is thus secured. We desire to win success by deserving it. ADDRESS

CITY HEALTH REGULATIONS.

THE BOARD OF HEALTH OF THE CITY OF PORTSMOUTH call the attention of the public to the following sections of Chapter 19, of the Revised Ordinances, and invite all interested in the preservation o health in our city to aid them in the execution of their duty:

SEC. 3. All waste water or houses, yards, cellars, sinks, pumps, etc., shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

SEC. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners and occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

SEC. 6. No carcass or meat at the stalls shall be permitted to leave any stale meat, heads, feet or offal of any kind about their stals or stores over night, or suffer them to be thrown into any street, lane or alley of the city. Nor shall any sellers of fish be permitted to throw any offal of fish into any street, lane or alley of the city, or upon any wharf, but shall either bury them or throw them into the river beyond low water mark.

SEC. 7. If any dead animal or decaying vegetable substance, or any other nuisance, shall be found in any part of the city, the owners or occupiers of the premises where such nuisance shall be found, shall cause the same to be removed within twenty-four hours after being notified so to do by one or more of the health officers.

SEC. 12. When any householder shall know that any person within his family is taken sick of the small pox, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Health Officers.

SEC. 13. When any physician shall know that any person whom he is called to visit is infected with the small pox, or any other disease dangerous to the public health, such physician shall immediately give notice thereof to the Health Officers.

SEC. 14. If any such householder or physician shall refuse or neglect to give the notice required in the preceding sections, he shall for such refusal or neglect, forfeit the sum of twenty dollars, to be recovered by either of the Health Officers in the name of the city.

SEC. 16. The Health Officers may give written notice to the owner or occupier of any building, vessel or enclosure, to remove or destroy any nuisance or other thing deemed by them on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said Health Officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, vessel or enclosure, and cause said nuisance or other thing aforesaid to be removed or destroyed.

SEC. 21. No person shall erect, keep or continue, or permit to be erected, kept or continued, upon any land occupied by him, any pen for the keeping of swine, or privy, over either of the mill ponds in this city, or so placed that offensive substances therefrom shall be discharged or drained into either of said ponds or into any creek, or cove, or drain leading thereto. And no person shall construct, keep or continue any drain leading from any pen for the keeping of any swine, slaughter-house, privy vault, or other unwholesome or offensive place, into either of said ponds, or to any dat or marsh adjoining the same. And no person shall throw or suffer to be thrown from his land into either of said ponds, or upon any of said flats or marshes, any dead, decaying, unwholesome or offensive animal or vegetable substances.

AYER'S SARSAPARILLA,

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake with the iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and who a substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Boils or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucorrhea arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

Fine Tobacco Free!

TRY IT!

If any person who appreciates a really fine grade of TOBACCO, for Smoking or Chewing, will send us their address by Postal Card, we will send *in return (free of expense)* a sample of the very *best Tobacco* in the market, manufactured by the

MERCHANTS' TOBACCO CO.,

4G 30 Broad Street, Boston, Mass.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as they are beautiful.

It restores gray or faded hair to its youthful color.

It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purpose."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

Woodbury and others, with a full list of the 600 Trees set, and the names of the persons or Associations who set or paid for them —may be had at 25 cents per copy, at the Bookstore of J. H. FOSTER, or at the Portsmouth *Weekly* Counting Room. Sent postpaid on receipt of price.

Portsmouth Chronicle.

Something About Marrying.

Jennie June in one of her gossip letters undertakes to explain why it is that so many young women marry elderly men. She looks away from money—which has been so generally brought into consideration of such alliances—for the principal reason, and we are very much inclined to think she has found it. The young man of to-day, according to this authority, is not the desirable party the young man of fifty years ago was; he is not so thoughtful, sober, painstaking and conscientious; he lives at a club, has no love of home life nor desire to build up character and reputation as a man and citizen; his ideas of life are bounded by the theatre and the doings of his little set; and in too many cases his ambition is to own a racer and be on intimate terms with the ballet. Naturally mothers "shrink from entrusting their daughters to such youths as these, even if they have the opportunity, and are better pleased to bestow them on older men—men who have sowed their wild oats; who know how little of real value there is in the temporary excitement of pleasure; who have, perhaps, been married once, and have learned to value home and the guarantee it affords for permanent happiness." There is enough in this opinion of a keen and observant woman to cause reflection. Her picture is undeniably a fair one, but of course there are exceptions in young men, who are not all accurately described in her sweeping phrases. The race of fifty years ago has some lingering samples still on earth, and most of them are no doubt complaining that the young women are not the kind they had fifty years ago. They are now young ladies; to them the thoughtful, sober, painstaking young man is stupid and a bore. If he knows anything he overwhelms them, and no young lady likes to be overwhelmed. They prefer one more airy, with a jaunty style, even a spicing of slang, and one who knows all the light gossip of the town and can tell it in a breezy, flippant way that gives it relish. If he owns a racer it's awful jolly, and he's the young fellow "that's too nice for anything." We should suppose a mother would naturally shrink from entrusting her son to such young ladies as these. But there are exceptions here, as there are on the other side. The real need is some means of separating the sensible young people from those who are not so sensible, and of bringing the young men and maidens together in their appropriate class. Let our social economists direct their powerful attention to this important question.—*Exchange.*

The Old Barque Truelove Again.

Several men belonging to the barque Truelove, of London, appeared in custody before the county magistrates sitting at Brixham, England, recently, for refusing to do duty. It was stated that the vessel was coal laden and bound to Spain. She had to put into Falmouth for repairs, and shortly after leaving that port bore up to Brixham for further repairs. The Truelove was built at Philadelphia, and launched as long ago as 1764, being, in fact, 113 years old. The master of the vessel was warm in his praise of the seaworthiness of the craft.

—A curious accident was that which happened in Champaign, Ill., one day last week. A well-digger backed his horse into a well, the animal falling thirty-seven feet upon a man at the bottom. The man escaped between the horse's legs, and avoided injury from the animal's desperate struggles by clinging to his neck.

The war correspondent of the London *Daily News* says that at the battle near Kazelevo, where the Russians were defeated, "a Russian officer, who was observed gallantly endeavoring to rally the men, was killed, and the body, when subsequently discovered, proved to be that of a woman. She was buried where she fell."

Daily Chronicle.

MONDAY, OCTOBER 1, 1877.

Explanation Needed.

The evils of a republican National Administration, and a protective tariff, and the United States laws for the registration of shipping, to which the democrats and the New York *Post* attribute the business stagnation in this country for the past four years, are more far-reaching than even they assert. In fact, this evil influence extends to England, which is not under republican rule, and has free trade, in ships and about everything else. The London *Times* of Sept. 26th in its financial article says:

Business is very dull and inactive; nothing but complaints are heard on all sides of immovable stagnation. There is only too good reason to believe that the nation must prepare for a further struggle before we regain prosperity.

The New York *Post*, which has always advertised free trade and free registration for foreign built ships as the universal and infallible panacea for all the ills that nations are heir to, should explain how it is that the nostrum does not work more satisfactorily in the case of Britain, the inventor and patentee. If free trade will cure hard times in this country, why does it not prevent hard times in England?

The Eastern War.

On Friday the Turks reported another severe repulse of the Russians at Plevna, the latter losing 8000 men and four guns. Also, that Sulieman Pasha had intercepted the Russian communications between Shipka Pass and the town of Gabrova, and cut off all retreat from the Russians. On Saturday it was stated that no engagement at all had occurred at Plevna, and that the snows in the Shipka region prevented either army from moving. Active operations for the season are believed to be nearly at an end. The Russian general, Levisski, who was responsible for the failure to reinforce Skobeleff when he was desperately striving to hold a captured redoubt at Plevna, and who was removed from his command in consequence, has committed suicide.

[Written for the Chronicle.]

The White Mountain Excursion.

The White Mountain Excursion of last week from Newburyport, Portsmouth and adjacent towns to Fabyan's and return for the trifling sum of $2.50, was a grand success. Of course, everything didn't run so smoothly as on ordinary days with no great crowd to manage and provide for; but considering that some seven or eight hundred people were being transported on a train that must keep clear of the regular trains by allowing the latter the road on their time, the fact that the excursionists were two hours and a half behind the advertised time is not so very strange after all. There was but little fault-finding among the passengers; in fact, we heard no growling until we got home, and then it was by those who didn't go! But one ought not to expect to get as much for twenty-five cents as usually costs him a dollar. In other words he must know that more or less discomfort always attends a crowd, and that a crowd is quite generally the result of low fare; and so the two, if not inseparable, are probable concomitants. Speaking for the party of excursionists that started for the White Mountains from Portsmouth on Thursday last, we can assert that we never saw a better-natured, better-behaved or jollier set of people on any like occasion. There was nothing said or done, that we know of, that should offend any lady. So much for the crowd and its character.

The ride through the Notch was "just magnificently grand." To the writer, who had never seen a mountain nor even a high hill, it was a sight that filled him with awe and amazement. But so much has been written about the wonders of the Notch, and by far abler pens than ours, that we shall forbear encroaching upon the patience of the reader in an attempt to describe the ride through the Notch.

After reaching Fabyan's those of us who proposed remaining over a day or two found that there was nothing to do in that region but go to the top of Mt. Washington. Touching this matter we were informed that if a party of fifty or more could be obtained, half fare tickets would be furnished to each, so that the cost of visiting the summit from Fabyan's and return would be three dollars. A little canvassing soon secured the required number, and in a few minutes after the party was increased to two hundred. This being the limit of the capacity of the Summit Railway conveyance (it was in fact just fifty more than they should have taken) the sale of tickets was stopped, and at 4:45 we left Fabyan's for the foot of the mountain—a distance of six miles. This point reached we found three cars, each about the size of a New York horse car, waiting for us. A scramble for seats ensued, and as there were only enough for one hundred and fifty the other fifty were compelled to stand. Aside from the discomfort occasioned by being overloaded, and the ever-conscious fear that something might break, the ride up was intensely novel and the scenery gloriously sublime. [The adverb is actually needed in order to make the adjective strong enough.] We won't try a description of this, either. We cannot do it, and don't believe anybody can. If there is a pen-wielder whose powers of description are adequate to convey to the mind of one who has never ascended Mt. Washington the sensations that take possession of the beholder while experiencing that seemingly perilous ride of three miles over those rugged mountain peaks, we would like to be introduced to him. We have never seen nor heard of one. We reached the Summit House in safety at seven o'clock, and were as well cared for in every way as we could have been at Fabyan's. This was likewise a marvel to us. Think of it! No notice was had of our coming until two hours before our arrival. A party of two hundred were to be provided with supper, lodging and breakfast at a hotel that had just closed for the season, and had nearly everything stowed away for winter; and this, too, at the top of Mt. Washington, a place that seems hard enough to reach without rations or other necessaries of subsistence. Almost all things are possible with man, though, as a visit to this mountain top will prove.

The chief inducement to climb the mountain was the prospect of witnessing a glorious sunrise from the summit. But we were doomed to disappointment. The evening was clear and beautiful; the waning moon shone out, giving us an indistinct view of the surrounding mountains, and the wind was blowing fresh from the northwest. On retiring, everything promised well. The early morning, however, found the mountain top enveloped in heavy clouds, thus shutting out from our gaze what we had longed to behold. We were called at five o'clock to prepare for breakfast, and after he entire two hundred had arisen, and severally strode the piazza of the Summit, striving to see some signs of lifting in the dense and chilly fog, they each withdrew to huddle together and warm themselves around the welcome coal fire in the hotel waiting-room. Bets that it would not "clear up" found no takers, and at seven o'clock we commenced the descent. If the ascent was gloriously sublime, the descent was still more so. When about a mile down the mountain we emerged from the clouds to behold the morning sun lighting the world below us. With the clouds just above, and the beautiful panorama below, spread out over miles and miles of mountain region, it was a magnificent spectacle.

We arrived at the foot in safety and found a party of sixty-five more excursionists waiting to ascend. It has been stated that the grandeur of the White Mountain scenery has never been surpassed. A gentleman of our party told me that he had climbed the Alps, but had never witnessed anything in Mt. Blanc that surpassed the wonders of the mountain region of New Hampshire. We advise all our friends and foes to at least take a ride through the Notch if they don't go anywhere else. * * *

News and Notes.

A fire at St. Gregoire, Canada, Thursday night, burned a farm house and five children, three other children being suffocated; their mother, the only adult in the house, escaped.

The last game of the base ball season at Boston was played on Saturday between the Boston and Hartford clubs, the former winning by a score of 8 to 4.

The losses by the great fire in Providence foot up $696,950; insurance, $373,500.

Lieut. Allen, 16th U. S. Infantry, telegraphed Gen. Sheridan from Buffalo, Kansas, on Wednesday, that two of the ruffians who robbed the train on the Union Pacific Railroad had been killed and eighty pounds of gold recovered.

The great Japanese rebellion is once more crushed out, and the leading chieftains, Saigo, Kirino and Murata, have committed hari-kari, all the others submitting to the government forces.

Not long ago Lewis Myers, the treasurer of Wapakoneta county, Ohio, was found one morning in his office, bound and gagged; the safe was open and all the county's money gone. Myers related a pitiful tale about the way masked burglars banged him and bounced him, and stole him from his home and made him open the safe; but the heartless police soon after arrested him on suspicion of knowing more of the matter than he told of, and he now confesses that the county auditor, J. T. Smith, was the person who was permitted to bind and gag him, and rob the safe. It appears that money had been before abstracted with Myers' knowledge and probable consent.

Titusville, Penn., was somewhat excited on the 19th ult., by a report that Leopold Leob, a prominent business man, aided by an unknown desperado, had attempted to murder by hanging one Harmar Levy, a young man of good character and formerly a clerk of Leob. The object of the crime was to get possession of a receipt lawfully held by Levy, who would have been murdered but for the quick wit and prompt action of an unknown horseman, who saw the two ruffians at their work, took in the situation at a glance, and, drawing a pistol, galloped down upon the party exclaiming: "Drop that man or I'll shoot you!" "Oh, we've got a horse thief here," said Leob. "Drop him, horse thief or no horse thief," the horseman repeated, levelling his pistol. They dropped him and took to their heels, and were soon lost in the woods. Levy was almost gone, his face was as black as a negro's and his neck was skinned and cut. He was taken to a farm house, and with much difficulty restored. Leob's friends are trying to keep the case out of the courts.

There was a cloud-burst of mammoth proportions near Los Angeles in Southern California, recently, and the water from it submerged seven miles of railway, beside sweeping away several culverts and 4000 feet of track.

The Hartford base ball club beat the Manchester on Friday, 3 to 2. The umpiring gave much dissatisfaction.

The Iowa Methodist Conference resolved to entreat all ministers and members who use tobacco to desist for conscience's sake; and to vote for the admission of no one to the conference who uses tobacco, without a pledge that he will abandon it.

The opposition to the Maffit bell punch in Virginia is taking a practical turn, and the private bottle is on the increase. By buying as much as five gallons, the special tax of forty cents on a gallon is avoided, and drinking at home is more popular. So are the private club rooms more popular.

William Tryson arrived at St. John, N. B., on Friday, having pulled all the way from Yonkers, N. Y., 700 miles, in a flat-bottomed wherry.

Two young fools, one nineteen years old and the other a year younger, have been arrested at Portsmouth, England, for robbing several carriages at Blackheath, near London, which many years ago was a favorite resort of highwaymen. Among the effects of the youthful idiots were found numerous novels of the "dime" order, such as "Claude Duval, the Dashing Highwayman," the "Adventures of Dick Turpin," and the like. They will have a chance to see the inside of a penitentiary.

Red Cloud, Spotted Tail and the other Indian chiefs in Washington had a "big talk" with the President on Thursday, Friday and Saturday.

New Hampshire Items.

The police are trying to catch Peter Ayers of Sunapee for bigamy. He is reported to have had three wives, two of whom he murdered, the last saying on her death-bed that he had forced her to eat matches.

The barn of William T. Brown of Campton was burned Friday night. Loss $400; insurance $300, in New Hampshire Fire Insurance Company.

In Pittsfield, Mass., Thursday night, E. L. Horton of Boston was arrested for being connected with others in passing counterfeit money at Suncook.

On Sunday night, Sept. 17th., some man who didn't know that Mr. Corning kept a dog, undertook to go through the Lancaster House, at Lancaster. He had not proceeded very far before Corning's dog came out through the window of the harness house and fastened on to the rear end of the stranger in such a manner that he felt a stern necessity of leaving those diggins. The dog didn't howl, but the stranger did. The inmates of the house, alarmed by the outcry, arose just in time to see the man leaping out of sight with the dog hanging to the strips of his unmentionables in a way denoting him to be the hungriest dog in town.

Some time ago, Mr. Thomas W. Whitney, living about two miles from Groveton village, put about half a pound of powder into the oven of a stove, which during the summer he had no occasion to use, to keep it from the rats. Last Friday a fire was built in the stove, but he forgot all about the powder, and the result was a blow-up. One piece of the stove hit Mr. Whitney's sister, who was there visiting, cutting a severe gash across the forehead, and two little girls sitting by the stove had their eyes filled with the powder, affecting them so badly that at last accounts they had not been able to open them. A hard wood table sitting in the room was blown to pieces, windows and sash blown out, the plastering badly defaced, and a good deal of damage done generally. Mr. Whitney thinks he will be careful in the future where he keeps his powder.

Political.

General Banning, of Cincinnati, is a cool customer. In the face of the confessed frauds on the ballot-box, by which he secured his election to Congress, he mounts the stump and denounces the registry law which makes a repetition of the frauds impossible. Of course it is natural he should have strong feelings toward such an interference with democratic methods, but it would have been decent in him to keep still about them.

The Meridian (Miss.,) *Mercury* is indignant at the action of the grand jury in Kemper county, which has found six indictments for murder and twenty-five for being accessory to murder. A portion of them, it is believed, are against the actors in the Chisholm murders. The *Mercury* intimates that if any arrests are made, the "demon" will be aroused in people who are now "calm and acquiescent in the law." The calm acquiescence of people in a law that is not enforced, and their excitement to devilitry as soon as an attempt is made to enforce it, is characteristic of Mississippi justice, and illustrates the ideas of law that prevail in that region.

Berwick Sponge Cake.

There was in former days a famous restaurant at Berwick, in Maine, a town bounded by the New Hampshire line. It was at the junction of the two railways from Boston for Portland and the east. In times forty years ago, when railway building in the United States was in its first wind, these two railways, the Boston & Maine and the Eastern, came racing into Maine, their routes nearly parallel, each seeking a charter to Portland. The prudent legislature of that time would give but one charter over that ground. Accordingly a company was formed, the Portsmouth, Saco & Portland, which built the line from Berwick to Portland, and on equal terms hauled the united trains of the Eastern and the Boston & Maine, which each started from Boston at the same time, into Portland together. Berwick junction, where the trains formerly halted and were hitched together, to be taken into Portland, and separated to be taken into Boston, became a famous refreshment station. An employe of one of the companies was lamed in some accident, in consideration of which the privilege was given him of keeping the refreshment room at that point. The specialty of his establishment was sponge-cake; the tea and coffee were of but moderate quality. But the cake made his fame. It was a golden yellow, light yet rich, moist and creamy, and moreover, would keep. The ladies always bought an extra portion to take home with them. More enterprising ones procured the recipe for its making from the accomodating restaurateur or his cooks. The secret was stirring the yolks and whites of the eggs separately, stirring them with all possible rapidity, and putting the mixture to bake immediately. Nice fresh eggs had something to do with it, but separate, rapid stirring and quick setting to bake was indispensable. The recipe was taken from that station all over the country, and if in any part any of our readers should discover wholesome and palatable sponge-cake, that will keep fresh for days, he may probably trace back its lineage though a generation or two to Berwick, not Berwick on the Tweed, but Berwick on the Salmon Falls river.
—*New York Stockholder.*

A Wonderful Toy.

A monk of the Benedictine monastery at Raigern, between Brunn and Vienna, has completed a mechanical curiosity in the shape of a self-moving terrestrial globe one and four-tenth metres in diameter. A combination of wheels gives it a motion similar to that of the earth, and when once set going it will revolve for three weeks. At the north pole of the axis are dial plates, on which the days, months, etc., are indicated, and over these is a similar globe, by means of which the motion of a planet round the sun is exhibited. The larger globe sets the smaller one in motion by the agency of twelve wheels. The construction of the mechanism took more than ten years' patient application, and was only completed after numerous experiments. As regards geographical details, the map on the globe is carefully drawn, and shows all the latest discoveries. The steamer routes, railway and telegraph lines, the heights of mountains and the depths of the ocean are all distinctly shown. The maker of the globe is a self-taught mechanician and artist, who during the past thirty years has adorned the monastery with numerous examples of his skill and ingenuity.

—A Philadelphia dancing master is said to be about introducing a new dance expressly for fat people. All the performers have to do is to sit and kick.

Time-Proof Teeth.

The teeth may be rendered time-proof by brushing them daily with Sozodont. No tartar can encrust them, no canker affect the enamel, no species of decay infest the dental bone, if this pure and delicious dentifrice is faithfully used to the exclusion of every other preparation.

Mutilated furniture is made perfect with Spalding's Glue.

The chances are against your getting a prize of $100,000 or $50,000 or $25,000 in the next drawing of the Louisiana State Lottery Company, but some one will, and there is a strong *possibility* that you may win. The best way to test the question satisfactorily is to write to M. A. Dauphin, P. O. Box 692, New Orleans, La., for tickets or information. The management of the Company is attested by the leading bankers and business men of New Orleans to be of a high-toned, responsible character.

Hall's Vegetable Sicilian Hair Renewer has for many years occupied an honorable place in the toilet of American women, and has also attained popularity in foreign countries. This is because it does PERFORM what it promises. Its warmest friends are those who have used it longest, and these who sound its praise the loudest are those who from actual experience and personal trial have demonstrated that by its use gray hair is restored to its natural color and dry, harsh, and wiry hair is made soft and lustrous, a thing of beauty, and a matter of joy and pride to the wearer.—*Sub-Soiler and Democrat, Corinth, Miss.*

THE GREAT REMEDY FOR SORE THROAT, PULMOCINE CORDIAL is for sale at the UNION STORE, Market Street. Price 50 cents per bottle.

To All Whom It May Concern:

The Directors of the Phosphoric Air Co. in good faith, offer the above reward, for the sworn statement of two respectable citizens of any city or town, which will prove that PHOSPHORIC AIR, the Great French Remedy, has failed to permanently cure any form of CATARRH, Asthma, Epilepsy, or any form of Nervous or Mental diseases. One month's treatment, Inhaler, and instructions, sent to any part of the country on receipt of $5.00.

Inhalation is the only way in which the air passages and brain can be reached.

Phosphoric Air cures by its effects upon the circulation, which is the only way disease can be eradicated from the system.

We will be happy to give a TRIAL FREE to any who can call upon us so that they may experience its immediate beneficial effects.

Consulting Rooms of Phosphoric Air Co.,

E. G PIERCE, Jr., P. M.

FIFTEEN YEARS PASTORATE.

Sunday was the fifteenth anniversary of the commencement of the pastorate of Rev. James DeNormandie at the Unitarian Church in this city.

The altar was profusely decorated with flowers. In front of the desk was a shield, the ground of which was white carnations, upon which in carmine colors were the figures '62, '77, while other emblems were beautifully arranged.

The sermon was a review of the progress of the parish for the past fifty years, the changes in the manner of attendance, etc., being noticed. The statistics of deaths and the peculiar changes in the past fifteen years in the congregation and kindred subjects were touchingly given. The pastor maintained that in all communities we have too many churches of different creeds, in not a few cases feebly supported. He advocated a concentrated effort in behalf of religion, instead of a diffused and scattered labor to establish and maintain sects.

NOT MISTAKEN AT ALL.

The *Times* of Saturday evening alludes to the article in the CHRONICLE of that day concerning a young man who within a few months has repeatedly insulted women on the streets, and in reference to our statement that "the aggrieved parties, though assured that the police magistrate would take their evidence in private, from motives of delicacy have all refused to appear against the culprit, so all the police could do was to let him loose," says "the CHRONICLE is grievously mistaken," and goes on to explain that he was once punished for similar conduct on the testimony of four young women he had insulted. We were not very grievously mistaken; in fact we were not mistaken at all, nor did we misstate the facts. We were well aware the fellow was before the police court *early in October of last year*, and was sent to Brentwood for six months; and we are equally as well aware (as is the *Times* also) that within a few months past numerous complaints have been made of his actions, and he has been more than once locked up by the police, yet the aggrieved parties have all refused to appear against him,—in which they were decidedly in the wrong. We plainly enough referred to what the fellow has recently been and is now doing; not to what he did in his infancy, or even a year ago. Possibly our neighbor would be doing the public as much service by lending its influence to the abatement of the nuisance referred to, as by giving a manifestly strained and irrational interpretation to what the CHRONICLE said, for the purpose of breaking any force it might have.

[Communicated.]

SCHOOL REGULATIONS.

Editor of Chronicle:—There is no public interest of more importance than our schools, and on this subject every parent and citizen has a right to be heard. Having children in whose education I am directly interested, and having a more general and broader interest in the cause, I wish briefly to refer to some of the regulations recently adopted, and proposed for adoption by the "Board of Education."

The appointment of grade committees is open to grave objections. A member of the committee is naturally or ought to be most interested in the schools of his own district, and there his arduous labors for the cause should be bestowed. It will not do to spread the average member over too much territory. Mr. S. may properly have charge of the grammar school in his own district, but who cares to have him slop over into the other districts? Mr. H. does good work where he is most interested, and probably has no time to do more. Mr. G. has always been a favorite at the south end and done excellent service for the schools there; it is probably about all he can and will do in the future.

But the real objection is the want of unity; each member should know something of all the schools in his district, that he may be able to work more intelligently and effectually for the good of the schools and the advancement of the pupils from one grade to a higher. We would give his work more latitude and less longitude. The old plan worked well, and why the change? Soon we shall have men to establish communications between the committees of the different grades—sort of foreign ministers from one dignified body to the next higher or lower. Who pays for the red tape?

But the marvel stops not here. Look at the rules reported at the last meeting of the board. No. 1 proposes that the "re-election" of teachers shall depend on the *unanimous* recommendation of the "Grade Committee." If injustice has been done in the removal of any teacher in the past, how much easier it will be to do it in the future! One grave and reverend committee-man refuses to join in the recommendation for reasons best known to himself, possibly such as he would not care to openly give, and the teacher, no matter how faithful or how much worn out with work, is forthwith ordered to appear for examination. It is devoutly to be hoped that there is no teacher in the city who would do it. One could afford to take in washing sooner than crawl and pray for a re-election under such circumstances.

No. 2 proposes that these examinations shall be conducted by the High School Committee, of which the proposer is a member.

No. 4 proposes that no new teachers shall be appointed to the lower grades who are not graduates of some normal school. That is to say, graduates from our own schools shall not teach the alphabet in our smaller schools till they have been several terms—or years for ought we know—to an expensive school abroad, the expense of board away from home being more than most of our graduates can afford. Thus our children, for whom we have bought books by the basketful and worked hard to help in school, are to be excluded from all right to a position as teacher within our borders. "O ingratitude! thou marble-hearted fiend!" Perhaps this proposed regulation was written by some custom house officer, or jeweller, or merchant, or doctor, or lawyer, or minister who does not want the people's money, and so it is right and just to say our children shall not have the chance to earn a dollar, when they can give as good an equivalent as any one else. Already, gentlemen, you have sent excellent teachers abroad who asked for a place at home, and the strangers you have taken instead are doing no better work than these exiled ones are accomplishing elsewhere. "Fair play is a jewel." But for real genuine philanthropy, not to mention justice, read No. 5.

In case of the sudden illness or necessary absence of any teacher, the master in that district may furnish a supply for a period not exceeding three days; if the absence is prolonged, notice shall be given to the sub-committee, who shall appoint a teacher for the remainder of the term, subject to the confirmation of the Board,—but no teacher shall, in any case, hereafter be confirmed until a competitive examination is held, by the direction of the Board, as provided in Section 2.

Our teachers are not even allowed to be sick. If they are, then off goes their heads and in goes somebody else, so that they may derive no advantage from their daily pittance should God see fit to inflict them with ills to which flesh is heir. Where is compassion? Where is justice?

Verily, we with many prayers commend this "Board of Instruction" to the powers that created them in a single night—the city fathers. It is too bad the people do not know enough to elect a school board, but so it seems to be.

X. Y. Z.

PORTSMOUTH AND VICINITY.

City Marshal Entwistle and Assistant Marshal Gray captured a stolen team in North Hampton, on the farm of Joshua Drake, on Saturday night. The man who stole the team was not caught. When found the wagon was hid in the woods, a part of the harness in a tree, and the horse in a corn field. The team is owned by J. B. Randall of Bradford, Mass.

Mr. Charles F. Vaughan, of this city, who is carrying on the bakery business in Manchester, met with an accident last week. His horse shied at something in the street, and in Mr. Vaughan's efforts to control him he broke the bit; the horse ran, throwing Mr. Vaughan out. He was picked up insensible, and remained so for five hours. Fortunately no bones were broken, although he was pretty well shaken up.

Morse & Ilsley will sell by auction to-day the Buzzell farm; also the cattle, horses, tools, hay, etc. See advertisement.

The amount collected at this port for the fiscal year ending July 1st, 1877, is as follows: duties $17,052.21; tonnage tax, $447.30; marine hospital dues, $351.75; fines and penalties, $10.

Three paintings of dogs from the studio of Miss Mary E. B. Miller were on Saturday morning placed on exhibition at Willis G. Myers' book-store in Congress Block, which for life-like qualities and smooth finish are par excellence. Two of the portraits represent the well-known dog belonging to Mr. Alfred Larkin, while the other is that of a favorite pet owned by a New York lady. These superior pieces will remain on exhibition only a short time, and admirers should call early if they want to see them.—*Times.*

James R. Happeny, a man forty-one years old, was run over on the Saugus Branch of the Eastern Railroad, Sept. 25th, had both legs and one arm crushed, and died in the Massachusetts General Hospital at Boston on the 26th. He was formerly a resident of this city, and was sent to State Prison for setting a barn on fire during the epidemic of fire-raising which prevailed here some sixteen or seventeen years ago.

Mrs. S. E. Pearson, the florist of Broad street in this city, was awarded the premium for the handsomest pair of hand bouquets at the State Fair at Manchester.

The examination of candidates for the vacancy in the Walker School took place in the Girls' High School room on Saturday afternoon. Five young ladies presented themselves as candidates from this city and two from Newington. The examination lasted four hours and a half, and was conducted by the committee on examinations from the Board of Instruction, other members of the Board being present, as was Mr. S. W. Clarke, Principal of the High School, who rendered the committee valuable service in placing at their disposal the conveniences of his room, etc. The result is as yet unannounced.

The fall arrangement of the Eastern and Boston & Maine Railroads goes into effect on Monday, Oct. 8th.

NAVY YARD ITEMS.

The U. S. S. Enterprise, our old standby, is reported to be "quietly secured alongside of the wharf at the navy yard" near Norfolk, Va., and after the repairs of the Powhatan are completed and she is undocked, the Enterprise will take her place. A more economical method, it would seem, would have been to have put her on the railway at this yard, where she could have remained for an indefinite time. There may at some future day be a call for the use of the stone dry dock at Norfolk, but the Enterprise will be found "quietly secured" therein; while if she was on the railway here the dock could be used for other service. We commend this suggestion to the chiefs of the bureaus of yards and docks and things.

The ferry steamer Emerald, which has been thoroughly repaired at the navy yard, made a trial trip on Saturday, taking the officers of the yard and others, on an excursion down the harbor.

Lieut. F. W. Nichols is detached from the Colorado and ordered to the Enterprise.

Lieut. Theo. T. Wood is detached from the Enterprise and ordered to the Colorado.

The ferry steamer Emerald has recommenced her regular trips between the navy yard and this city.

Commodore D. Mc N. Fairfax is president of the board now at Newport, R. I., to witness the examination of the class of officers under instruction in the* use and manufacture of torpedoes.

JOHN SISE, THOMAS H. ODIOM,
EDWIN A. PETERSON.

GEORGE L. TREADWELL, Treasurer.

January 16, 1877

Daily Chronicle.

The Cannon Revolver.

The Whitehall *Review* describes a formidable gun called a "cannon revolver," just adopted by the French Government. The peculiarity of this arm consists in its capability of throwing eighty shells per minute of rather more than one pound each, which break up into twenty-four fragments. The cannon revolver can be brought into action and the range determined with great rapidity, and when once sighted it can be worked without the slightest recoil and traversed by pivot action. Its destructive effects can thus be brought to bear on troops either in column or deployed. It commences to be effective at the tremendous range of over 3000 yards. The first delivery of this formidable arm to the French government is principally for the use of the navy. The guns are fired from and resting on the bulwarks, and are intended for torpedo boat searching. In this form the weight of the piece is only about 700 pounds, but as field pieces the additional gear required brings them up to about 1600 pounds. Two men only are required to move the gun itself.

—An old horse, which has run loose in the streets of Marblehead for some time, deliberately committed suicide on a recent evening by walking overboard from one of the wharves.

Centaur Liniments.

One thing is now thoroughly established. Never since man suffered and human agencies alleviated pain has there been any thing which went so far as a pain annihilator and curative agent as the Centaur Liniments. These Liniments have within the past year cured more cases of Rheumatism, Neuralgia, Stiff joints, Caked Breasts, Swellings, Poisonous Bites, Burns, Lame Animals, etc., etc., than all other remedies combined. As the name of Centaur implies half horse and half man, the Centaur Liniments are for man and beast. But not the same Liniment. The White Liniment is for man and the Yellow for horses and animals. Herein this Liniment differs from all other remedies, although some of the ingredients are alike in each. They contain the well-known Witch Hazel, Arnica, Carbolic, Rock Oil, Mentha and other powerful ingredients.

Wm. H. Hickcox, Rector of St. John's E. Church, Wakefield, Clay Co., Kansas, writes: "Many years I have been suffering from a Weak Back, caused from a sprain more than 40 years ago. I have not found any thing to relieve me until I commenced the use of Centaur Liniment. I feel it my Christian duty to inform you that by its wonderful effects I am entirely relieved of pain. January 22d, 1876."

Messrs. J. McClure & Co., Druggists, Cincinnati, Ohio, say:

"Teamsters pronounce the Yellow Centaur Liniment superior to any thing they have ever used. We sell several dozen bottles per month, and the sale is steadily increasing."

These are only samples of thousands upon thousands of similar testimonials reaching us every month. All the Extracts, Embrocations, Salves and Ointments in existence are not doing one-tenth the good which is done by these admirable Centaur Liniments. For Frost-bites, Stings, Cuts, Itch, Salt Rheum, etc., there is nothing like the Centaur Liniment, White Wrapper. For Spavin, Ring-bone, Sweeney, Wind-Galls, Poll-evil, Scratches, etc., on horses, the Yellow Centaur Liniment is equally as good. They are certain in their effects; they are pleasant to use, they are handy and they are cheap. No family should be without Centaur Liniments. They are worth one hundred times their cost.

J. B. ROSE & CO., 46 Dey St., New York.

Castoria.

Mothers may have rest and their babies may have health, if they will use **Dr. Pitcher's Castoria** for Wind Colic, Worms, Feverishness, Sour Mouth, Croup, or Stomach Complaints. It is entirely a vegetable preparation, and contains neither mineral, morphine, nor alcohol. It is as pleasant to take as honey, neither gags nor gripes, and is superior to any remedy in existence.

Dr. E. Dimoch, of Dayton, Ohio, says:

"I am using CASTORIA in my practice with the most signal benefits and happy results, and find it a perfect substitute for Castor Oil."

This is what every one says. Many nurses in New York use the CASTORIA. It is prepared by Messrs. J. B. ROSE & CO., successors to Samuel Pitcher, M. D. tnov1

The Centaur Liniments have created a revolution in remedies for Rheumatism, Pains, Swellings, Pains, Burns, Scalds, Stings, etc. The White Liniment is for the human family, and the Yellow Liniment is for horses. They are certain, handy and cheap.

Castoria is certain to operate. It does not nauseate or gripe like Castor Oil, but is pleasant to take, digests the food, regulates the bowels, cures wind colic, expels worms, and causes natural sleep. It is equally adapted to adults and infants. It contains neither Mineral, Morphine nor Alcohol. Children teething may have health, and mothers find rest, if they use Castoria. tnov1

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as Ayer's Cherry Pectoral. It has been known to the public for thirty years, by a long continued series of marvellous cures, that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most efficacious cures of Coughs and Consumption, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

Dr. Pierce's Pleasant Purgative Pellets

SIZE OF PELLETS

Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.

The novelty of modern Medical, Chemical, and Pharmaceutical Science. No use of any longer taking the large, repulsive, and nauseous pills, composed of cheap, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a little granule, **scarcely larger than a mustard seed,** that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each little **Purgative Pellet** represents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in drug-shops. From their wonderful cathartic power, in comparison to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect; but such is not the case. The different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce **a most searching and thorough,** yet **gentle and kindly operating, cathartic.**

$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any calomel or other forms of mercury, mineral poison, or injurious drug.

Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, High-colored Urine, Unsociability and Gloomy Forebodings,** take **Dr Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their salutary impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes, and which, in all diseases where **a Laxative, Alterative, or Purgative,** is indicated, these little pellets will give the most perfect satisfaction to **all** who use them.

They are sold by all Druggists at 25 cents a bottle.

BUFFALO, N. Y.

DR. QUAIN'S

MAGIC

CONDITION PILLS!

The Wonderful Remedy for Liver Complaint, Biliousness Dyspepsia, Constipation, Neuralgia, Rheumatism, Headache, Kidney Complaint, Nervousness, Scrofula, Piles, and all diseases arising from a bad state of the Blood!

No medicine ever offered to the public has given such universal satisfaction as Dr. Quain's Magic Condition Pills. Their praises are on every tongue where their merits are known. They strike at once at the seat of disease and show their healing power almost immediately. Thousands of voluntary testimonials of their merits have been received by the agent, from those who have been cured by them, of which the following are samples:

Dyspepsia Four Years, Constipation and Inflammation of the Bowels Three Years, Confined to my Room Two Years, Pain so I Could Not Sleep Without Morphine. One Package of Dr. Quain's Condition Pills Made Me Eat Well, Sleep Well and Free from Pain, after being given up by Physicians.

WEST LEBANON, ME., Feb. 22, 1

MR. THOMAS W. LANE:—I have been sick for 7 years with Dyspepsia, and for the past three years Constipation and Inflammation of the Bowels, have suffered all the pain I could endure and live, have been confined to my room for two years, and could not sleep nights without the use of morphine. I have been given up by physicians as past cure. I have taken one package of DR. QUAIN'S CONDITION PILLS, and they have done me more good than all the doctors I have had. I sleep well, I eat well and have no pain. They are all they are recommended to be. Please send me three packages, as two of my neighbors wish to try them. I enclose $1.00.

Your truly, JOHN W. LORD.

Another Letter from May. John W. Lord, one month later Wonderful Cures by Dr. Quain's Pills Effected on Him in Thirteen Days. First time Free from Pain for Three Years.

WEST LEBANON, ME., March 29, 1875.

MR. THOMAS W. LANE:—I commenced taking DR. QUAIN'S CONDITION PILLS February 9th, and wrote you February 22d of their wonderful effect. I have continued to improve ever since. My appetite is good, and I sleep as well as I ever did in my life. I am free from pain for the first time in three years. When I was about sick four years ago I weighed one hundred and eighty-six pounds; I now weigh one hundred and thirty, but, as I am gaining in strength, I have faith I shall regain my flesh this summer, by the use of the Pills. I shal continue taking them for some time to come.

Yours truly, JOHN W. LORD.

Dr. Quain's Pills the Remedy for Soldiers' Aches and Pains.

WEST LEBANON, ME., June 1, 1875.

MR. THOMAS W. LANE—*Dear Sir:*—I am now able to walk every day, and am gaining in strength very fast, all of which is due to you as agent for the best Pills in the world. I have taken no other medicine, and my improvement has been steady since first taking DR. QUAIN'S CONDITION PILLS. They have done everything for me, and I will say to you, advertise them direct to the soldiers, for they will certainly cure them of aches and pains caused from exposure and hardship on the field. Please send me by return mail another package.

JOHN W. LORD.

Rheumatism for Twenty Years Cured by One Package of Dr. Quain's Condition Pills—"The Best Medicine in the World."

EAST ANDOVER, N. H., Dec. 10, 1875.

MR. LANE—*Dear Sir:*—As I know the value of DR. QUAIN'S CONDITION PILLS and the good they have done me, I take pleasure in giving the cure I am so I send you another testimonial. My father has been troubled with Rheumatism for twenty years or more, and has tried everything that could be found of, but to no good. At times it would be so bad that he could not lift his hand to his head or do any work at all, especially in cold weather. A short time ago Ladyfied him to get some of these Pills. He believed nothing in them, but I gave him the last package I had of you, as I did not need them, and he has not been so free from the Rheumatic Complaint for years. No Rheumatism, no pain. What helped him? It was DR. QUAIN'S CONDITION PILLS, the best medicine in the world. There is nothing like them. *I know it,* for I have tried them, and they are all, yes, more than they are recommended to be. Give them a fair trial and you will say so. I write this because I know the goodness of them and wish others to know the same. Some may think I am telling a big story. I am. But remember I am not giving them half the praise they ought to have.

Yours with respect, ED. F. PEVEAR

Wonderful Effect of Four Doses of Dr. Quain's Condition Pills upon Neuralgia of Twelve Years' Duration—Testimony of Rev. J. S. Patton.

DAINGERFIELD, MORRIS CO., TEXAS, Nov. 15, '75.

MR. THOMAS W. LANE—*Dear Sir:*—I have been afflicted for the last twelve years with Neuralgia in the face and head. I tried I do not know how many physicians, and could only get partly relieved. I also tried every patent medicine I could, the same result. I have been confined to my room most all the time for eight or ten winters, and have been traveling and visiting medical springs, and I suffered most intensely. The physicians pronounced my case the worst and most stubborn that they had had anything to do with. One told me I could never get well; they all advised me to go South and spend the winter, and that I might find something for me, and I was trying to get ready to go to Florida, when through the kindness of Rev. H. M. Mathis, my attention was called to the advertisement of Dr. Quain's Magic Condition Pills. I immediately sent to you for a package. I have taken four doses and I am almost free from pain. The impression here seems to be that if your pills will cure me, they will cure anybody. I have five applications to send for the pills. Enclosed please find three dollars; send five packages to me and one to Mrs. Laura Sherrel, Sulphur Springs, Hopkins county, Texas.

Yours truly, J. S. PATTON

Liver Complaint, Nervousness, Dropsy and Headache.

LACONIA, N. H., Jan. 29, 1875.

THOS. W. LANE—*Sir:*—I have been troubled with Bad Blood, Liver Complaint, Nervousness, Dropsy and Headache. I have taken one package of DR. QUAIN'S CONDITION PILLS. They have done me more good than all the medicine I ever took; I have taken considerable medicine within the last five years. For the nerves I think there is nothing so good as those pills. I can recommend them to all who are similarly afflicted, they have done me so much good. I think they will recommend themselves wherever they go. I shall recommend those Pills to all who need them. Please send me two packages more, one for myself and one for a lady friend of mine. May God bless the inventor, agent and advertiser of those Pills.

MRS. P. L. ELLIOTT.

DR. QUAIN'S MAGIC CONDITION PILLS are put up only by the AMERICAN MEDICINE CO.[Manchester, N. H., THOMAS W. LANE, Agent.]

PULMOCINE.

BUCHMAN'S PULMOCINE CORDIAL

is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best *Pulmonary Curative* so could prescribe, after dozen years spent in experimenting with it before it was satisfied that the Materia Medica could add nothing in its favor.

Among its many ingredients are *Wild Cherry Bark, Squill Root, Liquorice Root, Blood root, &c.* It is a Blood Purifier, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the lung-trying climate of New England

PULMOCINE CORDIAL

Is a speedy and reliable Preventive and Remedy. Every Family should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred *Throat Diseases* at all times prevalent, it is the ounce of *Prevention.* Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate each. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this *Family Medicine* prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all thus afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and patient's danger is past.

For Coughs,

Croup,

Diphtheria,

Asthma, etc.,

USE

Buchman's Pulmocine Cordial.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. Its effects are the profession and to the public, absolutely pure and unadulterated.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, ESQ.—Dear Sir: You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you.

Yours truly, GEORGE DRAPER.

Boston, January 1, 1877. 3tawtjan7

AMERICAN & FOREIGN PATENTS!

[ESTABLISHED 1865.]

GILMORE & CO., Successors to CHIPMAN HOBMES & CO., Solicitors of Patents for all countries. NO FEES IN ADVANCE. No charge unless the patent is granted. No fees for making preliminary examinations. No additional fee for obtaining and conducting a rehearing. Special attention given to Interferences conducted before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. SEND STAMP TO GILMORE & CO. FOR PAMPHLET OF SIXTY PAGES.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,897,500 acres of Bounty Land Warrants outstanding. These were issued under acts of 1855 and prior thereto. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

OFFICERS, SOLDIERS and SAILORS of the late war or their heirs, who were in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

PENSIONS.

ALL OFFICERS, SOLDIERS and SAILORS wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & CO

Cases prosecuted by GILMORE & CO. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & CO. is their secured. Success to win success by deserving it. ADDRESS

GILMORE & CO.,

PORTSMOUTH.

CITY HEALTH REGULATIONS.

THE BOARD OF HEALTH OF THE CITY OF PORTSMOUTH call the attention of the public to the following sections of Chapter 10, of the Revised Ordinances, and invite all interested in the preservation of health in our city to aid them in the execution of their duty:

SEC. 3. All waste water of houses, yards, cellars, sinks, pumps, etc., shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

SEC. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners and occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

SEC. 6. No vender of meat at the stalls shall be permitted to leave any stale meat, heads, feet or offal of any kind about their stals or stores over night, or suffer them to be thrown into any street, lane or alley of the city. Nor shall any sellers of fish be permitted to throw any offal of fish into any street, lane or alley of the city, or upon any wharf, but shall either bury them or throw them into the river beyond low water mark.

SEC. 7. If any dead animal or decaying vegetable substance, or any other nuisance, shall be found in any part of the city, the owners or occupiers of the premises where such nuisance shall be found, shall cause the same to be removed within four hours after being notified so to do by one or more of the health officers.

SEC. 12. When any householder shall know that any person within his family is taken sick of the small pox, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Health Officers.

SEC. 13. When any physician shall know that any person whom he is called to visit is infected with the small pox, or any other disease dangerous to the public health, such physician shall immediately give notice thereof to the Health Officers.

SEC. 14. If any such householder or physician shall refuse or neglect to give the notice required in the preceding sections, he shall for each refusal or neglect, forfeit the sum of twenty dollars, to be recovered by either of the Health Officers in the name of the city.

SEC. 15. The Health Officers may give written notice to the owner or occupier of any building, vessel or enclosure, to remove or destroy any nuisance or other thing deemed by them on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said Health Officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, vessel or enclosure, and cause said nuisance or other thing aforesaid to be removed or destroyed.

SEC. 21. No person shall erect, keep or continue, or permit to be erected, kept or continued, upon any land occupied by him, any pen for the keeping of swine, or privy, over either of the mill ponds in this city, or so placed that offensive substances therefrom shall be discharged or drained into either of said ponds or into any creek, or cove, or drain leading thereto. And no person shall construct, keep or continue any drain leading from any pen for the keeping of any swine, slaughter-house, privy vault, or other unwholesome or offensive place, into either of said ponds, or to any flat or marsh adjoining the same. And no person shall throw or suffer to be thrown from his land into either of said ponds, or upon any of said flats or marshes, any dead, decaying, unwholesome or offensive animal or vegetable substances.

AYER'S SARSAPARILLA,

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, stillingia, and Mandrake with the Iodide of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and who e substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucborrhea arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

Fine Tobacco Free!

TRY IT!

If any person who appreciates a really fine grade of TOBACCO, for Smoking or Chewing, will send us their address by Postal Card, we will send in return (*free of expense*) a sample of the *very best Tobacco* in the market, manufactured by the

MERCHANTS' TOBACCO CO.,

416 30 Broad Street, Boston, Mass.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color.

It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray, or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

Executions in Adrianople.

To get up in the gray dawn and watch while here and there at the street corners a number of fellow-creatures, from half a dozen to a score, are "hanged by the neck until dead," is by no means a pleasant experience. At least, this may be affirmed if we judge by western standards. But the people here are becoming accustomed to the spectacle, and they make very little fuss about a mere hanging. It is difficult to know when an execution is to take place. In such matters I have no morbid curiosity, but I thought it my duty to witness for myself the spectacle this morning, and now propose to tell very briefly what it is like. Save for whispers that get about, the first hint of an approaching execution is given to the ordinary observer by the erection of the "gallows"—a three-legged affair made of not very strong poles, and very similar to that in which gypsies suspend their pots over the camp fire. These structures are put up at a street corner or crossing late at night; the signal is well understood, but the operation attracts very little attention. I saw one put close by my hotel last night, so gave orders that I should be called in time for the "ceremony." The soldiers went through their business in a very matter-of-fact fashion. The culprit was a pale-faced Bulgarian, dressed in a Frankish costume, with the exception of the fez, for this man did not wear the ordinary clothes of the Bulgarians. As to his bearing, he seemed to have become lost either to hope or to fear before the end came. His hands were fastened behind his back, the noose was adjusted apparently with considerable skill, the stool was removed from below his feet, and within a very few minutes there was hardly a convulsive twitch of the limbs remaining to tell that the ghastly thing thus suspended in the golden and rosy light of the morning sun had been a sentient human being, with his individual hopes and fears, it may be with his loves and his high aspirations.

My object in going near to the place was not chiefly to study the air and demeanor of the culprit, far less to work up sensational details in regard to a subject so intensely revolting. What I chiefly desired was to see for myself how the ordinary Turkish population demeaned themselves on this occasion. And the result was such as to give a renewed and forcible illustration of the indifference to life and to the taking of life which has been so much observed among Orientals. The streets were crowded with people passing to and fro on their ordinary occupations. And though there was no hindrance to the most complete view of the spectacle, yet hardly more than one person in ten cast more than a passing glance on the ghastly scene. Nearly a score of soldiers stood round, but they had not the slightest difficulty in keeping back the "mob." Of course, by far the greater proportion of the crowd were Turks. They were of both sexes—for a number of women stood up in little groups together by the side of the street before they passed the body—and they were of all ages. Little children holding by their mother's henna-stained fingers looked up curiously at the sight, and the mothers themselves regarded it with large, lustrous eyes, in whose glances there was more of wonder than of fear, horror, or aversion. As with fixed bayonets they stood round the dangling corpse, the soldiers preserved a quiet and serious demeanor, I was glad to see that neither among the soldiers nor among the little crowd who stood by was there any disposition to scoff at the fate of the unhappy culprit.—*New York Times Correspondence.*

"Sulphuret Oil of Roses."

A wonderful External Remedy, almost miraculous in effect. By absorption it eradicates Rheumatic pains, Neuralgia, Nervousness and Throat Diseases. Sufferers do themselves positive injustice by not giving this Remedy a trial. Price 50 cents and $1. FLAVILLE, BROTHER & CO., Chemists, 39 Franklin street, Boston. N. B. AGENTS WANTED IN EACH TOWN. FSS&GtF

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&6tsept15 78

Daily Chronicle.

TUESDAY, OCTOBER 2, 1877.

Business Notes.

The New York *Sun* of Thursday thus describes the business aspect of that city at the present time: "During business hours Broadway and the streets adjacent thereto below Broome are crowded with bustling people, who find their progress greatly impeded, by the transfer of merchandise from stores and sidewalks to trucks. Never before, at any period since the close of the war, have dry goods jobbers transacted in September so large a line of business as during the present month, while the general mercantile trade of the past two weeks has been the most active that has been witnessed or experienced among wholesale dealers for years. The hotels are crowded with guests, the majority of whom are country merchants, come to make purchases, the West and the Southwest being more particularly represented by the buyers now in this market. The fall dry goods trade has opened in such manner as to convince the most skeptical that New York will transact a heavier and larger trade than ever accomplished before. Many dry goods houses are at work by gas light till twelve or one o'clock to fill orders."

A prominent railroad man from the West gives glowing accounts of the present condition of the grain crops in the West, and of the universal improvement and increased activity in business in that section. Cars for the transportation of grain cannot be furnished in numbers to meet the demand.

Meriden, Conn., bears testimony to the returning business prosperity. All her large manufactories have larger orders than for six years past; some of them run until midnight, and part of the Britannia force are kept busy through the night.

News and Notes.

A despatch from Kentucky reports that Hon. Cassius M. Clay on Sunday killed a negro named Henry White, and then surrendered to the authorities.

Eli Phillips, a veteran of the regular army in the Florida, Mexican and Southern wars, aged 80, but still a powerful and desperate fellow, was arrested at Long Island Saturday morning for stealing boats and rigging along the Maine coast. He is also a graduate of the Massachusetts State Prison.

Doun Piatt is out in a card about the old "moth killer" fraud, making specific charges against Col. Rufus Ingalls, Gen. Marcy (Gen. McClellan's father-in-law,) and others, and offering to prove all he says before a Congressional committee or a grand jury.

The Department of Justice will need at least $250,000 more to provide for its current needs this year, the appropriation made by the last Congress being wholly inadequate.

An Arkansas man lately snapped both barrels of his gun at his bed-ridden wife. The gun, as if endowed with the humanity of which its owner was devoid, refused to be discharged, but, when the monster took it by the muzzle and attempted to dash out the sufferer's brains, the breech glanced on the bed-post, both barrels "went off," and their respective charges of buck-shot took lodgings in the would-be murderer's lungs. There was no wearisome delay about the funeral preparations.

A despatch from Victoria, Vancouver's Island, says an Indian woman while bathing was seized by an octopus, or devil fish, and drowned. The body was discovered by Indians next day lying at the bottom of the bay in the grasp of the octopus. They cut the tentacles and recovered the body.

At Rockville, Conn., Thursday, a man named White, his mother, and a man named McVey, started to drive home from the cattle fair; both men were drunk, and White, who was driving, fell out of the wagon, and the horses started on a run, throwing out and killing the other man and Mrs. White.

James E. Buddington, who killed Wm. Thompson at Groton Centre, Conn., for improper intimacy with Mrs. Buddington, was sent to the county jail for ninety days.

Schooner Commonwealth, Gross master, left Rockland, Me., for Boston, with a load of lime, Wednesday, and returned next day on fire, and with the loss of the captain, who was knocked overboard and drowned the night before. [A later report says the dead body of Capt. Gross was found in the vessel's cabin on Saturday afternoon, he having evidently laid down and been suffocated, instead of being washed overboard as was at first supposed. His two sons, aged respectively fifteen and twelve years, were all the crew on board, and took the schooner back to Rockland.]

Nelson H. Carr, a prominent and wealthy citizen of Danbury, Conn., was explaining to a friend, Saturday, the operation of dynamite, holding some of the powder in his hand, when it exploded, instantly killing him.

Rutland, Vt., has had a great scandal. A Mrs. Cheeney having been detected in improper relations with a man not her husband, confessed her guilt to the church of which she was a member, but requested that she might be suspended instead of expelled, as she wished to reform and her husband had forgiven her. The deacons refused her request, whereupon she told the minister that at least one of the deacons was as bad as herself. She was expelled, and one of the deacons at the same time handed the pastor a letter acknowledging his guilt with the woman, and asking for expulsion, which was promptly granted him. All the parties had previously borne good reputations.

Sawyer, Ex-Assistant Secretary of the Treasury, was convicted in Washington on Saturday of conspiring to defraud the United States, the penalty for which is imprisonment from one to five years, or a fine of $1000 to $5000. Parkman Brooks and Ex-Commissioner of Customs Haines were convicted of bribery—all three cases arising from a fraudulent cotton claim made by Brooks.

Chief Joseph and his Nez Perces have been chased across the line into Canada, it is now reported. The Apaches have attacked the ranches along the Gila river in New Mexico, and killed twenty whites. Lieut. Bullis has had a fight with Indians near Pecos river in Texas, in which he lost several of his command. Seven companies of cavalry, with two Gatling guns, have crossed the Rio Grande river into Mexico in pursuit of hostile Indians.

Yellow fever still rages at Fernandina, Fla. The Collector of the Port died Saturday night, and the Mayor, Riddell, is sick. There had been 853 cases of fever up to Saturday night.

Orrin Porter Rockwell, the notorious Mormon murderer and chief of the Danites or Destroying Angels, has been indicted by the grand jury at Provo, Utah, for his share in the Aitken massacre of 1858. He was arrested by the U. S. Marshal, and placed in the penitentiary for safe keeping; he was drunk when arrested. Burton, Major-General of the Nauvoo Legion, and Dr. Clinton, his adviser, have been arrested for participating in the murder of the Morrisites, and released on bail of $15,000 and $10,000 respectively.

Four hundred and fifty-nine recruits for the Mormon church landed in New York on Saturday. They are from Norway, Sweden, Denmark and Great Britain.

The business portion of Putnam, Conn., was destroyed by fire on Sunday. Loss $125,000 or more; about half insured. The town numbers about 5000 inhabitants.

New Hampshire Items.

As showing the extent of the drouth, it is said that the manufacturing companies at Suncook are drawing two-thirds the water they are now using from the reserve ponds, and yet they have not enough.

Rev. Eleazer Smith of Concord will soon celebrate the fiftieth anniversary of his ordination into the ministry of the Methodist Church.

William Palmer, of Exeter, and Capt. Benjamin Sanborn, of Conterbury, both pensioners of the war of 1812, died recently.

Rev. O. W. Kimball of Concord, a member of the Senior class of the Newton Theological Seminary, is a stated supply for the Baptist Church at Bow.

A lead and silver mine, thought to be a continuation of the Newburyport mine, is found to crop out in two places at Madison.

Scales, the wool-thief now in jail at Haverhill for stealing wool from Mr. Johnson's warehouse at Enfield, will be tried for that offence and then taken to Hillsborough county to be tried for highway robbery, as it is almost certain that he was the man who robbed the old farmer, Melvin, at Weare some weeks since, by knocking him down on the highway. The detectives are confident of being able to send Scales to State prison for twenty years.

Political.

The Washington *Republican*, transferred to Ex-Secretary of the Navy Robeson and Ex-Public Printer A. M. Clapp, is to be conducted as an anti-administration organ. The *Union*, the new paper to be run by Ex-Congressman John Lynch, is to be strongly in favor of the administration; and as the best talent is to be employed on both papers some lively sparring may be expected.

Sam. J. Randall and Albert W. Fletcher, superintendent of the document room of the House of Representatives, have brought suit against the Philadelphia *Sunday World* for libel in having charged Randall with receiving pay for his influence, and Fletcher with allowing valuable documents to be stolen. The proprietors of the paper offered no defence, and were each bound over in $1000.

Col. David H. Armstrong has been appointed United States Senator from Missouri, to fill the vacancy caused by the death of Senator Bogy.

J. H. B.

[Written for this paper.]

"The First and Last Dinner."

In *Blackwood's Magazine* of 1829, a deeply interesting sketch appeared, bearing the above title, of which the following, though in less graceful language, as well as can be recollected, was the substance. Twelve young friends, fixed by their pursuits, their family connections, and other local interests, as permanent residents of London, while chatting over their wine at that famed hostelry, the Star and Garter, at Richmond, agreed to form themselves into a club under the following regulations. That they should dine at each other's houses alternately on the first and last day of every year; that the first bottle of wine uncorked at the first dinner should be recorked and drank by him who should be the last of their number; that they should never admit a new member; that the table should continue to be set for the twelve, and that they should sit for the usual number of hours, whatever the number remaining; that when but one survived, the first time he so dined alone, lest it should be the only one, he should then uncork the first bottle, and in the first glass drink to the memory of all who were gone. The twelve never had the opportunity of dining together, for while gliding down the Thames in their yacht in returning to London in the evening, and chatting in high glee of their dinners in the future, one of them, losing his balance, fell into the river and was drowned, though every effort was made to save him. When the last day of the year came, and with it their first dinner, the vacant chair did not fail to bring to memory their lost companion, and a decorous sigh or two, with a few observations on the uncertainty of life, preceded the more agreeable observances for which they had met; but by the time the watchman announced the hour of twelve beneath their windows, and the beginning of a new year, they had ceased to note the inequality of six on one side of the table and five on the other. The years went by, the eleven continued to hold their double anniversary, and then a calamity befell them at such a season that they never had looked for, when one of their number, the wit, the life of the circle, was hanged for making a single stroke of a pun in a wrong place,—a check that went into his hands for £700 passing out of it for £1700. Time sped onward until raven locks had changed to a silvery hue, and once bright eyes had lost their lustre; good old port and warm madeira took the place at their dinners of hock, burgundy and champagne; conversation at the table ceased to be boisterous, turning chiefly to politics, the state of the funds, and the value of landed property; a quiet game of whist occupied the time once given to hilarious merriment; and ere taking their departure for home at eleven, there was a buttoning up of great coats, a tying on of woollen comforters, and a grasping of stout canes to support unsteady feet. The fiftieth anniversary came, when four feeble old men sat down by "the mercy of God," as they tremulously expressed it, to observe yet once more the frolic compact of their youthful years; eight were in their graves, yet when a glass or two of generous wine sent the blood coursing more warmly through their veins, they talked of the past as if it were but yesterday, and of the future as if a century lay before them. They were just the number for a rubber of whist, but when a few more years were gone, whist was no longer practicable when they met; *two* could play only at cribbage, and that was the game, yet a mockery of play it was, for their palsied hands could scarcely hold the cards. At length came the *last* dinner, and the survivor of the twelve, upon whose head four score winters had showered their snows, sat down to his solitary meal. It chanced that at his house the first dinner had been eaten, and in his cellar the bottle he was that day to uncork had remained for eight and fifty years. As it stood before him, his thoughts went back into the past; he saw, as in a mirror, how one by one his companions in the merry hours at Richmond had dropped into eternity, and felt the utter loneliness of his position, for he had never married, and not one was left on earth with whom he could claim kindred. When he had drained the glass, while tears coursed down his furrowed cheeks, "to the memory of those who were gone," he prepared to fulfill the remainder of his vow by sitting the usual number of hours at the table, desolate and lonely though it was; but ere long a lethargic sleep stole over him, confused images crowded into his mind, he babbled to himself, and when his servant came, alarmed by the noise he heard, he found him stretched upon the floor, upon which he had slipped from his chair in an apoplectic fit, and in a little time he passed like his companions, the last of them all, to the realities of the unseen world.

Such a club as the above was formed in New York at the time the story appeared, of which seven members remained a few years since; others have been heard of elsewhere; but that which will interest the readers of the CHRONICLE most to learn, is that a like club, or one much resembling it, exists at Portsmouth, of which half of its members survive, but instead of once a year, they dine together every fifth year. Their next gathering will be on the 4th of July, 1880, being fifty years from the time of their first meeting. The surviving members all retain much of their early vigor, and none has more erectness of form or lightness of step than be in the vaults of whose fine old mansion reposes the wine that was first uncorked so many long years ago; yet, however hale and hearty they now may be, the time will come when the last to survive will sit alone at the table, and "drink to the memory of all who are gone!"

Pedestrianism.

At Haverhill, Mass., at ten o'clock Monday morning, Prof. Charles A. Harriman started on a walk of 150 miles, to be accomplished in 36 hours. The first four hours he averaged 5 1-2 miles an hour; at one minute past eight o'clock in the evening he had walked 48 miles, and seemed as fresh as when he started.

—Louise Chandler Moulton says that to be properly dressed in the streets of London, a woman must wear a tiny bonnet, hanging upon a knot of hair, an immense crinoline, heel-less boots, a black lace shawl, and her front hair pasted down over her cheeks like a horse's blinders.

—A detective describing the scene of a recent terrible crime in New York, said that the house was "gloomy and dark and pervaded by an air of mystery, whilst about ten black cats, which wandered from room to room, added greatly to the dismal nature of the surroundings."

—Some women of Germantown hit on a novel way of raising $1,000 for a charitable purpose. Their smoking friends were asked to preserve the points of their cigars that they bit off before smoking. It became fashionable to take this way of winning the women's smiles. The points were sold to a manufacturer when a bulk had accumulated, and were made into snuff. The money was raised in four months.

The chances are against your getting a prize of $100,000 or $50,000 or $25,000 in the next drawing of the Louisiana State Lottery Company, but some one will, and there is a strong *possibility* that you may win. The best way to test the question satisfactorily is to write to M. A. Dauphin, P. O. Box 692, New Orleans, La., for tickets or information. The management of the Company is attested by the leading bankers and business men of New Orleans to be of a high-toned, responsible character.

Hall's Vegetable Sicilian Hair Renewer has for many years occupied an honorable place in the toilet of American women, and has also attained popularity in foreign countries. This is because it does PERFORM what it promises. Its warmest friends are those who have used it longest, and those who sound its praise the loudest are those who from actual experience and personal trial have demonstrated that by its use gray hair is restored to its natural color and dry, harsh, and wiry hair is made soft and lustrous, a thing of beauty, and a matter of joy and pride to the wearer.—*Sub-Soiler and Democrat, Corinth, Miss.*

AN IMPORTANT NEED.

It would seem that a proper regard for the interests of our port, would demand the removal of the ledge in the harbor, upon which the brig Clara J. Adams has recently been wrecked. * * An effort should be made to induce Congress at its coming session to grant an appropriation to remove this ledge. * * The Dover Board of Trade called attention to the condition of the Cocheco river, and a very liberal outlay was voted for the removal of rocks, where there was but little to be gained. Again, as far up as South Newmarket, a similar expenditure was made by the efforts of Ex-Congressman Small. Now right here in our harbor, are two bad ledges, one by Noble's Island, near which at times are many deeply laden vessels passing, and the other near the beacon. Are we, with our commercial interests jeopardized by these ledges, to remain year after year inactive, and not even ask for an appropriation to remove these dangerous rocks? There should at once be prepared and circulated a petition to Congress to appropriate a sufficient sum to have these ledges removed next summer. Our members of Congress should be informed of the pressing need of the expenditure, and some one be sent to Washington to appear before the proper committees of Congress to urge the subject. Will not the Board of Trade, the city government, or the citizens of Portsmouth move in this matter. * * With a naval station of the importance of ours, with the increased size of vessels that visit our harbor, and the manifest propriety of this work contrasted with the jobs that have been allowed in some ports of the country, of not one tithe the importance of our harbor either to the navy or the mercantile marine, it seems to us that there would be no doubt as to a proper appropriation being made by Congress, if only a suitable explanation of the case could be made to that body.—*Journal.*

Shipmasters who are aware of how much has been done by the general government for the improvement of petty and comparatively worthless harbors and "trout brooks" in other parts of the country, on entering this harbor are astonished to find so many dangers existing that could be easily and at a trifling cost removed. The reason for this neglect of our harbor is accurately given in the foregoing extract from the *Journal*—nobody has ever made any effort to bring the matter properly before Congress, while the "trout brooks" and petty harbors have been ably represented by persistent claimants. How thoroughly Portsmouth harbor has been neglected is shown by the fact that Ham's ledge, near Noble's Island, was never even bouyed out until after the schooner Sidney Price stuck it, bilged, and sunk, not many years (about ten, we believe) ago. About a year after the disaster to the Sidney Price the government "improved Portsmouth harbor" by placing a spar buoy on Ham's ledge!

A fraction of the money expended on the Cocheco river—less money than was expended up at South Newmarket—would have removed two of the most dangerous obstructions in this harbor, and abated a third; yet the important harbor has been ignored in the distribution of "improvements," while the up-river places, which can never accommodate any but small sized vessels and not many even of those, have had all done that was asked. Ham's ledge, and the rock in the centre of the ship channel, nearly north of the south beacon, can be removed in a tenth part of the time employed and at a tenth of the expense incurred in blowing the bottom out of the Cocheco. The ship channel rock is simply an enormous boulder, big as a house, with less than sixteen feet of water (according to chart) upon it at mean low tide, and ten fathoms all around it; and it is a disgrace to the government, and still more to the people of Portsmouth, that an obstruction so dangerous and so easily removed did not cease to exist many years ago. Just north of the beacon ledge, about northwest of the beacon, is another rock, with seventeen feet of water over it at mean low tide, and four fathoms between it and beacon ledge; this rock, though not in the usual track of vessels, might pick one up at some time and can be easily removed. The beacon ledge itself would require a considerable outlay to remove; but between the beacon and the buoy which marks the eastern extremity of the ledge, (there is a depth of seven fathoms, forty feet outside the buoy,) there are a number of points of rock that can be blown away for a trifle. It was one of these points that caught the Clara J. Adams; had she cleared it she would possibly have safely cleared the ledge; and it was another one, on which she rested at low tide, that broke her back.

If the work of removing obstructions in our harbor was once begun, there is no doubt it would be continued until the easily-gotten-rid-of rocks, at least, were out of the way; and just now is the right time for the citizens of Portsmouth to move in the matter, if they ever want the work done. The Congressman from this district is a Portsmouth man, and largely interested in the city's advancement; but probably nobody now living will live long enough to see another man from this immediate region in Congress. Mr. Jones is a worker, and would no doubt like to signalize his second term by securing some marked benefit for the city of his home, as well as for his district and commerce generally; and if "the Board of Trade, the city government, or the citizens of Portsmouth" will but move in the matter, as the *Journal* suggests, and lend him a hearty helping hand, we are willing to vouch that he will do all he can toward securing the needed appropriation. Also, that the work will be done.

MR. HARLOW'S LAURELS IN DANGER.

The residents of a northern section of the city were favored on a night of last week with a rare musical treat, on the occasion of a serenade to a newly married pair. The performance of "Home, Sweet Home" and "Sherman's March through Georgia," will especially not soon be forgotten by the listeners as they lay in their beds, or peeped through the blinds to endeavor to learn to whom they were so much indebted. A heartiness there was, besides, in the rousing cheers and "tigers" that concluded their performance each time the favored ones were awakened from their slumbers, that showed they were greatly in earnest; and well could the happy pair afford to be aroused from sleep three times in a night by such inspiring strains, as well as hope they might again ere long be thus favored. Whoever the artists were, whether amateurs or professionals, their services should at once be secured for the new opera house.

A LOVER OF MUSIC.

[*Note.* Our contributor is generous enough with his commendation of the music as a whole, but we think he hardly does justice to certain of the musicians, in not specially mentioning their individual performances. We had heard of that serenade before; in fact, we heard a part of the serenade, though we were a half-mile or so distant; and we cannot forbear saying that the fish-horn solo was one of the best we ever listened to, while the *tambour* who warbled on a milk-pan with two beef-bones showed himself a finished artist in his line, and the fog-horn produced the most robust tenor we ever experienced.—*Ed.*]

PORTSMOUTH AND VICINITY.

Gov. Prescott was in town on Monday.

The annual meeting of the stockholders of the Kearsarge Mill occurs at eleven o'clock this forenoon.

The ship Kate Prince, built here twenty years ago and recently sold to go under the German flag (as before reported in the CHRONICLE,) has had her name changed to Pauline. She registers 1360 tons, and was sold for $25,000.

The masts for the ship Paul Jones were towed to the navy yard on Monday by steamer Clara Batemen.

There has been less fog during the past summer than for many previous seasons; and there has also been an almost total absence of thunder storms, but one really heavy one having occurred in this immediate vicinity. The rain-fall has been very light, and as a consequence the wells and springs are unusually low—a common complaint throughout New England and New York just now.

We are to have a course of lectures upon Art this coming season.

The October interest and the sinking fund due on the bonds of the Mount Washington Hotel Company (Fabyan's) were paid at the Trust & Guarantee Company's office in this city on Monday.

The Granite State base ball club have decided to accept the challenge of the Blue Stars of Rochester, to play a game at the Town Fair in that place on Wednesday.

Assessors' meeting this evening. See advertisement.

The parties engaged in attempting to get the brig Clara J. Adams off the beacon ledge succeeded in righting her on Sunday, by means of a purchase from her mastheads to the shore of Peirce's island. During the night the guy parted and let her fall over again, but on Monday she was once more righted up.

We are informed that orders have been received at the navy yard to allow no merchant ship to lay under the sheers at the yard longer than four hours after her masts are stepped.

Ship Granite State, Capt. Wm. Ross, left this port for Boston soon after seven o'clock Monday morning, in tow of steamer Major. Steamer Clara Batemen was employed to assist in taking the big ship down the harbor, and she went down in fine style. The Clara Batemen cast off as soon as open water was reached, and the Major "went it alone" the rest of the way. The Granite State had her staysails set when she passed Rye Beach, and the tug was taking her along at a good rate. A number of gentlemen from this city made the trip around in the vessel, by invitation of Capt. Ross and Capt. Marcy.

Portsmouth has invested largely in floating property this season. Besides the two large ships—the Granite State and Paul Jones—built on the river, it seems by the following list of the registered owners of the fine new ship Gov. Goodwin that a large part of that vessel is owned here. The sixty-fourths of the Gov. Goodwin are held by the following parties: Wendell Goodwin and Fred. P. Jones ten sixty-fourths, Wm. Harly two, Geo. E. Foster one, Fred. Bradley one, M. M. Piggatt one, C. A. Cousens one, Wm. Pratt one, Fred. Ames one, Thomas E. Call three, John H. Broughton four, John T. French three, Marcellus Eldredge two, Alex. Robinson two, Geo. Billbruck two, W. A. Peirce two, Jno. S. Pray four, W. Freeman one, Jos. C. Perkins one, Chas. H. Garrett one, Jos. W. Peirce two, Robert C. Peirce two, H. F. Eldredge two, Geo. Annable one, Edwin A. Peterson four, Wm. Lester two, David H. Buffum two, M. C. Burleigh two, W. Odlin two, John H. Burleigh two.

WHO IS HE?

On Sunday a tramp was arrested on Pleasant street by the City Marshal and Assistant Marshal Gray, and taken to the station house. His peculiar actions and the manner in which he answered their questions caused suspicions that all was not right with him, and on searching over a lot of detective cards received from different localities, giving descriptions of persons "wanted" for various offences, the officers found one as follows:

WANTED FOR MURDER.

A man, (supposed to be a tramp;) five feet six or seven inches in height; about thirty-five years old; stout built; weighs about 160 pounds; reddish moustache; side whiskers and hair; has large scar on his forehead over left eye; the under lid of one of his eyes droops and is much inflamed. Supposed to wear a greyish suit, with black soft hat, or he may be wearing a blue short jacket with red lining and black ribbed pants, with clothes of a different color used in mending a slit in the back.

Send information to Luther Stephenson, Jr., Chief Detective, 35 Pemberton Square, Boston, Mass.

March 17th, 1877.

This ref rred to the supposed murderer of Horatio Messenger, of Norfolk, Mass., who was robbed and murdered in his own house on the 8th of March last. The man answered the description perfectly — except as to his clothing, which of course could not be expected to be the same after the lapse of seven months—and the Pemberton Square office was notified of the arrest. On Monday Detective Philbrick, of the Boston detective force, came to this city and interviewed the prisoner, but while admitting that he answered perfectly to the description given, for some unexplained reason did not take him to Massachusetts. A better description of the tramp than is given on the card could not be written from a personal inspection of him, and if a man of that description was the murderer of Mr. Messenger, one would think it worth while for the Massachusetts authorities to look further into the matter. The tramp had on no shoes when arrested; he says he is an Englishman, but tells many different stories about where he is from and where bound, and as to his name. From the facility with which he lies it is suspected that if not the murderer of Mr. Messenger he is either Charles A. Dana or Boss Tweed.

Time-Proof Teeth.

The teeth may be rendered time-proof by brushing them daily with Sozodont. No tartar can encrust them, no canker affect the enamel, no species of decay infest the dental bone, if this pure and delicious dentifrice is faithfully used to the exclusion of every other preparation.

Mutilated furniture is made perfect with Spalding's Glue.

THE GREAT REMEDY FOR SORE THROAT, PULMOCINE CORDIAL is for sale at the UNION STORE, Market Street. Price 50 cents per bottle.

PERSONAL.—NOTICE IS HEREBY GIVEN that all officers and soldiers wounded, ruptured, or injured (however slightly) in the late rebellion, can obtain a pension by addressing G. KESSLER, attorney for claimants, No. 4 New Chambers Street, New York. 16eb16 78

GEORGE L. TREADWELL, Treasurer.
January 16, 1877

Daily Chronicle.

—The finest crop of raisins ever produced in California is promised this fall. The grapes are not growing so large as in previous years, owing to dryness, but their quality is better.

—"It is curious, doctor, that every time I smoke after dinner I have something dazzling in my eyes. What can you do for that?" "Eh!" said the doctor, with a smile, "don't smoke." The patient was nonplussed. He hadn't thought of that.

—The President liked Virginia very well, but Mr. Evarts said he didn't see why in thunder, when an individual, journeying through the Old Dominion for diplomatic purposes, thought fit to approach an establishment dealing in beverages of a refreshing nature, for the purpose of requesting a diminutive portion of what some people might be inclined to term an exhilarating and thoroughly national compounded solution, the agent in charge of affairs at that establishment need be required, before acceding to the legitimate demands of the party of the first part, to produce a disagreeable and startling tintinabulation by means of a disreputable invention, which should, and in his judgment was intended to be confined to the use of those having the direction of the monetary interests of such ordinary street vehicles as were employed as common carriers by the general public.

Centaur Liniments.

One thing is now thoroughly established. Never since man suffered and human agencies alleviated pain has there been any thing which went so far as a pain annihilator and curative agent as the Centaur Liniments. These Liniments have within the past year cured more cases of Rheumatism, Neuralgia, Stiff Joints, Caked Breasts, Swellings, Poisonous Bites, Burns, Lame Animals, etc., etc., than all other remedies combined. As the name of Centaur implies half horse and half man, the Centaur Liniments are for man and beast. But not the same Liniment. The White Liniment is for man and the Yellow for horses and animals. Herein this Liniment differs from all other remedies, although some of the ingredients are alike in each. They contain the well-known Witch Hazel, Arnica, Cathelic, Rock Oil, Mentha and other powerful ingredients.

Wm. H. Hickox, Rector of St. John's E. Church, Wakefield, Clay Co., Kansas, writes: "Many years I have been suffering from a Weak Back, caused from a sprain more than 40 years ago. I have not found any thing to relieve me until I commenced the use of Centaur Liniment. I feel it my Christian duty to inform you that by its wonderful effects I am entirely relieved of pain. January 23d, 1876."

Messrs. J. McClure & Co., Druggists, Cincinnati, Ohio, say:

"Teamsters pronounce the Yellow Centaur Liniment superior to any thing they have ever used. We tell several dozen bottles per month, and the sale is readily increasing."

These are only samples of thousands upon thousands of similar testimonials reaching us every month. All the Extracts, Embrocations, Salves and Ointments in existence are not doing one-tenth the good which is done by these admirable Centaur Liniments. For Frost-bites, Stings, Cuts, Itch, Salt Rheum, etc., there is nothing like the Yellow Liniment, White Wrapper. For Spavin, Ring-bone, Sweeney, Wind-Galls, Poll-evil, Scratches, etc., on horses, the Yellow Centaur Liniment is equally as good. They are certain in their effects; they are pleasant to use, they are handy and they are cheap. No family should be without Centaur Liniments. They are worth one hundred times their cost.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Castoria.

Mothers may have rest and their babies may have health, if they will use **Dr. Pitcher's Castoria** for Wind Colic, Worms, Feverishness, Sour Mouth, Croup, or Stomach Complaints. It is entirely a vegetable preparation, and contains neither mineral, morphine, nor alcohol. It is as pleasant to take as honey, neither gags nor gripes, and is superior to any remedy in existence.

Dr. E. Dimoch, of Dupont, Ohio, says:

"I am using CASTORIA in my practice with the most signal benefits and happy results, and find it a perfect substitute for Castor Oil."

This is what every one says. Many nurses in New York use the CASTORIA. It is prepared by Messrs. J. B. ROSE & Co., successors to Samuel Pitcher, M. D. tnov1

The Centaur Liniments have created a revolution in remedies for Rheumatism, trains, Swellings, Pains, Burns, Scalds, Stings, tc. The White Liniment is for the human family, and the Yellow Liniment is for horses. They are certain, handy and cheap.

Castoria is certain to operate. It does not nauseate or gripe like Castor Oil, but is pleasant to take, digests the food, regulates the bowels, cures wind colic, expels worms, and causes natural sleep. It is equally adapted to adults and infants. It contains neither Mineral, Morphine nor Alcohol. Children teething may have health, and mothers find rest, if they use Castoria. tnov1

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as Ayer's Cherry Pectoral. It has been known to the public and the medical profession for forty years, and by a long continued series of marvellous cures, that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of Coughs, Colds, Consumption, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

WOMAN.

By an immense practice, extending through a period of years, having within that time treated many thousand cases of these diseases peculiar to woman, I have been enabled to perfect a most potent and vegetable medicine that meets the wants of those afflicted by that class of diseases with positive certainty and exactness.

To designate this natural specific compound, I have named it

Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my high appreciation of its value, based upon my own personal observation. As a direct selling agent, I have, while witnessing its positive results in the few special diseases incident to the separate organism of woman, singled it out as **the climax or crowning gem of my medical career.** In its merits, as a positive, safe, and efficacious remedy for this class of diseases, and one that will in all times and under all circumstances act kindly and in harmony with the laws which govern the female system, I am willing to stake my reputation as a physician. Nay, even more, so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under **A POSITIVE GUARANTEE.** If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used, I will, on return of the bottle, two-thirds of the medicine having been taken according to directions, and the case being one for which I recommend it, promptly refund the money paid for it. And I feel the most perfect confidence in its virtues. I could not offer a fairer, or more honest offer. I could not offer it if I did not know my ground. I think they will recommend themselves wherever they go. I shall recommend those Pills to all who need them. Please send me two packages more, one for myself and one for a lady friend of mine. Many thanks to the inventor, agent and advertiser of those Pills.

MRS. P. L. ELLIOTT.

DR. QUAIN'S

MAGIC

CONDITION PILLS!

The Wonderful Remedy for Liver Complaint, Biliousness Dyspepsia, Constipation, Neuralgia, Rheumatism, Headache, Kidney Complaint, Nervousness, Scrofula, Piles, and all diseases arising from a bad state of the Blood!

No medicine ever offered to the public has given such universal satisfaction as Dr. Quain's Magic Condition Pills. Their praises are on every tongue where their merits are known. They strike at once at the seat of disease and show their healing power almost immediately. Thousands of voluntary testimonials of their merits have been received by the agent, from those who have been cured by them, of which the following are samples:

Dyspepsia Four Years, Constipation and Inflammation of the Bowels Three Years, Confined to my Room Two Years, Pain so I Could Not Sleep Without Morphine. One Package of Dr. Quain's Condition Pills Made Me Eat Well, Sleep Well and Free from Pain, after being given up by Physicians.

WEST LEBANON, ME., Feb. 22, 1

MR. THOMAS W. LANE:—I have been sick for 7½ years with Dyspepsia, and for the past three years Constipation and Inflammation of the Bowels. I have suffered all the pain I could endure and live. I have been confined to my room for two years, and could not sleep nights without the use of morphine. I have been given up by physicians as past cure! I went to one package of DR. QUAIN'S CONDITION PILLS, and they have done me more good than all the doctors I have had. I sleep well, I eat well and have no pain. They are all they are recommended to be. Please send me three packages, as two of my neighbors wish to try them. I enclose $1.50.

Your truly, JOHN W. LORD.

Another Letter from May. John W. Lord, one month later Wonderful Cures by Dr. Quain's Pills Effected on Him in Thirteen Days. First time Free from Pain for Three Years.

WEST LEBANON, ME., March 22, 1875.

MR. THOMAS W. LANE:—I commenced taking DR. QUAIN'S CONDITION PILLS February 9th, and wrote you February 23d of their wonderful effect. I have continued to improve ever since. My appetite is good, and I sleep as well as I ever did in my life. I am free from pain for the first time in three years. When I was taken sick four years ago I weighed one hundred and eighty-six pounds; I now weigh one hundred and thirty-six, as I am gaining in strength, I have faith I shall regain my flesh this summer, by the use of the Pills. I shal continue taking them for a long time to come.

Yours truly, JOHN W. LORD.

Dr. Quain's Pills the Remedy for Soldiers' Aches and Pains.

WEST LEBANON, ME., June 1, 1875.

MR. THOMAS W. LANE—*Dear Sir:*—I am now able to walk out every day, and am gaining in strength very fast, all of which is due to you as agent for the best Pills in the world. I have taken no other medicine, and my improvement has been steady since first taking DR. QUAIN'S CONDITION PILLS. They have done everything for me, and I will say to you, advertise them direct to the soldiers, for they will certainly cure them of aches and pains caused from exposure and hardship on the field. Please send me by return mail another package.

JOHN W. LORD.

Rheumatism for Twenty Years Cured by One Package of Dr. Quain's Condition Pills—"The Best Medicine in the World."

EAST ANDOVER, N. H., Dec. 10, 1875.

MR. LANE—*Dear Sir:*—As I know the value of DR. QUAIN'S CONDITION PILLS and the good they have done me, I take pleasure in giving them praise; so I send you another testimonial. My father has been troubled with Rheumatism for twenty years or more, and has tried everything that could be thought of, but to no good. At times it would be so bad that he could not lift his hand to his head or do any work at all, especially in cold weather. A short time ago I advised him to get some of these Pills. He believed nothing in them, but I gave him the last package I had of you, as I did not need them, and he has not been a free from the Rheumatic Complaint for years. No Rheumatism, no pain. What helped him? It was DR. QUAIN'S CONDITION PILLS, the best medicine in the world. There is nothing like them. I *know it*, for I have tried them, and they are all, yes, more than they are recommended to be. Give them a fair trial and you will say so. I write this because I know the goodness of them and wish others to know the same. Some may think I am telling a big story I am. But remember I am not giving them half the praise they ought to have.

"Yours with respect, ED. F. PEVARE

Wonderful Effect of Four Doses of Dr. Quain's Condition Pills upon Neuralgia of Twelve Years' Duration—Testimony of Rev. J. S. Patton.

DAINGERFIELD, MORRIS CO., TEXAS, Nov. 15, '75.

MR. THOMAS W. LANE—*Dear Sir:*—I have been afflicted for twelve years with Neuralgia in the face and head. I tried I do not know how many physicians, and could only get partily relieved. I also tried many patent medicines and got no result. I have been confined to my room most all the time for eight or ten winters, and have been travelling and visiting natural springs, and I still suffered most intensely. The physicians pronounced my case the worst and most stubborn that they had had anything to do with. One told me I could never get well; they all advised me to go South and spend the winter, as the weather that was the hardest for me, and I was trying to get ready to go to Florida, when through the kindness of Rev. H. M. Mathis, my attention was called to the advertisement of Dr. Quain's Magic Condition Pills. I immediately sent to you for a package. I have taken four doses and I am almost free from pain. The impression here seems to be that if your pills will cure me, they will cure anybody. I have five applications to send for the pills. Enclosed please find three dollars; send five packages to me and one to Mrs. Laura Sherrel, Sulphur Springs, Hopkins county, Texas.

Yours truly, J. S. PATTON

Liver Complaint, Nervousness, Dropsy and Headache.

LACONIA, N. H., Jan. 29, 1875.

THOS. W. LANE—*Sir:*—I have been troubled with Bad Blood, Liver Complaint, Nervousness, Dropsy and Headache. I have taken one package of DR. QUAIN'S CONDITION PILLS. They have done me more good than all the medicine I ever took; I have taken considerable medicine within the last five years. For the nerves I think there is nothing so good as those pills. I can recommend them to all who are similarly afflicted, they have done me so much good. I think they will recommend themselves wherever they go. I shall recommend those Pills to all who need them. Please send me two packages more, one for myself and one for a lady friend of mine. Many thanks to the inventor, agent and advertiser of those Pills.

PULMOCINE.

BUCHMAN'S PULMOCINE CORDIAL

Is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best *Pulmonary Curative* we could prescribe, after dozen years spent in experimenting with it before it was satisfied that the Materia Medica could add nothing in its favor.

Is the ultima thule of Medical Discovery.

Among its many ingredients are *Wild Cherry Bark, Squill Root, Liquorice Root, Blood root, &c.* It is a Blood Purifier, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the inspiriting climate of New England

PULMOCINE CORDIAL

Is a speedy and reliable Preventive and Remedy. Every Family should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred *Throat Diseases* at all times prevalent, it is the ounce of *Prevention.* Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate reach. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," no doubt the possession of this *Family Medicine* prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all thus afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and patient's danger is past.

For Coughs,

Croup,

Diphtheria,

Asthma, etc.,

USE

Buchman's Pulmocine Cordail.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, absolutely pure and unadulterated.

CITY HEALTH REGULATIONS.

THE BOARD OF HEALTH OF THE CITY OF PORTSMOUTH call the attention of the public to the following sections of Chapter 10, of the Revised Ordinances, and invite all interested in the preservation o health in our city to aid them in the execution of their duty:

SEC. 3. All waste water or houses, yards, cellars, sinks, pumps, etc., shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

SEC. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners and occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting to do, shall forfeit and pay for every such neglect not less than three nor more than twenty dollars, and a like sum for every week's neglect after time above specified.

SEC. 6. No vender of meat at the stalls shall be permitted to leave any stale meat, heads, feet or offal of any kind about their stalls or stores over night, or suffer them to be thrown into any street, lane or alley of the city. Nor shall any sellers of fish be permitted to throw any offal of fish into any street, lane or alley of the city, or upon any wharf, but shall either bury them or throw them into the river beyond low water mark.

SEC. 7. If any dead animal or decaying vegetable substance, or any other nuisance, shall be found in any part of the city, the owners or occupiers of the premises where such nuisance shall be found, shall cause the same to be removed within twenty-four hours after being notified so to do by one or more of the health officers.

SEC. 12. When any householder shall know that any person within his family is taken sick of the small pox, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Health Officers.

SEC. 13. When any physician shall know that any person whom he is called to visit is infected with the small pox, or any other disease dangerous to the public health, such physician shall immediately give notice thereof to the Health Officers.

SEC. 14. If any such householder or physician shall refuse or neglect to give the notice required in the preceding sections, he shall for each refusal or neglect, forfeit the sum of twenty dollars, to be recovered by either of the Health Officers in the name of the city.

SEC. 15. The Health Officers may give written notice to the owner or occupier of any building, vessel or enclosure, to remove or destroy any nuisance or other thing deemed by them on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said Health Officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, vessel or enclosure, and cause said nuisance or other thing aforesaid to be removed or destroyed.

SEC. 21. No person shall erect, keep or continue, or permit to be erected, kept or continued, upon any land occupied by him, any pen for the keeping of swine, or privy, over either of the mill ponds in this city, or so placed that offensive substances therefrom shall be discharged or drained into either of said ponds or into any creek, cove, or drain leading thereto. And no person shall construct, keep or continue any drain leading from any pen for the keeping of any swine, slaughter-house, privy vault, or other unwholesome or offensive place, into either of said ponds, or to any flat or marsh adjoining the same. And no person shall throw or suffer to be thrown his land into either of said ponds, or upon any of said flats or marshes, any dead, decaying, unwholesome or offensive animal or vegetable substances.

AYER'S SARSAPARILLA,

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake with the Iodides of Potash and Iron, makes a most effectual course of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

FOSTER, or at the Portsmouth *Weekly* Counting Room. Sent postpaid on receipt of price.

Portsmouth Chronicle.

The Angamar Street Motor.

By the kindness of Mr. Henry C. Jones, Superintendent of the Reading Railroad Company, the Angamar Street Motor was given a trial test last evening on the tracks of the company, between the depot at Thirteenth and Callowhill streets and the Reading Railroad Bridge over the Schuylkill river. There was a distinguished party of engineers and parties interested in railway matters present from New York, Washington and this city. The test was pronounced thorough and successful, the machine proving capable of doing all that was claimed for it. The engine used is the first one built under this patent, and it is intended especially for use in propelling street cars. It has many advantages possessed by no other intended for the same purpose, and is a great improvement on the steam cars now in use upon the Market Street Railway. The motor used is steam, the agent which science with all its arts has been unable to supersede with anything at once so powerful and so easily utilized. But in this particular instance, while the power of the agent has been utilized to the utmost, it is rendered harmless and proof against any possibility of explosion. Moreover, it is about the simplest piece of machinery ever seen, there being no pumps, no injection, none of those delicate pieces of mechanism that are liable to get out of order, and which when disarranged are the cause of explosions and other accidents. Moreover, this motor has the very great and unique advantage of making no noise when in motion. There is none of the fuss and fizzle so alarming to animals and so disagreeable to nervous people, which has been one of the great drawbacks to the use of steam on our city railways. The Angamar Street Motor goes quietly about its business. Nor is there any smell of oil or sense of heat, or, in short, any of the minor annoyances usual to machines of this kind. And as the entire apparatus, boiler, etc., is below the floor of the car and unseen, the neighborhood of anything of the kind, except from the fact of motion, would not be suspected. A great advantage of this arrangement of the machinery is that the view from the front windows of the car is unhindered and the draught of air unobstructed. The machine can be attached to the horse-car bodies now in common use without any alteration or expense. No engineer is required to run the [illegible] quicker in its action than our present system. From the above description, all of which was demonstrated yesterday, it will be seen that the attention of all parties interested in street-car railways should be directed to a consideration of this new motor. Rapid transit, cheap, safe and comfortable transportation through our thoroughfares, is the great need of the time in all the large cities, and the Angamar motor solves the problem. Here in Philadelphia the new invention should attract especial attention, as every portion of it is of local manufacture, the car body having been built by J. G. Brill & Co. and the machinery by the Baldwin Locomotive Works. The machine is now on view for a few days at the latter place, and all interested in the subject are invited to inspect it there.—*Phila. Telegraph*, Sept. 28th.

—Mme. Anna Bishop, who was born in the reign of King George III., who was married to the composer, Sir Henry R. Bishop, in or within a few months of the reign of George IV., who made at the age of twenty-three her first appearance as a vocalist in the reign of William IV., and who bade farewell to England eighteen years ago and came to America, sang recently at the Agricultural Hall, London, and was received by the audience with catcalls and hisses.

—How imbecile and silly seem all the stale, hackneyed, worn-out popular slang sayings of other days! "There you go with your eye out!" "What a shocking bad hat!" "How are you off for soap!" "Flare up and join the Union!" "How's your mother?" "How's your poor feet?" What stupidity, affecting sharpness, bewrays itself in these obsolete impertinences! In respect of fun, and point, and cleverness, what a difference there is between all those and the sparkling exclamation with which the lively lower orders now continually salute each other and their superiors—"Whoa, Emma!"—*Punch.*

Daily Chronicle.

WEDNESDAY, OCTOBER 3, 1877.

Business Notes.

The increased facilities for sending fresh meat to Europe have caused the shipments of beef this year thus far to reach a value of $8,082,036, against only $1,755,101 for the same period last year; and of mutton, $113,500 against none in 1876. The live sheep sent in 1877 are valued at $61,110; in 1876 at nothing. Live cattle this year at $2,060,950; in 1876 an insignificantly small quantity. The total shipments of butter from Jan. 1 last to Sept. 29th, consisted of 12,250,690 pounds against only 5,919,073 last year, and of cheese 89,650,350 against 53,706,530.

The protracted war in Europe is not without its beneficial effect upon business in this country, and, aside from the demand for breadstuffs, horses, etc., the firearm manufacturers have already derived a lucrative business. The cartridge factory at Bridgeport, Ct., is supplying material for both Russians and Turks, and American bullets are hurled promiscuously from both sides. The Bridgeport company makes from six to seven hundred thousand cartridges per day. They have supplied forty millions to Russia, seventy millions to Turkey, and have just received an order of eighty millions from the Italian government. Two tons of powder are used each day, and other materials in like proportion. An inspecting officer for Russia and Turkey were recently alike engaged side by side superintending the production of the cartridges for their respective governments.

The shipments of grain to Europe, on Saturday, by steamers alone, approached half a million bushels, and sailing vessels during the week, took much more. Contracts have been so heavy of late that several lines have sent for extra steamers. Thus far this season the shipments have exceeded those of last year by nearly 40 per cent. The crop being by 25,000,000 bushels greater than in any previous year in the history of the country, the demands of Europe can be readily supplied. Vast areas of land in Russia, the Slavonic provinces, and in Turkey, were planted last spring with wheat, but whether through a depletion of population in many districts it can all be gathered is uncertain. Much has also been trodden or harvested in a green state by passing soldiery. The winter demand by the belligerent armies and populations in those countries cannot yet be fully calculated; but shipments are going forward on the supposition that their needs will be great. The short crop in England gives an added stimulus to speculation, added to the fact that numerous cargoes of flour have been sent from England to India, and will continue to be sent toward alleviating the famine there.—*N. Y. Sun*, Oct. 1st.

Rope and Brine

A strong effort is being made to save the neck of Albert F. Joy, the Rockport, Mass., murderer, or at least to secure him a reprieve for three or four months.

The negro killed by Cassius M. Clay of Kentucky was named Perry White, and is said to have been a bully, thief, and desperado generally. He had threatened to kill Gen. Clay for discharging his (White's) mother from service as cook, on account of her thefts.

Minister Pierrepont writes to the San Francisco *Examiner*, denying that he ever asked Earl Manvers for the privilege of using his family crest, or that such a privilege was ever granted him. He says "there never was the slightest truth in one word of the story."

A letter from a recent American emigrant to Australia says: "Americans had better remain at home, as there are numbers of natives waiting at the corners in Sydney unable to get work."

Frank Leslie's liabilities prove to be $336,134; actual assets, $75,166.

An Englishman who has made a bet of $250,000 that he will in six years walk through France, Germany, North Russia and Siberia to China, has started from Calais on his journeying. His bet obliges him to return through India, Persia and Southern Russia, and from there over Greece and Italy to France. He must be in Liverpool by the 1st of July, 1883.

New Hampshire Items.

At the battle of Cold Harbor, June 1, 1864, Mr. R. M. McGilvray of Peterborough was wounded by a Minie ball, which passed through the calf of the left leg and imbedded itself between the bones of the right leg, in such a manner that the army surgeons deemed it unadvisable to attempt its removal. The wounds healed and the bullet caused but little trouble for several years, but after a time it worked down the leg and for some time rested just below the ankle. Of late it had troubled him seriously, and on a recent Sunday morning he cut it out with a pen-knife.

Several young men, comprising some of the best dramatic and musical talent of Dover have formed a stock company under the name of the Eagle Atheneum Stock Co. They have leased Eagle Hall on Third st., and propose to give entertainments during the coming winter.

Fish Commissioner Hayes of Milton has stocked Cole's pond in Somersworth with black bass, and the commissioners have posted a notice forbidding all persons from fishing in the pond for one year.

The frame of the new Catholic church at Lancaster was recently found to be spreading at the top, making it necessary to put in iron rods to keep it together. It had spread five or six feet when discovered.

The Concord *Monitor* relates that "one of those narrow escapes that you read about occurred Friday night, on the evening train to this city, when it was at Thornton's Ferry. A man named Cushing, living at Thornton's, got on the train at Nashua, having a dog with him. He entered the smoking car. He was in the condition commonly described as "drunk as a fool." When the train had nearly reached Thornton's some of the boys in the car persuaded him to let his dog loose, instead of holding on to him as he had been doing. He did so, and pretty soon the dog went out on the platform and the man after him. The dog jumped off the car, and Cushing fell off. The horrified train-men stopped the train and went back expecting to find a corpse. On arriving at the place where he fell, they found that six cars had run over and fearfully mangled Cushing's coat-tail, but that was the extent of the ruin accomplished."

Hubbard Hunt of Randolph, recently attempted to nail his thumb to the barn, but after he got the nail through his thumb, he gave it up as a bad job.

On Sunday last, Rev. Mr. Pert, of Londonderry, read a sermon in his church, written by Rev. David MacGregor, first pastor of the church. It was preached at Greenland 135 years ago, and "printed for the hearers." It contains a full exposition of the austere and rerentless orthodoxy of the time.

Pedestrianism.

Prof. Harriman, engaged at Haverhill, Mass., in an attempt to walk 150 miles in 36 hours, took a rest of 25 minutes at the end of the 70th mile, at 8:30 Monday evening; at 10:30 he rested another hour. At 27 1-2 minutes past eight o'clock, Tuesday morning, he completed his hundredth mile, and seemed in good condition. He had then used up 22 hours, 27 1-2 minutes in walking 100 miles, and had 13 hours, 32 1-2 minutes left in which to walk the other 50 miles. He finished the 150 miles in 35 hours and 44 minutes, having rested two hours and 25 minutes out of that time. All the nourishment he took was beef tea. A quadrille band was present, and a large audience of ladies and gentlemen; and a purse of $50 was presented to the pedestrian at the close of his walk.

Protection From Thieves.

The *Daily Advertiser* of yesterday reported the disappearance from vaults of the Cambridgeport National Bank of four trunks containing papers belonging to individuals of an aggregate value of twenty-five thousand dollars. The day before, the telegraph reported the robbery from the First National Bank at Cortland, N. Y., of a package containing bonds and other securities worth $200,000. And here, as usual, the significant remark was made that the bank suffers no loss, as the securities belong to private individuals. There now lies before us an interesting little pamphlet containing a condensed report of the Northampton bank robbers and their exploits, whereby in four years they succeeded in stealing nearly three millions of dollars in money and securities, but a small part of which was ever regained. This report has been issued by the Boston Safe and Trust Company, and is prefaced by a few remarks from which we quote these words: "Individual bondholders, who have enjoyed the doubtful protection of bank vaults, should bear in mind that nine-tenths of the losses by the bank robberies fall upon special depositors." Notwithstanding these repeated warnings there is hardly a bank in New England whose vaults are not cumbered with trunks and parcels containing in some cases the entire wealth of their owners. There was a reason for this in former years when bank vaults furnished the only protection, however imperfect, from fire and thieves; but now that in every large city there are institutions especially devoted to the safe keeping of valuables, there is no good excuse for the heedlessness or the parsimony which prevents so many from availing themselves of their protection. There are three such institutions, as our readers know, in Boston. It is, perhaps, not so generally known that the vaults of the Boston Safe Deposit and Trust Company are more extensive and more massive than those of any other institution in the country. Here for ten dollars a year or upwards, according to the room required, a safe can be hired where a man's property will be absolutely secure.—*Boston Advertiser*, Sept. 28th.

Attempt to Steal Commodore Nutt.

As the Union Pacific west-bound passenger train stopped at Cozad, in Western Nebraska, on Thursday night, a bold attempt was made to steal Commodore Nutt, who was on his way to San Francisco with a party of other dwarfs. A couple of stalwart and knavish appearing men, who took the train at Omaha and had tickets to Cozad, paying the extra charge for riding in the sleeper, are supposed to be the parties to the affair. Just before the train arrived at the station, both of these men—one a few feet ahead of the other—moved toward the rear of the car, in which end the commodore was sleeping. One stopped near the little man's berth, and the other stood near the door. As the train came to a halt the rear man thrust his arms into Nutt's berth and gathered him up in his arms, and moved hastily toward the door of the car, which had been opened by his confederate. The dwarf struggled and tried to scream, but the would-be kidnapper held his hand over the little fellow's mouth in such a way as to stifle almost every sound. The porter, however, screamed for him, which caused several gentlemen to jump out of their berths, one of whom alighted between the kidnapper and the dwarf. The villain dealt the half-asleep passenger a blow on the head which felled him to the floor. This gave another passenger time to come up, who struck the desperado in the head with a slung-shot, which stunned him, and caused him to drop the commodore, who by this time was making more lusty noise than all the women in the car, every one of whom, in concert with the men, were making a lively racket. The kidnappers sprang from the train and disappeared in the darkness. Great confusion existed on the train for some time, especially in the car where the bold act was committed, and every one shook the commodore's hand in congratulation over his fortunate escape.—*Chicago Times Omaha telegram.*

Real Love Before the Mast.

A British sea captain, lately arrived at San Francisco, relates an interesting episode of the voyage thither. Two days out from Liverpool a little round-faced stowaway was dragged from his hiding-place before the captain, and after the usual nautical cussing on such occasions the youngster was set to working his passage in doing light chores about the ship. A young and likely sailor turned up as an acquaintance of the stow-away and they were much together, and their relation finally became the occasion for much speculation among the ship's crew. One day the fair-faced waif fell from the mast to the deck and was instantly killed, and then the mystery was solved—the stow-away was a young woman and the sailor her husband. The latter was inconsolable over her death. He sat by the corpse all one night, and when next day it was shotted and sunk in the sea the husband with a cry climbed the rail and plunged overboard and never more was seen. From letters found in the young sailor's chest it was learned that the couple were of good family, but had married against much opposition, and as the old folks refused to be reconciled, the young pair, scarcely more than children, and with not a sixpence between them, resorted to the Quixotic and romantic expedient of a sea voyage to California.

Banks and Individuals.

Bank notes are promises to pay individuals, on demand, for value received, *without interest*.

Individual notes are promises to pay banks, for value received, *with interest*.

Banks put out their notes and receive interest on what they owe.

Individuals put out their notes and *pay* interest on what they owe.

Bank notes are based upon the public debt.

Individual notes must be based upon three times their face value of unencumbered real property.

Bank credit is based upon untaxed bonds.

Individual credit is based upon real property, taxed to support the bondholder, and to protect his credit.—*New Haven Union*, (greenback dem.)

—What is the difference between a poor gun and a borrowed masquerade costume? One is fired and doesn't hit, and the other is hired and doesn't fit.

—A Western paper speaks of "a tramp with a sort of half-jaunty air about him." Most of them do have a sort of demi-jaunty air about them, that's a fact.

—A fashionable tailor in London has this notice conspicuously posted in his rooms: "No American orders taken without a deposit." Above a bar in Chicago may be read: "No trust for alleged English noblemen."

—The father of a tall Howard family, living somewhere in Kentucky, is six feet four inches in height; the mother is six feet one inch, the sixteen sons range from six feet three to six feet eleven, and the ten daughters average six feet two.

—The good old times are back again in New Orleans, sure enough. Two gentlemen who were introduced the other day, began calling "liar" and slapping faces a moment after, and had a duel in Mississippi early next morning. That's business.

—A man in New York was told by a friend that Tweed had mentioned his name, whereupon the indignant, honest tradesman wrote to the papers, declaring that what Tweed had said about him was maliciously false. Then he investigated the subject further, and found out that what Mr. Tweed had said was that this particular honest tradesman was not concerned in the fraud at all.

—The Widow Van Cott, the woman preacher, is described as a "pretty, plump little woman, with cheeks soft as peaches, delicious brown eyes, a temptingly kissable mouth, and dimpled hands. She dresses richly in black silk, lets her hair stray in the faintest tendrils of curls about her forehead, carries fine cambric handkerchief perfumed with haunting 'White Rose,' speaks eloquently, fervently, and charmingly."

—Peddlers in Maine are very plenty and carry exhilarating goods. A peddler for an Auburn firm recently called to see an old gentleman in the suburbs. The latter invited the peddler aside, ostensibly to see a colt. On reaching a retired spot the old gent winked. The peddler didn't exactly see the point. "Got any that isn't mixed?" asked the old fellow. "I rather guess you've made a mistake," said the peddler, "I deal in another sort of wares entirely." The old fellow begged to be excused; he was rather dim of sight, but hoped the mistake might be forgiven and nothing said about it.

—Jennie June gossips pleasantly about Miss Lydia Thompson, the burlesque queen, who begins a season at the Boston. She says: "An interviewer recently expressed astonishment at the excellent sense and intelligence which he found on conversing with Miss Lydia Thompson. It would surprise some good people to know her as a charming and happy wife and thoroughly practical, conscientious mother. In her private relations and conduct of affairs, I am told, she is refined, extremely kind-hearted and exemplary in the performance of every duty. She takes the most solicitous interest in the welfare of every member of her company, particularly the female part of it, and in return they are devoted to her."

E. G PIERCE, JR., P. M.

PORTSMOUTH AND VICINITY.

James S. Little, Josiah G. Abbott, James H. Beal, John F. Anderson, James R. Lake, Alexander S. Wheeler, and John Stavers, were elected Directors of the Kearsarge Mills on Tuesday. The Treasurer and Proprietors' Clerk were re-elected.

On Monday Messrs. Morse & Ilsley sold at auction the well-known Buzzell farm, near the Plains. Mr. Joseph R. Holmes bought a field of eight acres for $53 per acre, and a pasture of twenty acres for $51 per acre—$1444 for the two lots. The homestead field of twelve acres, with pasture of twenty acres, house, barn, etc., were bought by Mr. George Bilbruck at $56 per acre,—$1792. The sale of live stock, tools, etc., was postponed to Monday next. It is said that Mr. Holmes re-sold the two lots bid off by him to Mr. Bilbruck.

Dr. F. E. Potter has arrived home from a visit to Europe.

The *Times* recently contained the following hit at two well known prohibition papers of the prohibitionest kind: "It is a veritable fact that the practice of giving gin to infants for quieting purposes is a growing evil, and temperance reformers should pay more attention to it. There are parents in this city who regularly purchase this liquor for the sole purpose of administering the dangerous dose to little ones. Now, Frank Miller's *Weekly* and Wolfe's *Word of Truth* ought to take this in hand." The Portsmouth *Weekly* responds to this with the following, the closing conundrum being a pretty tough one to answer: "Take what in hand, the gin, the babies, or the parents? No, we thank you—not any of them. The practice referred to is sad enough, if the statement be true; but if alcohol is a good thing for adults, why not break them in to use it when young?"

Everybody who ever took a drive out in the country in the summer time has noticed a peculiarity displayed by flocks of hens and chickens—a sort of mania for running across the road with no apparent object in view, just under the horse's feet, keeping up a terrible clangor and cackling the while; but nobody ever ran over one, or supposed a chicken could get run over, anyway. This idea, however, is an error, for an Eastern Railroad train last week ran over and killed two chickens at the Green street crossing—the first instance of the kind on record.

Permit me, Messrs. Editors, to say a few words in behalf of the pupils of that model music teacher, Mr. Amos Pearson, who welcome gladly his return to the field of his former usefulness. The writer has a vivid recollection of the patience, rare discrimination and skill displayed by Mr. Pearson when he first ventured in the (to him) unexplored realm of music, and has grateful remembrance of the painstaking teacher who was always so patient as to make clear every step leading to the desired improvement in practice. Knowledge does not always carry with it the capacity of imparting to others the ideas of the teacher. Mr. Pearson's experience has shown that he possesses the faculty of thoroughly instructing his pupils, and the writer, for one, is pleased to place his children's musical education in charge of a teacher so faithful and efficient.

Qo.

POLICE COURT.

Tuesday, Oct. 2d.

William Hanscom was charged with an assault on Jane Parks. Case continued to next day.

George Bateman (alias Charles A. Dana, alias Boss Tweed, alias a lot more names,) was charged with being a vagrant. Sent to Brentwood for sixty days; costs $6.13.

A GOOD EXAMPLE.

Some weeks ago we noticed in these columns the fact that some unknown friend had presented the Society for Prevention of Cruelty with $50. By request we now publish the letter that accompanied the money, as printed in *Our Dumb Animals:*

PORTSMOUTH, N. H., July 18th.

Mrs. J. J. PICKERING—*Madam:* Please receive the enclosed contribution of $50 for "our dumb friends," in whose cause you have been, and are, so conspicuous a worker.

This small sum is one-half of all the earnings which I have been able to lay aside in two years, two or three small charities excepted.

Will you be so kind as to add it to the permanent fund of your Society? The other half I add to a small competency, hoping, sometime, to give all to the cause.

It represents the highest and noblest of the Christian virtues, when, in the true spirit of humanity, it teaches men to show kindness to all creatures.

Please acknowledge the sum received, through one of the local papers, so that I may know it reached you.

With much respect, yours,

HUMANITY.

The New Hampshire Society for the Prevention of Cruelty to Animals had Jeremiah Janvrin of Hampton arraigned on Monday, for putting out the eyes of ducks and beating and otherwise maltreating them. The offenses were committed at Seabrook, and the case was tried in that town before Justice Robie. Janvrin was fined $10 and costs, amounting to a total of over thirty dollars. He appealed and gave bonds in the sum of $200 for his appearance at the October term of court. Harriman for State; John Hatch for defendant.

A LONG PULL.

Ship Granite State arrived in Boston at noon on Tuesday. After the Major and her tow left the lower harbor on Monday the wind freshened steadily from the southwest, a heavy sea running, and at four o'clock in the afternoon they were nearly abreast of Thacher's island lights; and during the next seven or eight hours they made hardly a mile of progress. At three o'clock Tuesday morning the wind abated, and then the steamboat took the ship along rapidly, making more from that time to eleven o'clock than had been made all the time before since starting. It was a long, hard pull for the steamer, but she did her work well.

One of the boys belonging to the ship fell from between decks to the ballast in the lower hold and was roughly shaken up, though no bones were broken; he was brought back to this city by the Major, and hopes to be all right before the ship sails. The tug made the trip back in about six hours, bringing a number of the passengers who went around in the ship.

[Written for the Chronicle.]

REMINISCENCES.

The CHRONICLE of last week contained a brief notice of the death at Lower Lake, California, of Mr. Leslie P. Nichols. Mr. Nichols had been many years absent from this city, and to most of the young men of to-day was unknown; but those who were High School boys twenty-five years ago, at the time the Boy's High School was kept in the upper room of the old school-house on State street and the Girl's High School was located in the Court House, will remember him well as a lively and generous, albeit somewhat mischievous boy, of keen intellect and ready wit, ever ready for a good time but never seeking to find pleasure in the pain or trouble of others. There were five of us then who used to run together: Les Nichols, Charley Ricker, Alf Hanscom, Josh Staples, and the writer of this; and though we were all fair scholars, I fear we often sorely taxed the patience of our excellent teacher, Israel Kimball, Esq., by our schoolboy pranks. In the warm weather we went boating together, or on long shooting excursions, on which we generally started out with our gamebags full (of provisions) and brought them home empty; and often of a Saturday afternoon in winter we enjoyed a surreptitious clambake in the old schoolroom, to which we gained access by clambering up between the schoolhouse and the building next it, and into a window—and then roasted the clams on the stove, to the utter ruin of the black-lead polish. In the spring of 1851 (I think it was) we separated, and our little clique soon literally scattered all over the world, for in 1854 one of our number was in Kansas, fighting Missouri's "border ruffians," another was in the Arctic ocean, a third in the East Indies, a fourth in the Liverpool and New Orleans packet line, and the fifth studying civil engineering in another city. Returning to this city in the autumn of 1856, one of the first persons I met was my old chum Nichols, then not long off his last voyage; and almost his first remark was, "Charley Ricker, Alf Hanscom and Josh Staples are all home here!" This was a fact; improbable as it was that our little circle should ever come together again after being so effectually broken up, such a contingency had occurred. We had parted as boys; but though we met as men, and each had learned something of the great world with which we were thenceforth to battle for our bread, yet our intercourse during that winter, which we all spent at home, was more warm in its friendliness than ever, though less boisterous than that of our schoolboy days. In the spring of 1857 our circle was again broken, this time never to be reunited. Mr. Ricker was the first to leave, going out as second or third mate of a new ship built here; Mr. Nichols went next, to California, sailing from New York as second mate of ship Flying Dragon; and in a few weeks more not one of "our boys" was left in the city. Now, as I pen these reminiscences twenty years after our final dispersion, I find myself to be the only one who has returned to the home of his boyhood to spend his later days. Charles C. Ricker, after serving gallantly through the war and rising to the position of Volunteer Lieutenant Commander in the navy, and later sailing as captain of merchant vessels, took command of a steamship running between Galveston, Texas, and Liverpool, England, removed his family to the latter city, and now resides there; Joshua Staples, for many years consulting engineer on an important railroad in the west, lives and has long lived in a western city; Alfred H. Hanscom has made himself a permanent home in the State which, when but a boy, he fought to keep free from the stain of slavery, and only at long intervals pays a visit to his native city; and Leslie P. Nichols, the centre and light of our schoolboy ring, after winning an honored position among the men of his adopted State, has gone to rest on the coast of the Pacific.

Leslie P. Nichols was born in this city on the 9th day of September, 1836. His education was gained partly in this city and partly at Dummer Academy in Massachusetts. He began the study of civil engineering at Manchester, but his health commencing to fail he gave up study and went to sea, being but eighteen years old when he started on his first voyage. Rising with unusual rapidity, he started on his second voyage as second mate, and was appointed first mate on the return trip. He went to California as second mate of the clipper ship Flying Dragon, in 1857; leaving the ship there he engaged in mining, and afterward for some years commanded a vessel in the coast lumber trade; and in 1866 went to Lower Lake, Lake county, as Superintendent of the Clear Lake Water Works. Here his industry, ability and public spirit soon brought him into prominence; his unaffected good nature, manly self-respect and brilliant conversational powers made his townsmen his warm friends, and his energy and enterprise carried through many of the most important improvements in his new home. Having firmly established himself he sent for his mother to join him; married, became the father of two children, and at the time of his death was a prosperous, leading and honored citizen of Lower Lake, with every prospect of living a useful life for many years to come. On the 12th of September, having been out during the day on a duck shooting excursion with a friend, toward evening he shot a duck on the lake; being an expert swimmer he went in after the bird, was seized with cramps, and sank, his companion on the bank being powerless to help him. His body was recovered next day, and was buried on Friday with the honors by the Free Masons and Odd Fellows, of both which orders he was a prominent member. His aged mother survives, to mourn with the widow and orphans for the loss of the true-hearted son on whom she has leaned in her declining years. Their loss is indeed great; and among all those who may proffer condolences to the bereaved family there can be none whose sorrowing sympathy is more real than that of Leslie's schoolboy chums.

PAKEHA.

The Glory of Woman

is a fine set of teeth as well as a fine head of hair. How the enamel glistens after a good brushing with fragrant Sozodont! Nothing destructive to the teeth can exist on the surface or at the roots, if this vegetable antidote to corrosion is duly applied.

Spalding's Glue will mend anything except a broken heart.

THE regularity of the drawings of the Louisiana State Lottery Company on the first Tuesday of each month at New Orleans, La., has rendered the reputation of this institution deservedly high. The next drawing takes place November the 6th. Full particulars will be found in our advertising columns. For advice, information, or tickets, address A. Dauphin, President, P. O. Box 692, New Orleans, La.

ELEGANT HAIR is woman's crowning beauty. When it fades, she fades as well. While it is kept bright, her personal attractions are still maintained. By preserving the hair fresh and vigorous a youthful appearance is continued through many years. Those who grieve over their fading hair turning gray too early, should know that Ayer's Hair Vigor prevents it, and restores gray or faded hair to its natural color. It is a clear and healthful preparation, containing neither oil, dye, nor anything deleterious, and imparts to the scalp what is most needed—a sense of pleasant and delightful freedom from scurf or dandruff.—*New Berne (N. C.) Times.*

THE GREAT REMEDY FOR SORE THROAT, PULMOCINE CORDIAL is for sale at the UNION STORE, Market Street. Price 50 cents per Bottle.

Daily Chronicle.

—At a recent sale of short-horned cows in England, a beast named "Fifth Duchess of Hillhurst," was sold amid great applauses for $22,500. She is said to be the highest price cow in England, and is described as a "charming" creature." The largest sum ever paid, "or a cow is believed to be $36,750 for the "Duchess of Geneva," which was sold at New York Mills two or three years ago.

—The scene is Jackson county, Mo. They went into the church and disturbed the ceremonies; they brayed like jackasses; they howled their profanity; they stood up in the pews and drank whisky from bottles, and at last the minister was compelled to dismiss the congregation. Even then they were not satisfied. They followed the minister as he went out escorting two ladies, and heaped insults upon them. The minister was a man of peace, but they managed to rouse the old Adam in him. There were three of them. The reverend gentleman placed the ladies in safety on one side of the road. He took off his coat. He dismounted from his horse. He calmly removed one of the stirrups with the strap thereof, and he sailed in. He hit off right and left. He was right, and they left, all but one, who laid on the ground with his head wide open. They will go to church no more when that preacher preaches and fights.

Centaur Liniments.

One thing is now thoroughly established. Never since man suffered and human agencies alleviated pain have there been any thing which went so far as a pain annihilator and curative agent as the Centaur Liniments. These Liniments have within the past year cured more cases of Rheumatism, Neuralgia, Stiff joints, Caked Breasts, Swellings, Poisonous Bites, Burns, Lame Animals, etc., etc., than all other remedies combined. As the name of Centaur implies half horse and half man, the Centaur Liniments are for man and beast. But not the same Liniment. The White Liniment is for man and the Yellow for horses and animals. Herein this Liniment differs from all other remedies, although some of the ingredients are alike in each. They contain the well-known Witch Hazel, Arnica, Carbolic, Rock Oil, Mentha and other powerful ingredients.

Wm. H. Hickcox, Rector of St. John's E. Church, Wakefield, Clay Co., Kansas, writes: "Many years we have been suffering from a Weak Back, caused from a sprain more than 40 years ago. I have not found any thing to relieve me until I commenced the use of Centaur Liniment. I feel it my Christian duty to inform you that by its wonderful effects I am entirely relieved of pain. January 23d, 1876."

Messrs. J. McClure & Co., Druggists, Cincinnati, Ohio, say:

"Teamsters pronounce the Yellow Centaur Liniment superior to any thing they have ever used. We sell several dozen bottles per month, and the sale is steadily increasing."

These are only samples of thousands upon thousands of similar testimonials reaching us every month. All the Extracts, Embrocations, Salves and Ointments in existence are not doing one-tenth the good which is done by the admirable Centaur Liniments. For Frost-bites, Stings, Cuts, Itch, Salt Rheum, etc., there is nothing like the Centaur Liniment. White Wrapper. For Spavin, Ring-bone, Sweeney, Wind-Galls, Poll-evil, Scratches, etc., on horses, the Yellow Centaur Liniment is equally as good. They are certain in their effects; they are pleasant to use, they are handy and they are cheap. No family should be without Centaur Liniments. They are worth one hundred times their cost.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Castoria.

Mothers may have rest and their babies may have health, if they will use **Dr. Pitcher's Castoria** for Wind Colic, Worms, Feverishness, Sour Mouth, Croup, or Stomach Complaints. It is entirely a vegetable preparation, and contains neither mineral, morphine, nor alcohol. It is as pleasant to take as honey, neither gags nor gripes, and is superior to any remedy in existence.

Dr. E. Dimoch, of Dupont, Ohio, says:

"I am using CASTORIA in my practice with the most signal benefits and happy results, and find it a perfect substitute for Castor Oil."

This is what every one says. Many nurses in New York use the CASTORIA. It is prepared by Messrs. J. B. ROSE & CO., successors to Samuel Pitcher, M. D. tnov1

The Centaur Liniments

have created a revolution in remedies for Rheumatism, Sprains, Swellings, Pains, Burns, Scalds, Stings, etc. The White Liniment is for the human family, and the Yellow Liniment is for horses. They are certain, handy and cheap.

Castoria is certain

to operate. It does not nauseate or gripe like Castor Oil, but is pleasant to take, digests the food, regulates the bowels, cures Wind colic, expels worms, and causes natural sleep. It is equally adapted to adults and infants. It contains neither Mineral, Morphine nor Alcohol. Children teething may have health, and mothers find rest, if they use Castoria. tnov1

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as Ayer's Cherry Pectoral. It has been known to the public about forty years, by a long continued series of marvellous cures, that have woe for it a confidence in its virtues, never equalled by any other medicine. It still makes the most efficacious cures of Coughs, Colds, Consumption, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

RUPTURE.

Those wishing Relief and Cure for Rupture should call on Dr. J. A. SHERMAN, 258 Broadway, N. Y., or send to his new book with photographic likenesses where their merits are known. They strike at once at the seat of disease and show their healing power almost immediately. Thousands of voluntary testimonials of their merits have been received by the agent, from those who have been cured by them, of which the following are samples:

Dyspepsia Four Years, Constipation and Inflammation of the Bowels Three Years, Confined to my Room Two Years, Pain so I Could Not Sleep Without Morphine. One Package of Dr. Quain's Condition Pills Made Me Eat Well, Sleep Well and Free from Pain, after being given up by Physicians.

WEST LEBANON, ME., Feb. 22, 1

MR. THOMAS W. LANE:—I have been sick for years with Dyspepsia, and for the past three years Constipation and Inflammation of the Bowels have suffered all the pain I could endure and live. have been confined to my room for two years, and could seldom eat eight without the use of morphine. I have been given up by physicians as past cure. I have taken one package of Dr. QUAIN'S CONDITION PILLS, and they have done me more good than all the doctors I have had. I sleep well, I eat well and have no pain. They are all they are recommended to be. Please send me three packages, as two of my neighbors wish to try them. I enclose $1.00.

Your truly, JOHN W. LORD.

Another Letter from May. John W. Lord, one month later Wonderful Cures by Dr. Quain's Pills Effected on Him in Thirteen Days. First time Free from Pain for Three Years.

WEST LEBANON, ME., March 22, 1875

MR. THOMAS W. LANE:—I commenced taking DR. QUAIN'S CONDITION PILLS February 8th, and wrote you February 22d of their wonderful effect. I have continued to improve ever since. My appetite is good, and I sleep as well as I ever did in my life. I am free from pain for the first time in three years. When I was only a week four years ago, I weighed one hundred and eighty-six pounds; I now weigh one hundred and thirty, but, as I am gaining in strength, I have faith I shall regain my flesh this summer, by the use of the Pills. I shal continue taking them for fear of relapse to come.

Yours truly, JOHN W. LORD.

Dr. Quain's Pills the Remedy for Soldiers' Aches and Pains.

WEST LEBANON, ME., June 1, 1875.

MR. THOMAS W. LANE—*Dear Sir:*—I am now able to walk out every day, and am gaining in strength very fast, all of which is due to you as agent for the best Pills in the world. I have taken no other medicine, and my improvement has been steady since first taking DR. QUAIN'S CONDITION PILLS. They have done everything for me, and I will say to you, advertise them direct to the soldiers, for they will certainly cure them of aches and pains caused from exposure and hardship on the field. Please send me by return mail another package.

JOHN W. LORD.

Rheumatism for Twenty Years Cured by One Package of Dr. Quain's Condition Pills—"The Best Medicine in the World."

EAST ANDOVER, N. H., Dec. 10, 1875.

MR. LANE—*Dear Sir:*—As I know the value of DR. QUAIN'S CONDITION PILLS and the good they have done me, I feel a pleasure in giving them praise; so I send you another testimonial. My father has been troubled with Rheumatism for twenty years or more, and has tried everything that could be thought of, but to no good. At times it would be so bad that he could not lift his head to his head or do any work at all, especially in cold weather. A short time ago I advised him to get some of these Pills. He believed nothing in them, but I gave him the last package I had of you, as I did not need them, and he has not been an free from the Rheumatic Complaint for years. No Rheumatism, no pain. What helped him? It was DR. QUAIN'S CONDITION PILLS, the best medicine in the world. There is nothing like them. I *know it,* for I have tried them, and they are all, yes, more than they are recommended to be. Give them a fair trial and you will say so. I write this because I know the goodness of them and wish others to know the same. Some may think I am telling a big story. I am. But remember I am not giving them half the praise they ought to have.

Yours with respect, ED. F. PEVARE

Wonderful Effect of Four Doses of Dr. Quain's Condition Pills upon Neuralgia of Twelve Years' Duration—Testimony of Rev. J. S. Patton.

DAINGERFIELD, MORRIS CO., TEXAS, Nov. 15, '75.

MR. THOMAS W. LANE—*Dear Sir:*—I have been afflicted for twelve years with Neuralgia in the face and head. I tried I do not know how many physicians, and could only get partly relieved. I also tried many patent medicines with the same result. I have been confined to my room most all the time for eight or ten winters, and have been traveling and visiting medical springs, and I still suffered most intensely. The physicians pronounced my case the worst and most stubborn that they had had anything to do with. One told me I could never get well; they all advised me to go South and spend the winters, as it was the only chance for me, and I was trying to get ready to go to Florida, when through the kindness of Rev. H. M. Mathis, my attention was called to the advertisement of Dr. Quain's Magic Condition Pills. I immediately sent to you for a package. I have taken four doses and I am almost free from pain. The impression here seems to be that if your pills will cure me, they will cure anybody. I have five applications to send for the pills. Enclosed please find three collars; send five packages to me and one to Mrs. Laura Sherrell, Sulphur Springs, Hopkins county, Texas.

Yours truly, J. S. PATTON.

Liver Complaint, Nervousness, Dropsy and Headache.

LACONIA, N. H., Jan. 29, 1875.

THOS. W. LANE—*Sir:*—I have been troubled with Bad Blood, Liver Complaint, Nervousness, Dropsy and Headache. I have taken one package of DR. QUAIN'S CONDITION PILLS. They have done me more good than all the medicine I ever took; I have taken considerable medicine within the last five years. For the nerves I think there is nothing so good as those pills. I can recommend them to all who are similarly afflicted, they have done me so much good. I think they will recommend themselves wherever they go. I shall recommend those Pills to all who I meet with. Please send me two more, one for myself and one for a lady friend of mine. Many thanks to the inventor, agent and advertiser of those Pills.

MRS. P. L. ELLIOTT.

JOHN H. SLATER, AGENT.

DR. QUAIN'S

MAGIC

CONDITION PILLS!

The Wonderful Remedy for Liver Complaint, Biliousness Dyspepsia, Constipation, Neuralgia, Rheumatism, Headache, Kidney Complaint, Nervousness, Scrofula, Piles, and all diseases arising from a bad state of the Blood!

Is the ultima thule of Medical Discovery.

No medicine ever offered to the public has given such universal satisfaction as Dr. Quain's Magic Condition Pills. Their praises are on every tongue where their merits are known. They strike at once at the seat of disease and show their healing power almost immediately. Thousands of voluntary testimonials of their merits have been received by the agent, from those who have been cured by them, of which the following are samples:

Among its many ingredients are *Wild Cherry Bark, Squill Root, Liquorice Root, Blood root,* &c. It is a Blood Purifier, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the inspiriting climate of New England

PULMOCINE CORDIAL

is a speedy and reliable Preventive and Remedy. Every Family should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred *Throat Diseases* at all times prevalent, it is the ounce of *Prevention.* Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate each. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this *Family Medicine* prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all this afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and patient's danger is past.

For Coughs,

Croup,

Diphtheria,

Asthma, etc.,

USE

Buchman's Pulmocine Cordail.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, absolutely pure and unadulterated.

FOR SALE BY ALL DRUGGISTS,

And at the N. E. P. Union Store, Market Street

PULMOCINE.

BUCHMAN'S PULMOCINE CORDIAL

is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best *Pulmonary Curative* as could prescribe, after dozen years spent in experimenting with it before e was satisfied that the Materia Medi ca could add nothing in its favor.

ROOT AND "TONIC" BEER,

Secures Patents in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successfu* practitioners with whom I have had official intercourse. CHARLES MASON,

Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,

Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—Dear Sir: You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed other agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you.

Yours truly, GEORGE DRAPER.

BOSTON, January 1, 1877. 3awtlm17

AMERICAN & FOREIGN PATENTS

[ESTABLISHED 1865.]

GILMORE & CO., Successors to CHIPMAN HOSMER & CO., Solicitors. Patents procured in all countries. NO FEES IN ADVANCE. No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a rehearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. SEND STAMP TO GILMORE & CO. FOR PAMPHLET OF SIXTY PAGES.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,997,500 acres of Bounty Land Warrants outstanding. These were issued under act of 1850 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

OFFICERS, SOLDIERS and SAILORS of the late war or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All OFFICERS, SOLDIERS and SAILORS wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & CO. Cases prosecuted by GILMORE & CO. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge o. the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & CO. is thus secured. We strive to win success by deserving it. ADDRESS

CITY HEALTH REGULATIONS.

THE BOARD OF HEALTH OF THE CITY OF PORTSMOUTH call the attention of the public to the following sections of Chapter 10, of the Revised Ordinances, and invite all interested in the preservation of health in our city to aid them in the execution of their duty:

SEC. 2. All waste water of houses, yards, cellars, sinks, pumps, etc., shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

SEC. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners and occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

SEC. 6. No vender of meat at the stalls shall be permitted to leave any stale meat, heads, feet or offal of any kind about their stalls or stores over night, or suffer them to be thrown into any street, lane or alley of the city. Nor shall any seller of fish be permitted to throw any offal or fish into any street, lane or alley of the city, or upon any wharf, but shall either bury them or throw them into the river beyond low water mark.

SEC. 7. If any dead animal or decaying vegetable substance, or any other nuisance, shall be found in any part of the city, the owners or occupiers of the premises where such nuisance shall be found, shall cause the same to be removed within twenty four hours after being notified so to do by one or more of the health officers.

SEC. 12. When any householder shall know that any person within his family is taken sick of the small pox, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Health Officers.

SEC. 13. When any physician shall know that any person whom he is called to visit is infected with the small pox, or any other disease dangerous to the public health, such physician shall immediately give notice thereof to the Health Officers.

SEC. 14. If any such householder or physician shall refuse or neglect to give the notice required in the preceding sections, he shall for each refusal or neglect, forfeit the sum of twenty dollars, to be recovered by either of the Health Officers in the name of the city.

SEC. 15. The Health Officers may give written notice to the owner or occupier of any building, vessel or enclosure, to remove or destroy any nuisance or other thing deemed by them on examination, to be injurious to the public health, within a certain time limited therein; and in cases such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said Health Officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, vessel or enclosure, and cause said nuisance or other thing aforesaid to be removed or destroyed.

SEC. 21. No person shall erect, keep or continue, or permit to be erected, kept or continued, upon any land occupied by him, any pen for the keeping of swine, or any other place of the kind within said city, or so placed that offensive substances therefrom shall be discharged or drained into either of said ponds or into any creek, or cove, or drain leading thereto. And no person shall construct, keep or continue any drain leading from any pen for the keeping of any swine, slaughter-house, privy vault, or other unwholesome or offensive place, into either of said ponds, or to any flat or marsh adjoining the same. And no person shall throw or suffer to be thrown from his land into either of said ponds, or upon any of said flats or marshes, any dead, decaying, unwholesome or offensive animal or vegetable substances.

AYER'S SARSAPARILLA,

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake with the Iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

PREPARED BY

Fine Tobacco Free!

TRY IT!

If any person who appreciates a really fine grade of TOBACCO, for Smoking or Chewing, will send us their address by Postal Card, we will send in return *(free of expense)* a sample of the very *best Tobacco* in the market, manufactured by the

MERCHANTS' TOBACCO CO.,

416 20 Broad Street, Boston, Mass.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all scrufions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the hair or whiskers to any other undesirable shade, to brown or black, as discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

LANGDON PARK

PORTSMOUTH, N. H.

THE citizens of Portsmouth are respectfully informed that the funds placed in the hands of Trustees by citizens and others have been entirely expended in the improvements thus far made in the Park. We, therefore, would hereby inform all interested that we are ready to expend in further adornments and improvements of the grounds, such sums as may be donated for the purpose; and contributions of any amount are hereby solicited to be sent at any time to the Treasurer or either of the other Trustees.

Board of Trustees.

FRANK W. MILLER, Chairman.
HENRY M. CLARK, Treasurer.
T. SALTER TREDICK, Secretary.
ALFRED M. HOYT,
JOS. HILLER FOSTER,
MOSES H. GOODRICH,
JOHN H. BROUGHTON, Mayor, *Ex. Off.*

The PAMPHLET which was printed last year, containing a report of all the proceedings at the Dedication of the Park, the Addresses of Rev. Mr. DeNormandie, Hon. C. J. Woodbury and others, with a full list of the 600 Trees set, and the names of the persons or Associations who set or paid for them—may be had at 25 cents per copy, at the Bookstores of J. H. FOSTER, or at the Portsmouth *Weekly* Counting Room. Sent postpaid on receipt of price.

Portsmouth Chronicle.

—Russian monitors stationed at Odessa received orders to go after some Turkish monitors, and endeavor to draw them into a fight. The commanders of the vessels declared the orders impossible of fulfilment, and an investigation being made, it was ascertained that owing to their peculiar construction, the heat in the engine rooms of the Russian boats became so great when under way that the crew were utterly overpowered. In case of inclement weather certain air holes had to be closed to keep out the water, and then the heat became suffocating. The decks are so hot in warm weather that they cannot be walked on without double-soled shoes, and the concussion from the enormous guns is so terrible that almost the whole crew have trouble with their hearing, and some have, at intervals, lost it entirely.

—A new way of scaling down liabilities was urged upon Mr. Haines, of the exploded Fidelity savings bank of Chicago. Depositors were clamorous the funds wouldn't hold out. A proposition was made to him by a man to quietly take $100,000 of the bank's funds and use it in the purchase of bank books for the benefit of the institution. This would do good in two ways: The bank would be relieved to the extent of the discount on each book, and the value of the books would be gradually appreciated, so that perhaps the run might stop; that is, they would start in by offering, say, sixty cents on the dollar. Then there would be a little quiet competition, and the price would go up to seventy, eighty, ninety, and so on until the depositors would refuse to sell, thinking that the institution was perfectly sound, and that they were simply being shaved by speculators.

—The ten per cent. reduction of the wages of school teachers in this city brought some protests to the ears of the committee, although as yet no "strike" has transpired. One committee-man gave as a reason for the reduction that the school year had been reduced three weeks. "Very true," said a teacher, "but we have to pay our board all the same." "You should go a visiting and live on your friends," replied the committee-man. "But some of us have no friends to live upon," quickly replied the young lady. "Wall, come and visit me," said the school guardian, glad of any escape. "But that might be less agreeable than the reduction," coolly answered the teacher, and the committee-man was glad to retreat. It is a new and possibly patentable idea that school teachers can "live on their friends" and thus eke out their subsistence.—*Nashua Telegraph.*

FOR THE

Detectives of Europe and America,

BEING

A SELECTION OF CELEBRATED CASES

IN GREAT BRITAIN, FRANCE, GERMANY, ITALY, SPAIN, RUSSIA, POLAND, EGYPT AND AMERICA.

Illustrated with 40 Full Page Engravings.

850 PAGES OCTAVO.

It is a Revelation of Struggles and Triumphs of the most renowned Detectives on the Globe for the past Twenty-five years. It traces out the most noted Bank Robbers, Scientific Thieves, Lottery Men, Counterfeit Money Dealers, Pick-pockets, Sharks and Swindlers of all kinds upon the public. In this book are disclosed some of the most marked instances of diabolical vengeance, and deepest plans of mischief and outrage ever recorded by pen or pencil, together with *the modes by which they were traced out*, and the offending actors duly published. This is a capital opportunity for smart and energetic men and women. The book is meeting with astonishing success. Agents are averaging from 40 to 60 orders per week. To those who apply early for Agencies, extraordinary terms will be given and exclusive territory guaranteed. For terms address

Good Discipline.

The Connecticut State Prison is one of the places where good discipline prevails. In addition to the culpability of the night watchman Davis, who is under arrest for supplying the pistol with which his fellow-watchman was murdered in the State Prison a few weeks ago, it has been discovered that the Deputy Warden, Dwight M. Martin, has been keeping a regular liquor shop in the prison for the benefit of the prisoners. He has had possession of the money belonging to prisoners, including that from extra work, and has kept a regular book account, the prisoners having pass books and himself a private ledger kept by a prisoner in which accounts for whiskey and "sundries" were entered. Among the items charged to Hamlin and Allen, the prisoners under indictment for the murder of the night watchman, were a saw and a file and a pint of whiskey just before their attempt to escape. Allen asserts that Hamlin was under the influence of liquor, when he fired the fatal shot, and that he would not have done it if he had been sober. How long the affair has been going on is not known, but there are several entries as "balance from old ledger." Martin has been dismissed and will doubtless be arrested, as his crime is no less heinous than that of Davis, who fled. There has been a good deal of trouble in the Connecticut State Prison within the past few years, and with a grog shop in full operation on the inside, it is not to be wondered at.

Washington Correspondence.

WASHINGTON, D. C., Oct. 1st.

So far as ascertained the files containing pending applications for patents are safe, and it is stated that not a single original document relative to the business of the Patent Office was destroyed by the fire, two facts, if they are such, as gratifying as important.

Another simpleton has come to grief. It has been customary for the disbursing officer of the Interior Department to advance to needy clerks during the month, a portion of the pay due them, their printed receipts being taken in return; and on the regular pay day the receipt and balance due were enclosed in an envelope and handed him. It appears that one Frederick R. Goodrich, a clerk in the disbursing officer's division, who managed to make himself a favorite and enjoyed almost universal confidence, would sign the name of such clerk as he had selected as a victim, and on stating he was acting at said clerk's request, would be paid the money, managing to make it good before pay day, thus escaping detection; but success made him bold, or demand on him "for more" made him reckless, and he so enlarged the scope of his operations that on Saturday he failed to make up the amount and could no longer conceal his crime. A system that made its perpetration possible will probably not strike the generality of people as very commendable,—right under the nose of the noblest reformer of the Cabinet, too, who has reduced everything to a business basis; and the ready credence given reports heard of defalcations and frauds of great magnitude about to be brought to light, when intimations of Goodrich's method of robbing Peter to pay Paul were first circulated, show with what suspicion the methods in vogue in that Department are generally regarded. It is understood that this weak brother has boasted of his extravagant expenditures at Harvey's, the fashionable resort where swells take their female friends for oysters and champagne, after the theatre, and at other times. Goodrich is now in custody. He is married, and one of the stories heard is to the effect that the money went to supply the extortionate demands of a female shark who had him fast in her toils and threatened exposure in case of non-compliance.

It will be remembered that Mr. Ira Ayer was one of the special agents of the Treasury under whose lynx eyed supervision the Custom House at Norfolk was robbed and defrauded of nearly $30,000, those crooked transactions extending through a series of years. He is said to have uniformly reported everything in apple-pie order. It is now given out that his instructions were so limited that he could not have known anything about the rascalities being perpetrated in his very presence. To those who do not regard this statement as very thin indeed, the conclusion that it would have been money in Uncle Sam's pocket to have abolished the secret service division, so far, at least, as it related to the Custom House in question, is inevitable; for of what possible benefit can it be to pay officials big salaries to report everything all right, when it is all wrong, and rapidly going to the dogs? It was supposed by many simple minded people that Ayer was stationed at Norfolk to prevent, among other things, just such thefts as were perpetrated.

The Indians attended church yesterday at the Foundry and, in common vernacular, proved a good card. They are to have a final pow-wow with the President to-day.

Secretary McCrary will recommend that existing regimental organizations be recruited to their maximum strength, adding about 15,000 efficient men to the military establishment and avoiding the objection to any increase of officers. It will increase the army budget over this year's estimate by about $2,000,000, allowing $600 per annum for the expenses of each man.

KNOX.

News and Notes.

The Lake Shore & Michigan Southern Railroad has indemnified the relatives and heirs of sixty-five out of the eighty-one persons who lost their lives in the bridge accident at Ashtabula. The balance of the claims are in a fair way of speedy settlement. The largest amount paid to any one party was $9000. Mr. and Mrs. Rogers, a newly married couple on their wedding tour, were killed and their bodies burned beyond recognition; yet their lives have been settled for at the comparatively small figure of $3000. The claims against the company have generally fallen under $5000.

It is asserted in Hoboken that John Kamena, the City Treasurer, is a defaulter to the amount of $80,000 or $90,000. The money which ought to be on deposit in the First National Bank is missing, and the City Treasurer has been called to account. A number of influential citizens have been before the Grand Jury to secure his indictment for malfeasance.

The following was the coinage at the Philadelphia mint during September: Double eagles, $4,492,200; trade dollars, $1,677,000; half-dollars, $408,400; quarter-dollars, $349,600; dimes, $129,000; total, $7,056,200.

Alfred H. Wyant, constable of Washington, Conn., was probably fatally shot by a tramp, on Tuesday, 2d inst., whom he sought to arrest for previously threatening a resident of Roxbury with a revolver. Wyant's dog instantly sprang upon the man and dragged him to the earth, when he was secured.

The savings banks at Hyannis and Harwich, Mass., have suspended.

George W. Waterman, trustee clerk and assistant paymaster of the Pacific Mills of Lawrence, Mass., is a defaulter to the amount of $50,000 or more. It is thought the loss will be made good to the mill, and the matter kept out of the court. Waterman was formerly order clerk of the mills, in which position he acted dishonestly, and was then transferred to the position of assistant paymaster, where he managed to steal $50,000.

New York has another financial sensation, it having been discovered that William C. Gilman, of the firm of W. C. Gilman & Co., insurance scrip brokers, has for two years been carrying on a wholesale system of altering certificates, the forged paper already discovered amounting to $250,000. Gilman has borne the reputation of being a very wealthy man, was a church member and teacher in a Sabbath school; and he was regarded with such confidence that certificates offered by him as collateral for loans were not closely scrutinized by the banks.

The banks of Montreal have been victimized by raised drafts to the amount of nearly $40,000, by two men named Deton and McAllister.

The *Journal of Commerce* says that hot alum water is the best insect destroyer known. Put the alum into hot water and let it boil till the alum is dissolved; then apply it hot with a brush to all cracks, closets, bedsteads and other places where any insects are found. Ants, bed bugs, cockroaches and creeping things are killed by it, while it has no danger of poisoning the family or injuring property.

The Malden *Mirror* published a paragraph describing a disturbance at Dr. Lyman A. Abbott's house, in which Abbott was charged with drunkenness and wife-beating. The Doctor thereupon sued Mr. H. C. Gray, editor of the *Mirror*, for libel, with a claim for $5000 damages. Mr. Gray responds in the last *Mirror* in a heated article, in which he charges the doctor with being a graduate of three State prisons, for bigamy, counterfeiting, etc., and with being a thief, debaucher and seducer, summing all his charges up in the epithet "consummate ass," and suggesting that he put these allegations into his bill of damages.

The Montreal *Witness* says that a physician in that city is restoring the faculties of an idiotic child by lifting depressed portions of its skull.

Mr. Hutchinson, a leading operator on the Chicago Board of Trade, has furnished the city with laughter for some time by the costly eagerness with which he bought up a bankrupt estate. He wished to secure it for his son-in-law, and bid $19,000; then he discovered that there was a sealed bid in the competition, and induced the assignees to wait till he could put in a new bid at a higher figure. They did so, and he was gratified to find that in his second bid he had raised on his son-in-law's offer just $12,000.

Charles Brown, of Plymouth, Mass., is under arrest for wounding a boy named Cornish and the latter's grandfather with a charge of small shot from a gun. Brown is but twelve years old, but bears a very bad character.

Report was current in Washington on Tuesday that the United States troops under Lieut. Bills, who crossed the Rio Grande in pursuit of Mexican marauders, had been roughly handled by the Mexicans and that Col. Shafter, with 600 men and two Gatling guns, was surrounded by 1000 Mexicans. Gen. Sheridan calls these stories sensational, as probably they are; for no 1000 "greasers" could bother 600 U. S. regular troops a great deal.

Madame Teresa Titiens, the celebrated operatic singer, died in London, Oct. 3d, at the age of 43 years.

New Hampshire Items.

On Saturday evening, 29th ult., a five years' old son of Mr. S. H. Eagle of Nashua was so badly scalded by the upsetting of a tea-pot that his life is despaired of.

On the night of the 24th ult., the Post Office and the store of G. & W. P. Frost in Durham were broken into, and $10 worth of stamps and from $300 to $500 worth of goods carried off.

On Monday night, 1st inst., at 11 o'clock, Patrick Cashman assaulted and robbed Samuel Fogg of Hampton, on Merrimac street, Newburyport, of a wallet containing $100 in gold and $32 in bills. Fogg, in liquor, was picked up with valuable papers on his person, including three savings bank books to the value of $5083, which Cashman had not time to obtain. Cashman was arrested and the money recovered, and he was held to answer at the Superior Court.

Florence McCarty, aged twenty years, for breaking and entering the store of Mallard & Son, at Manchester, was sentenced on the 2d inst. to the State Prison for six years. He has been before the Court twice for other offences, and voted the democratic ticket twice at the last annual election.

Andrew F. Burpee, a blacksmith of Bristol, while out hunting on the 2d inst., was accidentally shot by his son Ira. The charge entered his back near the shoulders, lodging in the lungs, making a wound which his physician thinks will prove fatal in a short time.

A Dartmouth student was expelled a short time since for throwing an iron clad torpedo at a professor who was walking on the sidewalk in company with ex-Senator Patterson. The torpedo landed directly in front of the pair. The Prof. whooped and ran, but the Senator ran without whooping.

A woman in Manchester, whose husband is one of an extensive dry goods firm in that city, has been stealing from the firm and decking out her person in the most gorgeous array. She has charge of one of the departments. The consequence is the disruption of the firm, the husband buying out his partner.

A bridge in Chester broke down recently while a herd of cattle, belonging to Messrs. Johnson & Hines, were passing over it, precipitating thirty of them into the stream below, and seriously injuring several. As the owners of the cattle are two of the selectmen, the question of damages is a delicate one. A new bridge of eighty feet span is to replace the old one.

Miss Mary Louisa Field died at Bethlehem on Sunday, Sept. 30th. She was to have been married to Gov. Rice of Massachusetts in a few days.

Rev. S. L. Blake of the South Church, Concord, resigned on Sunday, 30th ult.

Political.

Backus, of the California minstrels, offers a reward of $1000 for a joke which will make an audience laugh two minutes by the watch. The late Pillsbury-Williams campaign in this State ought to fill the bill. —*Bangor Commercial.*

Talking of conventions, there was one of the democratic sort held at Lima, Auglaize County, Ohio, at which the County Auditor, Smith, by name, just when he was making a furious speech in favor of "reform," was suddenly snatched up by the constables and carried off to jail, where he found his friend and political crony, Lewis Myers, also incarcerated. Myers was the treasurer of Auglaize County, which, by the way, has not had a republican in office for twenty years. A few weeks ago, Myers was discovered in his office in a pitiable condition, a blanket over his head, and a gag in his mouth. He said that four masked ruffians had seized him upon the highway, baled him to the treasury, tortured him by applying burning coals to his feet, and so compelled him to divulge the combination of the safe lock, whereby they were able to carry off about $27,000. It turns out that the ruffian who applied the torture was the County Auditor, and that it was all what is vulgarly called a put-up job. Moreover, there has been a steady course of stealing from the county treasury for years. The democratic tax-payers of Auglaize are very much exasperated, and are considering the propriety of lynching both Myers and Smith.—*Tribune.*

NAVAL MATTERS.

It is reported that Capt. Temple will be retired from his command at the Brooklyn navy yard this month, and that Capt. Harmony will be assigned to his place.

Master M. Francis Wright is detached from the receiving ship St. Louis and ordered to the Enterprise.

Gunner Thomas S. Wilson is on the Hartford, the flagship of the South Atlantic squadron, Rear Adm. C. F. Nichols, now lying in Hampton Roads, bound for Rio.

Andrew Johnson's Grave.

A Philadelphia firm is completing a monument to be erected at "Home," near Greenville, Tenn., over the graves of Ex-President Johnson and his wife. The height of the entire structure is twenty-six feet, and it consists of a granite base, with a plinth, die and shaft of Italian marble. The base is nine feet six inches square at the ground. There will be two granite piers, one on each side of the two graves, over which will be sprung a granite arch, and upon this the monument will rest, leaving an opening under the arch in which the graves will be visible. On the front is carved a scroll representing the Constitution of the United States, and an open book with a hand resting upon it, representing the taking of the oath of office. Surmounting the whole is an American eagle with outstretched wings. The inscriptions to be carved upon the plinth have not yet been decided upon by the heirs of the ex-President, at whose order the monument is being made.

Influence of Valleys on Health.

Mr. Alfred Haviland lately informed the London Social Science Association that many diseases were induced by the common tendency to place houses in valleys instead of on the hill sides. He says that valleys do not get a full share of fresh air. The wind blows over, not through them, and the atmosphere within their boundaries is comparatively stagnant. His observations are therefore opposed to the common belief that valleys are especial channels for atmospheric movements; but his opinions are sustained by Dr. B. W. Richardson, who is good authority. The latter gentleman enumerated twenty-five or thirty diseases which he thought might be attributed to the propensity for valley homes. Among them are croup, influenza, scrofula, rheumatism, fistula, calculus, and possibly some malformations. The list is formidable, and to put it mildly, it is almost incredible that diseases of this character can be caused by living in the broad and shallow valleys of England. Mr. Haviland's remarks were illustrated by maps and models showing the geological structure of the earth—*Galaxy for October.*

—A Memphis man bought a coat for five dollars on credit, and sold it for fifty cents in cash, so as to go to a circus.

CLOTHES WRINGERS REPAIRED.

GREAT REDUCTION! *New Rolls on to Old Wringers at* $1.50 *each; former price* $2.

REMOVAL.

The undersigned, having been engaged in the business of repairing Clothes Wringers for more than three years, and having in every instance given satisfaction, would solicit a continuance of patronage, and announces that he has removed his shop to **No. 14 WARREN STREET,** corner of Fleet Street. Don't forget the place, when you want your Wringer repaired.

WILLIAM ELLISON.

MUSICAL INSTRUCTION!

THE SUBSCRIBER, proposing to devote his entire time and undivided attention to the work, offers his services as

Teacher of Music

In the various branches,—**PIANO, ORGAN, VOCALIZATION, HARMONY,** etc.,—to the citizens of Portsmouth and vicinity. All orders received will be promptly attended to. MUSIC ROOM AT

Mercantile and Grange Hall, 5 Congress St.

☞ OFFICE HOURS from 10 o'clock A. M. to 12 M.; pupils instructed at their homes in the afternoon.

The hundreds of residents in this city who have been his pupils in the past are sufficiently aware of his qualifications as a teacher; as a guaranty to others of his ability he would point to the many superior performers in the city who received their instruction mainly or wholly from him.

POLICE COURT.

Wednesday, Oct. 3d.

William Hanscom, for an assault on Jennie Parks, (case continued from previous day,) was senteneed to pay a fine of $2, costs $7.61.

Same for unlawfully taking possession of a ring belonging to the Parks woman, was fined $5, costs $6.90. He wished to appeal in both cases, but was unable to find surestie.

A CONFLICT OF AUTHORITY.

There was a verbal sparring exhibition at the meeting of the Board of Overseers of the Poor, held at the City Rooms on Tuesday evening, 2d inst. Everything went on harmoniously until the introduction of a bill of Mr. Charles W. Robinson for flour, which had been contracted by Mayor Broughton, *ex-officio* Chairman of the Board. The Overseers took umbrage at this innovation on their former method of doing business, and on motion of Mr. Frye the bill was laid on the table. It seems that Mayor Broughton, having examined the city ordinances in regard to his duties as Chairman of the Board, construed them as making him the purchaser of all supplies for the poor, and acting upon this conviction bought the flour of Mr. Robinson. The bill was presented at a meeting held two weeks previously, and a motion was then made to lay it over for one month. The Chairman refused to put the motion to vote, for the reason that the matter could be investigated and decided at the following meeting. As the bill met a similar fate then as at the previous meeting, and there seemed no better prospect of its settlement, the Mayor read a communication from City Solicitor Hackett sustaining him in his action and construction of his duties as Chairman of the Board. The following communication will explain the position of affairs:

Gentlemen: On the 18th ult., I presented a communication to this Board stating that in my judgment the poor of the city should be supplied from the Almshouse and the supplies furnished in accordance with the city ordinance, and asked you to give it your earnest consideration. The document was read and laid over for one week; at the next meeting the paper was called up to be considered, and without much comment a motion was made by Mr. Joy that the paper be postponed for one month, which motion was declared carried. I then notified the Board that I should present another communication at the next meeting, and I have addressed a note to the City Solicitor asking him to define the law which says that the Superintendent of the City Farm shall purchase supplies for the out-door pensioners, and also my duties in regard to the poor of the city, and the City Solicitor has furnished me with the following opinion:

SEPT. 27th, 1877.

HON. JOHN H. BROUGHTON, Mayor of the City of Portsmouth:

Sir: In answer to the enquiry as to intent and meaning of Ordinance relative to Superintendent of the City Farm, which gives the Superindent "power to purchase stock, provisions and supplies for use of inmates of the Almshouse and out-of-door pensioners," I would state that by the law of the State the Mayor shall cause the laws and regulations of the city to be executed, and shall exercise a general supervision over the conduct of *all* subordinate officers and cause their violation or neglect of duty to be punished. He is also *ex-officio* Chairman of the Board of Overseers of the Poor. All officers are ordinarily members of the boards over which they preside, except in certain legislative bodies. The overseers by ordinance have a general direction and control of the Superintendent of the City Farm,—the term "general" as the opposite to "specific,"—the intention evidently being that the Mayor as the executive of the city should see that the keeper of the Almshouse performed his duties in detail and under his immediate direction, while the Overseers had the more universal, common, or comprehensive direction, not directed to a single object but giving general policy of management of affairs. I think it was the intention of those enacting the ordinance that the Mayor, in cases you name, should direct *especially* the keeper when, how and in what quantities he should purchase supplies; while who are to be the recipients of bounty may be a subject of investigation and determination of the Board, whose duty is in respect to the keeper similar to that of the Board of Aldermen, who may authorize an expenditure in certain contingencies, which is made by the proper officer upon *his* responsibility. The Keeper of the Almshouse and Superintendent of the City Farm gives bonds, as the City Councils direct, for the faithful performance of his duties, and the accounts which he keeps must be open at all times to the inspection of the Mayor or either of the Overseers. I am led to the conclusion that it is the duty of the Mayor as Chairman of the Board of Overseers, and as the chief executive officer of the city, to indicate to the Keeper of the Almshouse what supplies he thinks will be needed for the out-of-door persioners. These the Keeper will purchase in such way as "the faithful performance of his duties" will point out to him as most for the interest of the city and its pensioners, and issue supplies upon an order duly passed by the Board of Oversers, which being properly authenticated, will be his warrant for such issue, and permit him to account for such supplies as he may under authority of the ordinance purchase.

Very respectfully,

WILLIAM H. HACKETT, City Solicitor.

Mr. Joy said he supposed the Board understood its duties without the decision of the City Solicitor.

Mr. Frye was of the opinion that the Board had full control of all business matters.

The Mayor referrred to some irregularities in bringing bills in for approval, made out in gross instead of in detail, in the following communication:

Oct. 2, 1877.

To the BOARD OF OVERSEERS: *Gentlemen*; I hereby give notice that after the 20th of October no bills for supplies furnished by this Board from any store will be approved by me unless authorized by me; also that no bill will be approved by me after this date unless rendered showing quantity and price of each article furnished.

J. H. BROUGHTON, Mayor.

Mr. Frye stated that the law allowed bills to be brought in without the details, but that the articles seould be put separately on the books of the persons from whom the supplies are purchased; he thought if the Overseers had no power, there was no necessity for them to meet. Mr. Joy referred to an article published in the Boston papers, and suggested that it was in bad taste to publish suggestions that were brought before the Board before any action had been taken; he also pronounced the article scandalous.

Comments were made by the other members of the Board, but no conclusion was arrived at. Mayor Broughton said he should assume the right to purchase supplies until the law was defined differently. The Overseers will consult legal authority, and probably the question will be argued at the next meeting.

BOARD OF INSTRUCTION.

The regular meeting of the Board of Instruction was held Wednesday evening, at the City Rooms. The Mayor being absent, William H. Hackett, Esq., was voted to the chair. Present, Mrs. Knight, Miss Wilson, Messrs. Hackett, Pender, Hutchinson, DeNormandie, May, Shannon, Goodrich, Wendell and Sherburne.

Mr. Hutchinson offered the following, which passed:

Resolved, That Mr. A. R. Dickinson be confirmed as teacher of the Jones Grammar School.

Report of examining committee was received regarding competitive examination of candidates for position of teacher of the Franklin school; five candidates were examined, Miss Amanda Pickering of Newington having the highest aggregate, 83 7-8, ("par" 100,) the lowest aggregate being 75. The report was accepted. Dr. Sherburne moved that Miss Pickering be confirmed as teacher of the Franklin school, and the motion prevailed.

The following proposed regulations, reported at the last meeting of the Board, came up for consideration and action:

1. At the regular meeting of the Board of Instruction in the month of July, the Grade Committees shall report the names of all the teaches then connected with the schools under their care, whose re-election for the ensuing year they unanimously recommend. The Board shall then proceed to the election of each teacher by ballot, and seven votes shall be necessary to elect. In each case when the Grade Committee is not unanimous in its recommendation, an examination shall be ordered.

2. Whenever a vacancy occurs among the teachers, an examination, open to all applicants, shall be held in the High School building and conducted by the High School Committee. Notice of it shall be published at least one month previously and shall include a statement of the studies and how far in each study the teachers for each grade shall be examined.

3. These examinations shall give special prominence to questions relating to teaching; shall be marked on a scale of 100; shall be conducted by numbers instead of names; and all the papers relating to them shall be preserved, and at all times open to the Board.

4. In making appointments from the various applicants, the Board shall have regard to attainments, experience, testimonials and character; shall give the preference, other things being equal, to those already teachers in a lower grade, and to those who are graduates of our own schools,—but no new teachers shall hereafter be appointed in the Primary or Intermediate schools, who are not graduates of some good normal school. As soon as the examination papers are laid before the Board, it shall proceed to the election of a teacher or teachers according to the provisions in Section 1.

5. In case of the sudden illness or necessary absence of any teacher, the Master in that district may furnish a supply for a period not exceeding three days; if the absence is prolonged, notice shall be given to the sub-committee, who shall appoint a teacher for the remainder of the term, subject to the confirmation of the Board,—but no teacher shall, in any case, hereafter be confirmed until a competitive examination is held, by the direction of the Board, as provided in Section 2.

No. 6. No charges shall be entertained against any teacher in the employ of the city, unless they are in writing, signed by responsible and interested persons and setting forth the specific causes of complaint.

The first of the proposed rules was read and considered, and Mr. Hutchinson moved that the word "unanimously" be stricken out, and that the words "is not unanimous in its recommendation," in the last clause, be made to read "does not so recommend." The motion prevailed, and the section as amended was adopted.

Section two was considered, and "Examining Committee" substituted for "High School Committee." As amended, the section was approved.

Section three was adopted without altera. tion.

Mr. Shannon moved to strike out the provision in section four demanding that all now teachers be "graduates of some good normal school." Rejected: yeas—Hutchinson, Shannon, Pender and Sherburne—four; nays—Mrs. Knight, Miss Wilson, Messrs. May, DeNormandie, Goodrich, Wendell and Hackett—seven. The section was passed without amendment.

Section five was amended by striking out the words "remainder of the term" and inserting "temporary vacancy," and by causing "until a competitive examination is held" to read "until an examination is held." The section then passed.

Section six was adopted without discussion.

Adjourned.

PORTSMOUTH AND VICINITY.

The Boston papers of Wednesday, in their telegraphic reports of the annual meeting of the Kearsarge Mills stockholders, in the list of officers chosen announce "Annie H. Fernald" as Proprietors' Clerk. We are at a loss to know whether our old friend, Ammi R. H. Fernald, Esq., has left the position he has filled for so many years with honor to himself and profit to the company, or if it is only his good name they have taken from him.

Ship Paul Jones, having had her lower masts stepped, was on Wednesday towed from under the navy yard sheers to Jones' wharf by steamers Clara Batemen and Major. She will be fitted for sea where she now lies.

Judge Stanley, who is to preside at the Supreme Court which commences in this city October 16th, notifies the bar that the Equity docket will be in order for trial or other disposition on Tuesday afternoon of the first week, and that no case on the Equity docket will be taken up after the first week until after the jurors are discharged for the term, except by agreement of both parties.

[Communicated.]

PHOTOGRAPHIC AND STEREOSCOPIC PICTURES.

The photographers of New York do a thriving business during the excursion season annually, by appearing at picnic parties, or where people are seen about the rural retreats of their friends, where they find ready employment in taking groups, as well as aiding to form them; thus creating pictures that are to their possessors a source of life-long pleasure. Quite common it is, also, for friends to return from an afternoon jaunt into some pleasant region, with their likenesses, taken separately or together, while resting in some shady retreat, or on a rock by the seashore. There is no reason, among people of taste like those of Portsmouth, why such an enterprise might not prove here a success as well as elsewhere. The suburbs in every direction, both on land and sea, around the city, it may here be added, afford the finest subjects for stereoscopic pictures, and none more so than in the ride to or from the Hotel Wentworth, by the new route to Newcastle. The views along the romantic Sagamore region are unsurpassed anywhere for beauty, especially that in looking up the stream, which includes the tasteful home of Capt. Coffin, that looks like a castle in the distance. A traveller abroad would seek in vain for one of more surpassing elegance. The views from the North bridge, both up and down the water, would also form fine subjects for stereoscopic pictures. J. H. B.

The Glory of Woman

is a fine set of teeth as well as a fine head of hair. How the enamel glistens after a good brushing with fragrant Sozodont! Nothing destructive to the teeth can exist on the surface or at the roots, if this vegetable antidote to corrosion is duly applied.

Spalding's Glue will mend anything except a broken heart.

ELEGANT HAIR is woman's crowning beauty. When it fades, she fades as well. While it is kept bright, her personal attractions are still maintained. By preserving the hair (red and vigorous a youthful appearance is continued through many years. Those who grieve over their fading hair turning gray too early, should know that Ayer's Hair Vigor prevents it, and restores gray or faded hair to its natural color. It is a clear and healthful preparation, containing neither oil, dye, nor anything deleterious, and imparts to the scalp what is most needed—a sense of pleasant and delightful freedom from scurf or dandruff.—*New Berne (N. C.) Times.*

Daily Chronicle.

Glass Ball Shooting.

The following account of a trap to throw glass balls for sportsmen to shoot at, we copy from *Forest and Stream*. To the plea that pigeon-shooting is the best practice for marksmen, it is a conclusive answer:

"The whole mechanism of the Bogardus trap is very simple, and requires no attention other than to see that the cups are perfectly secured to the spring. The idea of arranging the traps is to give the shooter right and left as well as straight shots. It is believed that glass balls and the Bogardus trap offer better practice to the tyro than pigeon shooting, and that when able to break two-thirds of the glass balls shot at, he will become an expert wing shot. The trouble with many of the glass-ball traps is, that they offer no shooting analogous to the flight of a bird skimming low along the ground. With the Bogardus trap, such practice is obtained by turning the ball-cup half-way around on the spring, so that the long level is uppermost. All who have shot at both pigeons as sprung, and glass balls as thrown from a trap, unite in declaring the last to be the most difficult, demanding greater skill and power of control."

—The Treasury girls call a man "bub" until he is forty-seven.

Centaur Liniments.

One thing is now thoroughly established. Never since man suffered and human agencies alleviated pain has there been any thing which went so far as a pain annihilator and curative agent as the Centaur Liniments. These Liniments have within the past year cured more cases of Rheumatism, Neuralgia, Stiff joints, Caked Breasts, Swellings, Poisonous Bites, Burns, Lame Animals, etc., etc., than all other remedies combined. As the name of Centaur implies half horse and half man, the Centaur Liniments are for man and beast. But not the same Liniment. The White Liniment is for man and the Yellow for horses and animals. Herein this Liniment differs from all other remedies, although some of the ingredients are alike in each. They contain the well-known Witch Hazel, Arnica, Cartbolic, Rock Oil, Mentha and other powerful ingredients.

Wm. H. Hickcox, Rector of St. John's E. Church, Wakefield, Clay Co., Kansas, writes: "Many years I have been suffering from a Weak Back, caused from a sprain more than 40 years ago. I have not found any thing to relieve me until I commenced the use of Centaur Liniment. I feel it my Christian duty to inform you of my wonderful cure. Now I am entirely relieved of pain. January 23d, 1876."

Messrs. J. McClure & Co., Druggists, Cincinnati, Ohio, say:

"Teamsters pronounce the Yellow Centaur Liniment superior to any thing they have ever used. We sell several dozen bottles per month, and the sale is steadily increasing."

These are only samples of thousands upon thousands of similar testimonials reaching us every month. All the Extracts, Embrocations, Salves and Ointments in existence are not doing one-tenth the good which is done by these admirable Centaur Liniments. For Frost-bites, Stings, Cuts, Itch, Salt Rheum, etc., there is nothing like the Centaur Liniment, White Wrapper. For Spavin, Ring-bone, Sweeney, Wind-Galls, Poll-evil, Scratches, etc., on horses, the Yellow Centaur Liniment is equally as good. They are certain in their effects; they are pleasant to use, they are handy and they are cheap. No family should be without Centaur Liniments. They are worth one hundred times their cost.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Castoria.

Mothers may have rest and their babies may have health, if they will use **Dr. Pitcher's Castoria** for Wind Colic, Worms, Feverishness, Sour Mouth, Croup, or Stomach Complaints. It is entirely a vegetable preparation, and contains neither mineral, morphine, nor alcohol. It is as pleasant to take as honey, neither gags nor gripes, and is superior to any remedy in existence.

Dr. E. Dimoch, of Dupont, Ohio, says:

"I am using CASTORIA in my practice with the most signal benefits and happy results, and find it a perfect substitute for Castor Oil."

This is what every one says. Many nurses in New York use the CASTORIA. It is prepared by Messrs. J. B. ROSE & Co., successors to Samuel Pitcher, M. D. 1nov1

The Centaur Liniments

have created a revolution in remedies for Rheumatism, Pains, Swellings, Pains, Burns, Scalds, Stings, etc. The White Liniment is for the human family, and the Yellow Liniment is for horses. They are certain, handy and cheap.

Castoria is certain to operate.

It does not nauseate or gripe like Castor Oil, but is pleasant to take, dispels the food, regulates the bowels, cures wind colic, expels worms, and causes natural sleep. It is equally adapted to adults and infants. It contains neither Mineral, Morphine nor Alcohol. Children teething may have health, and mothers find rest, if they use Castoria. 1nov1

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The new compositions, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as Ayer's Cherry Pectoral. It has been known to the public almost forty years, by a long continued series of marvellous cures, that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of Coughs, Colds, Consumption, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of security from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

WOMAN.

By an immense practice, extending through a period of years, having within that time treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and agreeable medicine that meets the indications presented by that class of diseases with positive certainty and exactness.

To designate this natural specific compound, I have named it

Dr. Pierce's Favorite Prescription.

This term, however, is but a feeble expression of my high appreciation of its value, based upon my own personal observation. As a close observer, I have, while witnessing its positive results in the few special diseases incident to the separate organism of woman, singled it out as **the climax or crowning gem of my medical career.** On its merits, as a positive, safe, and effectual remedy for this class of diseases, and that will, at all times and under all circumstances, act kindly and in harmony with the laws which govern the female system, I am willing to stake my reputation as a physician. Nay, even more, so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and will, if needed, give **A POSITIVE GUARANTEE.** If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used, I will, on return of the bottle, two-thirds of the medicine having been taken according to direction, and the case being one for which I recommend it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions; but having witnessed its truly miraculous cures in thousands of cases, **I feel warranted and perfectly safe in risking both my reputation and my money on its merits.**

The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppressions, when from unnatural causes, Irregularities, Weak Back, Prolapsus or Falling of the Uterus, Anteversion and Retroversion, Bearing Down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, Female Weakness, and very many other disorders peculiar to woman not mentioned here. In all affections of this nature, my Favorite Prescription works cures—**the marvel of the world.** This medicine I do not claim as a cure-all, but it admirably fulfills a **singleness of purpose,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can obtain in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, pre-paid, on receipt of $1.50. It treats minutely of those diseases peculiar to Females, and gives much valuable advice in regard to the management of these sections.

DR. QUAIN'S

MAGIC

CONDITION PILLS!

The Wonderful Remedy for Liver Complaint, Biliousness, Dyspepsia, Constipation, Neuralgia, Rheumatism, Headache, Kidney Complaint, Nervousness, Scrofula, Piles, and all diseases arising from a bad state of the Blood!

No medicine ever offered to the public has given such universal satisfaction as Dr. Quain's Magic Condition Pills. Their praises are on every tongue where their merits are known. They strike at once at the seat of disease and show their healing power almost immediately. Thousands of voluntary testimonials of their merits have been received by the agent, from those who have been cured by them, of which the following are samples:

Dyspepsia Four Years, Constipation and Inflammation of the Bowels Three Years, Confined to my Room Two Years, Pain so I Could Not Sleep Without Morphine. One Package of Dr. Quain's Condition Pills Made Me Eat Well, Sleep Well and Free from Pain, after being given up by Physicians.

WEST LEBANON, ME., Feb. 22, 1

MR. THOMAS W. LANE:—I have been sick for 7½ years with Dyspepsia, and for the past three years Constipation and Inflammation of the Bowels. I have suffered at times so I could endure and live. have been confined to my room for two years, and could not sleep nights without the use of morphine. I have been given up by physicians as past cure. I have taken one package of DR. QUAIN'S CONDITION PILLS, and they have done me more good than all the doctors I have had. I sleep well, I eat well and have no pain. They are all they are recommended to be. Please send me three packages, as two of my neighbors wish to try them. I enclose $1.50.

Your truly, JOHN W. LORD.

Another Letter from May. John W. Lord, one month later Wonderful Cures by Dr. Quain's Pills Effected on Him in Thirteen Days. First time Free from Pain for Three Years.

WEST LEBANON, ME., March 23, 1875

MR. THOMAS W. LANE:—I commenced taking DR. QUAIN'S CONDITION PILLS February 8th, and wrote to February 21st of their wonderful effect. I have continued to improve ever since. My appetite is good, and I sleep as well as I ever did in my life. I am free from pain for the first time in three years. When I was taken sick four years ago, I weighed one hundred and eighty-six pounds; I now weigh one hundred and thirty, but, as I am gaining in strength, I hope to gain. I shall regain my health. This is entirely by the use of the Pills. I shal continue taking them for some time to come.

Yours truly, JOHN W. LORD.

Dr. Quain's Pills the Remedy for Soldiers' Aches and Pains.

WEST LEBANON, ME., June 1, 1875.

MR. THOMAS W. LANE—*Dear Sir:*—I am now able to walk out every day, and am gaining in strength very fast, all of which is due to you as agent for the best Pills in the world. I have taken no other medicine, and my improvement has been steady since first taking DR. QUAIN'S CONDITION PILLS. They have done everything for me, and I will say to you, advertise them direct to the soldiers, for they will certainly cure their aches and pains caused from exposure and hardship on the field. Please send me by return mail another package.

JOHN W. LORD.

Rheumatism for Twenty Years Cured by One Package of Dr. Quain's Condition Pills—"The Best Medicine in the World."

EAST ANDOVER, N. H., Dec. 16, 1875.

MR. LANE—*Dear Sir:*—As I know the value of DR. QUAIN'S CONDITION PILLS and the good they have done me, I take pleasure in giving them praise so I send you another testimonial. My father has been troubled with Rheumatism for twenty years or more, and has tried everything that could be thought of, but to no good. At times it would be so bad that he could not lift his hand to his head or do any work at all, especially in cold weather. A short time ago I advised him to get some of these Pills. He believed nothing in them, out I gave him the last package I had of my child. I did not need them, and he has not been as free from the Rheumatic Complaint for years. No Rheumatism, no pain. What helped him? It was DR. QUAIN'S CONDITION PILLS, the best medicine in the world. There is nothing like them. *I know it,* for I have tried them, and they are all, yes, more than they are recommended to be. Give them a fair trial and you will say so. I write this because I know the goodness of them and wish others to know the same. Some may think I am telling a big story I am. But remember I am not giving them half the praise they ought to have.

Yours with respect, ED. F. PEVARE

Wonderful Effect of Four Doses of Dr. Quain's Condition Pills upon Neuralgia of Twelve Years' Duration—Testimony of Rev. J. S. Patton.

DAINGERFIELD, MORRIS CO., TEXAS, Nov. 15, 75.

MR. THOMAS W. LANE—*Dear Sir:*—I have been afflicted for near twelve years with Neuralgia in the face and head. I tried I do not know how many physicians, and could only get partly relieved. I also tried many patent medicines with the same result. I was been confined to my room most all the time for eight or ten winters, and have been traveling and visiting medical springs, and I still suffered most intensely. The physicians pronounced my case the worst and most stubborn that they had had anything to do with. They said I never could get well; they all advised me to go South and spend the winter, and thought that was the only chance for me, and I was too poor to go to Florida, when through the kindness of Rev. H. M. Mathis, my attention was called to the advertisement of Dr. Quain's Magic Condition Pills. I immediately sent to you for a package. I have taken four doses and I am almost free from pain. The impression here seems to be that if your pills will cure me, they will cure any body. I have five applications to send for the pills. Enclosed please find three dollars; send five packages to me and one to Mrs. Laura Sherrel, Sulphur Springs, Hopkins county, Texas.

Yours truly, J. S. PATTON

Liver Complaint, Nervousness, Dropsy and Headache.

LACONIA, N. H., Jan. 29, 1875.

THOS. W. LANE—*Sir:*—I have been troubled with Bad Blood, Liver Complaint, Nervousness, Dropsy and Headache. I have taken one package of DR. QUAIN'S CONDITION PILLS. They have done me more good than all the medicine I ever took; I have taken considerable medicine within the last five years. For the nerves I think there is nothing so good as these pills. I can recommend them to all who are similarly afflicted, they have done me so much good, I think they will recommend themselves wherever they go. I shall recommend those Pills to all who need them. Please send me two packages more, one for myself and one for a friend of mine. Many thanks to the inventor, agent and advertiser of those Pills. MRS. P. L. ELLIOTT.

DR. QUAIN'S MAGIC CONDITION PILLS are put up only by the AMERICAN MEDICINE CO., Manchester, N. H., THOMAS W. LANE, Agent.

For Sale in Portsmouth at the

PULMOCINE.

BUCHMAN'S PULMOCINE CORDIAL

is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best *Pulmonary Curative* as could prescribe, after dozen years spent in experimenting with it before he was satisfied that the Materia Medica could add nothing in its favor.

Among its many ingredients are *Wild Cherry Bark, Squill Root, Liquorice Root, Blood root,* &c. It is a Blood Purifier, gently stimulating. It increases expectoration and is diuretic. It is sedorific and alterative. It is a necessary family medicine. It is a Tonic and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the lung trying climate of New England

PULMOCINE CORDIAL

Is a speedy and reliable Preventive and Remedy. Every Family should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or Inflammation of the larynx, Diphtheria, and all kindred *Throat Diseases* at all times prevalent, it is the ounce of *Prevention.* Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate each. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this *Family Medicine* prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all this afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and patient's danger is past.

For Coughs,

Croup,

Diphtheria,

Asthma, etc.,

USE

Buchman's Pulmocine Cordial.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. Its offered to the profession and to the public, absolutely pure and unadulterated.

Arrears of Pay and Bounty.

OFFICERS, SOLDIERS and SAILORS of the late war or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All OFFICERS, SOLDIERS and SAILORS wounded, ruptured or injured in the late war, however slightly can obtain a pension by addressing GILMORE & CO. Cases prosecuted by GILMORE & CO. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the Old Office. Prompt attention to all business entrusted to GILMORE & CO. is thus secured. We desire to win success by deserving it. ADDRESS

CITY HEALTH REGULATIONS.

THE BOARD OF HEALTH OF THE CITY OF PORTSMOUTH call the attention of the public to the following sections of Chapter 10, of the Revised Ordinances, and invite all interested in the preservation o health in our city to aid them in the execution of their duty:

SEC. 3. All waste water or houses, yards, cellars, sinks, pumps, etc., shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

SEC. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners and occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in futures on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

SEC. 6. No vender of meat at the stalls shall be permitted to leave any stale meat, heads, feet or offal of any kind about their stalls or stores over night, or suffer them to be thrown into any street, lane or alley of the city. Nor shall any sellers of fish be permitted to throw any offal of fish into any street, lane or alley of the city, or upon any wharf, but shall either bury them or throw them into the river beyond low water mark.

SEC. 7. If any dead animal or decaying vegetable substance, or any other nuisance, shall be found in any part of the city, the owners or occupiers of the premises where such nuisance shall be found, shall cause the same to be removed within twenty-four hours after being notified so to do by one or more of the health officers.

SEC. 12. When any householder shall know that any person within his family is taken sick of the small pox, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Health Officers.

SEC. 13. When any physician shall know that any person whom he is called to visit is infected with the small pox, or any other disease dangerous to the public health, such physician shall immediately give notice thereof to the Health Officers.

SEC. 14. If any such householder or physician shall refuse or neglect to give the notice required in the preceding sections, he shall for each refusal or neglect, forfeit the sum of twenty dollars, to be recovered by either of the Health Officers in the name of the city.

SEC. 16. The Health Officers may give written notice to the owner or occupier of any building, vessel or enclosure, to remove or destroy any nuisance or other thing deemed by them on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said Health Officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, vessel or enclosure, and cause said nuisance or other thing above said to be removed or destroyed.

SEC. 21. No person shall erect, keep or continue, or permit to be erected, kept or continued, upon any land occupied by him, any pen for the keeping of swine, or privy, over either of the mill ponds in this city, or so placed that offensive substances therefrom shall be discharged or drained into either of said ponds or into any creek, or other place leading thereto. And no person shall construct, keep or continue any drain leading from any pen for the keeping of any swine, swine-house, privy vault, or other unwholesome or offensive place, into either of said ponds, or to any flat or marsh adjoining the same. And no person shall throw or suffer to be thrown from his land into either of said ponds, or upon any of said flats or marshes, any dead, decaying, unwholesome or offensive animal or vegetable substances.

AYER'S SARSAPARILLA,

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake with the iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they disorder, and who a sufferer they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are thus discharged, they produce disappearance, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

OBSTACLES TO MARRIAGE REMOVED.

Happy Relief to Young Men from the effects of errors and abuses in early life. Manhood Restored. Impediments to Marriage removed. New method of treatment. New and remarkable remedies. Books and circulars sent free in sealed envelopes. Address HOWARD ASSOCIATION, 410 N. Ninth St., Philadelphia, Pa. An Institution having a high reputation for honorable conduct and professional skill.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color.

It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or auburn to a handsome shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

A Man Under the Bed.

One of the most striking characteristics of woman is her cheerful perseverance of looking under the bed for a man. No man in his senses ever looks under the bed for a woman, but there are millions of women in this country who would find it quite impossible to sleep in any bed under which they had not previously looked for a concealed man. Experience is lost upon them. The average unmarried women of forty years of age has usually looked under the bed at least 7500 times, without ever once finding the expected man; but she is not in the least discouraged by so long a course of failure, and it would be easy to find women of ninety years who still nightly search for the man whom they have never found.

Miss Johnson, of Evanston, will hereafter be famous as a woman whose long perseverance has been signally rewarded. It would be indelicate to inquire into her precise age, had she not described herself in a recent affidavit as having been born in the year 1834, and we may, therefore, take it for granted that she is at least forty-three years old. If we assume that she began to look under the bed at the age of fifteen, it follows that she has performed that ceremony more than 10,000 times. Until last Friday she never found the smallest fragment of a man under her bed, but on that eventful night her perseverance was rewarded, and the long-sought man greeted her astonished gaze.

Miss Johnson being an unmarried lady, not wholly unconnected with the milliner's trade, and full of womanly independence, resides entirely alone in a small house containing but three rooms—a kitchen, shop, and bed-room. Dogs she despises, and cats she mistrusts, while as for men, she regards them as poor creatures who may possibly have their uses in time of drought, when water must be carted from the creek, but who, as a rule, make more trouble about a house than their necks are worth. Holding these views, it naturally follows that Miss Johnson lives alone, and the cool bravery with which she locks up her house at night and seeks her solitary couch, no matter if a first class thunder-storm is in progress, has for years been the admiration of the more timid of her sex.

It was about 11 o'clock last Friday night when Miss Johnson stooped down and looked under her bed for a possible man, precisely as she had done on 10,000 previous nights. Whether she was or was not astonished at perceiving a large-sized man lying under the bed, with the back of his head toward her, will never be known, but at any rate she gave no sign of astonishment, and did not even inform the man that she saw him. On the contrary, she resumed with great deliberation the nocturnal twisting of her back hair, and even softly hummed "Hold the Fort" with as much distinctness as could be expected of a woman while holding a comb between her teeth. Her back hair being finally finished, she opened her window, turned down the lamp until it gave forth a dim and modest light, and then stepped gracefully into bed, but not to sleep.

That sagacious woman was perfectly well aware that the man under the bed, not suspecting that he had been discovered, would creep forth with a view to plunder as soon as he found that she was asleep. The bedstead stood in the corner of the room, and from the position of the man it was plain that he would creep out at the side of the bed. Miss Johnson, therefore, changed her usual manner of composing herself to rest, and lay as she subsequently expressed it, "flat as a pan-cake," with her head projected over the side of the bed at the precise locality where she expected the man to appear. For at least half an hour she lay perfectly still, watching for the man with a stealthy vigilance that would have done credit to an astute and experienced cat. Not a muscle or a hairpin of her frame moved, and her breathing was as slow and regular as that of a profound sleeper. At length the man, confident that she was asleep, softly began to worm himself from under the bed, moving after the manner prescribed by way of penalty to the original serpent of the Garden of Eden. Little did he imagine that a pair of pitiless gray eyes were waiting for the appearance of his head, while a pair of lithe and nervous hands were ready to pounce upon his ears. It was not many minutes, however, before each ear was suddenly caught in an inexorable grasp, and his head began to oscillate with remarkable speed between the floor and the edge of the bedstead.

Von Moltke himself could not have surpassed Miss Johnson's tactics. She had the man completely at her mercy, and he was as helpless as though his head were in the stocks. At first his captor maintained a grim silence, but, after she had bumped him sufficiently to ease her mind, she addressed him upon the wickedness and folly of seeking to rob her. In vain did the man protest that his motives were innocent; that he had mistaken the house, and had merely intended to take a quiet nap under his own bedstead, where the flies could not find him. Miss Johnson sternly told him that he could not make her believe any such nonsense, and that she would "let him know," and would also "show him." These threats were carried out by a renewal of the bumping process, until the man yelled for mercy so loudly that the neighbors were aroused and rushed to Miss Johnson's house with the firm conviction that a gang of burglars

had murdered that excellent woman and were quarrelling over the division of the spoils. It was not until a strong force, armed with clubs and hatchets, had recklessly entered the room, that Miss Johnson surrendered her captive, with the remark that the sooner they took themselves off the better, and that if any other man would like to lie under her bed she was entirely ready to knock a little sense into him.

Thus this intrepid woman not only defended herself with the most signal success, but she pointed out the true way to deal with a man under the bed. Most women would have tried to poke the man out with a broom, at the same time requesting him to "shoo." The result would have been to expose themselves to an attack at a very great disadvantage. Miss Johnson's plan, on the contrary, places a man under the bed entirely at the mercy of a cool and courageous woman, and those women who may at any time hereafter find a man under their respective beds, will do well to imitate her example and share her well-earned glory. —*New York Times.*

Daily Chronicle.

FRIDAY, OCTOBER 5, 1877.

Yacht's Crew Missing.

Sloop yacht Scud, of the Dorchester Squadron, was found off North Scituate (Mass.) beach on the 2d inst. under circumstances leading to the belief that her crew are all lost. The yacht was found off the "Collamore," a dangerous rock on the Scituate coast, by Mr. Elijah Pratt, a fisherman living on North Scituate Beach. On the morning mentioned Mr. Pratt saw the yacht from the shore, and from her general appearance he suspected that all was not right with the boat and her crew. Taking his boat he rowed out to the Scud, which he found nearly over the rock, with all her sails up and flapping. Her canoe was missing, and no trace of her crew could be found. Her anchor was over the bow and almost beneath her forefoot, with plenty of slack cable overboard. The anchor rested on the rock on which the boat was aground. She was leaking badly at every seam, apparently having been severely wrenched. She was floated off the rock and taken to the beach, making water rapidly during the passage. Mr. Pratt and two others with difficulty kept her afloat by hard work at the pumps. What has become of the crew is not known. The vessel's owner, Mr. Thomas R. Cooper, with John P. Hunt and Charles H. Peirce of Dorchester, started on a gunning excursion to Cat river, Scituate, Monday afternoon. They passed Minot's Ledge lighthouse about sunset on Monday, and probably struck on the Collamore at about eight o'clock in the evening. Doubtless the anchor was then thrown overboard, the first intention of the party being to remain on the rock during the night. The fact that lights were seen from the shore in the direction of the Collamore during the night leads to this conclusion. Finding that the boat was rapidly making water, the party probably started ashore in the canoe, and in the darkness the boat was overturned and the party drowned. The yacht Spite, A. C. Wheelwright, owner, on her way from Marblehead to Cohasset, on Tuesday afternoon, passed off Minot's Light what was supposed to be an overturned canoe. The crew of the Sprite endeavored to pick up the object, but a fog setting in they failed in doing so. A coat was picked up on Tuesday at Minot's Light, and two others were washed ashore on the beach at Scituate, on Wednesday.

The United States Senate.

The following roll of the Senate, showing at a glance the political classification of that body, will be of interest at this time, in view of the organization of the new Congress:

REPUBLICANS.	DEMOCRATS.
Geo. E. Spencer, Ala.	John T. Morgan, Ala.
S. W. Dorsey, Ark.	A. H. Garland, Ark.
S. B. Conover, Fla.	Chas. W. Jones, Fla.
O. P. Morton, Ind.	J. E. McDonald, Ind.
B. K. Bruce, Miss.	L. Q. C. Lamar, Miss.
Roscoe Conkling, N. Y.	Francis Kernan, N. Y.
Stanley Matthews, Ohio.	Allen G. Thurman, Ohio.
J. H. Mitchell, Oregon.	L. C. Grover, Oregon.
Donald Cameron, Pa.	W. A. Wallace, Pa.
J. B. Chaffee, Colorado.	W. W. Eaton, Conn.
H. M. Teller, Colorado.	W. H. Barnum, Conn.
W. B. Allison, Iowa.	Thos. F. Bayard, Del.
S. J. Kirkwood, Iowa.	Eli Saulsbury, Del.
John J. Ingalls, Kansas.	John B. Gordon, Ga.
P. B. Plumb, Kansas.	B. H. Hill, Ga.
Hannibal Hamlin, Me.	Thos. McCreary, Ky.
James G. Blaine, Me.	James B. Beck, Ky.
H. L. Dawes, Mass.	G. R. Dennis, Md.
G. F. Hoar, Mass.	W. A. Wayte, Md.
S. J. R. McMillan, Minn.	H. D. Armstrong, Mo.
Wm. Windom, Minn.	F. M. Cockrell, Missouri.
A. S. Paddock, Neb.	Thos. F. Randolph, N. J.
Allen Saunders, Neb.	J. R. McPherson, N. J.
John P. Jones, Nevada.	A. S. Merrimon, N. C.
Wm. Sharon, Nevada.	M. W. Ransom, N. C.
R. Wadleigh, N. H.	J. E. Bailey, Tenn.
E. H. Rollins, N. H.	J. C. Burnside, Tenn.
R. B. Anthony, R. I.	Samuel Maxey, Texas.
A. S. Burnside, R. I.	R. Coke, Texas.
George F. Edmonds, Vt.	John W. Johnston, Va.
J. S. Morrill, Vt.	R. E. Withers, Va.
T. O. Howe, Wis.	H. G. Davis, W. Va.
A. Cameron, Wis.	Frank Hereford, W. Va.
A. A. Sargent, Cal.	
R. J. Oglesby, Illinois.	
J. J. Patterson, S. C.	
T. W. Ferry, Michigan.	
Republicans.....37	Democrats.....33

INDEPENDENTS.

Newton Booth, California. David Davis, Illinois.
J. F. Christiancy, Michigan.

CONTESTED SEATS.

J. B. Eustis, Louisiana, democrat.
W. P. Kellogg, Louisiana, republican.
W. T. Spofford, Louisiana, democrat.
James Lewis, Louisiana, republican.
M. C. Butler, South Carolina, democrat.
D. T. Corbin, South Carolina, republican.

Should two democrats from Louisiana and one from South Carolina be admitted to seats the Senate would stand thirty-six democrats to thirty-seven republicans and three independents, the latter adding a balance of four. If Messrs. Booth and Christiancy are ranked as republicans, as they are, and Judge Davis as a democrat, the Senate will stand republicans thirty-nine, democrats thirty-seven. Senator Morton being too ill to attend, it virtually stands thirty-eight to thirty-seven. Hence every republican will see the necessity of being present at the commencement of the session.

An Unsavory Theatre-Goer.

Quite a panic was created Tuesday evening, the 2d, at the Academy of Music, Fall River, Mass., by the advent of a "tramp" among the audience. The Boston Theatre Company, with F. S. Chanfrau, were playing "Kit" before a large and select audience. In fact, the orchestra chairs and those of the parquet circle were crowded with the elite of the city. At about the end of the fifth act, when "Kit" and "Manuel Bond" were engaged in the bowie-knife duel, some of the audience in the front part of the theatre arose, and immediately the cry of "down front" was raised by those in the rear. The answer was soon returned that there was a skunk in the building, and a panic ensued almost equal to what a fire would cause. In the rush that ensued his skunkship became enraged, and before he could be killed he made his presence known in a manner not pleasant to those in his immediate vicinity. Many ladies had their dresses ruined, and considerable damage was done to the chairs and carpets in the theatre. At first it was supposed that his introduction was the work of some scoundrel, who thought to have some amusement not in the bills, but subsequent inquiry showed this suspicion to be incorrect, as the animal was seen on the street by a policeman about twenty minutes before he appeared in the theatre, and a gentleman who was standing at the theatre entrance saw the creature run by him and go up the stairs.

New York Democratic Convention.

The democratic State Convention of New York met at Albany on Wednesday. B. P. Hill was elected temporary chairman; and there was a struggle between the anti-Tammanyites, under John Morrissey, and the Tammany crowd under John Kelly, for the control of the convention—which would be decided by the admission of one or the other of the contesting delegations from New York city. The Morrissey men wanted the committee on credentials appointed by the chair, in which case the Tammany delegation would have been left out in the cold; Kelly and his followers wanted the committee appointed by the county delegations—and Tammany carried the day, insuring a change in State officers under any circumstances, as Tammany is opposed to the Bigelow ticket all through.

The Eastern War.

A despatch from Erzeroum, in Asia Minor, says that a great battle opened on Tuesday near Alexandropol and was proceeding at the latest accounts. The Ottomans claim the advantage, while the Russians claim to have carried the key to Mukhtar Pasha's position, annihilating his battalions and cutting off his retreat on Kars.

A despatch from Erzeroum via London, Thursday afternoon, says: "Muhktar Pasha defeated the Grand Duke Michael before Kars Wednesday, with enormous losses. Two Russian generals and thirteen subordinate officers were killed. Seven battalions were almost annihilated, and there was fearful carnage on the Turkish side, although the Turks obtained the key of the position taken Monday by Michael, and advanced lines for sharpshooters."

The Russians are keeping up an incessant artillery fire on the west side of Plevna. A war council has resolved to proceed with the regular siege, and General Todleben will place heavy ordnance on three sides of the town.

A despatch from St. Petersburg says that a terrible accident had occurred to a railway convoy which was crossing the River Don. The train contained a large number of Abchasian prisoners, who were chained together and were being transported to Siberia. Four hundred of them were lost.

A despatch from Bucharest says that the heavy cannonade is incessant against the great Turkish redoubt opposite Gravitza. A fourth line has been completed and an assault is imminent by the Roumanians upon the Turkish position.

News and Notes.

A few days ago William R. Cooper, a stock operator in San Francisco, disappeared suddenly, and it was ascertained he had forged the name of J. H. Treadwell to checks on the bank of Satbere & Co., and the National Gold and Trust Company to an amount aggregating over $50,000. Cooper is the individual who, in 1868, committed heavy forgeries on the Government while employed in the Navy Department. He married a daughter of the Government Printer Defrees, and was arrested on his wedding day and finally consigned to Moyamensing prison in Philadelphia for five years. He is supposed to have gone to New Orleans.

Dennis Donnelly, "Mollie Maguire," who has just served out a sentence of fifteen months for assaulting with intent to kill Robert Moore, an Englishman, at Raven Run, Pa., has been arrested charged with complicity in the murder of Thomas Sanger and William Wren in September, 1875, for which crime Thomas Manley was hanged with the Yost murderers, June 21st.

In the Superior Court at Portland, Wednesday, Charles H. Fabyan, a former employe of the Boston & Maine Railroad, recovered a verdict of $2076 against the company for the loss of two fingers in coupling cars.

Steamer Comfort blew up near Moundsville, Va., on the afternoon of the 2d inst. Three men were killed, two more are missing, and ten others were badly cut and scalded.

George Phelps, a resident of Robbinston, Me., while returning home from Calais, about three o'clock on the afternoon of the 2d inst., was attacked, shot in the back, and severely wounded, by a person unknown, some four miles from the city. Early in the morning of the same day, S. D. Woodcock's billiard hall was entered and robbed of a sum of money and a revolver. Deputy Sheriff Doyle was immediately employed and arrested one Frank Matthews, aged fifteen, in the vicinity of the affair. He pleaded guilty to the charge of breaking and entering the billiard hall, and was detained on suspicion that he was the person who shot Phelps. He was taken before Phelps, Wednesday morning, and identified by him as being the person who shot him. Matthews was bound over in the sum of $200 to appear at the January Court at Machias.

Steamer Magnolia, Capt. Daggett, which left Savannah Sept. 27th, for New York, foundered at sea off Cape Hatteras. All hands saved. The Magnolia was 1067 tons register, built at New York in 1852.

The forgeries of Gilman, the New York high-toned thief, are now said to amount to nearly $800,000.

A street-car depot in New York was burned on Wednesday; the loss amounts to $500,000.

The force of volunteers under Major Sturgis has had a fight with Nez Perces, lost one man killed and had several wounded, and were forced to retreat.

Gold was down to 102 3-4 on Thursday—the lowest point reached since that metal commenced to "go up" at the commencement of the rebellion.

Most Rev. James Roosevelt Bayley, Archbishop of Baltimore and Primate of the Roman Catholic Church in America, died at 10:50 o'clock Wednesday morning, in the episcopal residence in the shadow of St. Patrick's Cathedral, at Newark, N. J.

Henry Menden, assistant foreman of Harper Brothers, is missing; so are $1500. He is believed to have been foully dealt with.

The Commission to investigate the condition of the building and walls of the Interior Department report the walls entirely safe. After the building is rebuilt they will bear any weight likely to be put on them. They recommend that the roof be rebuilt with iron beams, the covering to be of copper, and as space is evidently much needed, suggest the propriety of constructing another building across the middle of the court yard, of fire-proof construction. The two court yards can then be readily roofed with iron and glass, which will make it possible to use all the lower portion of them for the storage of models, papers, etc.

On Friday, Sept. 28th, four Philadelphia boys were playing near the docks, when one was accidentally pushed into the water and drowned. The others concocted a story that he had been locked up in an unoccupied house by older boys, and the police were looking into unoccupied houses until Oct. 3d, when the body was found in the river.

Miss Wilson, a niece of Major Trainor, keeper of the Newark Bay lighthouse, saw three men capsize in the bay on Monday. She ran down the staircase and quickly unfastened a small boat, and put out to the men. She backed the little craft toward the nearest man and calling on him to climb into the stern made for the others, and rescued them.

The crops of Northern Vermont are nearly all harvested, and prove abundant beyond expectation. Although but little rain fell for more than eight months, nothing but the grass crop seemed to suffer, and that has been nearly an average. The warm and pleasant September has been very favorable for ripening the corn crop, which was never better. Potatoes are rotting in many localities, and there will not be such an overplus of tubers as was anticipated a few weeks ago. They bring at railway stations about thirty cents a bushel now.

Samuel Humphreys, indicted for burning the Lebanon Valley bridge at the time of the railroad strike, pleaded guilty at Reading, Pa., on Wednesday, and turned State's evidence, confessing that he held a lamp while a man named Smith saturated kindling wood with coal oil and set fire to it.

United States Marshal Tarrans has made a successful raid on a gang of illicit distilleries operating along the Missouri line of Arkansas, and Deputy Marshal Woodard, in charge of a posse, captured two stills, destroyed a large amount of mash, beer and raw whisky, and arrested four men. While on their way to Sharp county, where they intended to leave the prisoners under guard, preparatory to making other arrests, Woodard was attacked by twenty friends of the prisoners, but after a sharp fight, in which one of the attacking party was killed and others were wounded, he drove off the assailants and brought in his prisoners, who were committed for trial.

New Hampshire Items.

The Universalist State Convention was held in Claremont, Sept. 2d and 3d.

A burglar who attempted to enter the dwelling-house of Mrs. L. A Osborne, at Newmarket, Tuesday night, 2d inst., was confronted by a loaded revolver in the hands of the plucky woman, who, without delay, blazed away at him. The gentle burglar wheeled about and made his escape, leaving a trail of blood behind to show that the shots had taken effect.

The State Bank Commissioners report the number of savings bank now doing business in the State as sixty-seven, one less than last year, with 98,683 depositors, an increase of 1753. The deposits amount to $30,963,047, or $570,894 more than last year; the surplus is $990,479, and the guaranty fund $382,350. The loans on real estate amount to $9,575,318; on personal security, $5,001,047; investments in county, city and town bonds, $6,284,499, and in United States and State bonds, $1,776,877. There are 7456 single loans of $1000 and less, and 1013 depositors of $2000 and over. The banks paid last year $298,060 in State taxes and $103,126 for expenses.

—A rule at Wellesley forbids the presentation of gentlemen to ladies by introduction, so the dear creatures have to say, "Brother Jack, I would like to introduce you to my friend Miss Jolly, but the laws forbid."

Notice.

DR. DUTTER, having returned from Europe, will resume the practice of his profession at his Office, No. 2 Market Street, Portsmouth, N. H.

ODD FELLOWS' MUTUAL RELIEF ASSOC'N

CONCORD & PORTSMOUTH RAILROAD.

The annual meeting of the stockholders in this corporation was held at Manchester, on Thursday. The clerk having read the call for the meeting, the stockholders proceeded to the choice of directors, Messrs, Fred. Smyth of Manchester, Seth Eastman of Concord and John Stavers of Portsmouth, being a committee to receive, sort and count the votes. The committee reported after the ballot, that the whole number of votes cast was 1666, all of which were for Stephen Kenrick of Franklin, Samuel N. Bell of Manchester, Benjamin F. Martin of Manchester, Joseph B. Walker of Concord, Nathan Parker of Manchester, John J. Pickering of Portsmouth, and John J. Bell of Exeter, who were thereupon declared duly elected, and the meeting adjourned without day. The Directors subsequently organized by re-electing Hon. Stephen Kenrick President, and Col. William H. Hackett, of Portsmouth, Clerk.

"UP-RIVER" TALK.

Portsmouth people are agitating the subject of an appropriation by Congress for the removal of certain obstructions in their harbor. One or two vessels have recently gone upon the rocks down there and awakened the idea of clearing those rocks out of the way. But the CHRONICLE in "going for" the obstructions in Portsmouth harbor need not strike out this way to hit us of Dover about our "up-river" position and insignificance in creation. It needn't get mad because Dover people have been sharp enough to get the necessary appropriations for clearing out our river. Dover is a place of some importance and consequence in the world, and is growing rapidly to a more conspicuous position and influence. Portsmouth is a most excellent old town. We know all about it. We have summered and wintered there year in and year out, and no better place can be found anywhere. * * Dover has picked up wonderfully during the past few years, and there is not a city or town in the State that is growing in every material element of prosperity so rapidly and surely as Dover at the present time. * * Of course it is necessary to clear out our river for navigation, and it is just as necessary to have Portsmouth harbor and the river there clear also, for we have to sail that way to carry on our increasing commerce. So we join our Portsmouth friends in the demand for the removal of all obstructions from the river clear out to the sea.—*Dover Democrat.*

POLICE COURT.

Thursday, Oct. 4th.

Joseph Smith, a vagrant, was sent to jail for three months, costs $6.90.

Winfield Scott Prior and Eben Blaisdell, two boys, were each fined $1, costs $3.45 each, for throwing stones. There was another complaint against them, for pulling down a fence, but they got clear.

PORTSMOUTH AND VICINITY.

One of the most beautiful monuments in Harmony Grove Cemetery, is that recently erected by Mrs. James W. Emery of Brooklyn, in memory of her deceased husband. It consists of a plinth, surbase, die and capital of fine white granite, with a circular shaft of very dark granite, highly polished, surmounted by a marble statue of Faith, the whole monument being about eighteen feet in height. It is from James Shorhey's Monumental Works, near Greenwich Cemetery, Brooklyn, N. Y., and is a fine specimen of monumental architecture.

Lieutenant H. G. Ellsworth, U. S. M. C., has been ordered from the Charlestown navy yard for duty at this naval station.

The biggest peach that has found its way into town this year was brought in on the third by Capt. Geo. W. Towle, and was raised by him on his place at Newcastle. This big peach was ten inches in circumference, and weighed nine ounces. Pumpkins do not grow so big in some countries.

The Bangor *Commercial* of Wednesday says: "Hon. John H. Broughton of Portsmouth is in the city. He came to attend the sale of timber lands." We understand that Mr. Broughton made some pretty extensive investments in the line indicated, before he left that city.

For some time past the air has been thick with rumors of a great "legal suasion" movement against the liquor dealers of this city, occasioning not a little trepidation among them. The time set for the movement to commence was guessed to be Monday, October 1st; but open bars are still more common than liquor prosecutions, and the dealers are beginning to think there won't be any flood, anyway—nothing more than a shower,—and it hasn't commenced to sprinkle yet.

The game of base ball between the Granite States of this city and the Blue Stars of Rochester, at the latter place on Wednesday, resulted in a victory for the latter by a score of 26 to 20, the fielding of the Granites being very loose, but tho' batting was heavy and safe. The Blue Stars will probably play a return game on the Plains next week.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, the following communication was accepted:

To the Hon. the Mayor and Aldermen, and Common Council of the City of Portsmouth:

The undersigned would most respectfully submit

That if an "expert" could be found who could demonstrate how by a system of under-framing a chimney could be constructed, building it from the top downwards, it would probably take more than 10,000 other experts and a large show of finely spun theories to make the thing work well.

No! No! No! no matter how fair and costly the work thus far, Repent, Repent, confess, and begin the work over again by proper Rules and definitions.

Has the whole world blundered into a drainage system without first taking pains to get the "Rule," the "Principle," the "Definition?"

The first thing to be recognized is the fact that the Great Architect of the Heavens and the Earth is always ready to teach on this subject as well as on those things that pertain to our immortal life.

The next point in order is to consider why drainage or sewerage is necessary.

Ans. Only from *one* course, i.e., to obviate the difficulty and troubles arising from *surface water.*

Allow for one moment or to the extent of one spoonful that any substance where nature is such that it requires to be dealt with and disposed of *above* ground where it is *always needed* can be sat afloat, scattered, diffused through the complications of underground passages, do for mercy sake, honored gentlemen, give me a term and phraseology damnable enough to express the abominations which if carried fully out would be fatal to humanity.

Now for the Rule: If people must have cellars, we must also have drainage and sewerage, but it must be for Water *only*; all else must be disposed of above ground.

I must ask your kind consideration that I am obliged from shortness of time to give you a very rough looking document.

As in duty bound, &c.

ANDREW J. PENHALLOW.

Communication from Rev. James DeNormandie, resigning his membership in Board of Instruction, was received, and laid on table till next meeting.

J. F. Hall was granted permission to encumber State and Fleet streets for building purposes.

Request of John Nutter for gravel sidewalk on Howard street was referred to committee on streets.

Communication from Frank W. Miller in relation to South Millpond, marginal road, etc., was received and laid on the table.

City Marshal was granted leave to keep a horse in the city stable.

Deed of Frank W. Miller et al., transferring to city land taken for extension of Union street to South, for $250; and bill for work on said street, $225, were submitted, and the committee on streets reported that they had examined the street and were satisfied the work had been done as agreed. The Mayor said Mr. Webster had opened several streets and built some fine houses, and had not asked the city for any money. The report of the committee was accepted and adopted, and it was voted that the bill as presented be paid.

Voted, that Union street, from Hawthorne to South, be accepted.

Mr. Barr made a statement in regard to sprinkling streets; matter referred to the Mayor, to report.

Committee on claims reported the damage to Woodbury Locke's sleigh at $20.25. Referred back to committee, to settle.

Ald. P. D. Norton reported that notice to John Stokell & Co., to remove piggery, had not been complied with. Explanation was made that the notice was not a legal one.

Extension of drains foot of Brewster and Cabot streets was referred to committee on drains.

Position of gravel sidewalk corner of Myrtle and Dearborn streets, disposition of a tree at same place which interferes with gas light, and crosswalk in front of Moses H. Goodrich's tannery, were referred to committee on streets.

A hearing was granted on petition for road from Banfield road to Mr. Clough's residence, to take place Oct. 25th.

Ald. Perkins reported gas light corner Hanover and Fleet streets in way of teams. Referred to committee on gas lights, with power.

Ald. Coffin reported complaints of residents in Ward Three relative to the manner in which trains run over the crossing at the Creek, and requested that a gate or a flagman might be provided. [No action was taken.]

The committee to whom was referred the matter of establishment of a gate at the Green street crossing, by the railroad, reported, giving opinion of City Solicitor to effect that the statute law provides that such should be done; the report was accepted, and it was voted that the City Clerk be requested to notify the Eastern Railroad Corporation of the circumstances, and cite the statute law to them.

The committee on claims submitted the following report:

The committee on claims, in the matter of C. Dwight Hanscom's claim for damages for the breaking of a spring, beg leave further to state: That as His Honor the Mayor has seen fit to exercise his judgment in returning this bill unsigned, and therewith to attach a general censure to your committee, we desire to say that we were especially careful in making an examination of the premises, and the circumstances attending the accident, and its causes, and that we are convinced that the street at that point was in *bad* order at that time. Mr. Holmes, the Street Commissioner, told your committee that the crossing was in such condition that a team passing it at a moderate speed was liable to accident; and that as soon as his attention was called to it he had the road repaired. A member of this Board is knowing to the fact that repairs had been necessary at that point for some time. On the day we visited the spot the crossing laid by the railroad company was out of order, and the roadmaster of the Concord Railroad being in town we called his attention to the case, when he informed us that he had given orders some days before to have the repairs made there, but that he would have the planking relaid that day, which was done. His Honor states that the road was in *good condition;* your committee reiterates that it was *not* in good condition—and this is susceptible of proof. The matter of reckless driving, as insinuated, we have not been able to ascertain about; if His Honor has knowledge of it, as a *fact*, we think he is derelict in not enforcing the ordinance provided for such cases. And the triviality of a claim can never bar its justice; and your committee will look with as much care into a claim for one dollar as into one for a thousand, if submitted to them. Our reason for asking your attention to this matter at this time is that the usefulness of your committee is only to be continued by your confidence in the belief that we give you our best judgment, and make use of *facts* in finding conclusions upon bills submitted for our examination; and while too many times we may be at fault, yet we are not disposed to remain quiet under such imputations as are made by His Honor, and retain our position as committee on claims. Therefore we think this claim should not be permitted to rest as it is now, and we ask your further action upon it.

Voted, That Alderman Hoyt be empowered to sign the claim for damages of C. Dwight Hanscom.

The yeas and nays were called on this question, and all voted yes except Ald. C. W. Norton, Ald. Yeaton being absent.

There was a discussion relative to the inspection of petroleum, Mr. Rich having forbidden the sale of some as not being up to the proper standard; but no action was taken.

James D. Ayers at Jones' brewery, John Wilson at Portsmouth Bridge, Henry Dixon at Eastern Railroad, were appointed special police without pay.

The Mayor reported certain repairs needed on city building, and the matter was referred to the proper committee with power.

Petition of J. C. Butler and others for repairs of crosswalk between stores of Butler & Laighton and Jos. Pettigrew, was referred to committee on streets with power.

Committee on police were empowered to repair City Marshal's office.

Adjourned for one week.

—Deadwood papers are delivered "to any part of the city" for twenty-five cents per copy.

The Glory of Woman

is a fine set of teeth as well as a fine head of hair. How the enamel glistens after a good brushing with fragrant Sozodont! Nothing destructive to the teeth can exist on the surface or at the roots, if this vegetable antidote to corrosion is duly applied.

Spalding's Glue will mend anything except a broken heart.

ELEGANT HAIR is woman's crowning beauty. When it fades, she fades as well. While it is kept bright, her personal attractions are still maintained. By preserving the hair fresh and vigorous a youthful appearance is continued through many years. Those who grieve over their fading hair turning gray too early, should know that Ayer's Hair Vigor prevents it, and restores gray or faded hair to its natural color. It is a clear and healthful preparation, containing neither oil, dye, nor anything deleterious, and imparts to the scalp what is most needed—a sense of pleasant and delightful freedom from scurf or dandruff.—*New Berne (N. C.) Times.*

THE GREAT REMEDY FOR SORE THROAT, PULMOCINE CORDIAL is for sale at the UNION STORE, Market Street. Price 50 cents per bottle.

PERSONAL.—NOTICE IS HEREBY GIVEN that all officers and soldiers wounded, ruptured, or injured (however slightly) in the late rebellion, can obtain a pension by addressing G. KESSLER, attorney for claimants, No. 4 New Chambers Street, New York. tfeb16 78

MARRIED.

WALKER—STOVER. In this city, Sept. 26th, by George E. Hodgdon, Esq., Mr. Albert L. Walker, U. S. Marine Corps, and Miss Annie Stover, daughter of Mr. Edward Stover, of this city.

DIED.

SHAW. In Bangor, Me., Oct. 2, Lillie Shaw, youngest daughter of the late Thomas H. Shaw.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&6tsept15 78

37 A SPLENDID LINE of WINDOW CURTAINS, Cheap, At 37 Market Street.

AGENTS WANTED FOR THE Detectives of Europe and America, BEING A SELECTION OF CELEBRATED CASES IN GREAT BRITAIN, FRANCE, GERMANY, ITALY, SPAIN, RUSSIA, POLAND, EGYPT AND AMERICA.

Illustrated with 40 Full Page Engravings.

850 PAGES OCTAVO.

It is a Revelation of Struggles and Triumphs of the most renowned Detectives on the Globe for the past twenty-five years. It traces out the most noted Bank Robbers, Scientific Thieves, Lottery Men, Counterfeit Money Dealers, Pick-pockets, Sharks and Swindlers of all kinds upon the public. In this book are disclosed some of the most marked instances of diabolical vengeance, and deeplaid plans of mischief and outrage ever recorded by pen or pencil, together with *the modes by which they were traced out*, and the offending actors duly punished. This is a capital opportunity for smart and energetic men and women. The book is meeting with astonishing success. Agents are averaging from 40 to 60 orders per week. To those who apply early for Agencies, extraordinary terms will be given and exclusive territory guaranteed. For terms address

$1000 IN GOLD! To All Whom It May Concern:

The Directors of the Phosphoric Air Co. in good faith, offer the above reward, for the sworn statement of two respectable citizens of any city or town, which will prove that PHOSPHORIC AIR, the Great French Remedy, has failed to permanently cure any form of CATARRH, Asthma, Epilepsy, or any form of Nervous or Mental diseases. One month's treatment, inhaler, and instructions, sent to any part of the country on receipt of $5.00.

Inhalation is the only way in which the air passages and brain can be reached.

Phosphoric Air cures by its effects upon the circulation, which is the only way disease can be eradicated from the system.

We will be happy to give a TRIAL FREE to any who can call upon us so that they may experience its immediate beneficial effects.

Consulting Rooms of Phosphoric Air Co., 94 TREMONT STREET, BOSTON.

PORTSMOUTH Trust and Guarantee Company! Depositors Secured by a Special Deposit Fund of $100,000 as GUARANTY "Against all Possible Loss of Every Kind and Nature." The Company continues to receive sums on deposit as a "SAVINGS BANK," allowing interest therefor. The plan of this institution cannot be better exemplified than by the following extract from a communication from a prominent Bank Examiner: "I am satisfied that yours is the only true principle upon which a "Savings Bank" ought to be established and which affords *perfect security to every depositor.*" The Board of Direction is composed of the following gentlemen, viz: EZRA H. WINCHESTER, President. JEREMIAH F. HALL, Vice President. DIRECTORS. FRANK JONES, CHARLES MAIN, DANIEL MARCY, JOHN SISE, EZRA H. WINCHESTER, JEREMIAH F. HALL, WILLIAM H. HACKETT, THOMAS H. ODION, EDWIN A. PETERSON. GEORGE L. TREADWELL Treasurer. January 16, 1877

Daily Chronicle.

—The speaker who "took the floor," has been arrested for stealing lumber.

—At the settlement of the legal fight over the estate of the late Mary M. Danser, of New York, the allowances to counsel amounted to over $26,000, and this amount, the surrogate allows as "part of the expenses of the probate." The New York probate court appears to be an expensive machine.

—Col. Robert Ingersoll holds strong opinions on cookery. He says that cooking is one of the fine arts; that it takes far more sense to be an excellent cook than a tolerable lawyer; and that he is a good cook himself and has no other accomplishment of which he is so proud. The great trouble with a man cook is that he always wants a woman to wash up his dishes.

—The Paris *Gaulois* recently printed an account of a performance of Gounod's "Faust" at Boston. Marguerite (so says the *Gaulois*) was discovered—not at her spinning-wheel, but acting in the capacity of chief engineer of a sewing machine of the newest make, while at the same instant, from the dome of the theatre descended on the audience a copious shower of cards and circulars setting forth the many exceeding excellences of the machine thus introduced to the notice of a discriminating public.

Centaur Liniments.

One thing is now thoroughly established. Never since man suffered and human agencies alleviated pain has there been any thing which went so far as a pain annihilator and curative agent as the Centaur Liniments. These Liniments have within the past year cured more cases of Rheumatism, Neuralgia, Stiff Joints, Caked Breasts, Swellings, Poisonous Bites, Burns, Lame Animals, etc., etc., than all other remedies combined. As the name of Centaur implies half horse and half man, the Centaur Liniments are for man and beast. But not the same Liniment. The White Liniment is for man and the Yellow for horses and animals. Herein this Liniment differs from all other remedies, although some of the ingredients are alike in each. They contain the well-known Witch Hazel, Arnica, Cathartic, Rock Oil, Mentha and other powerful ingredients.

Wm. H. Hickcox, Rector of St. John's E. Church, Wakefield, Clay Co., Kansas, writes: "Many years I have been suffering from a Weak Back, caused from a sprain more than 40 years ago. I have not found any thing to relieve me until I commenced the use of Centaur Liniment. I feel it my Christian duty to inform you that by its wonderful effects I am entirely relieved of pain. January 23d, 1876."

Messrs. J. McClure & Co., Druggists, Cincinnati, Ohio, say:

"Teamsters pronounce the Yellow Centaur Liniment superior to any thing they have ever used. We sell several dozen bottles per month, and the sale is steadily increasing."

These are only samples of thousands upon thousands of similar testimonials reaching us every month. All the Extracts, Embrocations, Salves and Ointments in existence are not doing one-tenth the good which is done by these admirable Centaur Liniments. For Frost-bites, Stings, Cuts, Itch, Salt Rheum, etc., there is nothing like the Centaur Liniment. White Wrapper. For Sore Throat, Ring-bone, Sweeney, Wind-Galls, Poll-evil, Scratches, etc., on horses, the Yellow Centaur Liniment is equally as good. They are certain in their effects; they are pleasant to use, they are handy and they are cheap. No family should be without Centaur Liniments. They are worth one hundred times their cost.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Castoria.

Mothers may have rest and their babies may have health, if they will use **Dr. Pitcher's Castoria** for Wind Colic, Worms, Feverishness, Sour Mouth, Croup, or Stomach Complaints. It is entirely a vegetable preparation, and contains neither mineral, morphine, nor alcohol. It is as pleasant to take as honey, neither gags nor gripes, and is superior to any remedy in existence.

Dr. E. Dimoch, of Dupont, Ohio, says:

"I am using CASTORIA in my practice with the most signal benefits and happy results, and find it a perfect substitute for Castor Oil."

This is what every one says. Many nurses in New York use the CASTORIA. It is prepared by Messrs. J. R. ROSE & CO., successors to Samuel Pitcher, M. D. (nov1

The Centaur Liniments

have created a revolution in remedies for Rheumatism, Pains, Swellings, Palsies, Burns, Scalds, Stings, etc. The White Liniment is for the human family, and the Yellow Liniment is for horses. They are certain, handy and cheap.

Castoria is certain

to operate. It does not nauseate or gripe like Castor Oil, but is pleasant to take, digests the food, regulates the bowels, cures wind colic, expels worms, and causes natural sleep. It is equally adapted to adults and infants. It contains neither Mineral, Morphine nor Alcohol. Children teething may have health, and mothers find rest, if they use Castoria. (nov1

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as Ayer's Cherry Pectoral. It has been known to the public about forty years, by a long continued series of marvellous cures, that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and gives a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

Pierce's Pleasant Purgative Pellets

SIZE OF PELLETS.

Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.

The novelty of modern Medical, Chemical, and Pharmaceutical Science. No use of any longer taking the large, repulsive, and nauseous pills, composed of cheap, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, **scarcely larger than a mustard seed,** that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each unit **Purgative Pellet** represents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in drug-shops. From their wonderful cathartic power, in comparison to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect; but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce **a most searching and thorough, yet gently and kindly operating, cathartic.**

$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any calomel or other forms of mercury, mineral poison, or injurious drug.

Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, High-colored Urine, Costiveness, Piles, and Gloomy Forebodings,** take **Dr Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **it will act upon the animal economy in a universal, not a gland or tissue escaping their sanative impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes. Recollect that for all diseases where a **Laxative, Alterative, or Purgative,** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.

They are sold by all Druggists at 25 cents a bottle.

BUFFALO, N. Y.

DR. QUAIN'S

MAGIC

CONDITION PILLS!

The Wonderful Remedy for Liver Complaint, Biliousness, Dyspepsia, Constipation, Neuralgia, Rheumatism, Headache, Kidney Complaint, Nervousness, Chills, Piles, and all diseases arising from a bad state of the Blood!

No medicine ever offered to the public has given such universal satisfaction as Dr. Quain's Magic Condition Pills. Their praises are on every tongue where their merits are known. They strike at once at the seat of disease and show their healing power almost immediately. Thousands of voluntary testimonials of their merits have been received by the agent, from those who have been cured by them, of which the following are samples:

Dyspepsia Four Years, Constipation and Inflammation of the Bowels Three Years, Confined to my Room Two Years, Pain so I Could Not Sleep Without Morphine. One Package of Dr. Quain's Condition Pills Made Me Eat Well, Sleep Well and Free from Pain, after being given up by Physicians.

WEST LEBANON, ME., Feb. 22, 1

MR. THOMAS W. LANE:—I have been sick for 3 years with Dyspepsia, and for the past three years Constipation and Inflammation of the Bowels, have suffered much and could endure and live. have been confined to my room for two years, and could not sleep nights without the use of morphine. I have been given up by physicians as past cure. I have taken one package of DR. QUAIN'S CONDITION PILLS, and they have done me more good than all the doctors I have had. I sleep well, I eat well and have no pain. They are all they are recommended to be. Please send me two packages, as two of my neighbors wish to try them. I enclose $1.50.

Your truly, JOHN W. LORD.

Another Letter from May, John W. Lord, one month later Wonderful Cures by Dr. Quain's Pills Effected on Him in Thirteen Days. First time Free from Pain for Three Years.

WEST LEBANON, ME., March 22, 1875.

MR. THOMAS W. LANE:—I commenced taking DR. QUAIN'S CONDITION PILLS February 9th, and wrote you February 22d of their wonderful effect. I have continued to improve ever since. My appetite is good, and I sleep as well as I ever did in my life. I am free from pain for the first time in three years. When I was taken sick four years ago, I weighed one hundred and eighty-six pounds; I now weigh one hundred and thirty, but, as I am gaining in strength, I have hopes I shall regain my flesh this summer, by the use of the Pills. I shall continue taking them for some time to come.

Yours truly, JOHN W. LORD.

Dr. Quain's Pills the Remedy for Soldiers' Aches and Pains.

WEST LEBANON, ME., June 1, 1875.

MR. THOMAS W. LANE—*Dear Sir:*—I am now able to walk out every day, and am gaining in strength very fast, all of which is due to you as agent for the best Pills in the world. I have taken no other medicine, and my improvement has been steady since first taking DR. QUAIN'S CONDITION PILLS. They have done everything for me, and I will say to you, advertise them direct to the soldiers, for they will certainly cure them of aches and pains caused from exposure and hardship on the field. Please send me by return mail another package.

JOHN W. LORD.

Rheumatism for Twenty Years Cured by One Package of Dr. Quain's Condition Pills—"The Best Medicine in the World."

EAST ANDOVER, N. H., Dec. 10, 1875.

MR. LANE—*Dear Sir:*—As I know the value of DR. QUAIN'S CONDITION PILLS and the good they have done me, I take pleasure in giving them praise; so I send you testimonial. My father has been troubled with Rheumatism for twenty years or more, and has tried everything that could be thought of, but to no good. At times it would be so bad that he could not lift his hand to his head or do any work at all, especially in cold weather. A short time ago Lidvised him to get some of these Pills. He believed nothing in them, but I gave him the last package I had of you, as I did not need them, and he has not been as free from the Rheumatic Complaint for years. No Rheumatism, no pain. What helped him? It was DR. QUAIN'S CONDITION PILLS, the best medicine in the world. There is nothing like them. *I know it*, for I have tried them, and they are all, yes, more than they are recommended to be. Give them a fair trial and you will say so. I write this because I know the goodness of them and wish others to know the same. Some may think I am telling a big story. But remember I am not giving them half the praise they ought to have.

Yours with respect, ED. F. PEVARE

Wonderful Effect of Four Doses of Dr. Quain's Condition Pills upon Neuralgia of Twelve Years' Duration—Testimony of Rev. J. S. Patton.

DAINGERFIELD, MORRIS CO., TEXAS, Nov. 15, '75.

MR. THOMAS W. LANE—*Dear Sir:*—I have been afflicted for near twelve years with Neuralgia in the face and head. I tried all the remedies prescribed by physicians, and could only get partly relieved, also tried many patent medicines with the same result. I have been troubled in my room most all the time for eight or ten winters, and have been travelling and visiting medical springs, and I still suffered most intensely. Some physicians pronounced my case the worst and most stubborn that they had had anything to do with. One told me I could never get well; they all advised me to go South and spend the winter, and thought that was the only chance for me, and I was trying to do so when I met with DR. QUAIN'S PILLS, when through the kindness of Rev. H. M. Mathis, my attention was called to the advertisement of Dr. Quain's Magic Condition Pills. I immediately sent to you for a package. I have taken four doses and I am almost free from pain. The impression here seems to be that if your pills will cure me, they will cure anybody. I have five applications to send for the pills. Enclosed please find three dollars; send five packages to me and one to Mrs. Laura Sherrell, Sulphur Springs, Hopkins county, Texas.

Yours truly, J. S. PATTON.

Liver Complaint, Nervousness, Dropsy and Headache.

LACONIA, N. H., Jan. 29, 1875.

THOS. W. LANE—*Sir:*—I have been troubled with Bad Blood, Liver Complaint, Nervousness, Dropsy and Headache. I have taken one package of DR. QUAIN'S CONDITION PILLS. They have done me more good than all the medicine I ever took; I have taken considerable medicine within the last five years. For the nerves I think there is nothing so good as these pills. I can recommend them to all who are similarly afflicted, they have done me so much good. I think they will recommend themselves wherever they go. I shall recommend those Pills to all who need them. Please send me two packages more, one for myself and one for a lady friend of mine. Many thanks to the inventor, agent and advertiser of those Pills.

MRS. P. L. ELLIOTT.

DR. QUAIN'S MAGIC CONDITION PILLS are put up only by the AMERICAN MEDICINE CO.* Manchester, N. H., THOMAS W. LANE, Agent.

AGENT.

PULMOCINE.

BUCHMAN'S PULMOCINE CORDIAL

is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best *Pulmonary Curative* he could prescribe, after dozen years spent in experimenting with it before e was satisfied that the Materia Medica could add nothing in its favor.

Among its many ingredients are *Wild Cherry Bark, Squill Root, Liquorice Root, Blood root, &c.* It is a Blood Purifier, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the lung-trying climate of New England

PULMOCINE CORDIAL

Is a speedy and reliable Preventive and Remedy. Every Family should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred *Throat Diseases* at all times prevalent, it is the ounce of *Prevention*. Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate each. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this *Family Medicine* prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all this afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and patient's danger is past.

For Coughs,

Croup,

Diphtheria,

Asthma, etc.,

USE

Buchman's Pulmocine Cordail.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, absolutely pure and unadulterated.

CITY HEALTH REGULATIONS.

THE BOARD OF HEALTH OF THE CITY OF PORTSMOUTH call the attention of the public to the following sections of Chapter 10, of the Revised Ordinances, and invite all interested in the preservation o health in our city to aid them in the execution of their duty:

SEC. 3. All waste water or house, yards, cellars, sinks, pumps, etc., shall be conveyed by their owners or occupiers in the common sewers, or to such places as the Health Officers may direct.

SEC. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners and occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

SEC. 6. No vender of meat at the stalls shall be permitted to leave any stale meat, heads, feet or offal of any kind about their stalls or stores over night, or suffer them to be thrown into any street, lane or alley of the city. Nor shall any person be permitted to throw any offal of fish into any street, lane or alley of the city, or upon any wharf, but shall either bury them or throw them into the river beyond low water mark.

SEC. 7. If any dead animal or decaying vegetable substance, or any other nuisance, shall be found in any part of the city, the owners or occupiers of the premises where such nuisance shall be found, shall cause the same to be removed within twenty four hours after being notified so to do by one or more of the health officers.

SEC. 12. When any householder shall know that any person within his family is taken sick of the small pox, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Health Officers.

SEC. 13. When any physician shall know that any person whom he is called to visit is infected with the small pox, or any other disease dangerous to the public health, such physician shall immediately give notice thereof to the Health Officers.

SEC. 14. If any such householder or physician shall refuse or neglect to give the notice required in the preceding sections, he shall for each refusal or neglect, forfeit the sum of twenty dollars, to be recovered by either of the Health Officers in the name of the city.

SEC. 15. The Health Officers may give written notice to the owner or occupier of any building, vessel or enclosure, to remove or destroy any nuisance or other thing deemed by them on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said Health Officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, vessel or enclosure, and cause said nuisance or other thing aforesaid to be removed or destroyed.

SEC. 24. No person shall erect, keep or continue, or permit to be erected, kept or continued, upon any land occupied by him, any pen for the keeping of swine, or privy, even either of the still ponds in this city, or so placed that offensive substances therefrom shall be discharged or drained into either of said ponds or into any creek, or cove, or drain leading thereto. And no person shall construct, keep or continue any drain leading from any pen for the keeping of any swine, slaughter-house, privy vault, or other unwholesome or offensive place, into either of said ponds, or to any flat or marsh adjoining the same. And no person shall throw or suffer to be thrown from his land into either of said ponds, or upon any of said flats or marshes, any dead, decaying, unwholesome or offensive animal or vegetable substances.

AYER'S SARSAPARILLA,

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, stillingia, and Mandrake with the iodides of Potash and Iron, makes a most efficacious cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and achieve troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they disorder, and who a substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucorrhœa, arising from internal ulceration and uterine diseases, Dropsy, Dyspepsia, Scurvies and General Debility.* With their departure health returns.

An institution having a high reputation for honorable conduct and professional skill.

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color.

It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "*I consider it the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other unfashionable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

FOSTER, or at the Portsmouth *Weekly* Counting Room. Sent postpaid on receipt of price.

Portsmouth Chronicle.

Postage-Stamp Swindling.

As the time draws near for the meeting of Congress, and a probable change in the law in relation to the compensation of postmasters, the operators in postage stamps are redoubling their efforts to effect sales of their goods and secure stamps in payment. A circular has come to the Post Office Department dated as late as September 18, in which a notorious sewing machine agent, whose operations have already been published, proposes to postmasters to pay them what they have to pay the Government for sixty dollars' worth of stamps, ($24,) and throw in as a profit to them a sewing machine, thus practically giving them the machine. He boldly says: "Our Congress meets October 15, 1877, and in a few weeks they will change the postal law so as to take from you the large commission you now get, and instead pay you a small salary. Then the machine will cost you $60 cash. As time is an object now don't delay. You can get the stamps and have the trade closed before the law is changed." As a guarantee of his integrity he authorizes the postmasters to send their communications and remit their stamps through a certain national bank cashier, or to the treasurer of the city where this agent resides, thus indicating that these officials are not unwilling to lend their aid to what is no less a swindle upon the Government because there is no law to prevent. The name of the agent is not given, because there is an evident desire on his part to have his business advertised.

A Brave Engineer.

A little railroad accident occurred at the Cincinnati, Hamilton and Dayton depot on Thursday evening, which might have been serious but for the prompt action of Engineer Whalen. The theatre train was standing in the depot nearly full of passengers, and the engine detached, standing some distance in front of it, when a freight train was, by some blunder, backed down at a rapid rate directly toward the passenger train. Fortunately Billy Whalen, the engineer in charge of the engine, saw the situation, and, understanding the danger, sprang at once into his engine, which was yet detached from the passenger train, and turning on full steam, shot her ahead into the rear of the coming freight train. The shock was a terrible one. The trucks of the rear car of the freight train climbed up to the front of the engine; the head light of Whalen's locomotive was smashed and considerable other damage incurred. The bold Billy was badly shocked, but the force of the freight train was checked, and though it struck the passenger train, driving it back to the rear of the depot and shaking up the passengers at a pretty lively rate, none of them were seriously injured, for all of which they may thank the quick witted and brave Billy Whalen. Such an action requires more true heroism than is embodied in a thousand strikes. —*Cincinnati Enquirer.*

—The pupils in a school in Boston were asked to give in writing the difference between a biped and a quadruped. One boy gave the following: "A biped has two legs, and a quadruped has four legs; therefore, the difference between a biped and quadruped is two legs."

The "winter arrangement" of labor on the navy yard has gone into operation, the orders having arrived on Saturday and been promulgated on Monday. From now until further orders work will commence at 6:30 A. M. instead of seven o'clock as heretofore, and the knock-off bell will ring at 5:30 P. M. instead of six.

—Professor Swift of Rochester, N. Y., declares that curved pitching is a mathematical impossibility. A writer in the *Scientific American* joins hands with the Rochester professor, and has prepared an elaborate article, with calculations to prove his position. An expert visited Rochester, and in the presence of the learned gentleman caused a common regulation ball to curve seven feet eight inches in a distance of one hundred and twenty-seven feet.

—New Haven sporting men recently came a practical joke on a supposed green young man from Springfield. They took him out duck shooting with a gun loaded clear to the muzzle, and a decoy duck floating so naturally in the distance. Springfield, awarded the first shot, of course, as a visitor, rose up in his canoe and blazed away. The duck didn't seem to mind it much, but the visitor was fished out clutching firmly to the worthless gun. He didn't say anything, but on the way home he cut loose the game bags and the party didn't have any game supper that night, after a hard day's hunt.

—Mrs. Sawin, of Kansas, has a farm of 360 acres of prairie land. Last spring she harvested ten acres of wheat of her own plowing and sowing, and put down twenty acres more, besides some sorghum and broom corn. She is not a strong-bodied woman; on the contrary, when she began her ploughing she was so feeble that she had an easy chair at the end of her furrow, and was obliged at every second row to stop and rest. She chose this life because she had more fitness for it than for anything else that gave promise of a future for two little sons whom she desires to educate to usefulness. Her health improves, and a sheep-raiser in the neighborhood has engaged her to plough ten acres of land for him and take her pay in sheep.

Daily Chronicle.

SATURDAY, OCTOBER 6, 1877.

Washington Correspondence.

WASHINGTON, D. C., Oct. 3d.

Our faith in the invincibility of the United States troops was shaken yesterday for the time by the spead of senational reports to the effect that the commands of Shafter and Bullis had encountered a Mexican force and been pvt to flight. Sheridan's dispatch, later, rather reassured us, however. From still later details it appears that Sept. 20th Bullis crossed the Rio Grande with troops of the 6th and 10th cavalry and a few Seminole scouts, about one hundred men all told, hoping to surprise a camp of marauding Lipan Indians, just escaped across that stream with considerable plunder. But the Mexican who agreed to guide them into the enemies' camp is suspected of treachery, and when they succeeded in finding it the thieves had fled, leaving four squaws, one boy, twelve horses and two mules as the only fruits to be gobbled up by the expedition. Col. Shafter crossed three days later to assist Bullis in case he needed it, with seven companies, and was joined by that officer on the 30th, on his way back to camp. Shafter reports that quite a large Mexican force hung upon his rear for some miles, but made no actual hostile demonstration. The threatening aspect of Mexican affairs consumed the larger portion of the two hours' Cabinet session yesterday, but no conclusion was reached relative to any of the points under consideration.

Witowski, Brummer, Feltenburg, Gen. Negley and three others were called Monday in the District Criminal Court to plead to an indictment for prosecuting a fraudulent claim against the Government. Only three of the defendants—those first named—appeared, and Brummer and Feltenburg promptly pleaded guilty. The claim was for $24,705, for logs alleged to have been delivered to the military authorities in Tennessee in 1862. There is a further charge that Gen. Negley in 1874 falsely swore that the claim was just, knowing that it was false and that no such delivery of logs was ever made. Messrs. Matt Carpenter, Shellabarger, Wilson and Cook appear for defendants.

The motion for a new trial in the case of Sawyer and his alleged confederates in a raid on the Treasury, is still pending, the parties meanwhile languishing in the District jail. It is now said that Sawyer keenly feels the adverse results of the trial and is much depressed; and one doesn't have to circulate very extensively about the places of public resort here to be convinced of a pretty strong feeling of reaction in his favor. Like many other men, suddenly elevated to a conspicuous position, he is said to have lost his head, and to have been made a tool in the hands of worse men, who secured his co-operation in their numerous schemes by appealing to his gratitude on the ground of great service rendered him.

The Sioux Chiefs and sachems leave us to-day, each provided with his new overcoat, trunk and a portion of the $40 asked for; but they go, not wholly satisfied with the result of their mission, as their appeal from the fiat of removal has been unsuccessful; the keenness of their disappointment, however, will be much softened by the reflection that their enforced residence on the upper Missouri will be only of a few months duration, and that it is to be followed in the Spring by another change of location to reservations of their own choice, within certain limits. At no former visit of Chiefs to this city has public sentiment appeared so unanimous in favor of dealing justly, mercifully, even generously, with these poor creatures whose last representative will be so soon stricken down and disappear before the march of a superior race; but a review of all the facts convinces reasonable people that the President could not do otherwise than he has done in the premises. It is now certain that Sitting Bull is in Canada and intends to remain so long as it suits his convenience, and his marauding parties are carrying dismay to all the surrounding tribes. He evidently believes in subsisting his army on the country, and distributes his requisition for creature comforts with an impartial hand, among friend and enemy alike. While he declares himself for peace so long as he can have it on his own terms, he intimates his readiness to return blow for blow, whether dealt by the American or Dominion governments.

M. C's. are slowly arriving. From present appearances, any contest with Randall for the Speakership would seem almost like a fight against fate, but it now seems probable that for each of the minor positions there will be two or more competitors, who will only yield to superior force.

KNOX.

New York Democratic Convention.

The convention closed its session at the end of the second day, Thursday. Tammany Hall and the Canal Ring were too much for the Gambling Hell and Tilden's Reform. John Kelly, the Tammany Boss, and Jarvis Lord, the leader of the Canal Ring, (and the only member of the ring against whom a verdict was ever rendered—and he was never punished, possibly because he sent a man to St. Louis to work for Tilden, and gave an ox to be roasted at a Tilden barbecue,) beat Tilden's man Morrissey all out, and the renegade republicans and other "critters" nominated by Tilden last year, and elected by Tammany's counters, were remorselessly thrown overboard. Allen C. Beach, the Canal Ring candidate, was nominated for Secretary of State, by a vote of 227 to 156 for all others. For Treasurer, James Mackin had 12 votes; Ross, the present incumbent, had 126; Gurney 111; the votes were then rapidly changed and Mackin was nominated by acclamation. For Attorney-General, Schoonmaker had 225 votes, Fairchild 114, Waldo 35. F. P. Olcott was nominated for Comptroller, and Horatio Seymour, Jr., for State Engineer, by acclamation.

Steamer Massachusetts Lost.

The splendid steamer Massachusetts, of the New York and Providence Line, built about a year ago at a cost of $750,000, went ashore in the storm of Thursday night, at midnight, on Horton's Point, near Greenport, Long Island, and it is feared is a total loss. She had a large list of passengers, 200 or more, including seventy-five ladies, who were all landed in safety by boats. The report on Friday evening was that she was laying broadside to the sea, 300 feet from shore, and full of water. Her freight was strewn all along the beach. It is said her piston rod broke and stove a hole in her bottom, and Capt. Jones, her commander, ran her ashore to save his passengers; but it is more likely she drifted ashore.

News and Notes.

The yellow fever still rages at Fernandina, Fla. Nine new cases were reported on the 4th.

The Shillaber family, of which the renowned Mrs. Partington is one, held its first reunion at the old homestead in Peabody, Mass., Thursday.

Two men got into a dispute about the ownership of a claim at Central City, Dakota, on Thursday, and effectually settled the claim by killing each other.

The Boston *Post* of Friday, speaking of the missing crew of the yacht Scud, says: "The latest facts in regard to the missing yachtsmen are of a most discouraging nature, and without doubt the three men aboard when she started on her cruise are drowned. The theory that the friends of the missing men hold is, that after the boat struck they endeavored to find the leak, as the ceiling near the leak was pulled out, but, not being able to do so, and not knowing how soon the boat would sink, hastily collected their guns and ammunition and endeavored to reach the shore, but the boat being overloaded it was capsized and the men drowned. Among the known articles on board the yacht when she left Dorchester were five heavy fowling-pieces, 400 or 500 loaded shells and a large quantity of powder and shot. There were also a number of heavy coats and several blankets, and as none of these articles were found on board, the men probably took them in the boat with them. One of the coats found on the beach has been identified as belonging to Mr. Cooper. The fishing schooner Wide Awake found on Thursday afternoon the canoe, about one mile southeast of Minot's Light."

The Grand Division of the Conductors' Brotherhood of the United States has resolved that in case any brother shall engage in a strike of railway employes he shall be expelled from the order.

Base ball—Manchesters 2, Rhode Islands 1, at Providence on Thursday.

A Liverpool, Eng., paper says the harvest in Yorkshire is one of the worst that has been known for years, as there are farms after farms where the crops will not pay the rent. The French harvest is poor also and Russia is at war, so that it seems to be America's opportunity, which she is not slow to improve.

A Kansas City, Mo., special has the following: A gentleman from Lower New Mexico says the Apaches one day last week attacked a settlement of whites, killed twenty-five men and stole a number of horses. These are the same redskins who committed so much devilment last year, and Gen. Hatch, in command of the United States troops, proposes to punish them.

Michael Cunningham, a freight brakeman on the Boston & Albany Railroad, was fatally crushed while shackling cars at the Providence Railroad crossing in Boston, Wednesday evening, and the locomotive Indiana exploded in the Boston & Albany yard on the same day, killing the fireman and severely injuring the engineer.

A girl was killed by a train on the Boston & Albany Railroad at Auburndale, Mass., on Thursday. She attempted to cross the track in front of the engine. On the same day two women, in attempting to cross the Boston & Albany Railroad in Grantville, Mass., in a buggy, were struck by a train and instantly killed.

Mr. Ann Breed, of Lynn, was knocked down and robbed of $8000 in Boston on Friday, by two ruffians. One of the fellows fired three shots from a revolver, and the two drove off in a wagon which was in waiting.

Great damage from the storm of Thursday and the following night, is reported from Virginia up to Rhode Island.

Dr. Lyon Playfair, on a recent visit to Niagara Falls, fell among confidence men, to whom he handed his letter of credit on the Bank of Montreal, and was victimized to the tune of $500.

Mr. Julius D. Rhodes, a famous diver of Springville, N. Y., dived from the top of a derrick into the Niagara River, a distance of one hundred feet, a few days ago. He had intended to dive from one of the suspension bridges, but did not do so on account of a strong wind which was blowing.

In Vermont there is some talk of changing the laws regulating marriages in the State. It is suggested that they be so altered as to require the presence of the girl's parents or guardian at her marriage, if she is married before she is eighteen years old. It is also a question worthy of consideration whether it would not be better to allow only ministers to perform the marriage ceremony.

There are hundreds of men at the Black Hills who are destitute of money and unable to obtain employment. Recently twelve of them offered to draw a loaded wagon from Deadwood to Bismarck on condition of being fed on the way, and their proposition was accepted by a teamster. One man, after saying to a group that he hadn't had a good meal in three weeks, nor been able to get a day's work, and was dead broke, took a pistol from a miner's belt and shot himself through the head.

Mr. Stokes, late Secretary of the West Philadelphia Passenger Railway Company, and concerned with Morton and Huhn in the fraudulent issue of stock, has gone insane. He at least must have had a conscience.

Miss Lizzie Webber, aged thirty-five years, died in the Massachusetts General Hospital at Boston on Tuesday, 2d inst., of hydrophobia. She was bitten by a dog in July last, but experienced no trouble from the bite until a few days ago, when she suffered terrible pain. She was so violent on Tuesday, that to secure her removal to the hospital it was necessary to strap her to a board. Just before her death she became uncontrollable, and, jumping into the air, fell back lifeless. Dr. Draper made an autopsy, and pronounced it a case of hydrophobia.

According to the Columbus (Ga.) *Enquirer* one of the strangest things in the world is to find Southern planters buying tons of Northern hay, while the heavy and grevious task the whole year round is to keep the fields clear of grass.

Mr. M. W. Clark of Danville Junction, Me., secured a caribou in Canada last March. In May she gave birth to a male calf, which has grown as large as an ordinary deer. The mother is "tamer than a sheep." Mr. Clark expects to be able to breed caribou. The animal is very rare.

An important verdict was rendered in the Windham County Court in Vermont last week, against Daniel C. Carpenter and son, hotel keepers, in favor of Ophelia Snow, for permanent injuries received by being thrown from a wagon in consequence of her husband, who was driving, being drunk from liquor procured from the defendants. The accident happened three years ago and the case has been tried twice, and was sent up the first trial to the Supreme Court on some technical error. A verdict was rendered in the sum of $2008.34. Its importance as a test case of the Vermont liquor law caused a deep interest in the result.

The Eastern War.

Constantinople despatches of Oct. 4th acknowledge that the report of the day before concerning the killing of two Russian generals in Asia Minor was all gammon, and that no decisive battle has been fought before Kars or Erzeroum. There was a fight, the Russians having taken a redoubt at Great Kanilar, and the Turks having retaken it. Mukhtar Pasha claims to have slain 5000 Russians, but acknowledges his own loss to have been very heavy.

The London *News'* special from Vienna says: "Trusty reports from Berlin state that by Emperor William's special order a note has been sent to Constantinople very earnestly urging that the principles of humanity be no longer violated. The note does not exactly threaten the Turks, but leaves no doubt of the high indignation felt, and that the German Government does not intend silently and indifferently to look on."

The Russian government has contracted with ten private firms to construct pontoon bridges across the Danube at a cost of 1,750,000 roubles.

New Hampshire Items.

Warren B. Moulton of North Hampton was quite seriously injured a few days since by the accidental discharge of a gun from which he was withdrawing the load, the entire charge passing through his hand, but fortunately in such a manner that the member can be saved.

The annual parade of the Concord Fire Department took place on Thursday.

The Concord Unitarian church calls Rev. B. F. McDaniell of Exeter.

Only nine persons in Hollis are declared eligible to the High School in that place.

Colonel George S. Stevens, formerly a prominent member of the Belknap County bar, died at the asylum in Concord, Tuesday, aged 63 years.

Deacon Ezra Smith, of Vergennes, Vt., and a Mrs. Champlain, said to be his paramour, are under suspicion of having murdered the deacon's late wife by poisoning her.

Gilman, the New York forger, is connected by descent with the Gilmans of Exeter. His ancestors, like those of Morton, the Philadelphia forger, were among the staunch supporters of the revolutionary war.

At Great falls on a recent night a man and a woman were passing quietly along the street when a third person, a lady, ran up and commenced an open battle with the couple, directing her blows more particularly to the woman, who suddenly disappeared on some other street and the man walked along with—his wife.

Political.

I think Mr. Hayes' tenure is firmer than that of any President ever inaugurated in the United States. He holds his office by the judgment of the highest judicial authority in the land. Even if I thought their decision wrong, which I do not, I should bow to it as I would to any decree from the bench.—*A. H. Stevens.*

The old "Boss" is still a power in the democratic party of New York. His attacks on the anti-Tammany democrats came in just the right time to enable Tammany to control the democratic State convention.

Ex-Governor Palmer of Illinois produced a coolness in a Greenback meeting at Springfield last week. He happened to be present and was called upon for a speech. He declined at first, but finally yielded to repeated demands, and calmly proceeded to say that specie payments were inevitable, and that the sooner they were reached the better it would be for everybody.

Alex. Stephens speaks of the "outrageous folly of secession," right in the face of the wallloping Mr. Key has received for calling it a mistake,

At the Colorado election the woman suffrage amendment to the constitution was defeated. Wilbur F. Stone was elected Judge of the Supreme Court without opposition, he having been unanimously recommended by the lawyers of the State, and nominated by both parties. The town and county elections were favorable to the republicans.

The ballot is doing more than anything else to harden the women of Wyoming. Some of them are actually so lost in womanly instinct that they declare themselves older than they really are in order to get a chance to vote. Probably Wyoming is the only place on earth where such a thing ever happened.

There will be a meeting of the Reform Club at Mechanics' Hall in the evening at 7:30 o'clock. Speaking by members. An admission fee of five cents will be charged, to defray expenses.

[Communicated.]

SCHOOL REGULATIONS.

Editor of Chronicle: As some one signing himself "X. Y. Z." has seen fit to assail our "Board of Education" in your paper, I have been expecting to see an answer, and can only conceive of one reason why it has not been answerd ere this, i. e., that the article was really so weak and absurd that it condemned itself.

The first idea of the article appears to be that our schools are organized for the sole purpose of providing for the teacher, while we had always, heretofore, supposed that the scholar was the one prime object to be considered. He says "The member of the committee is naturally or ought to be most interested in the schools of his own district." It is certainly a very narrow mind that considers only his own home. Was Washington the President of Virginia, his own State, only? And how can a member of the board judge if a school is "up to the mark" if he gives his attention solely to one? By comparison is the way we always supposed a person formed an opinion. He says again, "It will not do to spread the average member over too much territory;" this is a fact, if the "average member" is such an one as some we have had in our city, who ask the geography class "Where is Pumpkin Island?" and of such we see the workings of electing the "average politician" at the polls; but thanks to some one, we know not who, for the present system, by which we can have such a board as we now have, graduates of college, old, tried teachers, etc., who know from experience what they are about.

Again: "The real objection is the want of unity." Did the old system he advocates give it us, when the City Marshal had to be called in to the meetings to keep the members of the board from fighting? Think you there is any such necessity now with gentlemen and ladies on the board, as had to be done a year or two ago under the old plan? ["The old plan worked well, why the change?"] Perhaps some of the committee were more fitted to "take in washing," etc., than to act as judges of a teacher's capacity.

He takes particular umbrage at the clause requiring applicants for teaching to be graduates of a Normal School, and gets off some very hard adjectives. The State laws say that before a man can practice medicine in our State, he shall spend time and money in preparing for the profession. Lawyers have to do the same. Even mechanics have to serve an apprenticeship, which costs time and money; but lo! the applicant for teacher, the highest and noblest calling of all, must not be required to have made any special preparation. We have had the opportunity of examining lists of questions for the examination of teachers, from Salem, Lynn, Dover and Portsmouth, pretty extensively during the past two years, and the average lawyer, doctor, minister, merchant, or even foreman in most any of our workshops, could answer a fair percentage of those questions. Now what would "X. Y. Z." think of an examination of a physician, in which questions were asked such as any average merchant might answer? Judging from what we see, we think that the average school committee man, or the average teacher of our city, for the past few years, inspires very little confidence. Why not be willing to try a change, especially when in the hands of a Board of Instruction composed of persons of the known capacity and ability of our present board? Yet we should expect opposition, for no improvement has been advocated in our midst, but some wiseacre jumps up to oppose it, for no other reason than because the idea did not originate in his fertile brain! It is unnecessary to quote instances in illustration of this subject; our eyes, our ears and our *noses* will bear witness to the truth of the assertion.

But when "X. Y. Z." comes to "filthly" he either is ignorant of the English language or else wilfully misconstrues the regulation, for it does not even insinuate that the sick teacher be decapitated, but only that an incompetent substitute shall not be placed in the chair for a time to exceed three days,—and that is altogether too long a time. We well remember a silly substitute inflicted upon us as teacher, many years ago, when in school. There now appears to be room for improvement, and competent persons appointed to carry it into effect; let us all lend our cheerful acquiescence until tested. REVILO.

POLICE COURT.

Friday, Oct. 5th.

George Parker pleaded guilty to a charge of drunkenness, and was assessed the usual $9.90, which he paid.

John Murphy was charged with drunkenness, but there was not quite sufficient evidence to induce the judge to speak of nine-ninety, and Murphy was allowed to retire from the court with his reputation as unblemished as when he entered it.

THE SHILLABER FAMILY.

The Shillabers held their first reunion in Peabody, Mass., Thursday. Charles P. Shillaber, of Brighton, delivered an address, in which he stated that the first person bearing the family name in this country was John Shillaber, who came over from England in 1699 and located in Salem, Mass. Two years later John's wife, daughter and two sons, John, Jr., and William, came over. William settled in Salem and died there, while John, Jr., settled in Peabody. Walter (John, Jr.'s, son) built a tavern in 1750, which is the same building where the reunion was held, and which is now occupied by the host of the occasion, Mr. Hardy Shillaber. From the original John Shillaber sprang all the members of the Shillaber family in America, which now embraces thirteen heads of families and fifty-five individuals. Of these heads of families, four are in California, two in this city, and seven in Massachusetts. Of the Massachusetts families, two reside in Chelsea, two in Peabody and one each in Lynn, Brighton and Worcester.

PORTSMOUTH AND VICINITY.

The Ladies' Humane Society will meet on Monday, Oct. 8th, at Mrs. Lyman's, on Austin street.

Over two inches of rain fell Thursday night. Several inches more could fall without doing much harm.

A dog belonging to Mr. Charles S. Frye was killed by the police on Friday. Cause, 'cause he had bitten a little daughter of Mr. Wm. W. Cotton.

The following officers were elected in the Temperance Reform Club, Wednesday evening: President, James Janvrin; Vice Presidents, John E. Roberts, Samuel Stringer, James R. Eaton, Charles W. Lolley, George W. Fernald, Edwin O. Randall, Charles H. Hutchins; Secretary, Joseph Pettigrew; Ticket Takers, Maurice Tobin, Benjamin Powell; Chaplain, William A. Loyne; Finance Committee, John S. Treat, Stephen W. Clarke, Thomas E. O. Marvin; Ticket Seller, Augustus Ham.

The heavy rain which fell in this region on Thursday night was our share of the extended cyclone which struck the Windward Islands of the West Indies on the 29th of September, and has been slowly travelling northward ever since, making a curve so as to strike the United States coast at Florida, following the coast line along, and leaving the coast again at Cape May on Friday, the storm centre passing along the New England shore about one hundred miles from land. All along shore to the south of us there was a heavy gale, doing great damage to vessels and towns; in New York and Pennsylvania the blow extended inland a hundred miles. We had no wind here.

The Glory of Woman

is a fine set of teeth as well as a fine head of hair. How the enamel glistens after a good brushing with fragrant Sozodont! Nothing destructive to the teeth can exist on the surface or at the roots, if this vegetable antidote to corrosion is duly applied.

Spalding's Glue will mend anything except a broken heart.

ELEGANT HAIR is woman's crowning beauty. When it fades, she fades as well. While it is kept bright, her personal attractions are still maintained. By preserving the hair fresh and vigorous a youthful appearance is continued through many years. Those who grieve over their fading hair turning gray too early, should know that Ayer's Hair Vigor prevents it, and restores gray or faded hair to its natural color. It is a clear and healthful preparation, containing neither oil, dye, nor anything deleterious, and imparts to the scalp what is most needed—a sense of pleasant and delightful freedom from scurf or dandruff.—*News Berne (N. C.) Times.*

THE GREAT REMEDY FOR SORE THROAT, PULMOCINE CORDIAL is for sale at the UNION STORE, Market Street. Price 50 cents per bottle.

PERSONAL.—NOTICE IS HEREBY GIVEN that all officers and soldiers wounded, ruptured, or injured (however slightly) in the late rebellion, can obtain a pension by addressing G. KESSLER, attorney for claimants, No. 4 New Chambers Street, New York. tfeb16'78

AGENTS WANTED

FOR THE

Detectives of Europe and America,

BEING

A SELECTION OF CELEBRATED CASES

IN GREAT BRITAIN, FRANCE, GERMANY, ITALY, SPAIN, RUSSIA, POLAND, AND UP AND AMERICA.

Illustrated with 40 Full Page Engravings.

850 PAGES OCTAVO.

It is a Revelation of Struggles and Triumphs of the most renowned Detectives on the Globe for the past Twenty-five years. It traces out the most noted Bank Robbers, Scientific Thieves, Lottery Men, Counterfeit Money Dealers, Pick-pockets, Sharks and Swindlers of all kinds upon the public. In this book are recorded some of the most startling instances of diabolical vengeance, and deepiaid plans of mischief and outrage ever conceived by pen or pencil, together with *the modes by which they were traced out*, and the offending actors duly punished. This is a capital opportunity for smart and energetic men and women. The book is meeting with astonishing success. Agents are averaging from 40 to 60 orders per week. To those who apply early for Agencies, extraordinary terms will be given and exclusive territory guaranteed. For terms address

January 16, 1877

Daily Chronicle.

—Man glories in his strength; woman glories in her hair; butter glories in both.

—Mark Twain says that he not only will not lecture this season but adds that he has reformed forever.

—An Irish marriage was recently celebrated by a torpedo explosion. At the wedding of Mr. Hamilton Dultrie of the British navy and Miss Agnes Bott, when the happy couple started for their bridal tour they were rowed across Lough Swilly in a coast-guard boat, and then, the bride having pressed an electric key connected with a torpedo which had been placed at some distance from the shore the projectile exploded transforming the dark waters of the lake into a fountain.

—An English polo club has imported thirty mustangs from Texas. We venture to say that when thirty typical Englishmen, with eye-glasses and mutton-chop whiskers, get astride of those thirty mustangs, and those thirty mustangs begin to buck, there will be a crisis which will fully test the resisting capacity of the English constitution. The Texas mustang laugheth a horse-laugh at the shaking of a spur with rowels less than three inches long, so judge how impotent will be the remonstrance, "Oh, come now; 'ang it all, this won't do, you know."—*N. Y. World.*

Centaur Liniments.

One thing is now thoroughly established. Never since man suffered and human agencies alleviated pain has there been any thing which went so far as a pain annihilator and curative agent as the Centaur Liniments. These Liniments have within the past year cured more cases of Rheumatism, Neuralgia, Stiff Joints, Caked Breasts, Swellings, Poisonous Bites, Burns, Lame Animals, etc., etc., than all other remedies combined. As the name of Centaur implies half horse and half man, the Centaur Liniments are for man and beast. But not the same Liniment. The White Liniment is for man and the Yellow for horses and animals. Herein this Liniment differs from all other remedies, although some of the ingredients are alike in each. They contain the well-known Witch Hazel, Arnica, Camphor, Rock Oil, Mentha and other powerful ingredients.

Wm. H. Hickcox, Rector of St. John's R. Church, Wakefield, Clay Co., Kansas, writes: "Many years I have been suffering from a Weak Back, caused from a sprain more than 40 years ago. I have not found any thing to relieve me until I commenced the use of Centaur Liniment. I feel it my Christian duty to inform you that by its wonderful effects I am entirely relieved of pain. January 23d, 1875."

Messrs. J. McClure & Co., Druggists, Cincinnati, Ohio, say:

"Teamsters pronounce the Yellow Centaur Liniment superior to any thing they have ever used. We sell several dozen bottles per month, and the sale is steadily increasing."

These are only samples of thousands upon thousands of similar testimonials reaching us every month. All the Extracts, Embrocations, Salves and Ointments in existence are not doing one-tenth the good which is done by these admirable Centaur Liniments. For Frost-bites, Stings, Cuts, Itch, Salt Rheum, etc., there is nothing like the Centaur Liniment. While Wrapper. For Spavin, Ring-bone, Sweeney, Wind-Galls, Poll-evil, Scratches, etc., on horses, the Yellow Centaur Liniment is equally as good. They are certain in their effects; they are pleasant to use, they are handy and they are cheap. No family should be without Centaur Liniments. They are worth one hundred times their cost.

J. B. ROSE & CO., 45 Dey St., New York.

Castoria.

Mothers may have rest and their babies may have health, if they will use **Dr. Pitcher's Castoria** for Wind Colic, Worms, Feverishness, Sour Mouth, Croup, or Stomach Complaints. It is entirely a vegetable preparation, and contains neither mineral, morphine, nor alcohol. It is as pleasant to take as honey, neither gripes nor gripes, and is superior to any remedy in existence.

Dr. E. Dimsch, of Dupont, Ohio, says:

"I am using CASTORIA in my practice with the most signal benefits and happy results, and find it a perfect substitute for Castor Oil."

This is what every one says. Many nurses in New York use the CASTORIA. It is prepared by Messrs. J. E. ROSE & Co., successors to Samuel Pitcher, M. D. tnov1

The Centaur Liniments

have created a revolution in remedies for Rheumatism, Pains, Swellings, Pains, Burns, Scalds, Stings, etc. The White Liniment is for the human family, and the Yellow Liniment is for horses. They are certain, handy and cheap.

Castoria is certain

to operate. It does not nauseate or gripe like Castor Oil, but is pleasant to take, digests the food, regulates the bowels, cures wind colic, expels worms, and causes natural sleep. It is equally adapted to adults and infants. It contains neither Mineral, Morphine nor Alcohol. Children teething may have health, and mothers find rest, if they use Castoria. tnov1

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as Ayer's Cherry Pectoral. It has been known to the public about forty years, by a long continued series of marvellous cures, that have won for it a confidence in its virtues, never equalled by any medicine. It still makes the most effectual cures of Coughs, Colds, Consumption, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of the members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

WOMAN.

By an immense practice, extending through a period of years, having within that time treated many thousand cases of those diseases peculiar to women, I have been enabled to perfect a most potent and agreeable medicine that meets the indications presented by the class of diseases with positive certainty and exactness.

To designate this natural specific compound, I have named it

Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my high appreciation of its value, based upon my own personal observation. As a close observer, I have, while witnessing its positive results in the few special diseases incident to the separate organism of woman, singled it out as **the climax or crowning gem of my medical career.** On its merits, as a positive, safe, and speedy remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly and in harmony with the laws which govern the female system, I am willing to stake my reputation as a physician. Nay, even more, so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the purposes for which I recommend it, that I offer and sell it under **A POSITIVE GUARANTEE.** If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used, I will, on return of the bottle, two-thirds of the medicine having been taken according to directions, and the case being one for which I recommend it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions, but having witnessed so truly miraculous cures in thousands of cases, **I feel warranted and perfectly safe in risking both my reputation and my money on its merits.**

The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhea, Excessive Flowing, Painful Monthly Periods, Suppressions, which from unnatural causes, Irregularities, Weak Back, Prolapsus or falling of the Uterus, Anteversion and Retroversion, Bearing-down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, Female Weakness, and very many other chronic diseases incident to women not mentioned here. In all affections of this nature, our **Favorite Prescription** works cures—**the marvel of the world.** This medicine I do not extol as a cure-all, but as eminently fitted as a stringent for **this purpose,** being a most perfect specific in all chronic diseases of the peculiar nature of women. It will not disappoint, nor will it do harm to any state or condition.

Those who desire further information on these subjects can obtain it in my **PLAIN AND COMMON SENSE MEDICAL ADVISER,** a book of over 300 pages, sent, postpaid, on receipt of $1.50. It treats minutely of those diseases peculiar to females, and gives much valuable advice in regard to the management of such affections.

DR. QUAIN'S

MAGIC

CONDITION PILLS!

The Wonderful Remedy for Liver Complaint, Biliousness Dyspepsia, Constipation, Neuralgia, Rheumatism, Headache, Kidney Complaint, Nervousness, Scrofula, Piles, and all diseases arising from a bad state of the Blood!

No medicine ever offered to the public has given such universal satisfaction as Dr. Quain's Magic Condition Pills. Their praises are on every tongue where their merits are known. They strike at once at the seat of disease and show their healing power almost immediately. Thousands of voluntary testimonials of their merits have been received by the agent, from those who have been cured by them, of which the following are samples:

Dyspepsia Four Years, Constipation and Inflammation of the Bowels Three Years, Confined to my Room Two Years, Pain so I Could Not Sleep Without Morphine. One Package of Dr. Quain's Condition Pills Made Me Eat Well, Sleep Well and Free from Pain, after being given up by Physicians.

WEST LEBANON, ME., Feb. 22, 1

MR. THOMAS W. LANE:—I have been sick for 2 years with Dyspepsia, and for the past three years Constipation and inflammation of the bowels, have suffered all the pain I could endure and live. have been confined to my room for two years, and could not sleep nights without the use of morphine, I have been given up by physicians as past cure. I have taken one package of DR. QUAIN'S CONDITION PILLS, and they have done me more good than all the doctors I have had. I sleep well, I eat well and have no pain. They are all they are recommended to be. Please send me three packages, as two of my neighbors wish to take them. I enclose $1.50.

Your truly, JOHN W. LORD.

Another Letter from May, John W. Lord, one month later Wonderful Cures by Dr. Quain's Pills Effected on Him in Thirteen Days. First time Free from Pain for Three Years.

WEST LEBANON, ME., March 22, 1875

MR. THOMAS W. LANE:—I commenced taking DR. QUAIN'S CONDITION PILLS February 9th, and wrote you February 23d of their wonderful effect. I have continued to improve ever since. My appetite is good, and I sleep as well as I ever did in my life. I am free from pain for the first time in three years. When I was taken sick four years ago I weighed one hundred and eighty-six pounds; I now weigh one hundred and two, and I am gaining in strength, I have faith I shall regain my flesh this summer, by the use of the Pills. I shal continue taking them for some time to come.

Yours truly, JOHN W. LORD.

Dr. Quain's Pills the Remedy for Soldiers' Aches and Pains.

WEST LEBANON, ME., June 1, 1875.

MR. THOMAS W. LANE—*Dear Sir:*—I am now able to walk out every day, and am gaining in strength very fast, all of which is due to you as agent for the best Pills in the world. I have taken no other medicine, and my improvement has been steady since first taking DR. QUAIN'S CONDITION PILLS. They have done everything for me, and I will say to you, advertise them direct to the soldiers, for they will certainly cure them of aches and pains caused from exposure and hardship on the field. Please send me by return mail another package.

JOHN W. LORD.

Rheumatism for Twenty Years Cured by One Package of Dr. Quain's Condition Pills—"The Best Medicine in the World."

EAST ANDOVER, N. H., Dec. 10, 1875.

MR. LANE—*Dear Sir:*—As I know the value of DR. QUAIN'S CONDITION PILLS and the good they have done me, I take pleasure in giving them praise; so I send you another testimonial. My father has been troubled with Rheumatism for twenty years or more, and has tried everything that could be thought of, but to no good. At times it would be so bad that he could not lift his hand to his head or do any work at all, especially in cold weather. A short time ago I advised him to get one of these Pills. He believed nothing in them, but I gave him the last package I had of you, as I did not need them, and he has not been so free from the Rheumatic Complaint for years. No Rheumatism, no pain. What helped him? It was DR. QUAIN'S CONDITION PILLS, the best medicine in the world. There is nothing like them. I know it, for I have tried them, and they are all, yes, more than they are recommended to be. Give them a fair trial and you will say so. I write this because I know the goodness of them and wish others to know the same. Some may think I am telling a big story I am. But remember I am not giving them half the praise they ought to have.

Yours with respect ED. P. PEVARE

Wonderful Effect of Four Doses of Dr. Quain's Condition Pills upon Neuralgia of Twelve Years' Duration—Testimony of Rev. J. S. Patton.

DAINGERFIELD, MORRIS CO., TEXAS, Nov. 15, '75.

MR. THOMAS W. LANE—*Dear Sir:*—I have been afflicted for near twelve years with Neuralgia in the face and head. I tried I do not know how many physicians, and spent much money, but partly relieved. I also tried many patent medicines with the same result. I have been confined to my room most all the time during the winter for twenty years traveling and visiting medical springs, and I still suffered most intensely. The physicians pronounced my case the worst and most stubborn that they had had anything to do with. One told me I could never get well; they all advised me to go South and spend the winter, and thought that was the only chance for me, and I was trying to get ready to go to Florida, when through the Rev. J. M. Bell, my attention was called to the advertisement of Dr. Quain's Magic Condition Pills. I immediately sent to you for a package. I have taken four doses and I am almost free from pain. The impression here seems to be that if your pills will cure me, they will cure anybody. I have five applications to send for the pills. Enclosed please find three dollars; send five packages to me and one to Mrs. J. J. Patton, Sulphur Springs, Hopkins county, Texas.

Yours truly, J. S. PATTON.

Liver Complaint, Nervousness, Dropsy and Headache.

LACONIA, N. H., Jan. 29, 1875.

THOS. W. LANE—*Sir:*—I have been troubled with Bad Blood, Liver Complaint, Nervousness, Dropsy and Headache. I have taken one package of DR. QUAIN'S CONDITION PILLS. They have done me more good than all the medicine I ever took; I have taken considerable medicine within the last five years. For the nerves I think there is nothing so good as these pills. I can recommend them to all who are similarly afflicted, they have done me so much good. I think they will recommend themselves wherever they go. I shall recommend those Pills to all who need them. Please send me three packages more, one for myself and one for a lady friend of mine. Make out to the inventor, agent and advertiser of those Pills.

MRS. P. L. ELLIOTT.

PULMOCINE.

BUCHMAN'S PULMOCINE CORDIAL

is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best *Pulmonary Curative* as could prescribe, after dozen years spent in experimenting with it before he was satisfied that the Materia Medica could add nothing in its favor.

Among its many ingredients are *Wild Cherry Bark, Squill Root, Liquorice Root, Blood root, &c.* It is a Blood Purifier, gently stimulating. It increases expectoration and is diuretic. It is soothing and alterative. It is a necessary family medicine. It is a Tonic and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the luxuriating climate of New England.

PULMOCINE CORDIAL

is a speedy and reliable Preventive and Remedy. Every Family should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred *Throat Diseases* at all times prevalent, it is the ounce of *Prevention.* Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate each. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this *Family Medicine* prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all this afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and patient's danger is past.

For Coughs,

Croup,

Diphtheria,

Asthma, etc.,

USE

Buchman's Pulmocine Cordial.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, absolutely pure and unadulterated.

R. H. EDDY, Solicitor of Patents,

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON,
Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, OCTOBER 19, 1870.

R. H. EDDY, ESQ.—Dear Sir: You procured for me, in 1840, my first patents. Since then you have acted for and advised me in hundreds of cases, and procured extensions, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you.

Yours truly, GEORGE DRAPER.

BOSTON, January 1, 1877. 3tawlan1 75

AMERICAN & FOREIGN PATENTS

[ESTABLISHED 1865.]

GILMORE & CO., Successors to CHIPMAN Hosmer & Co., Solicitors. Patents procured in all countries. NO FEES IN ADVANCE. No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a rehearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. SEND STAMP TO GILMORE & CO. FOR PAMPHLET OF SIXTY PAGES.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,800,000 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and previous acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

OFFICERS, SOLDIERS and SAILORS of the late war or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All OFFICERS, SOLDIERS and SAILORS wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & CO.

Cases prosecuted by GILMORE CO. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & CO. is secured. We strive to win success by deserving it. ADDRESS

PORTSMOUTH.

CITY HEALTH REGULATIONS.

THE BOARD OF HEALTH OF THE CITY OF PORTSMOUTH call the attention of the public to the following sections of Chapter 10, of the Revised Ordinances, and invite all interested in the preservation o health in our city to aid them in the execution of their duty:

SEC. 3. All waste water of houses, yards, cellars, sinks, pumps, etc., shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

SEC. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners and occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

SEC. 6. No vender of meat at the stalls shall be permitted to leave any stale meat, heads, feet or offal of any kind about their stals or stores over night, or suffer them to be thrown into any street, lane or alley of the city. Nor shall any sellers of fish be permitted to throw any offal of fish into any street, lane or alley of the city, or upon any wharf, but shall either bury them or throw them into the river beyond low water mark.

SEC. 7. If any dead animal or decaying vegetable substance, or any other nuisance, shall be found in any part of the city, the owners or occupiers of the premises where such nuisance shall be found, shall cause the same to be removed within twenty four hours after being notified so to do by one or more of the health officers.

SEC. 12. When any householder shall know that any person within his family is taken sick of the small pox, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Health Officers.

SEC. 13. When any physician shall know that any person whom he is called to visit is infected with the small pox, or any other disease dangerous to the public health, such physician shall immediately give notice thereof to the Health Officers.

SEC. 14. If any such householder or physician shall refuse or neglect to give the notice required in the preceding sections, he shall for each refusal or neglect, forfeit the sum of twenty dollars, to be recovered by either of the Health Officers in the name of the city.

SEC. 15. The Health Officers may give written notice to the owner or occupier of any building, vessel or enclosure, to remove or destroy any nuisance or other thing deemed by them on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said Health Officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, vessel or enclosure, and cause said nuisance or other thing aforesaid to be removed or destroyed.

SEC. 21. No person shall erect, keep or continue, or permit to be erected, kept or continued, upon any land occupied by him, any pen for the keeping of swine, or privy, over either of the mill ponds in this city, or so placed that offensive substances therefrom shall be discharged or drained into either of said ponds or into any creek, or cove, or drain leading thereto. And no person shall construct, keep or continue any slaughtering pen for the keeping of any swine, slaughter-house, privy vault, or other unwholesome or offensive place, into either of said ponds, or to any flat or marsh adjoining the same. And no person shall throw or suffer to be thrown his hand into either of said ponds, or upon any of said flats or marshes, any dead, decaying, unwholesome or offensive animal or vegetable substances.

AYER'S SARSAPARILLA,
For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake with the Iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucorrhœa, arising from internal ulceration and uterine diseases, Dropsy, Dyspepsia, Exostosis and General Debility.* With these departure health returns.

PORTSMOUTH
INSURANCE AGENCY.
Established 1851.
JOHN SISE,
NO. 5 MARKET SQUARE.
is authorized Agent and Attorney for the following responsible Companies:

ÆTNA INSURANCE COMPANY,
HARTFORD, CONN.,.....Assets $7,000,000.

HARTFORD FIRE INSURANCE CO.
HARTFORD, CONN.,.....Assets $3,200,000.

HOME INSURANCE COMPANY,
NEW YORK,.....Assets $6,000,000.

FRANKLIN FIRE INSURANCE CO.,
PHILADELPHIA,.....Assets $3,300,000.

ROYAL INSURANCE COMPANY,
LIVERPOOL, ENG.,.....Assets $18,000,000 (gold.)

PENNSYLVANIA FIRE INS. CO.,
PHILADELPHIA,.....Assets $1,600,000.

Business men and owners of Property desiring every security by Insurance against loss and damages by fire, will find it for their interest to place their risks in the above companies, some of which have been represented in this vicinity for nearly fifty years.

All losses will be promptly adjusted and paid by the undersigned.

JOHN SISE,
INSURANCE AGENT,
OFFICE NO. 5 MARKET SQUARE.

HALL'S
VEGETABLE SICILIAN
HAIR
RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,
For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, *being one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

MANUFACTURED BY
R. P. HALL & CO., Nashua, N. H.
Sold by all Druggists and Dealers in Medicine. No. 5.

OBSTACLES TO MARRIAGE

Happy Relief to Young Men from the effects of errors and abuses in early life. Manhood Restored. Impediments to Marriage removed. New method of treatment. New and remarkable remedies. Books and circulars sent free in sealed envelopes. Address HOWARD ASSOCIATION, 419 N. Ninth St., Philadelphia, Pa. JOS. BILLER FOSTER,
MOSES H. GOODRICH,
JOHN H. BROUGHTON, Mayor, *Ex. Of.*

The PAMPHLET which was printed last year, containing a report of all the proceedings at the Dedication of the Park, the Addresses of Rev. Mr. DeNormandie, Hon. C. E. Woodbury and others, with a full list of the 600 Trees set, and the names of the persons or Associations who set or paid for them—may be had at 25 cents per copy, at the Bookstore of J. H. FOSTER, or at the Portsmouth *Weekly* Counting Room. Sent postpaid on receipt of price.

Portsmouth Chronicle.

The Trade Dollar.

Silver is making its way. The Trade Dollar—with two per cent. of silver in it in addition to the amount in the Dollar of the Daddies—is getting into circulation. The coinage of the Trade Dollar is free—that is, at cost, one and one-half per cent. The gold value of the unminted silver of the Trade Dollar is about ninety-five cents. So that, though a legal tender for but five dollars, the Trade Dollar, by virtue of its intrinsic value, stands within a small fraction of a level with the greenback promise—which is made lawful money—to pay gold on the 1st of January, 1879. The Trade Dollar is a safe coin. When the old standard dollar is restored, the Trade Dollar will become too valuable to circulate. In the mean time it is likely to come largely into use in place of one and two-dollar notes. The Trade Dollar is a beautiful coin, and its glitter gladdens our eyes while the ring that it gives is music to our ears. The people will not care to fumble the ragged greenbacks in preference to this magnificent money. We believe, confidently, that the next House of Representatives will, within thirty days after its organization, pass an act restoring the old silver dollar to its old lawful place, and order the coinage of fifty millions of them to begin with; and we do not doubt that the Senate will be found to have a majority of silver men. The President will, there is no doubt whatever, sign the bill, the sum o which will be the restoration of the Double Standard and of the old bi-metallic money basis. The people may make up their minds to this. Silver is already rising, in anticipation of the remonetization of the metal in America. As the inevitable action of Congress becomes known to the world, the appreciation of silver will be accelerated. There is no result in a scientific experiment more certain than that the silver dollar of 412 1-2 grains standard metal will find its level with the gold dollar—and then the Trade Dollar, 420 grains standard metal, will be at two per cent. premium above gold. It is this anticipation—the great probability of grain and the certainty that there will not be a loss—that is creating the demand for Trade Dollars. The only objection to the introduction of the Trade Dollar into circulation at this time is, that as it is not accompanied by the retirement of greenbacks, it is in the nature of inflation—but that is not a popular objection. We *could* stand a little inflation in the shape of hard dollars.—*Cincinnati Commercial.*

Supposed Relics of the Franklin Expedition.

The U. S. Consul at St. John's, N. F., informs the Department of State that he purchased of one of the crew of the New Bedford whaler "A. Houghton," wrecked in Hudson's Bay last June, one silver table spoon and one silver dessert spoon, supposed relics of the Franklin expedition. The table spoon has the letters "J. G. F." engraven thereon. On the face of the dessert spoon is the head of a fish, with a laurel wreath, and on the back the English crown and stamp. The story of the sailor is that he received these articles from an Esquimaux of Repulse Bay, who had received them from a native chief, at whose camp the white man who owned them died of scurvy while on a visit thereto.

This Cut Illustrates the Manner of Using

DR. PIERCE'S
Fountain Nasal Injector,
OR
DOUCHE.

This instrument is especially designed for the perfect application of

DR. SAGE'S CATARRH REMEDY.

It is the only form of instrument yet invented with which fluid medicine can be carried *high up* and *perfectly opposed* to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which sores and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. The want of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the ordinary methods. This obstacle in the way of effecting cures is entirely overcome by the invention of the Douche. Its use is pleasant and so simple that a child can understand it. Full and explicit directions accompany each instrument. When used with this instrument, Dr. Sage's Catarrh Remedy cures recent attacks of "Cold in the Head" by a few applications.

CATARRH

SYMPTOMS—Frequent headache, discharge falling into throat, sometimes profuse, watery, thick mucous, purulent, offensive, etc. In others, a dryness, dry, watery, weak, or inflamed eyes, stopping up, or obstruction, of nasal passages, ringing in ears, deafness, hawking and coughing to clear throat, ulcerations, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental embarrassment, loss of appetite, indigestion, enlarged tonsils, tickling cough, etc. Only a few of these symptoms are likely to be present in any case at one time.

Dr. Sage's Catarrh Remedy, when used with Dr. Pierce's Nasal Douche, and accompanied with the constitutional treatment which is recommended in the pamphlet that wraps each bottle of the Remedy, is a perfect specific for that loathsome disease. It is mild and pleasant to use, containing no strong or caustic drugs or poisons. The Catarrh Remedy is sold by all druggists. Douche at 50 cents, by all Druggists.

R. V. PIERCE, M. D., Prop'r,
BUFFALO, N. Y.

Daily Chronicle.

MONDAY, OCTOBER 8, 1877.

The Great Storm.

The storm of Thursday night was terribly destructive, both of property and life, though contrary to the usual case, most of the life was lost by disasters on the land. Near Phenixville, Pa., an excursion train from the Pennypacker family reunion ran into a wash-out and was wrecked; twelve persons, if not more, were killed, and fifty injured.

A train on the Pennsylvania Railroad was wrecked near Frenchtown, N. J., by the washing away of a bridge; the engineer and conductor of the train, and a lady passenger, are known have been drowned, and three or four persons are missing. The train was carried some distance down the stream by the flood, and those who escaped had to swim for their lives.

A train was capsized at Coatesville, Del., the engineer killed and the fireman badly scalded.

In Williamsburg, N. Y., Newark, N. J., Brooklyn, Poughkeepsie and other cities, immense damage was done. In Chester, Pa., much loss occurred from the bursting of dams; several schooners and sloops were wrecked at the mouth of Chester Creek. In Virginia the river bottoms were inundated and the crops much injured; and bridges and buildings were washed away.

In Philadelphia a sailor was washed off a wharf and drowned, and a woman was swept away, with a small bridge across which she was driving to her house.

About 200 sails of vessels, mostly wood-laden and colliers, were in Delaware Bay, and were hardly used. Ten vessels foundered at their moorings. At daylight in the morning the unfortunate crews were discovered clinging to the rigging of the sunken vessels, and were rescued at great peril by the skiffs of the pilot boats. The following is a list of vessels sunk, as far as known: schooners Babel H. Irons, Mary E. Smith, Bessie Morris, Jessie Wilson, M. A. McGahan, John E. Myers, William G. Dearborn. The heavy shipping fared badly. The Italian bark Firenz C. was driven on Cape Henlopen, and the brig Matilda, lumber laden, was totally destroyed. The schooner Rockie E. Yates, of Damariscotta, was stranded on the beach inside the harbor, and the brig Jeremiah, of Searsport, Me., lost her foremast. Many other vessels were damaged more or less by collisions, etc.

In Provincetown harbor some 200 vessels were at anchor, and several of them went ashore.

The government schooner Joseph Henry, anchored in Newport harbor, was drifted into Brenton's cove, and several yachts and small boats were sunk.

Over 174 vessels sought shelter in Biddeford Pool, and considerable damage was occasioned among them by collisions, etc. On Friday a schooner (name not given) of about forty tons, loaded with salt and fish barrels, went ashore on Phillips Rock, between Wood Island and the Pool, and will be a total wreck.

Wreck of the "Massachusetts."

The "Massachusetts" was wrecked on Rocky Point, (not Horton's Point,) Long Island, within a mile of where the steamer "Commodore" was wrecked ten years ago. The steamer "Frances" arrived at Stonington, Conn., at midnight on Friday, with the passengers from the "Massachusetts," having left the wreck at about one o'clock Friday afternoon, at which time she was fast on the rocks with the water nearly up to her main deck. The passengers thought she must go to pieces, but Capt. Waldron, of the "Frances," thought she was less damaged than reported, and that she might possibly be got off. The Providence *Journal* of Saturday morning give the following account of the loss of the vessel, gathered from the passengers:

"The Massachusetts left New York at five o'clock Thursday afternoon with about 150 passengers on board, and a large cargo of freight. The day had been stormy, and the violence of the storm increased as the boat went down the sound. By 11 o'clock a terrible gale was blowing, and it is reported that the Captain said he had lost his lights. The fog was so thick that nothing could be seen, and the whistle was blowing incessantly. About half past 11 the passengers report that the engines were stopped for a few minutes; then the boat went ahead slowly for a few minutes, and then the engine stopped again. In a minute more there was a terrible crash, quickly followed by two more. Some of the passengers were thrown from their berths by the shock, while all were terribly frightened. People poured out of their state-rooms as if they felt their time was short, and in five minutes almost every passenger had on a life-preserver and was waiting for the worst. There was, however, no confusion, and no outcries. The officers of the boat told the passengers that the boat was aground, and that there was no danger at present in the sheltered position in which the boat then lay. The violence of the gale was less severely felt, and reassured by the comforting words of the officers, most of the passengers took off the life-preservers, and some of the cooler ones went back to bed. This was about one o'clock.

Half an hour later the wind, which had been blowing from the southeast, changed to northwest, and beat upon the stranded boat with terrific force. The steamer, which lay quite steadily, began to thump heavily upon the rocks. Every sea would raise her in the air, and she would come down with awful force upon the rocks and writhe and grind until it seemed she must go to pieces. One of the passengers describes the motion of the boat as being like that of a toy serpent when set on fire. The alarm, which had partially subsided, broke out afresh. The passengers who had gone down to bed got up again in haste. The life preservers were once more put on, and there was a general expectation that the boat would immediately break up. Still the officers and passengers preserved admirable composure, although there was excuse for fear. No one knew where she was, it was so dark that absolutely nothing could be seen. The wind howled so that conversation was almost inaudible, while above all was the incessant thump and the sound of heavy grinding, which all knew was eating out the bottom of the boat. The gilding on the staterooms began to fall down, and in some of the staterooms the berths even fell to the floor, so much was the boat spread. The rods which held the chandeliers in the main saloon had snapped like pipe-stems, and pieces of the side of the boat had been broken away.

The water was rising in the forecastle, and the deckhands set to work to lighten the boat. Overboard went cotton, flour, whiskey, sugar, until half the cargo was in the sea. The other half was kept in to balance the boat. Thus the night wore away, and it was a night which the passengers will not soon forget. About four o'clock the northwester lighted up a little and a dim black line of shore could be seen. As the morning began to break it became apparent that the boat was on Long Island. She apparently struck head on and swung around until her bow pointed east. The waves were beating on the windward side so furiously that the spray dashed over the upper deck and fell on the leeward side of the boat. The boat was about 500 feet from the shore, and although she formed a breakwater the surf was running very high on the beach. Soon after daylight the position of the boat was seen from the shore, and there was a speedy gathering of the people on the beach. About six o'clock one of the steamer's boats was lowered, and some of her officers went on shore. About this time Daniel Clark put off through the surf in a dory and safely reached the steamer. He was heartily welcomed, as it proved that a boat could live in the surf, a fact that some of the passengers had been inclined to doubt."

After the "Frances" had embarked the castaways, which was done at Greenpoint, and started for Stonington, the passengers began singing Moody and Sankey hymns, and, inspired by the occasion, a prayer meeting was held on board, Rev. Mr. Haley of New Hampshire officiating, and one of the passengers states that he never enjoyed a prayer-meeting so much before in his life. Hon. Neal Dow of Maine was one of the rescued passengers, and improved the opportunity to make a temperance speech. A singular incident of the night was that when the danger was at its height and the steamer threatening to break apart every minute, a number of passengers were actually seasick, and declared, with the true unction of seasickness, that they did not care whether the boat went down or not.

News and Notes.

Steamer Constitution took fire on Friday, fifty miles from San Francisco heads. She was run in and scuttled on Mission flats, and the fire put out. She will be raised and repaired.

Over four inches of rain fell in Boston on Thursday night.

The heavy rain of Thursday night proved more disastrous to the valuable records of the Patent Office than the fire did. Had there been a man of practical common sense at the head of the department, instead of a visionary intent on showing off the paces of his pet bobby, this would have been provided against. Secretary Schurz had two weeks of fine weather between the dates of the fire and flood,—ample time for the erection of a temporary housing that would have prevented the deluging of the lower stories of the building.

At a meeting of the creditors of Frank Leslie, last week, it was decided to retain him in charge of all his publications at a stated salary, all the net profits of the papers to go to the payment of his debts.

Base ball, Friday: Manchesters 16, Rhode Islands 1; Lowells 13, Bostons 11; St. Louis 11, Cincinnatis 2; Louisvilles 4, Chicagoes 0.

Diphtheria is epidemic in Providence and Westerly, R. I., and many deaths have occurred.

A train was thrown from the track near Carbondale, Pa., by strikers who misplaced a switch, Thursday night. The engineer and fireman were killed, and a brakeman fatally injured.

The losses by the Gilman forgeries in New York are thus summed up, as far as discoveries have been made: American Exchange bank—false values, $87,320, net loss $85,000; Commercial Insurance company, $110,000, not loss $70,000; private loans $60,000, net loss $48,000; Talmage & Co., $20,000, net loss $14,000; three mining certificates, $30,000, net loss $20,000; Home Insurance company $20,000, net loss $5,000—total $327,000, net loss $242,000. To this must be added fifty-three shares of the American Exchange bank, which, it is believed, were raised ten-fold and which have been hypothecated to within twenty per cent. of their face value. This would make the gross amount of the forgeries $342,500, and the actual cash received by Gilman $247,940.

The insurance agency of Alliger Brothers of New York city has been discovered in default to a large amount with companies represented by the firm. The deficit is $150,000 or more.

Chief Justice Cartter of the Supreme Court of the District of Columbia has received a requisition from Hampton, de facto governor of South Carolina, for United States Senator J. J. Patterson. Judge Cartter, having examined the indictment against him, and the accompanying paper, it is said will issue a warrant for the Senator's arrest. A technicality, however, appears in the requisition, which may necessitate returning it to South Carolina for amendment before definite action is taken.

The wife and three sisters of Gilman, the New York forger, offer to give up all their personal fortunes, some $150,000, to secure immunity from prosecution for Gilman.

One night last week the family of ex-Gov. Cony, of Maine, living at Augusta, were startled with the noise of a fearful crash of glass. On seeking the cause they found that a partridge in flying had struck against the glass in the front door, measuring four feet by five and one-half, breaking it. The bird was killed in the crash, and the family ate a $60 dinner the next day.

A plaster cast of a tablet containing a treaty made by the Greeks in 409 B. C., and containing mention of the first political acts of Alcibiades, has just been received at Washington by the officials of the State Department. The tablet was discovered in Greece in April last, and sent to this country by Mr. Read, our Charge d' Affaires.

New Hampshire Items.

The school at Deerfield Parade has been closed on account of the prevalence of diphtheria in the town.

One day recently as Rev. E. True was making a pastoral call at Mr. James Knox's, Lebanon, his horse became detached from his fastening, and left on the direct way for home. After going some distance he seemed to feel that it would be very naughty in him to go away and leave his master to walk home, so, selecting a favorable spot to turn the carriage, he very carefully faced about (as shown by the wheel tracks) and trotted back after him, stopping at the place where he was left hitched, Mr. True knowing nothing of his absence until he saw him coming back after him.

S. W. Dearborn of Hampton has taken the contract to build the new schoolhouse at South Seabrook, for $1576.

There have been sixteen deaths in Greenland since the first of Janury last.

Mr. D. O. Leavitt, a prominent citizen of Hampton, who had always borne an excellent character, and had served the town as town clerk and representative at different times, recently decamped, after borrowing considerable amounts of money at sundry times, much of it from needy people. A bill of sale of his drug store was given to R. B. Ladd, and on the 3d inst. deputy sheriff Brown attached the goods in his grocery for J. A. & S. W. Dearborn, who hold a note against Leavit for $800 and interest. Leavitt's liabilities are already figured at from $3000 to $5000.

The New Hampshire State Teachers' Association will hold its twenty-fourth annual meeting in the City Hall, Dover, on Thursday and Friday, October 11th and 12th. The session will begin at two o'clock Thursday afternoon. Teachers, Committees, Superintendents, and all interested in Education, are cordially invited to be present and take part in the discussion.

Business Notes.

We have frequently called attention to the progress of the American beef trade with England, and the month that has just closed records the shipment of 5000 head of cattle from the port of New York, an increase of nearly a hundred per cent. upon the quantity shipped last year. This contradicts the reports that there was a falling off in this newly-established business.—*Boston Post.*

The earnings of the Western railroads for September show a very large increase, notably Northwest and St. Paul. Stocks made a considerable advance and are generally firm.

The trade circular recently issued from the Department of State and forwarded to our diplomatic and consular officers, is having a most beneficial effect in arousing those officers to renewed efforts for the enlargement of trade in their several districts. The consul at Liverpool is of the opinion that in addition to American beef a large trade can be established by the export of American poultry, alive or dead, to England. In that country the wholesale price of turkeys averages about fifteen cents per pound and chickens sixteen cents, and as the American poultry are far superior to the English, so they would sell more readily. It is contemplated by the Department of State to publish all the responses to the trade circular from our diplomatic and consular officers, and the publication will be of the highest importance to all who take any interest in American trade at home and abroad.

Rubber goods to the value of over $3,000,000 were sold at auction to the trade, in Boston last week, at satisfactory prices.

The striking miners in Pennsylvania now realize the full extent of their folly, and plead in vain for some concession from the companies. The men cannot much longer hold out against the siege of starvation, and must resume work at the old rates.

Political.

General Bob Toombs, being interviewed, asserts that the Electoral Tribunal was a device of Mr. Tilden; that the first proposition for its appointment came from Gramercy Park; that Mr. Randall, Speaker of the House, opposed a settlement in that way until he came on to New York and saw Mr. Tilden.

"Hev ye got yer arrangements all made, gineral?" said the New Jersey Hunker to Little Mac, the other day. "Certainly, sir, certainly," said the general after a thoughtful pause. "A military man can never afford to postpone things." "Lection's in November, ye know," said the New Jersey Hunker, suspiciously. "What!" said the general, hastily consulting a patent-medicine almanac. "Why, so it is, so it is! This is too soon, too soon. Orderly! address a note to David Dodd at once, telling him that we cannot possibly move before December. I am astonished at this unseemly haste. I did hope that my wishes would be respected in this matter at least."
—*Rochester Democrat.*

Good Work.

Encamped in a shallow ravine upon the plain, near the lonely place known as Buffalo Station, on the Kansas Pacific Railroad, on September 25, were Sheriff Bardsley, of Ellis county, Kansas, and thirteen United States soldiers. Late in the afternoon across the plain came riding slowly, apparently two Texan "Cow Boys." Between their horses walked a pony laden with something that, while not bulky, seemed to try its strength. The Sheriff started in pursuit, with the soldiers, and soon overtook the travellers, who, although seeing that they were pursued, made no attempt at flight. The Sheriff said: "I have a description of some train robbers which answers well to your appearance. I want you and your partner to return with me to the station. You need fear nothing if you are innocent, and if you are the men I want, then I am $10,000 better off." "You are mistaken in your men," one of the riders said, "but of course we will go back and have the mistake explained." They then turned their tired horses toward the station, but had not gone far when the man who had answered the Sheriff said to his companion: "Pard, if we are to die, we might as well die game." He then drew a revolver and his companion did likewise, but before either could fire the soldiers had riddled them with bullets and both were killed. Tied up in a pair of old trousers, on the pony's back, were $25,000 in $20 gold pieces—part of the $60,000 in gold taken by the men who robbed the Union Pacific Railroad train at Big Springs, Neb., September 19. The man who replied to the Sheriff was the leader of the robbers.

—Billy Kersands, a negro minstrel, was dragged and badly hurt in stopping a runaway horse in Petersburg, Va., but he says the incidental advertising of his business is worth the cost.

—A man who edited a paper in Texas for two years is one of the curiosities now travelling with Barnum's show. He carries thirty-seven bayonets in his body, 116 bowie-knife scars, has one eye gouged out, one ear bit off, his nose twisted around on his left cheek, all his teeth knocked out and his skull trepanned. At the time of his leaving Texas he was the veteran editor of the State press.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.*

E. G PIERCE, JR., P. M.

INSPECTION OF PETROLEUM.

The apparatus used in testing petroleum is a copper cylinder, divided into compartments. In the lower one is a spirit lamp, for heating the oil under examination; above this is a copper reservoir for holding water, and in the water is a cup (of metal or glass) for holding the oil to be tested. A thermometer is suspended from a wire in such a manner that the bulb is immersed in the oil, so as to indicate the temperature to which the oil is brought; and when the proper degree of heat is reached a lighted taper is drawn across the cup about one inch above the surface of the oil. When the gas arising from the oil flashes as the taper is drawn through it, the "flashing point" is reached; but the heat is increased until the oil itself takes fire from the taper, and the temperature then indicated is the "flaming point" of the oil. The standard varies in different States, being in this State 100 degrees Farenheit for the flashing point and 110 degrees for the flaming, while Maine demands 120 degrees as the flaming point. Thus in this State, if oil "flashes" before a temperature of 100 degrees is reached, or "flames" at less than 110 degrees, it is not merchantable.

Mr. Robert E. Rich, inspector of petroleum and its products, has made a number of tests in this city, and finding some of the oil not up to the State standard by his tests, has forbidden its sale. This naturally caused some commotion among the dealers in the prohibited oil, some of them having a large amount of it on hand, and they notified the manufacturer of the condition of affairs; and to settle the point in dispute Mr. R. F. Means, a Massachusetts State inspector of petroleum, came to this city on Saturday to test the oil in company with Mr. Rich. A sample of oil drawn from a barrel which had not stood the test was produced, and Mr. Rich made another test in presence of Mr. Means, with the same result as on the former occasion, the oil catching fire at 100 degrees. [The lowest standard for flashing being 100 degrees, no test to determine the flashing point was made until the oil reached that temperature.] Mr. Means then made a test, using a glass cup to hold the oil instead of a metal one as used by Mr. Rich, stating that glass was generally used by prominent inspectors as being a less perfect conductor of heat than metal; with this exception, Mr. Rich's apparatus was used by Mr. Means. The time occupied by Mr. Means in bringing the oil up to the requisite temperature for testing was nearly three times that taken by Mr. Rich; and under Mr. Means' test the oil flashed at 103 degrees and took fire at 110, Mr. Means stating that he could carry the flaming point up to 120 degrees, and that his method is the one employed by the United States & New York petroleum company in all their tests.

It is evident that Mr. Rich's test is the most severe, but consumers will probably not find fault with him for that. It seems to us that the different results attained by the two tests may be accounted for as follows: by raising the oil quickly to a high temperature, it is tested as it comes from the barrel and as it is to be sold—if sold at all—to consumers; while in raising the temperature slowly, time is given for the evaporation of a portion of the volatile (and explosive) part of the oil, and the flashing and flaming points of the oil are of course correspondingly raised. In other words, by a slow test a dangerous oil, or an oil not pure enough to meet the requirements of the State law, is manufactured into a perfectly safe oil that will pass the State test, during the progress of the test itself. Mr. Rich, it will not be questioned, did what he conscientiously considered his duty in condemning the oil referred to; whether he was or was not mistaken we shall not assume to decide. Mr. Dudley, of Manchester, a manufacturer of oil, is perfectly satisfied with Mr. Rich's test, and all the oil of Dudley's manufacture used in this city is tested by the city inspector at the manufacturer's expense.

We found Mr. Means willing to impart any information in his power; he gave us some very interesting details of the manner of making kerosene oil, and some suggestive hints concerning the causes of explosions. In particular, he thinks many explosions of lamps occur from their being kept on mantels over hot stoves during the day, being thus heated to a high temperature and made liable to overheating as soon as lighted in the evening.

WRECKED SOME MORE.

The brig Clara J. Adams, wrecked on the south beacon ledge in this harbor some weeks ago, floated off on Friday night, took a cruise about the harbor and went ashore again on the same ledge. The divers had patched up the holes in her bottom so that she did not make a great deal of water, and two small steam pumps were able to gain on it, a large pump procured from Boston not having been put in use. Pumping was suspended at six o'clock Friday evening, but the tide rose outside the vessel faster than it did in her, and at about eleven o'clock she floated clear of the ledge. The tide got hold of her, and three hawsers that were out—one to Peirce's island, one to Three-Tree island and one to an anchor laid out astern—parted, and away went the brig toward the navy yard. After drifting about over half an hour she swung into the eddy above the beacon and went stern foremost on to the ledge, on its north side and in shore of the beacon, and there she lies now, in a much worse position than when she was first wrecked. At low tide her fore hatch is under water, her stern being high on the rocks; and though the diver reports no new holes made in her, it will cost more to get her off than it did in the first place. There were a number of men aboard while the brig was cruising about, but they were helpless without a steamboat; and why the wreckers did not have a tug at hand is a mystery.

[Communicated.]

A GOOD THING.

A young people's association opened the season, last Thursday evening, at the North Church chapel, with exercises of more than ordinary interest. Besides good music, a lecture was given by a lady upon the progress of literature, illustrating its different epochs. An obelisk covered with hieroglyphics, interpreted by a priest of Or, represented Egyptian culture; there were Assyrian tablets, with their priestly interpreter; a scribe of the middle ages sat before his huge folios, slowly and patiently writing his book, not for the millions but for the few; the bard of the olden time, the song-singer of the castle and hall, appeared before us; Cavalier and Round-head, looking for all the world like Buckingham and Ironsides, illustrated the gay and the grave of a later day. The lecture with its illustrations was well done; clear, graphic, instructive and entertaining. I do not know whether the lady or her coadjutors would like their names called here, but I would say that such entertainments calling out the talent, taste and cultivation of our own people are pleasant, profitable and quickening for the long evenings now soon upon us.

INCHES.

THE REASON.

The *Times* of Friday copies our item about the failure of the anticipated "legal suasion" flood to overwhelm the saloon keepers, and adds: "For the information of the CHRONICLE and all whom it may concern, we would state that the monied prohibitionists who were most anxious to let the flood loose in this city, were not willing to 'come up to the scratch' when consulted by their legal man, James A. Edgerly of Great Falls, who came to this city on Monday last to complete the arrangements for making the descent,—the general plea being that their business would suffer if they showed themselves too conspicuous in pressing the cases. Mr. Edgerly complains that there is a great lack of backbone among professed temperance advocates here who should be the first with their money and voice to encourage him to prosecute, especially after they had got him so far into it as to employ a detective, secure evidence against twenty-four dealers, and make that number of writs. Thus the matter hangs; still there is no knowing what a day may bring forth."

PORTSMOUTH AND VICINITY.

Semaphore switch-signals (said to be the best invention yet) are being put up all along the line of the Eastern Railroad.

We were on Saturday shown three pears of the Duchess d'Angouleme variety, weighing together three pounds and three-quarters. They grew on a tree in the garden of Mr. W. Freeman on State street, and are the largest and fairest we ever saw that were raised in this vicinity.

Sunday last being the anniversary of Rev. E. M. Grant's pastorate at the Universalist church, the church was tastefully decorated with flowers in honor of the occasion.

The lighthouse steamer "Iris" was in the harbor on Sunday, the inspector of the district being on his regular quarterly tour of inspection.

The finest basket of large pears that we have seen for some time was on exhibition in front of the fruit store of Mr. H. C. Locke on Saturday. They were of the Duchess variety, and raised in the garden of Mr. James F. Jenness on Hanover Street.

The *Times* of Saturday says: "The CHRONICLE reports that Mr. Charles S. Frye's dog was shot yesterday by the police. But Mr. Frye's dog is alive and well to-day, and as well behaved as any o' his kind." Well, perhaps that is so; all we know about it is that the police officer who killed the dog told us he was dead, and as he had some bullet holes in his head, and was lying very quiet, we thought very likely the statement was true. The same authority informed us that the dog was Mr. Frye's, and he was generally following Mr. Frye around, whether he owned him or not. He's dead, anyway.

John S. H. Frink, Esq., of Greenland, has so far recovered from his late serious illness as to be able to ride out.

The old Ham House, at the Creek, just demolished, was occupied by the Ham family for about 200 years, and with all its uninviting exterior, has been the abode of comfort and elegant hospitality to the last. The late Robert Ham told us he had stood at the windows when a child, and seen ships launch from the present site of D. G. Norton's blacksmith shop; and we have seen boys dive off the banks there in our day. The old cellar had to this day a wide door, into which hogsheads of molasses and rum were rolled over the wharf from the good brig Sally, on her returns from the West Indies, lang syne. Mr. Asa Ham, who like his father and grandfather, and children, was born here, says the old house was built of four stories, for a brewery; and has been razeed two or three times when needing repairs. It was almost indestructible. Farewell, old hut; we could have better spared a better structure.—*Weekly.*

"Blake's New Method for the Piano-forte, a complete self-instructor, by Charles D. Blake," is published by White, Smith & Co., Boston, and sold at 75 cts. per copy. It contains, besides the elementary exercises and instructions, a large collection of waltzes, marches, etc., including many popular pieces. We have received from the same publishers "Dem good old times," plantation song and chorus by Henry Newman, "basso and warbler of the troubadour quartette (colored)," a very pretty song, well received when sung by the author in Callender's Georgia Minstrel shows.

The Glory of Woman

is a fine set of teeth as well as a fine head of hair. How the enamel glistens after a good brushing with fragrant Sozodont! Nothing destructive to the teeth can exist on the surface or at the roots, if this vegetable antidote to corrosion is duly applied.

Spalding's Glue will mend anything except a broken heart.

ELEGANT HAIR is woman's crowning beauty. When it fades, she fades as well. While it is kept bright, her personal attractions are still maintained. By preserving the hair fresh and vigorous a youthful appearance is continued through many years. Those who grieve over their failing hair turning gray too early, should know that Ayer's Hair Vigor prevents it, and restores gray or faded hair to its natural color. It is a clean and healthful preparation, containing neither oil, dye, nor anything deleterious, and imparts to the scalp what is most needed—a sense of pleasant and delightful freedom from scurf or dandruff.—*New Berne (N. C.) Times.*

To All Whom It May Concern:

The Directors of the Phosphoric Air Co. in good faith, offer the above reward, for the sworn statement of two respectable citizens of any city or town, which will prove that **PHOSPHORIC AIR, the Great French Remedy,** has fail to permanently cure any form of CATARRH, Asthma, Epilepsy, or any form of Nervous or Mental diseases. One month's treatment, Inhaler, and instructions, sent to any part of the country on receipt of $5.00.

Inhalation is the only way in which the air passages and brain can be reached.

Phosphoric Air cures by its effects upon the circulation, which is the only way disease can be eradicated from the system.

We will be happy to give a TRIAL FREE to any who can call upon us so that they may experience its immediate beneficial effects.

Consulting Rooms of Phosphoric Air Co.,

94 TREMONT STREET, BOSTON.

January 16, 1877

Daily Chronicle.

A Cruel Hoax.

A clergyman, a widower, recently created quite a sensation in his household, which consisted of seven grown-up daughters. The reverend gentleman was absent from home for a number of days, visiting in an adjoining county. The daughters received a letter from their father which stated that he had "married a widow with six sprightly children," and that he might be expected home at a certain time. The effect of that news was a great shock to the happy family. The girls, noted for their meek and amiable temperaments, seemed another set of beings; there were weeping and wailing and tearing of hair, and all manner of naughty things said. The tidy home was neglected, and when the day of arrival came, the house was anything but inviting. At last the Rev. Mr. X—— came, but he was alone. He greeted his daughters as usual, and as he viewed the neglected apartments there was a merry twinkle in his eye. The daughters were nervous and evidently anxious. At last the eldest mustered courage and asked, "Where is our mother?"

"In heaven," said the good man.

"But where is the widow with six children whom you wrote you had married?"

"Why, I married her to another man, my dears," he replied.

Centaur Liniments.

One thing is now thoroughly established. Never since man suffered and human agencies alleviated pain has there been any thing which went so far as a pain annihilator and curative agent as the Centaur Liniments. These Liniments have within the past year cured more cases of Rheumatism, Neuralgia, Stiff joints, Caked Breasts, Swellings, Poisonous Bites, Burns, Lame Animals, etc., etc., than all other remedies combined. As the name of Centaur implies half horse and half man, the Centaur Liniments are for man and beast. But not the same Liniment. The White Liniment is for man and the Yellow for horses and animals. Herein this Liniment differs from all other remedies, although some of the ingredients are alike in each. They contain the well-known Witch Hazel, Arnica, Carbolic, Rock Oil, Mentha and other powerful ingredients.

Wm. H. Hickcox, Rector of St. John's E. Church, Wakefield, Clay Co., Kansas, writes: "Many years I have been suffering from a Weak Back, caused from a sprain more than 40 years ago. I have not found any thing to relieve me until I commenced the use of Centaur Liniment. I feel it my Christian duty to inform you that by its wonderful effects I am entirely relieved of pain. January 23d, 1876."

Messrs. J. McClure & Co., Druggists, Cincinnati, Ohio, say:

"Teamsters pronounce the Yellow Centaur Liniment superior to any thing they have ever used. We sell several dozen bottles per month, and the sale is steadily increasing."

These are only samples of thousands upon thousands of similar testimonials reaching us every month. All the Extracts, Embrocations, Salves and Ointments in existence are not doing one-tenth the good which is done by these admirable Centaur Liniments. For Frost-bites, Stings, Cuts, Itch, Salt Rheum, etc., there is nothing like the Centaur Liniment, White Wrapper. For Spavin, Ring-bone, Sweeney, Wind-Galls, Poll-evil, Scratches, etc., on horses, the Yellow Centaur Liniment is equally as good. They are certain in their effects; they are pleasant to use, they are handy and they are cheap. No family should be without Centaur Liniments. They are worth one hundred times their cost.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Castoria.

Mothers may have rest and their babies may have health, if they will use **Dr. Pitcher's Castoria** for Wind Colic, Worms, Feverishness, Sour Mouth, Croup, or Stomach Complaints. It is entirely a vegetable preparation, and contains neither mineral, morphine, nor alcohol. It is as pleasant to take as honey, neither gags nor gripes, and is superior to any remedy in existence.

Dr. E. Dimock, of Dupont, Ohio, says:

"I am using CASTORIA in my practice with the most signal benefits and happy results, and find it a perfect substitute for Castor Oil."

This is what every one says. Many nurses in New York use the CASTORIA. It is prepared by Messrs. J. B. ROSE & CO., successors to Samuel Pitcher, M. D. tnov1

The Centaur Liniments

have created a revolution in remedies for Rheumatism, trains, Swellings, Pains, Burns, Scalds, Stings, to. The White Liniment is for the human family, and the Yellow Liniment is for horses. They are certain, handy and cheap.

Castoria is certain to operate. It does not nauseate or gripe like Castor Oil, but is pleasant to take, digests the food, regulates the bowels, cures wind colic, expels worms, and causes natural sleep. It is equally adapted to adults and infants. It contains neither Mineral, Morphine nor Alcohol. Children teething may have health, and mothers find rest, if they use Castoria. tnov1

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as Ayer's Cherry Pectoral. It has been known to the public about forty years, by a long continued series of marvellous cures, that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of Coughs, Colds, Consumption, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

DOCTOR PIERCE'S

ALT. ET. IVE

Golden Medical Discovery

CURES DISEASES OF THE

THROAT, LUNGS, LIVER & BLOOD.

In the wonderful medicine to which the afflicted are since directed for relief, the discoverer believes he has combined in *harmony* more of Nature's sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and through blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple, or Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.

If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, bilious heat or chills alternated with hot flashes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver,** or "**Biliousness.**" In many cases of "**Liver Complaint**" only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.

SOLD BY DRUGGISTS AT $1 PER BOTTLE.

DR. QUAIN'S

MAGIC

CONDITION PILLS!

The Wonderful Remedy for Liver Complaint, Biliousness Dyspepsia, Constipation, Neuralgia, Rheumatism, Headache, Kidney Complaint, Nervousness, Scrofula, Piles, and all diseases arising from a bad state of the Blood!

No medicine ever offered to the public has given such universal satisfaction as Dr. Quain's Magic Condition Pills. Their praises are on every tongue where their merits are known. They strike at once at the seat of disease and show their healing power almost immediately. Thousands of voluntary testimonials of their merits have been received by the agent, from those who have been cured by them, of which the following are samples:

Dyspepsia Four Years, Constipation and Inflammation of the Bowels Three Years, Confined to my Room Two Years, Pain so I Could Not Sleep Without Morphine. One Package of Dr. Quain's Condition Pills Made Me Eat Well, Sleep Well and Free from Pain, after being given up by Physicians.

WEST LEBANON, ME., Feb. 22, 1

MR. THOMAS W. LANE:—I have been sick for 2 years with Dyspepsia, and for the past three years Constipation and Inflammation of the Bowels. have suffered all the pain I could endure and live. have been confined to my room for two years, and could not sleep nights without the use of morphine. I have been given up by physicians as past cure. I have taken one package of DR. QUAIN'S CONDITION PILLS, and they have done me more good than all the doctors I have had. I sleep well, I can eat well and have no pain. They are all they are recommended to be. Please send me three packages, as two of my neighbors wish to try them. I enclose $1.50.

Your truly, JOHN W. LORD.

Another Letter from May. John W. Lord, one month later Wonderful Cures by Dr. Quain's Pills Effected on Him in Thirteen Days. First time Free from Pain for Three Years.

WEST LEBANON, ME., March 22, 1875

MR. THOMAS W. LANE:—I commenced taking DR. QUAIN'S CONDITION PILLS February 9th, and wrote you February 22d of their wonderful effect. I have continued to improve ever since. My appetite is good, and I sleep as well as I ever did in my life. I am free from pain for the first time in three years. When I was taken sick four years ago, I weighed one hundred and eighty-six pounds; I now weigh one hundred and forty; but, as I feel the vigor of health, I have faith I shall regain my flesh this summer, by the use of the Pills. I shal continue taking them for some time to come.

Yours truly, JOHN W. LORD.

Dr. Quain's Pills the Remedy for Soldiers' Aches and Pains.

WEST LEBANON, ME., June 1, 1875.

MR. THOMAS W. LANE—*Dear Sir:*—I am now able to walk out every day, and am gaining in strength very fast, all of which is due to you as agent for the best Pills in the world. I have taken no other medicine, and my improvement has been steady since first taking DR. QUAIN'S CONDITION PILLS. They have done everything for me, and I will say to you, advertise them direct to the soldiers, for they will certainly cure them of aches and pains caused from exposure and hard skip on the field. Please send me by return mail another package.

JOHN W. LORD.

Rheumatism for Twenty Years Cured by One Package of Dr. Quain's Condition Pills—"The Best Medicine in the World."

EAST ANDOVER, N. H., Dec. 10, 1875.

MR. LANE—*Dear Sir:*—As I know the value of DR. QUAIN'S CONDITION PILLS and the good they have done me, I take pleasure in giving them praise; so I send you another testimonial. My father has been troubled with Rheumatism for twenty years or more, and has tried everything that could be thought of, but to no good. At times it would be so bad that he could not lift his hand to his head or do any work at all, especially in cold weather. A short time ago I advised him to get one of these Pills. He believed nothing in them, but I gave him the last package I had of you, as I did not need them, and he has not been as free from the Rheumatic Complaint for years. No Rheumatism, no pain. What helped him? It was DR. QUAIN'S CONDITION PILLS, the best medicine in the world. There is nothing like them. *I know it,* for I have tried them, and they are all, yea, more than they are recommended to be. Give them a fair trial and you will say so. I write this because I know the goodness of them, and wish others to know the same. Some may think I am telling a big story I am. But remember I am not giving them half the praise they ought to have.

Yours with respect ED. F. PEVARE

Wonderful Effect of Four Doses of Dr. Quain's Condition Pills upon Neuralgia of Twelve Years' Duration—Testimony of Rev. J. S. Patton.

DAINGERFIELD, MORRIS CO., TEXAS, Nov. 15, '75.

MR. THOMAS W. LANE—*Dear Sir:*—I have been afflicted for near twelve years with Neuralgia in the face and head. I tried I do not know how many physicians, and could only get partial relieved. I also tried many patent medicines with the same result. I have been confined to my room most all the time for half or ten winters, and have been travelling and visiting medical springs, and I suffered most intensely. The physicians pronounced my case the worst and most stubborn that they had had anything to do with. One told me I could never get well; but my wife advised me to go South and spend the winter, and thought that was the only chance for me, and I was trying to get ready to go to Florida, when through the kindness of Rev. H. M. Mullins, my attention was called to the advertisement of Dr. Quain's Magic Condition Pills. I immediately sent to you for a package. I have taken four doses and I am almost free from pain. The impression here seems to be that if your pills will cure me, they will cure anybody. I have five applications to send for the pills. Enclosed please find three dollars; send five packages to me and one to Mrs. Laura Sherre', Sulphur Springs, Hopkins county, Texas.

Yours truly, J. S. PATTON.

Liver Complaint, Nervousness, Dropsy and Headache.

LACONIA, N. H., Jan. 29, 1875.

BROS. W. LANE—*Sir:*—I have been troubled with Bad Blood, Liver Complaint, Nervousness, Dropsy and Headache. I have taken one package of DR. QUAIN'S CONDITION PILLS. They have done me more good than all the medicine I ever took; I have taken considerable medicine within the last five years. For the nerves I think there is nothing so good as those pills. I can recommend them to all who are similarly afflicted, they have done me so much good. I think they will recommend themselves wherever they go. I shall recommend those Pills to all who need them. Please send me two packages more, one for myself and one for a lady friend of mine. Many thanks to the inventor, agent and advertiser of those Pills.

MRS. P. L. ELLIOTT.

PULMOCINE.

BUCHMAN'S PULMOCINE CORDIAL

is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best *Pulmonary Curative* as could prescribe, after dozen years spent in experimenting with it before e was satisfied that the Materia Medi ca could add nothing in its favor.

Is the ultima thule of Medical Discovery.

Among its many ingredients are *Wild Cherry Bark, Squill Root, Liquorice Root, Blood root, &c.* It is a Blood Purifier, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the lung-trying climate of New England!

PULMOCINE CORDIAL.

Is a speedy and reliable Preventive and Remedy. Every Family should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred *Throat Diseases* at all times prevalent, it is the cunce of *Prevention.* Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate each. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this *Family Medicine* prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all this afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and the patient's danger is past.

For Coughs,

Croup,

Diphtheria,

Asthma, etc.,

USE

Buchman's Pulmocine Cordail.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America, or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, absolutely pure and unadulterated.

Late Commissioner of Patents.,

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—Dear Sir: You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you.

Yours truly, GEORGE DRAPER.

BOSTON, January 1, 1877. 3tawtian17g

AMERICAN & FOREIGN PATENTS

[ESTABLISHED 1865.]

GILMORE & CO., Successors to CHIPMAN HODGES & CO., Solicitors. Patents procured in all countries. NO FEES IN ADVANCE. No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a rehearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation arising out of inventions or Patents. SEND STAMP TO GILMORE & CO. FOR PAMPHLET OF SIXTY PAGES.

Old County Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,597,560 acres of County Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

OFFICERS, SOLDIERS and SAILORS of the late war or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All OFFICERS, SOLDIERS and SAILORS wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & CO. Cases prosecuted by GILMORE & CO. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & CO. is thus secured. We desire to win success by deserving it. ADDRESS

GILMORE & CO.,

Washington, D. C.

WILLIAM B. LOWD,

PORTSMOUTH.

CITY HEALTH REGULATIONS.

THE BOARD OF HEALTH OF THE CITY OF PORTSMOUTH call the attention of the public to the following sections of Chapter 10, of the Revised Ordinances, and invite all interested in the preservation o health in our city to aid them in the execution of their duty:

SEC. 3. All waste water of houses, yards, cellars, sinks, pumps, etc., shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

SEC. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners and occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

SEC. 6. No vender of meat at the stalls shall be permitted to leave any state meat, heads, feet or offal of any kind about their stalls or stores over night, or suffer them to be thrown into any street, lane or alley of the city. Nor shall any sellers of fish be permitted to throw any offal of fish into any street, lane or alley of the city, or upon any wharf, but shall either bury them or throw them into the river beyond low water mark.

SEC. 7. If any dead animal or decaying vegetable substance, or any other nuisance, shall be found in any part of the city, the owners or occupiers of the premises where such nuisance shall be found, shall cause the same to be removed within twenty four hours after being notified so to do by one or more of the health officers.

SEC. 12. When any householder shall know that any person within his family is taken sick of the small pox, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Health Officers.

SEC. 13. When any physician shall know that any person whom he is called to visit is infected with the small pox, or any other disease dangerous to the public health, such physician shall immediately give notice thereof to the Health Officers.

SEC. 14. If any such householder or physician shall refuse or neglect to give the notice required in the preceding sections, he shall for each refusal or neglect, forfeit the sum of twenty dollars, to be recovered by either of the Health Officers in the name of the city.

SEC. 16. The Health Officers may give written notice to the owner or occupier of any building, vessel or enclosure, to remove or destroy any nuisance or other thing decomed by them on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—he said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said Health Officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, vessel or enclosure, and cause said nuisance or other thing adjudgeed to be removed or destroyed.

SEC. 21. No person shall erect, keep or continue, or permit to be erected, kept or continued, upon any land occupied by him, any pen for the keeping of swine, or privy, over either of the mill ponds in this city, or place that offensive substances therefrom shall be discharged or drained into either of said ponds or into any drain, or cove, or drain leading thereto. And no person shall construct, keep or continue any drain leading from any pen for the keeping of any swine, slaughter-house, privy vault, or other unwholesome or offensive place, into either of said ponds, or to any flat or marsh adjoining the same. And no person shall throw or suffer to be thrown his land into either of said ponds, or upon any of said flats or marshes, any dead, decaying, unwholesome or offensive animal or vegetable substances.

AYER'S SARSAPARILLA,

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, stillingia, and Mandrake with the iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they destroy. Dyspepsia and Liver Complaint are the direct results of the humors they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucorrhœa, arising from internal ulceration and uterine diseases, Dropsy, Dyspepsia, Dissolution and General Debility.* With their departure health returns.

JOHN SISE,

INSURANCE AGENT,

OFFICE NO. 5 MARKET SQUARE.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color.

It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

Woodbury and others, with a full list of the 199 Trees set, and the names of the persons or Associations who set or paid for them—may be had at 25 cents per copy, at the Bookstore of J. H. FOSTER, or at the Portsmouth *Weekly* Counting Room. Sent postpaid on receipt of price.

Portsmouth Chronicle.

Little Isaac.

Peters' history of Connecticut, published in 1781, has the following description of the tree-frog: "The tree-frog cannot be called an insect, a reptile, or one of the winged host; he has four legs, the two foremost short, with claws as sharp as those of a squirrel; the hind-legs five inches long, and folding by three joints. His body is about as big as the first joint of a man's thumb. Under his throat is a wind-bag, which assists him in singing the word I-saac all the night. When it rains, and is very dark, he sings the loudest. His voice is not so pleasing as that of the nightingale; but this would be a venial imperfection, if he would but keep silence on Saturday nights, and not forever prefer Isaac to Abraham and Jacob. He has more elasticity in his long legs than any other creature yet known. By this means he will leap five yards up a tree, fastening himself to it by his forelegs, and in a moment will hop or spring as far from one tree to another. It is from the singing of the tree-frog that the Americans have acquired the name of Little Isaac. Indeed, like a certain part of them, the creature appears very devout, noisy, arbitrary, and phlegmatic, and associates with none but what agree with him in his ways."

Shawl Pin in the Lungs.

A case of much interest in the medical profession is that of a young daughter of W. G. Corbin of Union, Conn. On the 3d of last September she swallowed a shawl pin, which was received in the left lung. For six weeks she experienced no trouble, but at the expiration of that time she had inflammation of the lungs. She was attended by the local physicians, and at length Dr. Storrs of Hartford was sent for, this being mid-winter. He advised the parents, who were of course very anxious and alarmed, to trust to the chance of the pin being coughed up, rather than have an incision made for the removal of it. This course was pursued. The child recovered her usual condition of health, nearly, and in May coughed up a portion of the pin, it having rusted in two. On the 26th of July the rest of the pin, the head piece, was likewise gotten rid of, and the child is as well as ever. She had lived for eleven long months with a shawl pin, over two inches long, in her lungs.

Tasteful to the Last.

There comes to us the story of the death of a beautiful woman of this city, whose mind was somewhat given to the contemplation of the styles. While she lay sick she was particular about color and light and the general tone of the room, and never received a visitor without a red or blue shawl thrown across one shoulder and part of the pillow, to keep her from "looking like a death's head." She didn't intend to die. "It was such a disenchanting process," she said. When it was discovered that she must die, her husband broke the news to her very gently. She was a little distressed, but not much agitated. She had only one request to make. It was: "My darling, don't let that horrid Mrs. — make my outfit. Her fits are sickening, and she overtrims terribly; besides, she will be sure to spell myrtle 'm-u-r-t-e-l' in the bill"—*Indianapolis Herald.*

—The mate of a ship—Another similar ship.

—A queer mourner at a boy's funeral in Orangeburg, Ky., the other day, was a small, pet pig. It followed its little master's remains to the grave, trotting along under the hearse some seven miles to the burial ground.

—The unspeakable Turk is doing his share of the missionary work of the world by delivering one of the greatest temperance lectures ever listened to. The endurance of the Turkish soldiers, and the facility with which they recover from the most desperate wounds, are justly attributed to their temperate habits of eating and their entire abstinence from alcoholic drinks.—*Toledo Blade.*

Daily Chronicle.

TUESDAY, OCTOBER 9, 1877.

Circuit Court of the United States.

October Term, before Shepley, J. The court came in at Exeter, on Monday forenoon.

Grand Jurors reported as follows: Wm. H. L. Brackett, Greenland; Joshua A. Lane, Hampton; John H. Gove, Hampton Falls; Milton S. Laine, Samuel Savage, Newmarket; Wm. D. Fernald, Isaiah Wilson, Wm. G. Billings, Samuel G. Hooper, Portsmouth; Samuel S. Chase, Stratham; H. P. Wingate, Bradbury Purrington, Exeter; Caas. G. Swain, Barrington; Lewis B. Laskey, John S. Hayes, Dover; William G. Langmaid, Durham; Samuel E. DeMerritt, Lee; Dearborn D. Caswell, Strafford; Orrin Batchelder, North Hampton; James W. W. Brown, Kensington; Isaiah Wilson, Esq., was appointed Foreman.

The Petit jurors in attendance are Chas. Foss, Greenland; Zaccheus Brown, Hampton; Benj. F. Weare, Hampton Falls; Albert H. Darrell, Newmarket; Levi Marston, North Hampton; Oliver Stacy, Jere. D. Goodrich, Portsmouth; John C. Hall, Barrington; James Y. DeMerritt, Lucius Everett, Dover; Wm. Tuttle, Durham; Benj. Y. Piper, Lee; Stephen Leighton, Strafford. Frank J. Philbrick and Tobias E. Burke, of Portsmouth, were excused.

At the call of the docket the action Bartlett Land & Lumber Co. *vs.* Daniel Saunders, an important case involving titles to large tracts of land on the line of the Portland & Ogdensburg Railroad, was continued; and cases Town of Franklin *vs.* Norcross, and Hutchings *vs.* the Peterboorough Railroad, were marked for the jury. There were but few counsel in attendance. Case Whitehouse *vs.* Travellers Insurance Co. was marked for trial.

First case for jury is Town of Franklin *vs.* Norcross, for damage in destroying the town's bridge over the Pemigewassett river, June 11, 1872. The damages claimed are $10,000. Pike and Barnard for the town; Hatch for the defendant.

In the suit in equity of Woodward Emery, administrator of the estate of Wm. B. Dodge, *vs.* Henry L. Dodge, which is a proceeding on the part of the creditors of the late W. B. Dodge to declare a conveyance of his farm in Hampton, made to said Henry April 22, 1871, to be void as against his creditors, the Court announced a decision that William B. Dodge was insolvent at time of the execution of the deed, April 22, 1871, that the conveyance was voluntary and without legal consideration, and was a conveyance of the said property to the respondent to be held in trust, for the benefit and to the use of the grantors and was void as against the creditors of W. B. Dodge; that the said Henry L. Dodge make and execute such conveyances as under the direction of A. R. Hatch, Esq., specially appointed as a Master in the case, shall be adequate to revest in the estate of said W. B. Dodge, subject to the claims of the creditors of said estate, all such interest in said real estate described in said deed as he derived under and by virtue of said conveyance, excepting what interest the Portsmouth Savings Bank have derived under their mortgage, their right not being prejudiced, impaired, or in any way affected or changed by the decree; and that the said Henry L. Dodge account for the nett proceeds and profits of said estate since the date of the filing of the bill, and that the cause be referred to Albert R. Hatch, Esq., to take account of the rents and profits aforesaid and prepare such instruments of conveyance as shall be necessary to carry out this decree. Emery and R. D. Smith for complainants; Frink and Butler for deft.

The Grand Jury reported in the afternoon, presenting one indictment against Nelson L. Horton of Manchester for passing a counterfeit ten dollar note on the Mutual National Bank of Troy, New York, to Clarence E. Currier. The jury were then discharged.

The case Town of Franklin *vs.* Norcross et als., is set down for trial at nine o'clock this morning, unless referred, of which there was some prospect at the adjournment in the afternoon.

The Court comes in this morning at nine o'clock.

Washington Correspondence.

WASHINGTON, D. C. Oct. 5th.

The commission to inspect the public buildings and report their liability to destruction from fire, says they are found "literal tinder boxes." The United States Observatory with its many valuable instruments is at the mercy of a chance spark; and the attic of Winder's building is crowded full with 26 Auditor's vouchers, representing over $1,900,000,000, with hardly any provision for extinguishing a fire. The War and Navy Departments, to be examined to-day, will be found, it is believed, similarly prepared, with the records of those branches of the service from the foundation of the Government, for a conflagration that would wipe them all out in one short hour. Even our magnificent Capitol, erected at a cost of more than $20,000,000, is in constant peril from the same source. It is expected an appropriation to make them all fireproof, and to secure the safety of the public archives, will be asked of the extra session, as well as one to repair or rebuild the portion of the Patent Office destroyed.

Another batch of frauds, this time in the 6th Auditor's Office. It appears that a clerk, one O'Brien, was for years in collusion with certain mail contractors; and by means of his manipulation of the books and pay accounts to which he had free access in his official capacity, double payments to them were often made. While absent on his annual leave double payments were discovered to two mail contractors, aggregating $15,000. One has made restitution and the other has promised to do so. The exact extent of O'Brien's operations are not yet publicly known. When confronted with the evidences of his guilt, he confessed.

Donn Piatt in the last issue of the *Capital* asserts that he will furnish evidence to convict Generals Ingalls and Marcy (McClellan's father-in-law) of having been bribed into recommending the Cowles and Bregg moth exterminator, by which it was folsted on the Government at a cost of thousands of dollars. Of course such insinuations against high-toned army officials startled "good society," which means those with plenty of money without much regard to any other consideration. KNOX.

The Eastern War.

A despatch from Constantinople says that Mukhtar Pasha telegraphs under date of Friday that, after a three-days' battle around Zamtar, (Asia Minor,) the Russians abandoned their positions. The Russian loss is estimated at 5000, including 150 officers. The Turkish loss is set down at 2000.

An official despatch received in Washington from Russia indicates that the Russian campaign of the present season will prove a failure.

America at the French Exhibition.

The position of American manufacturers and citizens with respect to the forthcoming Paris Exposition having, at the request of leading bankers, manufacturers and merchants, been represented to the French Government, by Frederick R. Caudert, Esq., of New York, the Duke de Cazes, the French Minister of Foreign Affairs, has in behalf of his Government given notice that all obstructive official regulations will be waived and Americans admitted to the Exposition upon the simple introduction of the American Minister at Paris. By this action of the French Government legislation and appropriations by the United States Congress are, it is said, rendered unnecessary, and it only remains for those interested to organize a general committee to take charge of the administration of affairs affecting the general welfare that have hitherto been superintended by Congressional Commissioners. To this end a large number of prominent firms of New York have issued a call for a public meeting, to be held in that city on the 11th inst.

News and Notes.

The Mexican population of El Paso, Texas, has risen and seized all the civil authorities and hold all of them prisoners in the jail. The rioters number about 400 and have scouts, pickets and sentinels posted. All the Americans in the county are in peril of their lives. The rioters are expecting aid from volunteers from the Mexican side. Texan volunteers are called for to protect the frontier. Another account says that the affair is but a squabble between two factions, each claiming proprietorship in some salt lakes.

The Mayor of Fernandina, Fla., earnestly appeals for aid for the fever stricken city. He says: "We cry for help, and cry for it now in the name of that God who hath touched us with His woful judgment. We implore you to give us help." There have been 800 cases of yellow fever, and 60 deaths; and there are now 300 persons ill, in a population of 1600.

A report from the wreck, Monday, says the owners of the steamer Massachusetts think the vessel will not prove a total loss, and with good weather hope to have her off the rocks and in New York in a few days. There was no accident to the machinery; the captain lost his reckoning, and the boat steamed ashore on the rocks, stem on. The deck hands proved utterly worthless in the boats, not knowing how to pull an oar at all, much to the disgust of the passengers, who were not before aware that the seamen on these big steamboats are entirely innocent of any knowledge of a seaman's duty, being merely cargo handlers. The other boat of the Providence Line, the Rhode Island, has been taken off the route for this season.

Senator Morton is worse, and his friends have little hope of his recovery.

Smith R. Phillips, of Springfield, Mass., a prominent and highly respected business man, was accused last week by his partners in business with having swindled them out of several thousand dollars by falsifying the book accounts of the firm. He at once broke down under the accusation, and died on Sunday from mortification and grief. Morton, the Philadelphia swindler, is not dead yet.

Burglars entered four places at Newburyport Friday night, obtaining no booty of value. At the Eastern Railroad freight depot, next to the police station, they took a safe, putting it on a hand-car, and ran down the track, but were unable to beat it open. They have made fifty entries within a hundred days, without being seen. They are supposed to be boys.

The Supreme Court of New York has decided against Jay Gould in the case of his Black Friday gold brokers, whom he "went back on" after ordering them to purchase $8,000,000 in gold. The court has ordered Gould to pay $442,000 to the brokers.

Samuel Cluff, of Saco, Me., recently took into market seven squashes of the Hubbard variety, which together weighed 828 1-2 lbs. The heaviest three weighed respectively 141, 136 and 128 lbs.

The fishermen living on the lonely island of Hitteren, off the coast of Norway, have had for generations a tradition that on shoals near the island, over a century ago, a large ship was wrecked. Divers searched for the vessel this summer, and easily found her. Since then portions of the cargo, including ninety-six cannon, twelve anchors, and 200 poods of lead, have been recovered. The cannon bear the date 1716. It has been discovered that the ill-fated ship was a Russian man-of war, and that while on a voyage from Cronstadt to Archangel in 1760 she was wrecked.

Col. Henry R. Sibley, of Boston, was arrested on Saturday on a charge of forgery, which he confessed having committed. Col. Sibley stood high in the community; he served with distinction during the war, was at one time Department Commander of the G. A. R. of Massachusetts, and was the messenger appointed by the Electoral College of the State to carry the vote to Washington last year.

The wife of Ben Cooper of Camp Colorado, Texas, recently gave birth to four children at once. One of the children died, but the rest, with the mother, are doing well.

When General Grant visits Rome, the Italian government proposes to have, in his honor, one of the most elaborate street pageants which has been seen there since the days of the Cæsars.

New Hampshire Items.

A bank in Nashua was "busted" last week, owing to a severe run upon it. It was a faro bank, and the police ran it and its manager into the police station.

The Protestant clergymen of Manchester held a meeting, Saturday afternoon, to make arrangements for a series of meetings to be conducted by Messrs. Moody and Sankey. It is understood that the Evangelists will spend a month in that city during the coming season.

Two cars, loaded with birchwood, on the Mount Washington Railway, broke away from the engine on Friday, and left the track at the end of the cog rail, going about thirty rods on the ties and destroying a trestle bridge of the Boston, Concord and Montreal Railroad. No one was injured.

Mr. Charles W. Bean of Chester recently met with a painful accident. He was standing upon a log engaged in cutting it off, when suddenly the log broke down, throwing him headlong upon his axe in such a manner as to cut the cords of his left wrist. He will probably lose the use of his hand.

Mrs. Joseph C. Langford of Candia had her left arm broken just above the wrist by a cow which she was milking being frightened by a dog, and kicking.

A young French boy, son of John Naire, got his head badly hurt in the picker room of the China mill at Suncook, on Wednesday evening.

In the Supreme Court at Dover, Saturday, in the case brought against the town of Somersworth by Dr. Boynton to recover damages for injuries caused by his horse being frightened in the streets of Great Falls three years ago, the jury rendered a verdict in favor of the plaintiff for $8333. This is the heaviest verdict ever rendered against a town in Strafford County.

The Samoan Monarch.

Consul Steinberger arrived at New York on the 3d inst. He says he established a constitutional monarchy at Samoa, was made Premier, and established schools and a printing press. He also established religious freedom, which enraged the London Missionary Society, the result of all being a British ship-of-war taking him away by force to New Zealand, from whence he worked his way to England, where he was kindly received by Lord Derby, who had the captain of the British war ship dismissed from the service. Lord Derby promised reparation as soon as Mr. Steinberger can show that he was recognized by the American Government. He says ex-Secretary Fish treated him shabbily, and Steinberger has come home now to secure documents to show his citizenship and show his recognition as representative of the United States at Samoa. The British in the Pacific Ocean want to make a colony of the country. Mr. Steinberger says: "I met Caleb Cushing in Paris and asked his opinion as to the point whether I had expatriated myself by taking an official position under an unrecognized Government created by myself under influences marked out for me by the authorities at Washington. Mr. Cushing gave me clearly to understand that such an idea was absurd, and that I was fully entitled to United States recognition and protection."

—The apartments of the two eldest sons of the Prince of Wales on her Majesty's training ship for cadets, the Britannia, have been fitted up at a cost of nearly $15,000, but the princes hadn't been on board forty-eight hours before the commonest kind of a twenty-five cent seasick came along and laid them by the heels, and emptied enough royalty out of them to stock up half a dozen ordinary kingdoms.

—The Chicago papers say that Mr. William Henry Smith has taken possession of his office as collector of customs in that boisterous town, and officially announced that he will serve his country from 11 A. M., to half past twelve, and from four to half past four in the afternoon. This will make altogether two full hours' service out of each twenty-four, and as the salary is only six thousand dollars a year, people will be likely to conclude that Mr. Smith is selling a large amount of time for a ridiculously small sum of money.

—A Barnesville (W. Va.,) signer of the Murphy pledge went to Wheeling a few days ago, and after transacting his business, while waiting for the train to take him home, was induced to forget his pledge to such an extent as to get drunk. He fell asleep as soon as the cars started, and the conductor had no easy task to awaken him. After he was aroused, instead of presenting his ticket he handed the conductor his Murphy pledge. The conductor punched the pledge and wrote on it "one drunk." The Barnesville gentleman's dismay may be imagined when the next day he exhibited his pledge to prove he was a Murphy man.

—A cow was recently taken for debt from a poor family in Newburyport. Two benevolently disposed ladies learning of the matter raised the money to redeem the cow, and themselves drove her down High street back to the family from whom she had been taken.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.*

PROPOSALS.

TREASURY DEPARTMENT,
OFFICE OF THE LIGHT-HOUSE BOARD,
October 3d, 1877.

PROPOSALS will be received until 12 o'clock, noon, 24th October, 1877, for furnishing to the Light-House Board, a centre-board SCHOONER of about 120 tons, new measurement.

The vessel should draw not more than 8 feet loaded, should be in good condition, well found in every respect, and have a powerful windlass. She should also sail well, handle easily, and be metalled.

Proposals should give name, age, register tonnage, description in full of the vessel, sails, rigging, spars and ground tackle, with price for which she will be sold, and should also state when and where she can be seen and examined by an agent of the Board, together with the names of her owners.

JOSEPH HENRY,
Chairman Light-House Board.

E. G PIERCE, JR., P. M.

TRAIN TIME CHANGED.

The fall and winter arrangement of the Eastern Railroad and its connections went into operation on Monday, a large number of important changes being made. No train leaves Boston for this city after half-past seven o'clock in the morning, until half-past twelve o'clock in the afternoon; and only one train leaves this city for Boston after the 11:05 o'clock train in the forenoon, and that one starts at half-past five. Three trains each way are taken off between Boston and Portsmouth, two are discontinued on the Dover Railroad, one on the Great Falls & Conway, and one through train to Bangor. The half-past three o'clock train from this city for Boston, and the half-past eight o'clock forenoon train from Boston for this city, will be as much missed as any of those that have been taken off. The time of starting of trains, corrected for the new arrangement, will be found in the usual place.

POLICE COURT.

Sunday, October 7th.

Three young men from Rye were brought up, charged with "rude, indecent and disorderly conduct" in using abusive and threatening language to a man at Rye on the evening of the previous Friday, the young men being in the road and the aggrieved party in his own house. The accused parties being anxious to avoid being locked up, Judge Batchelder consented to open court, and they were arraigned and admitted to bail.

Monday, October 8th.

Mary Morrissey, for keeping her drinking saloon open on Sunday, was fined $10, costs $6.90, which she paid.

The young men from Rye appeared to answer to the case against them continued from Sunday. The evidence for the prosecution was not positive, while the defence made out a pretty good alibi, as alibis go, so they were discharged.

SOLD THEMSLEVES.

Mr. Albert Dow, of Rye, last week made arrangements to have an old fashioned husking party, and issued notice thereof to those whom he desired to be present. A party of young gentlemen in this city, getting wind of the proposed good time, concluded to patronize it without waiting the formality of a pressing invitation, and on Thursday evening loaded a beach wagon with themselves and drove down. Arrived at Mr. Dow's they invaded the barn, found a big pile of corn and commenced husking; several of the neighbors, having seen the big team go by, and from that concluded the husking was to come off that evening, joined the industrious party in the barn; and Mr. Dow, delighted at the vigorous work done by them, generously furnished the cider for all hands. After some hours' hard work, finding no girls arrived and seeing no preparations made for a feast, the Portsmouth party returned home, sadder if not wiser men. The fellows who went to the *real* husking party, Friday evening, report a glorious time, the chowder and clam soup being lovely, the goose done to a turn, the pumpkin pies of the genuine old fashioned kind, and the mixtures (tea, coffee, etc.,) made in pitchers seductively delicious; while the dance in the barn floor with the girls, to the music of a good fiddle, after the work was done, was almost quite too awfully jolly for anything. Mr. Dow explained to the husking party that they would have had more corn to husk but for the kindness of a party of young gentlemen from Portsmouth, who came down the evening before and worked like heroes till after midnight, just for the pure love of husking.

[Communicated.]

SCHOOL REGULATORS.

Editor of Chronicle; Your correspondents "X. Y. Z." and "Revilo" too widely censure in the first instance, and too extensively approve in the second, the action of the new Board of Instruction, to satisfy the public generally. Extreme partisanship in either case seems to partake of the absurd, for while there may be just complaint at some of the rules adopted by the Board, there can be no doubt that other rules are very excellent improvements over the practices of school committees in the past. Assuming that "regulators" like "X. Y. Z." and "Revilo" are so diametrically opposed as to never agree except by conversion to each other's views, (even as pendulums when regularly oscillating go quickly to opposite sides and never compromise while in the vigor of motion by any half-way pauses,) it seems that to expose wholly the cause of either is practically to offer no common ground on which to meet and harmonize.

That part of the fourth rule adopted at last week's meeting of the Board, providing that "no new teachers shall hereafter be appointed in the primary or intermediate schools, who are not graduates of some good normal school," seems at first sight to be altogether heartless. I never taught pupils, and do not know what could induce me to take charge of even a primary school, yet I have great sympathy for those who devote their time and talents to the instruction of the young. It strikes me that a teacher who has been a graduate of some normal school should be qualified to take charge of a higher grade of schools than either the primary or intermediate, or in other words should be capable of earning a larger salary than can be given for these grades.

It may be well to provide that schools requiring a principal should have a teacher with a normal school education. It is a known fact that teaching requires something besides culture and cultivation. Many persons of culture make poor teachers, while others whose facilities for learning have been sadly cut short for want of means, have the natural talent that enables them to impart to pupils the information they have. Our Board of Instruction is composed of earnest, well-meaning and thoughtful citizens, and I can hardly understand why the majority came to adopt such an apparently unreasonable clause as that I have quoted. The capacity to impart knowledge is in most cases a natural gift. The pupils of to-day may be, should be, the teachers of the future. Culture improves the gift, and ambition will excite the pupil to endeavor to attain an efficiency that will ensure a reward by teaching. It is safe to say that a majority of the pupils in our schools do not expect, and their parents or guardians cannot afford them, a normal school education. The new regulation cuts off a majority of them from earning a livelihood by teaching, shutting off one of the paths leading to self-maintenance. Once more, I say, the action of the Board appears heartless in the extreme. A common humanity should lead us to care for our own. The world is full of snubs for the young, and it is wholly unnecessary for a Board which should represent the parents of the community, to trample under foot the growing and untried ambitions of those who in maturer years may become as good citizens and valuable committee men as those who now so cruelly "sit down on" them. ROLAND.

WORK VS. THE TRAMP.

Cold weather is approaching; the tramps that during the warm weather have slept in barns or in the woods will soon have to seek other quarters, and our city will secure its full share of their patronage—at least, it has always been generously patronized by them in the past. In view of the fact that about all the charity of the city can be advantageously bestowed upon its own deserving poor, without furnishing food and lodging for the worthless, lazy, criminal vagabonds of all creation, would it not be well to adopt some plan by which those of the latter class that are lodged and fed in the police station may be compelled to pay for their entertainment, by giving two or three hours' work in the morning? [We are under the impression that something of this kind has been suggested before! True, it has never been acted upon, but that is no reason it should not be.] In Springfield, Mass., the authorities adopted the plan of making every applicant for lodgings break a certain amount of stone for the streets next morning, to pay for what he had received; unfortunate laboring men, reduced to ask the city aid, gladly gave their labor, and the professional tramps had to do it or go to jail, and the result was that the latter class gave that city a wide berth,—for the true tramp, though he likes a county house, where he gets plenty to eat and nothing to do in winter, hates a jail almost as sincerely as he does work. This city, which is famous among tramps as furnishing lodgings, excellent coffee and first-class pilot bread, but no work, to all the bummers that come along, has been in winters past a regular tramps' paradise, and will be again the coming winter, unless something is done to prevent it. The city will have many outdoor pensioners to care for this winter, and a large amount of firewood will be distributed among them; why would it not be a good plan for the city to purchase a quantity of cord wood and some saw horses and buck saws, and provide some place where the tramps could be made to saw as much wood as would liquidate their hotel bill with mine host Entwistle? If there was such provision made, the police could easily (and would) see to it that each tramp did the specified amount of work or else went to jail; and the moment the tramps learned—and they would mighty soon learn—that they would have to work if they came here, they would act the part of a certain Scripture character, and pass by on the other side. Suppose that the city, to carry out this plan, did have to pay rent for some old barn or other building in which to store the unsawed wood and in which a single officer could watch the tramps while at work; that would be more economical than to give free lunch to all the loafers who demand it, to say nothing of the advantage of keeping the city to a great extent clear of the pests.

PORTSMOUTH AND VICINITY.

An alarm of fire, at about three o'clock Monday afternoon, was occasioned by the partial burning of the roof of Mr. Joshua Stackpole's joiner shop on Mechanic street, which probably took fire from a spark from the foundry. More damage was done by water than by the fire.

The fog-horn on Whale's-back was sounding all day Monday. We have not heard from the fishermen how effective it is as a signal at sea, but it sounds well on shore.

Several gentlemen who used to be base ball players, but are now supposed to have arrived at years of discretion, drove to the Plains Monday afternoon to take positions in a "picked nine" for a game with the Granite States. Not having quite men enough when they got there, one of the party returned to town with the team to take out some more; and just after he left, the alarm of fire was given. Procession for town was immediately formed, one of the Granite State boys, who is also a member of the fire department, leading off; and it is asserted that whenever he struck a puddle in the road the men at work in the fields on each side immediately rushed for shelter from the shower. The game of base ball was postponed to a more convenient season,—the gentleman who drove into town to catch another player, after he caught him driving out to the Plains again by a different road from that taken by the procesession, and arriving there to find the grounds entirely deserted, not even a broken bat being left on the field.

The Odd Fellows' Mutual Relief Association of Rockingham county holds its quarterly meeting this evening at Odd Fellows' Hall, at 7:30 o'clock. See advertisement.

The Direct United States Cable Company announce that an interruption has occurred in the short section of their cable between Rye Beach and Nova Scotia, but it does not, however, affect the due transmission of telegrams to Europe, which are now being forwarded to Nova Scotia by the land lines.

The much-wrecked schooner George L. Treadwell, formerly of this port but now of Baltimore, which was bilged and sunk on Chincoteague Shoal last winter, sold and raised, sent to the West Indies, capsized and sunk again off Nassau, N. P., and again raised, arrived at Baltimore last week with a cargo of salt, having been caught in (and weathered) the great gale.

The Glory of Woman

is a fine set of teeth as well as a fine head of hair. How the enamel glistens after a good brushing with fragrant SOZODONT! Nothing destructive to the teeth can exist on the surface or at the roots, if this vegetable antidote to corrosion is duly applied.

Spalding's Glue will mend anything except a broken heart.

ELEGANT HAIR is woman's crowning beauty. When it fades, she fades as well. While it is kept bright, her personal attractions are still maintained. By preserving the hair fresh and vigorous a youthful appearance is continued through many years. Those who grieve over their fading hair turning gray too early, should know that Ayer's Hair Vigor prevents it, and restores gray or faded hair to its natural color. It is a clear and healthful preparation, containing neither oil, dye, nor anything deleterious, and imparts to the scalp what is most needed—a sense of pleasant and delightful freedom from scurf or dandruff.—*New Berne (N. C.) Times.*

THE GREAT REMEDY FOR SORE THROAT, PULMOCINE CORDIAL is for sale at the UNION STORE, Market Street. Price 50 Cents per Bottle.

PERSONAL.—NOTICE IS HEREBY GIVEN that all officers and soldiers wounded, ruptured, or injured (however slightly) in the late rebellion, can obtain a pension by addressing G. KESSLER, attorney for claimants, No. 4 New Chambers Street, New York. tfob10 78

GEORGE L. TREADWELL, Treasurer.

January 16, 1877.

Daily Chronicle.

Why People are Drowned.

Persons are drowned by raising their arms above water, the unbouyed weight of which depresses the head. When a man falls into deep water he will rise to the surface, and will continue there if he does not elevate his hands. If he moves his hands under water in any way he pleases his head will rise so high as to allow him full liberty to breathe, and if he will use his legs as in the act of walking up stairs his shoulders will rise above the water so that he may use less exertion with his hands, or apply them to any other purpose. These plain directions are recommended to the recollection of those who have not learned to swim in their youth, as they may be found highly advantageous in preserving valuable life.

—A handsome pair—Flemish Beauties.

—Walking along the Strand the other day an English officer saw approaching him a man in tatters, carrying a tray, on which were some small pies, marked one penny each. As he got near him he recognized a brother officer, who had served in the same regiment some years previously. He accosted the poor fellow, and was sympathizing with him on his sad plight and altered circumstances, when the other exclaimed, "Hang your pity! Buy a pie."

Centaur Liniments.

One thing is now thoroughly established. Never since man suffered and human agencies alleviated pain has there been any thing which went so far as a pain annihilator and curative agent as the Centaur Liniments. These Liniments have within the past year cured more cases of Rheumatism, Neuralgia, Stiff joints, Caked Breasts, Swellings, Poisonous Bites, Burns, Lame Animals, etc., etc., than all other remedies combined. As the name of Centaur implies half horse and half man, the Centaur Liniments are for man and beast. But not the same Liniment. The White Liniment is for man and the Yellow for horses and animals. Herein this Liniment differs from all other remedies, although some of its ingredients are alike in each. They contain the well-known Witch Hazel, Arnica, Carbolic, Rock Oil, Mentha and other powerful ingredients.

Wm. H. Hickcox, Rector of St. John's E. Church, Wakefield, Clay Co., Kansas, writes: "Many years I have been suffering from a Weak Back, caused from a sprain more than 40 years ago. I have not found any thing to relieve me until I commenced the use of Centaur Liniment. I feel it my Christian duty to inform you that by its wonderful effects I am entirely relieved of pain. January 23d, 1876."

Messrs. J. McClure & Co., Druggists, Cincinnati, Ohio, say:

"Teamsters pronounce the Yellow Centaur Liniment superior to any thing they have ever used. We sell several dozen bottles per month, and the sale is steadily increasing."

These are only samples of thousands upon thousands of similar testimonials reaching us every month. All the Extracts, Embrocations, Salves and Ointments in existence are not doing one-tenth the good which is done by these admirable Centaur Liniments. For Frost-Bites, Stings, Cuts, Itch, Salt Rheum, etc., there is nothing like the Centaur Liniment, White Wrapper. For Spavin, Ring-bone, Sweeney, Wind-Galls, Poll-evil, Scratches, etc., on horses, the Yellow Centaur Liniment is equally as good. They are certain in their effects; they are pleasant to use, they are handy and they are cheap. No family should be without Centaur Liniments. They are worth one hundred times their cost.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Castoria.

Mothers may have rest and their babies may have health, if they will use Dr. Pitcher's Castoria for Wind Colic, Worms, Feverishness, Sour Mouth, Croup, or Stomach Complaints. It is entirely a vegetable preparation, and contains neither mineral, morphine, nor alcohol. It is as pleasant to take as honey, neither gripes nor gripes, and is superior to any remedy in existence.

Dr. E. Dimech, of Dupont, Ohio, says:

"I am using CASTORIA in my practice with the most signal benefits and happy results, and find it a perfect substitute for Castor Oil."

This is what every one says. Many nurses in New York use the CASTORIA. It is prepared by Messrs. J. B. ROSE & CO., successors to Samuel Pitcher, M. D. inov1

The Centaur Liniments have created a revolution in remedies for Rheumatism, trains, Swellings, Pains, Burns, Scalds, Stings, tc. The White Liniment is for the human family, and the Yellow Liniment is for horses. They are certain, handy and cheap.

Castoria is certain to operate. It does not nauseate or gripe like Castor Oil, but is pleasant to take, digests the food, regulates the bowels, cures wind colic, expels worms, and causes natural sleep. It is equally adapted to adults and infants. It contains neither Mineral, Morphine nor Alcohol. Children teething may have health, and mothers find rest, if they use Castoria. inov1

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as Ayer's Cherry Pectoral. It has been known to the public about forty years, by a long continued series of marvellous cures, that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of Coughs, Colds, Consumption, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these danger ous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

HATHAWAY SHIRTS,

A FEW MORE OF THOSE

CELEBRATED HATHAWAY SHIRTS,

Cut Low in the Neck, at

William P. Walker's,

1y3 No. 8 Market Square.

This Cut Illustrates the Manner of Using

DR. PIERCE'S

Fountain Nasal Injector,

OR

DOUCHE.

This instrument is especially designed for the perfect application of

DR. SAGE'S CATARRH REMEDY.

It is the only form of instrument yet invented with which fluid medicine can be carried high up and *perfectly applied* to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which sores and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. The want of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the ordinary methods. This obstacle in the way of effecting cures is entirely overcome by the invention of the Douche. Its use is pleasant and so simple that a child can understand it. **Full and explicit directions** accompany each instrument. When used with this instrument, Dr. Sage's Catarrh Remedy cures recent attacks of **"Cold in the Head"** by a few applications.

CATARRH

SYMPTOMS—Frequent headache, discharge falling into throat, sometimes profuse, watery, thick mucus, purulent, offensive, etc. In others, a dryness, dry, watery, weak, or inflamed eyes, stopping up, or obstruction, of passages, resulting in ears, deafness, hawking and coughing to clear throat, incrustations, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of appetite, inflammation, enlarged tonsils, tickling cough, etc. Only a few of these symptoms are likely to be present in any one case at one time.

Dr. Sage's Catarrh Remedy, when used with **Dr. Pierce's Nasal Douche,** and accompanied with the constitutional treatment which is recommended in the pamphlet that wraps each bottle of the Remedy, is a perfect specific for this loathsome disease. It is mild and pleasant to use, containing no strong or caustic drugs or poisons. The Catarrh Remedy is sold at 50 cents, Douche at 50 cents, by all Druggists.

R. V. PIERCE, M. D., Prop'r, BUFFALO, N. Y.

DR. QUAIN'S

MAGIC

CONDITION PILLS!

The Wonderful Remedy for Liver Complaint, Biliousness Dyspepsia, Constipation, Neuralgia, Rheumatism, Headache, Kidney Complaint, Nervousness, Scrofula, Piles, and all diseases arising from a bad state of the Blood!

No medicine ever offered to the public has given such universal satisfaction as Dr. Quain's Magic Condition Pills. Their praises are on every tongue where their merits are known. They strike at once at the seat of disease and show their healing power almost immediately. Thousands of voluntary testimonials of their merits have been received by the agent, from those who have been cured by them, of which the following are samples:

Dyspepsia Four Years, Constipation and Inflammation of the Bowels Three Years, Confined to my Room Two Years, Pain so I Could Not Sleep Without Morphine. One Package of Dr. Quain's Condition Pills Made Me Eat Well, Sleep Well and Free from Pain, after being given up by Physicians.

WEST LEBANON, ME., Feb. 22, 1

MR. THOMAS W. LANE:—I have been sick for 3 years with Dyspepsia, and for the past three years Constipation and Inflammation of the Bowels. have suffered the pains I could endure and live. have been confined to my room for two years, and could not sleep nights without the use of morphine. I have been given up by physicians as past cure. I have taken one package of DR. QUAIN'S CONDITION PILLS, and they have done me more good than all the doctors I have had. I sleep well, I eat well and have no pain. They are all they are recommended to be. Please send me three packages, as two of my neighbors wish to try them. I enclose $1.50.

Your truly, JOHN W. LORD.

Another Letter from May. John W. Lord, one month later Wonderful Cures by Dr. Quain's Pills Effected on Him in Thirteen Days. First time Free from Pain for Three Years.

WEST LEBANON, ME., March 23, 1875.

MR. THOMAS W. LANE:—I commenced taking DR. QUAIN'S CONDITION PILLS February 8th, and wrote you February 22d of their wonderful effect. I have continued to improve ever since. My appetite is good, and I sleep as well as I ever did in my life. I am free from pain for the first time in three years. When I was taken sick four years ago, I weighed one hundred and eighty-six pounds; I now weigh one hundred and thirty, but, as I am gaining in strength, I have faith I shall regain my flesh during summer, by the use of the Pills. I shal continue taking them for some time to come.

Yours truly, JOHN W. LORD.

Dr. Quain's Pills the Remedy for Soldiers' Aches and Pains.

WEST LEBANON, ME., June 1, 1875.

MR. THOMAS W. LANE—*Dear Sir:*—I am now able to walk out every day, and am gaining in strength very fast, all of which is due to you as agent for the best Pills in the world. I have taken no other medicine, and my improvement has been steady since first taking DR. QUAIN'S CONDITION PILLS. They have done everything for me, and I will say to you, advertise them direct to the soldiers, for they will certainly be thrown out of pensions and kept from exposure and hardship on the field. Please send me by return mail another package.

JOHN W. LORD.

Rheumatism for Twenty Years Cured by One Package of Dr. Quain's Condition Pills—"The Best Medicine in the World."

EAST ANDOVER, N. H., Dec. 16, 1875.

MR. LANE—*Dear Sir:*—As I know the value of DR. QUAIN'S CONDITION PILLS and the good they have done me, I take pleasure in giving them praise; so I send you another testimonial. My father has been troubled with Rheumatism for twenty years or more, and has tried everything that could be thought of, but to no good. At times it would be so bad that he could not lift his hand to his head or do any work at all, especially in cold weather. A short time ago I advised him to get some of these Pills. He believed nothing in them, but I gave him the last package I had of you, as I did not need them, and he has not been as free from the Rheumatic Complaint for years. No Rheumatism, no pain. What helped him? It was DR. QUAIN'S CONDITION PILLS, the best medicine in the world. There is nothing like them. *I know of,* for I have tried them, and they are all, yes, more than they are recommended to be. Give them a fair trial and you will say so. I write this because I know the goodness of them and wish others to know the same. Some may think I am telling a big story. I am. But remember I am not giving them half the praise they ought to have.

Yours with respect ED. F. PEVARE

Wonderful Effect of Four Doses of Dr. Quain's Condition Pills upon Neuralgia of Twelve Years' Duration—Testimony of Rev. J. S. Patton.

DAINGERFIELD, MORRIS CO., TEXAS, Nov. 15, '75.

MR. THOMAS W. LANE—*Dear Sir:*—I have been afflicted for near twelve years with Neuralgia in the face and head. I tried I do not know how many physicians, and could only get partly relieved. I also tried many patent medicines with the same result. I have been confined to my room most all the time for eight or ten winters, and have been traveling and visiting medical springs, and I still suffered most intensely. The physicians pronounced my case the worst and most stubborn that they had had anything to do with. One told me I could never get well; they all advised me to go South and spend the winter, and thought that was the only chance for me, and I was trying to get ready to go to Florida, when through the kindness of Rev. H. M. Mathis, my attention was called to the advertisement of Dr. Quain's Magic Condition Pills. I immediately sent to you for a package. I have taken four doses and I am almost free from pain. The impression here seems to be that if your pills will cure me, they will cure anybody. I have five applications to send for the pills. Enclosed please find three dollars; send five packages to me and one to Mrs. Laura Sherrel, Sulphur Springs, Hopkins county, Texas.

Yours truly, J. S. PATTON.

Liver Complaint, Nervousness, Dropsy and Headache.

LACONIA, N. H., Jan. 29, 1875.

THOS. W. LANE—*Sir:*—I have been troubled with Bad Blood, Liver Complaint, Nervousness, Dropsy and Headache. I have taken one package of DR. QUAIN'S CONDITION PILLS. They have done me more good than all the medicine I ever took; I have taken considerable medicine within the last five years. For the nerves I think there is nothing so good as those pills. I can recommend them to all who are similarly afflicted, they have done me so much good. I think they will recommend themselves wherever they go. I shall recommend those Pills to all who need them. Please send me two packages more, one for myself and one for a lady friend of mine. Many thanks to the inventor, agent and advertiser of those Pills.

MRS. P. L. ELLIOTT.

DR. QUAIN'S MAGIC CONDITION PILLS are put up only by the AMERICAN MEDICINE CO.

Manchester, N. H., THOMAS W. LANE, Agent.

PULMOCINE.

BUCHMAN'S PULMOCINE CORDIAL

is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best *Pulmonary Curative* he could prescribe, after dozen years spent in experimenting with it before e was satisfied that the Materia Medi ca could add nothing in its favor.

Is the ultima thule of Medical Discovery.

Among its many ingredients are *Wild Cherry Bark, Squill Root, Liquorice Root, Blood root, &c.* It is a Blood Purifier, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the lungs trying climate of New England!

PULMOCINE CORDIAL

Is a speedy and reliable Preventive and Remedy. Every Family should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred *Throat Diseases* at all times prevalent, it is the ounce of *Prevention.* Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate each. A dose of PULMOCINE CORDIAL gives speedy elief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this *Family Medicine* prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all this afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and patient's danger is past.

For Coughs,

Croup,

Diphtheria,

Asthma, etc.,

USE

Buchman's Pulmocine Cordail.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, absolutely pure and unadulterated.

CITY HEALTH REGULATIONS.

THE BOARD OF HEALTH OF THE CITY OF PORTSMOUTH call the attention of the public to the following sections of Chapter 10, of the Revised Ordinances, and invite all interested in the preservation of health in our city to aid them in the execution of their duty:

SEC. 3. All waste water of houses, yards, cellars, sinks, pumps, etc., shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

SEC. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners and occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

SEC. 6. No vendor of meat at the stalls shall be permitted to leave any stale meat, heads, feet or offal of any kind about their stalls or stores over night, or suffer them to be thrown into any street, lane or alley of the city. Nor shall any sellers of fish be permitted to throw any offal of fish into any street, lane or alley of the city, or upon any wharf, but shall either bury them or throw them into the river beyond low water mark.

SEC. 7. If any dead animal or decaying vegetable substance, or any other nuisance, shall be found in any part of the city, the owners or occupiers of the premises where such nuisance shall be found, shall cause the same to be removed within twenty four hours after being notified so to do by one of more of the health officers.

SEC. 12. When any householder shall know that any person within his family is taken sick of the small pox, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Health Officers.

SEC. 13. When any physician shall know that any person whom he is called to visit is infected with the small pox, or any other disease dangerous to the public health, such physician shall immediately give notice thereof to the Health Officers.

SEC. 14. If any such householder or physician shall refuse or neglect to give the notice required in the preceding sections, he shall for each refusal or neglect, forfeit the sum of twenty dollars, to be recovered by either of the Health Officers in the name of the city.

SEC. 16. The Health Officers may give written notice to the owner or occupier of any building, vessel or enclosure, to remove or destroy any nuisance or other thing deemed by them on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said Health Officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, vessel or enclosure, and cause said nuisance or other thing aforesaid to be removed or destroyed.

SEC. 21. No person shall erect, keep or continue, or permit to be erected, kept or continued, upon any land occupied by him, any pen for the keeping of swine, or privy, over either of the mill ponds in this city, or so placed that offensive substances therefrom shall be discharged or drained into either of said ponds or into any creek, or cove, or drain leading thereto. And no person shall construct, keep or continue any drain leading from any pen for the keeping of any swine, slaughter-house, privy vault, or other unwholesome or offensive place, into either of said ponds, or to any flat or marsh adjoining the same. And no person shall throw or suffer to be thrown from his land into either of said ponds, or upon any of said flats or marshes, any dead, decaying, unwholesome or offensive animal or vegetable substances.

AYER'S SARSAPARILLA,

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake with the Iodides of Potash and Iron, makes a most effectual course of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and who's substance they discrase and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

OFFICE NO. 5 MARKET SQUARE.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color.

It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

Railway Carriages in India.

The railway carriages of India are, I fancy, the most complete of any in the world, forced to be so by that potent mother of inventions; for, as you may imagine, a trip across India in the Summer, with a sun tossing the mercury like a plaything well up above the hundred, carelessly shooting it higher and higher all day long, is no over comfortable journey under the most favorable of circumstances. "Open the window," do you suggest? This might be well when dashing through a jungle; but the jungles do not last forever, while the journey takes "forever and a day" (everyone seems to be of this opinion before they have finished it), and much of the distance is through wheat fields, rice fields, poppy and barley fields; and considerable yet remaining is over tracts where nothing but the sand shrub, the sage bush and the sand moss flourish. Those are the hottest parts of the journey, and if you open a window there, you will have a thick coating of sand sticking fast to your face, hands and clothing, in half an hour, that would keep you warm in mid-winter. The carriages are short, divided in the center by a double partition which contains a washbowl and all appurtences thereto. The seats of each compartment are broad divans upon the sides and ends, four of them, and for the night four more are lowered from the top, forming beds for eight people in each compartment. Oh, the luxury! I would I could describe it, of lying in one of those upper divans through a long moonlight night, gazing out of the window over India. To counteract the powerful heat, the arrangements which the company have produced are most ingenious and complete. The carriage has a double roof; the windows are surrounded with bamboo awnings; the floor directly under the feet is but open lattice work, under which is a thick mat of moss, and under the moss an air chamber, only open at the front, where iron wind sails extend beyond the car. At the end of each car is a large tank of water, which water is conveyed through tubes, and kept continually dropping over the matting; the moss is saturated, and the wind caught in the sails by the motion of the cars, is driven into the air-chamber, through the moss, and comes up through the open floor into the carriage, a damp, cool, refreshing atmosphere. The final point they have not yet succeeded in attaining; that arrangement which shall continue the cool breeze, while the car is standing still. The most uncomfortable sensation imaginable, is that produced when the car stops in a dry, sultry plain, after the spin has been drinking the moisture for half an hour. The cool air settles instantly into the moss, and the dry heat creeping in through inconceivable crevices, calls at once for every drop of moisture that has been absorbed, and has it returned from every pore, in good measure.

—Mattie Strickland, the St. John's (Mich.) girl who was married a few years ago to Leo Miller of Minnesota, according to a free-love contract of their own drawing up, is said to have arisen and gone home unto her father.

—A monster reptile in the Mississippi river is creating great consternation wherever he has appeared. At New Madrid, Missouri, last week, as a ferry boat containing two wagons and three horsemen was crossing the river and while in the middle of it there was a violent shaking of the boat. The shock was like the motion of an earthquake, but the second lifted the boat clear from the water and almost capsized it, the horses retaining a standing position with difficulty. The waves washed clear across the boat from bow to stern. Almost at the same moment, forty feet away, an immense object was seen cutting through the water with irresistible force. In a little while the monster disappeared beneath the water. The occupants of the boat on reaching the shore reported their experience, and an expedition is being organized to watch the river and kill the reptile. So the papers say.

Daily Chronicle.

WEDNESDAY, OCTOBER 10, 1877.

"Fraud First Triumphant in American History."

When Charles Francis Adams wrote his famous twaddle to Samuel J. Tilden about Hayes' election being secured by "fraud first triumphant in American history," Boss Tweed had not given the public an "official" expose of the methods adopted by the organized corruption of New York city to carry elections for the democratic party; but those methods were as well known as was the fact that James K. Polk was elected President by the Plaquemine Parish frauds in Louisiana and the Empire Club frauds in New York, and Mr. Adams could hardly have been ignorant of either. True, the democratic press was once as noisy in denying the Tammany frauds as it is now silent about them; but there is no further use in keeping up a system of persistent denial of proved facts, now that the Tammany Boss has confessed the Tammany tactics, and his statements are undisputed by the Tammany officials in whose presence he confessed. Tweed's active connection with Tammany politics covers a period of at least twenty-five years, and he says: "I don't think there was ever a fair and honest election in the city of New York." Tweed also tells how he and the other Tammany fugiers, with John T. Hoffman, Horatio Seymour and others, managed matters in 1868 so as to give the electoral vote of New York to Seymour and the governorship to Hoffman, in spite of a heavy adverse majority in the State. He says that having determined that Tammany's count in the city should override the people's vote in the State, "it was necessary that in the State they should not know the result in the city; one thing we did was to take possession of the wires, and it was determined to have the Bible telegraphed from beginning to end over the wires, so as to keep them employed; that was the only use a great many of them ever made of it." There is no reason whatever to believe that the election in 1876 was any more honest than the one of 1868, or that Tilden had any more right to the electoral vote of New York than Seymour had. Neither is there any prospect that Tweed will ever see "a fair and honest election in the city of New York," for Tammany still rules, and Tammany is organized fraud now, just the same as it has been in years past.

Circuit Court of the United States.

Tuesday, Oct. 9th. Case Town of Franklin vs. Norcross was referred and continued.

Nelson L. Horton, of Manchester, was arraigned for passing a counterfeit note of a National Bank at Troy, N. Y.; plea, not guilty. Trial assigned for Wednesday.

Case Whitehouse, administrator of Horace Gowen, late of Dover, vs. the Traveller Insurance Co., in order for trial on Wednesday. This action is brought to recover amount insured by the defendant company, in the sum of $3000, against accidental death, etc., which happened to the deceased June 22, 1879. The defendant denies that the death was caused either through external violent means or by accident. Copeland for plff.; Hobbs for deft.

United States vs. the New Hampshire Savings Bank. A part of the forenoon of Monday was consumed in the discussion of the disposition to be made of this action, which is a suit brought under the Internal Revenue law to recover certain taxes upon deposits since December, 1873. Mr. Pike, who appeared for the bank and said that he also represented a savings bank in his own town, Franklin, maintained that there should be delay until an application for abatement should be heard. The District Attorney said that the Department had enjoined upon him the duty of disposing of these claims for duties, and he was anxious to make some progress in the case. The Court intimated that the District Attorney had full power to commence suits and it was his duty to prosecute violations of the law. The case was allowed to stand open. The Court said that the question raised ought to be determined, for the benefit of the banks as well as of the Government, by the highest Court of the land.

The Court adjourned to Wednesday morning at eleven o'clock, when Judge Clark will appear, and hold the Court, Judge Shepley having returned to Portland in the afternoon.

Suspension of the "Patriot."

The *Daily Patriot* of Concord, Col. E. C. Bailey, proprietor, announced on Monday evening that it will suspend publication after November 1st. The weekly will, however, be continued under the same management as for the past five years. The cause assigned for the suspension is chiefly of a financial nature, the proprietor, though abundantly able, not caring to continue the publication of a daily at a loss of some $3000 or $4000 a year. Non-political support is also assigned as another reason for discontinuing the paper. In this connection, the following from Monday evening's *Patriot* is of interest:

"Unless the leaders in the democratic party heal their differences and become united and give what support they may have to one central paper, we see no encouragement to struggle single-handed against a united opposition in the publication of a daily paper, when those who receive the benefit of such labor are unwilling to recognize the services rendered, or lift a hand to assist in carrying the load. We believe that the nation is drifting in the right direction, and that a large majority of the people are conservative and will sustain the right and steadily oppose the wrong; we believe that the great business and industrial interests of the country are thoroughly in earnest to put down extremists in all parties, and that political tricksters and political demagogues have had their day, and that henceforth the people will have their say, and that they will not give heed to agitators or to ambitious political manipulators, to the detriment of the public good."

The *Patriot*, under Col. Bailey's management, has been a newsy, readable paper; but the democratic in politics it has never been rabid, and has always refused to preach the gospel according to the New York *Sun* and New Haven *Register*, which is probably a principal reason why it has failed to receive the encouragement it deserved at the hands of the New Hampshire democracy.

Political.

The nomination of Allen C. Beach for Secretary of State, by the democrats of New York, is a great triumph for that identical Canal Ring which "Sammy the ring-breaker" smashed so effectually, according to democratic accounts. Beach is to the Canal Ring what Tweed was to Tammany. The convention showed considerable forbearance in not nominating Mr. Tweed for State Treasurer.

It is stated that the President prefers a southern democrat instead of a northern one as Speaker of the House, as he considers that an ex-Confederate there would be an additional indication of the desire of the North to bury sectional jealousies.

Adams, clerk of the last House of Representatives, whose duty is to make up the roll of the new House, has finished that job, and gives the democrats 12 majority. He has managed this by leaving off the names of two republicans from Louisiana and one from Florida, who were elected, and putting on in their places three democrats who were not elected; and by leaving off the name of the republican Congressman from Colorado. The great Adams is entitled to a vote of thanks from the republicans for not excluding all the republicans elected, and making the House unanimously democratic.

Business Notes.

A new line of steamships will be placed upon the route between New York and Venezuela early next month. There will be two vessels, one of twelve hundred tons and another of eleven hundred tons. Departure will be made from New York every seventeen days. Venezuela will extend unusual facilities to the enterprise.

President Vanderbilt has ordered an advance of five per cent. to be made upon the compensation of all employes of the New York Central and Lake Shore lines, affected by the reduction of ten per cent. in July last. If business continues to increase at the rate of the past two months, it is said to be Vanderbilt's intention to carry out the restoration till it covers the entire reduction.

The Pioneer Land and Loan Bank of San Francisco has suspended. Liabilities $2,000,000, assets $1,000,000.

News and Notes.

Gold on Monday was down to 102 1-2, and dull at that.

Thomas Van Foster and Thomas Lewis, notorious counterfeiters, have been arrested in Philadelphia and a large quantity of counterfeit trade dollars, halves and quarters, found in their possession.

The War Office has received official despatches confirming the press reports of General Miles' encounter with the Nez Perces. The fight took place on the Smoke Creek, about seven miles from its mouth. The country where the Indians have taken refuge is said to be equal to the famous Lava Beds, where the Modocs fought. It is believed that General Miles has sufficient forces to keep the Indians at bay until reinforcements can reach him, but even if he has, it is thought the Indians can defend their position until the cold weather forces the troops to seek their winter compartments.

A politician who sued the Springfield (Ill.) *Journal* for $5000 damages for calling him an intolerable nuisance, has been given by an appreciative jury a verdict for one cent. Even this the paper refuses to pay, and it threatens to appeal the case.

The United States Treasurer has received advices from the agent of the United States Depository at Tucson, Arizona, acknowledging the receipt of a letter containing an exchange on New York amounting to $100,000, sent from the Treasury to that agency in May last. The mail rider bearing despatches was murdered by the Indians, and the letter, left with other despatches on the scene of the murder, was found recently by a scout and forwarded, after lying in the pure, dry atmosphere of that region nearly six months in a perfect state.

In view of the alarming increase of murders in Iowa since the death penalty was abolished, the Dubuque *Times* calls for the restoration of that penalty.

James E. Cope, a British subject, has complained to the English government that he was arrested at St. Louis during the labor disturbances "without warrant or process of law," refused counsel, shut up from his friends, allowed to take no exercise and held for trial in excessive bail, the charge against him being dismissed when he appeared in court. Sir Edward Thornton is investigating the case.

A San Francisco newspaper recently accomplished a remarkable feat in telegraphy. The morning after the international rifle shooting at Creedmore it came out with a broadside of diagrams of the targets, bearing accurate representations of the scores, as proved by the New York papers received a week afterward. These diagrams had been transmitted over the wires by a new process, invented and patented by one of the proprietors of the journal, and not yet generally understood, but which may contain the germ of great things.

Professor Asaph Hall, who has just discovered the moons of Mars, was a carpenter, and owes his success largely to his wife, who was a New England school ma'am, and persuaded him to study the higher mathematics. At twenty-five he became an assistant in the Harvard observatory; in 1861 took that place at the naval observatory at Washington, and was promoted to be professor in 1863. It was on the night of August 11th that he first saw the satellites, but he had to wait several days, till the 16th, for favorable weather for further thorough observations. In the interim he half thought of telling the other observers, so that they might all share the honor of the discovery, if it proved to be one, but he thought of his long years without luck, and kept his chances for himself.

New Hampshire Items.

Mrs. Alice Jackman, organist at the Second Advent Church of Concord, while playing during the morning service on Sunday, fell dead from her chair. Heart disease is the supposed cause. She was 45 or 50 years old.

Patrick Fitzgerald of Manchester, a section hand on the Concord Railroad, was thrown from a hand-car on which he was riding on Friday, in consequence of his coat catching the crank, and his back was broken. He is not expected to recover.

Andrew F. Burpee of Bristol, who was accidentally shot by his son on Tuesday of last week, died on Thursday night. He leaves a helpless invalid wife and two sons, aged 12 and 17.

Mr. Joseph B. West has been elected President of the Nashua Reform Club. It has the name of being the best and most active club in the State. Rev. James Gorton is its chaplain.

A valuable horse, six years old, belonging to John L. Peavey, landlord of the Glendon House at Wolfeboro', was taken sick with diphtheria Monday morning, and died on Tuesday.

Eli T. Fifield of Claremont committed suicide Monday morning about six o'clock by hanging himself in his barn. Cause supposed to be depression of spirits.

A Battle-Scarred Veteren.

Among the persons who applied for lodgings Sunday evening at the Ninth Police Station was one Charles Williams, formerly a lieutenant in the navy and attached to the South Atlantic squadron under the command of Admiral Dahlgren. Mr. Williams, previous to the late civil war, was in the merchant service, and for six years was the commander of the Lookout, one of the finest clipper ships which sailed out of New York harbor. Upon the breaking out of the war he entered the navy as a common sailor, and was very soon after made a lieutenant. During the bombardment of Fort McAllister, while attached to the Sonoma, of the South Atlantic squadron, he was severely injured by the explosion of a cannon, the powder burning his face and hands in a shocking manner. From the effects of this accident he lost his eyesight, but was still retained in the service until 1865, when he was discharged. During his service as a merchantman and in the navy he had managed to save a considerable sum of money, which he proceeded to expend at some of the best eye infirmaries in the country, hoping thereby to regain his eyesight, but finally gave up in despair until 1870, when he made the acquaintance of an eminent German physician, then on a visit to New York. He succeeded in restoring the lost eyesight, although in an impaired state, and in order to strengthen the eyes inserted two minute glass plates beneath the lids, which Williams retains up to the present time. Having been unable to procure work in his own place (Bridgeport, Conn.,) and having a wife and three children to support, Mr. Williams came to this city a few days since with what money he could raise, with the hope of procuring work at his trade, which is sail making; but being unsuccessful and having used up his last cent, he was compelled for the first time to ask lodgings at the city's expense. —*Boston Post.*

—There are over half a million Swedes in the West, and they support about a dozen newspapers in their mother tongue. A new weekly in Chicago, the consolidation of two old ones, starts off with a circulation of 9,000.

—Manager McVicker, of Chicago, after an interval of many years, felt that he would like to repeat an early attempt at playing Falstaff. About half a dozen persons came to see it. With characteristic pertinacity he put on the posters, next day, the following announcement: "In consequence of the fact that nobody came to the theatre last evening to witness the above performance, the manager takes pleasure in informing the public that it will be repeated to-night." And play it he did until he conquered an audience.

PROPOSALS.

TREASURY DEPARTMENT,
OFFICE OF THE LIGHT-HOUSE BOARD,
October 3d, 1877.

PROPOSALS will be received until 12 o'clock, Noon, 24th October, 1877, for furnishing to the Light-House Board, a centre-board SCHOONER of about 120 tons, new measurement.

The vessel should draw not more than 8 feet loaded, should be in good condition, well found in every respect, and have a powerful windlass. She should also sail well, handle easily, and be metalled.

Proposals should give name, age, register tonnage, description in full of the vessel, sails, rigging, spars and ground tackle, with price for which she will be sold, and should also state when and where she can be seen and examined by an agent of the Board, together with the names of her owners.

JOSEPH HENRY,
Chairman Light-House Board.

A QUEER CONTRAST.

A gentleman who recently overhauled the files of the GAZETTE for the year 1814, in search of information regarding a circumstance that occurred in that year, was very much struck with the entire change in journalism which has taken place since that time. He was endeavoring to find some record of the killing of a citizen of Portsmouth by a marine sentry at the navy yard, the circumstanees being that the citizen, who was pulling past the yard in a boat at night, instead of answering the sentry's hail by telling who and what he was, derided the marine, who fired at and killed him. Such an occurrence must of course have created a good deal of stir in such a little town as Portsmouth was then, and our friend naturally expected to find columns about it in the local paper; but a whole afternoon's diligent search of the GAZETTE failed to show him the slightest allusion to the matter! Still more surprising it was to him to find that nothing whatever was said about the navy yard, so that it would be impossible to gather from the columns of the GAZETTE that there was a navy yard on the Piscataqua at all in 1814, though the nation was then at war and the yard must have been an object of decided interest to the citizens of Portsmouth.

A reasonable explanation of this seemingly strange ignoring of local matters is, that in those days, before the telegraph and the railroad had cut time and distance down to insignificant proportions, the people of this city, (and others, for all the papers of that day are alike in their neglect of local news,) having plenty of time to attend to each other's affairs, were supposed to know all about what occurred in their own immediate vicinity quite as well as any editor, and did not need to be told anything about it; but they did not know, and did wish to be told of, what occurred in other cities and in foreign lands, and depended on the local paper to tell them. Hence it was that our friend, though he could find no reference to a homicide at the navy yard, or even to the yard itself, did find plenty of reports of what had occurred in Europe six months before the paper containing the reports was printed, and of battles in this country that were fought weeks before any news of them was known in this city. The newspapers of that day, like those of the present, no doubt aimed to give the people the kind of news that was wanted; "local" was not wanted, so it was not furnished to any such extent as at present, when "local" is just what is demanded. If a sentry at the navy yard was to shoot a respectable citizen now, the occurrence would be pretty certain to attract the attention of the local press.

BOARD OF OVERSEERS MEETING.

The regular meeting of the Board of Overseers of the Poor was held in the City Rooms on Tuesday evening.

After the routine business was disposed of, Mr. Joy moved that the Mayor's communication presented to the Board on the 18th of September be taken up, said communication being as follows:

Gentlemen: In regard to the out-door pensioners I would say, as the winter season is approaching and there will probably be numerous calls for aid from the city, I am of the opinion that the city should buy their supplies by wholesale and that they should be dispensed from the Almshouse as formerly, and in accordance with the city ordinance. I am informed that my predecessors have formerly done so when the applicants have been numerous, and the plan of furnishing from stores only adopted in prosperous times, when poor people could nearly provide for themselves. I submit this matter to your earnest consideration, and trust you will act for the best interests of the city and of the recipients of the public favor. JOHN H. BROUGHTON.

On motion of Mr. Joy, the further consideration of the communication was indefinitely postponed.

The following lawyers' opinions as to the powers of the Mayor in the matter under dispute between that officer and the Board, were submitted:

To the Overseers of the Poor of the city of Portsmouth:

Having consulted me with reference to the right of the Mayor of the city to furnish provisions and supplies for the use of the inmates of the Alms House and out-door pensioners—in reply would say, that I have failed to find by any charter, statute or ordinance in existence, any authority for such action on the part of the Mayor.

On the first Tuesday of August, annually, you receive your election from the qualified voters of the several wards, to perform such duties as the general laws and the city ordinances impose upon you. You have the charge and direction of all matters relating to the poor of this town.

Sec. 2, Chap. 15, of the Ordinances is as follows:

He (the keeper of the Alms House) shall have control of the internal arrangements of the Alms House and the management of the City Farm in all particulars necessary for the profitable conduct of the same; with power to purchase stock, produce, and agricultural implements; also provisions and supplies for the use of the inmates of the House and out-door pensioners; and to sell or otherwise dispose of the surplus stock and produce; subject, however, to the general direction and control of the Board of Overseers.

By this ordinance the powers and duties of the keeper are specifically pointed out—all of which are to be exercised under the direction and control of the Board of Overseers. If the Mayor of the city has the "immediate direction," and the Overseers "a more universal, common or comprehensive direction"—why, then, I suppose that the Overseers, or the Representative in Congress, or somebody else, has the *immediate* direction over the conduct (Gen. Stat., Sec. 7, Chap. 41,) of all subordinate officers, and the Mayor only a "more universal, common or comprehensive" one.

The Mayor is *ex-officio* chairman of the Overseers of the Poor. I cannot find that he has any right whatever to cast a vote. As *chairman* he can only act by the authority of the Board.

At your request, I consulted Gen. Marston, and herewith send you his opinion.

Yours respectfully,
WALTER C. HARRIMAN.

W. C. HARRIMAN, ESQ.: *My Dear Sir:* In answer to your inquiry whether the Mayor of Portsmouth has the right to purchase the provisions and supplies for the use of the inmates of the Alms House and out-door pensioners, I reply that neither the laws of the State nor the ordinances of the city confer upon the Mayor any such right or impose upon him any such duty. By a city ordinance the power to make such purchases, subject to the general direction and control of the Board of Overseers of the Poor, is conferred upon the keeper of the Alms House. True, the Mayor is authorized to exercise a general supervision over the conduct of all subordinate officers, but even this does not authorize him to usurp the functions or perform the duties appertaining to any officer. He might as well assess and collect the city taxes as undertake to perform the duties incumbent upon the keeper of the Alms House and the Board of Overseers. The Overseers of the Poor are in no sense of the word subordinate officers. They derive their authority from the same source that the Mayor derives his, and in the exercise of their functions they are as independent of the Mayor as he is of them in the discharge of his peculiar duties. The keeper of the Alms House is in no way accountable to the Mayor, because by ordinance he performs his duties under the direction and control of the Board of Overseers. I am of the opinion, therefore, that the Mayor of Portsmouth has nothing whatever to do with the administration of the public money appropriated for the relief of the poor, except as chairman of the Board of Overseers.

Yours respectfully,
GILMAN MARSTON.

The following notification was given to the Mayor by the Overseers:

PORTSMOUTH, Oct. 9th, 1877.

To John H. Broughton, chairman *ex-officio* of the Board of Overseers:

Sir: Notice is hereby given that after this date no bills for supplies furnished by you by contract or otherwise, on account of the Board of Overseers, will be approved, unless previously ordered by said Board; also that the statement of quantity and prices would form no exception.

The communications and notification were accepted and placed on file, and the Board then adjourned.

POLICE COURT.

Tuesday, October 9th.

Edward Taylor, drunk, assessed $9.90.

Dennis Ledden, do., do., do.

Augustus Beatty, do., do., do.

Frederick Randall, for assault on Joseph Orbin, was fined $3, costs $8.81. Same, for brawl and tumult, was fined $2, costs $3.

William Quinn, for assault on Joseph Orbin, was sent to jail for thirty days, costs taxed at $6.90. Same, for brawl and tumult, was fined $10, costs taxed at $7.67. Quinn appealed in both cases, and was ordered to furnish sureties in $100 in each case.

PORTSMOUTH AND VICINITY.

The Boston *Post* says: "The new ship Granite State, built at Neal's shipyard at Kittery, and now in Simpson's dry dock at Boston, is a beauty." The Granite State is in dock to be coppered; and we are informed that when she was taken out of water the length of grass on her bottom was a foot in some places. As soon as she comes out of the dock she will commence loading her cargo of ice and apples, and will sail for Rio Janeiro about the 20th inst.

Schooner Mary Willey, Capt Williams, sailed from this port on Sunday, 30th ult., for Bangor, loaded a cargo of 110 thousand feet of lumber for Samuel Adams & Co., and arrived back here on Saturday, October 6th, performing the trip in a little over six days.

The life-saving station at Rye Beach will be manned on the 1st of November, the crew to remain there until the first of May.

Miss Amanda Pickering declines to accept the position of teacher of the Franklin School, to which she was elected at the meeting of the Board of Instruction on Wednesday evening of last week.

While the apple crop in this vicinity is much below an average one, the yield of pears is very large, the fruit being also unusually fine as regards size, smoothness and flavor. Mr. D. J. Lynch on Tuesday showed us two pears grown in Mr. Benj. Cheever's garden, one of which weighed twenty-one ounces and the other nineteen. In the window of Moses Brothers' store are a dozen pears raised by Mr. W. Freeman, that weigh together thirteen pounds.

Sheriff J. Horace Kent, employed by United States Attorney Wells, of Washington, D. C., to look up one James T. Elliott, "wanted" for complicity in the notorious Witowski fraud, on Saturday last arrested Elliott at Great Falls, and took him to Washington. The culprit made a full confession of his share in the conspiracy to Messrs. Kent and Wells, and on Monday pleaded guilty in the court. His statements are considered of great value to the government. Elliott belongs in the eastern part of Maine, but has not lived there for many years. The Witowski fraud, it will be remembered, is the swindle with which Gen. Negley's name has been mixed up, and was a bogus claim on the government for about $25,000 for logs asserted to have been furnished to the army in Tennessee during the war, but in reality never furnished at all. The full amount of the claim was paid, and Uncle Sam is now after the swindlers.

Hon. Thomas L. Tullock, formerly postmaster in this city, has been appointed assistant postmaster of Washington, D. C.

One of the prettiest bits of skilful manipulation I have seen for a seven-night was shown at the South End fire on Monday afternoon. Mr. Enoch Jones, in taking an engine (Kearsarge) down Gardiner street, instead of slacking pace for a descent, continued at full speed, and in turning at the junction of Gardiner and Mechanic streets occupied the entire space, (with not an inch to spare), and in less time than it takes to write these lines had backed his engine in position at the wharf, ready for the suction pipe. It was a piece of work requiring nerve and prompt judgment,—a splendid exhibition of "drivemanship." OBSERVER.

What Sweetens the Mouth,

preserves and whitens the teeth, keeps the gums from becoming spongy, neutralizes all impurities that adhere to the dental enamel, and effectually prevents the toothache? Any body can answer this simple question who has ever witnessed the wonderful effects of that matchless vegetable preparation—Sozodont.

Closer than a brother sticks Spalding's Glue.

The grand semi-annual drawing of the Louisiana State Lottery under the personal supervision of Generals P. T. Beauregard of Louisiana, and Jubal A. Early of Virginia, commissioners on behalf of the State and people, takes place on December 11th, when 11,379 prizes amounting to $522,666 cash will be distributed. For tickets or information, address M. A. Dauphin, P. O. Box 692, New Orleans, La.

ELEGANT HAIR is woman's crowning beauty. When it fades, she fades as well. While it is kept bright, her personal attractions are still maintained. By preserving the hair fresh and vigorous a youthful appearance is continued through many years. Those who grieve over their fading hair turning gray too early, should know that Ayer's Hair Vigor prevents it, and restores gray or faded hair to its natural color. It is a clear and healthful preparation, containing neither oil, dye, nor anything deleterious, and imparts to the scalp what is most needed—a sense of pleasant and delightful freedom from scurf or dandruff.—*New Berne (N. C.) Times.*

To All Whom It May Concern:

The Directors of the Phosphoric Air Co. in good faith, offer the above reward, for the sworn statement of two respectable citizens of any city or town, which will prove that PHOSPHORIC AIR, the Great French Remedy, has failed to permanently cure any form of CATARRH, Asthma, Epilepsy, or any form of Nervous or Mental diseases. One month's treatment, inhaler, and instructions, sent to any part of the country on receipt of $5.00.

Inhalation is the only way in which the air passages and brain can be reached.

Phosphoric Air cures by its effects upon the circulation, which is the only way disease can be eradicated from the system.

We will be happy to give a TRIAL FREE to any who can call upon us so that they may experience its immediate beneficial effects.

Consulting Rooms of Phosphoric Air Co.,

Daily Chronicle.

What They Think of Death in Deadwood.

As I was resting in a camp on the outskirts of Deadwood, a jolly-faced man came along and asked for a job. He was told that every man was working for himself, and making mighty poor wages at that, when he replied: "Gentlemen, I haven't had one good meal in three weeks; I haven't been able to get a day's work; I'm dead broke, and the curtain is going to ring down on this tragedy right here and right now!" He stepped around the fire, pulled a revolver from a miner's belt, and then, retreating back a pace or two, he said: "Gentlemen, I'm going to hell! I've starved around the Black Hills for three months, and if there is any bigger hell than this I'm envious to see it! Excuse me for wasting ammunition, but here I go—crack!" He put the muzzle of the revolver to his forehead and never kicked after the report. No man rose up to restrain him. After a few minutes the owner of the revolver walked over and secured it, and as he wiped a spot of blood off the barrel, he growled out: "Blast his eyes! Why didn't he jump over some cliff, or go out and let the Indians tickle him to death!"—*Cincinnati Enquirer, letter.*

A Remarkable Crow.

The city of Kokomo, Indiana, boasts of a tame crow that possesses remarkable intelligence. It fell from the parent nest prematurely, was picked up by a kind-hearted gentleman and nurtured tenderly, and has received a most complete education. It talks intelligently, having a long list of bright speeches, and laughs like a human being. Becoming too familiar in its owner's house, the mistress frequently told him in a very emphatic manner to "walk out of this." This expression was not lost upon the bird, for one day a visitor coming to the house, and finding the door open, entered the hall without further ceremony, when he was saluted by a gruff voice in very decided English: "Walk right out of this." And ever since that day many a tramp and many a respectable citizen has been ordered by "Dick" from his benefactor's doorway. Every day he accompanies the children to school, and sometimes enters by the window, perching upon the teacher's desk, and surveying the children with becoming gravity. At recess he puts in an appearance, and occasionally swoops down and seizes a boy's or girl's hat and makes off with it for inspection. When they call out to him for such thefts he retorts in a judicious manner, "Very bad crow." A favorite amusement of his is to pounce upon the back of an unsuspecting cat, administer a fearful nip, and when pussy meows with pain "Dick" will fly to a tree near by and laugh immoderately. He is a pronounced republican in politics, and during last Fall's campaign on all suitable occasions shouted "Hurrah for Hayes!"

—Father Chiniquy, the renegade priest who has done so much to keep alive the fires of religious animosity in Canada, is scored severely by Mr. W. B. Court, a respected Protestant resident of Montreal, for publishing bogus lists of converts, employing as an associate a notorious criminal then living in concubinage, having as editor of his evangelical paper a free-thinker whose idea of Christianizing literature was "The Wandering Jew" and "The Mysteries of St. Claud Street," and so on.

Castoria.

Mothers may have rest and their babies may have health, if they will use **Dr. Pitcher's Castoria** for Wind Colic, Worms, Feverishness, Sour Mouth, Croup, or Stomach Complaints. It is entirely a vegetable preparation, and contains neither mineral, morphine, nor alcohol. It is as pleasant to take as honey, neither gags nor gripes, and is superior to any remedy in existence.

Dr. E. Dimock, of Dupont, Ohio, says:

"I am using CASTORIA in my practice with the most signal benefits and happy results, and find it a perfect substitute for Castor Oil."

This is what every one says. Many nurses in New York use the CASTORIA. It is prepared by Messrs. J. E. ROSS & CO., successors to Samuel Pitcher, M. D. (nov1

The Centaur Liniments have created a revolution in remedies for Rheumatism, Pains, Swellings, Pains, Burns, Scalds, Stings, &c. The White Liniment is for the human family, and the Yellow Liniment is for horses. They are certain, handy and cheap.

Castoria is certain to operate. It does not nauseate or gripe like Castor Oil, but is pleasant to take, digests the food, regulates the bowels, cures wind colic, expels worms, and causes natural sleep. It is equally adapted to adults and infants. It contains neither Mineral, Morphine nor Alcohol. Children teething may have health, and mothers find rest, if they use Castoria. (nov1

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as Ayer's Cherry Pectoral. It has been known to the public about forty years, by a long continued series of marvellous cures, that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and gives a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by its timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

Golden Medical Discovery

CURES DISEASES OF THE

THROAT, LUNGS, LIVER & BLOOD.

In the wonderful medicine to which the afflicted are always directed for relief, the discoverer believes he has combined in *harmony* more of Nature's sovereign curative properties, which God has insinuated into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The existence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple, or Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.

If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, bilious fever or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite, and tongue swollen, you are suffering from **Torpid Liver,** or **"Biliousness."** In many cases of **"Liver Complaint"** only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.

SOLD BY DRUGGISTS AT $1 PER BOTTLE.

Prepared by **R. V. PIERCE, M. D.,** Sole Proprietor, at the WORLD'S DISPENSARY, Buffalo, N. Y.

DR. QUAIN'S

MAGIC

CONDITION PILLS!

The Wonderful Remedy for Liver Complaint, Billiousness Dyspepsia, Constipation, Neuralgia, Rheumatism, Headache, Kidney Complaint, Nervousness, Scrofula, Piles, and all diseases arising from a bad state of the Blood!

No medicine ever offered to the public has given such universal satisfaction as Dr. Quain's Magic Condition Pills. Their praises are on every tongue where their merits are known. They strike at once at the seat of disease and show their healing power almost immediately. Thousands of voluntary testimonials of their merits have been received by the agent, from those who have been cured by them, of which the following are samples:

Dyspepsia Four Years, Constipation and Inflammation of the Bowels Three Years, Confined to my Room Two Years, Pain so I Could Not Sleep Without Morphine. One Package of Dr. Quain's Condition Pills Made Me Eat Well, Sleep Well and free from Pain, after being given up by Physicians.

WEST LEBANON, ME., Feb. 22, 1875.

MR. THOMAS W. LANE:—I have been sick for 5 years with Dyspepsia, and for the past three years Constipation and Inflammation of the Bowels. I have suffered all the pain I could endure and have been confined to my room for two years, and could not sleep nights without the use of morphine. I have been given up by physicians as past cure. I have taken one package of DR. QUAIN'S CONDITION PILLS, and they have done me more good than all the doctors I have had. I sleep well, I eat well and have no pain. They are all they are recommended to be. Please send me three packages, as two of my neighbors wish to try them. I enclose $1.50.

Your truly, JOHN W. LORD.

Another Letter from May, John W. Lord, one month later Wonderful Cures by Dr. Quain's Pills Effected on Him in Thirteen Days. First time Free from Pain for Three Years.

WEST LEBANON, ME., March 22, 1875.

MR. THOMAS W. LANE:—I commenced taking DR. QUAIN'S CONDITION PILLS February 9th, and wrote you February 22d of their wonderful effect. I have continued to improve ever since. My appetite is good, and I sleep as well as I ever did in my life. I am free from pain for the first time in three years. When I was taken sick four years ago, I weighed one hundred and eighty-six pounds; I now weigh one hundred and thirty, but, as I am gaining in strength, I have faith I shall regain my flesh this summer, by the use of the Pills. I shall continue taking them for some time to come.

Yours truly, JOHN W. LORD.

Dr. Quain's Pills the Remedy for Soldiers' Aches and Pains.

WEST LEBANON, ME., June 1, 1875.

MR. THOMAS W. LANE—*Dear Sir:*—I am now able to walk out every day, and am gaining in strength very fast, all of which is due to you as agent for the best Pills in the world. I have taken no other medicine, and my improvement has been steady since first taking DR. QUAIN'S CONDITION PILLS. They have done everything for me, and I will say to you, advertise them direct to the soldiers, for they will certainly cure them of aches and pains and from exposure and hardship on the field. Please send me by return mail another package.

JOHN W. LORD.

Rheumatism for Twenty Years Cured by One Package of Dr. Quain's Condition Pills—"The Best Medicine in the World."

EAST ANDOVER, N. H., Dec. 10, 1875.

MR. LANE—*Dear Sir:*—As I know the value of DR. QUAIN'S CONDITION PILLS and the good they have done me, I take pleasure in giving them praise; so I send you another testimonial. My father has been troubled with Rheumatism for twenty years or more, and has tried everything that could be thought of, but to no good. At times it would be so bad that he could not lift his hand to his head or do any work at all, especially in cold weather. A short time ago I advised him to get some of these Pills. He believed nothing in them, but I gave him the last package I had of you, as I did not need them, and he has not been as free from the Rheumatic Complaint for years. No Rheumatism, no pain. What helped him? It was DR. QUAIN'S CONDITION PILLS, the best medicine in the world. There is nothing like them. *I know it*, for I have tried them, and they are all, yes, more than they are recommended to be. Give them a fair trial and you will say so. I write this because I know the goodness of them and wish others to know the same. Some may think I am telling a big story I am. But remember I am not giving them half the praise they ought to have.

Yours with respect ED. F. PEVARE

Wonderful Effect of Four Doses of Dr. Quain's Condition Pills upon Neuralgia of Twelve Years' Duration—Testimony of Rev. J. S. Patton.

DAINGERFIELD, MORRIS CO., TEXAS, Nov. 15, '75.

MR. THOMAS W. LANE—*Dear Sir:*—I have been afflicted for near twelve years with Neuralgia in the face and head. I tried I do not know how many physicians and I could only find relieved. I also tried many patent medicines with the same result. I have not been confined to my room most all the time for eight or ten winters, and have been traveling and visiting medical springs, and I still suffered most intensely. The physicians pronounced my case the worst and most stubborn that they had had anything to do with. One told me I could never get well; they all advised me to go South and spend the winter, and thought that was the only chance for me, and I was trying to get ready to go to Florida, when through the kindness of Rev. H. M. Mathis, my attention was called to the advertisement of Dr. Quain's Magic Condition Pills. I immediately sent to you for a package. I have taken four doses and I am almost free from pain. The impression here seems to be that if your pills will cure any, they will cure anybody. I have five applications to send for the pills. Enclosed please find three dollars; send five packages to me and one to Mrs. Laura Sherrel, Sulphur Springs, Hopkins county, Texas.

Yours truly, J. S. PATTON.

Liver Complaint, Nervousness, Dropsy and Headache.

LACONIA, N. H., Jan. 29, 1875.

THOS. W. LANE—*Sir:*—I have been troubled with Bad Blood, Liver Complaint, Nervousness, Dropsy and Headache. I have taken one package of DR. QUAIN'S CONDITION PILLS. They have done me more good than all the medicine I ever took; I have taken considerable medicine within the last five years. For the nerves I think there is nothing so good as those pills. I can recommend them to all who are similarly afflicted, they have done me so much good. I think they will recommend themselves wherever they go. I shall recommend those Pills to all who need them. Please send me two packages more, one for myself and one for a lady friend of mine. Many thanks to the inventor, agent and advertiser of those Pills.

MRS. P. L. ELLIOTT.

PULMOCINE.

BUCHMAN'S PULMOCINE CORDIAL

is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best *Pulmonary Curative* so could prescribe, after dozen years spent in experimenting with it before he was satisfied that the Materia Medica could add nothing in its favor.

Is the ultima thule of Medical Discovery.

Among its many ingredients are *Wild Cherry Bark, Squill Root, Liquorice Root, Blood root, &c.* It is a Blood Purifier, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the lung-trying climate of New England!

PULMOCINE CORDIAL

Is a speedy and reliable Preventive and Remedy. Every Family should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred *Throat Diseases* at all times prevalent, it is the ounce of *Prevention.* Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate each. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this *Family Medicine* prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all this afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and patient's danger is past.

For Coughs,

Croup,

Diphtheria,

Asthma, etc.,

USE

Buchman's Pulmocine Cordial.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. Its offered to the profession and to the public, absolutely pure and unadulterated.

R. H. EDDY,

No. 76 STATE ST., OPPOSITE KILBY, BOSTON,

Secures Patents in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—Dear Sir: You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise them to employ you.

Yours truly, GEORGE DRAPER.

BOSTON, January 1, 1877. 3tawflan1 78

AMERICAN & FOREIGN PATENTS

[ESTABLISHED 1865.]

GILMORE & CO., Successors to CHIPMAN HODGES & CO., Obtain Patents for inventors in all countries. NO FEES IN ADVANCE. No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a rehearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. SEND STAMP TO GILMORE & CO. FOR PAMPHLET OF SIXTY PAGES.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 337,000 acres of Bounty Land Warrants outstanding. These were issued under acts of 1850 and prior dates. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

OFFICERS, SOLDIERS and SAILORS of the late war or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All OFFICERS, SOLDIERS and SAILORS wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & CO.

Cases prosecuted by GILMORE & CO. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of a competent and experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & CO. is thus secured. We desire to win success by deserving it. ADDRESS

PORTSMOUTH.

CITY HEALTH REGULATIONS.

THE BOARD OF HEALTH OF THE CITY OF PORTSMOUTH call the attention of the public to the following sections of Chapter 16, of the Revised Ordinances, and invite all interested in the preservation o health in our city to aid them in the execution of their duty:

SEC. 3. All waste water or houses, yards, cellars, sinks, pumps, etc., shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

SEC. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners and occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

SEC. 6. No vender of meat at the stalls shall be permitted to leave any stale meat, heads, fins or offal of any kind about their stale or stores over night, or suffer them to be thrown into any street, lane or alley of the city. Nor shall any soliers of fish be permitted to throw any offal of fish into any street, lane or alley of the city, or upon any wharf, but shall either bury them or throw them into the river beyond low water mark.

SEC. 7. If any dead animal or decaying vegetable substance, or any other nuisance, shall be found in any part of the city, the owners or occupiers of the premises where such nuisance shall be found, shall cause the same to be removed within twenty four hours after being notified so to do by one or more of the health officers.

SEC. 12. When any householder shall know that any person within his family is taken sick of the small pox, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Health Officers.

SEC. 13. When any physician shall know that any person whom he is called to visit is infected with the small pox, or any other disease dangerous to the public health, such physician shall immediately give notice thereof to the Health Officers.

SEC. 14. If any such householder or physician shall refuse or neglect to give the notice required in the preceding sections, he shall for each refusal or neglect, forfeit the sum of twenty dollars, to be recovered by either of the Health Officers in the name of the city.

SEC. 16. The Health Officers may give written notice to the owner or occupier of any building, vessel or enclosure, to remove or destroy any nuisance or other thing deemed by them on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said Health Officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, vessel or enclosure, and cause said nuisance or other thing aforesaid to be removed or destroyed.

SEC. 21. No person shall erect, keep or continue, or so old, to be erected, kept or continued, upon any land occupied by him, any pen for the keeping of swine, or privy, over or near any stream in this city, or so placed that offensive substances therefrom shall be discharged or drained into either of said ponds or into any creek, or cove, or drain leading thereto. And no person shall construct, keep or continue any drain leading from any pen for the keeping of any swine, slaughter-house, privy vault, or other unwholesome or offensive place, into either of said ponds, or to any flat or marsh adjoining the same. And no person shall throw or suffer to be thrown from his land into either of said ponds, or upon any of said flats or marshes, any dead, decaying, unwholesome or offensive animal or vegetable substances.

AYER'S SARSAPARILLA,
For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake with the iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the corking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin. St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine diseases, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

OFFICE NO. 5 MARKET SQUARE.

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color.

It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,
For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

FOSTER, or at the Portsmouth *Weekly* Counting Room. Sent postpaid on receipt of price.

Portsmouth Chronicle.

"Married but No Wife."

There was an interesting case of "married but no wife" before the Supreme Court at Boston last week. Thomas J. Herring, a widower with five children, fell desperately in love with Miss Althea Butters in 1871, proposed and was refused some half dozen times, and finally got her consent by threatening to blow his brains out. But Thomas indiscreetly boasted of his conquest, and Miss Butters broke the engagement. Then there was another long series of proposals and refusals, until the young woman refused even to see him. Then Herring wrote a long letter fixing the hour for his death, and told her to be at home to hear the news, but discreetly sent a friend to plead for an interview, which resulted in her marrying him secretly in April, 1872. She repented of it as soon as it was done, and compromised by agreeing that they should not live together as man and wife for six months, nor tell anybody. The result is that they have never lived together; the more she has seen of him the more has her early dislike for him grown, and she asked the court to annul the marriage. Judge Endicott says, however, that threats of suicide do not constitute duress, and as there was neither error nor fraud the petition could not be granted. The case will probably be taken to the full bench on exceptions.

—A man in Vermont is defendant in two suits for breach of promise of marriage brought by different women at the same time.

—Some one has discovered that a woman can be agent, but a gent can't be a woman. This is one of the rules that won't work both ways.

—The Recamier style of hair-dressing is a favorite autumn mode. In this the hair is combed up from the nape of the neck, and a pouf of curls is placed at the top of the head. The hair in front is also combed upward, but the fringe over the forehead remains, and may hang out straight across like a child's or be arranged in very light frizzes.

—The *Christian Magnet*, of Pittsburg, Texas, strenuously objects to carrying dogs to the sanctuary, to "the brother who spurted tobacco juice on the floor, making a noise like a young cataract," to the fellow who was so lost to all sense of the proprieties of place and time as to stick his cowhide shoes on the back of the pew, and to the bad little "boy who put the wasp down the back of a nodding member, awaking too suddenly that dormant individual."

—It has been stated by European papers that the middle span of the proposed bridge over the Bosphorus will be the longest in the world. Its length is to be seven hundred and fifty feet. This statement causes America to look up the length of her little spans across some backwoods creek, because it must not be supposed that the country is going to stand calmly by and see any bloated monarchy in Europe boast about bridges, even if they are only prospective. The longest span in the world is the recently built bridge from Cincinnati to Covington. The next biggest (in the world) is from Wheeling, West Virginia, to Wheeling Island, and it measures one thousand and ten feet.

—The mutilation of the feet of female children by the Chinese is exceedingly barbarous. A little girl, nine or ten years old, was lately found hobbling about the streets of San Francisco, and on being taken in charge a horrible case of mutilation was revealed. Her feet bore hardly the slightest resemblance to the natural form. It seemed as if a greater part of the bones had been removed by some barbarian surgery, and the toes, with the exception of the large toes on either foot, were turned completely under. The feet, which had the form of elongated hoofs, were bound in bandages and encased in pointed shoes. The child was unable to walk or even stand without experiencing intense pain. Her guardian, a woman, was arrested on the charge of cruelty.

A SPLENDID OPPORTUNITY
TO WIN A FORTUNE.
12TH GRAND DRAWING, 1877.
At New Orleans, Tuesday, Nov. 6th.
Louisiana State Lottery Company.

This Institution was regularly incorporated by the Legislature of the State for Educational and Charitable purposes, in 1868, with a Capital of $1,000,000, to which it has since added a reserved fund of $250,000. Its Grand Single Number Drawings will take place monthly. *It never scales or postpones.* Look at the following scheme:

CAPITAL PRIZE, $30,000.
100,000 Tickets at Two Dollars each.
Half Tickets $1.

Daily Chronicle.

THURSDAY, OCTOBER 11, 1877.

Ohio Election.

There was an election in Ohio on the 9th inst., and the State went democratic by almost any desired majority—somewhere between 10,000 and 25,000, probably; the democrats claim the latter figure, and the republicans concede the former and are willing to throw in the odd 15,000 rather than have any growling about it. The vote was very light. The republican vote in the Western Reserve, the great republican stronghold, fell off most disastrously. In Toledo the "national" ticket won; the democrats carried Columbus by 1000 majority. The returns are meagre; the greenback vote was very heavy, as was the "workingmen's;" and the scratching of tickets was something astonishing. The "policy" of kicking the old workers of the party to the rear, and putting forward reformers with pet hobbies, and ex-confederates, has received a startling endorsement in the President's own State.

Iowa Election.

Iowa went republican on the 9th inst., by a reduced majority.

Circuit Court of the United States.

At Exeter, Wednesday, Oct. 19th, before *Clark, J.*

United States vs. Nelson L. Horton. Respondent charged with passing a counterfeit $10 bank note upon the Mutual National Bank of Troy, N. Y. The evidence was that Horton passed the bill to one Currier, an employe of the National Hotel in Manchester, to be exchanged for small bills, and that Currier went to the saloon of one Thayer, on Elm Street, Manchester, where the bill was given to Mr. Thayer, from whose possession it was traced. The defence offered no evidence. The jury were out about three hours, failed to agree on a verdict, and were discharged. Hall for United States; Copeland for defendant.

Quite a number of physicians from Dover and neighboring towns were in attendance to-day as witnesses in the case of Whitehouse vs. the Travellers Insurance Company.

The Court goes in this (Thursday) morning at nine o'clock.

Washington Correspondence.

WASHINGTON, D. C., Oct. 8th.

Intelligence received at the War Department from Gen. Miles shows that he has with him three companies each from the 2d and 7th cavalry and eight from the 5th infantry. With these he encountered Chief Joseph in full force on Snake Creek on the 30th ult., and after a day's hard fighting he captured about 600 horses, mules and ponies. The Indian killed is given as seventeen, including Joseph's brother, Looking Glass and three other chiefs; wounded, about forty. The list of our killed appears somewhat larger, the number of wounded considerably less. Joseph is represented as having promised to surrender, but Miles appears to apprehend that it was only to gain time to send to Sitting Bull for aid. So far as can be gathered from Miles' despatch to Terry, the influence is that the advantage rested with him up to time of its date. He says he expected Sturgis with reinforcements, and suggests that the Canadian Government be requested to prevent any of the Nez Perces from crossing the line, or, at least, to disarm such as take refuge there. Additional information is awaited with great interest, not wholly free from anxiety.

Interest here is largely divided between the Mexican outrages reported from El Paso county, Texas, and the arrest here Saturday of Senator Patterson of South Carolina. From data at hand it appears that El Paso county is almost wholly peopled by Mexicans; that they have risen *en masse* and have thrown into prison all the officials and every American they can lay hands on, and that there is a perfect reign of terror throughout the county. There is a good deal of excitement here over the matter; and the prediction is made that the occurrence will lead to speedy hostilities.

Many republicans denounce the action of the South Carolina officials in the arrest of Patterson, declaring it a flagrant violation of the tacit agreement entered into last spring that there should be no prosecutions for political offenses on either side. Richbourg, who came as the State agent to make the arrest, obtained a bench warrant from Justice Cartter on Hampton's requisition, on Friday; but when he came to look for his prisoner he was not to be found. After a search of twenty-four hours, Patterson sent word that he could be found at the office of Col. Cook, one of his counsel. It appears that he slyly slipped over the District line to allow time to make all the preliminary arrangements for a writ of *habeas corpus*, directly he was formally arrested. The work was quickly done, for as soon as the deputy had made the arrest, an order was served on him to bring the prisoner at once before Justice Humphreys, who adjudged him till the 17th inst. to file legal objection to the rendition. Bail was fixed at $2,500 and was promptly furnished. The opinion is expressed here that this action will serve to greatly strengthen the anti-administration faction in the House and Senate, and it is also intimated that several supporters of the Administration have appealed to prominent Southerners to "call off their dogs," at least for the time.

Every one here acquainted with the circumstances has his or her opinion (not at all favorable either) of the secret, inquisitorial method Mr. Schurz permitted in the investigation of the Indian Bureau. Witnesses were summoned from all parts of the country and their testimony secretly taken without an intimation to the accused of what was going on. The pretext was similar to that always urged in such Star-chamber proceedings, namely, that the ends of justice could best be subserved in that way.

It appears that a colored jail bird of most unsavory reputation, who, it is suspected, got admitted to the Freedman's Hospital as a spy, under instructions from a certain jealous faction in this District, has made a long list of charges against Dr. Palmer, the Surgeon-in-charge, of the most ridiculous and puerile character. It has long been known that his occupancy of the place has been regarded with disfavor by a wrangling, quarrelling set of men who are ashamed to be known in the disreputable business, but hope to swear away his character in the way intimated, and they appear to regard the precedents established by Mr. Schurz as very much much in their favor.

KNOX.

News and Notes.

John Morrissey is seriously ill.

The steamship England, one of the National Line between New York and Liverpool, has been seized in New York, on account of the silk smuggling frauds. The Denmark, another of the ships of this line, was seized some time ago for the same reason, and bonded in $300,000; the England will be released on the same terms.

During the storm on the night of the 8th inst., schooner Highflyer, of Gloucester, was run down and sunk while at anchor off Ten Pound island, by schooner Henry C. Mackey; crew saved. A large fishing schooner ran on the rocks at Baker's island, Salem harbor, and was abandoned by her crew, who reached the shore in safety; an abandoned schooner, supposed to be the same, drifted on Jack's rocks, off Marblehead, later in the day, and went to pieces. A colored fisherman, with his wife and daughter, were swept away by a wave, which took their house into Newark, N. J., Bay, and all were lost.

During the storm of Thursday night the three-masted schooner Armstrong, Ethcridge master, of Providence, R. I., struck on a bar opposite West Hampton, L. I. The sea made a complete breach over the vessel, and the crew, seven in number, took to the rigging. The wreck was discovered at daylight, and the crew of Life Saving Station 15, under Captain Jessup, went to her assistance. After failing to throw a line to the schooner by mortar, the distance being too great, a life boat was soon launched, and in spite of the heavy surf, the wreck was reached and the shipwrecked men were brought safely to shore. But for the gallant conduct of Captain Jessup and his men, the crew of the Armstrong would certainly have perished. The vessel, which, with a cargo, is a total loss, was a new one, valued at $33,000, and was not insured.

James Smith, of Williamstown, Oswego county, N. Y., on Saturday whipped to death his fourteen-year-old son. The brute, who has once been arrested for murder, escaped.

Overcome with grief at the seduction of his daughter, aged seventeen, Michael Ryan of Indianapolis committed suicide by drowning himself in White river. When his wife heard the news she tried to throw herself under a freight train, and came very near succeeding in her suicidal design. At last accounts both Mrs. Ryan and her daughter were kept under close surveillance, to prevent the former from carrying into execution a threat to kill the girl and then destroy herself, and the latter from committing suicide, as she has threatened.

Professor S. A. Latimore, of Rochester, N. Y., University, has made a careful analysis of water taken from forty suspected wells in the city, and reports them all to be very impure. He advises the citizens to abandon the use of well-water entirely, as a prudential measure against typhoid fever.

Ice did not become an article of commerce until the present century; but already in the United States alone thirty millions of dollars are invested in the business of gathering and selling it. Large shipments of ice are made to South America and Asia; the European nations supplying themselves with ice from Norway. There has been a remarkable increase in the use of the article in the United States since 1845, when only 50,000 tons of it were used. In the year 1876 the consumers bought 2,500,000 tons and probably 5,000,000 tons were cut. Beer brewers are the best customers of the ice companies, several using 30,000 tons of ice annually. So great has become the ice commerce that it now has a neatly and clearly printed newspaper of its own—*Ice Trade Journal*—the first number of which has just been printed.

New Hampshire Items.

Rev. Joseph S. Swaim, of Cambridge, Mass., has accepted a call to the Baptist church in Claremont.

Col. Daniel Hall, naval officer at Boston, has resigned the position of Court Reporter in this State.

The State Grand Encampment of Odd Fellows met at Manchester on the 9th inst. The scribe's report gives the number of encampments in the State as twenty-four; membership, 2167.

Political.

Yates, republican, was re-elected Mayor of Newark, N. J., on the 9th inst., by 200 majority; the republicans elected nine out of fifteen aldermen.

The Springfield *Republican* having stated that Senator Conkling and Ex-Secretary of the Navy Robeson are backing Mr. A. M. Clapp in the publication of the Washington *Republican*, the latter paper informs its Springfield namesake that Conkling knows nothing more of the venture than he has learned from the press, and that Robeson ceased his connection with the paper long before the present management took possession of it, and is not now interested in it to the extent of one dime. If the Washington paper does not yet know that the Springfield one is one of the immaculate "independent" and "reform" sheets, and therefore privileged to lie at any and all times and under any circumstances, it will soon find it out.

The ex-President loses nothing in popularity as time passes, and his simple dignity influences the people more and more. Whether Senator Conkling favors or not, it is entirely among the probabilities that the people will demand his nomination. If nominated, his election will be assured by the grandest popular majority ever given any candidate.—*Pittsburg Gazette.*

Reciprocal Reconciliation.

From twenty to twenty-five republican voters (according to the democratic authorities at the time) were assassinated in cold blood at Ellenton, in Aiken county, South Carolina, about a month after the Hamburg massacre. General Hampton asked President Hayes that the prosecutions against the murderers of these black men should be discontinued because their crimes were "political offenses." Only one man (if we remember rightly) was prosecuted, and although the evidence against him was clear, the democrats on the jury refused to convict him. Now we hear of the arrest of Member of Congress Small, the colored hero who ran out the steamer Planter during the siege of Charleston, and of Mr. Patterson, the only republican Senator from the State of South Carolina.

There is a parable in the Good Book concerning a debtor whom his lord forgave all his indebtedness, and who left his presence and seized one of his own debtors and ordered him to pay the uttermost farthing that he owed.

We recommend that parable to Governor Hampton. Some show, even a faint one, of reciprocal reconciliation would be more potent just now to induce the North to believe in the sincerity of the Southern Bourbon leaders than a thousand speeches in laudation of the President's Southern policy.

When Senator Patterson was arrested recently he gave bonds. This is not the South Carolina method. When Gen. Butler, who claims to be Senator-elect, was arrested for his share in the Hamburg massacre, he rode with a large armed force to the court, and demanded immediate trial! Why does not Senator Patterson emulate his example? Half a dozen rifle clubs are sometimes more influential than a lawyer's plea.

South Carolina seems to have learned nothing and to have forgotten nothing. She appears to be as arrogant and imperious as in the days before Fort Sumter was fired on. If she does not learn to forget some things, it is quite probable that the North may forget to forget other things.

General Butler is not in the Senate yet. —*Washington Republican.*

—The New York *World* classifies "That Husband of Mine," "That Wife of Mine," "My Mother-in-Law," "His Grandmother," and "They All Do It," as "flash inanity."

—The sparrow will have to sign the pledge. He has been "drunk and disorderly," in the language of the Police Courts. But his plea of "not premeditated drunkenness" will be accepted. Geneva, New York, saw him in his moment of degradation. A town liquor-dealer, for some inscrutable purpose, soaked a loaf of bread in whiskey, and then breaking it into fragments, threw it into the roadway before his door. Down swooped a large flock of sparrows, and eagerly devoured the bread. And then there were hoarse chirruping and quarrelsome birds, and a universal fight, and some could hardly fight from staggering, and altogether it sadly resembled some scenes in the life of the superior creature—man.

[ESTABLISHED 1822.]

BOARD OF INSTRUCTION.

The regular meeting of the Board of Instruction was held in the City Rooms on Wednesday evening, the Mayor in the chair.

Declination of Miss Amanda Pickering as teacher of the Franklin school, was received and accepted.

Mr. Shannon moved that Section Four of the regulations adopted at the last meeting be stricken out.

Rejected—seven nays, four yeas—Sherburne, Shannon, Hutchinson and Fender voting yes.

The question then arose on an amendment to Section Four offered by Dr. May, as follows: that the word "hereafter" be stricken out, and "after Jan. 1st, 1879," be substituted. The amendment was adopted.

Miss Josie Prescott was appointed teacher of the Franklin school.

Voted, that all the teachers who wish to attend the Teachers' Institute at Dover, have leave from Thursday noon until Saturday morning.

Adjourned.

POLICE COURT.

Wednesday, Oct. 10th.

John Lord, a tramp, was arraigned for malicious mischief in breaking glass in a window of a barn belonging to Mr. James H. Thompson. A man who works for Mr. Thompson found a hat and coat in the barn, Wednesday morning, and suspecting a man was somewhere around called in officer Bessellevre, who poked around in the hay mow with a long pole and stirred up Mr. Lord, who had burgled the barn to secure lodgings for the night. He was put under $50 bonds for his appearance at the Supreme Court, and went to jail in default.

William Quinn, having failed to find sureties in $200 on his appeal from two sentences imposed on Tuesday, went to jail to serve out thirty days, and long enough besides to satisfy the court $24.57 worth.

THE FLAG STILL FLYING.

We are glad to see the flag still flying from the Sailor's Home. As a cheap and good eating house it has done good service to the temperance cause. Many a one has been the better for it these hard times,—likely to grow harder, if the winter be severe. We are glad of the life of all such institutions. The worst of it is, they don't live. Many a Holly Tree Inn began well, but before long fizzled out. Why? The fact is, to devise and sustain wise means of helping people is not easy, and people who can do so deserve a faithful constituency. As for the sailors, let us heartily welcome them and the business which they bring us. As many of the craft are coast-wise, manned by men who know what home is, let us be glad that they can find a quiet, tidy, well-kept Home here, with a pleasant room for "long yarns." C. C.

[*Note.* We fully endorse our correspondent's praise of the Sailor's Home, and echo the good wishes for its prosperous continuance as one of our regular institutions. It is well kept, and a good meal of wholesome, well-cooked food is furnished very cheaply there. We visited the Home one day recently, and fared sumptuously—but not extravagantly—as follows: One plate (about a quart) of beef stew, ten cents; one cup of tea, (good tea, too,) five cents; one plate plum pudding, five cents; total, twenty cents. We were quite hungry when we entered the place, and we made a hearty meal on twenty cents; and if we had devoured all the beef stew set before us we could not have managed any plum pudding, so our dinner would have cost us but fifteen cents. The choice of dishes is not so large at the Sailor's Home as at the Rockingham House, but then the charges are less, and all the food set forth is good to eat. There is a snug, cosy reading room on the second floor, where the patrons of the Home can smoke, talk, read, play games, etc.; and there are accommodations for lodgers—four single-bedded rooms, and one large room containing a number of beds, all clean and neat, lodgings being thirty-five cents per night in the separate rooms, and twenty-five cents in the big room. The Home is conducted on strict temperance principles, and merits the countenance of all who believe in helping those who try to help themselves,—for the aid extended to working men by furnishing them with good, plain food at the lowest possible price, involves no loss of self-respect on their part, and will be of more value than ever, we fear, during the winter now approaching.—*Ed.*]

RIVER IMPROVEMENTS.

The reports of the officers of engineers of the United States Army in charge of river and harbor improvements for the fiscal year ending June 30th, 1877, have been received by General Humphreys, Chief of Engineers, who is now engaged in collating them for submission to Congress. From the report of Lieutenant-Colonel George Thom we learn that the appropriations available for use during the present fiscal year, or to be asked for of Congress for next year, for rivers and harbors in this vicinity, are as follows:

Improvement of Kennebunk river, Me.,—Amount available, $4992; no further appropriation asked for.

Improvement of Cocheco river, New Hampshire: Amount available, $11,228.08; amount estimated to complete, $11,000; amount that can be profitably used during the fiscal year ending June 30th, 1879, $11,000.

Improvement of Piscataqua river, including the harbor of Portsmouth, New Hampshire: Amount available, $00,000; amount estimated to complete $00,000; amount that can be profitably used during fiscal year ending June 30th, 1879, $00,000.

Improvement of Merrimac river, including the harbor of Newburyport, Mass.,—Amount available, $1251.10; amount estimated to complete, $25,000; amount that can be used during fiscal year ending June 30th, 1879, $25,000.

PORTSMOUTH AND VICINITY.

The Franklin school at Christian shore opens this morning at the usual hour, with a new teacher.

House No. 12 Myrtle street will be sold at auction to-day, at half-past twelve o'clock. See advertisement.

Ensign William Winder of this city has been ordered to the receiving ship Colorado at New York.

Fishing schooner Valiant, of Portland, lost foremast and stove bulwarks by colliding with schooner Andrew Nebinger, in the lower harbor, on the morning of the 9th. The latter vessel was not injured.

If there ever was a homelier-looking garment than the ulster invented, (for men's wear, we mean,) we never were afflicted with a view of it; but the clumsy, bogtrotter-looking thing (the "ulster" is neither more nor less than the Irish peasant's "frieze coat" translated into English) is comfortable, and what is of far greater moment to its wearers, it is the fashion. C. E. Myers & Co., recognizing the importance of the latter fact, have laid in a large stock of ulsters, of all sizes, and are ready to answer all calls for them or almost anything else in the shape of fall and winter clothing for men folks. See advertisement.

There was considerable excitement about town on Wednesday, relative to the long-talked-of legal crusade against the liquor dealers; but the sun went down without any startling developments having taken place. It is reported that from some reason the project of making seizures has been given up, and that the grand jury will be invoked—in some manner to us unknown.

Mr. Wm. P. Walker announces his readiness to take orders for custom-made fall and winter clothing, at the stand he has so long occupied on Market square. He has a large and well selected stock of cloths, which he will be pleased to cut and make up in the latest styles or according to the fancies of his patrons, at as low a figure as first-class material and work can be afforded.

Editor Chronicle: By the way, how would it do for the citizens of Portsmouth to elect none but graduates of normal schools as members of the Board of Instruction? Has the present Board of Instruction *one* member who is a graduate of a normal school? Don't *all* speak at once! ROLAND.

Hon. Thomas L. Tullock has been appointed Assistant City Postmaster to fill the vacancy occasioned by the resignation of Colonel Lewis Porter. Mr. Tullock is a native of New Hampshire, and has resided in this city about twelve years. He received a thorough business education, and besides being a merchant, and treasurer of a New England railroad and other concerns, has held several public positions, secretary of the State of New Hampshire, postmaster at Portsmouth, N. H., and navy agent at Portsmouth naval station during the war of the rebellion. He came to this city as secretary of the Union Republican Congressional Committee, and had charge of it during President Johnson's administration, the reconstruction work, and the first Grant campaign. He was appointed by Secretary Boutwell chief of the Appointment Division of the Treasury, and subsequently collector of internal revenue for the District of Columbia, recently consolidated with a Maryland district. He was superintendent of the Labor Exchange when appointed to his present position—*Washington Union.*

At a meeting of the Governor and Council in Concord on the 9th inst., James E. Ford was appointed captain, and Lorenzo T. Burnham first lieutenant of the Portsmouth City Guards, company F, Second Regiment. A new uniform for the First Regiment was adopted; it consists of a dark blue swallow-tailed coat with buff trimmings, piped with red, three rows of buttons on the breast, and buff epaulettes; the pants are light blue with buff stripe, piped with red; the cap is the same style as worn by the Fifth Massachusetts Infantry, with the addition of a white plume. Two new companies of infantry were authorized, one to be located at Keene, the other at Nashua. In the matter of the appointment of an inspecting officer, authorized by an act of the Legislature, a hearing was granted to several parties interested, but no decision was reached.

The October number of the *United States Official Postal Guide* commences the fourth year of this valuable publication, and is a compact, well-printed volume of 400 pages. The present issue contains two distinct lists of all the forty-odd thousand post offices in the United States, one arranged alphabetically, and the other classified by States and counties; a list of all the money-order offices in the United States and Canada; a list of counties in the United States; rates of postage on all classes of mail-matter, foreign and domestic; information about the money-order and registered letter system, and about the existing postal treaties with all foreign nations; a schedule of the dispatch of foreign mails, and of the arrival and closing of mails in all the principal cities; and rulings of the Post Office Department on doubtful and disputed questions during the summer months. These last include a clear and definite statement of what postmasters will or will not be permitted to do under the new Civil Service Reform regulations, and also an announcement that "postmasters have the right to read the communications on postal cards," but are forbidden to make the information thus obtained public. The *Guide* is published quarterly by H. O. Houghton & Co., Boston, by authority of the Post Office Department. Price 50 cents a number in paper, or $1 in cloth. subscriptions ($1.50 a year) received at the Post Office.

[Written for the Chronicle.]

An Obedient Son.

John Smith and John Smith, Jr., were clerks together in the popular dry goods store of White & Brown, in one of the New England cities, which may have been Portsmouth, until John the younger took a fancy to emigrate to New York. On reaching there, as in duty bound he wrote home a letter, which he directed to "John Smith, care of White & Brown, dealers in pins and tape," which did not specially please Mr. Brown when it met his eye, as the business of the firm embraced a wider scope than "pins and tape," a fact which he suggested to the elder Smith, who, in replying to the letter of John, Jr., told him to direct his letters thereafter to plain John Smith, and nothing else. Great was his surprise, when another letter from New York arrived, to find upon its exterior, "Plain John Smith and nothing else." To his remonstrance, when writing again, against so quaint a direction, the younger replied that his father had always commended him as being the most obedient of his children, and contended that in the case in question he had simply done what he expressed a wish for him to do. In writing again the elder of the pair suggested to the other to direct to John Smith, care of White & Brown, with no reference to tape and needles, or anything else. *Pater familias* gave it up when another missive arrived from his too-obedient offspring, directed "John Smith, care of White & Brown, with no reference to 'tape and pins,' or anything else." ***

What Sweetens the Mouth,

preserves and whitens the teeth, keeps the gums from becoming spongy, neutralizes all impurities that adhere to the dental enamel, and effectually prevents the toothache? Any body can answer this simple question who has ever witnessed the wonderful effects of that matchless vegetable preparation—Sozodont.

Closer than a brother sticks Spalding's Glue.

Use only for HORSES, the liniment in YELLOW wrappers. JOHN H. SLATER, Agent.

ELEGANT HAIR is woman's crowning beauty. When it fades, she fades as well. While it is kept bright, her personal attractions are still maintained. By preserving the hair fresh and vigorous a youthful appearance is continued through many years. Those who grieve over their fading hair turning gray too early, should know that Ayer's Hair Vigor prevents it, and restores gray or faded hair to its natural color. It is a clear and healthful preparation, containing neither oil, dye, nor anything deleterious, and imparts to the scalp what is most needed—a sense of pleasant and delightful freedom from scurf or dandruff.—*New Berne (N. C.) Times.*

January 16, 1877

Daily Chronicle.

—What is "divorce?" Cutting for new partners.

—If knee breeches come in fashion the biggest calf will look best.

—Motto for lawyers: "Where there is a will there is a way"—to break it.

—Dr. Hall says that raw potatoes are good to cure drunkenness. The Murphy movement is at last accounted for.

—First New Yorker—"I consider him a man of first-class business talent." Second New Yorker—"Ah, indeed, what was the amount of his defalcation?"

—A Nebraska Judge decided to give a horse thief one more chance to reform. As the fellow left the neighborhood to begin a newer and better life, he took along the Judge's horse to help him.

—Our sympathies go toward those who are trying to start new daily papers in these times. They undertake an up-hill business, with twenty chances to one that the undertaker—we are sorry to use the word—never gets to the top of the hill, but is thrown back and crushed by the stone he has endeavored to push before him. It seems to be a law of the press that, while its circulation keeps pace with the popular growth of the community, the number of newspapers not only does not hold its own, but actually diminishes.

Centaur Liniments.

One thing is now thoroughly established. Never since man suffered and human agencies alleviated pain has there been any thing which went so far as a pain annihilator and curative agent as the Centaur Liniments. These Liniments have within the past year cured more cases of Rheumatism, Neuralgia, Stiff joints, Caked Breasts, Swellings, Poisonous Bites, Burns, Lame Animals, etc., etc., than all other remedies combined. As the name of Centaur implies half horse and half man, the Centaur Liniments are for man and beast. But not the same Liniment. The White Liniment is for man and the Yellow for horses and animals. Herein this Liniment differs from all other remedies, although some of the ingredients are alike in each. They contain the well-known Witch Hazel, Arnica, Carbolic, Rock Oil, Mentha and other powerful ingredients.

We, R. Hickcox, Rector of St. John's E. Church, Wakefield, Clay Co., Kansas, writes: "Many years I have been suffering from a Weak Back, caused from a sprain more than 40 years ago. I have not found any thing to relieve me until I commenced the use of Centaur Liniment. I feel it my Christian duty to inform you that by his wonderful effects I am entirely relieved of pain. January 22d, 1876."

Messrs. J. McClure & Co., Druggists, Cincinnati, Ohio, say:

"Teamsters pronounce the Yellow Centaur Liniment superior to any thing they have ever used. We sell several dozen bottles per month, and the sale is readily increasing."

These are only samples of thousands upon thousands of similar testimonials reaching us every month. All the Extracts, Embrocations, Salves and Ointments in existence are not doing one-tenth the good which is done by these admirable Centaur Liniments. For Frost-bites, Stings, Cuts, Itch, Salt Rheum, etc., there is nothing like the Centaur Liniment, White Wrapper. For Spavin, Ring-bone, Sweeny, Wind-Galls, Poll-evil, Scratches, etc., on horses, the Yellow Centaur Liniment is equally as good. They are certain in their effects; they are pleasant to use, they are handy and they are cheap. No family should be without Centaur Liniments. They are worth one hundred times their cost.

J. B. ROSE & CO., 46 Dey St., New York.

Castoria.

Mothers may have rest and their babies may have health, if they will use **Dr. Pitcher's Castoria** for Wind Colic, Worms, Feverishness, Sour Mouth, Croup, or Stomach Complaints. It is entirely a vegetable preparation, and contains neither mineral, morphine, nor alcohol. It is as pleasant to take as honey, neither gags nor gripes, and is superior to any remedy in existence.

Dr. E. Dimoch, of Dupont, Ohio, says:

"I am using Castoria in my practice with the most signal benefits and happy results, and find it a perfect substitute for Castor Oil."

This is what every one says. Many nurses in New York use the Castoria. It is prepared by Messrs. J. B. Rose & Co., successors to Samuel Pitcher, M. D. nov1

The Centaur Liniments

have created a revolution in remedies for Rheumatism, Pains, Swellings, Pains, Burns, Scalds, Stings, &c. The White Liniment is for the human family, and the Yellow Liniment is for horses. They are certain, handy and cheap.

Castoria is certain to operate. It does not nauseate or gripe like Castor Oil, but is pleasant to take, digests the food, regulates the bowels, cures wind colic, expels worms, and causes natural sleep. It is equally adapted to adults and infants. It contains neither Mineral, Morphine nor Alcohol. Children teething may have health, and mothers find rest, if they use Castoria. nov1

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as

Ayer's Cherry Pectoral.

It has been known to the public about forty years, by a long continued series of marvellous cures, they have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of Coughs, Colds, Consumption, that can be made by medical skill. Indeed, the Cherry Pectoral has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

HATHAWAY SHIRTS,

A FEW MORE OF THOSE

CELEBRATED HATHAWAY SHIRTS,

Cut Low in the Neck, at

William P. Walker's,

13 No. 8 Market Square.

This Cut Illustrates the Manner of Using

DR. PIERCE'S

Fountain Nasal Injector,

OR

DOUCHE.

This instrument is especially designed for the perfect application of

DR. SAGE'S CATARRH REMEDY.

It is the only form of instrument yet invented with which fluid medicines can be carried high up and *perfectly applied* to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which sores and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. The want of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the primary methods. This obstacle in the way of effecting cures is entirely overcome by the invention of the Douche. Its use is pleasant and so simple that a child can understand it. **Full and explicit directions** accompany each instrument. When used with this instrument, Dr. Sage's Catarrh Remedy cures recent attacks of **"Cold in the Head"** by a few applications.

CATARRH

SYMPTOMS—Frequent headache, discharge falling into throat, sometimes profuse, watery, thick mucus, purulent, offensive, etc. In others, a dryness, dry, watery, weak, or inflamed eyes, stopping up, or obstruction, of nasal passages, ringing in ears, deafness, hawking and coughing to clear throat, ulcerations, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of appetite, indigestion, enlarged tonsils, tickling cough, etc. Only a few of these symptoms are likely to be present in any case at one time.

Dr. Sage's Catarrh Remedy, when used with **Dr. Pierce's Nasal Douche,** and accompanied with the constitutional treatment which is recommended in the pamphlet that wraps each bottle of the Remedy, is a perfect specific for this loathsome disease. It is mild and pleasant to use, containing no strong or caustic drugs or poisons. The Catarrh Remedy is sold at 50 cents, Douche at 50 cents, **by all Druggists.**

BUFFALO, N. Y.

DR. QUAIN'S

MAGIC

CONDITION PILLS!

The Wonderful Remedy for Liver Complaint, Biliousness of Dyspepsia, Constipation, Neuralgia, Rheumatism, Headache, Kidney Complaint, Nervousness, Scrofula, Piles, and all diseases arising from a bad state of the Blood!

No medicine ever offered to the public has given such universal satisfaction as Dr. Quain's Magic Condition Pills. Their praises are on every tongue where their merits are known. They strike at once at the root of dyspepsia and show decided healing power almost immediately. Thousands of voluntary testimonials of their merits have been received by the agent, from those who have been cured by them, of which the following are samples:

Dyspepsia Four Years, Constipation and Inflammation of the Bowels Three Years, Confined to my Room Two Years, Pain so I Could Not Sleep Without Morphine. One Package of Dr. Quain's Condition Pills Made Me Eat Well, Sleep Well and Free from Pain, after being given up by Physicians.

West Lebanon, Me., Feb. 22, 1

Mr. Thomas W. Lane:—I have been sick for 2 years with Dyspepsia, and for the past three years Constipation and Inflammation of the Bowels, have suffered all the pain I could endure and live, have been confined to my room for two years, and could not sleep a wink without the use of morphine. I have been given up by physicians as past cure. I have taken one package of Dr. Quain's Condition Pills, and they have done me more good than all the doctors I have had. I sleep well, I eat well and have no pain. They are all they are recommended to be. Please send me three packages, as one of my neighbors wish to try them. I enclose $1.50.

Your truly, JOHN W. LORD.

Another Letter from Maj. John W. Lord, one month later Wonderful Cures by Dr. Quain's Pills Effected on Him in Thirteen Days. First time Free from Pain for Three Years.

West Lebanon, Me., March 22, 1875.

Mr. Thomas W. Lane:—I commenced taking Dr. Quain's Condition Pills February 9th, and wrote you February 22d of their wonderful effect. I have continued to improve ever since. My appetite is good, and I sleep as well as I ever did in my life. I am free from pain for the first time in three years. When I was taken sick four years ago, I weighed one hundred and eighty-six pounds; I now weigh one hundred and thirty, but, as I am gaining in strength, I have faith I shall regain my flesh this summer, by the use of the Pills. I shall continue taking them for some time to come.

Yours truly, JOHN W. LORD.

Dr. Quain's Pills the Remedy for Soldiers' Aches and Pains.

West Lebanon, Me., June 1, 1875.

Mr. Thomas W. Lane—*Dear Sir:*—I am now able to walk out every day, and am gaining in strength very fast, all of which is due to you as agent for the best Pills in the world. I have taken no other medicine, and my improvement has been steady since first taking Dr. Quain's Condition Pills. They have done everything for me, and I will say to you, advertise them direct to the soldiers, for they will certainly relieve their pains caused from their exposure and hardship on the field. Please send me by return mail another package.

JOHN W. LORD.

Rheumatism for Twenty Years Cured by One Package of Dr. Quain's Condition Pills—"The Best Medicine in the World."

East Andover, N. H., Dec. 16, 1875.

Mr. Lane—*Dear Sir:*—As I know the value of Dr. Quain's Condition Pills and the good they have done me, I take pleasure in giving them praise; so I send you another testimonial. My father has been troubled with Rheumatism for twenty years or more, and has tried everything that could be thought of, but to no good. At times it would be so bad that he could not lift his hand to his head or do any work at all, especially in cold weather. A short time ago I advised him to get some of these Pills. He believed nothing in them, but I gave him the last package I had of you, as I did not need them, and he has not been so free from the Rheumatic Complaint for years. No rheumatism, no pain. What helped him? It was Dr. Quain's Condition Pills, the best medicine in the world. There is nothing like them. *I know it*, for I have tried them, and they are all, yes, more than they are recommended to be. Give them a fair trial and you will say so. I write this because I know the goodness of them and wish others to know the same. Some may think I am telling a big story. I am. But remember I am not giving these half the praise they ought to have.

Yours with respect ED. F. PEVARE.

Wonderful Effect of Four Doses of Dr. Quain's Condition Pills upon Neuralgia of Twelve Years' Duration—Testimony of Rev. J. S. Patton.

Daingerfield, Morris Co., Texas, Nov. 15, '75.

Mr. Thomas W. Lane—*Dear Sir:*—I have been afflicted for near twelve years with Neuralgia in the face and head. I tried I do not know how many physicians, and only got partly relieved. I also tried many patent medicines with the same result. I have been confined to my room most all the time for eight or ten years, and have been traveling and visiting medical springs, and I still suffered most intensely. The physicians pronounced my case the worst and most stubborn that they had had anything to do with. One told me I could never get well; they all advised me to go South and spend the winter, and thought that was the only chance for me, and I was trying to get ready to go to Florida, when through the kindness of Rev. H. M. Mabie, my attention was called to the advertisement of Dr. Quain's Magic Condition Pills. I immediately sent to you for a package. I have taken four doses and I am almost free from pain. The impression here seems to be that if your pills will cure me, they will cure anybody. I have five applications to send for the pills. Enclosed please find three dollars; send five packages to me and one to Mrs. Laura Sherrill, Sulphur Springs, Hopkins county, Texas.

Yours truly, J. S. PATTON.

Liver Complaint, Nervousness, Dropsy and Headache.

Laconia, N. H., Jan. 29, 1875.

Thos. W. Lane—*Sir:*—I have been troubled with Bad Blood, Liver Complaint, Nervousness, Dropsy and Headache. I have taken one package of Dr. Quain's Condition Pills. They have done me more good than all the medicine I ever took; I have taken considerable medicine within the last five years. For the nerves I think there is nothing so good as those pills. I can recommend them to all who are similarly afflicted, they have done me so much good. I think they will recommend themselves wherever they go. I shall recommend those Pills to all who need them. Please send me two packages more, one for myself and one for a lady friend of mine. Many thanks to the inventor, agent and advertiser of those Pills.

MRS. P. L. ELLIOTT.

Dr. Quain's Magic Condition Pills are put up only by the American Medicine Co.,
Manchester, N. H., Thomas W. Lane, Agent.

PULMOCINE.

BUCHMAN'S PULMOCINE CORDIAL

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the inspiriting climate of New England!

PULMOCINE CORDIAL

Is a speedy and reliable Preventive and Remedy. Every Family should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or Inflammation of the larynx, Diphtheria, and all kindred *Throat Diseases* at all times prevalent, it is the choice of *Prevention.* Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate reach. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this *Family Medicine* prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all thus afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and the patient's danger is past.

For Coughs,

Croup,

Diphtheria,

Asthma, etc.,

USE

Buchman's Pulmocine Cordial.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. Its offered to the profession and to the public, absolutely pure and unadulterated.

FRIDAY, OCTOBER 12, 1877.

Ohio Election.

The Ohio election pans out according to the prospect. The democrats claim that they have carried the State by 28,000 to 30,000 majority, and that they will have a majority of forty in the Legislature on joint ballot,—which means Pendleton for U. S. Senator, probably, in place of Stanley Matthews. In the republican strongholds throughout the State the loss was very heavy, mainly owing to dissatisfaction with the President's southern policy and civil service reform order; the working politicians of the republican party being barred out by the President, encouraged the working politicians of the democratic party to do their best, and the contest was all one way.

Iowa Election.

The republican majority in Iowa will not exceed 25,000, against 47,000 in 1875. The republican majority in the Legislature will be about forty. The greenback vote was very heavy, coming close up to that for the democratic ticket.

Circuit Court of the United States.

Thursday, Oct. 11th, before *Clark, J.*

Case Whitehouse (administrator of the estate of Horace Gowen, a city expressman and teamster, late of Dover, deceased,) against the Travellers Insurance Company, was begun on Thursday morning. The deceased was insured by a policy in the Travellers, dated July 16, 1864, to the amount of $3000, against death by external violence and accidental means, and $15 a week indemnification. Gowen was thrown from his job wagon, the seat falling on him, and it is claimed by this reason he came to his death; while the defendants claim that the death resulted not from the alleged accident, but from other and natural causes. The accident occurred May 20, 1875, and the death occurred June 22, 1875; the deceased, as was contended, having struck on his head and shoulders, and died in consequence of the injuries, he having been well up to the time of the injury. His physician certified that anomalous fever was the consequence of the accident. The defendants contend that the accident occurred in consequence of the intoxication of the deceased, and that the disease of which he he died was a bilious typhoid fever. The leading physicians of Dover were in attendance and testified. Nineteen witnesses were examined, nine of whom were physicians.

Case Hitchings vs. Peterborough Railroad has been settled and stricken from the jury list.

The Eastern War.

A despatch from the Grand Duke Michael's headquarters at Karajol, in Asia Minor, says Muhktar Pasha has retreated from Kiziltepe and Soubalan and the Russian troops have occupied those positions.

Chevket and Osman Pashas have joined their forces near Plevna.

A despatch from Belgrade states that the Russian and Servian Governments have signed a convention by which Servia has agreed to co-operate with Russia in the war against Turkey, and will furnish 40,000 men.

End of the Nez Perces War.

Chief Joseph and his band, after a desperate five days' battle with Gen. Miles' command, surrendered unconditionally on the 5th inst.

The savages gave up their arms and ammunition, passing in solemn review before Gen. Miles, and yielding an unconditional surrender. The troops at once took possession of the Indian entrenchments, and the first victory over the redskins during the past two years was signalized. In the charge upon the Indian camp on the first day of the fight sixty-four officers and men were killed and wounded. After the camp had been surrounded and the soldiers had secured defensive positions, only four casualties occurred. The soldiers closed in upon the savages slowly but surely. It was the purpose of Gen. Miles to lose no more men in the attack. On the last day of the fight the troops succeeded in securing a position commanding a stream that flowed in front of the rifle-pits occupied by the enemy, and had the battle lasted another day, their supply of water would have been exhausted and a surrender would have become imperative. On the fourth day of the fight Joseph raised the white flag for the third time and, through an interpreter, who advanced towards his camp, offered to surrender, provided his band were allowed to keep their guns. Gen. Miles sent word back that Joseph must surrender without any reserve and the battle was taken up again. The white flag was again displayed on the fifth day, when Joseph appeared in front of his line and advanced to meet General Miles, to whom he tendered his gun. He was followed by sixty warriors, who also turned over their arms and shook hands with Gen. Miles as they passed. When the troops entered the rifle-pits forty warriors disabled by wounds were discovered. The number of Indians killed is not known, as they had already buried their dead. General Howard, with an escort of seventeen men, arrived on the morning of the surrender, but made no attempt to assume command. He had left his small force of infantry at the Missouri River, and with his small escort of cavalry proceeded to the scene of the battle. The entrenchments occupied by the Indians were admirably constructed for defence. They occupied in all over 160 rifle-pits, which communicated with each other so that assistance could be rendered if necessary. The squaws fought by the side of the warriors, took care of the wounded and buried the dead. When the history of the unparalleled march of the Nez Perces is written, they will be considered to have been endowed with wonderful valor and great humanity. Their defence could not be excelled by any body of men. Of their generosity, seven wounded soldiers lying under the entrenchments live to bear testimony. They took away the guns and ammunition from the disabled troops, but did not offer to molest them.

News and Notes.

Col. Forney has sold the Philadelphia *Press* for $150,000 cash, and the book debts for $30,000, to Capt. W. W. Nevin and his cousin, proprietors of the Pittsburg *Leader*, who will dispose of the latter paper and devote their time to the *Press*.

In the U. S. District Court for Maryland, Judge Giles has dismissed four cases of libel in the suit growing out of the collision between a steamboat and the Norwegian barque Azow last spring in Chesapeake Bay, the barque having been run down and sunk while laying at anchor, in a thick fog. The owners of the barque claimed $35,000 damages, the owners of the cargo $22,500, while $5,000 was claimed for personal injuries, and a small amount on the cargo shipped. Judge Giles, in his decision, says that it is a mistake that when a collision occurs the vessel in motion is always at fault. Usually the burden of proof is on the vessel in motion, and the inquiry is whether she was careful. An appeal to the Supreme Court was taken.

Mrs. Maria F. L. Simpson, seventy-two years old, a resident of South Boston, was instantly killed on Wednesday by an engine while she was trying to cross the Old Colony Railroad track at Commercial street, Harrison Square. On the same day Mrs. Mary McCarthy and her daughter, Mrs. Catherine O'Brien, of South Boston, started to walk on the Old Colony track, both of them being drunk; the mother laid down on the rails, the daughter attempted to pull her off, and while they were squabling an engine came along and knocked them both off the track, breaking both legs and one thigh of the elder woman and badly injuring the other. A Mr. Jones, of Dodgeville, Mass., was killed on the Boston & Providence Railroad, Wednesday evening, while walking on the track.

Gunboat Frolic, arrived at St. Thomas, reports that she was caught in the cyclone of Sept. 23d and sustained considerable damage.

A fight occurred in the democratic senatorial convention at Nyack, N. Y. Charles Jones of Nyack, had his jaw broken by Purroy, of Westchester.

The French Free Masons have long been divided upon the question as to whether a belief in the "Grand Architect of the Universe" should be a dogma of their order. At the recent Masonic Convention in France, the second clause of the constitution, which ran thus: "Free Masonry holds the principle of the existence of God and of the immortality of the soul," was altered by an immense majority to "Free Masonry holds to the principle of an absolute freedom of conscience, and to the brotherhood of mankind. It excludes no one on account of his belief."

Monseigneur Capel, of Kensington (England) Cathedral, in a recent interview with Mr. Jennings, formerly editor of the New York *Times*, said that the high church, or ritualistic party in the church of England, is naturally a feeder of the Roman Catholic Church. But the candid Catholic magnate adds: "I have a hearty contempt for the ritualists. How can any rational man fail to prefer Catholicism to Ritualism?—the religion itself to a mere imitation of it?"

Political.

Great republican victory in Ohio—got rid of Stanley Matthews.

The President does not seem to be much disconcerted by the news of the democratic victory in Ohio, and he remarks, according to a Washington special, that although his policy may create a temporary sinking of the republican stomach, he believes that in a short time it will regain its wonted tone and vigor. At all events he expresses himself as determined to keep on in the way he has been going so successfully, and intimates that if the politicians don't like it they may proceed to make themselves as comfortable as possible on the back seats. —*Boston Globe.*

The Springfield *Union*, commenting on the great defeat won by the republicans in Ohio, asks: "Isn't it about time for President Hayes to begin to 'conciliate' the North a little?"

The republican party in Georgia formally disbanded on Wednesday, by the dissolution of the State committe. The "conciliation" of the South is not far off, though there are still some men left in some of the Southern States who think Jeff Davis, Capt. Wirz, Hamburg Butler, Wade Hampton, *et als.*, were mistaken in their views not many years ago.

"The South wants her share of the public benefits, and she is now in a position to command, not to entreat, and she means to have what is due to her." So says the New Orleans *Times*. As an entering wedge, as a test of how far the South *is* in a position to "command," the *Times* demands the subsidizing of the Texas Pacific railroad.

New Hampshire Items.

Wednesday afternoon the stable belonging to the ancient Weeks house in Greenland was burned, together with a ton of hay and some tools.

Much anxiety is felt about the fate of Emile Reber of Nashua, book-keeper for the Boston, Lowell and Nashua Railroad, who sailed for France two months ago to help settle the large estate of his dead brother, and has not since been heard from. His German wife does not know the town in France to which he was going, and as some Philadelphia persons offered him $30,000 for his share in the estate before he sailed, there is a fear that the whole story of his brother's death was a pretext for trapping him to France because of family unpleasantness with the Government, and that the Philadelphia men are in some way connected with it.

The store of Mr. Abbott Norris at North Hampton was entered Wednesday night through a cellar window. Some groceries and other articles were stolen and the money drawer taken from its place and conveyed to the depot near by, the thieves getting a considerable sum therefrom.

There was a narrow escape from fire at Milford on Thursday evening. A lantern left hanging in D. K. Marvell's barn melted and the bottom dropped out on the floor. The flames flashing up attracted the attention of Mr. Sargent who rushed in and extinguished the flames.

For some time there has been talk that gold and silver existed in the hills at Milford, on the farm of Dea. Henry A. Fletcher. The belief is so strong that a man who has some experience in mining will soon commence digging for the precious article on shares.

LAME AND SICK HORSES, pronounced incurable, cured, free of cost. Giles' Liniment Iodide Ammonia.

Spavins, Splints, Ringbones, Bunches, Thoroughpins. Spring Knees cured without blemish.

Strains, Shoulder Lameness, Navicular Disease, Shoe Boils, care guaranteed. Send for pamphlet containing full information to

Dr. WM. M. GILES, 451 6th Avenue, New York.

Use only for HORSES, the liniment in YELLOW wrappers. JOHN H. SLATER, Agent.

ELEGANT HAIR is woman's crowning beauty. When it fades, she fades as well. While it is kept bright, her personal attractions are still maintained. By preserving the hair fresh and vigorous a youthful appearance is continued through many years. Those who grieve over their fading hair turning gray too early, should know that Ayer's Hair Vigor prevents it, and restores gray or faded hair to its natural color. It is a clear and healthful preparation, containing neither oil, dye, nor anything deleterious, and imparts to the scalp what is most needed—a sense of pleasant and delightful freedom from scurf or dandruff.—*New Berne (N. C.) Times.*

PERSONAL.—NOTICE IS HEREBY GIVEN that all officers and soldiers wounded, ruptured, or injured (however slightly) in the late rebellion, can obtain a pension by addressing G. KESSLER, attorney for claimants, No. 4 New Chambers Street, New York. tfeb16 78

[Communicated.]

THE POOR BOARD DISPUTE.

Mr. Editor: Whatever may be the legal aspects of the controversy between the Mayor and Board of Overseers, the matter as gathered from your columns, resolves itself into just this: that the Mayor, realizing—as most of us do—that the demands upon the city for out of door relief the coming winter will tax to the utmost all the resources, demands that all the needed supplies shall be purchased in such quantities and of such dealers as will give the best returns for the outlay, and that *specific bills* should be given for *each article* purchased. The Board of Overseers—if we understand correctly—insists upon its right to approve bills in the lump, *without items being specified*, and upon purchasing in quantities as needed for each recipient and from the dealers on their own board. Now the public cares comparatively nothing about the technical rights of either party, as to the purchasing, *but it does care* and *does demand* that the business should be done as any sound business man would do his own. Unless these purchases are made at the lowest rates, the poor and the tax-payer are *both* wronged, and unless full and specific bills are rendered it needs no ghost to say that it is at least possible that the latter may be doubly. COMMON SENSE.

Editor of Chronicle: I have read of the proceedings in the Board of Overseers at their last two meetings, as reported in your columns, with much interest, some amusement and very great astonishment. I am interested, as a tax-payer, to know how the city funds appropriated for the relief of the poor are expended; and as a man, to know if the poor get *all* the benefit the city intends they shall receive from the said funds. I have been amused, because it seems to me that the arguments and legal opinions advanced show that the power to purchase supplies for the poor is vested in *neither* of the parties (the Mayor and the Board of Overseers) who are contending for it, but in the keeper of the Alms-house. And I have been astonished beyond measure to learn that bills for supplies furnished on the city's account have been rendered *in gross*, the items not being specified at all; I have been still more astonished to learn that such bills have been approved and paid; and my astonishment reached the superlative degree when I read that one of the Overseers "stated that the law allowed bills to be brought in without the details!" This may be correct; but if it is, the sooner such an asinine law is altered so as to direct that the city business be conducted on business principles, the better it will be for the tax-payers—and the poor as well. In saying this, I especially disclaim any intention to insinuate aught against the present Board of Overseers of the Poor, or any of its members; the *system* of dispensing the city aid is the object of displeasure, as it is absolutely and totally *wrong*. The present *custom* is to elect storekeepers for Overseers of the Poor; and the *law* it seems is, that these Overseers can give to whom they please and when they please, orders for provisions in such quantities as they please, furnishing the goods from their own stores and charging whatever prices they please, and the city must foot the bills! No wonder the position of Overseer of the Poor is sought after. If the city ordinances concerning this matter are so loosely drawn as to permit the city business to be thus loosely conducted, (and I do not think I have stated the case extravagantly,) the sooner the City Government gives us a new and better set of ordinances the better it will please the citizens. ONE OF THEM.

PORTSMOUTH AND VICINITY.

Rev. Canon Walsh was in town on Thursday, looking hale and hearty, and much improved in health.

Beware of accepting thousand dollar greenbacks in change; a dangerous counterfeit of that denomination is in circulation.

The dulcet tones of the Whale's-back fog horn were distinctly heard in this city, as far away as the North Millbridge, throughout a good part of Wednesday night. As the mouth of the trumpet points straight out to sea, and of course the main volume of the sound is sent in that direction, the horn must make a pretty big noise to be heard so plainly so long a distance inland. The old fog-bell could rarely be heard more than a mile away, and even at that distance only under the most favorable circumstances.

We wish to say a good word for the new "Hourly" (which makes trips every fifteen minutes) and its proprietor. Mr. William F. Prior is a young man of steady habits, and a careful driver; and being possessed of an accommodating disposition will no doubt succeed in his venture. He is a cripple and unable to do heavy manual labor, which is an additional reason why the public should encourage him with their patronage in his laudable endeavors to earn an honest living, particularly as he gives an equivalent for each nickel he receives. His comfortable coach may be found every fifteen minutes or so at Thacher's corner on Market square, where he takes passengers for the west end. Fare five cents.

The Governor and Council have appointed Major D. J. Vaughan of Portsmouth to the office of Inspector of the State militia. This is an excellent selection. Major Vaughan is a war veteran who bears upon his person honorable scars, and has a military record of which any man might well feel proud. He is every way competent, and we doubt not that he will not only save from abuse and misappropriation the property of the State, but also add largely to the efficiency of our State militia.—*Concord Monitor.*

At the meeting of the Grand Encampment of New Hampshire Odd Fellows, at Manchester, John H. Locke of this city was elected Grand Patriarch for the ensuing year, and John E. Colcord of this city Grand Inside Sentinel. From the reports submitted it appears that the Grand Encampment is in a flourishing condition, having over $2,200 cash on hand; nearly $1,500 was disbursed for relief during the past year. There are twenty-four Encampments in the State, with a membership of 2,167.

Portsmouth Grange, P. of H., will on Wednesday, Oct. 24th, give a ball exhibition of fruits, flowers, vegetables, grains and articles of household manufacture.

The Wednesday evening freight train from this city for Boston ran over and killed a thoroughbred Ayrshire heifer belonging to Charles Hayes & Son. The animal was valued at $70.

MR. KNAPP'S LECTURES.

The two lectures of Rev. A. M. Knapp, to be delivered on Saturday and Monday evenings next, on ancient architecture, have had in other places a large attendance and much praise. Since the season of the year has come when we must take in our silken, summer sails, and settle down to the earnest efforts of knowing something, building the house of our knowledge one story higher, we commend these lectures as a good beginning for the winter campaign. The subject of the first lecture is Eastern and Grecian architecture; that of the second Roman and Romanesque. The *Romanesgus* was the debased style of the later Roman Empire and has been widely imitated in modern times. The lectures are to be illustrated by stereoptic views, which add much to comprehension and retension. The lecturer is said to have great facility in the handling his theme, and a clear eye to the lessons to be drawn from different national types of building. The characteristics of nations can be seen most clearly in the artistic forms in which they most delighted; and it cannot but be interesting to hear, and also to see how the Pelasgic but grew into the Parthenon, the rude Roman arch into the dome of the Pantheon, as Greek and Roman grew in power and intelligence.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, Atwood J. Adams claimed damages for a sheep killed,—eight dollars.

John W. Wilson was appointed special police without pay, at Portsmouth Bridge.

Need of repairs on school houses was reported; referred to proper committee.

Mayor reported repairs needed to sidewalks in front of city building and Court House. Referred to committee on streets.

Mayor reported western wall at South Millbridge thrown out, and repairs needed, requiring immediate attention. Referred to committee on streets, with power.

City Marshal's monthly report was received and accepted. City Marshal's report on fines and costs was received, and referred to committee on police.

Usual batch of monthly bills considered and ordered to be paid.

Committee on appropriations reported that the appropriation for police department is exhausted. Referred to committee on finance.

Marcellus Eldredge asked permission to set a post in front of his house. Referred to committee on streets.

Communication of Rev. Mr. DeNormandie, resigning his membership in Board of Instruction, was taken from the table, and his resignation accepted. Daniel J. Vaughan was elected to fill the vacancy thus occasioned.

The following protest from the Mayor was submitted to the Board:

MAYOR'S OFFICE, Oct. 11, 1877.

Gentlemen: In regard to the claim of Mr. Miller and the deed of his land to the city, I do not think I should allow the circumstances to pass without adding my protest against the action of the Aldermen. Ordinarily streets are laid out either by petition and upon hearing, or by the owner of land through which they are made opening them, when, after being put in proper order, they are accepted and become public ways,—the abuttors receiving a benefit from the opening of the street equal to the value of land dedicated to the public for a highway. In the present case it seems that the street is not in order for acceptance that we are asked to pay for, in addition establishing a precedent that will be open to the temptation of land operators in the future, and one that might in some instances make inroads upon our Treasury to an unlooked-for extent. The frequent claims made upon the city for damages by reason of alleged defects in highways should make us especially cautious in new undertakings of this nature. On Friday last, in company with the Street Commissioner, I examined the extension of Union street, and the opinion of the Commissioner was that the middle of the highway was dangerous, there being holes in which a horse was liable to get his leg and break it; also that the street required one hundred loads of gravel to render it in good passable condition, so as to avoid accidents for the present. He also thought that by another season some of the ledge ought to be removed from the street. Last year Mr. Miller applied to this board to have his part of Union street accepted. The matter was referred to the whole board, and they visited the premises; they were unanimously of the opinion that the city could not accept it in such a condition, and nothing further was done in the matter at that time. The present year, when Mr. Miller renewed his application, (which was referred to the committee on streets, who visited the premises with myself), the committee thought it was in rather rough shape, and Mr. Miller remarked that he would put the road in as good condition as South road for the sum of $50. Alderman Hadley, for the committee, reported at the next meeting of this board that Mr. Miller be allowed $150 if he would complete the road as good as South street, and deed it to the city. This Mr. Miller refused to accept, and notified this Board that if they did, not take some definite action in the matter presented, he should next day commence a suit against the city. Just what Mr. Miller was going to commence a suit against the city for, I cannot understand, but on being notified so positively you then voted I think (two only voting) to pay Mr. Miller $225, if he would complete the road to the satisfaction of the committee on streets. There are four parallel streets in less distance than a quarter of a mile, running into South street, besides Union street, and if Mr. Miller wishes to cut his land up into streets he no doubt has a perfect right to do so. It has been argued that the opening of this street develops some fine building lots, upon which the city will get additional taxes. I am of the opinion that if any citizen wishes to open a new street on their land, and then put it in fair passable condition, and then ask the City Government to accept it, that it is their duty to give the request its proper attention. I can see no reason, (and if I can appreciate the repeatedly expressed sentiments of our taxpayers they see none), why one citizen who opens his lands for market by laying out a street through them, should be paid for building the street and then for the right of way, while he brings into market for sale, lots of land situated like those of his neighbor who has in like manner brought land into market and enhanced its taxable valuation by the erection of substantial dwellings thereon at his own expense. It seems like making a distinction, which in its workings will be found unsafe, and, I believe, illegal. As to the deed presented, it seems carelessly prepared. It does not describe the land sufficiently, nor does it give the source of ownership to Mr. Miller, from which any person can trace the title, nor is there submitted any evidence that Mr. Miller is the present owner of the land. Besides, the city is asked to take a deed "for the use of a highway"—a highway, which, if put in order as it should be, and at the same time paid for, as now proposed, would, I fear, open a highway to reckless and unlawful expenditure that would lead us far toward bankruptcy. I give these suggestions solely because I wish to confine our expenditures to legitimate matters within our authority and consistent with the interests of the city. There is another consideration, to which I have not had time to give my especial attention, and that is the power of the city to make this a highway by the means attempted here to be employed. I infer that streets and public ways can only be laid out and become accepted and legal streets and roads by legal action, pointed out by the statutes of the State, and whether the Board of Aldermen can vote to pay money for a highway laid out in a way other than the mode prescribed by law, and such action on their part be legal, is a matter which is deserving, I think, of your careful enquiry. In my position, I am obliged to listen to continual complaints of taxpayers, by no means confined to the heavy taxpayers or the wealthy, but from those of moderate means, upon whom the burthen of public taxes, now as always, bear the heaviest; and in the belief that you would no sooner vote to pay an improper claim than the Ex-Mayor would be likely to receive it after reflecting upon its unprecedented, and, I am led to conclude, illegal character, I have submitted these views, asking your pardon for detaining you so much longer than I intended.

JOHN H. BROUGHTON, Mayor.

Alderman Hadley wished to have it stated that the city is not liable for damages for any cacident occurring on any street not laid out after a proper hearing, or kept open to the public for a period of twenty years. The Mayor's protest was laid on the table until the next meeting; and it was voted that the Board visit the premises at the call of the Mayor.

Cesspool on State street, above Cabot, was reported in bad condition; referred to committee on drains.

Alderman Hoyt recommended that sewer be removed from Rock street to Pearl, and run into main sewer on Hanover street.

It was recommended that the committee on printing be instructed to report how the city printing and advertising can be done at uniform rates and brought under the direct control of the Board. Referred to committee on printing.

Communication was received from the Inspector of Petroleum, asking the Board to define his duties. Communication accepted, and subject referred to committee on gas lights.

Committee on gas lights reported two naptha lights on South street not lighted for one year. Ordered that Chase Gray be appointed lamplighter on South street.

Complaint about Hanover street schoolhouse vault was received, and referred to committee on schoolhouses.

Adjourned for two weeks.

Base ball, Wednesday: Manchesters 9, Fall Rivers 9; Stars (of Syracuse, N. Y.,) 6, Bostons 0.

Boston on Wednesday sent $1000 to Fernandina, Fla., for the relief of the yellow fever sufferers.

The Agricultural Board will hold meetings at Hanover, on the 23d and 24th inst.

GEORGE L. TREADWELL, Treasurer.

January 16, 1877]

Daily Chronicle.

—Champion, N. Y., has a matron who was married three years ago at the age of eleven. She still rolls down hill with the other girls.

—They had a "Worst" festival in St. Louis Sunday, at which "ten miles of sausage, two barrels of sauer-kraut, seven bushels of pancakes, and other delicacies" were provided. We should say that it was the Wurst festival we ever heard of.

—A curious elopement took place in England the other day. An old gentleman ran away with a young girl, and to the great disgust of her parents the couple were not caught until they were safely married, and all the indignant papa could do was to upbraid his daughter for marrying a man old enough to be her father, much older, indeed, than he was himself. A few weeks of happiness, or the reverse, with her aged adorer proved enough for the young bride, who incontinently ran away again with a young fellow she met at a foreign watering place. There was, of course, a great scandal, and her father came once more to upbraid her with the enormity of her behavior. "Really, papa," said the unreasonable young person, "there's no pleasing you; you told me before you would not have minded it if it had been a young' man, and now when I have chosen a young man you are just as angry!"

Centaur Liniments.

One thing is now thoroughly established. Never since man suffered and human agencies alleviated pain has there been any thing which went so far as a pain annihilator and curative agent as the Centaur Liniments. These Liniments have within the past year cured more cases of Rheumatism, Neuralgia, Stiff-joints, Caked Breasts, Swellings, Poisonous Bites, Burns, Lame Animals, etc., etc., than all other remedies combined. As the name of Centaur implies half horse and half man, the Centaur Liniments are for man and beast. But not the same Liniment. The White Liniment is for man and the Yellow for horses and animals. Herein this Liniment differs from all other remedies, although some of the ingredients are alike in each. They contain the well-known Witch Hazel, Arnica, Camphor, Rock Oil, Mentha and other powerful ingredients.

Wm. H. Hickcox, Rector of St. John's E. Church, Wakefield, Clay Co., Kansas, writes: "Many years I have been suffering from a Weak Back, caused from a sprain more than 40 years ago. I have not found any thing to relieve me until I commenced the use of Centaur Liniment. I feel it my Christian duty to inform you that by its wonderful effects I am entirely relieved of pain. January 23d, 1876."

Messrs. J. McClure & Co., Druggists, Cincinnati, Ohio, say:

"Teamsters pronounce the Yellow Centaur Liniment superior to any thing they have ever used. We well several dozen bottles per month, and the sale is steadily increasing."

These are only samples of thousands upon thousands of similar testimonials reaching us every month. All the Extracts, Embrocations, Salves and Ointments in existence are not doing one-tenth the good which is done by these admirable Centaur Liniments. For Frost-bites, Stings, Cuts, Itch, Salt Rheum, etc., there is nothing like the Centaur Liniment, White Wrapper. For Spavin, Ring-bone, Sweeney, Wind-Galls, Poll-evil, Scratches, etc., on horses, the Yellow Centaur Liniment is equally as good. They are certain in their effects; they are pleasant to use, they are handy and they are cheap. No family should be without Centaur Liniments. They are worth one hundred times their cost.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Castoria.

Mothers may have rest and their babies may have health, if they will use **Dr. Pitcher's Castoria** for Wind Colic, Worms, Feverishness, Sour Mouth, Croup, or Stomach Complaints. It is entirely a vegetable preparation, and contains neither mineral, morphine, nor alcohol. It is as pleasant to take as honey, neither gags nor gripes, and is superior to any remedy in existence.

Dr. E. Dimoch, of Dupont, Ohio, says:

"I am using CASTORIA in my practice with the most signal benefits and happy results, and find it a perfect substitute for Castor Oil."

This is what every one says. Many nurses in New York use the CASTORIA. It is prepared by Messrs. J. B. ROSE & CO., successors to Samuel Pitcher, M. D. tnov1

The Centaur Liniments have created a revolution in remedies for Rheumatism, Bruises, Swellings, Pains, Burns, Scalds, Stings, etc. The White Liniment is for the human family, and the Yellow Liniment is for horses. They are certain, handy and cheap.

Castoria is certain to operate. It does not nauseate or gripe like Castor Oil, but is pleasant to take, digests the food, regulates the bowels, cures wind colic, expels worms, and causes natural sleep. It is equally adapted to adults and infants. It contains neither Mineral, Morphine nor Alcohol. Children teething may have health, and mothers find rest, if they use Castoria. tnov1

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as Ayer's Cherry Pectoral. It has been known to the public about forty years, by a long continued series of marvellous cures, that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and gives a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

DOCTOR PIERCE'S ALT. LIVE. OR Golden Medical Discovery

CURES DISEASES OF THE THROAT, LUNGS, LIVER & BLOOD

In the wonderful medicine to which the afflicted are above directed for relief, the discoverer believes he has combined in *harmony* more of *Nature's* sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple, or Eruption.** Mercurial disease, Mercurial Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.

If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flashes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver,** or "**Biliousness.**" In many cases of "**Liver Complaint**" only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.

SOLD BY DRUGGISTS AT $1 PER BOTTLE.

Prepared by **R. V. PIERCE, M. D.,** Sole Proprietor, at the WORLD'S DISPENSARY, Buffalo, N. Y.

DR. QUAIN'S MAGIC CONDITION PILLS!

The Wonderful Remedy for Liver Complaint, Biliousness Dyspepsia, Constipation, Neuralgia, Rheumatism, Headache, Kidney Complaint, Nervousness, Scrofula, Piles, and all diseases arising from a bad state of the Blood!

Is the ultima thule of Medical Discovery.

No medicine ever offered to the public has given such universal satisfaction as Dr. Quain's Magic Condition Pills. Their praises are on every tongue where their merits are known. They strike at once at the seat of disease and show their healing power almost immediately. Thousands of voluntary testimonials of their merits have been received by the agent, from those who have been cured by them, of which the following are samples:

Dyspepsia Four Years, Constipation and Inflammation of the Bowels Three Years, Confined to my Room Two Years, Pain so I Could Not Sleep Without Morphine. One Package of Dr. Quain's Condition Pills Made Me Eat Well, Sleep Well and Free from Pain, after being given up by Physicians.

WEST LEBANON, ME., Feb. 22, 1

MR. THOMAS W. LANE:—I have been sick for 5 years with Dyspepsia, and for the past three years Constipation and Inflammation of the Bowels. I have suffered all the pain I could endure and live. have been confined to my room for two years, and could not sleep nights without the use of morphine. I have been given up by physicians as past cure. I have taken one package of DR. QUAIN'S CONDITION PILLS, and they have done me more good than all the doctors I have had. I sleep well, I eat well and have no pain. They are all they are recommended to be. Please send me three packages, as two of my neighbors wish to try them. I enclose $1.

Your truly, JOHN W. LORD.

Another Letter from May. John W. Lord, one month later Wonderful Cures by Dr. Quain's Pills Effected on Him in Thirteen Days. First time Free from Pain for Three Years.

WEST LEBANON, ME., March 22, 1875

MR. THOMAS W. LANE:—I commenced taking DR. QUAIN'S CONDITION PILLS February 8th, and wrote you February 23d of their wonderful effect. I have continued to improve ever since. My appetite is good, and I sleep as well as I ever did in my life. I am free from pain for the first time in three years. When I was taken up I weighed but one hundred, one hundred and eighty-six pounds; I now weigh one hundred and twenty-two, as I am gaining in strength, I have faith I shall regain my flesh this summer, by the use of the Pills. I shal continue taking them for some time to come.

Yours truly, JOHN W. LORD.

Dr. Quain's Pills the Remedy for Soldiers' Aches and Pains.

WEST LEBANON, ME., June 1, 1875.

MR. THOMAS W. LANE—*Dear Sir:*—I am now able to walk out very well to-day, and am gaining in strength very fast, all of which is due to you as agent for the best Pills in the world. I have taken no other medicine, and my improvement has been steady since first taking DR. QUAIN'S CONDITION PILLS. They have done everything for me, and I will say to you, advertise them direct to the soldiers, for they will certainly cure them of aches and pains caused from exposure and hardship on the field. Please send me by return mail another package.

JOHN W. LORD.

Rheumatism for Twenty Years Cured by One Package of Dr. Quain's Condition Pills—"The Best Medicine in the World."

EAST ANDOVER, N. H., Dec. 10, 1875.

MR. LANE—*Dear Sir:*—As I know the value of DR. QUAIN'S CONDITION PILLS and the good they have done me, I take pleasure in giving the same praise; so I send you another testimonial. My father has been troubled with Rheumatism for twenty years or more, and has tried everything that could be thought of, but to no good. At times it would be so bad that he could not lift his hand to his head, or do any work at all, especially in cold weather. A short time ago I advised him to get some of these Pills. He believed nothing in them, but I gave him the last package I had of you, as I did not need them, and he has not been so free from the Rheumatic Complaint for years. No Rheumatism, no pain. What helped him? It was DR. QUAIN'S CONDITION PILLS, the best medicine in the world. There is nothing like them. I *know it,* for I have tried them, and they are all, yes, more than they are recommended to be. Give them a fair trial and you will say so. I write this because I know the goodness of them and wish others to know the same. Some may think I am telling a big story. I am. But remember I am not giving them half the praise they ought to have.

Yours with respect ED. F. PEVARE.

Wonderful Effect of Four Doses of Dr. Quain's Condition Pills upon Neuralgia of Twelve Years' Duration—Testimony of Rev. J. S. Patton.

DAINGERFIELD, MORRIS CO., TEXAS, Nov. 15, '75.

MR. THOMAS W. LANE—*Dear Sir:*—I have been afflicted for near twelve years with Neuralgia in the face and neck. I tried *I do not know* how many physicians, and could only get partly relieved. I also tried the most celebrated patent medicines with the same result. I have been confined to my room most all the time for eight or ten winters, and have been travelling and using medical springs, and still suffered most intensely. The physicians pronounced my case the worst and most stubborn that they had had anything to do with. One told me I could never get well; they all advised me to go South and spend the winter, and thought that was the only chance for me, and I was trying to get ready to go to Florida, when through the kindness of Rev. H. M. Mathis, my attention was called to the advertisement of Dr. Quain's Magic Condition Pills. I immediately sent to you for a package. I have taken four doses and I am almost free from pain. The impression here seems to be that if your pills will cure me, they will cure anybody. I have five applications to send for the pills. Enclosed please find three dollars; send five packages to me and one to Mrs. Laura Sherrel, Sulphur Springs, Hopkins county, Texas.

Yours truly, J. S. PATTON.

Liver Complaint, Nervousness, Dropsy and Headache.

LACONIA, N. H., Jan. 29, 1875.

THOS. W. LANE—*Sir:*—I have been troubled with Bad Blood, Liver Complaint, Nervousness, Dropsy and Headache. I have taken one package of DR. QUAIN'S CONDITION PILLS. They have done me more good than all the medicine I ever took; I have taken considerable medicine within the last five years. For the nerves I think there is nothing so good as those pills. I can recommend them to all who are similarly afflicted, they have done me so much good. I think they will recommend themselves wherever they go. I shall recommend those Pills to all who need them. Please send me two packages more, one for myself and one for a lady friend of mine. Many thanks to the inventor, agent and advertiser of those Pills.

MRS. P. L. ELLIOTT.

DR. QUAIN'S MAGIC CONDITION PILLS are put up only by the AMERICAN MEDICINE CO.[1] Manchester, N. H., THOMAS W. LANE, Agent.

PULMOCINE.

MAGIC

BUCHMAN'S PULMOCINE CORDIAL

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the lung-trying climate of New England!

PULMOCINE CORDIAL

Is a speedy and reliable Preventive and Remedy. Every Family should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred *Throat Diseases* at all times prevalent, it is the ounce of *Prevention.* Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate each. A dose of PULMOCINE CORDIAL gives speedy elief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this *Family Medicine* prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all thus afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and patient's danger is past.

For Coughs,

Croup,

Diphtheria,

Asthma, etc.,

USE

Buchman's Pulmocine Cordial.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "wailing in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, absolutely pure and unadulterated.

Secures Patents in the United States; also in Great Britain, France and other foreign countries. Copies of the claim of any Patent issued by mail, costing one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successfu* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more able and efficient in securing their rights and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—Dear Sir: You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you.

Yours truly, GEORGE DRAPER.

CITY HEALTH REGULATIONS.

THE BOARD OF HEALTH OF THE CITY OF PORTSMOUTH call attention of the public to the following sections of Chapter 10, of the Revised Ordinances, and invite all interested in the preservation o health in our city to aid them in the execution of their duty:

SEC. 5. All waste water or houses, yards, cellars, sinks, pumps, etc., shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

SEC. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. All owners and occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and like sum for every week's neglect after the time above specified.

SEC. 6. No vender of m at at the stalls shall be permitted to leave any state meat, heads, offal or any kind about their stalls or stores over night, or suffer them to be thrown into any street, lane or alley of the city. Nor shall any sellers of fish be permitted to throw any offal of fish into any street, lane or alley of the city, or upon any wharf; but shall either bury them or throw them into the river beyond low water mark.

SEC. 7. If any dead animal or decaying vegetable substance, or any other nuisance, shall be found in any part of the city, the owners or occupiers of the premises where such nuisance shall be found, shall cause the same to be removed within twenty four hours after being notified so to do by one or more of the health officers.

SEC. 12. When any householder shall know that any person within his family is taken sick of the small pox, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Health Officers.

SEC. 13. When any physician shall know that any person whom he is called to visit is infected with the small pox, or any other disease dangerous to the public health, such physician shall immediately give notice thereof to the Health Officers.

SEC. 14. If any such householder or physician shall refuse or neglect to give the notice required in the preceding sections, he shall for each refusal or neglect, forfeit the sum of twenty dollars, to be recovered by either of the Health Officers in the name of the city.

SEC. 16. The Health Officers may give written notice to the owner or occupier of any building, vessel or enclosure, to remove or destroy any nuisance or other thing deemed by them on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said Health Officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, vessel or enclosure, and cause said nuisance or other thing aforesaid to be removed or destroyed.

SEC. 21. No person shall erect, keep or continue, or permit to be erected, kept or continued, upon any land occupied by him, any pen for the keeping of swine, or privy, over either of the mill ponds in the city, or so placed that offensive substances therefrom shall be discharged or drained into either of said ponds or into any creek, or cove, or drain leading thereto. And no person shall construct, keep or continue any drain leading from any pen for the keeping of any swine, slaughter-house, privy vault, or other unwholesome or offensive place, into either of said ponds, or to any flat or marsh adjoining the same. And no person shall throw or suffer to be thrown upon his land into either of said ponds, or upon any of said flats or marshes, any dead, decaying, unwholesome or offensive animal or vegetable substances.

AYER'S SARSAPARILLA,

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake with the Iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action will be impaired, and who e substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine diseases, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

HALL'S

VEGETABLE SICILIAN

HAIR

RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color.

It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

MANUFACTURED BY

R. P. HALL & CO., Nashua, N. H.

LANGDON PARK

PORTSMOUTH, N. H.

THE citizens of Portsmouth are respectfully informed that the funds placed in the hands of Trustees by citizens and others have been entirely expended in the improvements thus far made in the Park. We, therefore, would hereby inform all interested that we are ready to expend in further adornments and improvements of the grounds, such sums as may be donated for the purpose; and contributions of any amount are hereby solicited to be sent at any time to the Treasurer or either of the other Trustees.

Board of Trustees.

FRANK W. MILLER, Chairman.
HENRY M. CLARK, Treasurer.
T. SALTER TREDICK, Secretary.
ALFRED M. HOYT.
JOS. HILLER FOSTER.
MOSES H. GOODRICH.
JOHN H. BROUGHTON, Mayor, *Ex. Of.*

The PAMPHLET which was printed last year, containing a report of all the proceedings at the Dedication of the Park, the Addresses of Rev. Mr. DeNormandie, Hon. C. L. Woodbury and others, with a full list of the 300 Trees set, and the names of the persons or Associations who set or paid for them—may be had at 25 cents per copy, at the Bookstore of J. H. FOSTER, or at the Portsmouth *Weekly* Counting Room. Sent postpaid on receipt of price.

Portsmouth Chronicle.

Good Use for a Dime.

We advise all our readers to forward their address and ten cents to Orange Judd &Co., 245 Broadway, New York, who make a splendid offer to send for this sum (half price and postage) the number for October 1st, the *American Agriculturist*. This splendid number, besides over fifty engravings, contains a great amount of useful, practical, reliable, seasonable information, not only for the Farm and Garden, but for the Household, Children included. Most will get from it hints and suggestions worth ten or twenty times its cost. Better still, to send $1.60 and receive the paper, post-paid, from now to the end of 1878—that is, all of volume 37, with the rest of this year *free*. (Two copies for $1.50 each.) Nowhere else can one get so much really valuable, paying information for so little money—not three cents a week, a sum easily saved or produced extra, which the paper will be sure to help one do. This journal is prepared by practical men and women who know what they talk and write about from actual experience and large observation, and they can and do greatly aid others to profitable planning and working. Many single hints and suggestions each abundantly repay a year's cost. The fearless exposures of quackery and humbugs in every number, are invaluable, and have saved its readers and the country millions of dollars. The departments for the Household and Children are pleasing and instructive. Every number of the paper is beautifully illustrated. In short, the *American Agriculturist* is full of good things, for every man, woman and child, in city, village and country. Take our advice and send $1.60 for fourteen months, or at least send a Dime for the half-price specimen now offered, and see it for yourselves.

A Singular Discipline.

Southington (Conn.) temperance people appear to have peculiar ideas of the mercy which should be extended to the erring. One day recently it was discovered that a man who had signed the temperance pledge some time previously, had failed to keep the promise made. A temperance excitement is raging in the town and perhaps things are seen morbidly. At any rate, the erring brother was bound to a wheelbarrow and wheeled about the town, accompanied by a large crowd of men and boys, who beat drums and made other noises to attract attention. Whether this Pandemonic exhibition is calculated to induce men, who so desire, to sign the pledge, but who think perhaps in the weakness of human nature they may sometimes lapse, is an open question. The exhibition appears fanatical rather than reformatory.

—Two Troy brothers, who went home late one night recently, from a celebration, disliked to arouse their aged father. One of them, after infinite pains, effected an entrance into the house by means of a grapevine and a back window. Then taking off his shoes he stealthily descended to the door to let in his brother, and found it unlocked.

—Hamburg edgings are now cut out by machinery, with such accuracy as to leave a perfect edge, and sold at the same prices as the uncut edgings. The cut-out edgings are not of the regulation four and a half yards, but are neatly sewed together, and sold in all lengths.

—The Sunday school at Tilton, Ky., passed a resolution last spring that any scholar attending the circus should pay five cents to the treasury, any teacher twenty-five cents, and the Superintendent $5. A nice, crisp V was put in the box last Sunday, and the Superintendent still wears his summer hat.

—An Erie express train was late one day, and an anxious passenger went to the engineer, and wanted to know of him if he couldn't make up the time. Said the knight of the throttle: "Look here, mister, I had rather go into Hornellsville ten minutes late than to run this train to Tophet on time!"

Daily Chronicle.

SATURDAY, OCTOBER 13, 1877.

Washington Correspondence.

WASHINGTON, D. C., Oct. 10th.

Republican supporters of the "Southern policy" are much dejected over the adverse verdict rendered in Ohio yesterday, and democratic supporters are correspondingly elated over their party's success in the President's own State, where Administration republicans had insisted on making Mr. Hayes' endorsement a feature of the campaign. The significance of the result cannot be winked out of sight or disposed of by saying that it was one of the ordinary vicissitudes of party politics; nor do the votes drawn off by the greenback and workingmen's movements satisfactorily account for the republican apathy or the heavy democratic majority reported, which has equally astonished everybody apparently. Some republican growlers insist that Mr. Stanley Matthews should accept a portion of the result as a personal rebuke, while others claim that Mr. Garfield cannot fail to take a part of it to himself as implying something of the feeling of distrust entertained toward him for consenting to sacrifice principle to expediency. Be that as it may, neither can reflect upon the result with complacency, as at one fell blow it dissipates the pleasing picture of senatorial honors.

It seems to be on the programme to dismiss Collector Arthur from the New York Custom House, and to compensate him for his loss by a foreign appointment, because he has shown himself faithful and competent. Now there are a good many censorious people inquiring why, if that is the character he has earned in the Custom House, he should be removed at all, and give place to an untried man, who, however honest and competent, must spend months in familiarizing himself with the work of the office; but if this certificate of character is all a polite romance, just put out to spare his feelings, it is stupidly urged that he is not eligible to any office under our nobly reformed civil service.

The second storm that came to flood the unprotected rooms of the 9th and G street wings of the Patent Office, appears to have aroused Mr. Schurz to the fact that some sort of a roof or protection to the valuable records left by the fire might be desirable before they were wholly destroyed by the fall rains. Accordingly he adjusted his eyeglasses and then set the contractors at work night and day, and the temporary roof is in an advanced stage of completion.

The family jars growing out of the contest for the Speakership, are fast assuming considerable magnitude. The headquarters of the several contestants were lively yesterday, and their chances were hotly discussed by intemperate adherents till a late hour last night. All the candidates that have been mentioned were in town, save Sayler, who is expected to-day fresh from the field of his Ohio triumph; Ellis, meanwhile, represents him. Notwithstanding the intrigues and combinations thus far reported, having as their ultimate object the defeat of Randall, he will be the successful candidate in the estimation of nine out of every ten of those watching developements. Thompson, it is thought likely, will be reelected without serious opposition. The contest for Clerk lies between Adams, of Kentucky, and Colwell, of Alabama.

KNOX.

The Troubles in Western Texas.

In view of the possible complications that may arise from the so-called Mexican revolt in Western Texas, the following from a correspondent of the Providence *Journal* is of interest:

"The troubles near El Paso, on the Rio Grande, it appears grew out of the seizing of a salt lake or pond, near El Paso, and compelling all persons taking the salt therefrom to pay the claimants of the pond forty cents a bushel for all the salt taken by them. While connected with the United States and Mexican Boundary Commission, I passed some months at El Paso, San Eleazario and Ysleta, the villages where, it is said, the late riot took place, in which Judge Howard was forcibly taken by the people and thrown into jail. Permit me therefore to state some facts which may throw light on the case. About thirty miles from El Paso is a salt lake or pond, which yields a large quantity of pure salt, requiring only the labor of shovelling it into wagons from the shore of the lake. This lake has, from the very settlement of the country, more than three hundred years ago, been public property. A train of carts or wagons has annually gone to the pond, and brought away the salt—the late papers say the annual yield is 300,000 pounds. All northern Mexico, as well as New Mexico and western Texas, has derived its salt from this pond from the earliest period, with the mere trouble of carting it away. Even the city of Chihuahua, three hundred miles distant, has depended on this pond for its supply of salt. It appears now that some 'land-grabbers' have seized upon the pond, by covering it with a land title, and demanded fifty cents a bushel for all the salt taken. What this title is we know not, but presume it is one, under a late act of Congress, known as the 'Desert Lands Act.' This law was lobbied through Congress by a ring of speculators in California, by which they have been and are still 'locating,' or covering with their titles, hundreds of thousands of acres of valuable lands in California, Arizona, Colorado, New Mexico, etc., on the ground that they are desert lands. This act is so worded that any land which requires to be irrigated to render it productive is called 'Desert Land.' Now, when we state that no land can be cultivated in the larger portion of California, or in any of the Territories named, without artificial irrigation, it will be seen how much injury may be done by this nefarious act. So outrageous have already been the proceedings of the ring of land-grabbers in California that, upon representations from that State, the Secretary of the Interior has directed that a check shall be put to their proceedings by forbidding titles being issued to them from the land office. The seizing upon the salt pond in question and diverting it to private benefit can only be compared to a spring of water on public land from which the surrounding country obtained its supply, which was covered by a land title and the people compelled to pay for their water. We are not surprised that the people of El Paso and the adjacent villages should rise *en masse* and 'give the land-grabbers rough handling. The New York papers say that the firm of Foster, Ludlow & Co. of that city, are the owners of the salt pond. We would like to see it stated by what means the New York house became possessed of the property."

Circuit Court of the United States.

Friday, Oct. 12th, before Clark, J. The case Whitehouse, administrator, against the Travellers Insurance Co., was given to the jury in the forenoon. The court in the charge said that the statement charging the company with fraud in having the conditions of the policy printed in small type, was not properly made, as in the policy in large type reference was made to these conditions; and that the company had the right under the terms of the policy to have the autopsy, and if Mrs. Gowen desired her physician to be in attendance it was her duty, not that of the company, to invite his presence. The contract was that there should be no recovery unless the accident left signs of the injury external and visible, and whether this was shown was a fact for the jury; and whether the accident solely occasioned the death must be shown. The evidence, arguments and charge in the case were phonetically reported by Mr. Charles T. Brown of Manchester, at the request of the defendants. Judge Clark's charge in this case was regarded by the members of the bar present as particularly able, giving a clear view of the law applicable to cases of this kind. The jury were in consultation but a short time, and returned a verdict for the defendants.

News and Notes.

By an explosion in the King colliery, near Wigan, England, Thursday, forty miners lost their lives.

Wm. B. Gilman, the New York insurance scrip forger, gave himself up on Friday; he was arraigned before Recorder Hackett, pleaded guilty, and was sent to State Prison for five years.

Judge Wright, of Indiana, assaulted Columbus Delano in Washington on Friday, knocking him down with a stick. Delano was badly hurt.

Steamer Cousett, from Antwerp for New York, ran down and sunk ship Jessore, from Liverpool for Melbourne with passengers, 100 miles west of Fastnet light, Wednesday morning. The steamer saved all hands from the Jessore, and reached Queenstown, Ireland, with her bows stove in and her forward compartment filled with water.

Mr. J. B. Gardner, agent of the Providence line of steamboats, says the wrecking company who are at work on the Massachusetts have undertaken more serious and hazardous jobs in this line, and almost always with success. They have commenced to build air-tight bulkheads in the steamer, under water, and will proceed to pump the vessel out at once, using for that purpose a series of pumps, two of which are of such magnitude as to raise 400 barrels of water a minute. They are the same pumps used in raising the Oceanus, which steamer it will be remembered had eighteen feet of her keel entirely broken out. The water is smooth at present, and unless the wind kicks up a sea that will cause the divers to lay off, the Massachusetts will soon be in the dry-dock. He further says that the steamer is strained but very little, and that the damage is far below what the company had expected.

Two men, Matthew Huntwell and Adolph Jackson, of the crew of the schooner Andrew Leighton, were lost overboard and drowned by their dory capsizing while fishing on the Grand Banks, on the 29th of September.

The shore mackerel fleet are mostly off Cape Cod and are catching but a few barrels daily, as the season is about drawn to a close. There will be but a light stock in the market.

On Wednesday a large haul of porgies was made off Cape Cod, estimated as high as 8,000 barrels.

The late Stanley Matthews has arrived in Washington.

Schooner Silas Barnard, from Perth Amboy for Portland with coal, was run down by steamer Narragansett in Long Island Sound, Thursday morning. The schooner's planking was torn away to the water's edge her entire length, but she floated long enough to be towed in. The steamer was but little injured.

Patrick Staunton and his wife Elizabeth, Alice Rhodes, and Louis Staunton, are under sentence of death in London for the wilful murder of Louis Staunton's wife Harriet. The public mind is greatly exercised over the matter, and strong efforts are being made to save the murderers.

The yield of cotton in Virginia and North Carolina will be twenty-five to forty per cent. less than last year. In Georgia the crop will be less than last year, but the percentage of decrease cannot yet be approximated. Damage amounting to fifteen to twenty per cent. has been done by worms, rust and storms in Florida, but the acreage being greater, with good weather the balance of the season, the yield of the State will not fall below that of last year. The average crop in South Carolina will be three per cent. below that of last year, and the quality is injured by rust, rot and storms. Louisiana and Mississippi report their crops respectively thirty-one and ten per cent. below those of 1876, while in Arkansas the yield compares favorably with that of last year. The crop in Texas is at least twenty-five per cent. off.

Official returns made to the bureau of statistics shows that during the three months ended September 20th, 1877, there arrived at the port of New York 20,109 immigrants, of whom 11,462 were males and 8,647 females. During the corresponding period of 1876 the total immigration into New York was 25,886, of whom 14,981 were males and 10,905 females.

The French election takes place to-morrow. If the republicans do not win, it will not be because they have not deserved success by their moderation under great provocation.

What Sweetens the Mouth,

preserves and whitens the teeth, keeps the gums from becoming spongy, neutralizes all impurities that adhere to the dental enamel, and effectually prevents the toothache? Any body can answer this simple question who has ever witnessed the wonderful effects of that matchless vegetable preparation—Sozodont.

Closer than a brother sticks Spalding's Glue.

Use only for HORSES, the liniment in YELLOW wrappers. JOHN H. SLATER, Agent.

eod&tuteoct13 78

ELEGANT HAIR is WOMAN'S crowning beauty. When it fades, she fades as well. While it is kept bright, her personal attractions are still maintained. By preserving the hair fresh and vigorous a youthful appearance is continued through many years. Those who grieve over their fading hair turning gray too early, should know that Ayer's Hair Vigor prevents it, and restores gray or faded hair to its natural color. It is a clear and healthful preparation, containing neither oil, dye, nor anything deleterious, and imparts to the scalp what is most needed—a sense of pleasant and delightful freedom from scurf or dandruff.—*New Berne (N. C.) Times.*

PERSONAL.—NOTICE IS HEREBY GIVEN that all officers and soldiers wounded, ruptured, or injured (however slightly) in the late rebellion, can obtain a pension by addressing G. KESSLER, attorney for claimants, No. 4 New Chambers Street, New York. feb16 78

THE SUBSCRIBER, proposing to devote his entire time and undivided attention to the work, offers his services as

Teacher of Music

In the various branches,—PIANO, ORGAN, VOCALIZATION, HARMONY, &c.,—to the citizens of Portsmouth and vicinity. All orders received will be promptly attended to. MUSIC ROOM AT

Mercantile and Grange Hall, 5 Congress St.

OFFICE HOURS from 10 o'clock A. M. to 12 M.; pupils instructed at their homes in the afternoon.

The hundreds of residents in this city who have been his pupils in the past are sufficiently aware of his qualifications as a teacher; as a gratuity to others of his ability he would point to the many superior performers in the city who received their instruction mainly or wholly from him.

A. PEARSON.

WE ALL KNOW

THESE ARE HARD TIMES,

AND THAT IS THE REASON WE ARE SELLING

READY-MADE CLOTHING

CLOTHES WRINGERS REPAIRED.

GREAT REDUCTION! *New Rolls put on to Old Wringers at $1.50 each, former price $2.*

REMOVAL.

The undersigned, having been engaged in the business of repairing Clothes Wringers for more than three years, and having in every instance given satisfaction, would solicit a continuance of patronage, and announces that he has removed his shop to No. 14 WARREN STREET, corner of Fleet Street. Don't forget the place, when you want your Wringer repaired.

WILLIAM ELLISON.

PROPOSALS.

TREASURY DEPARTMENT,
OFFICE OF THE LIGHT-HOUSE BOARD,
October 3d, 1877.

PROPOSALS will be received until 12 o'clock, noon, 24th October, 1877, for furnishing to the Light-House Board, a center-board SCHOONER of about 120 tons, new measurement.

The vessel should draw not more than 8 feet loaded, should be in good condition, well found in every respect, and have a powerful windlass. She should also sail well, handle easily, and be metalled.

Proposals should give name, age, register-tonnage, description in full of the vessel, sails, rigging, spars and ground tackle, with price for which she will be sold, and should also state when and where she can be seen and examined by an agent of the Board, together with the names of her owners.

JOSEPH HENRY,
Chairman Light-House Board.

SUNDAY SERVICES.

At St. Mary's (Catholic) church, Children's Mass at 8:30, Solemn Mass at 10:30 A. M.; Sunday School at two o'clock, Vesper Service at three o'clock, P. M.

At St. John's (Episcopal) church, services at 10:30 A. M. and 7:30 P. M. every Sunday,—except the first Sunday in each month, when the Children's Choral Service and public catechising, commencing at four o'clock, is substituted for the usual one at 7:30; seats free at this service.

At the Unitarian church, preaching by the pastor, Rev. James DeNormandie, at 10:30 A. M. Vesper service at 7:30.

At the Congregational church, services at 10:30 A. M. and 3 P. M.; prayer meeting at 7:30 P. M. Preaching to-morrow by Rev. James W. Hubbell.

At the Universalist church, preaching at 10:15 A. M., by Rev. E. M. Grant.

At the Court street (Christian) church, services at 10:30 A. M. and 2:45 P. M.; Sunday school directly after morning service; prayer meeting at 7:30 P. M. Preaching by Rev. John A. Goss, the pastor.

At the Middle street (Baptist) church, services at 10:30 A. M., 7:30 P. M. Preaching to-morrow by Rev. D. P. Morgan, of Beverly, Mass.

At the Advent church, services at 10:15 A. M., 2:45 and 7:30 P. M. Elder E. B. Wells will preach to-morrow.

At the Methodist church, preaching at 10:15 A. M. and 2:45 P. M., by the pastor, Rev. J. Noyes. Subject, forenoon, "The essential thing with God;" afternoon, "Man drawing nigh to God, and God drawing nigh to man."

Mr. T. B. Garland, from Dover, will lecture at the Bow Mission at 4:45. Many of our friends will remember the very interesting lecture given by Mr. Garland a few months ago in the Mission. Subject of lecture to-morrow will be, "Our Bible; how written, how preserved; various translations; and sufferings of those who have given to us an open Bible;" (with diagrams). A general invitation is extended. Seats free.

There will be a meeting of the Reform Club at Mechanics' Hall in the evening at 7:30 o'clock. Speaking by members. An admission fee of five cents will be charged, to defray expenses.

[Communicated.]

INSPECTION OF PETROLEUM.

Editor of Chronicle: I see by your paper that Lieut. Rich, the city Inspector of Petroleum and its Products, has prohibited the sale of certain oil (made by the Maverick Oil Company of Boston, I believe,) in this city, on the ground that it does not come up to the State standard, according to his tests; and that he has asked the City Government to define his duties and powers. Also, that a Massachusetts inspector of petroleum, sent down here by the company that manufactures the oil which Lieut. Rich prohibits the sale of, tested the oil and managed to make it (according to his test) just come up to the State standard. In your report of the Massachusetts inspector's test you say:

Mr. Means stated that he could carry the flaming point up to 120 degrees, and that his method is the one employed by the United States and New York petroleum companies in all their tests.

Admitting that both these statements are true—what of it? The object of testing coal oil is not to see if by skillful manipulation an oil that is below the State standard can be made to appear above it; and neither the State of New Hampshire nor the city of Portsmouth is bound to follow the plan of any petroleum company in testing that or any other company's products. The object of inspection by fire test is not to see if it is possible under the most favorable circumstances to heat the oil under examination to a specified temperature before it will take fire, but to see if it will take fire at that temperature *under any circumstances*. When a coal-oil lamp is dropped on the floor and smashed, or some ninny attempts to fill a lighted lamp, the oil will be apt to ignite and make itself obnoxious at its *lowest* igniting point, utterly regardless of the possible fact that some inspector may have succeeded in heating a sample of it to a much higher temperature without its "going off." The State has fixed the standard of merchantable oil, and declared that oil which will ignite at a lower temperature than 110 degrees of Farenheit's scale shall not be sold; and if Inspector Rich finds any oil that will take fire at a lower degree of heat than that, *no matter how quick or in what way it is heated*, he will fail in his duty if he does not prohibit its sale. At least, that is the way it looks to me, and I am an interested party, for I often burn the midnight kerosene and have conscientious scruples against its burning me; and as the State law and the city inspection are intended to protect me (as well as other kerosene burners) from the catastrophe suggested, and not to give the sanction of "legal safety" to any oil that is morally and physically dangerous, I hope that the City Government will back up their Inspector of Petroleum in sitting down (figuratively) upon any oil that "flames" at less than 110 degeees, no matter how it is heated.

TINDER.

[Communicated.]

ARTICLE IV.

I desire to add a word of commendation to Roland's article in the CHRONICLE of Tuesday. I find, also, a difficulty in reconciling "Article 4" of the new School Regulations with the just dealing which a graduate of the High School ought to expect at the hands of the Board of Instruction. A diploma of graduation from the High School ought to entitle its possessor to a fair and impartial hearing from the authorities, in the event of a vacancy among the teachers of the city. It is a record that the party in whose *honor* it is issued is an adept in one or two languages besides his or her vernacular—fresh from the primary laboratory of the chemist—well up in grammar, geography, mathematics, rhetoric, physiology, etc., etc. Having pursued these studies during four years, the student is politely informed by the authorities who have publicly and with much display certified to his or her graduated scholarship, that he is incompetent to teach the rudiments of those theories—in the profound and thorough knowledge of which they have just proclaimed him an expert—and that he must spend three or four years more in the study of didactics. Is the institution which graduates such pupils an ab-normal school? or is the School Board subject to a temporary gush of enthusiasm on exhibition days, for which the pupil pays penance? Is not every school a school of didactics? Does not the pupil teach as he has been taught? No fault is laid at the teachers' door. The teachers of the schools in this city are known to be capable and pains-taking, and earnest.

I may be permitted to suggest a fault in a system which, in endeavoring to do too much, perhaps imperfectly accomplishes little. There is a fable about putting a quart of wine into a pint bottle. It can be done—in theory. There is an unctuous tale regarding the spreading of an ounce of butter upon an unlimited amount of bread; it has cost great effort to him who spread it, but its extenuated condition suggests to the hungry one only an aggravated sense of unbelief. The majority of the text books of the present day imposed upon the teachers and pupils of public schools are masses of unparalleled verbosity, in which simple ideas or plain facts are so completely enveloped by the magniloquent pedantry of the compiler, that the elimination of sense from nonsense exhausts and disgusts the ordinary student. Here may be a potent cause of a pupil's failure, if such failure should exist. But what shall be said if no such failure occurs, and competent parties are denied an engagement on no reasonable ground. Not long since a young gentleman, a native of Portsmouth and a graduate of its High School, a graduate also of Dartmouth, applied for the vacancy in the Academy school. To avoid particulars it is sufficient to say that the city of Portsmouth stultified itself by refusing his services. Now it is in order to say that neither the Portsmouth High School nor Dartmouth College can furnish a graduate who is competent to teach a Grammar School. However, the citizens of one of the largest towns in the State are badly deceived, (that's a comfort!) for they have given this gentleman command of their High School, with two assistants, and 200 pupils.

This system has its "*utile*" as well as its "*dulce*" side. It has the merit of cheapness, for no better fertilizer for grass in the streets could be procured. The manufacturer, generally, does not depreciate the value of his productions; possibly the authorities here may have discovered something valuable in such a policy. Let it continue, by all means, and we shall soon have the place entirely to ourselves, with no annoying hum of trade; and we may enjoy the felicity of sitting by our chimney corners as "gudeman" and "auld wife," spending the hours not devoted to sleeping or smoking a pipe, in reading of the successes of the "sons of Portsmouth" who have been driven from "the quaint old city by the sea," to earn and spend their money in places that have extended to them a cordial welcome and a warm and continued encouragement. Teachers of Portsmouth—I envy you; graduates of Portsmouth schools—I congratulate you upon the possession of a foot square of waste paper.

EDWIN A. TILTON.

Mr. Editor: Both "Roland" and "X. Y. Z." appear to me to do injustice to our new School Board. First I would ask, what is the Board created for? For the benefit of our schools, or for the benefit of applicants? For the schools I supposed, and I have much sympathy with the members of the Board, whom I believe to be both conscientious and sympathetic, when they have to decide, as they sometimes may have, between the benefit of the schools and an applicant, worthy, exemplary, and needy, but not the *best* they could employ. In such a decision they need the cordial support of the public. Shall they give schools to the graduate of the High School simply because the applicant needs a situation? Rather should they not consider first, the need of the hundreds of children who will never see the High School, some of whom will not go through the Grammar Schools, and give to *them* the *best* teachers to be found? Will not the best graduate from our High School exert every power to add to his or her knowledge, a *training* indispensable to the complete success of a good teacher?

Why should we not demand for *our* schools the *best* teachers? And who are the best, if not those who, added to their knowledge, possess the *training*,—the art of teaching,—taught only in the Normal Schools? Would a mechanic place over his apprentices one who possessed knowledge only, without experience? Would hospital directors appoint to responsible situations, a graduate from a Medical School, without other training in his profession? Why should teaching be the only profession where a thorough training can safely be omitted? PROGRESS.

PORTSMOUTH AND VICINITY.

Do not forget Mr. Knapp's illustrated lecture on Eastern and Grecian architecture, at the Unitarian chapel on Court street, this evening. Tickets 50 cents (for the two lectures). See advertisement.

Speaking of base ball matches, the one to be played at the Plains this afternoon will be the most astonishing on record. The "Granite States" are to allow their opponents six "outs," and all the players they can get together from the old Rockingham and other clubs which have existed since the game became "national." Some fifty "old players" have been invited to compose "the nine." There is great difficulty in placing them, as forty-nine of the fifty want to play in the "right field," as far from the ball as they can get.

The numerous patrons of Mr. Eduardo de Anguera, the piano tuner, will be pleased to learn that after an absence of a year in the West he has concluded again to resume his regular business visits to this city.

An unsuccessful attempt was made to pull the brig Clara J. Adams off the beacon ledge on Friday afternoon. She was lifted clear of the rocks forward, but she was so firmly grounded aft that the efforts of the steamer only resulted in parting the hawsers.

United States sloop-of-war Ossipee, Commander Breeze, from New London, Conn., via Newport, R. I., arrived below Boston on Thursday night. She is bound here.

Friday forenoon a horse belonging to Mr. John Walker, of Rye, while standing on Daniel street, took fright at one of Adams & Co's lumber teams and started on a run, colliding with Carter's store wagon. The breast of the runaway animal was severely cut by striking against an iron-bound edge of the latter team. One of the shafts and the seat of Mr. Walker's wagon were broken, and an axle of Mr. Carter's wagon was sprung. The injured horse was taken to one of the stables, where his wound was sewed up.

Mr. Benj. Russell, having purchased the house on State street next east of the Methodist church, formerly owned by the late Dr. C. A. Cheever, is changing it into two distinct tenements, one of which he is to occupy as a residence.

Hon. Edward H. Rollins left Rollinsford for Washington on Friday. Messrs. Blair and Jones are already on the ground. The trouble will begin on Monday.

We have received from Ira G. Stockbridge, music publisher, of Portland, Me., the following pieces of new music: Grande Valse de Concert, for piano, by Tito Mattei; Busy Bee Galop, for piano, by Pierre Latour; Tuneergruss March, for piano, by Hermann; Now or Never March, for piano, by E. Mack; Lowland Mary, song, by Claribel; There's a little Mossy Mound, song, by Edgar M. Porter; Beyond the Bower, ballad, by Auber Forestier.

CITY MARSHAL'S REPORT.

The following is the report of City Marshal Entwistle, of arrests made from August 17th to September 30th, 1877, as submitted to the Board of Aldermen on Thursday evening: Lodgers, 88; drunks, 101; assaults, 9; malicious mischief, 4; common drunks, 3; larceny, 3; disorderly house, horse stealing, attempt at rape, assault with intent to kill, aggravated assault, liquor selling, desertion, one each; truants, 2. Total number of arrests, 129.

The total amount of fines and costs collected by the City Marshal from the 18th day of August to the 30th day of September was $236.05. Amount paid for warrants, witness fees, etc., $21.86; leaving a balance of $214.19 to the credit of the city.

[Advt.]

THE OTHER SIDE.

Editor of Chronicle: An article appeared in the Boston papers of Thursday, stating that the "liquor dealers of Portsmouth had formed a combination to oppose the laws." The article in question was essentially false in every particular. A meeting *was* held at the place named; but it was for the purpose of protecting ourselves against the blackmailing operations of unscrupulous men, both in and out of the city, who have hoped to profit by their unprincipled extortion. DEALER.

MARRIED.

$1000 IN GOLD!

To All Whom It May Concern:

The Directors of the Phosphoric Air Co. in good faith, offer the above reward, for the sworn statement of two respectable citizens of any city or town, which will prove that PHOSPHORIC AIR, the Great French Remedy, has failed to permanently cure any form of CATARRH, Asthma, Epilepsy, or any form of Nervous or Mental diseases. One month's treatment, inhaler, and instructions, sent to any part of the country on receipt of $5.00.

Inhalation is the only way in which the air passages and brain can be reached.

Phosphoric Air cures by its effects upon the circulation, which is the only way disease can be eradicated from the system.

We will be happy to give a TRIAL FREE to any who can call upon us so that they may experience its immediate beneficial effects.

January 16, 1877.

Daily Chronicle.

—Clara Morris is a strict member of the church; Mrs. Barney Williams was a devotee, and it is really surprising how many members of a profession which has been stigmatized as purely baneful in its effect on manners and morals should be regular communicants of churches, and the most liberal contributors to their funds.

—The wife of a New York clergyman lost her trunk while a student at the Andover Girls' Seminary ten years ago, and, although it was well advertised, nothing was heard of it. Recently, however, the trunk was found in the attic of one of the dormitories, and, though the lock had been removed and the initials on the trunk erased, the contents were found untouched, even to some money placed between the leaves of a Bible.

—Recently when Bishop Whitaker, of Nevada, visited Tybo, the services were held in a hall which adjoins a place in which the growls of the tiger are constantly heard. Just as the reverend gentleman had finished an impressive prayer, and in the silence which always follows an orison in pious congregations, and before "amen" could be said, a loud voice from the adjoining apartment shouted solemnly, "Keno." A smile came over the face of the pious, and the worthy Bishop did his best to preserve his equilibrium. — *Tybo (Nev.) Sun.*

Centaur Liniments.

One thing is now thoroughly established. Never since man suffered and human agencies alleviated pain has there been any thing which went so far as a pain annihilator and curative agent as the Centaur Liniments. These Liniments have within the past year cured more cases of Rheumatism, Neuralgia, Stiff Joints, Caked Breasts, Swellings, Poisonous Bites, Burns, Lame Animals, etc., etc., than all other remedies combined. As the name of Centaur implies half horse and half man, the Centaur Liniments are for man and beast. But not the same Liniment. The White Liniment is for man and the Yellow for horses and animals. Herein this Liniment differs from all other remedies, although some of the ingredients are alike in each. They contain the well-known Witch Hazel, Arnica, Carbolic, Rock Oil, Mentha and other powerful ingredients.

Wm. H. Hitchcoy, Rector of St. John's E. Church, Wakefield, Clay Co., Kansas, writes: "Many years I have been suffering from a Weak Back, caused from a sprain more than 40 years ago. I have not found any thing to relieve me until I commenced the use of Centaur Liniment. I feel it my Christian duty to inform you that by its wonderful effects I am entirely relieved of pain. January 23d, 1876."

Messrs. J. McClure & Co., Druggists, Cincinnati, Ohio, say:

"Teamsters pronounce the Yellow Centaur Liniment superior to any thing they have ever used. We sell several dozen bottles per month, and the sale is rapidly increasing."

These are only samples of thousands upon thousands of similar testimonials reaching us every month. All the Extracts, Embrocations, Salves and Liniments in existence are not doing one-tenth the good which is done by these admirable Centaur Liniments. For Frost-bites, Stings, Cuts, Itch, Salt Rheum, etc., there is nothing like the Centaur Liniment, White Wrapper. For Spavin, Ringbone, Sweeney, Wind-Galls, Poll-evil, Scratches, etc., on horses, the Yellow Centaur Liniment is equally as good. They are certain in their effects; they are pleasant to use, they are handy and they are cheap. No family should be without Centaur Liniments. They are worth one hundred times their cost.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Castoria.

Mothers may have rest and their babies may have health, if they will use **Dr. Pitcher's Castoria** for Wind Colic, Worms, Feverishness, Sour Mouth, Croup, or Stomach Complaints. It is entirely a vegetable preparation, and contains neither mineral, morphine, nor alcohol. It is as pleasant to take as honey, neither gags nor gripes, and is superior to any remedy in existence.

DR. E. DRESCH, of Dupont, Ohio, says:

"I am using CASTORIA in my practice with the most signal benefits and happy results, and find it a perfect substitute for Castor Oil."

This is what every one says. Many nurses in New York use the CASTORIA. It is prepared by Messrs. J. B. ROSE & CO., successors to Samuel Pitcher, M. D. 1mo1

The Centaur Liniments

have created a revolution in remedies for Rheumatism, Pains, Swellings, Pains, Burns, Scalds, Stings, etc. The White Liniment is for the human family, and the Yellow Liniment is for horses. They are certain, handy and cheap.

Castoria is certain

to operate. It does not nauseate or gripe like Castor Oil, but is pleasant to take, disrobes the food, regulates the bowels, cures wind colic, expels worms, and causes natural sleep. It is equally adapted to adults and infants. It contains neither Mineral, Morphine nor Alcohol. Children teething may have health, and mothers find rest, if they use Castoria. 1mo1

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as Ayer's Cherry Pectoral. It has been known to the public about forty years, by a long continued series of marvellous cures, that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

HATHAWAY SHIRTS,

A FEW MORE OF THOSE

CELEBRATED HATHAWAY SHIRTS,

Cut Low in the Neck, at

William P. Walker's,

178 No. 8 Market Square.

This Cut Illustrates the Manner of Using

DR. PIERCE'S

Fountain Nasal Injector,

OR

DOUCHE.

This instrument is especially designed for the perfect application of

DR. SAGE'S CATARRH REMEDY.

It is the only form of instrument yet invented with which fluid medicine can be carried high up and *perfectly applied* to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which sores and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. The want of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the ordinary methods. This obstacle in the way of effecting cures is entirely overcome by the invention of the Douche. Its use is pleasant and so simple that a child can understand it. **Full and explicit directions** accompany each instrument. When used with this instrument, Dr. Sage's Catarrh Remedy cures recent attacks of

"Cold in the Head" by a

CATARRH

SYMPTOMS—Frequent headache, discharge falling into throat, sometimes profuse, watery, thick mucus, purulent, offensive, etc. In others, a dryness, dry, watery, weak, inflamed eyes, stopping up, or obstruction, of nasal passages, ringing in ears, deafness, hawking and coughing to clear throat, ulcerations, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, distracted mental depression, loss of appetite, indigestion, enlarged tonsils, tickling cough, etc. Only a few of these symptoms are likely to be present in any case at one time.

Dr. Sage's Catarrh Remedy, when used with **Dr. Pierce's Nasal Douche,** and accompanied with the constitutional treatment which is recommended in the pamphlet that wraps each bottle of the Remedy, is a perfect specific for this loathsome disease. It is mild and pleasant to use, containing no strong or caustic drugs or poisons. The Catarrh Remedy is sold at 50 cents, Douche at 50 cents, **by all Druggists.**

BUFFALO, N. Y.

DR. QUAIN'S

MAGIC

CONDITION PILLS!

The Wonderful Remedy for Liver Complaint, Biliousness Dyspepsia, Constipation, Neuralgia, Rheumatism, Headache, Kidney Complaint, Nervousness, Scrofula, Piles, and all diseases arising from a bad state of the Blood!

No medicine ever offered to the public has given such universal satisfaction as Dr. Quain's Magic Condition Pills. Their praises are on every tongue where their merits are known. They strike at once at the seat of disease and show their healing power almost immediately. Thousands of voluntary testimonials of their merits have been received by the Agent, from those who have been cured by them, of which the following are samples:

Dyspepsia Four Years, Constipation and Inflammation of the Bowels Three Years, Confined to my Room Two Years, Pain so I Could Not Sleep Without Morphine. One Package of Dr. Quain's Condition Pills Made Me Eat Well, Sleep Well and Free from Pain, after being given up by Physicians.

WEST LEBANON, ME., Feb. 22, 1

MR. THOMAS W. LANE:—I have been sick for 2½ years with Dyspepsia, and for the past three years Constipation and Inflammation of the Bowels, have suffered all the pain I could endure and live, have been confined to my room for two years, and could not sleep rights without the use of morphine, I have been given up by physicians as past cure. I have taken one package of Dr. QUAIN'S CONDITION PILLS, and they have done me more good than all the doctors I have had. I sleep well, I eat well and have no pain. They are all they are recommended to be. Please send me three packages, as two of my neighbors wish to try them. I enclose $1.50.

Your truly, JOHN W. LORD.

Another Letter from May. John W. Lord, one month later Wonderful Cures by Dr. Quain's Pills Effected on Him in Thirteen Days. First time Free from Pain for Three Years.

WEST LEBANON, ME., March 22, 1875

MR. THOMAS W. LANE:—I commenced taking Dr. QUAIN'S CONDITION PILLS February 8th, and write you February 22d of their wonderful effect. I have continued to improve ever since. My appetite is good, and I sleep as well as I ever did in my life. I am free from pain for the first time in three years. When I was taken sick four years ago, I weighed one hundred and eighty-six pounds; I now weigh one hundred and thirty, but, as I am gaining in strength, I hope to get back my flesh this fall and summer, by the use of the Pills. I shall continue taking them for some time to come.

Yours truly, JOHN W. LORD.

Dr. Quain's Pills the Remedy for Soldiers' Aches and Pains.

WEST LEBANON, ME., June 1, 1875.

MR. THOMAS W. LANE—*Dear Sir:*—I am now able to walk out every day, and am gaining in strength very fast, all of which is due to you as agent for the best Pills in the world. I have taken no other medicine, and my improvement has been steady since first taking DR. QUAIN'S CONDITION PILLS. They have done everything for me, and I will say to you, advertise them direct to the soldiers, for they will certainly cure them of aches and pains caused from exposure and hardship on the field. Please send me by return mail another package.

JOHN W. LORD.

Rheumatism for Twenty Years Cured by One Package of Dr. Quain's Condition Pills—"The Best Medicine in the World."

EAST ANDOVER, N. H., Dec. 16, 1875.

MR. LANE—*Dear Sir:*—As I know the value of DR. QUAIN'S CONDITION PILLS and the good they have done me, I take pleasure in giving them praise; so I send you another testimonial. My father has been troubled with Rheumatism for twenty years or more, and has tried everything that could be thought of, but to no good. At times it would be so bad that he could not lift his hand to his head or do any work at all, especially in cold weather. A short time ago I advised him to get some of these Pills. He believed nothing in them, but I gave him the last package I had of you, as I did not need them, and he has not been as free from the Rheumatic Complaint for years. No Rheumatism, no pain. What helped him? It was DR. QUAIN'S CONDITION PILLS, the best medicine in the world. There is nothing like them. *I know it*, for I have tried them, and they are all, yes, more than they are recommended to be. Give them a fair trial and you will say so. I write this because I know the goodness of them and wish others to know the same. Some may think I am telling a big story. I am. But remember I am not giving them half the praise they ought to have.

Yours with respect ED. F. PEVAREE

Wonderful Effect of Four Doses of Dr. Quain's Condition Pills upon Neuralgia of Twelve Years' Duration—Testimony of Rev. J. S. Patton.

DAINGERFIELD, MORRIS CO., TEXAS, Nov. 15, '75.

MR. THOMAS W. LANE—*Dear Sir:*—I have been afflicted for near twelve years with Neuralgia in the face and neck, which I do not know in many physicians, and could only get partly relieved. I also tried many patent medicines with the same result. I was induced to try your remedy, and all the time for eight or ten winters, and have been traveling and visiting medical springs, and I still suffered most intensely. The physicians pronounced my case the worst and most stubborn that they had had anything to do with. One told me I could never get well; they all advised me to go South and spend the winter, and thought that was the only chance for me, and I was too poor to go to Florida, when through the kindness of Rev. H. M. Mathis, my attention was called to the advertisement of Dr. Quain's Magic Condition Pills. I immediately sent to you for a package. I have taken four doses and I am almost free from pain. The improvement it seems to be that if your pills will cure me, they will cure anybody. I have give applications to send for the pills. Enclosed please find three dollars, send five packages to me and one to Mrs. Laura Sherrel, Sulphur Springs, Hopkins county, Texas.

Yours truly, J. S. PATTON.

Liver Complaint, Nervousness, Dropsy and Headache.

LACONIA, N. H., Jan. 29, 1875.

THOS. W. LANE—*Sir:*—I have been troubled with Bad Blood, Liver Complaint, Nervousness, Dropsy and Headache. I have taken one package of DR. QUAIN'S CONDITION PILLS. They have done me more good than all the medicines I ever took; I have taken considerable medicine within the last five years. For the nerves I think there is nothing so good as those pills. I can recommend them to all who are similarly afflicted, they have done me so much good. I think they will recommend themselves wherever they go. I shall recommend those Pills to all who need them. Please send me two packages more, one for myself and one for a lady friend of mine. Many thanks to the inventor, agent and advertiser of those Pills.

MRS. P. L. ELLIOTT.

DR. QUAIN'S MAGIC CONDITION PILLS are put up only by the AMERICAN MEDICINE CO.,* Manchester, N. H., THOMAS W. LANE, Agent.]

PULMOCINE.

BUCHMAN'S PULMOCINE CORDIAL

is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best *Pulmonary Curative* so could prescribe, after dozen years spent in experimenting with it before he was satisfied that the Materia Medi ca could add nothing in its favor.

Is the ultima thule of Medical Discovery.

Among its many ingredients are *Wild Cherry Bark, Squill Root, Liquorice Root, Blood root, &c.* It is a Blood Purifier, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

for the terrible diseases engendered by the lung-trying climate of New England!

PULMOCINE CORDIAL

is a speedy and reliable Preventive and Remedy. Every Family should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or Inflammation of the larynx, Diphtheria, and all kindred *Throat Diseases* at all times prevalent, it is the ounce of *Prevention*. Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate each. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this *Family Medicine* prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and notknowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all thus afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and patient's danger is past.

For Coughs,

Croup,

Diphtheria,

Asthma, etc.,

USE

Buchman's Pulmocine Cordail.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, also lately pure and unadulterated.

R. H. EDDY,

No. 76 STATE ST., OPPOSITE KILBY, BOSTON,

Secures Patents in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent issued, may be procured by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successfu* practitioners with whom I have had official intercourse. CHARLES MASON,
Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more ably qualified to secure them an early and favorable consideration at the Patent Office." EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, OCTOBER 19, 1870.

R. H. EDDY, Esq.—Dear Sir: You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you.

Yours truly, GEORGE DRAPER.
BOSTON, January 1, 1877. 3tawtjan1 78

AMERICAN & FOREIGN PATENTS

[ESTABLISHED 1865.]

GILMORE & CO., Successors to CHIPMAN HODGES & CO., Solicitors. Patents procured in all countries. NO FEES IN ADVANCE. No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a rehearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to inventions or Patents. SEND STAMP TO GILMORE & CO. FOR PAMPHLET OF SIXTY PAGES.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,897,500 acres of Bounty Land Warrants outstanding. These are issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

OFFICERS, SOLDIERS and SAILORS of the late war or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and on a full reply after examination, will be given you free.

Pensions.

ALL OFFICERS, SOLDIERS and SAILORS wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & CO. Cases prosecuted by GILMORE & CO. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & CO. is thus secured. We desire to win success by deserving it. ADDRESS

GILMORE & CO.,

Washington, D. C.

CITY HEALTH REGULATIONS.

THE BOARD OF HEALTH OF THE CITY OF PORTSMOUTH call the attention of the public to the following sections of Chapter 10, of the Revised Ordinances, and invite all interested in the preservation of health in our city to aid them in the execution of their duty:

SEC. 2. All waste water of houses, yards, cellars, sinks, pumps, etc., shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

SEC. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners and occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

SEC. 6. No vender of meat at the stalls shall be permitted to leave any stale meat, heads, feet or offal of any kind about their stalls or stores over night, or suffer them to be thrown into any street, lane or alley of the city. Nor shall any sellers of fish be permitted to throw any offal of fish into any street, lane or alley of the city, or upon any wharf, but shall either bury them or throw them into the river beyond low water mark.

SEC. 7. If any dead animal or decaying vegetable substance, or any other nuisance, shall be found in any part of the city, the owners or occupiers of the premises where such nuisance shall be found, shall cause the same to be removed within twenty-four hours after being notified so to do by one or more of the health officers.

SEC. 12. When any householder shall know that any person within his family is taken sick of the small pox, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Health Officers.

SEC. 13. When any physician shall know that any person whom he is called to visit is infected with the small pox, or any other disease dangerous to the public health, such physician shall immediately give notice thereof to the Health Officers.

SEC. 14. If any such householder or physician shall refuse or neglect to give the notice required in the preceding sections, he shall for each refusal or neglect, forfeit the sum of twenty dollars, to be recovered by either of the Health Officers in the name of the city.

SEC. 16. The Health Officers may give written notice to the owner or occupier of any building, vessel or enclosure, to remove or destroy any nuisance or other thing deemed by them on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said Health Officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, vessel or enclosure, and cause said nuisance or other thing aforesaid to be removed or destroyed.

SEC. 21. No person shall erect, keep or continue, or permit to be erected, kept or continued, upon any land occupied by him, or under his the keeping of swine, or privy, over either of the mill ponds in this city, or so placed that offensive substances therefrom shall be discharged or drained into either of said ponds or into any creek, or cove, or drain leading thereto. And no person shall construct, keep or continue any drain leading from any pen for the keeping of any swine, slaughter-house, privy vault, or other unwholesome or offensive place, into either of said ponds, or to any flat or marsh adjoining the same. And no person shall throw or suffer to be thrown from his land into either of said ponds, or upon any of said flats or marshes, any dead, decaying, unwholesome or offensive animal or vegetable substances.

AYER'S SARSAPARILLA,

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake with the addition of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders.

Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and who e substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucborrhea arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

HALL'S

VEGETABLE SICILIAN

HAIR RENEWER

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color.

It removes all erysipelas, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it, "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to produce the color required from gray to any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation,* and quickly and effectually produces a permanent color which will neither rub nor wash off.

FOSTER, or at the Portsmouth Weekly Counting Room. Sent postpaid on receipt of price.

Portsmouth Chronicle.

The Devil-Fish.

An immense cuttle fish, captured recently on the Newfoundland shore, and shipped to New York, is described by a St. John, N. F., correspondent of the New York *World*. Only one complete specimen of this extraordinary animal was ever previously secured—in 1873. It is now to be seen in the Peabody Museum, New Haven. The present one is a much larger specimen, being forty feet from the extremity of the long arms to the point of the tail. When stranded it was still alive, but died soon after the ebb of the tide, which left it high and dry on the beach. Two fishermen captured the monster and took it to St. John, where they made much money by exhibiting it, and finally sold it to New York parties. Of the cuttle's ten arms two are thirty feet in length, having rows of powerful suckers an inch in diameter at their broadened extremities. The other arms, eight in number, are entirely covered with suckers on the under side and are eleven feet in length. The body is ten feet in length and nearly seven feet in circumference, and terminates in a caudal fin two feet nine inches across. When taken from the water the color of the squid was a dusky red, but that has disappeared, and the body and arms are now perfectly white. There is the usual horny beak, the parrot-like mandibles of which project from a membraneous bag in the center of the mass which constitutes the head, and from which the ten arms radiate. Posterior to the head, are a pair of huge staring eyes, the sockets being eight inches in diameter. Their expression, when the creature was alive on the beach, is said by the fishermen to have been peculiarly ferocious. The two long tentacles are each thirty feet; the body ten feet in length, making the total length from the termination of the outstretched long arms to extremity of the tail forty feet. The long tentacles are thin and tough as leather, being only five inches in circumference, except at the extremities, where they broaden out and are eight inches in circumference. The body at its thickest part is nearly seven feet in circumference. There are eight short arms, which at the point of junction with the central mass are seventeen inches in circumference, but at their extremities taper down to fine tongue-like points, having rows of suckers along one side. The eight arms must contain two thousand suckers; the long arms perhaps two hundred and fifty more. The head or central mass, from which the arms radiate, is four and one-half feet in circumference. Unfortunately the delicate eyes had been destroyed on the voyage or in putting it on board; but the socket of one measured eight inches in diameter.

The appearance of the animal when in the water is described by the fishermen as extraordinary. The tail had got fast on a rock as it was swimming backward, and it was rendered powerless. In its desperate efforts to escape the ten arms darted about in all directions, lashing the water into foam, the thirty-foot tentacles in particular making lively play as it shot them out and endeavored to get a "purchase" with their powerful suckers, so as to drag itself into deep water. It was only when it became exhausted and the tide receded that the fishermen ventured to approach it. Its mode of moving through the water is remarkable. Behind the head on one side a tube or funnel is visible, which is connected with the bronchial or breathing organs. The water is admitted to these organs by valves, which allow it to enter on the muscular dilatation of the body; and when the water so admitted has communicated its oxygen to the blood it is expelled by this tube, just as in the case of fishes it is driven out at the gills, when this effete water, after purifying the blood of the creature, is not merely got rid of, but is utilized so as to be subservient to the movements of the animal. By ejecting the water through the funnel with force it is, by the reaction of the surrounding medium, enabled to dart backward with amazing rapidity. This is its usual mode of locomotion, and nothing can surpass the ease and elegance of such movements. The body is just visible above the surface of the water; the funnel is at work below, like a hydraulic engine, ejecting the water, while the triangular fin which forms the tail acts the part of a front rudder and directs the way. It also moves forward by means of the fin-like expansion of its tail, and sideways by means of the side-fins or the expansion of the mantle. It can also use its arms and legs and crawl along the bottom of the sea with its head downward. The backward motion, however, is that which is most graceful and natural in the giant squid. When moving through the water its arms are folded together. When grasping its prey it shoots out one of the long, lithe tentacles, which are endowed with a high degree of muscularity, and as quickly as a cat would clap her paw on a mouse, the extremity of the arm covered with suckers seizes the object by the suckers, the pistons of which are quickly retracted and the sharp, denticulated edges are pressed with enormous force on the surface of the victim. Then the arms twine round and grasp it, and from that corpse-like embrace there is no escape. Altogether, the gigantic cuttle-fish is the most wonderful of all the denizens of the great deep.

The late George W. Lang, of Meredith Village, left $1000 to the New Hampshire Missionary Society, to be used for the present expenses of the organization.

Daily Chronicle.

MONDAY, OCTOBER 15, 1877.

Ohio Election.

The returns of the Ohio election were nearly all in, Saturday, and the majority of Bishop (democrat) for governor is about 25,000. The House will stand 76 Democrats, 39 Republicans, two Greenbackers or Nationals; the Senate 25 Democrats, ten Republicans. Domocratic majority on joint ballot, 50.

It is amusing to read the reasons given in the papers for the result of the Ohio election. The western democratic papers claim it as a square victory for currency inflation and postponed resumption of specie payments; the "policy organs" chasge the republican defeat to the "off year," or to the stupid refusal of "machine politicians" to stultify themselves by voting the straight "policy-reform" ticket; eastern democratic papers twaddle about its being a "rebuke" to the way in which Hayes was put in his present position; and republicans papers lay all the blame on the "Southern policy," and the President's order to the old workers of the republican party to stand back and let the machine be run by independent reformers, or not run at all. Our own opinion is that the President's officious interference with what is none of his business, in assuming to regulate the private affairs of office-holders, had more to do with the overwhelming defeat in Ohio than "the policy," communism, inflation, "off years" and "rebukes of eight to seven," all put together.

News and Notes.

Congress meets to-day.

Two girls, aged sixteen and eleven, have been arrested at Columbus, O., who have been in the habit of going through the country in the night, breaking open barns, corn cribs and henneries, and taking whatever they could load into their wagon.

Lewis Cardis, the leader of the mob that threw the officials of El Paso, Texas, into prison, was killed on the 9th inst. by Judge Howard, one of the officials who was imprisoned but who had escaped.

A special commissioner of the Ship Owners' Association in New York has been investigating sailors' boarding-houses, and finds that brothels and vile dens of every description are licensed for this business and allowed to carry on their infamous practices without let or hindrance. The only use of the license seems to be to get the fees, and these are mostly squandered.

A benefit performance was given in the Chestnut street Theatre in Philadelphia, Friday afternoon, in aid of Edwin Adams, the actor, who is sick and in poor circumstances. The amount netted was about $8000.

Dr. Luke P. Blackburn, of Louisville, Ky., has gone to Fernandina, Fla., to assist in caring for the yellow fever patients there. If we are not mistaken this Dr. Blackburn is the man who attempted to spread yellow fever in the north during the rebellion, by sending a cargo of infected clothing to New York, a scheme which was frustrated by the British authorities at Bermuda seizing the vessel, destroying the clothing and setting Dr. Blackburn to work on the fortifications with a ball and chain on his leg.

It is reported from Washington that Gen. John M. Harlan, of Kentucky, is to be appointed to the vacancy in the United States Supreme Court, and that his law-partner, Gen. B. F. Bristow, is to be appointed Minister to England.

The jury in the Witowski fraud case, at Washington, have rendered a verdict of not guilty. The District Attorney said privately, after the verdict was rendered, that he would not go to trial with the case of Gen. Negley, but enter a *nol. pros.* Gen. Negley's friends say he will not be content with this, but demand a trial, so he can establish his innocence of the charge brought against him.

Edwards Pierrepont, Minister to Great Britian, has tendered his resignation, to take effect December 1st. This makes room for Mr. Bristow without requiring the removal of anybody.

It is now thought the recent killing of Joel Comins, as a train robber, at Big Springs, Kansas, was a mistake. Comins it is said was a wealthy citizen of Texas, had been to the Black Hills, where he had sold a beard of cattle, and had $20,000 with him. It is supposed that he resisted the arrest the arrest on the ground that he was attacked by robbers. The matter is being investigated.

The "American" of Boston, has a great reputation for the excellence of its table, the cleanliness and comfort of its rooms and the air of perfection which pervades every department. The location of the house is unsurpassed and the charges are reasonable. —*Phila. Bulletin.*

The exports from New York for September were the largest of any previous month on record at any port in America. They foot up over thirty millions and a half, consisting largely of grain.

John J. Field, of Providence, R. I., has the following "notice" in the *Journal* of that city: "My wife, Esther M. Field, having left my bed and board, and ran away with an Irishman, from Quidnick, R. I., I forbid all persons harboring or trusting her on my account, after this date."

New Hampshire Items.

Some miserable scoundrel one night last week took a valuable cow from a stake she was tied to, near the house of Mrs. Eugene Casey, of Concord, led her to the woods, killed her, and left her there. Mrs. Casey is said to be a worthy, industrious woman, who works hard to provide for herself and three children, and the loss of the cow is a severe one for her.

An interesting case is on trial in the Supreme Court in Nashua. It is brought by A. Shattuck, in behalf of his wife, vs. B. P. Cooper of Nashua, to recover $2000 damages for injuries received from the bite of a dog.

Mrs. Fannie Kent of Chester, aged 73, was found suffocated in her room Thursday morning, on account of the escape of gas, the use of which she was unacquainted with. She died a short time after being discovered.

The house of James Balcon, Nashua, was broken into Wednesday night, and a valuable watch and chain, together with about $40 in money and other articles, stolen. There is no clue to thief.

The thirty-fourth annual session of Grand Lodge, I. O. O. F., of New Hampshire, was held in Manchester Wednesday with a very large attendance, Grand Master A. F. Craig of Portsmouth presiding. The Grand Secretary read the annual report, giving the status of the order and showing the following interesting statistics: Number of members, 6861; increase during the year, 315; deaths, 53; number of brothers relieved, 536; widowed families relieved, 36; total relief, $16,006. The annual receipts were $45,785; investments, $1430. The Treasurer's books show an increase for the year of $2521.

Charles H. Payson of Northfield, who was arrested for a murderous assault upon his wife with an axe last June, has been sent to the insanee asylum by order of the court.

Mr. Hayward, the poultry fancier at Hancock, has received over $3000 in premiums at different fairs during the last year. His grounds are on the outskirt of Hancock, and cover a level, extensive plain, which is bordered by a fringe of woods. The houses for the fowls are of board, and are set at equal distances and in long, regular lines, and, as they are snow-white, give the appearance of a tented field. The stock of fowls is large and rare.

David Larrabee, a resident of Merrimac, was found dead near the fair ground in Milford, Oct. 4th. It is supposed he died of heart disease. His age was 86 years.

The monument provided by the people of Pembroke to the memory of Josie Langmaid, the young girl murdered by La Page two years ago, is put up on the scene of the murder; it is a handsome granite shaft, inscribed with an account of the girl's death.

A dove flew through a large pane of glass, fourteen inches by thirty, in the northeast tower of the Ash street school building, at Manchester, recently, and was found unhurt inside the tower. It seems almost incredible that so frail a creature as a dove could break such a solid pane of glass, but the fact puts aside all incredulity.

John Bean of Warner recently lost a cow in a singular manner. He had just turned her loose from the stall when, another cow coming along, the two animals engaged in a friendly bout with their horns. During the contest, which was very brief, Mr. Bean's cow was thrown to the ground, and her horns being entwined with those of the other, her neck was instantly dislocated. The cow was a valuable one.

A three-story block in Lebanon, owned by Thomas Worthen, was partly burned Wednesday night. A. L. Worthen, dealer in ready-made clothing, lost a great deal by the hasty removal of stock and from damage done by water. The Mascoma Lodge of Odd Fellows lose $1500 on furniture, etc., on which there is an insurance of $800; Morning Star Encampment lose $500, no insurance. The fire is supposed to have caught around a chimney in the third story.

Political.

A correspondent who met General Grant in Switzerland says: "I happened to refer to the fact that he had been, up to the breaking out of the war, a democrat. He said he was aware that it was so generally understood, but that it was a mistake. He had belonged all his life long to the Whig party, and had always voted that ticket except on one single occasion, and that was when Fremont was up as candidate for the Presidency; he had, as had thousands of others, declined to vote for him."

A correspondent of the New York *Sun* says: From a genuine reform republican, who is widely and favorably known, I obtained the following opinion on the result in Ohio: "It was not so much the disaffection of the republicans at the Southern policy as it was the disgust of all decent and respectable people at the humbuggery and hypocrisy of the administration. Sham civil service reform had as much to do with it as anything else. The people were disgusted at civil service reform which began and ended with an executive proclamation. John Sherman's order about blood relations, which turned soldiers' widows and one-armed and one-legged soldiers out of the Treasury Department, and did not turn out all of John Sherman's brothers, nephews, and other blood relations, who continue to hold fat offices, had a good deal to do with it."

When "Little Mac" from sound of guns retreated, What cheap applause the Jersey welkin shook! How he was flattered, glorified and greeted As he the saddle for the stump forsook! Pope was the only foe he e'er defeated—Trenton the only town he ever took.—*Exchange.*

The New York *Tribune* talks as follows about political matters: "There has been just enough promise of Civil Service reform to irritate the machine man in Ohio and enough pretence of the reform to disgust the independent voter. Very rarely has an Administration so dextrously contrived to get itself so loudly rebuked from opposite points of the political compass.—It *doesn't* seem as if the German vote of Cincinnati had been secured by the appointment of a German to the Cabinet—that is a fact. There must be a screw loose in the arrangement somewhere.—It is understood that Governor Robinson proposes to stay mad. He is credited with the truthful statement that pretty much every thief in the State was present at the Albany Convention."

The Boston *Globe* says "the result (of the Ohio election) comes as an assurance that the people do support" the Hayes administration "in the course which it has been pursuing." The man who could extract sunbeams from cucumbers must be on the *Globe's* editorial staff.

Mr. Bristow is to be Minister to England. It is a case of "the foreigner the better;" but we have an idea that if the fact had been known a few days earlier it might have added another ten thousand to the democratic majority.—*Cincinnati (Ohio) Times.*

Iowa, which was reported as "doubtful" in the first despatches after the late election, gave 40,000 republican majority, and the republicans gain eight or ten members of the legislature, giving them a majority of 75 or 80 on joint ballot. The republicans of Iowa went into the fight on a republican platform.

The New York *World*, the leading democratic organ of the country, demands the retirement of the New York rough, Purroy, who broke another democrat's jaw at a democratic convention because he objected to the admission of a delegate who was not elected, from his position as chairman of the Board of Aldermen of New York city. The *World* thinks it a disgrace to even the democratic party to have a low-bred bully acting-Mayor (as Purroy is in the absence of Mayor Ely) of the largest city in the Union, and a city that is always under democratic control; and it calls on John Kelly, the Tammany Boss,—*not* on the people,—to drop him. Tammany rules the democratic party of the country, and John Kelly rules Tammany.

The "divine right of bolting" is not just now being so persistently glorified to the republican voters of Massachusetts by the "independent" press as it was last year.

The Boston *Pilot* (Roman Catholic and of course democratic) thus expresses its opinion of the ruling power in the democratic party in New York: "The fight in the New York State Democratic Convention between Tammany and anti-Tammany, and the subsequent criminations and recriminations of the politicians who hold the reins and those who missed them, is clear evidence to all who can use their eyes that the average citizen in New York is not supposed to have anything to do with politics, except vote at the bidding of the managers. It is quite time the democrats of New York State took the matter into their own hands. The existence of a party within a party, and the inner one a close corporation controlling the other, is a dangerous principle, and one that should be wiped out. There is no doubt about it, Tammany is an injury to the democracy in every State."

When the New York republicans differed it was Roscoe Conkling and George William Curtis, two of the most gifted and cultured men of the time, who came to the front as the leaders of their respective parties within the party. When the democrats of the same State fell out it was Morrissey, the prize fighter and gambler, and Kelly, the successor of Tweed, who led the contending factions, and converted a convention of bruisers, bullies and bosses into a bediam.

Some of the republicans in the Lowell, Mass., district, who are urging people to vote the straight ticket, are being pointedly reminded that a year ago they thought it was every good man's duty to bolt Ben. Butler's nomination. The moral of which is, when you get beaten in a convention don't bolt, for you don't know how soon your favorite may be nominated and then it may come the other fellow's turn to sulk.

Don't Fret, Granny!

Three months will give ample time for the republicans of New Hampshire to come to a better understanding. * * * "The republicans of New Hampshire can remain in power twenty years longer if they choose; but they will never do it in the world if they insist upon fighting over their old battles, while their opponents, and their friends all over the country, are taking advantage of the opportunities of the present and the future.—*Boston Advertiser.*

Don't fret yourself, grandmother. The New Hampshire republicans are abundantly able and entirely willing to manage their own affairs, and moreover you have got about all you can attend to to elect your ticket in Massachusetts, where you should, and with any decent management would, have 50,000 majority. The republicans of New Hampshire have remained in power twenty years by not following the advice of the *Advertiser*, and will continue to win in the same way.—*Manchester Mirror.*

Important Discovery.

"Thank God, the days of the humpback are ended," said Dr. Sayre, at a recent meeting of the Cork branch of the British Medical Association. His method of treatment of spinal diseases is to give complete and continued rest day and night at the point where the inflammation exists, perfect freedom from compression and at the same time absolute immobility, so enabling consolidation to take place. His process involves the temporary suspension of the patient in a peculiar apparatus by which the weight of the head and shoulders is taken off the spine, and the application of a skin-fitting shirt, coated over with plaster of Paris. Dr. Sayre exhibited a patient, a young man of nineteen, who had suffered from an angular curvature of the spine, the angle of this curvature being about 150 degrees, and was only able to move about by putting his hands on his knees or catching at the furniture. After six weeks' treatment, the patient was perfectly erect and had gained three-quarters of an inch in height; he had taken, unassisted, a walk of four miles, and the bone was rapidly developing.

—A Canadian priest lately sued a young man whom he had married, for his wedding fee, which he stated at fifteen dollars. The jury found for the defendant, on the ground that the youth had received no appreciable value.

PARLOR LECTURES

—ON—

ARCHITECTURE.

REV. ARTHUR MAY KNAPP

Will give Two Lectures or Parlor Talks upon Architecture, illustrated by the Stereopticon,

At the Chapel of the South Parish, on Court Street,

ON SATURDAY AND MONDAY EVENINGS,

Oct. 13th and 15th, at 7½ o'clock.

CARDIGAN JACKETS,

SOCKS, MITTENS, etc.,

OUR ASSORTMENT IS COMPLETE.

☞ Please call and be convinced that the place to get the full value for your money is at the

Old Stand--3 Bow St.

C. E. MYERS & CO.

PROPOSALS.

TREASURY DEPARTMENT,
OFFICE OF THE LIGHT-HOUSE BOARD,
October 3d, 1877.

PROPOSALS will be received until 12 o'clock, noon, 24th October, 1877, for furnishing to the Light-House Board, a centre-board SCHOONER of about 120 tons, new measurement.

The vessel should draw not more than 8 feet loaded, should be in good condition, well found in every respect, and have a powerful windlass. She should also sail well, handle easily, and be metaled.

Proposals should give name, age, register-tonnage, description in full of the vessel, sails, rigging, spars and ground tackle, with price for which she will be sold, and should also state when and where she can be seen and examined by an agent of the Board, together with the names of her owners.

JOSEPH HENRY,
oct9 eod3t Chairman Light-House Board.

Notice.

DR. POTTER, having returned from Europe, will resume the practice of his profession at his Office, No. 2 Market Street, Portsmouth, N. H.

[ESTABLISHED 1822.]

STOVE POLISH.

Some weeks ago a peripatetic peddler of an unapproachable stove polish was around town, and disposed of a large quantity of his wares. The stuff was a liquid, and only required spreading on with a brush to make a stove shine like "a good deed in a naughty world;" it was sold cheap, too, and many a thrifty housewife saved time, money and labor, by purchasing a bottle or two. One application of it was enough to settle the question as to its value; the stoves looked lovely for a week or so, and at the end of two weeks were of last year's fashionable color, cardinal red, with numerous spots of brick color; and subsequent applications of black lead do not avail to wholly hide the rust spots. How the second application of the "labor saving polish" works we have not heard, no person having yet tried it a second time. J. P. Sweetser has *not* got this kind of stove polish for sale, but keeps on hand all the standard kinds in the market,—and anyone in want of stove polish or any other article will save money, by purchasing of reputable resident dealers at regular prices, and letting the "cheap" goods of itinerants severely alone.

[Communicated.]

SCHOOL TEACHERS--A DIALOGUE.

PROGRESS. What is the Board of Instruction created for? For the benefit of our schools, or for the benefit of applicants?

ROLAND. The Board is created for the purpose of bringing the schools up to the highest standard possible, to benefit the pupils; but not to proscribe applicants (who are well qualified to teach,) simply because they are not "graduates of some normal school."

PROGRESS. Shall they give schools to the graduates of the High School simply because the applicant needs a situation?

ROLAND. Certainly, if at the same time the applicant is well qualified to teach said school.

PROGRESS. Should they not consider first the needs of the hundreds of children who will never see the High School, some of whom will not go through the Grammar Schools, and give to *them* the *best* teachers to be found?

ROLAND. But the highest salary paid to the teacher of an "intermediate or primary school" in this city is $400 per annum. I am unable to see how these "hundreds of children" referred to can have the *best* teachers at that rate. Therefore, so long as there are graduates of the High School well qualified to take these positions, why go wandering around after strangers and belittle our own High School by a declaration direct, that is a standing insult to teachers and graduates of the High School? *All* knowledge and capacity are not born solely to those who can purchase a "normal school education."

PROGRESS. Will not the best graduate from our High School exert every power to add to his or her knowledge, a *training* indispensable to the complete success of a good teacher?

ROLAND. For the reason that after having done so, and become qualified to be good teachers, such graduates are to be met by the disheartening information that they must spend hundreds of dollars to attend and graduate from a "normal school" before being given an opportunity to compete for examination as teachers? Hardly.

PROGRESS. Why should we not demand for *our* schools the *best* teachers?

ROLAND. At $400 per annum! "We don't want work; we don't want bread; we want pie and cake," was the ironical inscription on a banner borne in a procession of lads during the recent strikes. *Demand* all we can and how much of the *best* will we get at $400 per annum?

PROGRESS. And who are the best?

ROLAND. Not in every case the normal school graduate.

PROGRESS. Would a mechanic place over his apprentices one who possessed knowledge only, without experience?

ROLAND. Frequently, knowing that after his apprentices had learned all they could from their overseer they would come under his own supervision. For $400 per annum, said mechanic would hardly take charge of teaching his apprentices without other sources of income, which the teacher cannot very well have.

PROGRESS. Would hospital directors appoint to responsible situations, a graduate from a medical school without other training in his profession?

ROLAND. Certainly, but not to the *most* responsible. Would "Progress" immediately place a "normal school" graduate in the responsible position of a professorship of Harvard, "without other training?"

PROGRESS. Why should teaching be the only profession where a thorough training can safely be omitted?

ROLAND. I have not seen any person yet who thinks of omitting training. Does "Progress" intend to imply that "the best" graduate who has spent eight years in the intermediate, grammar and high schools, and has the capacity to teach, is not well qualified to take charge of a school in this city which is worth but $400 a year to teach?

And now, *Mr. Editor*, let me ask the Board through your columns, if the City of Portsmouth spends $20,000 and more per annum, (one-seventh of its total annual expenses,) to be used in belittling its own creations? ROLAND.

PORTSMOUTH AND VICINITY.

The break in the United States Direct Cable Company's cable, before reported, was caused by the fishing schooner Northern Star, of Gloucester, Mass., picking the cable up with her anchor on the 6th inst., while fishing on "the southeast," six or seven miles outside the Isles of Shoals.

On Wedesday evening next there is to be a gathering in Franklin Hall in the interest of our dumb animals. During the past summer efforts have been made among the children of the public schools, by the friends of the work of prevention of cruelty to animals, to enlist their co-operation and sympathy by offering prizes, and in other ways. The meeting alluded to is the culmination of the labors of the past few months and is for the children especially. We shall give the programme to-morrow.

Mrs. B. F. Thorndike of this city has been chosen recording secretary of the New Hampshire Woman's Temperance Union.

The lathing for the new building on the Temple site was nearly completed on Saturday night. The work was done by practical lathers who work by the job, each man lays about twenty-two hundred laths in a day, driving five nails in each lath. The work was begun on Monday afternoon at two o'clock. The lather fills his mouth with nails, and hits but one blow to drive the nail home. For a man out of a job it is painful to see how fast these men work. The plastering work, to be done by Portsmouth mechanics, begins to-day. Messrs. N. D. Miller & Son do the piping and other iron work on the building.

The return game of base ball between the Blue Stars of Rochester and the Granite States will be played one day this week on the plains.

ANOTHER RAILROAD SUIT.

A second suit was brought last week by the Merchants' National Bank of Salem against the Eastern Railroad Company, to recover fifty thousand dollars upon notes "had and received by the defendants to the plaintiff's use, the defendants not having paid the same but neglected and refused so to do." The action is returnable at the Supreme Court for Rockingham county, on the third Tuesday of January next. By a law passed by the Legislature in June, the cashier, servants and employes of a corporation are not chargeable as trustees of the corporation. In this action the customers of the road have been trusteed, the writ having been served upon Frank Jones & Co., ex-Governor Goodwin, Joshua Brooks & Co., Charles Robinson, the Eidredge Brewing Company, the Kearsarge Mills, the Portsmouth Brewing Company, the Portsmouth & Dover Railroad, George L. Treadwell, treasurer of the Portsmouth & Dover Railroad at Portsmouth, the Salmon Falls Manufacturing Company, the Great Falls Manufacturing Company, the Cocheco Manufacturing Company, the Great Falls Woolen Company, and several prominent shoe manufacturers in Dover, Great Falls and other places; also upon the Sawyer mills, at Dover, and the levee of the North Millpond in this city, which are rented from the Eastern Railroad. This suit will probably be contested sharply by the railroad.

NAVAL MATTERS.

Lieut. D. G. McRitchie is granted leave of absence for one month, to take effect on the arrival of the Tallapoosa at this station.

Carpenter Josiah P. Carter has leave of absence for thirty days from Oct. 16th.

Capt. William G. Temple will be detached from the Navy Yard at Brooklyn on the 31st of October, and placed on waiting orders.

Medical Inspector T. W. Leach is detached from duty as a member of the Naval Examining Board, and placed on waiting orders.

PERSONAL.—NOTICE IS HEREBY GIVEN that all officers and soldiers wounded, ruptured, or injured (however slightly) in the late rebellion, can obtain a pension by addressing G. KESSLER, attorney for claimants, No. 4 New Chambers Street, New York. tfeb16 78

ELEGANT HAIR is woman's crowning beauty. When it fades, she fades as well. While it is kept bright, her personal attractions are still maintained. By preserving the hair fresh and vigorous a youthful appearance is continued through many years. Those who grieve over their fading hair turning gray too early, should know that Ayer's Hair Vigor prevents it, and restores gray or faded hair to its natural color. It is a clear and healthful preparation, containing neither oil, dye, nor anything deleterious, and imparts to the scalp what is most needed—a sense of pleasant and delightful freedom from scurf or dandruff.—*New Berne (N. C.) Times.*

Centaur Liniments.

One thing is now thoroughly established. Never since man suffered and human agencies alleviated pain has there been any thing which went so far as a pain annihilator and curative agent as the Centaur Liniments. These Liniments have within the past year cured more cases of Rheumatism, Neuralgia, Stiff Joints, Caked Breasts, Swellings, Poisonous Bites, Burns, Lame Animals, etc., etc., than all other remedies combined. As the name of Centaur implies half horse and half man, the Centaur Liniments are for man and beast. But not the same Liniment. The White Liniment is for man and the Yellow for horses and animals. Herein this Liniment differs from all other remedies, although some of the ingredients are alike in each. They contain the well-known Witch Hazel, Arnica, Carbolic, Rock Oil, Mentha and other powerful medicines.

Wm. Hickcox, Rector of St. John's E. Church, Wakefield, Clay Co., Kansas, writes: "Many years I have been suffering from a Weak Back, caused from a sprain more than 40 years ago. I have not found any thing to relieve me until I commenced the use of Centaur Liniment. I feel it my Christian duty to inform you of the wonderful effect I am entirely relieved of pain. January 22d, 1876."

Messrs. J. McClure & Co., Druggists, Cincinnati, Ohio, say:

"Teamsters pronounce the Yellow Centaur Liniment superior to any thing they have used. We sell several dozen bottles per month, and the sale is rapidly increasing."

These are only samples of thousands upon thousands of similar testimonials reaching us every month. All the Extracts, Embrocations, Salves and Ointments in existence are not doing one-tenth the good which is done by these admirable Centaur Liniments. For Frost-bites, Stings, Cuts, Itch, Salt Rheum, etc., there is nothing like the Centaur Liniment, White Wrapper. For Spavin, Ring-bone, Sweeney, Wind-Galls, Poll-evil, Scratches, etc., on horses, the Yellow Centaur Liniment is equally as good. They are certain in their effects; they are pleasant to use, they are handy and they are cheap. No family should be without Centaur Liniments. They are worth one hundred times their cost.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Castoria.

Mothers may have rest and their babies may have health, if they will use **Dr. Pitcher's Castoria** for Wind Colic, Worms, Feverishness, Sour Mouth, Croup, or Stomach Complaints. It is entirely a vegetable preparation, and contains neither mineral, morphine, nor alcohol. It is as pleasant to take as honey, neither gags nor gripes, and is superior to any remedy in existence.

Dr. E. Dimsch, of Dupont, Ohio, says:

"I am using CASTORIA in my practice with the most signal benefits and happy results, and find it a perfect substitute for Castor Oil."

This is what every one says. Many nurses in New York use the CASTORIA. It is prepared by Messrs. J. B. ROSE & CO., successors to Samuel Pitcher, M. D. mov1

The Centaur Liniments

have created a revolution in remedies for Rheumatism, Pains, Swellings, Palms, Burns, Scalds, Stings, etc. The White Liniment is for the human family, and the Yellow Liniment is for horses. They are certain, handy and cheap.

Castoria is certain

to operate. It does not nauseate or gripe like Castor Oil, but is pleasant to take, digests the food, regulates the bowels, cures wind colic, expels worms, and causes natural sleep. It is equally adapted to adults and infants. It contains neither Mineral, Morphine nor Alcohol. Children teething may have health, and mothers find rest, if they use Castoria. mov1

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions which have won the confidence of mankind and become household words, extend not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as

Ayer's Cherry Pectoral.

It has been known to the public about forty years, by a long continued series of marvellous cures, that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of the members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

Pierce's Pleasant Purgative Pellets
SIZE OF PELLETS

Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.

The novelty of modern Medical, Chemical, and Pharmaceutical Science. No use of any longer taking the large, repulsive, and nauseous pills, composed of cheap, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the cathartic and medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, **scarcely larger than a mustard seed,** that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each little **Purgative Pellet** represents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in drug-shops. From their wonderful cathartic power, in comparison to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect; but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce **a most searching and thorough, yet gently and kindly operating, cathartic.**

$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any calomel or other forms of mercury, mineral poison, or injurious drug.

Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet or occupation. **For Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, High-colored Urine, Insensibility and Gloomy Forebodings,** take **Dr Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes. Recollect that for all diseases where a **Laxative, Alterative, or Purgative,** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.

They are sold by all Druggists at 25 cents a bottle.

BUFFALO, N. Y.

DR. QUAIN'S
MAGIC
CONDITION PILLS!

The Wonderful Remedy for Liver Complaint, Biliousness Dyspepsia, Constipation, Neuralgia, Rheumatism, Headache, Kidney Complaints, Nervousness, Scrofula, Piles, and all diseases arising from a bad state of the Blood!

Is the ultima thule of Medical Discovery.

No medicine ever offered to the public has given such universal satisfaction as Dr. Quain's Magic Condition Pills. Their praises are on every tongue where their merits are known. They strike at once at the seat of disease and show their healing power almost immediately. Thousands of voluntary testimonials of their merits have been received by the agent, from those who have been cured by them, of which the following are samples:

Dyspepsia Four Years, Constipation and Inflammation of the Bowels Three Years, Confined to my Room Two Years, Pain so I Could Not Sleep Without Morphine. One Package of Dr. Quain's Condition Pills Made Me Eat Well, Sleep Well and Free from Pain, after being given up by Physicians.

WEST LEBANON, ME., Feb. 22, 1875

MR. THOMAS W. LANE:—I have been sick for 3½ years with Dyspepsia, and for the past three years Constipation and Inflammation of the Bowels, have suffered the most that I could endure and live. I have been confined to my room for two years, and could not sleep nights without the use of morphine. I have been given up by physicians as past cure. I have taken one package of DR. QUAIN'S CONDITION PILLS, and they have done me more good than all the Doctors I have had. I sleep well, I eat well and have no pain. They are all they are recommended to be. Please send me three packages, as two of my neighbors wish to try them. I enclose $1.50.
Your truly, JOHN W. LORD.

Another Letter from Mag. John W. Lord, one month later Wonderful Cures by Dr. Quain's Pills Effected on Him in Thirteen Days. First time Free from Pain for Three Years.

WEST LEBANON, ME., March 22, 1875

MR. THOMAS W. LANE:—I commenced taking DR. QUAIN'S CONDITION PILLS February 8th, and wrote you February 22nd of their wonderful effect. I have continued to improve ever since. My appetite is good, and I sleep as well as I ever did in my life. I am free from pain for the first time in three years. When I was taken sick four years ago, I weighed one hundred and eighty-six pounds; I now weigh one hundred and thirty, but, as I am gaining in strength, I have faith I shall regain my flesh this summer, by the use of the Pills. I shall continue taking them for some time to come.
Yours truly, JOHN W. LORD.

Dr. Quain's Pills the Remedy for Soldiers' Aches and Pains.

WEST LEBANON, ME., June 1, 1875.

MR. THOMAS W. LANE—*Dear Sir:*—I am now able to walk out every day, and am gaining in strength very fast, all of which is due to you as agent for the best Pills in the world. I have taken no other medicine, and my improvement has been steady since first taking DR. QUAIN'S CONDITION PILLS. They have done everything for me, and I will say to you, advertise them direct to the soldiers, for they will certainly cure them of aches and pains caused from exposure and hardship on the field. Please send me by return mail another package.
JOHN W. LORD.

Rheumatism for Twenty Years Cured by One Package of Dr. Quain's Condition Pills—"The Best Medicine in the World."

EAST ANDOVER, N. H., Dec. 16, 1875.

MR. LANE—*Dear Sir:*—As I know the value of DR. QUAIN'S CONDITION PILLS and the good they have done me, I take pleasure in giving them praise; so I send you another testimonial. My father has been troubled with Rheumatism for twenty years or more, and has tried everything that could be thought of, but to no good. At times it would be so bad that he could not lift his hand to his head or do any work at all, especially in cold weather. A short time ago I advised him to get some of these Pills. He believed nothing in them, but I gave him the last package I had of you, as I did not need them, and he has not been as free from the Rheumatic Complaint for years. No Rheumatism, no pain. What helped him? It was DR. QUAIN'S CONDITION PILLS, the best medicine in the world. There is nothing like them. I *know it*, for I have tried them, and they are all, yes, more than they are recommended to be. Give them a fair trial and you will say so. I write this because I know the goodness of them and wish others to know the same. Some may think I am telling a big story. I am. But remember I am not giving them half the praise they ought to have.
Yours with respect ED. F. PEVAREY

Wonderful Effect of Four Doses of Dr. Quain's Condition Pills upon Neuralgia of Twelve Years' Duration—Testimony of Rev. J. S. Patton.

DAINGERFIELD, MORRIS CO., TEXAS, Nov. 15, 75.

MR. THOMAS W. LANE—*Dear Sir:*—I have been afflicted for near twelve years with Neuralgia in the face and neck. I tried I do not know how many physicians, and could only get partly relieved. I also tried many patent medicines with the same result. I have been confined to my room most all the time for eight or ten winters, and have been traveling and visiting medical springs, and I still suffered most intensely. The physicians pronounced my case the worst and most stubborn that they had had anything to do with. One told me I could never get well; they all advised me to go South and spend the winter, and come to the city of Galveston for me, and I was trying to get ready to go to Florida, when through the kindness of Rev. H. M. Mathis, my attention was called to the advertisement of Dr. Quain's Magic Condition Pills. I immediately sent to you for a package. I have taken four doses and I am almost free from pain. The impression here seems to be that if your pills will cure me, they will cure anybody. I have given quite a number of the pills. Enclosed please find three dollars; send five packages to me and oblige. Address Jas. Sherrel, Sulphur Springs, Hopkins county, Texas.
Yours truly, J. S. PATTON.

Liver Complaint, Nervousness, Dropsy and Headache.

LACONIA, N. H., Jan. 29, 1875.

THOS. W. LANE—*Sir:*—I have been troubled with Bad Blood, Liver Complaint, Nervousness, Dropsy and Headache. I have taken one package of DR. QUAIN'S CONDITION PILLS. They have done me more good than all the medicine I ever took; I have taken considerable medicine within the last five years. For the nerves I think there is nothing so good as those pills. I can recommend them to all who are similarly afflicted, they have done me so much good. I think they will recommend themselves wherever they go. I shall recommend those Pills to all who ask for them. Please send me one dozen more, one for myself and one for a lady friend of mine. Many thanks to the inventor, agent and advertiser of those Pills.
MRS. P. L. ELLIOTT.

DR. QUAIN'S MAGIC CONDITION PILLS are put up only by the AMERICAN MEDICINE CO., Manchester, N. H., THOMAS W. LANE, Agent.

PULMOCIDE.

BUCHMAN'S PULMOCINE CORDIAL,

is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best *Pulmonary Curative* he could prescribe, after dozen years spent in experimenting with it before he was satisfied that the Materia Medica could add nothing in its favor.

Among its many ingredients are *Wild Cherry Bark, Squill Root, Liquorice Root, Blood root, &c.* It is a Blood Purifier, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the hurrying climate of New England;

PULMOCINE CORDIAL

Is a speedy and reliable Preventive and Remedy. Every Family should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred *Throat Diseases* at all times prevalent, it is the ounce of *Prevention*. Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate each. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this *Family Medicine* prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all this afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the presenting, suffocating feeling at the lungs, and the patient's danger is past.

For Coughs,

Croup,

Diphtheria,

Asthma, etc.,

USE

Buchman's Pulmocine Cordial.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. Its offered to the profession and to the public, absolutely pure and unadulterated.

CITY HEALTH REGULATIONS.

THE BOARD OF HEALTH OF THE CITY OF PORTSMOUTH call the attention of the public to the following sections of Chapter 20, of the Revised Ordinances, and invite all interested in the preservation of health in our city to aid them in the execution of their duty:

SEC. 3. All waste water of houses, yards, cellars, sinks, pumps, etc., shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

SEC. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners and occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and thereafter on or before the first day of May in each year. And any such owner or occupier neglecting to do, shall forfeit and pay for every such neglect, a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the above period.

SEC. 6. No vender of meat at the stalls shall be permitted to leave any state meat, heads, feet or offal, nor any kind of fish or shellfish, or other refuse matter, to be thrown into any street, lane or alley of the city. Nor shall any sellers of fish be permitted to throw any offal of fish into any street, lane or alley of the city, or upon any wharf, but shall either bury them or throw them into the river beyond low water mark.

SEC. 7. If any dead animal or decaying vegetable substance, or any other nuisance, shall be found in any part of the city, the owners or occupiers of the premises where such nuisance shall be found, shall cause the same to be removed within twenty-four hours after being notified so to do by one or more of the Health Officers.

SEC. 12. When any householder shall know that any person within his family is taken sick of the small pox, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Health Officers.

SEC. 13. When any physician shall know that any person whom he is called to visit is infected with the small pox, or any other disease dangerous to the public health, such physician shall immediately give notice thereof to the Health Officers.

SEC. 14. If any such householder or physician shall refuse or neglect to give the notice required in the preceding sections, he shall for each refusal or neglect, forfeit the sum of twenty dollars, to be recovered by either of the Health Officers in the name of the city.

SEC. 15. The Health Officers may give written notice to the owner or occupier of any building, yard or enclosure, to remove or destroy any nuisance or other thing deemed by them on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or at his usual place of abode—shall neglect to comply therewith, the said Health Officers may, by order of the mayor and accompanied by the city marshal, forcibly enter such building, vessel or enclosure, and cause said nuisance or other thing aforesaid to be removed or destroyed.

SEC. 21. No person shall erect, keep or continue, any house, building, or other erection, occupied, upon any it occupied by him, any pen for the keeping of swine, or privy, over either of the mill ponds within the city, or so placed that contents of such privy or pen shall be discharged or drained into either of said mill ponds within the city, or into any creek, or cove, or drain leading thereto. And no person shall construct, keep or continue any drain leading from any pen for the keeping of any swine, slaughter-house, privy vault, or other unwholesome or offensive place, into either of said ponds, or to any tide or marsh adjoining the same. And no person shall throw or suffer to be thrown in his land into either of said ponds, or upon any tide flats or marshes, any dead animal, any unwholesome or offensive animal or vegetable substances.

AYER'S SARSAPARILLA,

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake with the Iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they decrange, and who's substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine diseases, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

JOHN SISE,

INSURANCE AGENT,

OFFICE NO. 5 MARKET SQUARE.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color.

It removes all eruptions, healing and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

FOSTER, or at the Portsmouth *Weekly* Counting Room. Sent postpaid on receipt of price.

Portsmouth Chronicle.

The French Workingman.

The French laborer probably gets more for his wages than any other. His food is cheaper and more nourishing. His bouillon is the essence of beef at a penny a bowl. His bread at the restaurant is known in without any charge, and is the best bread in the world. His hot coffee and milk are peddled about the streets in the morning at a sou per cup. It is coffee, and not slops. His half bottle of claret is thrown in at a meal costing twelve cents. For a few cents he may enjoy an evening's amusement at one of the many minor theatres, with his coffee free. Sixpence pays for a nicely-cushioned seat at the theatre. No gallery gods, no peanuts, pipe smoke, drunkenness, yelling nor howling. The Jardin des Plantes, the vast galleries, and museums of the Louvre, Hotel Cluny, palace of the Luxembourg and Versailles are free for him to enter. Art and science hold out to him their choicest treasures at small cost or no cost at all. French economy and frugality do not mean that constant retrenchment and self-denial which deprive life of everything which makes it worth living for. Economy in France, more than in any other country, means a utilization of what America throws away; but it does not mean a pinching process of reducing life to a barren existence of work and bread and water.—*The Vanguard.*

A Tramp's Terrible Ride.

A tramp who arrived here a few days ago from the West gives his experience in deadheading it over the Union Pacific from Cheyenne to Green River, on the Jarrett & Palmer train, by climbing upon the roof of a coach. He says that from Cheyenne to Sherman he rather enjoyed the ride, but that between Sherman and Green River his experience was one never to be forgotten. The rapid movement of the train and the rocking of the coach forced him to wind his arms and legs around a stove pipe and hang on for dear life. His hat flew off early in the ordeal, and after the train left this city he was discovered by the engineer, who began throwing a heavy shower of cinders, but so rapid was the movement of the train that the heaviest ones merely cut through his clothes like bullets, while the lighter sparks passed above him. His coattails flapped so hard that he realized that he must part with them, but he dared not loosen a hand to tuck them under him, and they were soon torn off to blow away. Although he managed to keep his face behind the pipe nearly all the time, he was frequently struck in the face by flying cinders, so that when he reached Green River his face and neck were badly cut and scratched. So great was the poor tramp's fear of being thrown off and killed that this, added to the terrible strain of hanging to the pipe by main strength for so long a distance, and the intense suffering from the wounds inflicted by the cinders, caused his hair to turn grey, and when he climbed down at Green River he looked like a man who had seen fifty instead of twenty-two summers. —*Cheyenne Leader.*

Teacher of Music

In the various branches,—PIANO, ORGAN, VOCALIZATION, HARMONY, etc.,—to the citizens of Portsmouth and vicinity. All orders received will be promptly attended to. MUSIC ROOM AT

Mercantile and Grange Hall, 5 Congress St.

☞ OFFICE HOURS from 10 o'clock A. M. to 12 M.; pupils instructed at their homes in the afternoon.

The hundreds of residents in this city who have been his pupils in the past are sufficiently aware of his qualifications as a teacher; as a fraternity of singers of his ability he would point to the many superior performances in the city who received their instruction mainly or wholly from him.

A. PEARSON.

Daily Chronicle.

TUESDAY, OCTOBER 16, 1877.

Congress.

Congress met on Monday. In the democratic caucus, Saturday night, Samuel J. Randall was nominated for Speaker on the first ballot, receiving 107 votes, against 12 for Sayler and 23 for Goode. Clerk Adams and Sergeant-at-Arms Thompson were renominated. J. W. Polk of Missouri was selected as Doorkeeper after thrbe ballots, J. M. Stewart of Virginia as Postmaster of the House, and Rev. Dr. Poisel, Southern Methodist, as Chaplain.

The organization of the House was effected in accordance with the democratic caucus selections, Randall having 149 votes to Garfield's 132, three republicans not voting.

The Senate met, with very few absentees. Don Cameron, Stanley Matthews, and Armstrong of Missouri, were sworn in, and the Senate adjourned after a 20-minutes session.

Washington Correspondence.

WASHINGTON, D. C., Oct. 13th.

The Ohio election is touched upon very reluctantly by republicans here, and handled in the most gingerly manner by those forced into an exposition of a very disagreeable subject. On the other hand it is, seemingly, furnishing the unwashed throngs of the democracy more satisfaction than any occurrence since the last signal defeat of the Union armies in the late war. There is, apparently, an almost uniform disposition on the part of dissenters from the plan of the republican managers, to wash their hands of all responsibility, and to generously concede to this coterie of superserviceable friends, all the honors and consolation to be derived from the result. Many sincere friends of the President, who sympathize in a general way with his policy, protested against it from first to last, holding that the intelligence of the great mass of republican voters and the tenacity with which the right to individual opinion has always been maintained, assured the failure of any plan of campaign that practically ignored both, and sought, by whip and spur, to force an endorsement of measures not approved by the consciences of a considerable portion of the party. It is charitable to suppose that some of the high priests of democracy who spoke at the democratic jubilation meeting here last night have not yet given in their adhesion to the Murphy movement, otherwise the latitude they allowed themselves in denouncing the practical working of a measure originated and carried through both Houses of Congress by their party, can be accounted for upon no theory save that of the idiocy or arrant demagoguery of the party representatives, including the speakers. There were present all the old ironclad shellbacks of the party who retired broken-hearted on the collapse of the rebellion, but who emerged last night for almost the first time to exchange congratulations with the persistent workers who, by unremitting labors and through the mistakes of their opponents, have well nigh succeeded in gaining for their party the ascendency it lost seventeen years ago by its disloyalty; and the howls of approval which greeted every allusion to the fraudulent character of the President's title to office, and the coarse vituperative efforts of a majority of the orators, sufficiently attested the vindictive sentiments still cherished against the party that saved to succeeding generations the goodly heritage of a Republican Government, regenerated and freed from the blight and curse of slavery.

There is a feeling of general satisfaction over the capture of the hostile Nez Perces, just as they were leisurely preparing to cross the line and seek refuge from their pursuers, on Canadian territory. The casualties were heavy on both sides. If there was any understanding with Sitting Bull to aid the beleaguered Joseph he failed to send it, and the victory leaves free quite a large force to look after that redoubtable chief; and a sufficient number of squaws, children, old people and wounded to make a total of nearly 400, are among the fruits of the victory. The *Herald's* correspondent is profuse in his acknowledgements of the magnanimity of the savages to our wounded who fell into their hands; but there are many who will resent as unjust the imputations against the soldiers of all other commands than that of Gen. Miles, who have endured the hardships of an arduous campaign which yielded hard blows and few honors, uncomplainingly; and his invidious comparisons and the motives believed to have prompted them will cost him the respect of many men quite as well versed as he is in the science of war and in the achievements of our officers and soldiers.

Yours, KNOX.

News and Notes.

The French elections on Sunday resulted in returning a majority of republicans to the Assembly.

Thomas J. Williams, who acted as guide on a recent raid against illicit distillers in Lawrence county, Tenn., has been taken from his house by disguised men and murdered.

As an instance of the intense personal feeling engendered by French politics, it is said that soon after her husband's death Madame Thiers received, in a registered letter, the visiting card of the Marquis de Roys, expressing his satisfaction at death having at last done its work. And this in the center of fashion and in the "politest nation on the globe."

After much agitation the price of lager beer has fallen in Cincinnati to two glasses for five cents. The beer taverns for some time held out against the decrease, notwithstanding a fall in the price they were compelled to pay by the keg to the brewers; but the indignation of the German population finally proved too much for them.

The Great Falls *Journal* thinks the man for whom the lowest deep in the next world will be reserved is he who at eleven o'clock on Saturday night gets into a barber's chair, when the shop is filled with men waiting for a "scrape," and has his hair cut, and then a shave and a shampoo. We presume Bro. Fernald was unable to attend divine service some Sunday on account of his unshaven condition, and wrote that paragraph at home during sermon time.

Gilman, the New York forger, is a nephew by marriage of Henry Ward Beecher.

Almon P. Dyer has been arrested at Newburyport for setting fire to a barn burned in East Salisbury, Saturday night. He confesses also to having set fire to Cole's bakery, Newburyport, several years ago. He also burned the town barn in Salisbury.

New Hampshire Items.

Horace Townsend, of Bedford, on Wednesday sustained such a severe injury to his left hand from the premature explosion of a blast of powder as to necessitate its amputation.

The Dover cotton mills are to be shut down because of the low price of prints and because they can buy the cloth for printing cheaper than they can make it.

County Treasurer Lang engaged a young lady of Cabot, Vt., to keep a private school at Dalton this Fall and guaranteed her $60. The school commenced, the scholars were few and grew fewer. Some difficulty arose, Mr. Lang took his children out of school, others did the same until there was only one scholar left, and still the plucky little schoolmarm continued her school into the fourth week, when Mr. Lang paid her the $60, and she went home rejoicing.

A queer confidence game has been brought to light in Dover. A man calling himself J. M. Sanborn has been stopping there several weeks and made the acquaintance of a young lady who by hard work had saved quite a sum of money and placed it in the savings bank. Sanborn induced her to withdraw it from the bank and let him have it without giving any security. He was about to leave town when he was arrested and half of the money recovered. The lady refuses to appear against him and does not wish to have him punished.

Mrs. Thomas Smith, of Pittsfield, fell down stairs Saturday night and broke her neck.

Political.

The *Patriot* bids its late candidate for the Presidency a long farewell in the following touching paragraph contained in an article on the New York convention: "Mr. Tilden must now be counted among the outs. He forced himself upon the party by his endeavors to injure other democrats. We have no sympathy for any man who tries to build himself up by pulling his friends down."

Iowa, whose republican platform created no issue within the republican party, shows its average republican majority and a republican gain in the legislature. Maine, under similar conditions, polled the largest republican vote ever polled in an off year, and gave a majority thousands larger than in the last "off year." California, with a republican platform making an issue in the party, went democratic. Likewise Ohio.

Book Notices.

"The Chorus Choir Instruction Book," by A. N. Johnson, is published by Oliver Ditson & Co., of Boston. It is a book of church-music size, with seventy-five pages of instructions, and 260 of music in great variety. The book is an admirable book of directions for the proper training of singing classes, choirs, and of all bodies of singers singing in chorus. The directions are singularly minute and exhaustive, and are given in simple language.

Mr. Frank R. Stockton has written for the forthcoming number of *Scribner* an illustrated article describing a recent trip to Nassau, that delightful place where the weather in winter-time is always the same, and always salubrious. Curious methods of fishing, the coral-reefs, the quaint habits of the darkeys, a visit to an "African queen," diving for pennies, and the tarantula market are among the interesting things described. Mr. Stockton calls Nassau, "An Isle of June."

"The American Journal of the Medical Sciences" for October is published, by Henry C. Lea, 706 & 708 Sansom street, Philadelphia; quarterly; $5 per year. The first and second articles, on acute erysipelas and diphtheria, will more than repay any reading physician for the cost of the work, though these papers take up but a small fraction of the book.

Miss Alcott's works are understood to have sold in England to the number of half a million copies, and no doubt the home figures exceed these. Her new story is expected to add to her popularity. It is named, "Under the Lilacs," and will appear in *St. Nicholas* as a serial, beginning in the December number. One reader of the manuscript says: "The story is quiet and lovely in feeling, full of life, though, and of quaint, jolly bits of childhood. It is characteristic of Miss Alcott in her best vein; but it is not intended for young readers of vitiated taste who need, or think they need, sensational stories." The illustrations will be made by Mary Hallock Foote.

The October number of "Bentley's Book Buyer," published monthly at 1420 Chestnut street, Philadelphia, by Frank W. Robinson, is received. It is full of matter valuable to intending purchasers of books, such as lists of leading publications for the preceding month, classified by publishers and subjects, with price of each book; numerous reviews of new books! leading magazines, etc. Subscription price, $1 per year.

"Dat's 'Nough of Dat Story."

During the progress of the Liberia movement last Saturday, one of the workmen in the cause got an old darkey, who did not take kindly to the movement, off to one side, and began describing the great benefits the negro would enjoy by emigrating, and among other things told him that there the negro did not have to work; nature had provided everything for his comfort; there the milk and honey, and bread and sugar trees covered the forests, and bananas, cocoanuts, pineapples, lemons and all the tropical fruits grew as plentiful as China berries here. "Dat's 'nough of dat story," said the old darkey; "dat ain't so; kaso, if it was, de white men would a went dar long ago, and de nigger neber would hab known nuffin 'bout it."—*Shreveport (La.) Times.*

Seal and Salmon Fight.

An interesting sight, says the Dundee (Scotland) *Telegraph*, was witnessed off West Ferry the other day in a desperate fight between a seal and a huge salmon. The combatants were not above a hundred yards from the shore, and the encounter was therefore plainly seen. For more than an hour the fight lasted, the seal all the while dashing about in the water after its agile prey. During the progress of the fight the salmon was tossed many times into the air after the fashion of a cat with a mouse. It was then seen to be a very large fish. After the fish was fairly exhausted, (for the seal was the victor,) the seal rose frequently to the surface of the water with its prey in its mouth, the salmon however, not being yet dead, as the movements of its body plainly indicated. Whether or no the seal swallows its prey whole is not known to the writer; but to spectators of that morning's fight the protracted nature of the battle seemed to have its origin in some desire on the part of the seal not to injure its prey or break it with its teeth.

Proper Speed of Circular Saws.

Nine thousand feet per minute, that is nearly two miles per minute, for the rim of a circular saw to travel, may be laid down as a rule. For example: A saw twelve inches in diameter, three feet around the rim, 3000 revolutions; twenty-four inches in diameter, or six feet around the rim, 1,500 revolutions; three feet in diameter, or nine feet around the rim, 1,000 revolutions; four feet in diameter, or twelve feet around the rim, 750 revolutions; five feet in diameter, or fifteen feet around the rim, 600 revolutions. The rim of the saw will run a little faster than this reckoning, on account of the circumference being more than three times as large as the diameter. Shingle and some other saws, either riveted to a cast iron collar or very thick at the centre and thin at the rim, may be run with safety at a greater speed.

—Canaris, the Premier of Greece and its greatest hero of modern times, died in a room uncarpeted and unpapered, so poor that his grandchildren had to attend inferior schools because there they could get free tuition.

—The Amoskeag Veterans went to Bennington to help Vermont celebrate. The Manchester correspondent of the Peterborough *Transcript* says: "The drill of this band of warriors is near perfection. Each man has a different step, and nearly all of them know a knapsack from a cartridge box. Besides the usual arms provided by the State, I have noticed that many of these old veterans carry a pistol, holding, I should say, about a pint."

IF YOU WANT A NICE

SILVER-MOUNTED HARNESS

made in the best manner, call on

Tilton No. 18 Congress St. Portsmouth, N.H.

Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.

The novelty of modern Medical, Chemical, and Pharmaceutical Science. No use of any longer taking the large, repulsive, and nauseous pills, composed of crude, crude, and bulky ingredients, when we can, by a careful application of chemical science, give you all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, scarcely **larger than a mustard seed**, that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each little **Purgative Pellet** represents, in a most concentrated form, as much cathartic power as is contained in any of the large pills found for sale in drug-shops. From their wonderful cathartic power, in comparison to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect; but such is not at all the case. The different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce a **most searching** and **thorough**, yet **gentle** and **kindly operating, cathartic.**

$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any calomel or other forms of mercury, mineral poison, or injurious drug.

Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headaches, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, High-colored Urine, Unsociability and Gloomy Forebodings,** take **Dr Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes. Recollect that for all diseases where a **Laxative, Alterative, or Purgative,** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.

They are sold by all Druggists at 25 cents a bottle.

S. P. C. A. ENTERTAINMENT.

The meeting of the children and friends of the dumb animals in Franklin Hall tomorrow (Wednesday) evening promises to be very successful in point of numbers and enthusiasm. The interest of the children of all the public schools of the city has been enlisted and we learn that a medal or a prize of some kind is to be given to the boy or girl who will contribute the best essay on the treatment of animals. The following is the programme for the occasion:

1st. Singing of an original hymn, written for the occasion by Sarah L. Foster;

2d. Remarks by Thomas E. O. Marvin;

3d. Music: "Let us scatter deeds of kindness"—chorus by male voices;

4th. Remarks by Charles W. Gardner;

5th. Short declamations by children from the public schools, and awarding of prizes;

6th. "God speed the right"—chorus, male voices;

7th. Declamations by Masters Frank Shannon and Harry G. Marvin;

8th. Singing by the children and choral choir, "Dare to do right."

THE COURTS.

The Supreme Court begins its October term at the Court House in this city this forenoon; Judge Stanley is to hold the term. Sheriff Kent has had the court room put in excellent order, and introduced several commendable improvements.

In the Circuit Court of the United States, last week, the Court remained in session a portion of the day on Friday, for the purpose of the trial of case of the United States against the Union Five Cents Savings Bank at Exeter, an action brought to recover tax on the deposits in the bank made subject to check or different from ordinary deposits in banks of this nature. The Treasurer of the bank was absent upon a trip to Kansas, and as the counsel for the bank and the Attorney for the United States were unable to agree on the facts in the case, that the question of law arising thereon could be determined, the trial was postponed, with the understanding that if no agreement is made as to facts the jury will be recalled shortly, and a trial had.

The case of town of Franklin vs. Norcross and Saunders, for the destruction of a bridge several years ago by reason of a run of logs down the Pemigewasset, was referred to Messrs. Frank Hobbs, Gilman Scripture and John W. Sanborn.

Milton L. Hilton, whom the jury failed to convict for passing a counterfeit ten dollar National bank note, was allowed to go on his own recognizance.

Hon. Jacob D. Young, Judge of Probate for the County of Strafford, sat at the Court of Probate in Rockinghm County at Exeter, in the hearing of a case wherein Judge Leavitt, by reason of relationship to one of the parties, deemed himself disqualified to act.

AFTER THE BATTLE.

[Our reporter was too much distressed by the base ball practice of Saturday to furnish a full account of the game between the "Granite States" and "Off 'Uns," in season for Monday's paper, but after resting all day Sunday he was sufficiently recuperated to write the following:]

The day was all that could be wished, and so was the game—and more too! The "Off 'Uns" played seventeen men against nine "Granite States," and covered the field well, mostly in reclining positions. They were allowed six "outs,"—and in fact were out most of the time. Capt. Jo. Neff, Fred Coleman and Hon. Dennis Lynch distinguished themselves at the bat extensively, Eugene S. Hoyt playing behind the bat hugely. The several pitchers did nobly and curved their drop balls with equanimity. Ten fielders took care of the "out field"—took care not to get in the way of the ball until it stopped rolling. Your reporter didn't take notice of the playing of the members of the "Granite State" nine, except that John D. Randall stood so close behind the bat that he seemed to take the ball before it reached the bat. Hence said reporter's repeated strikeoutfulness!

It was fun alive to see the "Off 'Uns" make their opponents run around the bases twenty-nine times, while *their* whole seventeen only went around nine times. The umpire, Mr. Joseph R. Curtis, presided over the game with impartiality and a lame arm, and will do so at the second game this week, if he can be induced to face Buckley's pitching. The small boys, a hundred or more, encouraged the "Off 'Uns" with vigor, remarking as your reporter took the bat the second time: "Here comes another out!" As he made a mild endeavor to put the bat in the vicinity of the ball which was approaching rapidly, an enthusiastic South-Ender of some nine summers remarked above a whisper: "Say, he doesn't intend to *hurt* the ball, does he?" The worst of it was, the *gamin* told the truth—which at all times should not be spoken above a whisper. "With malaice toward none and charity to all," he resigned the bat for a position at left field, nearest Greenland.

The game was enjoyed by merchants and school teachers on horseback, would-be normal school graduates, gentlemen of leisure in carriages, fair lady pedestrians, a bevy of beauties drawn by horses, an ex-city marshal, two majors of volunteers in the late war, and minors by the score.

The "Off 'Uns" have challenged the "Granite States" to play the second game to-morrow afternoon at 2:30.

Capt. Neff sends us the following:

Friend Chronicle; We (the "Orphans") played the "Granite State" base ball club, Saturday afternoon. Game was called at five o'clock, owing to the darkness and a lack of interest on our side; score nine to twenty-seven in favor of "Granites,"—we were gaining on them though; at least we held our average. We weakened some on the third inning owing to the sudden run home—not home run—of our best man, a member of the Press. He was a heavy striker, but owing to the sun being directly in his eyes, he didn't get on to the ball as some expected he would; this accounts for several runs lost, as we had six men on bases (including the fielders) and several more who might have made runs, *perhaps*. We can't account for several more runs lost, due some to the brilliant fielding of our opponents, who we will admit, played very nearly as good a game as we. We had only seventeen men, the rest of our nine failing to appear.

AN ODD OVERSIGHT.

The very many friends of Capt. Robert Shillabor were surprised at not seeing his name in the list of those present at the family reunion at Peabody, Mass., last week, as published in the Boston papers, the omission of "Capt. Bob's" name from that list forcibly reminding Portsmouth people of the play of Hamlet with Hamlet left out,—for though the mirthful and kind-hearted B. Partington Shillabor may be *the* noted one of the name in the vicinity of Boston, yet Capt. Bob's decided individuality has made him the family representative in this region, and for any one in this city not to know him is to argue himself unknown. A list of the Shillaber family without the sturdy Captain's name in it is about as absurd a document as could be imagined. And he was at the reunion, too, with his wife and son and grandson, and was the recipient of much attention from the younger scions of the family, and of hearty congratulations from all on his still sturdy appearance and apparently rugged health, after his long life of unwearying industry. In the organization, Capt. Shillaber was appointed one of the executive committee.

BURGLARY AT HAMPTON.

As a young man who had been out somewhere to spend Sunday evening, in Hampton, was returning home not long after midnight, when opposite the store of Messrs. George W. Lane & Co., near the Hampton depot, he saw a light shining through the chinks of the wooden shutters of the store. Suspecting all was not right he aroused Mr. Lane, who lives across the street from his place of business, and the two went to the store together, entering by the door. As they entered the store three men ran down cellar and out through the roll-way into the open air, and escaped. Examination showed that the thieves got in by forcing a cellar window; they then no doubt opened the roll-way doors to provide an easy retreat in case they should be disturbed, and then cut a small hole in the door at the top of the cellar stairs, which enabled them to lift the hook by which it was fastened and gain an entrance to the store. They used matches to light themselves about the cellar, but once in the store lighted one of Mr. Lane's lamps, and set it on the window seat where it shone through the crack and betrayed their presence. They captured between twenty-five and fifty dollars, and stole several razors, a glazier's diamond and other small articles. The thieves were evidently thoroughly acquainted with the premises, but are not suspected of being professionals.

The dwelling house of Mr. Samuel D. Lane of Hampton was entered the same night, but no plunder of any amount was secured by the burglars.

PORTSMOUTH AND VICINITY.

In the window of Goodrich's bookstore, in the basement of the City Building, is a common eight-ounce bottle containing a steamship, with her funnel and three masts on end, and yards crossed, the miniature vessel being many times too large to go through the neck of the bottle, it having a very small opening. This ship was constructed, rigged and launched into the bottle in one day, by a prisoner who is working out a fine and costs at the jail; and he had only a common jack-knife to work with. The bottle with its contents is quite a curiosity.

Big pears are the rule this year, in this vicinity. On Monday Mr. John B. Bruce, of Dover, placed on our desk four very handsome ones raised by him, of the Duchess variety, smooth and fair, and weighing within a trifle of a pound each.

Mr. John H. Slater on Saturday handed us a sprig of rasberry bush a foot long, from his garden, containing sixty berries, about one-third of them being ripe, large and luscious. They were of the Franconia variety.

The Catholics of this city are to hold a fair in aid of St. Mary's church in Franklin Hall, commencing on Monday next and continuing through the week.

There was a "temperance crusade" meeting in front of the Washington Hotel in Seabrook, Sunday afternoon, at which Rev. William A. Rand of South Seabrook, Mr., Merrill, station agent of the Eastern Railroad at Seabrook, and a Mr. Gove, spoke strongly and very plainly in favor of temperance and against rum-selling. Mr. John M. Weare, of Seabrook, spoke quite as strongly and plainly on the other side of the question, attacking the previous speakers, and arguing against the "crusade" as a direct assault upon the democratic party. The crusader who made the closing prayer was very fervent in petitioning for a change of heart for John M. Weare.

A match was shot at the trotting park Monday afternoon between John S. Sides and James Carroll, for the Eldredge medal, fifteen birds each, H and T traps; score—Sides eleven, Carroll five.

SONG.

The following sweet little song in *Lippincott's Magazine* for November, seems to show that the heart-strings of the Lord of the Isle must have been at last touched:

Sweet wind that blows o'er sunny isles,
The softness of the sea!
Blow thou across these moving miles
News of my love to me.

Ripples her hair like waves that sweep
Above this pleasant shore:
Her eyes are bluer than the deep
Round rocky Appledore.

Her sweet breast shames the scattered spray,
Soft kissed by early light:
I dream she is the dawn of day.
That lifts me out of night.

OSCAR LAIGHTON.

What Sweetens the Mouth,

preserves and whitens the teeth, keeps the gums from becoming spongy, neutralizes all impurities that adhere to the dental enamel, and effectually prevents the toothache? Any body can answer this simple question who has ever witnessed the wonderful effects of that matchless vegetable preparation—Sozodont.

Closer than a brother sticks Spalding's Glue.

LAME AND SICK HORSES, pronounced incurable, cured, free of cost. Giles' Liniment Iodide Ammonia.

Spavins, Splints, Ringbones, Bunches, Thoroughpins. Spring Knees cured without blemish.

Strains, Shoulder Lameness, Navicular Disease, Shoe Boils, care guaranteed. Send for pamphlet containing full information to

Dr. WM. M. GILES, 451 6th Avenue, New York.

Use only for HORSES, the liniment in YELLOW wrappers. JOHN H. SLATER, Agent.

eod&6toct11 78

ELEGANT HAIR is woman's crowning beauty. When it fades, she fades as well. While it is kept bright, her personal attractions are still maintained. By preserving the hair fresh and vigorous a youthful appearance is continued through many years. Those who grieve over their fading hair turning gray too early, should know that Ayer's Hair Vigor prevents it, and restores gray or faded hair to its natural color. It is a clear and healthful preparation, containing neither oil, dye, nor anything deleterious, and imparts to the scalp what is most needed—a sense of pleasant and delightful freedom from scurf or dandruff.—*New Berne (N. C.) Times.*

Centaur Liniments.

One thing is now thoroughly established. Never since man suffered and human agencies alleviated pain has there been any thing which went so far as a pain annihilator and curative agent as the Centaur Liniments. These Liniments have within the past year cured more cases of Rheumatism, Neuralgia, Stiff Joints, Caked Breasts, Swellings, Poisonous Bites, Burns, Lame Animals, etc., etc., than all other remedies combined. As the name of Centaur implies half horse and half man, the Centaur Liniments are for man and beast. But not the same Liniment. The White Liniment is for man and the Yellow for horses and animals. Herein this Liniment differs from all other remedies, although some of the ingredients are alike in each. They contain the well-known Witch Hazel, Arnica, Carbolic Acid, Oil, Menthol and other powerful ingredients.

Rev. A. Hickcox, Rector of St. John's E. Church, Wakefield, Clay Co., Kansas, writes: "Many years I have been suffering from a Weak Back, caused from a sprain more than 20 years ago. I have not found any thing to relieve me until I commenced the use of Centaur Liniment. I feel it my bounden duty to inform you of its wonderful effects I am entirely relieved of pain. January 22d, 1876."

Messrs. J. McClure & Co., Druggists, Cincinnati, Ohio, say:

"Teamsters pronounce the Yellow Centaur Liniment superior to any thing they have ever used. We sell several dozen bottles per month, and the sale is steadily increasing."

These are only samples of thousands upon thousands of similar testimonials reaching us every month. All the Extracts, Embrocations, Salves and Ointments in existence are not doing one-tenth the good which is done by these admirable Centaur Liniments. For Frost-bites, Stings, Cuts, Itch, Salt Rheum, etc., there is nothing like the Centaur Liniment, White Wrapper. For Spavin, Ringbone, Sweeney, Wind-Galls, Polleril, Scratches, etc., on horses, the Yellow Centaur Liniment is equally as good. They are certain in their effects; they are pleasant to use, they are handy and they are cheap. No family should be without Centaur Liniments. They are worth one hundred times their cost.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Castoria.

Mothers may have rest and their babies may have health if they will use **Dr. Pitcher's Castoria** for Wind Colic, Worms, Feverishness, Sour Mouth, Croup, or Stomach Complaints. It is entirely a vegetable preparation, and contains neither mineral, morphine, nor alcohol. It is as pleasant to take as honey, neither gets nor gripes, and is superior to any remedy in existence.

Dr. E. Dimock, of Dupont, Ohio, says:

"I am using CASTORIA in my practice with the most signal benefits and happy results, and find it a perfect substitute for Castor Oil."

This is what every one says. Many nurses in New York use the CASTORIA. It is prepared by Messrs. J. B. ROSE & CO., successors to Samuel Pitcher, M. D. tnov1

The Centaur Liniments have created a revolution in remedies for Rheumatism, trains, Swellings, Pains, Burns, Scalds, Stings, etc. The White Liniment is for the human family, and the Yellow Liniment is for horses. They are certain, handy and cheap.

Castoria is certain to operate. It does not nauseate or gripe like Castor Oil, but is pleasant to taste; it does not blister, nor does the hottest foot, cures wind colic, expels worms, and causes natural sleep. It is equally adapted to adults and infants. It contains neither Mineral, Morphine nor Alcohol. Children teething may have health, and mothers find rest, if they use Castoria. tnov1

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words, among the which only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as Ayer's Cherry Pectoral.

It has been known to the public about forty years, by a long continued series of marvellous cures, that have rendered it a household word in every family throughout the land. Its reputation is not a fabric of a day, but a growth of years, based on merit, and it has been by the testimony of its cures, that it has won its way into the confidence of mankind and become a household word

CITY HEALTH REGULATIONS.

THE BOARD OF HEALTH OF THE CITY OF PORTSMOUTH call the attention of the public to the following sections of Chapter 10, of the Revised Ordinances, and invite all interested in the preservation of health in our city to aid them in the execution of their duty:

SEC. 3. All waste water of houses, yards, cellars, sinks, pumps, etc., shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

SEC. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners and occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than thirty nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

SEC. 6. No vender of meat at the stalls shall be permitted to leave any stale meat, heads, feet or offal of any kind about their stalls or stores over night, or suffer them to be thrown into any street, lane or alley of the city. Nor shall any sellers of fish be permitted to throw any stale fish into any street, lane or alley of the city, or upon any wharf, but shall either bury them or throw them into the river beyond low water mark.

SEC. 7. If any dead animal or decaying vegetable substance, or any other nuisance, shall be found in any part of the city, the owners or occupiers of the premises where such nuisance shall be found, shall cause the same to be removed within twenty four hours after being notified so to do by one or more of the health officers.

SEC. 12. When any householder shall know that any person within his family is taken sick of the small pox, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Health Officers.

SEC. 13. When any physician shall know that any person whom he is called to visit is infected with the small pox, or any other disease dangerous to the public health, such physician shall immediately give notice thereof to the Health Officers.

SEC. 14. If any such householder or physician shall refuse or neglect to give the notice required in the preceding sections, he shall for each refusal or neglect, forfeit the sum of twenty dollars, to be recovered by either of the Health Officers in the name of the city.

SEC. 16. The Health Officers may give written notice to the owner or occupier of any building, vessel or enclosure, to remove or destroy any nuisance or other thing deemed by them on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said Health Officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, vessel or enclosure, and cause said nuisance or other thing aforesaid to be removed or destroyed.

SEC. 21. No person shall erect, keep or continue, or permit to be erected, kept or continued, upon any land occupied by him, any pen for the keeping of swine, or privy, over either of the mill ponds in this city, or so placed that filth or nuisance therefrom shall be discharged or drained into either of said ponds or into any creek, or cove, or drain leading thereto. And no person shall construct, keep or continue any drain leading from any pen for the keeping of any swine, slaughter-house, privy vault, or other unwholesome or offensive place, into either of said ponds, or to any flat or marsh adjoining the same. And no person shall throw or suffer to be thrown from his land into either of said ponds, or upon any of said flats or marshes, any dead, decaying, unwholesome or offensive animal or vegetable substances.

Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR.

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray, and either of them incline it to shed prematurely.

AYER'S HAIR VIGOR, by long and extensive use, has proven that it always surely restores its color, when faded or gray. It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus brashy, weak or sickly hair becomes glossy, pliable and strengthened; lost hair regrows with lively expression; falling hair is checked and established; thin hair thickens; and faded or gray hairs resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions, diseases of the scalp are impossible.

As a dressing for ladies' hair, the VIGOR is prized for its grateful and agreeable perfume, and valued for the soft lustre and richness of tone it imparts.

All losses will be promptly adjusted and paid by the undersigned.

JOHN SISE,

INSURANCE AGENT,

OFFICE NO. 5 MARKET SQUARE.

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color.

It removes all eruptions, itching and dandruff; and its scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

MANUFACTURED BY

R. P. HALL & CO., Nashua, N. H.

Woodbury and others, with a full list of the 600 Trees set, and the names of the persons or Associations who set or paid for them—may be had at 25 cents per copy, at the Bookstore of J. H. FOSTER, or at the Portsmouth Weekly Counting Room. Sent postpaid on receipt of price.

Portsmouth Chronicle.

Civility in Business.

The great want in New York is civility in trade. Stewart, a short time before he died, said that one of the great plagues of his life was to find a salesman that would be civil to poor people who wanted a few needles and some tape. The ladies that traded in satins and laces men would be polite to. But the same salesman would snub a small buyer. It is the universal complaint that officials are impertinent. One can hardly get a civil answer in trade. One of our car conductors came up one morning to the Grand Central depot. His car was stopped two blocks below. The train left at twelve. A dozen people were in the car who wanted to take the noon train. Some of them were aged and decrepit. Instead of announcing that his car would be detained ten minutes he jumped off, bought a paper and an apple, came into the car and began to eat and read. When asked if the car was going to move he simply shouted, "If you want the twelve train you had better be lively." All his load lost that train through his dogged incivility. I saw a lady ask for a bunch of tickets at one of the ferry offices. A mere lad threw down two bunches. The lady said she wanted but one package. The boy flew into a passion, as if the woman had committed some great crime, because the lad misunderstood her. He really abused her so that the woman left in tears. During the centennial season a little of the old-time courtesy would be a healthy infusion.—*N. Y. letter.*

—In Texas, recently, a judge broke down with emotion while sentencing one Longly, a notorious desperado, to be hanged for murder. Longly was surprised at this, and remarked, on going back to jail, "I feel sorry for the judge."

—A novelty for ladies' over-dresses is called French cord, and so closely resembles the corduroy worn by gentlemen that it will probably be known as corduroy, notwithstanding the protest of merchants against so fine a stuff having so common a title.

—A Hillside, Pa., lady hearing a noise in her parlor, went to see what was the cause of it. She was much surprised to see a sleek looking cow standing in the middle of the room silently chewing her cud, and complacently gazing at herself in the looking-glass.

—Visitor: "Isn't it terrible to think that the vessel yonder may dash on the rocks, and every soul on board perish?" Old Salt: "Yes; but isn't it more terrible to think that maybe the crew's a working themselves to death, and perhaps there's not a bit o' backer aboard the entire craft?"

—Two gentlemen had had a dinner and were looking at the bill. In lieu of two bottles of champagne which had been consumed, the waiter had charged for only one. "Shall we point out the thing?" says one. "Well," replied the other, "we had better not; the waiter would be sure to be scolded, poor fellow!"

MUSICAL INSTRUCTION!

THE SUBSCRIBER, proposing to devote his entire time and undivided attention to the work, offers his services as

Teacher of Music

In the various branches,—PIANO, ORGAN, VOCALIZATION, HARMONY, etc.—to the citizens of Portsmouth and vicinity. All orders received will be promptly attended to. MUSIC ROOM AT

Mercantile and Grange Hall, 5 Congress St.

☞ OFFICE HOURS from 10 o'clock A. M. to 12 M.; pupils instructed at their homes in the afternoon. The hundreds of residents in this city who have been his pupils in the past are sufficiently aware of his qualifications as a teacher; as a guaranty to others of his ability he would point to the many superior performers in the city who received their instruction mainly or wholly from him.

A. PEARSON.

Daily Chronicle.

WEDNESDAY, OCTOBER 17, 1877.

Congress.

In the House, Tuesday, the case of Rainey (colored) of South Carolina was taken up; Mills of Texas, made a strong speech in favor of seating him, and the House voted to do so, 175 to 68, all the negative votes being democratic. Mr. Rainey was sworn in.

Darrell, republican, of Louisiana, has certificates from both Gov. Kellogg and Mr. Nicholls, but Clerk Adams left his name off the roll and he is not yet admitted.

Both democratic and republican Senators held caucuses; Senators Conover, Patterson and Christiancy, who have been classed as doubtful, took part in the republican caucus; nothing definite was decided on in either caucus.

The democrats are greatly disappointed at the united front presented by the republicans of the House, whom they had expected to find demoralized and divided.

News and Notes.

Over 8000 cigar makers in New York are on a strike. The price of genuine Havanas will go up.

Nearly all the striking miners of the coal districts of Pennsylvania have gone to work at the old prices, after remaining idle for two months. The loss to these foolish men in wages is at least $800,000.

Deacon Ezra J. Smith, of Vergennes, Vt., his paramour, Mrs. Mary E. Champlin, and Solon Burroughs, were arrested Monday night for the murder of Mrs. Cordelia Smith, the deacon's wife, about eight weeks ago. The evidence is said to be very strong against Smith and the Champlin woman as the murderers, and against Burroughs as an accessory after the fact.

A private bank in Vienna has failed; liabilities $7,500,000.

The American ship Marianne Nettlebehm, Captain Whitney, which sailed from New York, September 15, for San Francisco, Cal., put into St. Thomas on the 15th of October with the captain dead, he having been killed by the second mate. The American Consul is investigating the affair.

While some workmen were engaged at Waterville, Me., on Saturday, in removing to its proper place a boundary fence which Charles B. Gilman had wrongfully moved upon the farm of Edwin Noyes, Gilman commenced firing upon them from his back-yard fence, distant about twenty-five rods, with a rifle and a double-barrel shot-gun, loaded with buckshot. He loaded and fired as rapidly as possible, riddling the fence and wounding three of the men, John Flood, William McNally and Daniel Butler. Mr. Gilman was at once arrested and conveyed to the Police Station, but was soon released on bail. He is the person who shot his own brother on Broadway, New York, last winter.

Sylvanus and Samuel Eaton of Deer Isle, crew of a vessel in Biddeford harbor, were arrested Saturday for stealing nets, ropes and other articles from Pool fishermen. Sylvanus answers the description of the man wanted for housebreaking at Deer Isle.

The captain of schooner Northern Star, of Gloucester, has demanded $200 damages of the Direct Cable Company for loss of anchor and chain during his late encounter with the cable. The company has probably lost $20,000 by the break in its line due to that encounter.

Lieut. Rucker has notified the war department that all is quiet at El Paso, Texas, since the arrival of his handful of regular troops.

Ross and Hanlon, the oarsmen, had a race at Toronto on Monday, which was won by Hanlon easily, by eight lengths. Over $50,000 changed hands on the result. Ross was the favorite in the betting.

Three chiefs and 187 Apaches have surrendered at Wingate, and their arms and horses have been taken from them. The whole of the Warm Springs Apaches are expected to surrender immediately.

The New York papers are discussing the proposition to remove one of Cleopatra's Needles from Egypt to that city. It can be transported for $100,000. The Khedive is willing to present it to the city of New York. Its companion is now on its way to London. This shaft now stands upon the seashore, a monolith of the granite of Syene, seventy feet in height. It was erected 3400 years ago. The *World* of Sunday says a New York gentleman of great wealth, but who does not wish his name known, will give the entire amount required to bring over the big rock.

Thedore Roosevelt is to be Collector, E. A. Merritt Surveyor, and John C. Robinson Naval Officer of the port of New York.

After the recent cyclone in the Gulf of Mexico the beach near Galveston, Texas, was strewn with human bones washed up by the waves, and supposed to be the remains of the persons lost with the City of Waco.

The Lafayette (Ind.) grand jury have a queer case to decide. William Houck made a sworn affidavit before the Mayor never to drink any more whisky, but he got drunk a few days afterward, and is in jail awaiting trial for perjury.

Another of the Union Pacific train robbers has been caught. James Berry, who sold some gold in New Mexico a week ago, which proved to be some of that robbed from the Pacific train, was arrested and jailed Saturday. He endeavored to flee from the sheriff, but was brought down with a load of buck-shot.

John K. Beatty, a notorious rough of Lawrence, Mass., assaulted an old man, Timothy Dineen, Saturday night, stabbing him in the left side. Dineen ran, and Beatty, in hot pursuit, mistaking John McCarthy for the man he was after, drove the knife into his temple, inflicting a fatal wound. Beatty escaped.

Three tramps boarded a moving coal train near Lancaster, Ohio, on the Hocking Valley Railroad, Monday morning, to steal a ride, and cut the train in three parts, so as to escape, but they overdid the business, for when the coupling-pins were pulled the train was on a down grade, and the men were on the middle section. The speed of the detached cars was great, and when near the bottom of the grade the rear section ran into the middle section with terrific force, throwing it from the track, burying one tramp under ten tons of coal, killing him. A second had a leg broken, and the third man escaped, it is supposed, without injury. The dead man's name was Thomas Rolland, and as he was well dressed and had a kit of burglar's tools, it is supposed the trio were thieves playing the tramp dodge for effect.

New Hampshire Items.

Mrs. Gertrude Seelig of Manchester, a German lady, aged 65 years, residing in Piscataquog, committed suicide by jumping into a well. She had been missing since Thursday, and was found Monday morning. Her husband is said to have committed suicide some years since.

Mr. Kendall Webster of Wentworth has a young black bear which is so tame that it will take its rations from his hands, but is not always very fond of company, sometimes showing extreme displeasure when visited by other people.

The following postmasters have lately been appointed in this State: Edwin C. Bean at Belmont, Lorenzo D. Dunbar at Grantham, William Hall at Plainfield, Sylvanus M. Jordan at Stewartstown.

Mr. Thomas Collins of Colebrook lost his only cow last week. The cow was coming out of the stable, when a hen flew down by the cow's head, at which the cow jumped and ran against a hatchet, the edge of which entered between the ribs. It was thought at the time that the injury was not serious, but the cow died in three days.

The number of inmates at the Rockingham county farm at Brentwood, is 223: males, about 150; females, not far from 75. A building for the insane department has been erected the past season, and is nearly ready for occupancy. This building is of brick, built in a very substantial manner, and will have all the conveniences of an asylum when completed. There are kept on the farm four horses, four oxen, twelve cows, and at present 143 swine, ranging from a few days old up to one year.

The farmers in the vicinity of Carroll have lost during this season many sheep, and, as bear tracks have been seen in the woods, it is supposed that bruin is the thief. All attempts to trap him have failed, and there's talk of a grand bear hunt to come off the last of this month.

Messrs. Moody and Sankey are to visit Manchester on Sunday, the 4th day of November, and will remain throughout the remainder of the month, conducting services every day. The evening meetings will be held at the Franklin Street Church, the noonday prayer meetings at Hanover Street Church, and the afternoon Bible reading at the First Baptist Church.

The house on Mt. Agassiz, at Bethlehem, will remain open during the coming winter for the accommodation of guests, and those who wish to get a good view of the mountain scenery should not fail to improve this opportunity.

Political.

Vice President Wheeler is claimed as an endorser of the administration policy; and John Lynch's paper, the Washington *Union* (administration organ) says Senator Blaine "will, before the session is over, show himself an ardent supporter of the President's policy."

It is useless for Governor Bishop to publicly depreciate his part in the victory of Tuesday. Destiny has marked him for the Presidential nomination in 1880, and it only remains for him and the other leaders of democracy to submit. The Bishop movement cannot be laughed down.—*Cincinnati Gazette.*

Mr. William E. Chandler of New Hampshire says he wishes Tilden had been counted in, and any shrewd democrat ought to be glad he was not. Whichever side won in that ugly contest over the Electoral vote was likely to suffer in the next elections.—*Boston Globe.*

The republican party of Iowa may be likened, in the expressive language of the historian of the "Harp of a Thousand Strings," to "a 'possum on a simmon tree. And thunders may roll and the earth may quake, but that 'possum clings thar still. You may shake one foot loose," by the concussion of a labor movement, for instance, "but the others are thar! You may shake all his feet loose," with a civil service reform order or a Southern policy that shakes even the deepest roots of the party tree, "but he twists his tail around a limb and clings and clings forever!" There was a shaking in Ohio and some little tremor even in Iowa, but the party extended a tail of 40,000 majority of the popular vote, variegated with a legislative majority of ninety on the joint ballot, around the rock-rooted and mountain-buttressed old landmarks, and that party clings there still, unawed amid the warring elements.—*Chicago Times* (*dem.*)

Short Walking Skirts.

Among the styles for the coming season that will rejoice the hearts of all sensible persons is the revival of short skirts for street suits. Walking costumes with the skirts short enough to clear the ground have been included in the most desirable Parisian importations, and, if the American leaders say the word, this comfortable fashion will be widely and gratefully accepted. Trailing garments should never be seen in the public thoroughfares, and all women who wear them sin against the laws of good taste, and that "eternal fitness" which is so important an element in the perfection of the feminine toilet. It is to be hoped then that a movement will be made in the right direction in this department of reform, and winter walking costumes will swing clear of the mud and pestilential incumbrances of the streets, while that most inelegant and ungraceful necessity for a vigorous and violent grasp upon the backbreadths of the skirt will no longer be a source of amusement and an unfailing topic for criticism to all spectators of the process.—*Ex.*

The Old Set is Back.

The old set is back. It was William M. Tweed and Jarvis Lord who triumphed at Albany, and revenged themselves upon the reformers for a long course of persecution. Never since the old boss bought and sold Legislatures in the lump, have the vilest, most disreputable and most corrupt elements of the democratic party risked such an open assault upon decency as they have just committed in the State Convention. They made no secret of their purposes, no secret of the causes of their rage. There is not a canal thief in the State, who did not appear, in person or by proxy, in the ranks of the victors. There is not an old Tammany leader able to show himself in public who was not seen in the thick of the riot at Tweddle Hall, clamoring for revenge on the reformers who sent his friends to jail and put a guard around the public treasury. Tweed appeared by his counsel, Mr. Townsend—to say nothing of the service he received from John Kelly. Denison & Company, the great unbalanced bidders, had their attorney among the delegates, fighting with might and main against the promoters of the canal ring indictments. Spinola brought his bounty-jumpers to their aid; and when the test vote was taken which decided the defeat of honesty and respectability, and the whole rabble of frauds, swindles and ruffians started to their feet, shouting and waving hats, the great head of the canal ring was the loudest and most conspicuous person in the crowd. They can cheer now with good heart. The old set is back.—*New York Tribune.*

—We can't have everything to tickle us; The Buckeye State has gone ridiculous.

—A horse thief was on trial at Waco, Texas, recently, when his wife, a mere child, with tearful eyes and blushing cheeks, took the stand and testified that her husband had bought the horse from a man she had never seen but once, and produced the bill of sale. The jury burst into tears and acquitted him, and locked in each other's arms the devoted couple left the court amid applause. Two hours later the discovery was made that the wife had been schooled by one of the worst thieves in the prison, who had written the bill of sale for her.

—After a stunning circus parade, two small boys met on the street. One of them, his face glowing with excitement, said; "Oh, Johnny! did yer see the feller with the snakes around his neck?" No word from Johnny. "Yer see the man in the lion's cage, uncourse?" No word or sign from Johnny, save and except the cloud upon his brow. "Well, yer see the ponies with the red blankets on, didn't yer?" "Naw and I didn't," said Johnny, at last, bursting into tears; "I had to stay at home and tend our baby; but I kin lick the stuffin' out of you!"

Tilton No. 18 Congress St. Portsmouth, N.H.

WOMAN.

By an immense practice, extending through a period of years, having within that time treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and agreeable medicine that meets the indications presented by that class of diseases with positive certainty and exactness.

To designate this natural specific compound, I have named it

Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my high appreciation of its value, based upon its extensive curative action. As a careful observer, I have, while witnessing its positive results in the few special diseases incident to the separate organism of woman, singled it out as **the climax or crowning gem of my medical practice**. On its merits, as a positive, safe, and efficient remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly and in harmony with the laws which govern the female system, I am willing to rest my reputation as a physician. I may, also, state, in confidence, that I think it will not disappoint the most sanguine expectations of a sufferer, for any who uses it for any of the purposes for which I recommend it, that I offer and will pay for a **POSITIVE GUARANTEE**. If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle, two-thirds of the medicine having been taken according to my directions, and the case being one for which I recommend it, promptly refund the money paid for it. Had I not the most perfect confidence in its success, I could not offer it as I do under these conditions; but having witnessed its truly miraculous cures in thousands of cases, **I feel warranted and perfectly safe in risking both my reputation and my money on its merits.**

The following are among those diseases in which my **Favorite Prescription** has worked cures, as it by magic, and which it certainly never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or Falling of the Uterus, Anteversion and Retroversion, Bearing Down Sensations, Internal Heat, Nervous Prostration, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, Female Weakness, and very many other chronic diseases incident to woman but not mentioned here. In all affections of this nature, my Favorite Prescription works cures—**the marvel of the world.** This medicine I do not extol as a cure-all, but it admirably fulfils **a singleness of purpose**, being a perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of $1.50. It treats mainly of those diseases peculiar to Females, and gives much valuable advice in regard to the management of these affections.

FAVORITE PRESCRIPTION SOLD BY ALL DRUGGISTS.

E. G PIERCE, JR., P. M.

SUPREME COURT.

The Supreme Court began its October term in this city on Tuesday, Hon. Clinton W. Stanley on the bench. Prayer was offered by Rev. Mr. Hubbell, of the North church. The Grand Jurors were summoned, and a brief charge having been given by the Court, retired to their room. Solicitor Small is in attendance upon the Grand Jury, which is composed of the following named gentlemen:

Robert Collins, Seabrook, Foreman; John F. Gill, Kensington; Henry C. Smith, Londonderry; Alfred A. Meloon, Newcastle; Robert Smart, Newmarket; George B. Merrill, Newton; Charles C. Barton, North Hampton; Charles F. Cate, Northwood; Marcrus M. Taylor, Nottingham; George Sumner, Plaistow; Charles C. Akerman, Portsmouth (Ward 2); William D. Ladd, Raymond; Lewis L. Perkins, Rye; Charles M. Russ, Salem; Wm. I. Moore, Sandown; Frederick B. French, South Hampton; James B. Martin, South Newmarket; Greenleaf C. Brown, Stratham; Jacob A. Nesmith, Windham; Isaac R. Hovey, Atkinson; Henry Bean, Newington.

The entire day was consumed in calling the docket; and no cases were heard during the session of the day except by the Judge in chambers.

OVERSEERS' MEETING.

At the regular meeting of the Board of Overseers of the Poor, held at the City Rooms on Tuesday evening, the following communication from the Mayor was accepted and adopted:

To the Board of Overseers: *Gentlemen:* As I am equally desirous of doing my duty as a a member of this Board, to the city and to the poor, and should deprecate any course which should in its effect deprive the poor of proper relief; and as I feel that we each desire to perform our respective duties according to the requirements of our oaths of office, though entertaining different views of our rights and obligations, I propose that the questions as to the legal and proper mode of furnishing supplies shall be submitted to some legal gentlemen of this city who have not been consulted upon this question by any member of the Board; and, from the legal as well as municipal experience of Hon. A. R. Hatch and Hon. W. H. Y. Hackett, I am led to suggest that the question at issue be submitted to these gentlemen, of whose legal knowledge and candid judgment, I trust no one can have any doubts; and that the Board abide by such opinion as they together shall in writing express to us as the law to govern our action in the matter at issue. Trusting that you may appreciate this as an effort to arrive at a proper solution of the difficulty, I submit it for your candid consideration.

J. H. Broughton.

The report of Supt. of City Farm for week ending, Oct. 16th was received, showing the number of inmates of the Almshouse during the week, as follows:

Paupers twenty, convicts two, boarders eight, male help two, female help two, Superintendent's family three.

POLICE COURT.

Tuesday, Oct. 16th.

George Tighe was charged with an assault on Thomas Collins. The evidence showed that Collins was remarkably drunk, and Tighe and a person named Walter Laskey were trying to get him home; and that Collins resisted and "cut up" until Tighe lost his temper and struck Collins. Tighe was allowed to go.

Walter Laskey, same charge as against Tighe—case *nolled.*

Thomas Collins, for brawl and tumult, was fined $3, costs $7.27.

PORTSMOUTH AND VICINITY.

The meeting of the children this evening at Franklin Hall in the interest of the treatment of our domestic animals will commence at 7 o'clock. An admission of five cents will be charged adults. Dr. Goodall will lead the music with the double quartette of male voices, which of itself alone is a sufficient guarantee of a good entertainment. All are invited, both young and old.

Rev. Mr. Morgan, of Boston, will lecture in the Methodist church this evening. Mr. Morgan is a man of wonderful power as a speaker and delineator of character. He has filled Music Hall, Boston, to overflowing night after night, with men from all classes of society, eager to listen to his eloquent words. Our people will have an excellent opportunity of hearing this singularly interesting lecturer.

For the Hall Show under direction of Portsmouth Grange, to be held Oct. 24th to 27th, liberal premiums will be awarded at the discretion of the committees, for the best grains, fruits, flowers and vegetables; for needle work and other useful and fancy household manufactures; and for dairy products, bread, etc.

The fastest sailing boat owned in Portsmouth Harbor is the property of Mr. Plumer D. Norton, a business man of that city. It skips over the water at a speed which is actually astonishing. The boat is the pride of its owner and the wonder of all who have seen it sail. It sailed into Portsmouth from the Isle of Shoals, on a recent date, with Mr. Norton at the helm, in less than one hour. We are indebted to Mr. Norton for the pleasure derived from a ride in this boat the other day.—*Gt. Falls Journal.*

On Thursday the riggers' gang of the navy yard, under foreman William Pinkham, will commence operations to raise the wrecked brig Clara J. Adams, the former contractors for the job having given it up.

Among the estimates for appropriations for the fiscal year ending June 30, 1878, is an item of $60,000 for the batteries at Jerry's Point and Gerrish's Island, at the entrance to this harbor.

The Boston *Post* says: "Efforts have been made by the local evangelical clergy at Portsmouth to induce Moody and Sankey to visit that city sometime during the winter to hold a series of meetings."

At the quarterly meeting of the Woman's Temperance League the following officers were chosen for the ensuing quarter: President, Miss Garrie E. Randall; Vice Presidents, Mrs. A. W. Haven, Mrs. S. W. Webber; Recording Secretary, Mrs. J. M. Pickering; Treasurer, Mrs. M. E. Taylor; Assistant Treasurer, Miss Ida Tilton; Corresponding Secretary, Miss Sarah Yeaton; Chaplain, Mrs. Bearse.

Mr. John W. Wilson, special police officer without pay at Portsmouth bridge, has brought a suit against ex-City Marshal John Dame to recover a reward of $100 which the plaintiff claims belongs to him for the arrest, near the bridge, of one Pettigrew, an escaped convict from the Massachusetts state prison.

The Secretary of the Navy has issued a general order, dated October 9, directing that hereafter, until further orders the working hours at the several navy yards and stations will be as follows: At Portsmouth and Boston—From the 1st of October until the 15th of November, from 7:30 A. M. until 5 P. M.; from the 15th of November until the 14th of February, from 7:30 A. M. until 4:30 P. M.: from the 14th of February until the 1st of April, from 7:30 A. M. until 5 P. M.: from the 1st of April until the 1st of October, from 7 A. M. until 6 P. M. One hour will be allowed for dinner.

Morris H. Smith, who has been station agent at North Hampton, on the Eastern Railroad, for twenty-one years, has resigned, and Frank R. Starkey, ticket agent and telegraph operator, has been appointed to the position. Mr. C. S. Drew of Boston is appointed baggage-master.

—In North Carolina apples are two cents a bushel.

—They are talking in Chicago of licensing the newsboys and the bootblacks.

—Pennsylvania has the largest number of Sunday schools among the States—7,660.

—Bear in mind, ye that own horses, that an ounce of hitching strap is worth a pound of hollering.

—Touch-the-Clouds was the shortest of all the Indians who recently visited the Great Father.

—What is the difference between a fool and a man who leaves his horse standing on the cross-walk?

—Max Strakosch was married at Watch Hill on August 1st, to Miss Kate Neilson, and his friends are just finding it out.

—When a reporter sees a spittoon in a minister's study, he knows he's got a sure thing on a cigar before he leaves.

—When four women are walking abreast on the pavement they will break ranks for nothing except a man with a paint pot.

—Plain glass bottles covered with silk, upon which a monogram or name is embroidered, are a novelty among fancy toilet articles.

—Some people are troubled about how to get out of a hotel when it is afire, but a large majority are more troubled how to stay in a hotel when it isn't afire.

—Amateur sportsman returns in triumph from a day's shooting with a splendid hare, and says to his wife: "There, you said I couldn't shoot. You didn't expect to see me bring this home?" "Yes, I did; the servant next door saw you buy it round the corner."

—A foolish young man writes to the New York *Sun*, to know whether there is anything in the rule of etiquette to forbid his calling on a certain young lady 112 days in succession. The *Sun* replies that there is no rule of etiquette which specially forbids a man's annoying a girl to that extent, but the rules of humanity and common sense forbid it.

—All babies born in the Oneida community are at once taken from their mothers and given to some other woman to nurse, and the babies are changed around so that no mother ever rears, or even knows, her own child. The object is to destroy all family feeling, and to keep a woman from loving her own child better than anybody's else children.

—"Many of the Indians hereabouts" says the Austin, Nevada, *Reveille*, "have adopted biblical names, by which they are known and called among their own people and the whites. Recently Rachel and Rebecca had a little personal difficulty, growing out of jealousy for Moses. With a well-directed blow, Rebecca knocked Rachel out of time, and was about to sit down on her, when Solomon came along and separated them."

—On a small piece of frame-work underneath a third class smoking carriage on the London & South Western (Eng.) Railway, a water wagtail has built her nest and reared a young and thriving family of four. The train runs regularly from Cosham to Havant five times a day, in all about forty miles, and the station master says that during the absence of the train the male bird keeps close to the spot, waiting with manifest interest and anxiety the return of his family from their periodical tours.

What Sweetens the Mouth,

preserves and whitens the teeth, keeps the gums from becoming spongy, neutralizes all impurities that adhere to the dental enamel, and effectually prevents the toothache? Elegant Hair is woman's crowning beauty. When it fades, she fades as well. While it is kept bright, her personal attractions are still maintained. By preserving the hair fresh and vigorous a youthful appearance is continued through many years. Those who grieve over their fading hair turning gray too early, should know that Ayer's Hair Vigor prevents it, and restores gray or faded hair to its natural color. It is a clear and healthful preparation, containing neither oil, dye, nor anything deleterious, and imparts to the scalp what is most needed—a sense of pleasant and delightful freedom from scurf or dandruff.—*New Berne (N. C.) Times.*

$1000 IN GOLD!

To All Whom It May Concern:

The Directors of the Phosphoric Air Co. in good faith, offer the above reward, for the sworn statement of two respectable citizens of any city or town, which will prove that PHOSPHORIC AIR, the Great French Remedy, has failed to permanently cure any form of CATARRH, Asthma, Epilepsy, or any form of Nervous or Mental disease. One month's treatment, inhaler, and instructions, sent to any part of the country on receipt of $5.00.

Inhalation is the only way in which the air passages and brain can be reached.

Phosphoric Air cures by its effects upon the circulation, which is the only way disease can be eradicated from the system.

We will be happy to give a TRIAL FREE to any who can call upon us so that they may experience its immediate beneficial effects.

Consulting Rooms of Phosphoric Air Co.,

AGENTS WANTED

FOR THE

Detectives of Europe and America,

BEING

A SELECTION OF CELEBRATED CASES

IN GREAT BRITAIN, FRANCE, GERMANY, ITALY, SPAIN, RUSSIA, POLAND, EGYPT AND AMERICA.

Illustrated with 40 Full Page Engravings.

850 PAGES OCTAVO.

It is a Revelation of Struggles and Triumphs of the most renowned Detectives on the Globe for the past Twenty-five years. It traces the men, from Bank Robbers, Scientific Thieves, Lottery Men, Counterfeit Money Dealers, Pick-pockets, Sharks and Swindlers of all kinds from the public. In this book are disclosed some of the most marked instances of diabolical ingenuity and despicable plans of mischief and outrage ever recorded by pen or pencil, together with *the modes by which they were traced out,* and the offending actors duly punished. This is a capital opportunity for smart and energetic men and women. The book is meeting with astonishing success. Agents are averaging from $9 to 60 orders per week. To those who apply early for Agencies, extraordinary terms will be given, and exclusive territory guaranteed. For terms address

The J. B. BURR PUBLISHING CO.,

6mov1 HARTFORD, CONN.

Daily Chronicle.

—Those of the Yale students who have energy enough are raising full beards.

—During the riots in 1870 most persons in London, in order to save their houses from being burned or pulled down, wrote on the doors, "No popery." Old Grimaldi, to avoid all mistakes, wrote on his, "No Religion."

—It having been discovered in New York that many of the policemen were compelled, by reason of corns, bunions, and other pedal infirmities, to violate the order forbidding them to sit down whilst on duty, the Police Department of that city have appointed a chiropodist, whose duty hereafter will be to look after the feet of the police force.

—The Chicago fire department has a pet cat which has never in its life attended a fire-line concert, and which, whenever an alarm is sounded, seats itself on the dial of the telegraph instrument and there remains until the "out" signal sounds. It was a kitten at the time of the great fire, and came into the Superintendent's office a stranger, badly singed.

—A lady sent a note to the newspaper to get a receipt to cure the whooping cough in a pair of twins. By a mistake a receipt for pickling onions was unconsciously inserted, and her name attached, and she received as answer through the "Answers to Correspondents:" "Mrs. L. H. B.—If not too young, skin them pretty closely. Immerse in scalding water, sprinkle plentifully with salt, and immerse them for a week in strong brine."

—"We had many generals in the war," says General Grant, "who in all other important respects were well-fitted to take command of the army, but it seemed to be the fault or the weakness of many of them that they were afraid to assume daring responsibilities. They would not improve their opportunities or push their chances from apprehension of disaster that might possibly follow, although the odds in the risk might be altogether in their favor."

—A recently married couple at South Hadley was annoyed by the overdue enthusiastic attention of a serenading party that promised to remain all night. A hack was summoned, an empty trunk loaded on behind, and two visiting neighbors got aboard and drove away. The crowd then dispersed under the impression that the bride and groom had flown. It was, however, a bogus wedding tour, and the serenaders acknowledged themselves outwitted.

Centaur Liniments.

One thing is now thoroughly established. Never since man suffered and human agencies alleviated pain has there been any thing which went so far as a pain annihilator and curative agent as the Centaur Liniments. These Liniments have within the past year cured more cases of Rheumatism, Neuralgia, Stiff Joints, Caked Breasts, Swellings, Poisonous Bites, Burns, Lame Animals, etc., etc., than all other remedies combined. As the name of Centaur implies half horse and half man, the Centaur Liniments are for man and beast. But not the same Liniment. The White Liniment is for man and the Yellow for horses and animals. Herein this Liniment differs from all other remedies, although some of the ingredients are alike in each. They contain the well-known Witch Hazel, Arnica, Carbolic, Rock Oil, Mentha and other powerful ingredients.

Wm. H. Hickcox, Rector of St. John's E. Church, Wakefield, Clay Co., Kansas, writes: "Many years I have been suffering from a Weak Back, caused from a sprain more than 40 years ago. I have not found any thing to relieve me until I commenced the use of Centaur Liniment. I feel it my Christian duty to inform you that by its wonderful effects I am entirely relieved of pain. January 22d, 1876."

Messrs. J. McClure & Co., Druggists, Cincinnati, Ohio, say:

"Teamsters pronounce the Yellow Centaur Liniment superior to any thing they have ever used. We sell several dozen bottles per month, and the sale is steadily increasing."

These are only samples of thousands upon thousands of similar testimonials reaching us every month. All the Extracts, Embrocations, Salves and Ointments in existence are not doing one-tenth the good which is done by these admirable Centaur Liniments. For Frost-bites, Stings, Cuts, Itch, Salt Rheum, etc., there is nothing like the Centaur Liniment, White Wrapper. For Spavin, Ring-bone, Sweeney, Wind-Galls, Poll-evil, Scratches, etc., on horses, the Yellow Centaur Liniment is equally as good. They are certain in their effects; they are pleasant to use, they are handy and they are cheap. No family should be without Centaur Liniments. They are worth one hundred times their cost.

J. B. ROSE & CO., 46 Dey St., New York.

Castoria.

Mothers may have rest and their babies may have health, if they will use **Dr. Pitcher's Castoria** for Wind Colic, Worms, Feverishness, Sour Mouth, Croup, or Stomach Complaints. It is entirely a vegetable preparation, and contains neither mineral, morphine, nor alcohol. It is as pleasant to take as honey, neither gags nor gripes, and is superior to any remedy in existence.

Dr. E. Dimoch, of Dupont, Ohio, says:

"I am using Castoria in my practice with the most signal benefits and happy results, and find it a perfect substitute for Castor Oil."

This is what every one says. Many nurses in New York use the Castoria. It is prepared by Messrs. J. B. Rose & Co., successors to Samuel Pitcher, M. D. inov1

The Centaur Liniments

have created a revolution in remedies for Rheumatism, Pains, Swellings, Pains, Burns, Scalds, Stings, etc. The White Liniment is for the human family, and the Yellow Liniment is for horses. They are certain, handy and cheap.

Castoria is certain to operate. It does not nauseate or gripe like Castor Oil, but is pleasant to take, digests the food, regulates the bowels, cures wind colic, expels worms, and causes natural sleep. It is equally adapted to adults and infants. It contains neither Mineral, Morphine nor Alcohol. Children teething may have health, and mothers find rest, if they use Castoria. inov1

Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.

The novelty of modern Medical, Chemical, and Pharmaceutical Science. No use of any longer taking the large, repulsive, and nauseous pills, composed of chalk, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, **scarcely larger than a mustard seed,** that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each little **Purgative Pellet** represents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in drug-shops. From their wonderful cathartic power, in comparison to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect; but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce **a most searching and thorough,** yet **gently and kindly operating, cathartic.**

$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any calomel or other forms of mercury, mineral poison, or injurious drug.

Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, High-colored Urine, Unsociability and Gloomy Forebodings,** take **Dr Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their sensitive impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles. Their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes. Remember that all diseases where a **Laxative, Alterative, or Purgative,** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.

They are sold by all Druggists at 25 cents a bottle.

R. V. PIERCE, M. D., Prop'r,
BUFFALO, N. Y.

DR. QUAIN'S
MAGIC
CONDITION PILLS!

The Wonderful Remedy for Liver Complaint, Biliousness, Dyspepsia, Constipation, Neuralgia, Rheumatism, Headache, Kidney Complaints, Nervousness, Scrofula, Piles, and all diseases arising from a bad state of the Blood!

No medicine ever offered to the public has given such universal satisfaction as Dr. Quain's Magic Condition Pills. Their praises are on every tongue where their merits are known. They strike at once at the seat of disease and show their healing power almost immediately. Thousands of voluntary testimonials of their merits have been received by the agent, from those who have been cured by them, of which the following are samples:

Dyspepsia Four Years, Constipation and Inflammation of the Bowels Three Years, Confined to my Room Two Years, Pain so I Could Not Sleep Without Morphine. One Package of Dr. Quain's Condition Pills Made Me Eat Well, Sleep Well and Free from Pain, after being given up by Physicians.

West Lebanon, Me., Feb. 21, 1

Mr. Thomas W. Lane:—I have been sick for 5 years with Dyspepsia, and for the past three years Constipation and Inflammation of the Bowels. have suffered all the pain I could endure and live. have been confined to my room for two years, and could not sleep nights without the use of morphine. I have been given up by physicians as past cure. I have taken one package of Dr. Quain's Condition Pills, and they have done me more good than all the doctors I have had. I sleep well, I eat well and have no pain. They are all they are recommended to be. Please send me three packages, as two of my neighbors wish to try them. I enclose $5.50.

Your truly, JOHN W. LORD.

Another Letter from May. John W. Lord, one month later Wonderful Cures by Dr. Quain's Pills Effected on Him in Thirteen Days. First time Free from Pain for Three Years.

West Lebanon, Me., March 22, 1875

Mr. Thomas W. Lane:—I commenced taking Dr. Quain's Condition Pills February 9th, and wrote you February 20th of their wonderful effects. I have continued to improve ever since. My appetite is good, and I sleep as well as I ever did in my life. I am free from pain for the first time in three years. When I was taken sick four years ago, I weighed one hundred and two pounds; I now weigh one hundred and thirty, but, as I am gaining in strength, I have faith I shall regain my flesh this summer, by the use of the Pills. I shall continue taking them for some time to come.

Yours truly, JOHN W. LORD.

Dr. Quain's Pills the Remedy for Soldiers' Aches and Pains.

West Lebanon, Me., June 1, 1875.

Mr. Thomas W. Lane—*Dear Sir*:—I am now able to walk out every day, and am gaining in strength very fast, all of which is due to you as agent for the best Pills in the world. I have taken other medicine, and my improvement has been steady since first taking Dr. Quain's Condition Pills. They have done everything for me, and I will say to you, advertise them direct to the soldiers, for they will certainly cure them of aches and pains caused from exposure and hardship on the field. Please send me by return mail another package.

JOHN W. LORD.

Rheumatism for Twenty Years Cured by One Package of Dr. Quain's Condition Pills—"The Best Medicine in the World."

East Andover, N. H., Dec. 10, 1875.

Mr. Lane—*Dear Sir*:—As I know the value of Dr. Quain's Condition Pills and the good they have done me, I take pleasure in giving them praise; so I send you another testimonial. My father has been troubled with rheumatism for twenty years or more, and has tried everything that could be thought of, but to no purpose. At times it would be so bad that he could not lift his hand to his head or go any work at all, especially in cold weather. A short time ago I advised him to get some of these Pills. He believed nothing in them, but I gave him the last package I had of you, as I did not need them, and he has not been as free from the Rheumatic Complaint for years. No Rheumatism, no pain. What helped him? It was Dr. Quain's Condition Pills, the best medicine in the world. There is nothing like them. I *know* of, for I have tried them, and they are all, yea, more than they are recommended to be. Give them a fair trial and you will say so. I write this because I know the goodness of them and wish others to know the same. Some may think I am telling a big story—I am. But remember I am not giving them half the praise they ought to have.

Yours with respect ED. F. PEVAREE.

Wonderful Effect of Four Doses of Dr. Quain's Condition Pills upon Neuralgia of Twelve Years' Duration—Testimony of Rev. J. S. Patton.

Daingerfield, Morris Co., Texas, Nov. 15, 75.

Mr. Thomas W. Lane—*Dear Sir*:—I have been afflicted for near twelve years with Neuralgia in the face and head. I tried I do not know how many physicians, and could only get partly relieved. I also tried many patent medicines with the same result. I have been confined to my room most all the time for eight or ten winters, and have spent travelling and visiting medical springs, and I still suffered most intensely. The physicians pronounced my case the worst and most stubborn that they had anything to do with. One told me I could never get well; they all advised me to go South and spend the winter, and thought that was the only chance for me, and I was trying to get ready to go to Florida, when through the kindness of Rev. H. M. Pulliam, my attention was called to the advertisement of Dr. Quain's Magic Condition Pills. I immediately sent to you for a package. I have taken four doses and I am almost free from pain. The impression here seems to be that the pills will cure anyone, they wrote you for a package. I have five applications to send for the pills. Enclosed please find three dollars; send five packages to me and one to Mrs. Laura Sherrell, Sulphur Springs, Hopkins county, Texas.

Yours truly, J. S. PATTON.

Liver Complaint, Nervousness, Dropsy and Headache.

Laconia, N. H., Jan. 22, 1875.

Thos. W. Lane—*Sir*:—I have been troubled with Bad Blood, Liver Complaint, Nervousness, Dropsy and Headache. I have taken one package of Dr. Quain's Condition Pills. They have done me more good than all the medicine I ever took; I have taken considerable medicine within the last five years. For the nerves I think there is nothing so good as those pills. I can recommend them to all who are similarly afflicted, they have done me so much good. I think they will recommend themselves wherever they go. I shall recommend those Pills to all who need them. Please send me two packages more, one for myself and one for a lady friend of mine. Many thanks to the inventor, agent and advertiser of those Pills.

MRS. P. L. ELLIOTT.

Dr. Quain's Magic Condition Pills are put up only by the American Medicine Co., Manchester, N. H., THOMAS W. LANE, Agent.

PULMOCINE.

BUCHMAN'S PULMOCINE CORDIAL

is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best *Pulmonary Curative* he could prescribe, after dozen years spent in experimenting with it before he was satisfied that the Materia Medica could add nothing in its favor.

Among its many ingredients are *Wild Cherry Bark, Squill Root, Liquorice Root, Blood root, &c.* It is a Blood Purifier, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

for the terrible diseases engendered by the inclemency of the ever-varying climate of New England!

PULMOCINE CORDIAL

is a speedy and reliable Preventive and Remedy. Every Family should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or Inflammation of the larynx, Diphtheria, and all kindred *Throat Diseases* at all times prevalent, it is the ounce of *Prevention.* Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate reach. A dose of Pulmocine Cordial gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this *Family Medicine* prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all thus afflicted. Buchman's Pulmocine Cordial arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and patient's danger is past.

For Coughs,

Croup,

Diphtheria,

Asthma, etc.,

USE

Buchman's Pulmocine Cordail.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, absolutely pure and unadulterated.

CITY HEALTH REGULATIONS.

THE BOARD OF HEALTH OF THE CITY OF PORTSMOUTH call the attention of the public to the following sections of Chapter 10, of the Revised Ordinances, and invite all interested in the preservation of health in our city to aid them in the execution of their duty:

SEC. 3. All waste water of houses, yards, cellars, sinks, pumps, etc., shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

SEE. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners and occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

SEC. 6. No vender of meat at the stalls shall be permitted to leave any stale meat, heads, feet or offal of any kind about their stalls or stores over night, or suffer them to be thrown into any street, lane or alley of the city. Nor shall any seller of fish be permitted to throw any offal of fish into any street, lane or alley of the city, or upon any wharf, but shall either bury them or throw them into the river beyond low water mark.

SEC. 7. If any dead animal or decaying vegetable substance, or any other nuisance, shall be found in any part of the city, the owners or occupiers of the premises where such nuisance shall be found, shall cause the same to be removed within twenty four hours after being notified so to do by one or more of the health officers.

SEC. 13. When any householder shall know that any person within his family is taken sick of the small pox, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Health Officers.

SEC. 13. When any physician shall know that any person whom he is called to visit is infected with the small pox, or any other disease dangerous to the public health, such physician shall immediately give notice thereof to the Health Officers.

SEC. 14. If any such householder or physician shall refuse or neglect to give the notice required in the preceding sections, he shall for each refusal or neglect, forfeit the sum of twenty dollars, to be recovered by either of the Health Officers in the name of the city.

SEC. 16. The Health Officers may give written notice to the owner or occupier of any building, yard or enclosure, to remove or destroy any nuisance or other thing deemed by them on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said Health Officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, yard or enclosure, and cause said nuisance or other thing aforesaid to be removed or destroyed.

SEC. 21. No person shall erect, keep or continue, or permit to be erected, kept or continued, upon any land occupied by him, any pen for the keeping of swine, or privy, over either of the mill ponds in this city, or so placed that offensive substances therefrom shall be discharged or drained into either of said ponds, or into any creek, or cove, or drain leading thereto. And no person shall construct, keep or continue any drain leading from any pen for the keeping of any swine, slaughter-house, privy vault, or other unwholesome or offensive place, into either of said ponds, or to any flat or marsh adjoining the same. And no person shall throw or suffer to be thrown from his land into either of said ponds, or upon any of said flats or marshes, any dead, decaying, unwholesome or offensive animal or vegetable substances.

Portsmouth Chronicle.

THE PRESIDENT'S MESSAGE.

Fellow Citizens of the Senate and House of Representatives:—

The adjournment of the last Congress without making appropriations for the support of the army for the present fiscal year has rendered necessary a suspension of payments to the officers and men of the sums due them for service rendered after the 30th day of June last. The army exists by virtue of statutes which prescribe its numbers, regulate its organization and employment, and which fix the pay of its officers and men and declare their right to receive the same at stated periods. The statutes, however, do not authorize the payment of the troops in the absence of specific appropriations therefor. The Constitution has wisely provided that "no money shall be drawn from the Treasury but in consequence of appropriations made by law," and it has also been declared by statute that "no department of the government shall expend in any one fiscal year any sum in excess of the appropriations made by Congress for that fiscal year." We have therefore an army in service, authorized by law, and entitled to be paid, but no funds available for that purpose. It may also be said, as an additional incentive to prompt action by Congress, that since the commencement of the fiscal year the army, though without pay, has been constantly and actively employed in arduous and dangerous service, in the performance of which both officers and men have discharged their duty with fidelity and courage, and without complaint. These circumstances in my judgment constitute an extraordinary occasion requiring that Congress be convened in advance of the time prescribed by law for your meeting in regular session.

The importance of speedy action upon this subject on the part of Congress is so manifest that I venture to suggest the propriety of making the necessary appropriations for the support of the army for the current year, at its present maximum numerical strength of twenty-five thousand men, leaving for future consideration all questions relating to an increase or decrease of the number of enlisted men. In the event of the reduction of the army by subsequent legislation during the fiscal year, the excess of the appropriation could not be expended; and in the event of its enlargement the additional sum required for the payment of the extra force could be provided in due time. It would be unjust to the troops now in service, and whose pay is already largely in arrears, if payment to them should be further postponed until after Congress shall have considered all the questions likely to arise in the effort to fix the proper limit to the strength of the army. Estimates of appropriations for the support of the military establishment for the fiscal year ending June 30, 1878, were transmitted to Congress by the former Secretary of the Treasury at the opening of its session in December last. These estimates modified by the present Secretary so as to conform to the present requirements, are now renewed, amounting to $32,436,764.98, and having been transmitted to both Houses of Congress, are submitted for your consideration.

There is also required of the Navy Department $20,386,127. This is made up of $1,446,688 due to officers and enlisted men for the last quarter of the last fiscal year, $311,935 due for advances made by the fiscal agent of the government in London, for the support of the foreign service, $50,000 due to the Naval Hospital fund, $150,000 due for arrearages of pay to officers, and $45,219.58 for the support of the Marine Corps.

There will also be needed an appropriation of $262,535.22 to defray the unsettled expenses of the United States Court for the fiscal year ending June 30th last, now due to attorneys, clerks, commissioners, and marshals, and for rent of court rooms, the support of prisoners and other deficiences.

A part of the building of the Interior Department was destroyed by fire on the 24th of last month. Some immediate repairs and temporary structures have, in consequence, become necessary, estimates for which will be transmitted to Congress immediately, and an appropriation of the requisite funds is respectfully recommended.

The Secretary of the Treasury will communicate to Congress, in connection with the estimates for the appropriations for the support of the army for the current fiscal year, estimates for such other deficiences in the different branches of the public service as require immediate action, and cannot, without inconvenience, be postponed until the regular session.

I take this opportunity also to invite your attention to the propriety of adopting at your present session the necessary legislation to enable the people of the United States to participate in the advantages of the International Exhibition of agriculture, industry and the fine arts, which is to be held at Paris in 1878, and in which this government has been invited by the government of France to take part. This invitation was communicated to this government in May, 1876, by the Minister of France at this capital, and a copy thereof was submitted to the proper committees of Congress at its last session, but no action was taken upon the subject. The Department of State has received many letters from various parts of the country expressing a desire to participate in the exhibition, and numerous applications of a similar nature have also been made at the United States legation at Paris.

The Department of State has also received official advice of the strong desire on the part of the French government that the United States should participate in this enterprise, and space has hitherto been and still is reserved in the exhibition buildings for the use of exhibitors from the United States, to the exclusion of other parties who have been applicants therefor. In order that our industries may be properly represented at the exhibition an appropriation will be needed for the payment of salaries and expenses of Commissioners, and for the transportation of goods, and for other purposes in connection with the object in view; and as May next is the time fixed for the opening of the exhibition, if our citizens are to share the advantages of this international competition for the trade of other nations, the necessity of immediate action is apparent. To enable the United States to cooperate in the international exhibition which was held at Vienna in 1873, Congress then passed a joint resolution, making an appropriation of two hundred thousand dollars, and authorizing the President to appoint a certain number of practical artisans and scientific men who should attend the exhibition and report their observations to him. Provision was also made for the appointing a number of honorary commissions I have felt that prompt action by Congress in accepting the invitation of the government of France is of so much interest to the people of this country, and so suitable to the cordial relations between the governments of the two countries that the subject might properly be presented for attention at your present session.

The government of Sweden and Norway has addressed an official invitation to this government to take part in the International Prison Congress, to be held at Stockholm next year. The problem which the congress proposes to study,—how to diminish crime,—is one in which all civilized nations have an interest in common, and the congress of Stockholm seems likely to prove the most important convention ever held for the study of this grave question. Under authority of a joint resolution of Congress, approved Feb. 16, 1875, a commissioner was appointed by my predecessor, to represent the United States upon that occasion, and the Prison Congress having been, at the earnest desire of the Swedish government, postponed to 1878, this commission was renewed by me. An appropriation of eight thousand dollars was made in the sundry civil service act of 1875 to meet the expenses of the commissioner. I recommend the re-appropriation of that sum for the same purpose, the former appropriation having been covered into the treasury and being no longer available for the purpose without further action by Congress. The subject is brought to your attention at this time in view of circumstances which render it highly desirable that the commissioner should proceed to the discharge of his important duties immediately.

As the several acts providing for detailed reports from the different departments of the government require their submission at the beginning of the regular annual session, I defer until that time any further reference to subjects of public interest. (Signed) R. B. HAYES.

Washington, Oct. 15, 1877.

LAME AND SICK HORSES, pronounced incurable, cured, free of cost, at Giles' Liniment Iodide Ammonia.

Daily Chronicle.

THURSDAY, OCTOBER 18, 1878.

The Eastern War.

A Russian official despatch states that Mukhtar Pasha's army has been routed and completely cut off from Kars. In the battle which took place on Monday, the 15th, the Russians captured many guns and prisoners, and large quantities of provisions.

A Turkish despatch from Kars states that the Russians have re-commenced the seige of that place. A Constantinople despatch says Moukhtar Pasha's account of the battle on Monday has not yet been received.

The London *News* correspondent with the Russian headquarters in Asia telegraphed from Karajal, Monday evening, that "this morning, our troops began an attack on the Turkish positions, and after heavy cannonading on our left wing with the Aladja batteries, we made a serious assault on Avilias Hill and the redoubt. At noon the Caucasian grenadiers, under Gen. Flemann, stormed the hill and redoubt, capturing three Krupp guns. The Ezinkoz Regiment occupied Aladja Dagh, capturing the Turkish camp. The enemy retired in disorder in three directions, being cut off in the rear from Kars. Pursuit was sharp everywhere, and will be continued to-morrow."

A despatch from Gorney Studen says the Turks have withdrawn their artillery from the Plevna redoubt, and the Russians fear that mines have been laid. A despatch from Shipka says the Turks on Monday recommenced cannonading. The weather was fine and favorable for military operations.

News and Notes.

Joy, the Rockport, Mass., murderer, who was to have been hung Oct. 19th, has been reprieved.

Camp, the Vermont state prison convict who escaped by tunneling under the wall fifteen years ago, and was only caught and returned after fourteen years of liberty, has been digging away at the same place, and was caught when he had got to within a foot of liberty. He had his haversack packed with provisions and clothing.

The French election returns give the republicans 314 and the clericals 201, with fourteen districts yet to elect. The French people did not vote as McMahon ordered them to.

James Berry, the Pacific Railroad robber, captured at Mexico, Missouri, died from wounds inflicted by Sheriff Glasscook. His dying confession was that he was one of the men who robbed the express car at Big Springs, and he said that Collins, who was killed in Kansas, planned the robbery. It will be remembered that the killing of Collins (or Comins) was said to have been a mistake, as he was a wealthy Texan and the $20,000 in gold he had with him was his own.

When the Soldiers' Home at Knightstown, Indiana, was on fire, and everybody else had abandoned the burning building, Ida Wishard, at the imminent risk of her life, made her way through the smoke and heat up to the attic, and rescued two little boys who were asleep there and had been forgotten. With a child under each arm she groped her way down three flights of stairs, and happily reached the ground in safety.

The present House of Representatives at Washington contains 175 lawyers.

The story of the Kentucky Judge, who humbly confessed his sin of over-indulgence in liquor, is yet familiar; and now comes this from Arkansas: The Mayor of Hot Springs, Ark., lectured himself very severely in court the other morning for getting drunk. "You are old enough, Linde," said he, "to know better. I am pained beyond expression that you have thus disgraced yourself and the city you, as its chief executive, represent. I must fine you $20, and see to it that hereafter you conduct yourself more properly."

People who are so unfortunate as to have litigation in the United States Supreme Court will be very grateful to Senator Davis if he gets his measure through for relieving it of all its smaller cases by the establishment of intermediate courts of appeal, composed of the Circuit Judge and the district judges in each circuit. The Supreme Court is now two years and a half in arrears with its work, with no hope of gaining upon it unless relief is afforded.

Neal Dow was called into the Portland police station Saturday night to confront a tipsy book agent who insisted that they drank brandy and water together on a Sound boat recently. When the irate apostle of temperance got there the fellow explained that he drank the brandy and Dow the water.

Judge Walton, of the Maine Supreme Court, said a sharp thing to a jury of Norway, Maine., who acquitted a man of stealing corn from the Grand Trunk Railway in the face of convincing evidence, by remarking: "At the same time, Mr. Foreman, don't you think you had better admonish Manuel against stealing any more corn?"

The New York *Sun* says a Trieste newspaper states that the remaining Cleopatra needle belongs to that city, and a subscription is now going on there to pay for its removal to Trieste. The Austrian Consul at Cairo has notified the Khedive of their ownership of the obelisk.

The freight agents of the steamers to and from Boston report a heavy increase both ways this fall, and the Fall River line has had to put on an extra freight steamer, while the regular boats are crowded to their full capacity. The Stonington line also is running to its full capacity of freight room. The routes by steamer to Southern ports make similar reports.

A gang of thieves, which has been operating in West Gardiner, West Waterville, and other places in that region of Maine lately, has been ferreted out and captured. The thieves are all young men. Their names are Willard Thompson and John Johnson of Gardiner, Lyman W. Cochran and Manly Brooks of West Waterville. Besides stealing from stores and dwelling houses *ad libitum* for the past six months, they have taken harnesses without number from the stables of people living in that region, who are much rejoiced at their capture.

A New York jeweler, from whom a stranger ordered $800 worth of watches in the name of a well-known Stamford man, took the goods to Stamford, instead of sending them, because he feared a swindle. He found his suspicions verified, and felt so good to think that he had not been cheated that he got drunk, when a thief robbed him of his $800 package.

The President's message to Congress in extra session is a concise and business-like document.

New Hampshire Items.

Daniel Bean's team, of Meredith, collided with a carriage in Sandwich containg two ladies, throwing them out and seriously injuring them. As Bean was considered to blame, it cost him $50.

Rollinsford has no town debt.

Some mischievous Dartmouth students locked Profs. Emerson and Quimby in the cottage chapel Saturday night.

A gentleman of Buffalo, N. Y., and a resident of Candia, have offered $500 toward a bell and clock for the Freewill Baptist Church in that village. The sum required is $1000.

The New Hampshire Baptist Convention opened in Concord on the 16th, to continue three days.

Edward Sanderson, a Providence machinist, while attempting to get a squirrel out of its hole in the bottom of a tree by the ingenious method of poking about with the butt of his gun while holding the weapon by the muzzle, was very naturally shot in the leg by an accidental discharge and is not expected to recover.

Rev. E. C. Rogers, of Rindge, has a sweet scented geranium, two years old, three feet in length, and its branches form a compact and almost perfect circle twelve feet in circumference.

Some one cleaned the fish pond at Livermore Falls of over one hundred pounds of fine trout on Thursday night of last week. The act is rendered doubly mean because great dependence was placed upon the spawn of these fish to aid in restocking the river.

A little boy only seventeen months old, son of Mr. F. Tebbets of East Haverhill, wandered from the house on Tuesday, the 16th, and in attempting to cross a brook to get to the field where his brothers were at work was drowned. When found life was extinct.

The agricultural department of Dartmouth college has seven students and eight professors.

Dr. D. E. Wells and wife of Bethlehem, celebrated their golden wedding on the 11th inst.

Parirldges are so plenty in Colebrook that villagers are shooting them in their dooryards.

The mining excitement seems to be spreading in New Hampshire. The Gardner Mountain Mining Company, with $600,000 capital, has been formed to work a copper mine at Littleton, and one with $1,000,000 is to be formed to work the White Ledge Gold Mine at Sandwich, whose citizens are all dreaming of fabulous wealth in their farms.

Dr. Waltham Barrows of Meriden has declined the position of Supervisor of the State Normal School, to which he was recently appointed by the Governor, on the ground that he cannot afford to perform the duties of the position gratis, no salary or pay attaching to the position.

An Excellent Reason.

Romein, the French actor, was an incorrigible joker, but one day he was very nearly taken in by a clock-maker in the Palais Royal. Enter Romien, pretending to be a gentleman from the country, of a very simple type indeed. Romien, with strong provincial accent—

"Pray, sir, can you tell me what are those little round machines hung up in your shop-window?"

Clockmaker—"They are called watches, sir." Unhooks one and shows it.

Romien—"Ah, watches! And what are they for, please?"

Clockmaker—"To indicate the time, sir."

Romein—"To in-di-cate the time! And how, pray?"

Clockmaker—"I will show you." Enters into brief but lucid explanation, then concluding, "You must wind up the watch every twenty-four hours."

Romien—"Every twenty-four hours! Morning or evening?"

Clockmaker—"Morning."

Romien—"Why morning?"

Clockmaker, blandly—"Because, Monsieur Romien, in the evening you are tipsy!"

Exit Romien.

A Card.

To Employers in New Hampshire: In the name of Humanity and in behalf of the cause of Temperance, I respectfully suggest that your pay day be changed from Saturday to Monday. By such a change a severe blow can be dealt the liquor traffic, the wages of many workmen which are now worse than wasted saved to their suffering families, and employers and employed alike benefitted. Will all New Hampshire newspapers please copy. JOHN W. Drew.

STATE OF NEW HAMPSHIRE.

ROCKINGHAM, SS.

By the Judge of Probate for said County.

TO the heirs at law and creditors to the estate of MARY D. HUTCHINGS, late of Portsmouth in said County, deceased, intestate, and all persons interested in said estate, greeting:

You are hereby notified that JOSIAH S. HALEY, Executor of the will of said deceased, will present his account of administering said estate at a Court of Probate to be holden at Portsmouth, in and for said County, on the second Tuesday of November next, at 10 o'clock A. M. for examination and allowance.

You are therefore hereby cited to appear at said Court to be heard thereon, and to make such objections as you may then have. And notice is hereby ordered to be given by causing this citation to be published three weeks successively in the Daily Morning Chronicle, a newspaper printed at Portsmouth in said County, the last publication whereof to be at least one week prior to said Court. By order of the Judge.

WOODBURY DURGIN,
Register of Probate.

Dated at Portsmouth, Oct. 16, 1877.

PROPOSALS FOR WOOD.

SEALED PROPOSALS will be received by the Overseers of the poor of the City of Portsmouth, until Tuesday, October 30, 1877, at 7 o'clock P. M., for one Hundred Cords first Quality HARD WOOD, to be delivered at either of the railroad stations in this city, or at the Poor House yard. The right to reject any bid is reserved.

M. BUFFORD, Secretary.

October 17, 1877.

I. O. R. M.

COUNCIL FIRE will be kindled at the Wigwam of SEWICHEWANNOCK TRIBE, No. 4, on the Sleep of the 18th Moon of the 7th Run, 5th Breath. A full attendance is requested.

Hunters, Warriors and Chiefs Degree.

Per Order,
J. W. CASWELL, Sachem.

LANGDON PARK,

PORTSMOUTH, N. H.

THE citizens of Portsmouth are respectfully informed that the funds placed in the hands of the Trustees by citizens and others have been entirely expended in the improvements thus far made in the Park. We, therefore, would hereby inform all interested that we are ready to expend in further adornments and improvements of the grounds, such sums as may be donated for the purpose; and contributions of any amount are hereby solicited to be sent at any time to the Treasurer or any other of the Trustees.

Board of Trustees.

HENRY M. CLARK, Treasurer.
T. SALTER TREDICK, Secretary.
ALFRED M. HOYT.
JOS. HILLER FOSTER.
MOSES D. GOODRICH.
JOHN H. BROUGHTON, Mayor, *Ex. Of.*

The PAMPHLET which was printed last year, containing a report of all the proceedings at the Dedication of the Park, the Addresses of Rev. Mr. DeNormandie, Hon. C. L. Woodbury and others, with a full list of the 600 Trees set, and the names of the persons or Associations who set or paid for them—may be had at 25 cents per copy, at the Bookstore of J. H. FOSTER, or at the Portsmouth Weekly Counting Room. Sent postpaid on receipt of price.

Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray, and either of them incline it to shed prematurely.

AYER'S HAIR VIGOR, by long and extensive use, has proven that it stops the falling of the hair immediately; often restores the growth; and always surely restores its color, when faded or gray.

It stimulates the nutritive organs to healthy activity, and preserves both the hair and its scalp. Thus healthy, weak or sickly hair becomes glossy, pliable and strengthened; lost hair regrows with lively expression; falling hair is checked and established; thin hair thickens; and faded or gray hairs resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions, diseases of the scalp are impossible.

As a dressing for ladies' hair, the VIGOR is praised for its grateful and agreeable perfume, and valued for the soft lustre and richness of tone it imparts.

PREPARED BY

Dr. J. C. AYER & CO., Lowell, Mass.

Practical and Analytical Chemists,

Sold by all Druggists and Dealers in Medicine. No. 3.

Pierce's Pleasant Purgative Pellets

SIZE OF PELLETS.

Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.

The novelty of modern Medical, Chemical, and Pharmaceutical Science. No use of any longer taking the large, repulsive, and nauseous pills, composed of chemp, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the valuable and other medicinal properties from the most valuable roots and herbs, and concentrate into a minute Granule, scarcely **larger than a mustard seed**, but can be readily swallowed by those of the most delicate and fastidious tastes. Each little **Purgative Pellet** represents, in a condensed form, as much cathartic power as is embodied in any of the large pills found for sale in drug-shops. From their wonderful cathartic power, in comparison to their size, people who have not tried them are apt to suppose that they are severe or drastic in effect; but such is not at all the case—the different active medicinal principles of which they are composed being so harmonized and modified, as to produce a **most searching and thorough**, yet **gently and kindly operating, cathartic.**

$500 Reward is hereby offered by the proprietors of these Pellets, to any chemist who, upon analysis, will find in them any calomel or other forms of mercury, mineral poison, or injurious drug.

Being entirely vegetable, no particular care is required while using them. They operate without discomfort to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, High-colored Urine, Unsociable and Gloomy Forebodings,** take **Dr Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being therefore preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes. Recollect that for all diseases where a **Laxative, Alterative, or Purgative,** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.

They are sold by all Druggists at 25 cents a bottle.

R. V. PIERCE, M. D., Prop'r,
BUFFALO, N. Y.

LOST!! LOST!!

$5000

BY THE HOUSEKEEPERS of PORTSMOUTH every year, by paying high prices for stoves, tin and wooden ware, furniture, &c.

TO a small family, THREE CHAMBERS in a Brick House, No. 54 Court Street. Enquire at the house.

To Let.

THREE OFFICES over the 99 Cent Store, corner of State and Pleasant Streets. Apply to March 21, 1877. GEORGE L. TREADWELL.

To Let.

BRICK HOUSE No. 24 State St. It is a fine residence for one family; or will be let for two families, for which it is well adapted. The furniture can be had if wanted. Apply at the house. W. J. LAIGHTON.

To Let.

THE WALKER HOUSE, No. 1 Elm Street. For particulars apply to WM. P. WALKER, No. 8 Market Square or HENRY A. YEATON, at Brooks & Co's, Market Street.

For Rent.

HOUSE of ten rooms, No. 2 Melcher St., near Pleasant St.; water in house; rent very low to a good tenant,—or will rent to two tenants, with six or four rooms. Apply at No. 51 PLEASANT STREET.

For Sale,

HOUSE No. 13 MYRTLE STREET. Said house contains ten finished rooms, concrete cellar, with furnace; connected is a good stable and carriage house, all in good order; will be sold *cheap!* Apply to THOS. J. SPINNEY, on the premises.

Lots of Land for Sale.

THE LOT OF LAND on North Street on Jones' Hill, near the estate of Samuel M. DeMeritt, Esq.

Also, a piece of Land on Freeman's Point, adjoining the premises of W. F. Fernald.

Also, the Dwelling House and Land of John Mathews, on Main Street in Kittery, a short distance east from Navy Yard Bridge.

WILLIAM H. HACKETT.

Woodlot for Sale.

A LOT OF FORTY ACRES, more or less, of Pasturage and Woodland, situated in Newington, being a portion of the homestead farm of the late John Fabyan. This lot is mostly covered with a heavy growth of PINE and OAK, the latter suitable for ship timber. It is also well watered, and affords an abundance of feed in the dryest seasons; some portions are suitable for tillage. For further information apply to

S. D. FABYAN, on the premises.

Newington, N. H. August 8th.

Wanted.

A FURNISHED ROOM, with gas, in a good location—with or without board, for a single gentleman. *tocl17 Address E. Z., Post Office.

Situation Wanted.

BY a young man, (a Swede,) to take care of a gentleman's premises, or on a farm; thoroughly understands care of horses and neat cattle; has good recommendations. Apply at this Office.

SUPREME COURT.

Wednesday, Oct. 17th, *Stanley, J.*

Ida A. Griswold vs. Albert C. Griswold; divorce decreed, for desertion. Page for libellant.

Mary E. Carr vs. Samuel L. Carr; divorce, and custody of child. Bartlett for libellant.

Delia A. Brown vs. Nathaniel G. Brown; bill for divorce heard. Hatch for libellant; Hills for libellee. The hearing occupied the Court until late in the afternoon. Decision reserved.

The Court adjourned until Thursday morning at half-past ten o'clock.

ORIENTAL ENTERTAINMENT.

Mr. James Rosedale, of Jerusalem, in the Holy Land, assisted by his wife and daughter, gave a most interesting lecture and descriptive entertainment in the Pearl street church, Tuesday evening, on Palestine, its cities, inhabitants, customs, etc. Mr. Rosedale is a native of Jerusalem, speaks all the languages common among the dwellers in that region, including Arabic, and was interpreter for the American exploring expedition in the Holy Land. He described the various races inhabiting Palestine, exhibiting their manner of receiving guests, singing, dancing, saluting, disputing, bargaining, betrothal and marriage ceremonies, etc. The entertainment was mostly in the Arabic language and costume, the language being interpreted by Mr. Rosedale; and it was not only very interesting and full of valuable information, but extremely amusing.

Mr. Rosedale will lecture again at the same place this (Friday) evening, at 7:45 o'clock; admission 20 cts., children half-price. Tickets for sale at the door.

THE CITY.

Foster, of the Dover *Democrat*, says that the more the temperance advocates "abuse Frank Jones the more the people like him and the more votes he is sure to get every time he is nominated. By and by, dear brethren, he is going upon the track for Governor, and then you will have to get up and get out of the way again."

The Foul Batters and Heavy Muffers played a game of base ball on the Plains, Wednesday afternoon, the Foul Batters winning by a score of seventeen to seven.

The Granite State base ball club will play the "Off 'Uns" a second game on the Plains to-morrow afternoon at 2:30 o'clock sharp. The "Off 'Uns" will play but nine men in their nine, this time.

The following is the annual report of acting missionary Loyno for the year ending October first, 1877: Missionary visits, 1910; vessels visited, 445; services held, 212; sick visits, 161; tracts distributed (about) 2900; papers and magazines, 2850; meals provided for the poor, 222; articles of clothing distributed, 206.

The south mill-bridge is undergoing extensive repairs. A wall is being built on the front facing the mill-pond, which will be a great improvement, as it will do away with the inside railing and make a walk which will need but little outlay for repairs when once completed.

Harper's for November is received, and ready for delivery at Myers' and Moses Brothers' bookstores. The contents are: Ten years' acquaintance with Alaska, with twenty illustrations; Palingenesis, a poem; The king of conjurers, with eighteen illustrations; San Antonio de Bexar, with eighteen illustrations; Contentment, A study, and The best gift, poems; Madelena, a story, three illustrations; Yachting in blue waters, five illustrations; Back to back, a story of to-day, by E. E. Hale, one illustration; A year of American travel, by Jessie Benton Fremont; and other articles.

Capt. Wm. O. Sides of this city, Grand Chancellor of the Grand Lodge of Pythians, has recently been in Franklin to make arrangements for instituting a Pythian Lodge in that town.

The steam launch "Mollie,"—the smart little craft that has been running up and down the river, and outside with fishing and picnic parties from Newmarket, Dover and other up-river places all the past summer,—has been purchased by Laighton Brothers, of Appledore.

The Overseers of the Poor, by an advertisement in another column, invite tenders for the furnishing to the city of a hundred cords of hard wood—the proper way, it would seem, to purchase such supplies as are needed in large quantities by the city. Now if the City Government would only set the tramps that come loafing around at work sawing this wood, making each one saw a specified amount to pay for his meals and lodging, so city and the city's poor would have the benefit of cheaper fuel, and the tramps wouldn't be hurt any.

NAVAL MATTERS.

Paymaster A. J. Clark is ordered to the New York navy yard.

Naval Constructor Samuel H. Pook is detached from the New York navy yard and ordered to the Boston navy yard.

Naval Constructor Thomas E. Webb is detached from special duty at the New York navy yard, and ordered to relieve Constructor Pook at that yard.

Naval Constructor Robert W. Steel is detached from special duty at the Washington navy yard, and ordered to the Boston yard as assistant to Constructor Pook.

The United States steamer Ossipee arrived in Portland harbor Tuesday morning, and sails for Hampton Roads on Thursday. The report that she was ordered here, and was on her way here from Boston, was incorrect.

U. S. S. Kearsarge, having been ordered home, left Japan for Boston via Suez canal on the 3d of September. She will go out of commission when she arrives, which she is not expected to do before February next, as her boilers are veay much out of repair (she has been in commission four years) and she must depend largely on her canvas.

Political.

Lucy Stone and Rev. Dr. Bliss met at a Colorado voting place. Bliss had fought the woman suffragists hard. Lucy said, after the introduction: "And you are Dr. Bliss. I have heard of you, and you may be assured, sir, that my respect for you is very small. Really, sir, if I had known who you were, I should not have shaken hands with you!" Bliss retorted that he "had thought her to be a lady, and that he was satisfied that he was mistaken." Then there was quite a conflict of words, and a crowd gathered, but the two politicians did not come to blows.

The confirmation of Col. Daniel Hall as Naval Officer at Boston, it is said will be opposed by some of the republican Senators, and the charges made against Mr. Hall by ex-Congressman Small of New Hampshire are to be revived.

The following is clipped from the Liberty (Miss.) *Herald*, a good democratic paper: "In this county, in Wilkinson, Franklin, and Pike, the most diabolical crimes have been secretly committed—whippings, mutilations, robberies, rapes, and murders—by bands of men under the guise of bulldozers or protective clubs. If, as was the case in more than one instance, good men denounce these acts—these crimes—they are mysteriously threatened with violence or enforced to exile, or the torch of the incendiary. In such a condition of affairs, every industrial interest of the country is depressed, and we are travelling with lightning speed on a down grade to the devil."

Gen. Garfield laughs at the idea that the Ohio result signifies the dissolution of the republican organization. He has seen a democratic majority of 2500 in Ohio one year, and a republican majority of 100,000 the next.

The editor of the Jacksonville (Flo.) *Sun*, who was present at the reception of President Hayes in Atlanta, denies the statement, circulating in Northern papers, that the rebel flag was brought out on that occasion.

Hon. Otho R. Singleton, one of the democratic Congressmen from Mississippi, is quoted as saying in Washington that the feeling in favor of sticking to the democratic party and banishing the republicans from the control of the government is universal among the Southern people, and that nothing that Mr. Hayes can do will diminish it.

—A noble lord, one of the canons at Windsor, who is good-naturedly addicted to speaking to soldiers in a friendly manner, and not as though the wearer of a red coat were "food for powder," and nothing more, was naturally much gratified when a guardsman said genially, "I like you, my lord—there's nothing of the gentleman about you!"

—On the top of Prospect mountain, near Addison, Vermont, is a remarkable pond about three-quarters of an acre in extent. Except a small space in the centre, it is covered with a thick moss, strong enough for people to walk upon. Poles are pushed through the moss at any point, but none have ever touched bottom, yet there are large trees growing and the people walk in safety. The moss forms a thick mat or carpet, and is described as being exquisitely beautiful.

—The literary ladies of Great Britain appear to have been astonishingly long lived; here is a list of them with the ages at which they died: Miss Jane Austen, 42; Mrs. Radcliffe, 59; Miss Mitford, 69; Mrs. Trimmer, 69; Miss Jane Porter, 74; Mrs. Elizabeth Montagu, 80; Mrs. Piozzi, 81; Mrs. Barbauld, 82; Miss Edgeworth, 82; Lady Morgan, 82; Madame d'Arblay, 88; Miss Hannah More, 88; Mrs. Marcet, 89; Mrs. Joanna Baillie, 89; Miss Berry, 90; Mrs. Somerville, 92; Miss Harriet Lee, 95; Miss Caroline Herschel, 98; Lady Smith, 103.

One Live Tooth

Is worth a dozen dead ones, and to secure the teeth from decay, it is only necessary to use the Fragrant Sozodont. The odor of this pure preparation is so delightful, that it is a luxury to apply it, and its beneficial effect upon the teeth is marvellous.

Unite your shattered China with Spalding's Glue.

The success which attends fair dealing is illustrated by the Louisiana State Lottery Company. This corporation, organized in 1868 for charitable and educational purposes, with a cash capital of $1,000,000 and an accumulated reserve of over $350,000, never scales or postpones its drawings. For information or tickets address M. A. Dauphin, President, P. O. Box 692, New Orleans, La.

THE GREAT REMEDY FOR SORE THROAT, PEUMOCINE CORDIAL is for sale at the UNION STORE, Market Street. Price 50 cents per bottle.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. JOSEPH T. INMAN, *Station D, Bible House, New York City.*

HALL'S VEGETABLE SICILIAN HAIR RENEWER.
This standard article is compounded with the greatest care.
Its effects are as wonderful and satisfactory as ever.
It restores gray or faded hair to its youthful color.
It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.
By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.
As a dressing nothing has been found so effectual, or desirable.
Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."
BUCKINGHAM'S DYE,
For the Whiskers.
This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

$1000 IN GOLD!
To All Whom It May Concern:
The Directors of the Phosphoric Air Co. in good faith, offer the above reward, for the sworn statement of two respectable citizens of any city or town, which will prove that PHOSPHORIC AIR, the Great French Remedy, has failed to permanently cure any form of CATARRH, Asthma, Epilepsy, or any form of Nervous or Mental Diseases. One month's treatment, inhaler, and instructions, sent to any part of the country on receipt of $5.00.
Inhalation is the only way in which the air passages and brain can be reached.
Phosphoric Air cures by its effects upon the circulation, which is the only way disease can be eradicated from the system.
We will be happy to give a TRIAL FREE to any who can call upon us so that they may experience its immediate beneficial effects.
Consulting Rooms of Phosphoric Air Co.,
94 TREMONT STREET, BOSTON.

Centaur Liniments.

One thing is now thoroughly established. Never since man suffered and human agencies alleviated pain has there been any thing which went so far as a pain annihilator and curative agent as the Centaur Liniments. These Liniments have within the past year cured more cases of Rheumatism, Neuralgia, Stiff Joints, Caked Breasts, Swellings, Poisonous Bites, Burns, Lame Animals, etc., etc., than all other remedies combined. As the name of Centaur implies half horse and half man, the Centaur Liniments are for man and beast. But not the same Liniment. The White Liniment is for man and the Yellow for horses and animals. Herein this Liniment differs from all other remedies, although some of the ingredients are alike in each. They contain the well-known Witch Hazel, Aconice, Marbotic, Rock Oil, Mentha and other powerful ingredients.

WM. H. Hickox, Rector of St. John's E. Church, Wakefield, Clay Co., Kansas, writes: "Many years I have been suffering from a Weak Back, caused from a sprain more than 40 years ago. I have not found any thing to relieve me until I commenced the use of Centaur Liniment. I feel it my Christian duty to inform you that by its wonderful effects I am entirely relieved of pain. January 24d, 1878."

Messrs. J. McClure & Co., Druggists, Cincinnati, Ohio, say:

"Teamsters pronounce the Yellow Centaur Liniment superior to any thing they have ever used. We sell several dozen bottles per month, and the sale is readily increasing."

These are only samples of thousands upon thousands of similar testimonials received as every week. All the Extracts, Embrocations, Salves and Ointments in existence are not doing one-tenth the good which is done by these admirable Centaur Liniments. For Frost-bites, Stings, Cuts, Itch, Salt Rheum, etc., there is nothing like the Centaur Liniment. White Wrapper. For Spavin, Ring-bone, Sweeney, Wind-Galls, Pull-evil, Scratches, etc., on horses, the Yellow Centaur Liniment is equally as good. They are certain in their effects; they are pleasant to use, they are handy and they are cheap. No family should be without Centaur Liniments. They are worth one hundred times their cost.

T. R. ROSE & CO., 46 DEY ST., NEW YORK.

Castoria.

Mothers may have rest and their babies may have health, if they will use **Dr. Fletcher's Castoria** for Wind Colic, Worms, Feverishness, Sour Stomach, Croup, or Stomach Complaints. It is entirely a vegetable preparation, and contains neither mineral, morphine, nor alcohol. It is as pleasant to take as honey, neither gags nor gripes, and is superior to any remedy in existence.

Dr. R. Dimock, of Dupont, Ohio, says:

"I am using CASTORIA in my practice with the most signal benefits and happy results, and find it a perfect substitute for Castor Oil."

This is what every one says. Many nurses in New York use the CASTORIA. It is prepared by Messrs. J. R. ROSE & CO., successors to Samuel Pitcher, M. D. tnov1

The Centaur Liniments have created a revolution in remedies for Rheumatism, Bruises, Swellings, Pains, Burns, Scalds, Stings, etc. The White Liniment is for the human family, and the Yellow Liniment is for horses. They are certain, handy and cheap.

Castoria is certain to operate. It does not nauseate or gripe like Castor Oil, but is pleasant to take, digests the food, regulates the bowels, cures wind colic, expels worms, and causes natural sleep. It is equally adapted to adults and infants. It contains neither Mineral, Morphine nor Alcohol. Children teething may have health, and mothers find rest, if they use Castoria. tnov1

WOMAN.

By an immense practice, extending through a period of years, having within that time treated many thousand cases of those diseases peculiar to women, I have been enabled to perfect a most potent and agreeable medicine that meets the indications presented by that class of diseases with positive certainty and exactness.

To designate this natural specific compound, I have named it

Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my high appreciation of its value, based upon my own personal observation. As a close observer, I have, while witnessing its positive results in the few special diseases incident to the system specially adapted to women, singled it out as **the climax or crowning gem of my medical career.** Out of its sphere, it is inoperative, and offered as a remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly and in harmony with the laws which govern the female system. I am willing to stake my reputation as a physician, even more, so confident am I that it will not disappoint the most sanguine expectations of a single case for which it is offered, or for any of the ailments for which I recommend it, that I offer and sell it under **A POSITIVE GUARANTEE.** If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used, I will, on return of the bottle, two-thirds of the medicine having been taken according to directions, and the case being one for which I recommend it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions; but having witnessed its truly miraculous cures in thousands of cases, **I feel warranted and perfectly safe in risking both my reputation and my money on its merits.**

The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Menstruation, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or Falling of the Uterus, Anteversion and Retroversion, Bearing Down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, Female Weakness, and very many other chronic diseases incident to women not mentioned here. In all affections of this nature, my Favorite Prescription works **cures—the marvel of the world.** This medicine I do not cast as a cure-all, but it admirably fulfils **a singleness of purpose,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can obtain it in my PLAIN AND PLEASANT SEXUAL MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of $1.50. It treats fully on those diseases deemed secret by Females, and gives much valuable advice in regard to the management of those affections.

DR. QUAIN'S

MAGIC

CONDITION PILLS!

The Wonderful Remedy for Liver Complaint, Biliousness Dyspepsia, Constipation, Neuralgia, Rheumatism, Headache, Kidney Complaint, Nervousness, Scrofula, Piles, and all diseases arising from a bad state of the Blood!

No medicine ever offered to the public has given such universal satisfaction as Dr. Quain's Magic Condition Pills. Their praises are on every tongue where their merits are known. They strike at once at the seat of disease and show their healing power almost immediately. Thousands of voluntary testimonials of their merits have been received by the agent, from those who have been cured by them, of which the following are samples:

Dyspepsia Four Years, Constipation and Inflammation of the Bowels Three Years, Confined to my Room Two Years & Pain so I Could Not Sleep Without Morphine. One Package of Dr. Quain's Condition Pills Made Me Eat Well, Sleep Well and free from Pain, after being given up by Physicians.

WEST LEBANON, ME., Feb. 22, 1

MR. THOMAS W. LANE:—I have been sick for 2 years with Dyspepsia, and for the past three years Constipation and Inflammation of the Bowels, have suffered all the pain I could endure but live. I have been confined to my room for two years, and could not sleep rights without the use of morphine. I have been given up by physicians as past cure. I have taken one package of DR. QUAIN'S CONDITION PILLS, and they have done me more good than all the doctors I have had. I sleep well, I eat well and have no pain. They are all they are recommended to be. Please send me three packages, as two of my neighbors wish to try them. I enclose $5.00.

Your truly, JOHN W. LORD.

Another Letter from May. John W. Lord, one month later Wonderful Cures by Dr. Quain's Pills Effected on Him in Thirteen Days. First time Free from Pain for Three Years.

WEST LEBANON, ME., March 25, 1875.

MR. THOMAS W. LANE:—I commenced taking DR. QUAIN'S CONDITION PILLS February 9th, and wrote you Feb. 22nd, three days after I received. I have continued to improve ever since. My appetite is good, and I sleep as well as I ever did in my life. I am free from pain for the first time in three years. When I was taken sick four years ago, I weighed one hundred and eighty-six pounds; I now weigh one hundred and thirty, but, as I am gaining in strength, I have faith I shall regain my flesh this summer, by the use of Dr. Quain's Pills. I shall continue taking them for some time to come.

Yours truly, JOHN W. LORD.

Dr. Quain's Pills the Remedy for Soldiers' Aches and Pains.

WEST LEBANON, ME., June 1, 1875.

MR. THOMAS W. LANE—*Dear Sir:*—I am now able to walk out every day, and am gaining in strength very fast, all of which is due to you as agent for the best Pills in the world. I have taken no other medicine, and my improvement has been steady since first taking DR. QUAIN'S CONDITION PILLS. They have done everything for me, and I will say to you, advertise them direct to the soldiers, for they will certainly cure them of aches and pains caused from exposure and hardship on the field. Please send me by return mail another package.

JOHN W. LORD.

Rheumatism for Twenty Years Cured by One Package of Dr. Quain's Condition Pills—"The Best Medicine in the World."

EAST ANDOVER, N. H., Dec. 10, 1875.

MR. LANE—*Dear Sir:*—As I know the value of DR. QUAIN'S CONDITION PILLS and the good they have done me, I take pleasure in giving them praise; so I send you another testimonial. My father has been troubled with Rheumatism for twenty years or more, and has tried everything that could be thought of, but to no good. At times it would be so bad that he could not lift his hand to his head or do any work at all, especially in cold weather. A short time ago I advised him to get some of these Pills. He believed nothing in them, but I gave him the last package I had of you, as I did not need them, and he has not been as free from the Rheumatic Complaint for years. No Rheumatism, no pain. What helped him? It was DR. QUAIN'S CONDITION PILLS, the best medicine in the world. There is nothing like them. *I know it,* for I have tried them, and they are all yes, more than they are recommended to be. Give them a fair trial and you will say so. I write this because I know the goodness of them and wish others to know the same. Some may think I am telling a big story. I am. But remember I am not giving away half the praise they ought to have.

Yours with respect ED. F. PEVAREE

Wonderful Effect of Four Doses of Dr. Quain's Condition Pills upon Neuralgia of Twelve Years' Duration—Testimony of Rev. J. S. Patton.

DAINGERFIELD, MORRIS CO., TEXAS, Nov. 15, '75.

MR. THOMAS W. LANE—*Dear Sir:*—I have been afflicted for near twelve years with Neuralgia in the face and neck. I tried I do not know how many physicians, and could only get partly relieved. I also tried many patent medicines with the same result. I have been confined to my room most all the time for eight or ten winters, and have been searching and visiting medical springs, and I still suffered most intensely. The physicians pronounced my case the worst and most stubborn that they had had anything to do with. One told me I could never get well; they all said it would be worse and spend the winter, and thought that was the only chance for me, and I was trying to get ready to go to Florida, when through the kindness of Rev. H. M. Mathis, my attention was called to the advertisement of Dr. Quain's Magic Condition Pills. I immediately sent to you for a package. I have taken four doses and I am almost free from pain. The impression here seems to be that if your pills will cure me, they will cure anybody. I have five applications to call for the pills. Enclosed please find three dollars; send five packages to me and one to Mrs. Laura Sherre', Sulphur Springs, Hopkins county, Texas.

Yours truly, J. S. PATTON.

Liver Complaint, Nervousness, Dropsy and Headache.

LACONIA, N. H., Jan. 29, 1875.

THOS. W. LANE—*Sir:*—I have been troubled with Bad Blood, Liver Complaint, Nervousness, Dropsy and Headache. I have taken one package of DR. QUAIN'S CONDITION PILLS. They have done me more good than all the medicine I ever took; I have taken considerable medicine within the last five years. For the nerves I think there is nothing so good as these pills. I can recommend them to all who are similarly afflicted, they have done me so much good. I think they will recommend themselves wherever they go. I shall recommend those Pills to all who need them. Please send me two packages more, one for myself and one for a lady friend of mine. Many thanks to the inventor, agent and advertiser of those Pills.

MRS. P. L. ELLIOTT.

DR. QUAIN'S MAGIC CONDITION PILLS are put up only by the AMERICAN MEDICINE CO. Manchester, N. H., THOMAS W. LANE, Agent.]

JOHN H. SLATER, AGENT.

PULMOCINE.

BUCHMAN'S PULMOCINE CORDIAL

is no new discovery. Twenty-three years ago it was used by one of New England's most famous physicians as the best *Pulmonary Curative* we could prescribe, after dozen years spent in experimenting with it before it was satisfied that the Materia Medica could add nothing in its favor.

Is the ultima thule of Medical Discovery.

Among its many ingredients are *Wild Cherry Bark, Squill Root, Liquorice Root, Blood root, &c.* It is a Blood Purifier, gently stimulating. It increases expectoration and is diuretic. It is sudorific and alterative. It is a necessary family medicine. It is a Tonic and a powerful aid to the digestive organs. It is a gentle sedative, and relieves nervousness. It is aromatic and agreeable to the taste.

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the lung-trying climate of New England

PULMOCINE CORDIAL

is a speedy and reliable Preventive and Remedy. Every Family should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or inflammation of the larynx, Diphtheria, and all kindred *Throat Diseases* at all times prevalent, it is the ounce of *Prevention.* Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate each. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this *Family Medicine* prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and not knowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all this afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and patient's danger is past.

For Coughs,

Croup,

Diphtheria,

Asthma, etc.,

USE

Buchman's Pulmocine Cordial.

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. It is offered to the profession and to the public, absolutely pure and unadulterated.

Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and on a full reply after examination, will be given you free.

Pensions.

ALL OFFICERS, SOLDIERS and SAILORS wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & CO. Claims prosecuted in U. S. Court of Claims and the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced practitioner employed during the war. Prompt attention to all business entrusted to GILMORE & CO. is thus secured. We desire to win success by deserving it.

PORTSMOUTH.

CITY HEALTH REGULATIONS.

THE BOARD OF HEALTH OF THE CITY OF PORTSMOUTH call the attention of the public to the following sections of Chapter 10 of the Revised Ordinances, and invite all interested in the preservation of health in our city to aid them in the execution of their duty:

SEC. 3. All waste water of houses, yards, cellars, sinks, pumps, etc., shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

SEC. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners and occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

SEC. 6. No vender of meat at the stalls shall be permitted to leave any stalls, offal, feet or offal of any kind about their stalls or stores any where, or suffer them to be thrown into any street, lane or alley of the city. Nor shall any sellers of fish be permitted to throw any offal of fish into any street, lane or alley of the city, or upon any wharf, but shall either bury them or throw them into the river beyond low water mark.

SEC. 7. If any dead animal or decaying vegetable substance, or any other nuisance, shall be found in any part of the city, the owners or occupiers of the premises where such nuisance shall be found, shall cause the same to be removed within twenty four hours after being notified so to do by one or more of the health officers.

SEC. 12. When any householder shall know that any person within his family is taken sick of the small pox, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Health Officers.

SEC. 13. When any physician shall know that any person whom he is called to visit is infected with the small pox, or any other disease dangerous to the public health, such physician shall immediately give notice thereof to the Health Officers.

SEC. 14. If any such householder or physician shall refuse or neglect to give the notice required in the preceding sections, he shall for each refusal or neglect, forfeit the sum of twenty dollars, to be recovered by either of the Health Officers in the name of the city.

SEC. 16. The Health Officers may give written notice to the owner or occupier of any building, vessel or enclosure, to remove or destroy any nuisance or other thing deemed by them on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said Health Officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, vessel or enclosure, and cause said nuisance or other thing aforesaid to be removed or destroyed.

SEC. 21. No person shall erect, keep or continue, or permit to be erected, kept or continued, upon any land occupied by him, any pen for the keeping of swine, or privy, over either the land of any street in the city, or so placed that offensive substances therefrom shall be discharged or drained into either of said ponds or into any creek, or cove, or drain leading thereto. And no person shall construct, keep or continue any drain leading from any pen for the keeping of any swine, slaughter-house, privy vault, or other unwholesome or offensive place, into either of said ponds, or to any flat or marsh adjoining the same. And no person shall throw or suffer to be thrown from his land into either of said ponds, or upon any of said flats or marshes, any dead, decaying, unwholesome or offensive animal or vegetable substances.

$522,500 distributed in prizes or different denominations. Drawings superintended by Generals G. T. Beauregard, of La., and General Jubal A. Early, of Va., Commissioners for the Southern and people. For information, apply to them or to A. DAUPHIN, P. O. Box 692, New Orleans, La.
w&s&6tnov1

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor; preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,
For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

MANUFACTURED BY
R. P. HALL & CO., Nashua, N. H.
Sold by all Druggists and Dealers in Medicine. No. 5.

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $50 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once, GUY & CO.,
H. HALLETT & CO., Portland, Maine.

Daily Chronicle.

A Vagrant Philosopher.

In the hip pocket of an old vagrant taken in by the police the other night, was a memorandum book full of his own writing with pencil, and some of his philosophy is good enough to be preserved. His first paragraph reads:

"Drinking bad whiskey because it is offered free is like getting in the way of bullets purchased by an enemy."

A second reads:

"Honesty is the best policy, but some folks are satisfied with second best. It is hard to be honest on an empty stomach."

A third runs:

"A dry plank under a rain-proof shed is better than a feather-bed in jail, and one isn't annoyed by the jailer bringing in a square breakfast."

A fourth says:

"Pay as you go. If you haven't anything to pay with, don't go. If you are forced to go, record every indebtedness, and let your heirs settle the bills."

The fifth is recorded:

"Politeness costs nothing, but it is not expected that you will wake a man up at midnight to ask permission to go through his hen-house. It is more courteous to let him enjoy his needed repose."

The sixth and last was noted down as follows:

"When you pick up an apple core do not find fault because it is not the apple itself, but be satisfied with the grade of descent. Do not be ashamed of your occupation. We cannot all be lords nor can we all be vagrants. As I cannot be a lord, I should not lament at being a vagrant. Be truthful and outspoken. That is, tell 'em you are a Chicago fire-sufferer. Keep seasonable hours or some other vag will get your plank first. Be hopeful and good-natured. Growling won't cure a sore heel."

—The Norwich and New York Steamboat Company, taking warning from the experience of the Massachusetts, now drill their hands twice a week in boat-lowering, rowing, heaving anchors, etc.

—A mouse stays in a Sacramento jeweler's window and catches flies. The *Record* says: "The mouse does not in the least seem disconcerted or frightened in his pursuit and capture of the flies by the crowd gazing at him, but pursues his self-imposed duty with an avidity which discounts all the patent fly-paper in the market."

—The Indianapolis *Herald* having become a workingman's paper, thus addresses the workers: "Don't listen to the viper hisses of our enemies. We are honest. We love you. We want every workingman to come in and take two dollars' worth of our sympathy. The *Herald* is eminently a poor man's paper. Lantern-jawed, gamboge-eyed leaders may tell you we are only after your two dollars. It is a lie. We want you to have the full benefit of our sympathy, and we will let you have it at the regular rates."

—The greatest of the cat-races ever held in Belgium came off recently at Belcele, near Bonsecours. There were seventy entries for the chief prize. The animals were carried some four miles from the village in baskets, and there let loose. Of course they all ran toward home swiftly. Minette, a pretty white cat with a pensive eye, reached the town first and won the first prize—a silver coffee-pot. Lolo, a big tortoise-shell, which had been made the favorite in the betting, jumped the course, and has not since been heard of.

Congress.

The House on Wednesday seated Pacheco, republican, from California, and Elam and Robertson, democrats, from Louisiana. The democratic papers assume great non-partisan virtue for their party, because some of the democratic representatives voted to admit Pacheco, while the republicans voted solidly against Elam and Robertson; the difference is, that Pacheco was elected, and Elam and Robertson were not. The case of Belford, republican, of Colorado, elected by more than a thousand unquestioned majority, will be sent to committee to decide if it is necessary, "for the good of the party," to give his seat to a democrat. The House adjourned to Saturday, then to adjourn to Monday.

In the Senate, the democrats attempted to secure the admission of Spofford, of Louisiana, but no action was taken. Beck, of Kentucky, introduced a bill providing that fifty per cent of customs dues may be paid in legal tender notes.

In the Senate, Thursday, Spofford's case was referred to the committee on credentials, by a party vote, Booth, Christiancy, Conover, Matthews, Patterson and Spencer voting with the republicans, and Davis with the democrats. A motion by Mr. Whyte, of Maryland, to instruct the committee to report by Nov. 1st, was defeated by a vote of 31 yeas to 35 nays. Kellogg's credentials were referred to the same committee, to be reported on at same time as Spofford's.

The Eastern War.

According to Russian official bulletins not only was Moukhtar Pasha's force decisively defeated on Monday, but the Turkish army in Asia Minor utterly destroyed. On the morning of Monday, the 15th, a heavy cannonade was directed against Olya Tepe, which was the key to the Turkish position. In the afternoon Gen. Heymann, with about 10,000 infantry, carried Olya Tepe by assault, cutting the Turkish army in two. The centre and left wing, under Moukhtar himself, retreated upon Kars, pursued by Heyman and harassed on the flank by Lazareff, but succeeded in gaining the cover of the fortifications of Kars after a fearful rout, during which he lost a great number in killed and wounded, several thousand prisoners and four guns. Three divisions, constituting the Turkish right, had meantime been surrounded and attacked and driven from their fortified camp with great loss. Finally at eight o'clock Monday night the remnant of this portion of Moukhtar's army surrendered with thirty-two guns and a great quantity of material. Among the captured are seven Pashas. Moukhtar Pasha is in Kars. The Russian losses are relatively slight. Moukhtar's official despatch acknowledges his defeat, but he claims to have lost only 800 men.

The Russian bombardment of Plevna has been recommenced, with greater fury than ever, and a great battle is expected there very soon.

Speedy Resumption.

It is understood that the committee of bankers, to which the matter of aiding the Government to effect an early resumption of specie payments was referred in September, has substantially approved of the Coe plan. The banks under this plan propose to unite and pledge themselves to furnish the Treasury with all the gold required by the Government from time to time in redeeming maturing bonds and retiring legal tenders, the condition being that the Government shall issue to the banks new United States bonds to be held by the Treasury Department until redeemed. The banks by this plan are to have the privilege of redeeming these bonds either by payment of gold coin, or the substitution of United States bonds of any issue, or legal tenders. Meantime the national banks will credit the Treasury of the United States for the whole amount of bonds purchased as gold deposits, subject to order. A copy of the plan was forwarded to Secretary Sherman, and it is proposed to have the banks make a formal offer to the Government at once to subscribe $50,000,000 in gold to the new bonds, and have a contract entered into, to be dated January 1, 1878, and thus forestall the anticipated legislation opposed to resumption by Congress.

"No Warrants Against Democrats."

A Charleston, S. C., correspondent of the New York *Sun*, writing of the determined efforts of the democrats to punish and destroy every republican of prominence in that State who stands in the way of putting a democrat in office, says: "There are other knowing men, who say neither Chamberlain nor Kimpton will ever be brought back. They say Patterson may be returned in order to expedite a vacancy in the United States Senate, but that he will never be tried. The ground for this assertion is that Kimpton, Chamberlain and Patterson all know too much for many leading democrats, and that if they have to put on the striped suit of the penitentiary convict they will see to it they spend their imprisonment in some of the 'best society' which the State boasted during their rule. As yet the Investigating Committee have issued no warrants against democrats. They have the cases of some of them under consideration, and are yet accumulating testimony against them. The testimony against Patterson for bribery is direct, particular and voluminous. It relates particularly to his election as Senator, and will probably be used at the opening of Congress to drive him from his seat. Should the Senate expel him, Gov. Hampton will probably be made Senator in his place."

The Big Rock Lost.

The British steamer Olga, from Alexandria, Egypt, for London, with Cleopatra's Needle in tow, arrived at Falmouth, Eng., on the 17th, and reports that she was compelled to abandon the Cleopatra obelisk off Cape Finisterre on the previous Sunday night, during a tremendous gale. The crew on the craft which contained the obelisk were transferred to the Olga, but not until the Olga had lost her second mate and five hands in her endeavor to rescue them. The gale which forced the casting adrift of the craft containing the obelisk was the same which swept over England on the Sunday referred to, unroofing houses and throwing down buildings, and doing immense damage in other ways. The vessel containing the obelisk was a cylinder of very heavy plate iron, and it is barely possible the big rock may yet be found wrecked somewhere on the shores of the Bay of Biscay.

P. S. A telegram from London, Thursday evening, says: "the English steamer Fitz Maurice, from Middleborough for Valencia, recovered the Cleopatra caisson, 90 miles north of Ferrol, Spain."

News and Notes.

It pays sometimes to follow your wife's directions about looking under the bed. W. R. Rowley, of Hartford, did so, Monday night, and found a young man named Marshall Loyden, who is twenty-one years of age and has borne a bad reputation for years. He struggled some to get away, but Mr. Rowley held fast to him and delivered him over to the police. He was bound over to the Superior Court, and in default of $1,000 bonds went to jail.

Special Agent Mudge has discovered that large quantities of uncut diamonds have been smuggled into New York. A suit brought against Fox & Co: for $10,000 by the Government in this connection, has developed the fact that they were in collusion with one Marsh, an examiner in the Appraiser's Department. The suit was compromised by the United States Attorney on the payment of $5,228.

A Baltimore paper of the 16th inst. says: The second case of collection of extra tonnage tax under the order recently promulgated by the Secretary of the Treasury came up yesterday at the Custom House. The law provides that American vessels under the command of a foreign subject shall pay fifty cents extra beyond the thirty cents required for vessels carrying the American flag. The American ship Celestial Empire, which arrived on Sunday, is commanded by Capt. Stewart, a British subject. She is of 1620 tons measurement, and tax at the rate of eighty cents per ton was collected, the amount being $1304. Including hospital dues, this vessel paid $1512.

A fearful hurricane visited Curacoa and neighboring islands September 23, and caused great damage. The wind blew from every quarter. The sea washed away the lower part of the town of Wilhelmstadt. Nearly every house in what is known as the Petrimay quarter was destroyed, and the fortifications are in ruins. Many families are destitute. The damage to property is estimated at over $500,000. A Dutch man-of-war and the Dutch schooners Juliet and Sarah were wrecked. Several lives were lost. All the salt ponds in the neighboring island of Bonaire were ruined.

The jury who tried the suit of Mrs. Phœbe Robertson vs. James G. Bennett, before Judge Speir, in the Superior Court of New York, have brought in a verdict for $10,000 damages, the amount sued for. The suit was for a libel contained in a "Personal" in the *Herald*: "Beware of the blackmailing crowd at" (giving the the lady's address) and no retraction was published.

A Miss Edgar, of Auckland, has received the degree of B. A. of the New Zealand University.

In the early part of July Mr. Jesse Hinks, a farmer in Brewer, Me., was called upon by a good-looking young man who desired to assist in haying. Mr. Hinks engaged the person then and there, and Charles Works, as he gave his name, commenced to do all the work of a common laborer on the farm. Haying was in operation, and he took hold with readiness and was a thorough and efficient farm hand. It now appears that Charles Works, although the semblance of a man, was in reality a woman. She succeeded in disguising herself very perfectly, and none mistrusted she was other than a man. She wore men's clothing and assumed most of the habits of young men. She smoked and chewed with the rest of them, and the wielder of the shears in Brewer has shaved her several times. She is about twenty years of age, stout and strong, and as a farm laborer gave good satisfaction to her employer. Saturday night she left without telling where she was going.

Steamer Massachusetts was floated off the rocks at Rocky Point, R. I., Tuesday night, with the aid of two pontoons under her stern. The enormous steam pumps easily kept her afloat.

Morton, the great Philadelphia swindler, has been arrested for perjury.

The first news from Capt. George E. Tyson, who has gone to the Arctic seas to make arrangements for the Howgate expedition to the North Pole, comes through a letter received by his wife. It was written in a storm at sea, on August 20th, and sent to land by a whaler. In it Capt. Tyson says: "We have been having very bad weather nearly ever since we sailed, rainy and foggy, and we have just rode out a dreadful gale, which lasted five days. The Florence ships a great deal of water, as was known before she started."

Thomas Owens, twelve years old, had a petty quarrel in Lowell, Wednesday night, with Patrick Williams, aged thirteen; Owens got a pistol to Williams' head and fired, inflicting a fatal wound.

During a mutiny on board the American ship New World, off the Nore Light, the captain shot one man dead and the mate wounded another. British marines boarded the vessel and took her back to London. Minister Pierrepont, it is said, claims that the British marines had no right to take the vessel to London, she being at the time of the mutiny on the high seas.

The Australian steamer arrived at San Francisco Wednesday morning, the 17th, with the British mails two hours after the departure of the overland train. The mails were put on a special train, with instructions to overtake the express train, and by making close connection at New York with the Abyssinia for Liverpool, it is expected to deliver the Sydney mails in London in thirty-nine days from Australia.

The National Convention of the Brotherhood of Locomotive Engineers began its annual session in Boston on Wednesday.

The New Orleans *Democrat* says the German steamer Hanover, Capt. Erdmann, which arrived at New Orleans Monday night in a disabled condition, brought the thrilling intelligence that she had collided with a ship that was bottom upward in mid-ocean. It is alleged that the collision was in daylight. The Hanover had on board at the time of the collision some cabin passengers and about 380 emigrants. She had a part of her hull stove in, and in such a manner as to allow water to get into her hold. The *Democrat* reporter called at the ship Hanover, but was informed that the Captain was ashore. When other officers of the boat were asked for they declined to be interviewed, stating through an interpreter that they were not at liberty to give any particulars regarding the collision. It is also reported that there were two other ships seen by the passengers and officers of the Hanover bottom upward in the ocean.

A railroad newsboy of Pittsburgh, Pa., has just come into possession of a handsome fortune. His father died at Richmond, Va., in 1857, leaving a life insurance policy of $22,000, which the boy's guardian invested in confederate bonds, which made no return. The guardian refused to make good the loss, but after a long law suit the case has been decided in the boy's favor, and the guardian, a wealthy man, is compelled to pay the principal and interest for twenty years.

A remarkable natural fountain has been developed out of a well sunk for oil at Clintonville, Pa. An immense gas vein was found instead of oil, and a month ago the proprietors decided to draw out the casing and abandon the well. As soon as the casing was raised a foot or so, the water from the upper part of the well rushed into the hole, and was seized by the gas and thrown out at the mouth of the well to a height of forty feet. It has continued to spout at this rate ever since, throwing out twenty thousand barrels of water daily.

Six drunken Italian sailors attacked a crowd of workmen at Staten Island on the night of the 15th, when the latter fired upon their assailants, fatally wounding two of them.

With a face as red as a lobster, and back like the shelf of a clam, the wife stands over the kitchen stove and manipulates raspberry jam.—*Berkshire Courier.* While her husband, with nose like sunset, and his mouth like the song of a year, leans over the counter of "free lunch," and elevates schooners of beer.—*Hawkeye.* And her daughter, with ear like a shovel, and eye like a Florida bean, swings on the front gate with a fellow, with darkness to cover the scene.—*Graphic.* But the son, with a lip for "the ardent," and a scanty supply of "the tin," is pouring it down by the measure, without stopping to wipe off his chin.—*Boston Home Journal.* And the mother-in-law, with a gay grin, takes her stand in the lordly hall, enlarging on cards and every sin, and making it lively for all.—*Globe.* While the cred'tor sums up the column, and thinks, "How long will it be, 'fore the sheriff makes ready to haul in, and five cents on the dollar pays me?"

The New Hampshire Fish Commissioners have stocked Carpenter's pond in Epping with black bass. Jones' pond in Raymond has also been similarly favored.

—Just take notice that the cooler the nights the oftener a man's wife hears burglars seeking to get in, and the oftener he must leave his bed to search for them.

—They were discussing the subject of epitaphs and tombstones, and the husband said: "My dear, what kind of a stone do you suppose they will give me when I die?" "Brimstone, my love," was the affectionate reply.

—Another titled French turfite has come to grief. Baron de Rochetaillée, ruled off the course at Lyons for pulling the horse he was riding. He has $80,000 a year, and had not a penny pending on the race he purposely lost, but probably pulled the horse to save a penalty in a future engagement.

LOST!! LOST!!

$5000

BY THE HOUSEKEEPERS of PORTSMOUTH every year, by paying high prices for stoves, tin and wooden ware, furniture, &c.

J. L. O. COLEMAN

Will sell, for sixty days, the following goods at reduced prices:

E. G. PIERCE, JR., P. M.

THE CITY.

Master Lyman G. Spalding, U. S. N., of this city, is ordered to examination for promotion.

The *Times* says "George E. Hanson, apothecary, offers to pay his creditors ten cents on a dollar."

The Granite States propose to "knock the 'stuff'n out'n" the "Off 'Uns," this afternoon at the Plains.

Steamer Major, Capt. Wm. Robinson, left steamboat wharf on Thursday morning at eight o'clock, for Baltimore, where she will run as a tow-boat during the winter.

We are authorized to state that Mr. Elias Ayers did not die as stated by the *Times* of Thursday. He was as well on Thursday evening as he has been for some time past.

Charles Hayes & Son claim damages of the Eastern Railroad for the killing of a valuable heifer by a freight train some days ago, on the ground that the fence was down at the point where the animal got on the track.

Thomas Connors of this city, who was convicted as a participant with Leslie Norman in burning the Chesley buildings at Barnstead in 1875, and sentenced to the State prison for ten years, was pardoned on the 17th inst. by Governor Prescott, and has arrived at home.

At the New Hampshire Baptist Pastoral Association's convention, held in Concord this week, Rev. W. H. Alden, D. D., of this city, was chosen essayist for next year. Before the Sunday School Convention, held in the First Baptist Church of Concord on Wednesday, Dr. Alden read an essay entitled "defects in our Sunday School work, and how to remedy them."

C. A. Shannon & Sons have on exhibition at their nackers' establishment on Vaughan street, a pair of gold mounted harnesses which surpass in beauty and style any ever before seen in this city. They were made by this firm, and the superiority of workmanship and quality of materials used shows that no one need go out of the city to procure an elegant harness.

Mr. William C. Ham, City Messenger and Harbor Master, has been appointed a Justice of the Peace, and is now ready to splice any happy (or unhappy) couple who may present themselves at the City Rooms provided with the necessary documents. The old salt will engage to tie a nuptial knot so skillfully that it cannot be untied with a marline-spike, or anything else short of the judicial knife or death.

Under the heading of "A good appointment" the Portsmouth *Weekly* says: "Maj. Daniel J. Vaughan, of this city, has been appointed by Gov. Prescott to the office of Inspector of the State Militia. As there were a number of candidates for the position from other parts of the State, the selection is not only creditable to the good judgment of Governor Prescott, but the choice of a Portsmouth man is an honor that will be appreciated by our citizens generally, and particularly by Maj. Vaughan's many friends." As to Major Vaughan's fitness for the position and Gov. Prescott's good judgment in appointing him to it, there should be but one opinion; but we fear the selection of a soldier who fought bravely on the wrong—that is, the Union—side in the rebellion, and stopped a rebel grapeshot with his head, may be regarded as a wanton affront to the "conciliationists."

SUPREME COURT.

Thursday, Oct. 18th.

No. 51 on the Equity docket, Alfred Swain and others vs. William Hodgdon and others, was heard on Thursday. This is a proceeding relative to a school tax attempted to be levied to build a school house in one of the school districts of Epping, and it is contended that the proceedings of the meeting at which the tax was voted were not legal. The Court seemed to be of opinion that there could be no going behind the record of the meeting, but the case was left open to admit the reception of some documentary evidence. Stickney and Towle for plaintiffs; Wiggin for defendants.

Several witnesses who were summoned before the Grand Jury and declined to answer questions regarding liquor selling, on the ground that their answers would tend to criminate themselves, were brought before the Court and held for contempt. A hearing was had before Judge Stanley in the evening.

THE VICINITY.

The New Hampshire Fish Commissioners have put a number of black bass in the pond on Seavey's Island, at the navy yard,—which is in Kittery, Maine, we believe, although Congressman John Lynch, at the time he was Congressman, had an act passed calling it the "Kittery, New Hampshire, Navy Yard."

Before Thomas E. Sawyer, Esq., Register in Bankruptcy, at Dover, Thursday, Col. J. Horace Kent was appointed assignee of the estate of Charles E. Simpson, of Newcastle, bankrupt.

MARRIAGES.

WOODBURY—FRITZ. In this city, Oct. 16, by Rev. E. M. Grant, Mr. Frank P. Woodbury and Miss Lucy Fritz.

DEATHS.

VARRELL. In this city, Oct. 17, Mr. Hall Varrell, aged 74 years, 1 month and 2 days.

☞ Funeral from Court street Christian church on Saturday afternoon at two o'clock.

MORGAN. In Newmarket, Oct. 7, Mrs. Rose Morgan, widow of Patrick Morgan, aged 68.

WELCH. In York, Sept. 23, Mrs. Hannah Welch, wife of Mr. Albert Welch, aged 43 years.

WEARE. In York, Oct. 12, Mrs. Dorcas Weare, wife of Capt. Theodore Weare, aged 77 years.

RENICK. In Kittery, Oct. 10, Mrs. Anna Cornelia Renick, wife of Mr. Harrison Renick, and eldest daughter of the late Oliver Philbrick, aged 51 years 4 mos.

TARLTON. In North Hampton, Oct. 15, Mrs. Sarah Tarlton, aged 93 years, 7 months and 22 days.

LANGDON PARK,

PORTSMOUTH, N. H.

THE citizens of Portsmouth are respectfully informed that the funds placed in the hands of the Trustees by citizens and others have been entirely expended in the improvements thus far made in the Park. We, therefore, would hereby inform all interested that we are ready to expend in further adornments and improvements of the grounds, such sums as may be donated for the purpose; and contributions of any amount are hereby solicited to be sent at any time to the Treasurer or either of the other Trustees.

Board of Trustees.

FRANK W. MILLER, Chairman.
HENRY M. CLARK, Treasurer.
T. SALTER TREDICK, Secretary.
ALFRED M. HOYT,
JOS. HILLER FOSTER,
MOSES H. GOODRICH,
JOHN J. BROUGHTON, Mayor, *Ex. Of.*

The PAMPHLET which was printed last year, containing a report of all the proceedings at the Dedication of the Park, the Addresses of Rev. Mr. DeNormandie, Hon. C. L. Woodbury and others, with a full list of the 600 Trees set, and the names of the persons or Associations who set or paid for them—may be had at 25 cents per copy, at the Bookstores of J. H. FOSTER, or at the Portsmouth *Weekly* Counting Room. Sent postpaid on receipt of price.

Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray, and either of them incline it to shed prematurely.

AYER'S HAIR VIGOR, by long and extensive use, has proven that it stops the falling of the hair immediately; often renews the growth; and always surely restores its color, when faded or grey.

It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus lonely, weak or sickly hair becomes glossy, pliable and strengthened; lost hair regrows with lively expression; falling hair is checked and established; thin hair thickens; and faded or gray hairs resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions, diseases of the scalp are impossible.

As a dressing for ladies' hair, the VIGOR is praised for its grateful and agreeable perfume, and valued for the soft lustre and richness of tone it imparts.

PREPARED BY

Dr. J. C. AYER & CO., Lowell, Mass.

Practical and Analytical Chemists,

Sold by all Druggists and Dealers in Medicine. No. 3.

One Live Tooth

Is worth a dozen dead ones, and to secure the teeth from decay, it is only necessary to use the Fragrant Sozodont. The odor of this pure preparation is so delightful, that it is a luxury to apply it, and its beneficial effect upon the teeth is marvellous.

Unite your shattered China with Spalding's Glue.

The success which attends fair dealing is illustrated by the Louisiana State Lottery Company. This corporation, organized in 1868 for charitable and educational purposes, with a cash capital of $1,000,000 and an accumulated reserve of over $350,000, never scales or postpones its drawings. For information or tickets address M. A. Dauphin, President, P. O. Box 692, New Orleans, La.
